Cautionary Information

Users of this information should be cautioned about several points:
--

The general fund financial information in this document has been prepared using what is believed to be the best available data for these purposes. The tables in this document have been prepared using the same procedures used to prepare similar information for the State of Wisconsin Continuing Disclosure Annual Report, Official Statements prepared for specific securities, or reports filed in conjunction with various securities. This information is, however, preliminary in nature and subject to change.

- This information is unaudited and is not a “financial statement.” None of the data presented here has been subjected to customary fiscal period closing procedures or the procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments.
- This information only speaks as of the date on which it was prepared.
- Statements of information for dates before the date this information is prepared will almost certainly be subject to restatement and revision. Information classified as “actual”, and any difference from any prior estimate, does not signify a change to official estimates. Any official revenue or expenditure re-estimates that do occur will be separately identified, and if material, appropriately noticed.
- Projections of results for dates after the date this information is prepared are forward looking. Actual results will almost certainly differ.
 - Projections are based on the budget for the 2001–02 fiscal year (2001 Wisconsin Act 16, as enacted).
 - Projections are not adjusted to reflect actual revenues and expenditures and routine variability in the timing of receipts and disbursements, but may be adjusted to reflect unique events.
 - Projections of remaining fiscal year cash flow may be adjusted when necessary to reflect unforeseen events or revised forecasts of the general fund condition statement.
- Data in these tables of financial information are subject to revision and reclassification for prior periods. This is particularly true for revenue data, where proper classification depends on tax returns which are received and processed significantly after the tax payments are received through electronic transfers.
- Comparison of monthly general fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month.
- The State of Wisconsin is not obligated to provide this information or make it available on its website.
- None of the information in these tables of financial information is required by the State of Wisconsin’s continuing disclosure undertakings pursuant to SEC rule 15c2-12.
 - This information is not, and does not replace, a notice of a material event required by SEC rule 15c2-12.
 - This information is not, and does not replace, the annual financial information required by SEC rule 15c2-12.

(a) Excludes Inter-Fund Borrowing and is based on the 2001-03 biennial budget signed into law by the Governor (2001 Wisconsin Act 16).

(b) The General Fund cash balances presented in this schedule are not based on Generally Accepted Accounting Principles (GAAP). The General Fund includes funds designated for operations and capital purposes of certain proprietary programs of the State's Universities. Receipts and disbursements of such funds for the designated programs and the disbursement of such funds for other purposes are reflected in the cash flow. A use of the designated funds for purposes other than the proprietary programs is, in effect, a borrowing of such funds. Therefore, at any time that the balance in the General Fund is less than the balance of such designated funds, the State is obligated to replenish the designated funds to the extent of the shortfall. The designated funds are expected to range from \$150 to \$300 million during the 2001-02 fiscal year. In addition, the General Fund is the depository for several escrow accounts pursuant to court orders or federal rulings. These funds are expected to average approximately \$50 million during the 2001-02 fiscal year.

(c) Lowest daily balance within each month.

(d) The projections assume that \$450 million of proceeds from the securitization of tobacco payments due the State under the Master Settlement Agreement will be received on June 3, 2002.

(e) Includes \$800 million in operating note proceeds received in September, 2001 and impoundment payments to be made in February, March, April, and May 2002.

(f) The projections assume that \$278 million in federal intergovernmental transfer funds will be transferred to the Medical Assistance Trust Fund on November 16, 2001.

(a) The amounts shown are based on the statutory accounting basis and not on GAAP. The statutory accounting basis requires that some cash deposits made after June 30th are recorded as revenues in the prior fiscal prior year. Therefore, the revenues in this table will not be comparable to the receipts shown in the general fund cash flow tables included earlier in the report. See "ACCOUNTING AND FINANCIAL REPORTING" in Part II of the 2000 Annual Report.

(b) The amounts shown are the sum of all revenues for fiscal year 2000-01 based on the data used in the preparation of the Annual Fiscal Report, Budgetary Basis, for the year ended June 30, 2001.

(c) The amounts shown reflect the 2001-02 fiscal year budget as adopted by the Legislature and do not reflect vetoes made by the Governor when the budget was signed into law.

(d) The decrease of individual income tax is the result of tax reductions becoming effective.

(e) The statutory basis of accounting requires that certain transfers between General Fund appropriations be recorded as both revenues and expenditures of the General Fund. The amount of these transfers may vary greatly between fiscal years, and therefore, this category may not be comparable on a historical basis..
