October 15, 2002

The Honorable Scott McCallum
The Honorable Members of the Legislature

This report presents statements of fund condition and operations (budgetary basis) of the State of Wisconsin for the fiscal year ended June 30, 2002. This satisfies the requirements of sec. 16.40(3), Wisconsin Statutes. Displayed are major sources of revenues and major categories of expenditures for the General Fund and other funds compared to the prior year.

The General Fund has an undesignated balance of \$53.8 million as of the end of the fiscal year. This is \$181.3 million lower than the \$235.1 million estimate that was projected in the final Chapter 20 fund condition statement. The lower balance was the result of lower than expected tax revenues.

General-purpose revenue taxes were \$10.020 billion compared to \$10.063 billion in the prior year, a decrease of \$43 million or 0.4 percent. This decrease is the result of reductions in income tax rates and other changes to state tax laws made in 1999 Wisconsin Act 9 combined with a general slowdown in the economy. General-purpose revenue expenditures, excluding fund transfers, were \$11.259 billion compared to \$11.078 billion in the prior year, an increase of \$181.0 million or 1.6 percent.

General-purpose revenue spending increases in fiscal year 2002 were largely driven by increases in three areas: School Aids increased by \$139.6 million (3.2 percent), Medical Assistance increased by \$77.3 million (7.8 percent), and Corrections increased by \$14.9 million (1.9 percent) overall.

In fiscal year 2002, the State of Wisconsin continued to devote the major share of state tax collections to assistance to local school districts, municipalities and counties. Local assistance accounted for 60.3 percent of total general purpose revenue spending. Aid payments to individuals and organizations represented 16.8 percent of total general purpose revenue expenditures. The University of Wisconsin accounted for 8.6 percent of total general purpose revenue spending and state operations spending for all other state agencies accounted for 14.3 percent of the total.

The State of Wisconsin expects to publish its comprehensive annual financial report in December of 2002. The report will be prepared under generally accepted accounting principles.

Respectfully submitted,

George Lightbourn
Secretary

William J. Raftery, CPA
State Controller

The Year In Summary

Revenue Highlights

General purpose revenue (GPR) taxes for the fiscal year (FY) ending June 30, 2002 totaled \$10,020.2 million, a decrease of 0.4 percent from FY 2001 collections of \$10,063.4 million. This is the second year in a row in which GPR taxes have declined.

Total tax collections for FY 2002 were \$189.5 million, or 1.9 percent, below the Legislative Fiscal Bureau (LFB) January 2002 estimate of \$10,209.7 million.

Table 1

General Purpose Revenue (GPR) Taxes By Source *GPR Tax Collections* (\$ Millions)

Tax Source	FY 02	% of Total	FY 01	% of Total	Change FY02-FY01	% Change
Individual Income	\$4,979.7	49.7%	\$5,156.5	51.2%	\$- 176.8	-3.4%
General Sales & Use	3,695.8	36.9%	3,609.9	35.9%	85.9	2.4%
Corporation Franchise & Income	503.0	5.0%	537.2	5.3%	- 34.2	-6.4%
Excise	348.3	3.5%	299.8	3.0%	48.5	16.2%
Inheritance, Estate & Gift	82.6	0.8%	77.1	0.8%	5.5	7.1%
Public Utility	252.2	2.5%	239.2	2.4%	13.0	5.4%
Insurance Companies	96.1	1.0%	89.0	0.9%	7.1	8.0%
Miscellaneous	62.5	0.6%	54.7	0.5%	7.8	14.3%
TOTAL GPR	\$10,020.2	100.0%	\$10,063.4	100.0%	\$- 43.2	-0.4%

Individual Income Tax

Individual income tax collections decreased \$176.8 million (3.4 percent) from \$5,156.5 million in FY 2001 to \$4,979.7 million in FY 2002. This was \$231.8 million (4.4 percent) below the \$5,211.5 million estimate. The individual income tax share of total GPR taxes decreased from 51.2 percent in FY 2001 to 49.7 percent in FY 2002. The decline in income tax collections was attributable to the general economic slowdown and income tax cuts including: lower rates, and increases in the personal exemption and the married couple credit.

The largest component of individual income tax collections is withholding from wages and salaries, which increased 0.6 percent from \$4,886 million to \$4,916 million.

Estimated payments decreased 12.8 percent from \$976 million to \$852 million. Refunds increased 2.2 percent from \$1,286 million to \$1,313 million.

General Sales and Use Tax

Collections from the 5 percent general sales and use tax increased 2.4 percent from \$3,609.9 million to \$3,695.8 million. This was \$15.8 million (0.4

percent) above the \$3,680.0 million estimate. Sales tax collections as a percentage of total GPR taxes increased from 35.9 percent in FY 2001 to 36.9 percent in FY 2002.

Initial collections increased by 2.5 percent from \$3,523 million to \$3,611 million. Additional collections decreased 5.1% from \$70.2 million to \$66.6 million. Delinquent collections increased 14.2% from \$35.3 million to \$40.3 million.

Corporation Franchise and Income Tax

Corporate collections decreased 6.4 percent from \$537.2 million in FY 2001 to \$503.0 million in FY 2002. Corporate collections as a percentage of total GPR taxes decreased from 5.3 percent to 5.0 percent. Corporate collections were \$23.0 million above the estimate of \$480.0 million.

The major source of corporate collections, estimated payments, decreased 4.7 percent from \$579 million to \$552 million. Payments with tax returns increased 9.9 percent from \$37.3 million to \$41.0 million.

Excise Tax

Cigarette tax collections increased 18.6 percent from \$243.5 million in FY 2001 to \$288.8 million in FY 2002. This increase was attributable to the 31 percent increase in the per pack tax rate from \$0.59 to \$0.77 which became effective in October 2001. Collections in FY 2002 were \$7.6 million (2.6 percent) below the estimate.

Liquor and wine tax collections increased 1.4 percent from \$35.5 million to \$36.0 million. Collections exceeded the estimate of \$35.1 million by \$0.9 million (2.5 percent).

Beer tax collections increased 2.1 percent to \$9.4 million to \$9.6 million. The peak year for beer tax collections was FY 1984 with \$10.3 million.

Tobacco products tax collections increased 21.9 percent from \$11.4 million to \$13.9 million. The sharp increase is attributable to an increase in the tax rate from 20 percent to 25 percent of the wholesale price.

Other Taxes

Public utility tax collections increased \$13.0 million (5.4 percent) from \$239.2 million to \$252.2 million. This was \$1.5 million less than forecast. Telephone

taxes increased from \$80.4 million to \$86.6 million. Public utility taxes on other utilities increased from \$136.4 million to \$143.4 million.

Estate tax increased 7.1 percent from \$77.1 million to \$82.6 million in FY 2002, \$2.4 million (2.8 percent) less than estimated.

Insurance company taxes (generally based on premiums) increased 8.0 percent from \$89.0 million to \$96.1 million. This is \$9.0 million more than the \$87 million estimate.

Miscellaneous taxes increased 14.3 percent from \$54.7 million to \$62.5 million. The major tax in this group is the real estate transfer fee, which increased 15.7 percent from \$44.2 million to \$51.2 million.

Expenditure Highlights

Total state General Purpose Revenue (GPR) spending increased 1.6 percent or \$181.4 million in FY 2002, as shown in Table 2. This compares with a 1.7 percent decrease in FY 2001 due to the one-time sales tax rebate of \$700 million paid in FY 2000.

The largest portion of GPR expenditures in FY 2002 was directed to school districts and local units of government, consistent with past years. Local assistance received \$6,792.0 million or 60.3 percent of total GPR spending, the same percentage as in FY 2001. Aids to individuals received \$1,886.1 million or 16.8 percent of total GPR spending in FY 2002 compared to 16.1 percent in FY 2001. State operations accounted for 22.9 percent of total GPR spending, down from 23.6 percent in FY 2001. Local assistance payments represented the largest share of the net increase in total GPR spending at \$112.4 million.

By percentage change, aids to individuals showed the largest increase in spending at 5.5 percent. The majority of this increase was associated with the Medical Assistance Program (7.8 percent) and individual tax relief (4.2 percent). Local assistance payments increased 1.7 percent in FY 2002 compared to 4.3 percent in FY 2001. State operations spending decreased 1.1 percent in FY 2002 compared to a 6.8 percent increase in FY 2001.

The GPR budget is shaped by the ten largest programs, as detailed in Table 3. These programs comprise 84.5 percent of total GPR expenditures, as compared with 84.6 percent of GPR expenditures in FY 2001. Immediately following this section is a brief explanation of each program.

Table 2

GPR BUDGET BY PURPOSE *GPR Expenditures* *(\$ Millions)*

	<u>\$11,265.1</u>		<u>\$11,077.7</u>			

School Aids: State assistance to Wisconsin's 426 school districts increased by 3.2 percent or \$139.6 million in FY 2002. Total state aids to schools plus property tax credits enabled the state to reimburse an estimated 66.7 percent of school costs in FY 2002.

Since the 1993-94 school year, school districts have been subject to statewide revenue limits. These limits control the allowable increase in each school district's revenues by limiting the total revenue a district can collect from the combined sources of property tax levies for non-debt purposes and state general aids. These controls, combined with the large increase in state school aids, succeeded in reducing the statewide gross school property tax levy by 16.4 percent in FY 1997. Since FY 1998 the gross levy has increased by an average of 4.0 percent annually.

There are two major types of direct school aid. Approximately 88 percent of school aids are general aids, distributed by a formula designed to equalize each school district's property tax base per student, and aids to support the Milwaukee Public Schools voluntary desegregation program. The remaining 12 percent are categorical aids, distributed based on local expenditures for specific

activities or educational programs. The major categorical aid programs are programs for addressing special education needs and educational technology.

Shared Revenue: State shared revenue provides unrestricted aid to municipal and county governments. In FY 2002, the shared revenue formula distributed \$930.5 million primarily through equalized aidable revenue payments and per capita payments. The Expenditure Restraint Program distributed another \$57 million to municipalities with tax rates over 5 mills that restrained their spending increases. Two additional programs, Small Municipality Shared Revenue and County Mandate Relief, provided \$11.0 million to municipalities with populations under 5,000 and \$20.8 million in per capita payments to counties, respectively. The total FY 2002 shared revenue payment was \$1,019.2 million, the same as the previous fiscal year. Statewide, shared revenue payments provide municipalities with about 20.1 percent and counties with about 4.5 percent of their operating revenues.

Medical Assistance: Wisconsin's state and federally funded Medical Assistance (MA) program pays for medical services to certain categories of

low income persons. Included are recipients of Supplemental Security Income; children and low-income families; and pregnant women and other low-income individuals who have high medical expenses. In FY 2002, total MA expenditures were \$3,436.8 million of which \$1,070.5 million were GPR, \$205.4 million were segregated revenues, and the balance was federally funded. Segregated revenues, which are in the Medical Assistance Trust Fund, are derived from federal revenues leveraged through the state's Intergovernmental Transfer Program. Total MA spending in FY 2002 increased by 15.8 percent over FY 2001 expenditures compared to a 3.3 percent increase in the previous year. The state funded portion of MA increased 7.8 percent in FY 2002, compared to a 2.3 percent increase the previous year.

University of Wisconsin System: Total general purpose revenue expenditures for the UW System decreased by \$65.6 million, or 6.3 percent in FY 2002. Of this decrease, \$50.2 million was due to a reduction in debt service payments resulting from a restructuring of the state's debt. Tuition at UW institutions, despite annual increases, continues to be a relative bargain in higher education. Resident undergraduate tuition at Madison was \$1,086 below the "Big Ten" median. UW-Milwaukee was \$1,317 below its peer group median and all other campuses were approximately \$858 below their peer group medians in FY 2002.

Correctional Services: Wisconsin's correctional population and related expenditures continued to increase in FY 2002. The population of incarcerated felons under the supervision of the state corrections program increased from an average daily population of 20,672 in FY 2001 to 21,025 in FY 2002, an increase of 1.7 percent. Total GPR expenditures for the state corrections program increased \$14.9 million or 1.9 percent over the prior year, reaching \$819.3 million in FY 2002.

State Property Tax Credits: The School Levy Tax Credit pays local governments to reduce each property owner's taxes. Funding for the credit in FY 2002 was \$469.3 million, the same as in the prior fiscal year. The School Levy Tax Credit in FY 2002 offset 7.1 percent of 2000 gross property tax levies for all purposes statewide.

Community Aids: Community Aids are state and federal funds distributed to counties to fund various human services programs. Total expenditures

reached \$274.2 million in FY 2002, of which \$178.5 million was GPR. Total all funds expenditure levels decreased by \$30.8 million or 10.0 percent from FY 2001. This decrease was largely due to a change in funding mechanisms associated with child welfare services in Milwaukee County. In FY 2002, these costs were transferred from Community Aids to a separate appropriation for this purpose.

Tax Relief to Individuals: Wisconsin paid out \$144.4 million GPR in tax relief to individuals through a variety of programs during FY 2002.

The GPR funded Homestead Credit and Farmland Preservation Credit and the Farmland Tax Relief Credit, which is funded by lottery proceeds, are "circuit-breaker" tax credits. Circuit-breakers assist households to pay property taxes in excess of their ability to pay. Claimants receive a credit against their state income tax liability or a refund check.

Wisconsin's Homestead Credit pioneered property tax relief through circuit-breakers. The program remains one of the nation's leaders in providing circuit-breaker relief, ranking third among the states in comprehensiveness and per capita expenditures for residential property tax relief. The Homestead Credit provided \$104.4 million of tax relief in FY 2002, compared with \$99.6 million in FY 2001. About 204,000 low-income homeowners and renters--over half of them elderly--benefit from the program each year.

The Farmland Preservation Credit provides a refundable credit to 21,000 farmers who qualify through exclusive agricultural zoning or individual farmland preservation agreements. Wisconsin's Farmland Preservation Credit is one of only two similar state programs in the country. Farmland Preservation Credit expenditures totaled \$16.8 million in FY 2002, a decrease of 3.2 percent from the prior year. This reduction may be attributed to declining farmland property taxes due to implementation of use-value assessment.

The Earned Income Credit program reduces income taxes for 185,000 low-income working families with children. In FY 2002, the Earned Income Credit paid a total of \$62.7 million to these households. Of this amount, federal TANF funding provided \$51.3 million and GPR provided \$11.4 million.

Wisconsin Works: Wisconsin Works or W-2 is the state's replacement program for the Aid to Families with Dependent Children (AFDC) program. W-2 is a work-based system that provides support services, such as child care and transportation, to families in order to help them achieve self-sufficiency. On average, there were approximately 12,250 W-2 cases per month served over the course of FY 2002. As of June 2002, the monthly W-2 caseload for cash assistance has fallen to just over 8,790, on average, from 34,430 in 1997 when W-2 was implemented.

In addition to W-2 cash benefits, other W-2 expenditures like work experience, job search, education and training, and administration are funded by the program. Also included are state funds for Food Stamp eligibility determination, fraud programs and several other small public assistance-type programs. In total, \$147.0 million

of state GPR was spent on W-2 and other public assistance programs administered by the Department of Workforce Development in FY 2002, a decrease of 14 percent from the previous fiscal year. This decrease is due primarily to the transfer of funding for Medical Assistance eligibility determination from the W-2 program to the Department of Health and Family Services.

State Supplemental Income: Wisconsin provides a supplement to the federal supplemental security income (SSI) program which provides cash assistance to low income aged, blind and disabled workers and to disabled parents as support for their children. In FY 2002 a total of \$150.3 million was expended in SSI payments. This included \$128.3 million in state funding and \$22.0 million in federal funds.

Net	\$ 53,782	\$ 235,056	\$ (181,274)	

Notes:

- 1 The Chapter 20 numbers were taken from the 2001-03 General Fund Condition Statement 2001 Wisconsin Act 109, prepared by the Legislative Fiscal Bureau.
- 2 The prior year designation for continuing balances is added to the unreserved, undesignated opening balance to arrive at the unreserved opening fund balance.
- 3 Actual tax collections were less than the estimated tax collections included in the Revenue Collection Report, prepared by the Wisconsin Department of Revenue.
- 4 Actual departmental revenues were less than anticipated revenues included in the General Fund Condition Statement. Certain budgetary lapses or inter-fund transfers may have been counted as revenues in the General Fund Condition Statement. See note 12.
- 5 Joint Committee on Finance actions and new legislation passed after the published budget.
- 6 Sum sufficient appropriations are appropriations that have authority to expend amounts necessary to accomplish the purpose specified by the legislation. Appropriations are increased by expenditures that exceed the estimate. The amounts do not include compensation reserve adjustments.
- 7 As in Note 2, gross appropriations are increased for the amount of continuing balances from the preceding year.

- 8 Any unspent budget authority in a continuing appropriation is carried forward to the succeeding year. For purposes of this table, the unspent budget authority is a reduction to the current budget and an increase to the succeeding budget.
- 9 Biennial appropriations are not restricted to the annual amounts recorded in the Chapter 20 schedule. The controlling limit is the sum of the annual amounts. Therefore, any budget remaining from the first year of the biennium is carried forward to the second year of the biennium. Similarly, if the first year's budget authority is exceeded in the first year of the biennium, the agency can begin spending against the second year's budget. In FY02, the first year of the biennium, some agencies began spending against the second year's budget. Therefore in FY02, spending authority was increased. In FY03 spending authority will be decreased by the FY02 increase amount.
- 10 Actual expenditures applied against the Chapter 20 compensation reserves amounted to \$1,851,900. This total was \$23,536,900 less than the Chapter 20 reserve.
- 11 The amount shown is for lapses of annual or sum sufficient appropriations with expenditures less than the Chapter 20 estimate.
- 12 Inter-Fund Transfers are nonrecurring, nonroutine transfers of equity between funds. In the General Fund Summary, transfers from other funds are treated as departmental revenue. In FY02, the following transfers were made to or from (amounts in parentheses) the general fund:

Transfer from the General Fund Program Revenue	\$ 14,507,583
Transfer from the Transportation Fund	11,545,300
Transfer from the Petroleum Inspection Fund	593,600
Transfer from the Environmental Fund	7,538,600
Transfer from the Recycling Fund	7,100
Transfer from the Universal Service Fund	841,300
Transfer from the Vets Mortgage Loan Repayment	223,800
	<u>\$ 35,257,283</u>

- 13 See also Note 8. The amount designated represents the amount of budget authority carried forward from FY02 to FY03.

Notes To Fund Statements

Note A Statutory Basis of Accounting

The State of Wisconsin Annual Fiscal Report is a report of financial results recognized on the statutory basis of accounting, for the fiscal year, against the state's budget as reflected in Chapter 20 of the Wisconsin Statutes. The report is not intended to display accounting information in accordance with Generally Accepted Accounting Principles (GAAP).

The State's Comprehensive Annual Financial Report, which is prepared in accordance with GAAP is issued under a separate cover at the end of the calendar year.

Statutes generally require that revenues and expenditures be recognized in the fiscal year in which they are received or paid, with specific exceptions. The legislature may change the recognition of revenues and expenditures among fiscal years.

The state's centralized accounting records remain open until July 31 (August 15 for income, sales and use tax receipts) to permit the state departments to record revenues and expenditures applicable to the fiscal year ended June 30.

The July and August recording of prior fiscal years' revenues and expenditures results in accrued revenues and accounts payable in the statement of assets, liabilities and fund balances. Included in these amounts are receivables and payables between funds which are not eliminated for presentation as "due to" or "due from" other funds.

Encumbrances are treated as expenditures in the initial year. However, the recording of charges and encumbrances applicable to the prior year is limited by the available appropriation balances of that year.

Note that the health and life insurance premiums are paid two months in advance of the actual coverage months. The health and life insurance costs for the last two months of the fiscal year are recorded as expenditures in the following fiscal year.

All investments owned by the state retirement funds are an exception to the requirement to recognize revenues and expenditures since investments are adjusted to market and the resultant unrealized gains

or losses are reflected in the accounts of those funds.

State statutes also provide that contributions to the state retirement funds received after August 1, which relate to earnings paid for services rendered in the previous fiscal year, may be recorded as revenues of the previous fiscal year.

The Building Trust Fund, the Capital Improvement Fund, and the Bond Security and Redemption Fund, are closed as of June 30.

In addition, state administrative policies require that revenues and expenditures be reported on a net basis; i.e., overcollections refunded are deducted from revenues, and overpayments collected are deducted from expenditures. Collections on loans are recorded as receipts.

Equity transfers are recorded as receipts or expenditures from/to the receiving or paying funds, respectively.

Unused appropriation balances may be allowed to continue for use in future years, rather than lapse to the General Fund. In these cases the continuing balances are treated as reserves for Program Revenue (PR) or General Purpose Revenue (GPR) balances. GPR consists of general taxes and miscellaneous revenues which are paid into the general fund and are then available for appropriation by the legislature. PR consists of funds also paid into the General Fund which are dedicated for specific purposes and are appropriated by the legislature as estimates through the use of revolving accounts.

Note B Fiscal Controls

The State Constitution provides that no money shall be paid out of the Treasury except as appropriated by law. The statutes require that the Secretary of Administration and the State Treasurer sign all checks. The Secretary of Administration exercises detail allotment control over all agency appropriations and approval authority over all encumbrances. The Secretary of Administration is also responsible for the audit of expenditures.

The Department of Administration maintains separate accounts for all appropriations showing the amounts appropriated, the amounts allotted, the

amounts encumbered, the amounts disbursed and certain other data necessary to the financial management and control of all state accounts. The department also maintains the general ledgers of the funds of the state including the General Fund.

Note C Classification of Funds

Funds are generally classified in accordance with classification criteria appropriate for governmental accounting.

However, certain activities of a proprietary and fiduciary nature are combined within the Governmental and Trust, Agency and Other Funds. In addition, the activities of the State Building Trust Fund, included within the Capital Projects classification, consist of capital projects as well as projects for the maintenance and repair of state facilities.

Note D Extraordinary Transfers and Transactions Affecting Fund Balance

Compensation Reserve

In FY02, Chapter 20 included a compensation reserve for employee salary and fringe benefit increases. The total amount reserved (appropriated) was \$25,389,000 and the amount expended was \$1,852,000 leaving a lapse amount of \$23,537,000.

In FY02, there was a transfer of \$6,032,300 from the General Fund to the Tobacco Control Fund.

Note E Published Budget

The published budget amounts used in Exhibit A-1 are those shown for "General Purpose Revenues" (GPR) under state statute Chapter 20, Appropriations and Budget Management, compiled August, 2002.

The adjustments column reflects statutorily required appropriation adjustments to sum-sufficient and biennial appropriations and appropriation changes enacted under the statutory authority of the Legislative Joint Finance Committee or by statutory authority under program supplements.

The State of Wisconsin utilizes a budgetary procedure within the General Fund which treats most federal grant revenues, licenses and fees and revenues for proprietary activities as dedicated for the activities to which they relate. As such, variable

budgeting techniques are used and the official state budget includes them only as estimates. These accounts, referred to as Program Revenue Appropriations, are not included in Exhibit A-1. Only those appropriations made from nondedicated General Purpose Revenues are included.

Note F Projected-to-Actual General Fund Condition

The variance between the published budgeted ending balance and actual undesignated balance at the end of fiscal year 2002 is explained as follows:

	<u>(thousands)</u>
Ending fund balance (Undesignated) per chapter 20	\$ 235,056
Opening balance adjustments:	
Prior year designation for continuing balances	9,915
Total opening balance adjustments	<u>9,915</u>
REVENUE ADJUSTMENTS	
Taxes received less than estimate	(189,466)
Departmental revenues less than estimate	(1,306)
Total revenue below estimate	<u>(190,772)</u>
APPROPRIATION ADJUSTMENTS	
New Legislation	356
Sum sufficient appropriations more than budgeted	(16,645)
Budget brought forward from previous year	(9,915)
Budget carried to next year for continuing appropriations	32,959
Biennial spend ahead	<u>(13,505)</u>
Total Appropriation Adjustments	<u>(6,750)</u>
LAPSES MORE THAN BUDGETED	4,035
INTER-FUND TRANSFERS	35,257
DESIGNATION FOR CONTINUING BALANCES	(32,959)
UNDESIGNATED FUND BALANCE	<u>\$ 53,782</u>

Note G General Fund Cash Flow

Without corrective action, the General Fund would have experienced a short-term cash flow problem during the first half of the year. A temporary reduction in cash balances occurs every year due to a mismatch between the timing of receipts and disbursements. The majority of receipts were collected in the second half of the year while payments were more evenly distributed.

Because of this mismatch, a \$800 million operating note was issued in fiscal year 2002. Without the operating note the General Fund's cash balance would have dropped from an opening balance of \$282 million to a yearly low of \$-865 million, a reduction of \$1.1 billion.

With the \$800 million operating note, this did not occur. The note prevented borrowing from other operating funds and ensured timely payments to local governments and the state's suppliers. The note allowed the state to acquire sufficient funds to offset November's, and December's sizeable cash payments for local assistance. The proceeds of the note and their timely repayment allowed the General Fund to more closely match receipts and payments. The operating note sinking fund payments were met as scheduled and the full amount of the note plus accrued interest was repaid on June 17, 2002.

Note H Negative Fund Balances

The negative ending fund balance in the Transportation Fund represents commitments (encumbrances) recorded as expenditures in the current year which will be funded by the Federal and/or local governments in the future.

Note I Unappropriated Activities

The Department of Commerce enters into contracts with private vendors for programs that they manage. These contracts have not been budgeted within a state appropriation and therefore, this activity is summarized here to provide full disclosure of state agency operations.

	Commerce
Revenues	\$685,601
Expenditures	\$685,601
Balance	\$0

Note J Budget Stabilization Fund

In FY02 the balance of the Budget Stabilization Fund was \$201. This money is being accounted for in the General Fund.

Note K Sum Sufficient Increases

The B-2 Exhibit shows both lapsing amounts and adjustments to sum sufficient appropriations. In order to correctly show the lapsing amounts the Increase column includes supplements made from sum sufficient appropriations to other types of appropriations.

B-2 Sum Sufficient Increases	\$10,791
Supplements	5,854
Actual Sum Sufficient Increases	\$16,645
