To the Users of This Report

Re: May 31, 2003 Monthly Financial Information

Please find attached the Report of General Fund Financial Information for the month ending May 31, 2003. This cover letter is intended to provide comment on the attached tables of general fund financial information. The user's attention is specifically drawn to the following:

- **Low Projected Cash Balance for June 2003 – Negative \$859 Million.** *Inter-fund borrowing is available to address periods when the general fund is in a negative cash position. The interfund borrowing limit for FY03 is currently \$556 million with an additional \$334 million for a period of up to 30 days, which totals approximately \$890 million. The low projected cash balance for June 2003 does not exceed the FY03 interfund borrowing limit.*

The low projected cash balance of negative \$859 million remains at this level for a very short time period. By the end of the month, the projected cash balance improves to negative \$406 million.

- **June 30, 2003 Cash Balance – Negative \$406 Million.** The State can end a fiscal year with a negative cash balance. Wisconsin Statutes provide certain remedies, such as interfund borrowing, to deal with periods when the balance is negative.
- **June 30, 2003 Ending Budgetary Balance.** Many of the attached tables of financial information are presented on a cash basis and *are not intended to provide an estimate or projection of the State's ending budgetary balance for FY03.*

That said, the State does expect to end FY03 with a negative budgetary balance. The Wisconsin Constitution requires the Legislature to enact a balanced biennial budget, which did occur, and the *Wisconsin Constitution also requires that if final budgetary expenses of any fiscal year exceed available revenues, the Legislature must take actions to balance the budget in the succeeding fiscal year.* The Governor's proposed 2003-05 biennial budget includes provisions to balance the budget in FY04.

The State will issue by October 15, 2003 its Annual Fiscal Report that will include the ending general fund balance (budgetary-basis) for FY03.

June 26, 2003

Page 2

- **FY04 Projected Cash Flows.** The attached report includes general fund cash flows for FY04, based on the projected ending FY03 balance and Governor Doyle's proposed 2003-05 biennial budget (2003 Senate Bill 44). The cash flows for FY04 have changed slightly from last month's report to reflect updated information regarding the timing of receipts and disbursements.

On June 24, 2003, the Wisconsin Legislature approved a 2003-05 biennial budget that is different from Governor Doyle's proposed budget. While the attached general fund cash flows for FY04 reflect Governor Doyle's proposed 2003-05 biennial budget, it is not believed that differences between the two versions of the 2003-05 biennial budget materially effect the cash flow of the State during FY04. The 2003-05 biennial budget bill approved by the Wisconsin Legislature is awaiting action by Governor Doyle, who can either sign the bill into law, sign the bill into law with line item vetoes, or veto the entire bill. A two-thirds vote in each house is required to override any veto.

Sincerely,

/s/ FRANK R. HOADLEY

Cautionary Information

Users of this information should be cautioned about several points:
--

The general fund financial information in this document has been prepared using what is believed to be the best available data for these purposes. The tables in this document have been prepared using the same procedures used to prepare similar information for the State of Wisconsin Continuing Disclosure Annual Report, Official Statements prepared for specific securities, or reports filed in conjunction with various securities. This information is, however, preliminary in nature and subject to change.

- This information is unaudited and is not a “financial statement.” None of the data presented here has been subjected to customary fiscal period closing procedures or the procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments.
- This information only speaks as of the date on which it was prepared.
- Statements of information for dates before the date this information is prepared will almost certainly be subject to restatement and revision. Information classified as “actual”, and any difference from any prior estimate, does not signify a change to official estimates. Any official revenue or expenditure re-estimates that do occur will be separately identified, and if material, appropriately noticed.
- Projections of results for dates after the date this information is prepared are forward looking. Actual results will almost certainly differ.
 - Projections are based on all fiscal bills through 2003 Wisconsin Act 1. The general fund cash flow projections for FY04 reflect Governor Doyle’s proposed 2003-05 biennial budget (2003 Senate Bill 44) but do not reflect the 2003-05 biennial budget recently approved by the Wisconsin Legislature. It is not believed that differences between the two versions of the 2003-05 biennial budget materially effect the cash flow of the State during FY04
 - Projections reflect the revenue estimates released on January 23, 2003 by the Legislative Fiscal Bureau. Updates to non-tax receipt categories were also made at that time to reflect latest available information. It is important to note that cash flow projections are expressed on a *cash basis* while the revenue estimates released by the Legislative Fiscal Bureau are expressed on a *budgetary basis* and net of any refunds.
 - Projections are not adjusted to reflect actual revenues and expenditures and routine variability in the timing of receipts and disbursements, but may be adjusted to reflect unique events.
 - Projections of remaining fiscal year cash flow may be adjusted when necessary to reflect unforeseen events or additional revised forecasts of the general fund condition statement.
- Data in these tables of financial information are subject to revision and reclassification for prior periods. This is particularly true for revenue data, where proper classification depends on tax returns which are received and processed significantly after the tax payments are received through electronic transfers.
- Some data is presented on a cash basis of accounting while other data is presented on a budgetary or agency recorded basis. Users should not compare data that is presented with different basis of accounting.
- Comparison of monthly general fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month.
- The State of Wisconsin is not obligated to provide this information or make it available on its website.
- None of the information in these tables of financial information is required by the State of Wisconsin’s continuing disclosure undertakings pursuant to SEC rule 15c2-12.
 - This information is not, and does not replace, a notice of a material event required by SEC rule 15c2-12.
 - This information is not, and does not replace, the annual financial information required by SEC rule 15c2-12.

(a) Projections include assumptions from all fiscal bills enacted into law through 2003 Wisconsin Act 1 but are presented on a cash basis and not a budgetary basis. The projections also reflect the revenue estimates released by the Legislative Fiscal Bureau on January 23, 2003. Projections do not include interfund transfers.

(b) The General Fund cash balances presented in this schedule are not based on Generally Accepted Accounting Principles (GAAP). The General Fund includes funds designated for operations and capital purposes of certain proprietary programs of the State's Universities. Receipts and disbursements of such funds for the designated programs and the disbursement of such funds for other purposes are reflected in the cash flow. A use of the designated funds for purposes other than the proprietary programs is, in effect, a borrowing of such funds. Therefore, at any time that the balance in the General Fund is less than the balance of such designated funds, the State is obligated to replenish the designated funds to the extent of the shortfall. These designated funds are expected to range from \$150 to \$300 million during the 2002-03 fiscal year. In addition, the General Fund is the depository for several escrow accounts pursuant to court orders or federal rulings. These funds are expected to average approximately \$50 million during the 2002-03 fiscal year.

(c) The Statutes provide certain administrative remedies to deal with periods when the General Fund is in a negative cash position. The Secretary of Administration may temporarily reallocate cash in other funds (up to 5% of the general-purpose revenue appropriations then in effect) to the General Fund. This amount is approximately \$556 million for the 2002-03 fiscal year. In addition, the Secretary of Administration may also temporarily reallocate an additional amount up to 3% of the general-purpose revenue appropriations then in effect (approximately \$334 million for the 2002-03 fiscal year) for a period of up to 30 days. If the amount of interfund borrowing available to the general fund is not sufficient, the Secretary of Administration is authorized to prorate and defer certain payments.

(d) Reflects receipt on August 1, 2002 of \$231 million of proceeds from the sale and subsequent securitization of payments due the State from tobacco manufacturers under the Master Settlement Agreement.

(e) Does not include any proceeds from the issuance of operating notes and as a result does not include any impoundment payments.

(f) Reflects use in November 2002 of approximately \$600 million of proceeds from the sale and subsequent securitization of payments due the State from tobacco manufacturers under the Master Settlement Agreement to make a portion of the shared revenue payment.

(a) Projections include assumptions from the Governor Doyle's proposed 2003-05 biennial budget (2003 Senate Bill 44), but do not include assumptions from the 2003-05 biennial budget recently approved by the Wisconsin Legislature. While the projections are based on budgetary assumptions, they are presented on a cash basis and not a budgetary basis. The projections also reflect the revenue estimates released by the Legislative Fiscal Bureau on January 23, 2003. Projections do not include interfund transfers.

In addition, the General Fund is the depository for several escrow accounts pursuant to court orders or federal rulings. These funds are expected to average approximately \$50 million during the 2003-04 fiscal year.

(c) The Statutes provide certain administrative remedies to deal with periods when the General Fund is in a negative cash position. The Secretary of Administration may temporarily reallocate cash in other funds (up to 5% of the general-purpose revenue appropriations then in effect) to the General Fund. This amount is approximately \$539 million for the 2003-04 fiscal year. In addition, the Secretary of Administration may also temporarily reallocate an additional amount up to 3% of the general-purpose revenue appropriations then in effect (approximately \$324 million for the 2003-04 fiscal year) for a period of up to 30 days. If the amount of interfund borrowing available to the general fund is not sufficient, the Secretary of Administration is authorized to prorate and defer certain payments.

(d) Does not include any proceeds from the issuance of operating notes and as a result does not include any impoundment payments.

- (a) Please refer to the cautionary statements contained on page 2 of this document. The cautionary statements are an integral part of this table. None of the data presented here has been subjected to customary fiscal period closing procedures or other procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments. In addition, comparison of monthly general fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month.
- (b) Estimates include assumptions from (1) all fiscal bills enacted into law through 2003 Wisconsin Act 1, and (2) revenue estimates released by the Legislative Fiscal Bureau on January 23, 2003. While these assumptions are prepared using a budgetary basis, they are presented using a cash basis.
- (c) Operating notes were issued in FY 02 but have not been issued in FY 03.

^(a) The General Fund balances presented in this table are not based on Generally Accepted Accounting Principles (GAAP).

^(b) The monthly receipt and disbursement projections for June 1, 2003 through June 30, 2004 are based on all fiscal bills through 2003 Wisconsin Act 1 and the Governor's proposed 2003-05 biennial budget (2003 Senate Bill 44), but do not reflect the 2003-05 biennial budget recently approved by the Wisconsin Legislature. The monthly projections also reflect the revenue estimates released by the Legislative Fiscal Bureau on January 23, 2003.

^(c) The amounts shown in September 2001 include receipts from the issuance of operating notes and amounts shown in February–May 2002 include disbursements for impoundment payments required in connection with the issuance of operating notes. No operating notes have been issued for FY03 and the amounts for FY04 do not include receipts or impoundment payments relating to operating notes.

^(d) The Statutes provide certain administrative remedies to deal with periods when the General Fund is in a negative cash position. The Secretary of Administration may temporarily reallocate cash in other funds (up to 5% of the general-purpose revenue appropriations then in effect) to the General Fund. This amount is approximately \$556 million for FY03 and \$539 million for FY04. In addition, the Secretary of Administration may also temporarily reallocate an additional amount up to 3% of the general-purpose revenue appropriations then in effect (approximately \$334 million for FY03 and \$324 million for FY04) for a period of up to 30 days. If the amount of interfund borrowing available to the general fund is not sufficient, the Secretary of Administration is authorized to prorate and defer certain payments. See **Cash Balances In Funds Available For Interfund Borrowing**.
