Cautionary Information

Users of this information should be cautioned about several points:
--

The general fund financial information in this document has been prepared using what is believed to be the best available data for these purposes. The tables in this document have been prepared using the same procedures used to prepare similar information for the State of Wisconsin Continuing Disclosure Annual Report, Official Statements prepared for specific securities, or reports filed in conjunction with various securities. This information is, however, preliminary in nature and subject to change.

- This information is unaudited and is not a “financial statement.” None of the data presented here has been subjected to customary fiscal period closing procedures or the procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments.
- This information only speaks as of the date on which it was prepared.
- Statements of information for dates before the date this information is prepared will almost certainly be subject to restatement and revision. Information classified as “actual”, and any difference from any prior estimate, does not signify a change to official estimates. Any official revenue or expenditure re-estimates that do occur will be separately identified, and if material, appropriately noticed.
- The information does not intend to reflect the State’s ending budgetary balance for either FY03 or FY04. On October 10, 2003, the State did release its Annual Fiscal Report that includes the ending budgetary-balance for FY03.
- Projections of results for dates after the date this information is prepared are forward looking. Actual results will almost certainly differ.
 - Projections of general fund cash flow for FY04 reflect the re-estimates of departmental revenues and expenditures provided by the Legislative Fiscal Bureau on January 15, 2004 and the general fund tax collection estimates provided by the Legislative Fiscal Bureau on February 10, 2004. It is important to note that cash flow projections are expressed on a *cash basis* while the revenue estimates released by the Legislative Fiscal Bureau are expressed on a *budgetary basis* and net of any refunds.
 - Projections are not adjusted to reflect actual revenues and expenditures and routine variability in the timing of receipts and disbursements, but may be adjusted to reflect unique events. As an example, an adjustment was made in September 2003 to the-then projections of general fund cash flow to better reflect end-of-month electronic fund transfers, particularly those related to individual income tax receipts.
 - Projections of remaining fiscal year cash flow may be adjusted when necessary to reflect unforeseen events or additional revised forecasts of the general fund condition statement.
- Data in these tables of financial information are subject to revision and reclassification for prior periods. This is particularly true for revenue data, where proper classification depends on tax returns which are received and processed significantly after the tax payments are received through electronic transfers.
- Some data is presented on a cash basis of accounting while other data is presented on a budgetary or agency recorded basis. Users should not compare data that is presented with different basis of accounting.
- Comparison of monthly general fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month.
- The State of Wisconsin is not obligated to provide this information or make it available on its website.
- None of the information in these tables of financial information is required by the State of Wisconsin’s continuing disclosure undertakings pursuant to SEC rule 15c2-12.
 - This information is not, and does not replace, a notice of a material event required by SEC rule 15c2-12.
 - This information is not, and does not replace, the annual financial information required by SEC rule 15c2-12.

(a) Projections reflect the reestimates of departmental revenues and expenditures provided by the Legislative Fiscal Bureau on January 15, 2004 and the general fund tax collection estimates provided by the Legislative Fiscal Bureau on February 10, 2004. While the projections are based on budgetary assumptions, they are presented on a cash basis and not a budgetary basis. Projections do not include interfund borrowings.

(b) The General Fund cash balances presented in this schedule are not based on Generally Accepted Accounting Principles (GAAP). The General Fund includes funds designated for operations and capital purposes of certain proprietary programs of the State's Universities. Receipts and disbursements of such funds for the designated programs and the disbursement of such funds for other purposes are reflected in the cash flow. A use of the designated funds for purposes other than the proprietary programs is, in effect, a borrowing of such funds. Therefore, at any time that the balance in the General Fund is less than the balance of such designated funds, the State is obligated to replenish the designated funds to the extent of the shortfall. The designated funds are expected to range from \$150 to \$300 million during the 2003-04 fiscal year. In addition, the General Fund is the depository for several escrow accounts pursuant to court orders or federal rulings. These funds are expected to average approximately \$50 million during the 2003-04 fiscal year.

(c) The Statutes provide certain administrative remedies to deal with periods when the General Fund is in a negative cash position. The Secretary of Administration may temporarily reallocate cash in other funds (up to 5% of the general-purpose revenue appropriations then in effect) to the General Fund. This amount is approximately \$542 million for the 2003-04 fiscal year. In addition, the Secretary of Administration may also temporarily reallocate an additional amount up to 3% of the general-purpose revenue appropriations then in effect (approximately \$325 million for the 2003-04 fiscal year) for a period of up to 30 days. If the amount of interfund borrowing available to the General Fund is not sufficient, the Secretary of Administration is authorized to prorate and defer certain payments.

(d) The July Individual Income Tax Receipts and Non-Tax Receipts for Other & Transfers were restated in September, 2003 due to a reporting reclassification by the Department of Revenue.

(e) Includes \$400 million in operating note proceeds received in September, 2003 and impoundment payments due on February 27, March 31, April 30, and May 28, 2004. The February 27, 2004 impoundment payment excludes the premium deposited on September 18, 2003 into the operating note redemption fund.

(f) Includes \$750 million of bond receipts that were received into the General Fund in December and disbursed on January 30, 2004.

(g) Includes \$124 million of transfers from the General Fund (disbursements) to the Medical Assistance Trust Fund in March 2004, pursuant to 2003 Wisconsin Act 129.

- (a) Please refer to the cautionary statements contained on page 2 of this document. The cautionary statements are an integral part of this table. None of the data presented here has been subjected to customary fiscal period closing procedures or other procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments. In addition, comparison of monthly general fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month.
- (b) Estimates include re-estimates of departmental revenues and expenditures provided by the Legislative Fiscal Bureau on January 15, 2004 and the general fund tax collection estimates provided by the Legislative Fiscal Bureau on February 10, 2004. While the information from the Legislative Fiscal Bureau is presented on a budgetary basis, the estimates are presented on a cash basis and not a budgetary basis.
- (c) Changes were made, after the beginning of the fiscal year, to the estimates of receipts starting in September 2003. These changes were made to better reflect end-of-month electronic fund transfers. Because the changes were made starting in September 2003, the July and August 2003 estimates could not be changed. The changes to the estimates of receipts include an increase in September 2003 but could not include any decrease in August 2003. As a result, the variance has been adjusted by \$63 million to show the result if the August 2003 estimate were also changed. In addition, the variance also reflects \$705 million of pension obligation bond proceeds that were received into the General Fund in December that were subsequently disbursed in January 2004, and \$173 million resulting from a timing change related to Medicaid disbursements that could not be reversed in previous estimates.
- (d) Operating notes were not issued in FY03 but were issued on September 18th for FY04.

^(a) The General Fund balances presented in this table are not based on Generally Accepted Accounting Principles (GAAP).

^(b) The monthly receipt and disbursement projections for April 1, 2004 through June 30, 2004 are based on the re-estimates of departmental revenues and expenditures that the Legislative Fiscal Bureau released on January 15, 2004 and the general fund tax collection estimates provided by the Legislative Fiscal Bureau on February 10, 2004.

^(c) The amounts shown in September 2001 and September 2003 include receipts from the issuance of operating notes and amounts shown in February–May 2002 and February–May 2004 include disbursements for impoundment payments required in connection with the issuance of operating notes. No operating notes were issued for the 2002-03 fiscal year.

^(d) The Statutes provide certain administrative remedies to deal with periods when the General Fund is in a negative cash position. The Secretary of Administration may temporarily reallocate cash in other funds (up to 5% of the general-purpose revenue appropriations then in effect) to the General Fund. This amount is approximately \$542 million for FY04. In addition, the Secretary of Administration may also temporarily reallocate an additional amount up to 3% of the general-purpose revenue appropriations then in effect (approximately \$325 million for FY04) for a period of up to 30 days. If the amount of interfund borrowing available to the general fund is not sufficient, the Secretary of Administration is authorized to prorate and defer certain payments. See “**Cash Balances In Funds Available For Interfund Borrowing**”.
