To the Users of This Report:

Re: Monthly Financial Information—February 2006

Please find attached the Report of General Fund Financial Information for the month ending February 28, 2006. All footnotes and additional information for the tables appear as endnotes on the last two pages of this report. This cover letter is intended to provide comment on the attached tables of general fund financial information.

- **Tax Filing Update.** As of March 25, 2006, the total number of tax returns processed was up 1% compared to this time in calendar year 2005. The total number of returns claiming refunds is down 2%. The average amount of refund is up 6%, and the portion of tax returns claiming refunds is up to 82% compared to 83% for this time in calendar year 2005. Electronic returns have increased by 35,500 over this time in calendar year 2005 and are now 80% of total returns.
- **Payments Due Under Amended Gaming Compacts – Tribal Governments.** On February 1, 2006, the State received payment of nearly \$44 million from one tribal government. This payment, due in the 2003-05 biennium, resulted from an agreement announced in October 2005 regarding that tribal government's gaming compact. The FY06 budget assumed that the State would receive \$74 million of payments, due in previous fiscal years, from two tribal governments.

Monthly General Fund Financial Information State of Wisconsin

For the Period Ending February 28, 2006

Prepared by the Wisconsin Department of Administration

Prepared on April 19, 2006

The following tables of general fund financial information are provided with respect to securities issued by the State of Wisconsin. The information may be material to an investment decision in the securities, although the presence of information here does not imply the State of Wisconsin has made a determination of its materiality.

THE PROJECTED GENERAL FUND CASH FLOW REFLECTS THE PROVISIONS OF 2005 WISCONSIN ACT 25, WHICH IS THE BUDGET BILL FOR FY 06 AND FY 07, WHICH FURTHER REFLECTS THE REVENUE ESTIMATES RELEASED BY THE LEGISLATIVE FISCAL BUREAU (LFB) ON MAY 16, 2005.

THE REVENUE ESTIMATES RELEASED BY LFB ON JANUARY 19, 2006 DID NOT REQUIRE ANY CHANGES TO THE PROJECTED GENERAL FUND CASH FLOWS

Cautionary Information

Users of this information should be cautioned about several points:
--

The general fund financial information in this document has been prepared using what is believed to be the best available data for these purposes. The tables in this document have been prepared using the same procedures used to prepare similar information for the State of Wisconsin Continuing Disclosure Annual Report, Official Statements prepared for specific securities, or reports filed in conjunction with various securities. This information is, however, preliminary in nature and subject to change.

- This information is unaudited and is not a “financial statement.” None of the data presented here has been subjected to customary fiscal period closing procedures or the procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments.
- This information only speaks as of the date on which it was prepared.
- Statements of information for dates before the date this information is prepared will almost certainly be subject to restatement and revision. Information classified as “actual”, and any difference from any prior estimate, does not signify a change to official estimates. Any official revenue or expenditure re-estimates that do occur will be separately identified, and if material, appropriately noticed.
- The information does not intend to reflect the State’s projected budgetary balance for FY06. The State has issued its Annual Fiscal Report (budgetary basis) for FY05.
- Projections of results for dates after the date this information is prepared are forward looking. Actual results will almost certainly differ.
 - It is important to note that cash flow projections are expressed on a *cash basis* while the revenue estimates released by the Department of Revenue and LFB are expressed on a *budgetary basis* and net of any refunds. The revenue estimates released by LFB on January 19, 2006 did not require any changes to the projected General Fund cash flows
 - Projections are not adjusted to reflect actual revenues and expenditures and routine variability in the timing of receipts and disbursements, but may be adjusted to reflect unique events.
 - Projections of remaining fiscal year cash flow may be adjusted when necessary to reflect unforeseen events or additional revised forecasts of the general fund condition statement.
- Data in these tables of financial information are subject to revision and reclassification for prior periods. This is particularly true for revenue data, where proper classification depends on tax returns which are received and processed significantly after the tax payments are received through electronic transfers.
- Some data is presented on a cash basis of accounting while other data is presented on a budgetary or agency recorded basis. Users should not compare data that is presented with any different basis of accounting.
- Comparison of monthly general fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month.
- The State of Wisconsin is not obligated to provide this information or make it available on its website.
- None of the information in these tables of financial information is required by the State of Wisconsin’s continuing disclosure undertakings pursuant to SEC rule 15c2-12.
 - This information is not, and does not replace, a notice of a material event required by SEC rule 15c2-12.
 - This information is not, and does not replace, the annual financial information required by SEC rule 15c2-12.

CASH BALANCES IN FUNDS AVAILABLE FOR INTERFUND BORROWING⁽¹⁾
July 31, 2003 to February 28, 2006 — Actual
March 31, 2006 to June 30, 2006 — Projected
(Amounts in Millions)

The following two tables show, on a monthly basis, the cash balances available for interfund borrowing. The first table does not include balances in the Local Government Investment Pool (LGIP). While the LGIP is available for interfund borrowing, funds in the LGIP are deposited and withdrawn by local units of government, and thus are outside the control of the State.

(Does Not Include Balances in the Local Government Investment Pool)

ENDNOTES AND ADDITIONAL INFORMATION

- (a) Projections, or estimates, reflect the biennial budget bill for the 2005-07 biennium (2005 Wisconsin Act 25) and the General Fund revenue estimates released by the Legislative Fiscal Bureau (LFB) on May 16, 2005, which were incorporated into 2005 Wisconsin Act 25. No changes were needed to the projections as a result of the revised revenue estimates released by LFB on January 19, 2006. Projections assume that the State will receive approximately \$146 million pursuant to the amended gaming compacts with tribal governments. This amount reflects (i) \$73 million, which is the estimate of all payments due in FY06, and (ii) \$74 million, which is an estimate of payments due in previous fiscal years that are expected to be made in FY06 by two tribal governments. On February 1, 2006, the State received payment of nearly \$44 million from one tribal government. This payment, due in the 2003-05 biennium, resulted from an agreement announced in October 2005 regarding that tribal government's gaming compact.
- (b) The General Fund cash balances presented are not based on Generally Accepted Accounting Principles (GAAP). The General Fund includes funds designated for operations and capital purposes of certain proprietary programs of the State's Universities. Receipts and disbursements of such funds for the designated programs and the disbursement of such funds for other purposes are reflected in the cash flow. A use of the designated funds for purposes other than the proprietary programs is, in effect, a borrowing of such funds. Therefore, at any time that the balance in the General Fund is less than the balance of such designated funds, the State is obligated to replenish the designated funds to the extent of the shortfall. The designated funds are expected to range from \$150 to \$300 million during the FY06. In addition, the General Fund is the depository for several escrow accounts pursuant to court orders or federal rulings. These funds are expected to average approximately \$50 million during FY06.
- (c) The Statutes provide certain administrative remedies to deal with periods when the General Fund is in a negative cash position. The Secretary of Administration may temporarily reallocate cash in other funds (up to 5% of the general-purpose revenue appropriations then in effect) to the General Fund. This amount is approximately \$634 million for FY06. In addition, the Secretary of Administration may also temporarily reallocate an additional amount up to 3% of the general-purpose revenue appropriations then in effect (approximately \$380 million for FY06) for a period of up to 30 days. If the amount of interfund borrowing available to the General Fund is not sufficient, the Secretary of Administration is authorized to prorate and defer certain payments.
- (d) Includes \$175 million transferred from the Transportation Fund to the General Fund on February 1, 2006 and assumes that \$163 million will be transferred from the Transportation Fund to the General Fund throughout the remainder of FY06.
- (e) Please refer to the cautionary statements contained on page 2 of this document. The cautionary statements are an integral part of this table. None of the data presented here has been subjected to customary fiscal period closing procedures or other procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments. In addition, comparison of monthly general fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month.
- (f) Changes are sometimes made after the beginning of the fiscal year to the projected revenues and disbursements. Depending on when these changes occur, there are situations in which prior estimates can not be changed and the result is a large variance. This column includes adjustments to the variances to more accurately reflect the variance between the estimated and actual amounts. An example is the re-categorization of receipts from FY05, which is further discussed in the following footnote.
- (g) The "FY05 Through February 2005" column has been adjusted to reflect a re-categorization of \$98 million in receipts between the "Individual Income" and "Other and Transfers" categories. An error made in July 2004 on preliminary deposit reports resulted in the "Individual Income" category to be overstated by \$98 million. This same error resulted in the "Other and Transfers" category to be understated by the same amount. The total amount of FY05 receipts is not impacted by the error or this adjustment.
- (h) Operating notes were not issued for FY05 and no operating notes are planned for FY06.
- (i) The amounts shown in September 2003 include receipts from the issuance of operating notes and amounts shown in February–May 2004 include disbursements for impoundment payments required in connection with the issuance of operating notes. No operating notes were issued in FY05 and no operating notes are planned for FY06.
- (j) The following funds are available for interfund borrowing. The amounts shown reflect a reduction in the aggregate cash balances available to the extent any fund listed below has a negative balance and is subject to interfund borrowing.

Additional information regarding the tables on the previous pages.

Tribal Government Payments. In May 2004, the Wisconsin Supreme Court ruled that certain amendments to the gaming compacts with tribal governments were unconstitutional. Although this decision concerned only an amendment to a gaming compact with only one tribal government, the reasoning of the opinion applied to similar amendments to other gaming compacts that were executed on or after January 1, 2003. Subsequent to the Wisconsin Supreme Court's decision, the State still received in FY04 the expected payments from all but one tribal government, which did not make its payment of about \$30 million. In FY05, the State received the expected payments from all but two tribal governments. One tribal government placed its payment of nearly \$44 million in escrow for release to the State upon completion of a new amendment to its gaming compact. The other tribal government did not make its payment of about \$30 million.

Projections for the FY06 budget and General Fund cash receipts assume that the State will receive approximately \$146 million pursuant to the amended gaming compacts with tribal governments. This amount reflects (i) \$73 million, which is the estimate of all payments due in FY06, and (ii) \$74 million, which is an estimate of payments due in previous fiscal years that are expected to be made in FY06 by two tribal governments.

On February 1, 2006, the State received payment of nearly \$44 million from one tribal government. This payment, due in the 2003-05 biennium, resulted from an agreement announced in October 2005 regarding that tribal government's gaming compact.
