To the Users of This Report:

Re: Monthly Financial Information—December 2007

Please find attached the Report of Monthly General Fund Financial Information for the period ending December 31, 2007. All footnotes and additional information for the tables appear as endnotes on the last two pages of this report.

This cover letter provides comment on the attached tables of general fund financial information.

- **Preliminary General Fund Tax Revenue Estimates.** The projected general fund cash flow for FY08 that appears in many of the attached tables continues to reflect the enacted budget for FY08 (2007 Wisconsin Act 20). On January 24, 2008, the Legislative Fiscal Bureau (**LFB**) released a letter that provided preliminary information about General Fund tax revenue estimates for the remainder of the 2007-09 biennium. The letter states that year-to-date collections growth for three of the major General Fund taxes (individual income, sales, and corporate income) were below expectations, and that based on General Fund tax collections through December 2007 and the January 2008 economic forecast, the projected General Fund balance for the remainder of the 2007-09 biennium could be revised downward by \$300 million to \$400 million (budgetary basis). The LFB letter cautions, however, that it will not complete a formal re-estimate of General Fund tax collections for the 2007-09 biennium until LFB has reviewed both the General Fund tax collections through January and the February 2008 economic forecast.
- **Largest Projected Negative Cash Balance – Negative \$944 Million.** The largest projected negative balance for the remainder of FY08 is negative \$944 million, which is expected to occur on June 16, 2008. This balance improves to negative \$596 million within seven days.

Pursuant to Wisconsin Statutes, interfund borrowing and other remedies are available to deal with periods when the cash balance is negative. The interfund borrowing limit for FY08 is \$691 million with an additional \$415 million for a period of up to 30 days, which in aggregate exceeds \$1.1 billion.

- **Tax Filing Update.** At June 30, 2007, the total amount of tax refunds that had been paid in FY07 was approximately \$147 million less than projected. This was the result of delays in processing tax returns during the latter part of FY07. As a result more tax returns are being processed and tax refunds paid in FY08; the total amount of tax refunds paid to-date in FY08 is approximately \$149 million more than projected.
- **Deposit from General Fund to Budget Stabilization Fund.** As the State completed its Annual Fiscal Report for FY07, a transfer of \$55.6 million was made from the General Fund to the State's Budget Stabilization Fund (which is a "rainy day fund"). This transfer was pursuant to provisions of Wisconsin Statutes that address revenues received over original budget estimates.

Sincerely,

Frank R. Hoadley  
Capital Finance Director

# Monthly General Fund Financial Information State of Wisconsin

## Cautionary Information

<b>Users of this information should be cautioned about several points:</b>
--

The general fund financial information in this document has been prepared using what is believed to be the best available data for these purposes. The tables in this document have been prepared using the same procedures used to prepare similar information for the State of Wisconsin Continuing Disclosure Annual Report, Official Statements prepared for specific securities, or reports filed in conjunction with various securities. This information is, however, preliminary in nature and subject to change.

- This information is unaudited and is not a “financial statement.” None of the data presented here has been subjected to customary fiscal period closing procedures or the procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments.
- This information only speaks as of the date on which it was prepared.
- Statements of information for dates before the date this information is prepared will most likely be restated or revised. Information classified as “actual”, and any difference from any prior estimate, does not signify a change to official estimates. Any official revenue or expenditure re-estimates that do occur will be separately identified, and if material, appropriately noted.
- The information does not intend to reflect the State’s projected budgetary balance for FY08.
- Projections of results for dates after the date this information is prepared are forward looking. Actual results will almost certainly differ.
  - It is important to note that cash flow projections are expressed on a *cash basis* while the revenue estimates released by LFB are expressed on a *budgetary basis* and net of any refunds.
  - The projected general fund cash flow for the remainder of FY08 reflects the enacted budget (2007 Wisconsin Act 20), revenue estimates released by LFB on January 30, 2007, and \$600 million of operating notes issued on July 2, 2007.
  - Projections are not adjusted to reflect actual revenues and expenditures and routine variability in the timing of receipts and disbursements, but may be adjusted to reflect unique events.
  - Projections of remaining fiscal year cash flow may be adjusted when necessary to reflect unforeseen events or additional revised forecasts of the General Fund condition statement.
- Data in the tables of financial information are subject to revision and reclassification for prior periods. This is particularly true for revenue data, where proper classification depends on tax returns which are received and processed significantly after the tax payments are received through electronic transfers.
- Some information is presented on a cash basis of accounting while other data is presented on a budgetary or agency recorded basis. Users should not compare information that is presented on one basis of accounting with information that is presented on a different basis of accounting.
- Comparison of monthly general fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month.
- The State of Wisconsin is not obligated to provide this information or make it available on its website.
- None of the information in these tables of financial information is required by the State of Wisconsin’s continuing disclosure undertakings pursuant to SEC rule 15c2-12.
  - This information is not, and does not replace, a notice of a material event required by SEC rule 15c2-12.
  - This information is not, and does not replace, the annual financial information required by SEC rule 15c2-12.

**CASH BALANCES IN FUNDS AVAILABLE FOR INTERFUND BORROWING<sup>(b)</sup>**

**July 31, 2005 to December 31, 2007 — Actual**  
**January 31, 2008 to June 30, 2008 — Projected<sup>(b)</sup>**  
**(Amounts in Millions)**

The following shows, on a monthly basis, the cash balances available for interfund borrowing. The first table does not include balances in the Local Government Investment Pool (LGIP); the second table does include such balances. Though the LGIP is available for interfund borrowing, funds in the LGIP are deposited and withdrawn by local units of government, and thus are outside the control of the State. The monthly average daily balances in the LGIP for the past five years have ranged from a low of \$2.2 billion during November 2005 to a high of \$4.2 billion during April 2003.

## ENDNOTES AND ADDITIONAL INFORMATION

- (a) Please refer to the cautionary statements at the beginning of this document. The cautionary statements are an integral part of this table. None of the data presented here has been subjected to customary fiscal period closing procedures or other procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments. In addition, comparison of monthly general fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month.
- (b) The projections or estimates reflect the enacted budget for FY08 (2007 Wisconsin Act 20) and projected General Fund revenues released by LFB on January 30, 2007. The projections or estimates also reflect proceeds of the \$600 million in operating notes issued on July 2, 2007 for FY08 and the impoundment payments for the operating notes to be made on February 29, 2008, March 31, 2008, April 30, 2008, and May 30, 2008. Projections for FY08 also assume that the State will receive approximately \$124 million pursuant to the amended gaming compacts with tribal governments. A complete copy of LFB's revenue estimates can be obtained by contacting the State of Wisconsin Capital Finance Office. Amounts do not reflect interfund borrowing.
- (c) The General Fund cash balances presented are not based on Generally Accepted Accounting Principles (GAAP). The General Fund includes funds designated for operations and capital purposes of certain proprietary programs of the State's universities. Receipts and disbursements of such funds for the designated programs and the disbursement of such funds for other purposes are reflected in the cash flow. A use of the designated funds for purposes other than the proprietary programs is, in effect, a borrowing of such funds. Therefore, at any time that the balance in the General Fund is less than the balance of such designated funds, the State is obligated to replenish the designated funds to the extent of the shortfall. The designated funds are expected to range from \$191 to \$324 million during FY08. In addition, the General Fund holds deposits for several escrow accounts pursuant to court orders or federal rulings. These funds are expected to average \$22 million during FY08.
- (d) The Statutes provide certain administrative remedies to deal with periods when the General Fund is in a negative cash position. The Secretary of Administration may temporarily reallocate cash in other funds (up to 5% of the general-purpose revenue appropriations then in effect) to the General Fund. This amount is approximately \$691 million for FY08. In addition, the Secretary of Administration may also temporarily reallocate an additional amount up to 3% of the general-purpose revenue appropriations then in effect (approximately \$415 million for FY08) for a period of up to 30 days. If the amount of interfund borrowing available to the General Fund is not sufficient, the Secretary of Administration is authorized to prorate and defer certain payments.
- (e) Operating notes were not issued for FY06 and FY07, but \$600 million of operating notes were issued on July 2, 2007 for FY08. The February 29, 2008 impoundment payment reflects the premium received on July 2, 2007 and deposited into the Operating Note Redemption Fund.
- (f) The projections in this table through the month of September, 2007 had reflected the governor's proposed budget for FY08. The projections in this table for October, 2007 and subsequent months had and continue to reflect the enacted budget for FY08.
- (g) Changes are sometimes made after the beginning of the fiscal year to the projected revenues and disbursements. Depending on when these changes occur, there are situations in which prior estimates can not be changed and the result is a large variance. This column may include adjustments to the variances to more accurately reflect the variance between the estimated and actual amounts. As an example, the adjusted variance for the period ending December 31, 2007 reflects the certain tax receipts in the State's account on December 31, 2007, that due to the holidays, were not recorded in the State's accounting system until January 2, 2008.
- (h) The following funds are available for interfund borrowing. The amounts shown reflect a reduction in the aggregate cash balances available to the extent any fund listed below has a negative balance and is subject to interfund borrowing.

Transportation	Common School	Uninsured Employers
Conservation (Partial)	Normal School	Health Insurance Risk Sharing Plan

- (i) The amounts shown do not include FY07 revenues and expenditures that were recorded by state agencies during the months of July and August, 2007.

- (j) The amounts are from the Annual Fiscal Report (unaudited, budgetary basis) for FY07, dated October 15, 2007.
- (k) The amounts shown are FY07 revenues as recorded by state agencies.
- (l) The amounts shown are FY08 revenues as recorded by state agencies.
- (m) This category includes intergovernmental transfers. The amount of these transfers may vary greatly between fiscal years, and therefore, this category may not be comparable on a historical basis.
- (n) Certain transfers between General Fund appropriations are recorded as both revenues and expenditures of the General Fund. The amount of these transfers may vary greatly between fiscal years, and therefore, this category may not be comparable on a historical basis.
- (o) The amounts shown are FY07 expenditures as recorded by state agencies.
- (p) The amounts shown are FY08 expenditures as recorded by state agencies.

Additional information regarding the tables on the previous pages.

*Tribal Government Payments.* In May 2004, the Wisconsin Supreme Court ruled that certain amendments to the gaming compacts with tribal governments were unconstitutional. Although this decision concerned only an amendment to a gaming compact with one tribal government, the reasoning of the opinion applied to similar amendments to other gaming compacts that were executed on or after January 1, 2003. Subsequent to the Wisconsin Supreme Court's decision, the State still received in FY04 the expected payments from all but one tribal government, which did not make its payment of about \$30 million.

In FY05, the State received the expected payments from all but two tribal governments. One tribal government placed its payment of nearly \$44 million in escrow for release to the State upon completion of a new amendment to its gaming compact. The other tribal government did not make its payment of about \$30 million.

In FY06, budget and General Fund cash receipts assumed that the State would receive approximately \$146 million pursuant to the amended gaming compacts with tribal governments. This amount reflected (i) \$73 million, which was the estimate of all payments due in FY06, and (ii) \$74 million, which was an estimate of payments due in previous fiscal years that were expected to be made in FY06 by two tribal governments. With respect to the estimated \$73 million of payments due in FY06, the estimated amount due was subsequently revised downward to \$67 million to reflect provisions of the compacts with the tribal governments, and the State received payments totaling \$44 million from all but one tribal government. The State and this tribal government continue arbitration with respect to this tribal government's amended gaming compact. With respect to the estimated \$74 million of payments due in previous fiscal years that were expected to be made in FY06, the State received payments from the two tribal governments that equal this amount.

On July 14, 2006, the Wisconsin Supreme Court held that a 1993 amendment to the gambling provision of the Wisconsin Constitution did not invalidate or affect the extension, renewal, or amendment of State-tribal compacts originally executed in 1991 and 1992. In addition, the Wisconsin Supreme Court overruled a portion of its earlier decision from 2004 that had invalidated compact amendments from 2003 that allowed tribes to offer additional games beyond those agreed to in the original tribal compacts.

In FY07, budget and General Fund cash receipts assumed that the State will receive approximately \$112 million pursuant to the amended gaming compacts with tribal governments. This amount reflected (i) \$82 million, which is the estimate of all payments due in FY07, and (ii) \$30 million, which is an estimate of a payment due in the previous biennium that is expected to be made in FY07 by a tribal government. With respect to the estimated \$82 million of payments due in FY07, the estimated amount was subsequently revised downward to \$70 million pursuant to provisions of the compacts and the State received payments totaling \$51 million from all but one tribal government. With respect to the estimated \$30 million payment due in a previous biennium, the State did not receive such payment. It is the same tribal government that did not make its scheduled payment in FY07, the \$30 million payment due in a previous biennium, and its scheduled payment due in FY06. The State and this tribal government continue arbitration with respect to this tribal government's amended gaming compact.

The FY08 budget and projected General Fund cash receipts assume that the State will receive approximately \$124 million pursuant to the amended gaming compacts with tribal governments. This amount reflects (i) \$72 million, which is the estimate of all payments due in FY08, and (ii) \$52 million, which is an estimate of payments due in previous years from a tribal government that are expected to be made in FY08. With respect to the amount that was due in previous years, the State and this tribal government continue arbitration with respect to the tribal government's amended gaming compact.
