^(a) This maturity is a term bond. For a schedule of the mandatory sinking fund redemption payments, see "THE BONDS; Redemption Provisions; *Mandatory Sinking Fund Redemption*" herein.

This document is called the Official Statement because it is the only document that the State has authorized for providing information about the Bonds. This document is not an offer or solicitation for the Bonds, and no unlawful offer, solicitation, or sale may occur through the use of this document or otherwise. This document is not a contract, and it provides no investment advice. Prospective investors should consult their advisors and legal counsel with questions about this document, the Bonds, or anything else related to the offering of the Bonds.

The purpose of this document is to provide prospective investors with information that may be important in making an investment decision. It may not be used for any other purpose without the State’s permission. The State prepared this document and is responsible for its accuracy and completeness. The Underwriters did not prepare this document. In accordance with their responsibilities under federal securities laws, the Underwriters are required to review the information in this document and must have a reasonable basis for their belief in the accuracy and completeness of its key representations.

Certain statements in this document are forward-looking statements that are based on expectations, estimates, projections, or assumptions. Forward-looking statements contained in this document are made as of the date hereof, and the State undertakes no obligation to update such statements to reflect subsequent events or circumstances. Actual results could differ materially from the anticipated results.

Some of the people who prepared, compiled, or reviewed the information in this document had specific functions that covered some of its aspects but not others. For example, financial staff may have been asked to assist with quantitative financial information, and legal counsel, with specific documents or legal issues.

No dealer, broker, sales representative, or other person has been authorized to give any information or to make any representations about the Bonds other than what is in this document. The information and expressions of opinion in this document may change without notice. The delivery of this document or any sale of the Bonds does not imply that there has been no change in the matters contained in this document since the date of this document. Material referred to in this document is not part of this document unless expressly included.

For purposes of Section 265(b)(7) of the Code, the 2009 Series C Bonds are obligations issued in 2009 that are not refunding bonds— <i>See pages 9-10</i> Interest on the 2009 Series D Bonds is includible in gross income for federal income tax purposes— <i>See pages 11-16</i> Interest on the Bonds is not exempt from current State of Wisconsin income and franchise taxes— <i>See pages 10 and 15</i>
Legal Opinion:	Validity opinion on all Bonds and tax opinion on the 2009 Series C Bonds to be provided by Foley & Lardner LLP— <i>See page C-1</i>

OFFICIAL STATEMENT

\$423,090,000

STATE OF WISCONSIN

\$197,265,000 GENERAL OBLIGATION BONDS OF 2009, SERIES C

\$225,825,000 GENERAL OBLIGATION BONDS OF 2009, SERIES D (TAXABLE)

INTRODUCTION

This Official Statement provides information about the \$197,265,000 General Obligation Bonds of 2009, Series C (**2009 Series C Bonds**) and \$225,825,000 General Obligation Bonds of 2009, Series D (Taxable) (**2009 Series D Bonds**) (collectively, the 2009 Series C Bonds and the 2009 Series D Bonds are called the **Bonds**). The Bonds are being issued by the State of Wisconsin (**State**). This Official Statement incorporates by reference, and includes updated information and makes changes or additions to, **Parts II and III** of the State of Wisconsin Continuing Disclosure Annual Report, dated December 26, 2008 (**2008 Annual Report**).

The 2009 Series D Bonds will be “qualified build America bonds” pursuant to Section 54AA of the Internal Revenue Code of 1986, as amended (**Code**) that are “qualified bonds” (within the meaning of Section 54AA(g)(2) of the Code). This will entitle the State to receive from the United States Treasury on each payment date a direct payment in the amount of 35% of the interest payable by the State on such date. Owners of the 2009 Series D Bonds will not receive any tax credits or other tax benefits with respect to their ownership of 2009 Series D Bonds.

The Bonds are authorized under the Wisconsin Constitution and the Wisconsin Statutes, as well as an authorizing resolution that the State of Wisconsin Building Commission (**Commission**) adopted on August 12, 2009.

The Commission, an agency of the State, is empowered by law to authorize, issue, and sell all the State’s general obligations. The Commission is assisted and staffed by the State of Wisconsin Department of Administration (**Department of Administration**).

The Commission has authorized the Department of Administration to prepare this Official Statement. This Official Statement contains information furnished by the State or obtained from the sources indicated.

THE STATE

The State is located in the Midwest among the northernmost tier of states. The State ranks 20th among the states in population and 26th in land area. Wisconsin attained statehood in 1848, its capital is Madison, and its largest city is Milwaukee.

Information concerning the State, its financial condition, and its general obligation debt is included as **APPENDIX A**, which incorporates by reference Parts II and III of the 2008 Annual Report. **APPENDIX A** also includes updated information and makes changes or additions to Parts II and III of the 2008 Annual Report, including but not limited to:

- Updated information on the budget for the 2008-09 fiscal year.
- Information on the 2009-11 biennial budget (2009 Wisconsin Act 28), which was enacted on June 29, 2009.
- Revised General Fund tax revenue estimates for the 2008-09 fiscal year and the 2009-11 biennium, which were part of a May 11, 2009 memorandum from the Legislative Fiscal Bureau (**LFB**), along with modifications to the estimates for the 2009-11 biennium that were provided by LFB on May 14, 2009.

- Projected and actual General Fund cash flows as of June 30, 2009.

Requests for additional information about the State may be directed to:

THE BONDS

General

The **inside front cover of this Official Statement** sets forth the maturity dates, amounts, and interest rates for each series of the Bonds. The Bonds are being issued in book-entry-only form, so the registered owner will be a securities depository or its nominee. The Commission has appointed, as the securities depository for the Bonds, The Depository Trust Company, New York, New York (DTC). See **“THE BONDS; Book-Entry-Only Form”**.

The Bonds will be dated their date of delivery (expected to be September 3, 2009) and will bear interest from that date payable on May 1 and November 1 of each year, beginning on May 1, 2010.

Interest on the Bonds will be computed on the basis of a 360-day year of twelve 30-day months. So long as the Bonds are in book-entry-only form, payments of principal and interest for each Bond will be paid to the securities depository.

The Bonds are issued as fully registered certificated bonds in principal denominations of \$5,000 or multiples of \$5,000.

Security

The Bonds are direct and general obligations of the State. The full faith, credit, and taxing power of the State are irrevocably pledged to make principal and interest payments on the Bonds. There has been irrevocably appropriated, as a first charge upon all revenues of the State, a sum sufficient to make principal and interest payments on the Bonds as the payments become due. The Bonds are secured equally with all other outstanding general obligations issued by the State.

Redemption Provisions

Optional Redemption

The 2009 Series C Bonds maturing on or after May 1, 2021 may be redeemed on May 1, 2020 or any date thereafter, in whole or in part in multiples of \$5,000, at a redemption price equal to par (100% of the principal amount to be redeemed), plus accrued interest to the redemption date. The Commission may decide whether to redeem 2009 Series C Bonds, and the Capital Finance Director may direct the amounts and maturities of the 2009 Series C Bonds to be redeemed.

The 2009 Series D Bonds may be redeemed on May 1, 2020 or any date thereafter, in whole or in part in multiples of \$5,000, at a redemption price equal to par (100% of the principal amount to be redeemed), plus accrued interest to the redemption date. The Commission may decide whether to redeem 2009 Series D Bonds, and the Capital Finance Director may direct the amounts and maturities of the 2009 Series D Bonds to be redeemed.

Mandatory Sinking Fund Redemption

The 2009 Series D Bonds maturing on May 1, 2034 (**2034 Term Bonds**) are subject to redemption before their maturity date at a redemption price equal to par (100% of the principal amount to be redeemed), plus accrued interest to the redemption date, from mandatory sinking fund payments that are required to be made in amounts sufficient to redeem on May 1 of each year the respective amounts specified below:

Redemption Date (May 1)	Principal Amount
2031	\$ 3,170,000
2032	3,380,000
2033	3,600,000
2034 ^(a)	3,840,000

^(a) Stated maturity

The 2009 Series D Bonds maturing on May 1, 2040 (**2040 Term Bonds**) are subject to redemption before their maturity date at a redemption price equal to par (100% of the principal amount to be redeemed), plus accrued interest to the redemption date, from mandatory sinking fund payments that are required to be made in amounts sufficient to redeem on May 1 of each year the respective amounts specified below:

Redemption Date (May 1)	Principal Amount
2035	\$ 4,090,000
2036	4,360,000
2037	4,645,000
2038	4,950,000
2039	5,275,000
2040 ^(a)	5,625,000

^(a) Stated maturity

Optional redemption (or the purchase by the Commission in lieu of redemption) of the 2034 Term Bonds or 2040 Term Bonds will be applied to reduce the mandatory sinking fund payments established for the respective term bonds so redeemed or purchased in such manner as the Capital Finance Director will direct.

Selection of Bonds

So long as the Bonds are in book-entry-only form, selection of the beneficial owners affected by the redemption will be made by the securities depository and its participants in accordance with their rules.

Notice of Redemption

So long as the Bonds are in book-entry-only form, any redemption notice will be sent to the securities depository between 30 and 60 days before the redemption date. A redemption notice may be revoked by sending notice to the securities depository at least 15 days before the proposed redemption date.

Interest on any Bond called for redemption will cease to accrue on the redemption date so long as the Bond is paid or money is provided for its payment.

Registration and Payment of Bonds

So long as the Bonds are in book-entry-only form, payment of principal will be made by wire transfer to the securities depository or its nominee by the **Paying Agent**—which is the Secretary of Administration. Payment of interest will be made by wire transfer to the securities depository or its nominee on the payment date.

Ratings

At the State's request, the following ratings have been assigned to the Bonds:

<u>Rating</u>	<u>Rating Agency</u>
AA-	Fitch Ratings
Aa3	Moody's Investors Service, Inc. ^(a)
AA	Standard & Poor's Ratings Services

^(a) On March 17, 2008, Moody's Investors Services, Inc. changed its rating outlook on the State's general obligations from "stable" to "negative".

Any explanation of what a rating means may only be obtained from the rating agency giving the rating. No one can offer any assurance that a rating given to the Bonds will be maintained for any period of time; a rating agency may lower or withdraw the rating it gives if in its judgment circumstances so warrant. Any downgrade or withdrawal of a rating may adversely affect the market price of the Bonds.

Application of Bond Proceeds

The Wisconsin Legislature has established the borrowing purposes and amounts for which public debt may be issued. **APPENDIX B** includes a summary of those purposes and the amounts both authorized and previously issued for each borrowing purpose. **APPENDIX B** also identifies the purposes and amounts for which the Bonds are being issued.

Bond proceeds will be deposited in the State's Capital Improvement Fund. Bond proceeds will be spent as the State incurs costs for the various borrowing purposes; until spent, the money will be invested by the State of Wisconsin Investment Board.

Book-Entry-Only Form

The Bonds will initially be issued in book-entry-only form. Purchasers of the Bonds will not receive bond certificates but instead will have their ownership in the Bonds recorded in the book-entry system.

Bond certificates are to be issued and registered in the name of a nominee of DTC, which acts as securities depository for the Bonds. Ownership of the Bonds by the purchasers is shown in the records of brokers and other organizations participating in the DTC book-entry system (**DTC Participants**). All transfers of ownership in the Bonds must be made, directly or indirectly, through DTC Participants.

Payment

The State will make all payments of principal of, and interest and any redemption premium on, the Bonds to DTC. Owners of the Bonds will receive payments through the DTC Participants.

Notices and Voting Rights

The State will provide notices and other communications about the Bonds to DTC. Owners of the Bonds will receive any notices or communications through the DTC Participants. In any situation involving voting rights, DTC will not vote but will rather give a proxy through the DTC Participants.

Redemption

If less than all the Bonds of a given maturity are being redeemed, DTC's practice is to determine by lottery the amount of the Bonds to be redeemed from each DTC Participant.

Discontinued Service

In the event that participation in DTC's book-entry system were to be discontinued and a successor securities depository was not appointed, bond certificates would be executed and delivered to DTC Participants.

Further Information

Further information concerning DTC and DTC's book-entry system is available at www.dtcc.com. The State is not responsible for any information available on DTC's web site. That information may be subject to change without notice.

The State is not responsible for a failure by DTC or any DTC Participant to transfer payments or notices to the owners of the Bonds or to follow the procedures established by DTC for its book-entry system.

Possible Discontinuance of Book-Entry-Only System

In the event the Bonds were not in book-entry-only form, how the Bonds are redeemed and paid would differ.

Bonds would be selected for redemption by lot. Any redemption notice would be published between 30 and 60 days before the date of redemption in a financial newspaper published or circulated in New York, New York. The notice would also be mailed, postage prepaid, between 30 and 60 days before the redemption date to the registered owners of any Bonds to be redeemed. The mailing, however, would not be a condition to the redemption; any proceedings to redeem the Bonds would still be effective even if the notice were not mailed. A redemption notice could be revoked by publication of a notice at least 15 days before the proposed redemption date in a financial newspaper published or circulated in New York, New York. Any revocation notice would also be mailed, postage prepaid, at least 15 days before the proposed redemption date to the registered owners of any Bonds to have been redeemed. The mailing, however, would not be a condition to the revocation; the revocation would still be effective even if the notice were not mailed. Interest on any Bond called for redemption would cease to accrue on the redemption date so long as the Bond was paid or money was provided for its payment.

Payment of principal would be made by check or draft issued upon the presentation and surrender of the Bonds at the principal office of the Paying Agent, as designated by the Commission. Payment of interest due on the Bonds would be made by check or draft mailed to the registered owner shown in the registration book at the close of business on the record date—which is the 15th day (whether or not a business day) of the calendar month before the interest payment date.

OTHER INFORMATION

Limitations on Issuance of General Obligations

All general obligations issued by the State fall within a debt limit set forth in the Wisconsin Constitution and the Wisconsin Statutes. There is an annual limit of three-quarters of one percent, and a cumulative limit of five percent, of the aggregate value of all taxable property in the State. Based on the determination of the aggregate value of all taxable property made on August 14, 2009, the annual limit is \$3,839,339,873, and the cumulative limit is \$25,595,599,155. A funding or refunding obligation does not count for purposes of the annual debt limit or the cumulative debt limit. Accrued interest on any obligation that is not paid during the fiscal year in which it accrues is treated as debt and taken into account for purposes of the debt limitations. As of August 1, 2009, general obligations of the State were outstanding in the principal amount of \$5,832,837,430.

Borrowing Plans for 2009

General Obligations

The Bonds are the fourth and fifth series of general obligations to be issued in this calendar year. The State has previously issued (i) two series of general obligation bonds in the aggregate par amount of \$102 million for general governmental purposes, and (ii) one series of general obligation subsidy bonds in the par amount of \$18 million for the State's Clean Water Fund Program.

In addition, the Commission has authorized the issuance of the following general obligations:

- Up to \$823 million of general obligation refunding bonds to refund general obligation bonds previously issued for general governmental purposes. The State currently expects to issue an aggregate amount of approximately \$314 million of general obligation refunding bonds in two series. The first, in an estimated par amount up to \$61 million, will be issued on or prior to September 15, 2009 and the second, in an estimated par amount up to \$253 million, will be issued on or prior to March 15, 2010. The amount and timing of any issuance of additional general obligation refunding bonds depend on market conditions.
- Up to \$50 million of general obligation subsidy bonds to be purchased by the Environmental Improvement Fund for the Clean Water Fund Program. The amount and timing of issuance of general obligation subsidy bonds for this purpose depend on various factors, including the amount and timing of loan disbursements from the Clean Water Fund Program.
- Up to \$101 million of general obligations for the veterans housing loan program, which may be in the form of bonds, commercial paper notes, or extendible municipal commercial paper. The amount and timing of issuance of general obligations for this purpose depend on originations of veterans housing loans and market conditions.
- Up to \$81 million of general obligation refunding bonds to refund general obligation bonds previously issued for the veterans housing loan program. The amount and timing of issuance of general obligation refunding bonds for this purpose depend on market conditions and other factors relating to the veterans housing loan program.
- General obligations for the funding of the State's outstanding general obligation commercial paper notes and extendible municipal commercial paper, which were outstanding in the amount of \$621 million as of August 1, 2009. The amount and timing of any issuance of general obligations for this funding purpose depend on various factors.

Other Obligations

The Commission has authorized up to \$215 million of transportation revenue bonds to fund highway projects and transportation facilities. The issuance of these transportation revenue bonds is expected by October 1, 2009. The Commission has authorized up to \$250 million of transportation revenue refunding bonds to refund previously issued transportation revenue bonds. The amount and timing of any issuance of transportation revenue refunding bonds depend on market conditions.

The Commission has authorized up to \$125 million of clean water revenue refunding bonds to refund previously issued clean water revenue bonds. The amount and timing of any issuance of clean water revenue refunding bonds depend on market conditions.

The Commission has authorized up to \$69 million of petroleum inspection fee revenue refunding bonds to refund previously issued petroleum inspection fee revenue obligations. The issuance of such petroleum inspection fee revenue refunding bonds, in an amount to be determined, is expected in the third or fourth quarter of this calendar year.

The State, acting by and through its Department of Administration, issued one series of general fund annual appropriation bonds in this calendar year in the par amount of \$1.5 billion. The proceeds were used to purchase tobacco settlement payments to be received pursuant to the Master Settlement Agreement (entered into among the participating cigarette manufacturers, 46 states, and six other U.S. jurisdictions in conjunction with the settlement of certain smoking-related litigation), which had been sold in calendar year 2002 to Badger Tobacco Asset Securitization Corporation. As a result of the State's purchase, all obligations previously issued by Badger Tobacco Asset Securitization Corporation were defeased.

On July 1, 2009, the State issued operating notes in the par amount of \$800 million for the 2009-10 fiscal year.

Underwriting

The Bonds were purchased through competitive bidding on August 19, 2009 by the following accounts (collectively, **Underwriters**):

2009 Series C Bonds—Merrill Lynch & Co.

2009 Series D Bonds—Wachovia Bank, National Association (book-running manager), First Winston Securities, and Wells Fargo Advisors

The true-interest-cost rate to the State for the 2009 Series C Bonds is 3.198667%, and the true-interest-cost rate to the State for the 2009 Series D Bonds is 3.615359% (reflecting the direct payment the State will elect to receive from the United States Treasury on each interest payment date in the amount of 35% of the interest payable by the State on such date).

Reference Information About the Bonds

Both the following tables and the **tables on the inside front cover** include information about the Bonds and are provided for reference. The CUSIP number for each maturity has been obtained from sources the State believes to be reliable, but the State is not responsible for the correctness of the CUSIP numbers. The Underwriters have provided the reoffering yields and prices with respect to the series of Bonds the Underwriters purchased. For each maturity of the Bonds subject to optional redemption, the yield shown is the lower of the yield to the first optional call date or the yield to the nominal maturity date.

Legal Investment

State law provides that the Bonds are legal investments for the following:

- Banks, trust companies, bankers, savings banks and institutions, building and loan associations, savings and loan associations, credit unions, investment companies, and other persons or entities carrying on a banking business.
- Personal representatives, guardians, trustees, and other fiduciaries.
- The State and all public officers, municipal corporations, political subdivisions, and public bodies.

Legal Opinions

Bond Opinion

Legal matters relating to the authorization, issuance, and sale of the Bonds are subject to the approval of **Bond Counsel**, which is Foley & Lardner LLP. Bond Counsel will deliver an approving opinion when the Bonds are delivered, in substantially the form shown in **APPENDIX C**. If certificated Bonds were issued, then the opinion would be printed on the reverse side of each Bond.

Attorney General

As required by law, the office of the Attorney General will examine a certified copy of all proceedings leading to issuance of the Bonds. The Attorney General will deliver an opinion on the regularity and validity of the proceedings. The Attorney General's opinion will also state that there is no action, suit, or proceeding, either pending or threatened in writing, known to the Attorney General, restraining or enjoining the issuance, sale, execution, or delivery of the Bonds, and there also is no action, suit, or proceeding, either pending or threatened in writing, known to the Attorney General, in any way contesting or affecting (1) the titles to their respective offices of any of the State officers involved in the issuance of the Bonds, (2) the validity of the Bonds or any of the proceedings taken with respect to the issuance, sale, execution, or delivery of the Bonds, or (3) the pledge or application of any moneys or security provided for the payment of the Bonds.

If certificated Bonds were issued, then a certificate of the Attorney General would be printed on the reverse side of each Bond.

TAX MATTERS

Tax Exemption – 2009 Series C Bonds

Federal Income Tax

In the opinion of Bond Counsel, under existing law, interest on the 2009 Series C Bonds is excluded from gross income for federal income tax purposes, is not an item of tax preference for purposes of the alternative minimum tax imposed on all taxpayers, and is not taken into account in determining adjusted current earnings for purpose of computing the alternative minimum tax imposed on certain corporations. As to questions of fact material to Bond Counsel's opinion, Bond Counsel has relied upon certified proceedings and certifications of public officials without independently undertaking to verify them. Moreover, the State must comply with all requirements of the Code that must be satisfied after the 2009 Series C Bonds are issued for interest on the 2009 Series C Bonds to be, or continue to be, excluded from gross income for federal income tax purposes. The State has promised to comply with those requirements to the extent it may lawfully do so. Its failure to do so may cause interest on the 2009 Series C Bonds to be included in gross income for federal income tax purposes, perhaps even starting from the date the 2009 Series C Bonds were issued. The proceedings authorizing the 2009 Series C Bonds do not provide for an increase in interest rates or a redemption of the 2009 Series C Bonds in the event interest on the 2009 Series C Bonds ceases to be excluded from gross income.

Certain requirements and procedures contained or referred to in the authorizing resolution and other relevant documents may be changed, and certain actions may be taken or omitted, under the circumstances and subject to the terms and conditions set forth in such documents. Bond Counsel does not express any opinion as to any 2009 Series C Bond or the interest thereon if any such change occurs or action is taken or omitted upon the advice or approval of bond counsel other than Foley & Lardner LLP.

Future legislation or clarifications or amendments to the Code, if enacted into law, may cause the interest on the 2009 Series C Bonds to be subject, directly or indirectly, to federal taxation, or otherwise prevent the owners of the 2009 Series C Bonds from realizing the full current benefit of the tax status of the interest on the 2009 Series C Bonds. Prospective purchasers of the 2009 Series C Bonds are encouraged to consult their own tax advisors regarding any pending federal legislation.

The opinion of Bond Counsel is based on legal authorities that are current as of its date, covers certain matters not directly addressed by such authorities, and represents Bond Counsel's judgment regarding the proper treatment of the 2009 Series C Bonds for federal income tax purposes. It is not binding on the Internal Revenue Service (**IRS**) or the courts, and it is not a guarantee of result.

The IRS has an active tax-exempt bond enforcement program. Bond Counsel is not obligated to defend the State regarding the tax-exempt status of the 2009 Series C Bonds in the event of an examination by the IRS. Under current IRS procedures, the owners of the 2009 Series C Bonds and other parties other than the State would have little, if any, right to participate in an IRS examination of the 2009 Series C Bonds. Moreover, because obtaining judicial review in connection with an IRS examination of tax-exempt obligations is difficult, obtaining independent review of IRS positions with which the State may legitimately disagree may not be practicable. Any action of the IRS, including but not limited to selection of the 2009 Series C Bonds for examination, or the course or result of such an examination, or an examination of obligations presenting similar tax issues may affect the market price, or the marketability of the 2009 Series C Bonds, and may cause the State or the owners of the 2009 Series C Bonds to incur significant expense.

Bond Counsel expresses no opinion about other federal tax consequences arising regarding the 2009 Series C Bonds. There may be other federal tax law provisions that could adversely affect the value of an investment in the 2009 Series C Bonds for particular owners of 2009 Series C Bonds. Prospective

investors should consult their own tax advisors about the tax consequences of owning a 2009 Series C Bond.

De Minimis Safe Harbor Exception for Tax-Exempt Interest Expense of Financial Institutions

In the case of a financial institution, the Code generally disallows that portion of a taxpayer's interest expense that is allocable to tax-exempt interest. The amount of interest that is disallowed is an amount which bears the same ratio to such interest expense as the taxpayer's average adjusted bases of tax-exempt obligations acquired after August 7, 1986 bears to the average adjusted bases of all assets of the taxpayer. The general rule of section 265(b) of the Code denying financial institutions' interest expense deductions allocable to tax-exempt obligations does not apply to "qualified tax-exempt obligations". The 2009 Series C Bonds are not "qualified tax-exempt obligations" for this purpose.

The American Recovery and Reinvestment Act of 2009 amends section 265(b) of the Code to provide that tax-exempt obligations issued during 2009 and 2010 and held by a financial institution, in an amount not to exceed two percent of the adjusted basis of the financial institution's assets, are not taken into account for the purpose of determining the portion of the financial institution's interest expense subject to the pro rata interest disallowance rule of section 265(b). For the purposes of this rule, a refunding bond (whether a current or advance refunding) is treated as issued on the date of issuance of the refunded bond (or, in a case of a series of refundings, the original bond).

The American Recovery and Reinvestment Act of 2009 also amends section 291(e) of the Code to provide that tax-exempt obligations issued during 2009 and 2010, and not taken into account for purposes of calculation of a financial institution's interest expense subject to the pro rata interest disallowance rule, are treated as having been acquired on August 7, 1986. As a result, such obligations are financial institution preference items, and the amount allowable as a deduction by a financial institution with respect to interest incurred to carry such obligations is reduced by 20 percent.

Bond Counsel is of the opinion that, for purposes of section 265(b)(7) of the Code, the 2009 Series C Bonds are obligations issued in 2009 that are not refunding bonds.

State of Wisconsin Income and Franchise Taxes

Interest on the 2009 Series C Bonds is not exempt from current State of Wisconsin income or franchise taxes. Prospective investors should consult their own tax advisors about the state and local tax consequences of owning a 2009 Series C Bond.

Premium 2009 Series C Bonds

Each 2009 Series C Bond has an Issue Price that is greater than the amount payable at the maturity of the 2009 Series C Bond.

Any 2009 Series C Bond purchased in the initial offering at the Issue Price will have "amortizable bond premium" within the meaning of Section 171 of the Code. An owner of a 2009 Series C Bond that has amortizable bond premium is not allowed any deduction for the amortizable bond premium. During each taxable year, such an owner must reduce his or her tax basis in the 2009 Series C Bond by the amount of the amortizable bond premium that is allocable to the portion of such taxable year during which the owner owned the 2009 Series C Bond. The adjusted tax basis in a 2009 Series C Bond will be used to determine taxable gain or loss upon a disposition (for example, upon a sale, exchange, redemption, or payment at maturity) of the 2009 Series C Bond.

Owners of 2009 Series C Bonds that do not purchase their 2009 Series C Bonds in the initial offering at the Issue Price should consult their own tax advisors with respect to the federal tax consequences of owning 2009 Series C Bonds. Owners of 2909 Series C Bonds should also consult their own tax advisors with respect to the state and local tax consequences of owning 2009 Series C Bonds.

Tax Status – 2009 Series D Bonds

In the opinion of Bond Counsel, under existing law, interest on the 2009 Series D Bonds will be includible in gross income of the owners thereof for federal income tax purposes.

Any discussion of U.S. federal tax issues included in this Official Statement is not intended or written to be used, and cannot be used, by any taxpayer for the purpose of avoiding federal tax penalties that may be imposed on the taxpayer. Such discussions were written in connection with the promotion or marketing of the 2009 Series D Bonds. Each taxpayer should seek advice from an independent tax advisor based on the taxpayer's particular circumstances.

The following is a summary of certain United States federal income tax consequences resulting from the beneficial ownership of 2009 Series D Bonds by certain persons. This summary does not consider all the possible federal income tax consequences of the purchase, ownership, or disposition of the 2009 Series D Bonds and is not intended to reflect the individual tax position of any beneficial owner. Moreover, except as expressly indicated, this summary is limited to those persons that purchase a 2009 Series D Bond at its issue price, which is the first price at which a substantial amount of the 2009 Series D Bonds is sold to the public, and that hold 2009 Series D Bonds as “capital assets” within the meaning of section 1221 of the Code. This summary does not address beneficial owners that may be subject to special tax rules, such as banks, insurance companies, dealers in securities or currencies, purchasers that hold 2009 Series D Bonds as a hedge against currency risks or as part of a straddle with other investments or as part of a “synthetic security” or other integrated investment (including a “conversion transaction”) comprising a 2009 Series D Bond and one or more other investments, or United States Owners (as defined below) that have a “functional currency” other than the United States dollar (**Special Taxpayers**). Except to the extent discussed below under “**TAX MATTERS; Tax Status – 2009 Series D Bonds; Non-United States Owners,**” this summary is applicable only to a person (**United States Owner**) that is the beneficial owner of 2009 Series D Bonds and is (i) an individual citizen or resident of the United States, (ii) a corporation created or organized under the laws of the United States or any State (including the District of Columbia), or (iii) a person otherwise subject to federal income taxation on its worldwide income. This summary is based upon the United States tax laws and regulations currently in effect and as currently interpreted and does not take into account possible changes in the tax laws or the interpretations, any of which may be applied retroactively. It does not discuss the tax laws of any state, local, or foreign governments.

United States Owners—Payments of Stated Interest

In general, for a beneficial owner that is a United States Owner, interest on a 2009 Series D Bond will be taxable as ordinary income at the time it is received or accrued, depending on the beneficial owner's method of accounting for tax purposes.

United States Owners—Original Issue Discount

If the stated redemption price at maturity of a 2009 Series D Bond exceeds its “issue price,” such excess is treated as original issue discount (**OID**) unless the amount of such excess is less than a specified *de minimis* amount (generally equal to 0.25% of the stated redemption price at maturity multiplied by the number of complete years to maturity). The issue price of each 2009 Series D Bond is the price at which a substantial amount of the 2009 Series D Bonds of that maturity is first sold to the public. The issue price of the 2009 Series D Bonds is expected to be the amount set forth in “**OTHER INFORMATION; Reference Information About the Bonds**” but is subject to change based on actual sales.

With respect to a United States Owner that purchases in the initial offering a 2009 Series D Bond issued with OID, the amount of OID that accrues during any accrual period equals (a) the product of (i) the “adjusted issue price” of the 2009 Series D Bond at the beginning of the accrual period (which price equals the issue price of such 2009 Series D Bond plus the amount of OID that has accrued on a constant-yield basis in all prior accrual periods minus the amount of any payments, other than “qualified stated interest,” received on the 2009 Series D Bond in prior accrual periods) and (ii) the yield to maturity of such 2009 Series D Bond (determined on the basis of compounding at the close of each accrual period and

and properly adjusted for the length of each accrual period), less (b) any qualified stated interest payable on the 2009 Series D Bond during such accrual period. The amount of OID so accrued in a particular accrual period will be considered to be received ratably on each day of the accrual period.

A United States Owner of a 2009 Series D Bond issued with OID must include in gross income for federal income tax purposes the amount of OID accrued with respect to each day during the taxable year that the United States Owner owns the 2009 Series D Bond. Such an inclusion in advance of receipt of the cash attributable to the income is required even if the United States Owner is on the cash method of accounting for United States federal income tax purposes. The amount of OID that is includible in a United States Owner's gross income will increase the United States Owner's tax basis in the 2009 Series D Bond. Such basis will be decreased by the amount of any payments other than qualified stated interest received on the 2009 Series D Bond. The adjusted tax basis in a 2009 Series D Bond will be used to determine taxable gain or loss upon a disposition (for example, upon a sale or retirement) of the 2009 Series D Bond.

If a 2009 Series D Bond issued with OID is purchased by a United States Owner for a cost that exceeds the adjusted issue price as of the purchase date and that is less than the stated redemption price at maturity of the 2009 Series D Bond, the amount of OID that is deemed to accrue thereafter to the United States Owner will be reduced to reflect the amortization of such excess (**acquisition premium**) over the remaining life of the 2009 Series D Bond.

United States Owners—2009 Series D Bonds Purchased at a Premium

Under the Code, a United States Owner that purchases a 2009 Series D Bond for an amount in excess of its stated redemption price at maturity may elect to treat such excess as "amortizable bond premium," in which case the amount of interest required to be included in the United States Owner's income each year with respect to interest on the 2009 Series D Bond will be reduced by the amount of amortizable bond premium allocable (based on the 2009 Series D Bond's yield to maturity) to that year. If such an election is made, the amount of each such reduction in interest income will result in a corresponding reduction in the United States Owner's tax basis in the 2009 Series D Bond. Any election to amortize bond premium is applicable to all taxable debt instruments held by the United States Owner at the beginning of the first taxable year to which the election applies or thereafter acquired by the United States Owner and may not be revoked without the consent of the IRS.

United States Owners—2009 Series D Bonds Purchased at a Market Discount

A 2009 Series D Bond will be treated as acquired at a market discount (**market discount Bond**) if the amount for which a United States Owner purchased the 2009 Series D Bond is less than the 2009 Series D Bond's principal amount, unless such difference is less than a specified *de minimis* amount.

In general, any payment of principal or any gain recognized on the maturity or disposition of a market discount Bond will be treated as ordinary income to the extent that such gain does not exceed the accrued market discount on the 2009 Series D Bond. Alternatively, a United States Owner of a market discount Bond may elect to include market discount in income currently over the life of the market discount Bond. That election applies to all debt instruments with market discount acquired by the electing United States Owner on or after the first day of the first taxable year to which the election applies and may not be revoked without the consent of the IRS. If an election is made to include market discount in income currently, the tax basis of the 2009 Series D Bond in the hands of the United States Owner will be increased by the market discount thereon as such discount is included in income.

Market discount generally accrues on a straight-line basis unless the United States Owner elects to accrue such discount on a constant yield-to-maturity basis. That election is applicable only to the market discount Bond with respect to which it is made and is irrevocable. A United States Owner of a market discount Bond that does not elect to include market discount in income currently generally will be required to defer deductions for interest on borrowings allocable to the 2009 Series D Bond in an amount not exceeding the

not exceeding the accrued market discount on such 2009 Series D Bond until the maturity or disposition of the 2009 Series D Bond.

United States Owners—Election to Treat All Interest as OID

A United States Owner may elect in the year of acquisition of a 2009 Series D Bond to account for all interest (including stated interest, acquisition discount, original issue discount, *de minimis* original issue discount, market discount, and *de minimis* market discount, as adjusted by any amortizable bond premium or acquisition premium) that accrues on the 2009 Series D Bond by using the constant yield method applicable to OID. Any such election may not be revoked without the consent of the IRS.

United States Owners—Purchase, Sale, Exchange, and Retirement of 2009 Series D Bonds

A United States Owner's tax basis in a 2009 Series D Bond generally will equal its cost, increased by any market discount and original issue discount included in the United States Owner's income with respect to the 2009 Series D Bond, and reduced by the amount of any amortizable bond premium applied to reduce interest on the 2009 Series D Bond. A United States Owner generally will recognize gain or loss on the sale, exchange, or retirement of a 2009 Series D Bond equal to the difference between the amount realized on the sale or retirement (not including any amount attributable to accrued but unpaid interest) and the United States Owner's tax basis in the 2009 Series D Bond. Except to the extent described above under **"TAX MATTERS; Tax Status – 2009 Series D Bonds; United States Owners—2009 Series D Bonds Purchased at a Market Discount,"** gain or loss recognized on the sale, exchange, or retirement of a 2009 Series D Bond will be capital gain or loss and will be long-term capital gain or loss if the 2009 Series D Bond was held for more than one year.

Non-United States Owners

The following is a general discussion of certain United States federal income and estate tax consequences resulting from the beneficial ownership of 2009 Series D Bonds by a person other than a United States Owner or a former United States citizen or resident (**Non-United States Owner**).

Interest earned on a 2009 Series D Bond by a Non-United States Owner will be considered "portfolio interest," and will not be subject to United States federal income tax or withholding, if:

- the Non-United States Owner is neither (i) a "controlled foreign corporation" that is related to the State as described in Section 881(c)(3)(C) of the Code, nor (ii) a bank receiving the interest on a loan made in the ordinary course of its business;
- the certification requirements described below are satisfied; and
- the interest is not effectively connected with the conduct of a trade or business within the United States by the Non-United States Owner.

The certification requirements will be satisfied if either (i) the beneficial owner of the 2009 Series D Bond timely certifies, under penalties of perjury, to the State or to the person that otherwise would be required to withhold United States tax that such owner is a Non-United States Owner and provides its name and address, or (ii) a custodian, broker, nominee, or other intermediary acting as an agent for the beneficial owner (such as a securities clearing organization, bank, or other financial institution that holds customers' securities in the ordinary course of its trade or business) that holds the 2009 Series D Bond in such capacity timely certifies, under penalties of perjury, to the State or to the person that otherwise would be required to withhold United States tax that such statement has been received from the beneficial owner of the Bond by such intermediary, or by any other financial institution between such intermediary and the beneficial owner, and furnishes to the State or to the person that otherwise would be required to withhold United States tax a copy thereof. The foregoing certification may be provided on a properly completed IRS Form W-8BEN or W-8IMY, as applicable, or any successor forms, duly executed under penalties of perjury. With respect to the certification requirement for 2009 Series D Bonds that are held by an entity that is classified for United States federal income tax purposes as a foreign partnership, the applicable Treasury Regulations provide that, unless the foreign partnership has entered into a withholding agreement

withholding agreement with the IRS, the foreign partnership will be required, in addition to providing an intermediary Form W-8IMY, to attach an appropriate certification by each partner, and to attach a statement allocating payments on such 2009 Series D Bonds to the various partners.

If a Non-United States Owner is engaged in a trade or business in the United States and interest on the 2009 Series D Bond is effectively connected with the conduct of such trade or business, the Non-United States Owner, although exempt from the withholding tax discussed above (provided that such beneficial owner timely furnishes the required certification to claim such exemption), may be subject to United States Federal income tax on such interest (and on any gain realized on a sale or other disposition of the 2009 Series D Bond) in the same manner as if it were a United States Owner. If the non-United States Owner is a foreign corporation, it may be subject to a branch profits tax equal to 30% (or lower applicable treaty rate) of its effectively connected earnings and profits for the taxable year, subject to certain adjustments. For purposes of the branch profits tax, interest on a 2009 Series D Bond will be included in the earnings and profits of the beneficial owner if the interest is effectively connected with the conduct by the beneficial owner of a trade or business in the United States. Such a beneficial owner must provide the payor with a properly executed IRS Form W-8ECI (or successor form) to claim an exemption from United States Federal withholding tax.

Any payments to a Non-United States Owner of interest that do not qualify for the portfolio interest exemption and that are not effectively connected with the conduct of a trade or business within the United States by the Non-United States Owner will be subject to United States Federal income tax and withholding at a rate of 30% (or at a lower rate under an applicable tax treaty).

Any capital gain or market discount realized on the sale, exchange, retirement, or other disposition of a 2009 Series D Bond by a Non-United States Owner will not be subject to United States federal income or withholding taxes if (i) the gain is not effectively connected with a United States trade or business of the Non-United States Owner and (ii) in the case of an individual, the Non-United States Owner is not present in the United States for 183 days or more in the taxable year of the sale, exchange, retirement, or other disposition and certain other conditions are met.

2009 Series D Bonds owned by an individual that is neither a citizen nor a resident of the United States for United States Federal estate tax purposes at the time of the individual's death will not be subject to United States Federal estate tax, provided that at the time of the individual's death the income from the 2009 Series D Bonds was not or would not have been effectively connected with a United States trade or business of the individual and that the individual qualified for the exemption from United States Federal withholding tax (without regard to the certification requirements) described above.

Purchasers of 2009 Series D Bonds that are Non-United States Owners should consult their own tax advisors with respect to the possible applicability of United States withholding and other taxes upon income realized in respect of the 2009 Series D Bonds.

Information Reporting and Back-up Withholding

In general, information reporting requirements will apply with respect to payments to a United States Owner of principal and interest (and with respect to annual accruals of OID) on the 2009 Series D Bonds, and with respect to payments to a United States Owner of any proceeds from a disposition of the 2009 Series D Bonds. This information reporting obligation, however, does not apply with respect to certain United States Owners including corporations, tax-exempt organizations, qualified pension and profit sharing trusts, and individual retirement accounts. In the event that a United States Owner subject to the reporting requirements described above fails to supply its correct taxpayer identification number in the manner required by applicable law or is notified by the IRS that it has failed to properly report payments of interest and dividends, a backup withholding tax (currently at a rate of 28%) generally will be imposed on the amount of any interest and principal and the amount of any sales proceeds received by the United States Owner on or with respect to the 2009 Series D Bonds.

Any payments of interest and OID on the 2009 Series D Bonds to a Non-United States Owner generally will be reported to the IRS and to the Non-United States Owner, whether or not such interest or OID is exempt from United States withholding tax pursuant to a tax treaty or the portfolio interest exemption. Copies of these information returns may also be made available under the provisions of a specific treaty or agreement to the tax authorities of the country in which the payee resides.

Any payments of interest and OID on the 2009 Series D Bonds to a Non-United States Owner generally will not be subject to backup withholding and additional information reporting, provided that (i) the Non-United States Owner certifies, under penalties of perjury, on IRS Form W-8BEN (or a suitable substitute form) that it is not a United States person and certain other conditions are met, or (ii) the Non-United States Owner otherwise establishes an exemption.

The payment to a Non-United States Owner of the proceeds of a disposition of a 2009 Series D Bond by or through the United States office of a broker generally will not be subject to information reporting or backup withholding if the Non-United States Owner either certifies, under penalties of perjury, on IRS Form W-8BEN (or a suitable substitute form) that it is not a United States person and certain other conditions are met, or the Non-United States Owner otherwise establishes an exemption. Information reporting and backup withholding generally will not apply to the payment of the proceeds of a disposition of a 2009 Series D Bond by or through the foreign office of a foreign broker (as defined in applicable Treasury regulations). Information reporting requirements (but not backup withholding) will apply, however, to a payment of the proceeds of the disposition of a 2009 Series D Bond by or through (i) a foreign office of a custodian, nominee, other agent, or broker that is a United States person, (ii) a foreign custodian, nominee, other agent, or broker that derives 50% or more of its gross income for certain periods from the conduct of a trade or business in the United States, (iii) a foreign custodian, nominee, other agent, or broker that is a controlled foreign corporation for United States federal income tax purposes, or (iv) a foreign partnership if at any time during its tax year one or more of its partners are United States persons that, in the aggregate, hold more than 50% of the income or capital interest of the partnership or if, at any time during its taxable year, the partnership is engaged in the conduct of a trade or business within the United States, unless the custodian, nominee, other agent, broker, or foreign partnership has documentary evidence in its records that the beneficial owner is not a United States person and certain other conditions are met, or the beneficial owner otherwise establishes an exemption.

Any amounts withheld under the backup withholding provisions may be credited against the United States federal income tax liability of the beneficial owner, and may entitle the beneficial owner to a refund, provided that the required information is furnished to the IRS.

Disclaimer Regarding Federal Tax Discussion

The federal income tax discussion set forth above is included for general information only and may not be applicable depending upon a beneficial owner's particular situation. Beneficial owners should consult their tax advisors with respect to the tax consequences to them of the purchase, ownership, and disposition of the 2009 Series D Bonds, including the tax consequences under state, local, foreign, and other tax laws and the possible effects of changes in federal or other tax laws.

State Tax Considerations

In addition to the federal income tax consequences described above, potential investors should consider the state income tax consequences of the acquisition, ownership, and disposition of 2009 Series D Bonds. State income tax law may differ substantially from the corresponding federal law, and the foregoing is not intended to describe any aspect of the income tax laws of any state. Therefore, potential investors should consult their own tax advisors with respect to the various state tax consequences of an investment in 2009 Series D Bonds.

Interest on the 2009 Series D Bonds is not exempt from current State of Wisconsin income or franchise taxes.

ERISA Considerations

The Employee Retirement Income Security Act of 1974, as amended (**ERISA**), imposes certain fiduciary and prohibited transaction restrictions on employee pension and welfare benefit plans subject to ERISA (**ERISA Plans**). Section 4975 of the Code imposes essentially the same prohibited transaction restrictions on tax-qualified retirement plans described in Section 401(a) of the Code (**Qualified Retirement Plans**) and on individual retirement accounts described in Section 408(b) of the Code (collectively, **Tax-Favored Plans**). Certain employee benefit plans, such as governmental plans (as defined in Section 3(32) of ERISA) and, if no election has been made under Section 410(d) of the Code, church plans (as defined in Section 3(33) of ERISA), are not subject to ERISA requirements. Accordingly, assets of such plans may be invested in Bonds without regard to the ERISA considerations described below, subject to the provisions of applicable federal and state law. Any such plan which is a Qualified Retirement Plan and exempt from taxation under Sections 401(a) and 501(a) of the Code, however, is subject to the prohibited transaction rules set forth in the Code.

In addition to the imposition of general fiduciary requirements, including those of investment prudence and diversification and the requirement that a plan's investment be made in accordance with the documents governing the plan, Section 406 of ERISA and Section 4975 of the Code prohibit a broad range of transactions involving assets of ERISA Plans and Tax-Favored Plans and entities with underlying assets that include plan assets by reason of ERISA Plans or Tax-Favored Plans investing in such entities (collectively, **Benefit Plans**) and persons who have certain specified relationships to the Benefit Plans (**Parties in Interest** or **Disqualified Persons**), unless a statutory or administrative exemption is available. Certain Parties in Interest (or Disqualified Persons) that participate in a prohibited transaction may be subject to a penalty (or an excise tax) imposed pursuant to Section 502(i) of ERISA (or Section 4975 of the Code) unless a statutory or administrative exemption is available.

Certain transactions involving the purchase, holding, or transfer of Bonds might be deemed to constitute prohibited transactions under ERISA and the Code if assets of the State were deemed to be assets of a Benefit Plan. Under a regulation issued by the United States Department of Labor (**Plan Assets Regulation**), the assets of the State would be treated as plan assets of a Benefit Plan for the purposes of ERISA and the Code only if the Benefit Plan acquires an "equity interest" in the State and none of the exceptions contained in the Plan Assets Regulation is applicable. An equity interest is defined under the Plan Assets Regulation as an interest in an entity other than an instrument which is treated as indebtedness under applicable local law and which has no substantial equity features. Although there can be no assurances in this regard, it appears that the Bonds should be treated as debt without substantial equity features for purposes of the Plan Assets Regulation. However, without regard to whether the Bonds are treated as an equity interest for such purposes, the acquisition or holding of Bonds by or on behalf of a Benefit Plan could be considered to give rise to a prohibited transaction if the State, or any of its affiliates, is or becomes a Party in Interest or a Disqualified Person with respect to such Benefit Plan. A prohibited transaction could also occur in the event that a Benefit Plan transfers a Bond to a Party in Interest or Disqualified Person. In such case, certain exemptions from the prohibited transaction rules could be applicable depending on the type and circumstances of the plan fiduciary making the decision to acquire a Bond. Included among these exemptions are: Prohibited Transaction Class Exemption (**PTCE**) 96-23, regarding transactions effected by "in-house asset managers"; PTCE 90-1, regarding investments by insurance company pooled separate accounts; PTCE 95-60, regarding transactions effected by "insurance company general accounts", PTCE 91-38, regarding investments by bank collective investment funds; and PTCE 84-14, regarding transactions effected by "qualified professional assets managers."

Any ERISA Plan fiduciary considering whether to purchase Bonds on behalf of an ERISA Plan should consult with its counsel regarding the applicability of the fiduciary responsibility and prohibited transaction provisions of ERISA and the Code to such investment and the availability of any of the exemptions referred to above. Persons responsible for investing the assets of Tax-Favored Plans that are

not ERISA Plans should seek similar counsel with respect to the prohibited transaction provisions of the Code.

CONTINUING DISCLOSURE

The State has made an undertaking, for the benefit of the beneficial owners of the Bonds, to provide an annual report presenting certain financial information and operating data about the State (**Annual Reports**). By December 27 of each year, the State will send the report to the Municipal Securities Rulemaking Board (**MSRB**). The State will also provide to the MSRB notices of the occurrence of certain events specified in the undertaking.

The undertaking is shown in **APPENDIX D**, and copies of the Annual Reports and notices may be obtained from:

State of Wisconsin Capital Finance Office
Department of Administration
Attn: Capital Finance Director
101 East Wilson Street, FLR 10
P.O. Box 7864
Madison, WI 53707-7864
(608) 266-2305
DOACapitalFinanceOffice@wisconsin.gov
www.doa.wi.gov/capitalfinance

The undertaking also describes the consequences if the State fails to provide any required information. The State must report the failure to the MSRB. In the last five years, the State has not failed to comply in any material respect with this or any similar undertaking.

Dated: August 19, 2009

STATE OF WISCONSIN

/s/ JIM DOYLE

David W. Helbach, Secretary
State of Wisconsin Building Commission

APPENDIX A

INFORMATION ABOUT THE STATE

This Appendix includes by reference information concerning the State of Wisconsin (**State**) and its general obligations, contained in Parts II and III of the State of Wisconsin Continuing Disclosure Annual Report, dated December 26, 2008 (**2008 Annual Report**), which can be obtained as described below. This Appendix also includes changes or additions to the information presented in Parts II or III of the 2008 Annual Report, including but not limited to:

- Updated information on the budget for the 2008-09 fiscal year.
- Information on the 2009-11 biennial budget (2009 Wisconsin Act 28), which was enacted on June 29, 2009.
- Revised General Fund tax revenue estimates for the 2008-09 fiscal year and the 2009-11 biennium, which were part of a May 11, 2009 memorandum from the Legislative Fiscal Bureau (**LFB**), along with modifications to the estimates for the 2009-11 biennium that were provided by LFB on May 14, 2009.
- Projected and actual General Fund cash flows as of June 30, 2009.

[Part II of the 2008 Annual Report](#) contains general information about the State. More specifically, that part presents information about the following matters:

- State's operations and financial procedures
- State's accounting and financial reporting
- Organization of, and services provided by, the State
- Results of fiscal year 2007-08
- State budget
- Potential effects of litigation
- Obligations of the State
- State Investment Board
- Statistical information about the State's population, income, and employment

[Included as APPENDIX A to Part II of the 2008 Annual Report](#) are the audited general purpose external financial statements for the fiscal year ending June 30, 2008, prepared in conformity with generally accepted accounting principles (**GAAP**) for governments as prescribed by the Government Accounting Standards Board, and the independent auditor's report provided by the State Auditor.

[Part III of the 2008 Annual Report](#) contains information concerning general obligations issued by the State. That part discusses the security provisions for general obligations (including the flow of funds to pay debt service on general obligations) and presents data about the State's outstanding general obligations and the portion of outstanding general obligations that is revenue supported.

The 2008 Annual Report has been filed with each nationally recognized municipal securities information repository, as designated on the date of filing (**NRMSIR**), and is also available from the Municipal Securities Rulemaking Board (**MSRB**) and the part of the Capital Finance Office web site called "Official Disclosure for Bonds, Notes, and Other Securities Issued by the State of Wisconsin." The Capital Finance Office web site is located at the following address:

www.doa.wi.gov/capitalfinance

Copies of the 2008 Annual Report may also be obtained from:

Department of Administration
Capital Finance Office
P.O. Box 7864
101 E. Wilson Street, 10th Floor
Madison, WI 53707-7864
(608) 266-2305
DOACapitalFinanceOffice@wisconsin.gov

The State has independently provided, since July 2001, monthly reports on general fund financial information. These monthly reports are not required by any of the State's undertakings provided to permit compliance with Rule 15c2-12 adopted by the Securities and Exchange Commission under the Securities Exchange Act of 1934. These monthly reports are available on the State's Capital Finance Office web site that is listed above and have been filed as material information notices with each NRMSIR or the MSRB; however, such reports are not incorporated by reference into this Official Statement or Part II of the 2008 Annual Report, and the State is not obligated to continue providing such monthly reports in the future.

After publication and filing of the 2008 Annual Report, certain changes or events have occurred that affect items discussed in the 2008 Annual Report. Listed below, by reference to particular sections of Parts II or III of the 2008 Annual Report, are changes or additions to the discussion contained in those particular sections. Many of the following changes or additions have not been filed with the NRMSIRS or the MSRB. However, the State has filed certain informational notices with the NRMSIRS and the MSRB and expects to continue to file certain informational notices with the MSRB, some of which may be notices that do not describe listed material events under the State's Master Agreement on Continuing Disclosure (Amended and Restated July 1, 2009).

State Budget; Budget for 2008-09 Fiscal Year (Part II; Pages 28-33). Add the following information and new sections.

Results of the 2008-09 Fiscal Year

The Annual Fiscal Report (budgetary basis) for the 2008-09 fiscal year will be published by October 15, 2009. This report will include the ending budgetary undesignated balance for the 2008-09 fiscal year.

Although Governor Doyle's executive budget for the 2009-11 biennium included provisions that affected the 2008-09 fiscal year, many of the provisions that authorized the State to use federal economic stimulus money that had been allocated to it for education expenditures were actually included in 2009 Wisconsin Act 11 and 2009 Wisconsin Act 23, which were both enacted prior to June 30, 2009. Based on the General Fund tax revenue estimates in the May 11, 2009 LFB memorandum (which is described below) and provisions of 2009 Wisconsin Acts 11 and 23 and the 2009-11 biennial budget (2009 Wisconsin Act 28), an ending General Fund balance of \$70 million is projected for the 2008-09 fiscal year.

A projected General Fund condition statement for the 2008-09 fiscal year is included in a table on [page A-4](#), which also includes the projected General Fund condition statements for the 2009-10 and 2010-11 fiscal years. Detailed tables containing information on the budget for the 2008-09 fiscal year, which includes updates through 2009 Wisconsin Act 28, are found on pages [A-7](#) and [A-8](#).

The amount of federal economic stimulus money that was used in the General Fund budget for the 2008-09 fiscal year (\$902 million) is summarized in a table on [page A-5](#), which also addresses use of federal economic stimulus money for the 2009-11 biennium.

The Wisconsin Constitution requires the Legislature to enact a balanced biennial budget (which the Legislature did for the 2007-09 biennium), and if final budgetary expenses of any fiscal year exceed available revenues, then the Legislature must take action to balance the budget in the succeeding fiscal year.

May 11, 2009 General Fund Tax Revenue Estimates

On May 11, 2009, LFB released a memorandum that included revised General Fund tax revenue estimates for the 2008-09 fiscal year. The total estimate of General Fund tax revenues for the 2008-09 fiscal year is \$12.118 billion, which is approximately \$926 million, or 7.1%, lower than actual General Fund tax collections for the 2007-08 fiscal year. This projection is also \$408 million lower than the amount previously projected by LFB on January 29, 2009. The following table provides a summary of the revised General Fund tax revenue estimates for the 2008-09 fiscal year and, for comparison, other previous projections. A complete copy of the May 11, 2009 LFB memorandum is included on pages [A-9 through A-15](#) of this Official Statement.

State Economic Stimulus and Budget Repair Bill

On February 19, 2009, the Governor signed into law 2009 Wisconsin Act 2, which was introduced in the Legislature on February 17, 2009 and referred to as the State economic stimulus and budget repair bill. This act addressed, in part, the projected budget shortfall at that time for the 2008-09 fiscal year and the 2009-11 biennium.

January 29, 2009 General Fund Tax Collection Projections (Updated February 11, 2009)

On January 29, 2009, LFB released a memorandum that included updated General Fund tax collection projections for the 2008-09 fiscal year. The total projection of General Fund tax collections for the 2008-09 fiscal year was \$12.495 billion, which was approximately \$548 million, or 4.2%, lower than actual General Fund tax collections for the 2007-08 fiscal year. This projection was also \$267 million lower than the amount previously projected on November 20, 2008 by the Department of Revenue (**DOR**). The January 29, 2009 LFB memorandum also identified potential shortfalls at that time for the State's medical assistance program, the Department of Children and Families, and the Department of Corrections. Provisions of 2009 Wisconsin Act 2 addressed many of these potential shortfalls.

State Budget; Budget for 2009-11 Biennium (Part II – Page 31). Update with the following information and new sections.

Budget Enacted for 2009-11 Biennium (2009 Wisconsin Act 28)

On June 26, 2009 the Wisconsin legislature adopted a budget bill for the 2009-11 biennium, and Governor Doyle signed this bill into law, with some partial vetoes, on June 29, 2009. The following is the projected General Fund condition statement for the 2008-09, 2009-10, and 2010-11 fiscal years and reflects all enacted legislation through and including 2009 Wisconsin Act 28.

**Projected General Fund Condition Statement
2008-09, 2009-10, and 2010-11 Fiscal Years
(in Millions)**

May 11, 2009 General Fund Tax Revenue Estimates, Including May 14, 2009 Modifications

On May 11, 2009, LFB released a memorandum that included revised General Fund tax revenue estimates for the 2009-11 biennium, namely, \$11.719 billion for the 2009-10 fiscal year and \$12.251 billion for the 2010-11 fiscal year. These projections are lower by \$573 million and \$622 million, respectively, than the General Fund tax revenue projections provided by LFB on January 29, 2009. These projections also reflect an annual change of negative 3.3% in the first year and an annual change of 4.5% in the second year. On May 14, 2009, LFB released a memorandum that included two modifications to the May 11, 2009 estimates, which further reduced the General Fund tax revenue estimates for the 2009-11 biennium by \$51 million.

A complete copy of the May 11, 2009 LFB memorandum is included on pages [A-9 through A-15](#) of this Official Statement.

LFB January 29, 2009 Memorandum (Updated February 11, 2009)

The January 29, 2009 LFB memorandum also included General Fund tax collection projections for the 2009-11 biennium, namely, \$12.208 billion for the 2009-10 fiscal year and \$12.757 billion for the 2010-11 fiscal year. These projections are \$60.1 million and \$15.2 million lower, respectively, than the General Fund tax revenue projections provided by DOR on November 20, 2008. These projections also reflect an annual change of negative 2.3% in the first year and an annual change of 4.5% in the second year.

State Budget; Potential Effect of Litigation; Litigation Regarding Transfer from Injured Patients and Family Compensation Fund (Part II; Pages 34). Update with the following information.

On December 19, 2008, the Dane County Circuit Court granted the State's motion for summary judgment, thus dismissing this case. On March 17, 2009, the Wisconsin Medical Society, Inc. filed an appeal of the dismissal with a Wisconsin court of appeals.

- (a) The amounts shown are unaudited, rounded to the nearest thousand dollars and are based on statutorily required accounting and not on GAAP.
- (b) Reflects provisions of all enacted legislation through 2009 Wisconsin Act 28, which includes Wisconsin Acts 11 and 23 that principally related to the application of federal stimulus monies the State received in fiscal year 2008-09.
- (c) Reflects an increase in the cigarette tax of \$0.75 per pack and increases in the moist snuff and tobacco products taxes.
- (d) State estate taxes are based on the federal credit under federal law. For deaths occurring on or after January 1, 2008, the State estate tax has been eliminated.
- (e) Tribal gaming revenues are budgeted separately; however, when the payments are received by the State, they are not specifically reported but rather included within the category entitled "Nontax Revenue - Departmental Revenue".

(a) The all-funds budget assumes that certain categories of revenues are expended in like amounts. This includes federal funds, revenues paid into specific funds (other than the General Fund) for a specified program or purpose or which are credited to an appropriation to finance a specific program or agency, and proceeds of general obligation debt. In any given fiscal year, there may be a balance at year-end in the funds, specific program, or agency.

(b) The amounts shown are unaudited, rounded to the nearest thousand dollars and are based on statutorily required accounting and not on GAAP.

(c) Reflects provisions of all enacted legislation through 2009 Wisconsin Act 28, which includes Wisconsin Acts 11 and 23 that principally related to the application of federal stimulus monies the State received in fiscal year 2008-09.

(d) Reflects an increase in the cigarette tax of \$0.75 per pack and increases in the moist snuff and tobacco products taxes.

(e) State estate taxes are based on the federal credit under federal law. For deaths occurring on or after January 1, 2008, the State estate tax has been eliminated.

(f) The budgeted amounts do not include taxes collected for segregated funds. The largest such tax is the motor fuel tax. The State collected approximately \$1.0 billion of motor fuel taxes in the 2007-08 fiscal year.

(g) Tribal gaming revenues are budgeted separately; however, when the payments are received by State, they are not specifically reported but rather included within the category entitled "Nontax Revenue - Departmental Revenue".

(h) State law separates the accounting of employee benefits from the budget. They are included for purposes of comparability to the figures presented in this table and Tables II-1 and II-2 of Part II of the 2008 Annual Report.

(i) The amount includes employee benefit contributions reduced by net investment losses of \$4.7 billion.

May 11, 2009

Senator Mark Miller, Senate Chair
Representative Mark Pocan, Assembly Chair
Joint Committee on Finance
State Capitol
Madison, WI 53702

Dear Senator Miller and Representative Pocan:

Last January, this office prepared estimates of general fund tax collections for 2008-09 and the two years of the 2009-11 biennium. These figures, with modifications to reflect the April 1 increases in the federal excise taxes on tobacco and the provisions of 2009 Wisconsin Act 2, were incorporated into the Governor's 2009-11 biennial budget bill.

Recently, tax collections data for April became available and the May, 2009, national economic forecast was released by IHS Global Insight, Inc. (Global Insight). Prior to April, actual collections, in the aggregate, were tracking closely with the estimates. Weakness was evident in the corporate income and franchise tax, but this was offset by better than anticipated sales tax receipts. However, the April collection report shows a decrease of 35.8% (-\$317 million) in monthly individual income tax revenues compared to last April. Year-to-date income tax collections are now 8.3% below last year's level, compared to -2.7% through March. Similar decreases have occurred at the federal level and in a number of other states.

After the January tax revenue estimates were released, measures of economic activity in the fourth quarter of 2008 were revised downward significantly. Global Insight issued new economic forecasts in February and March that were considerably more pessimistic than the January forecast. The April and May forecasts were somewhat more positive, but are still significantly below the January projections.

Based on our review of tax collections data and the new economic forecast, we now believe that general fund tax revenues will be lower than the previous estimates by \$408 million in 2008-09, \$573 million in 2009-10, and \$622 million in 2010-11. The three-year reduction is \$1,603 million, or approximately -4.3%.

Most of the net decrease is due to the individual income tax and corporate income and franchise tax. Estimated revenues from the general sales and use tax have been increased considerably, and smaller adjustments have been made to some of the other tax sources.

Table 1 shows the revised tax revenue estimates and Table 2 outlines the May, 2009, economic forecast by Global Insight. The tax revenue estimates in Table 1 reflect current law (including Act 2), but do not incorporate any of the tax law changes recommended by the Governor in the budget bill. The sections following the tables present additional information about the economic forecast and the new revenue estimates.

National Economic Forecast

With the exception of the first half of 2008, when positive economic growth coincided with the payment of more than \$100 billion of personal tax rebates by the federal government, the U.S. economy has been contracting since the fourth quarter of 2007. The declines have been particularly steep in recent months, with real (inflation-adjusted) gross domestic product (GDP) falling by 6.3% and 6.1%, respectively, in the fourth quarter of 2008 and the first quarter of 2009. Since December, 2007, 5.7 million jobs have been lost nationwide. More than two-thirds of these job losses occurred in the last seven months. The U.S. seasonally adjusted unemployment rate has increased from less than 5% at the end of 2007 to 8.9% in April. As of March, Wisconsin's seasonally adjusted unemployment rate was 8.5%, and the unadjusted rate was 9.4%.

Global Insight's January forecast (which was used in preparing the previous revenue estimates) estimated that real GDP fell by 5.6% in the fourth quarter of 2008, and anticipated

another significant decline in the first quarter of this year (-5.4%) and a smaller decline in the second quarter. Low levels of growth were expected to resume in the second half of this year, and a stronger recovery was expected in 2010 and 2011.

The May forecast assumes that a similar pattern of decline and growth will occur, but overall economic activity will be at lower levels than estimated in January. Annualized real GDP growth over the remainder of 2009 is now estimated at -2.5% in the second quarter, 0.2% in the third quarter, and 0.7% in the fourth quarter. Last January's estimates were -1.8%, 0.5%, and 1.6%, respectively. Real GDP growth is estimated at 1.5% in 2010 and 3.4% in 2011, compared to estimated growth rates of 2.2% and 3.2% in the January forecast. It should be noted that even though the projected 2011 growth rate is slightly higher under the May forecast (3.4% compared to 3.2%), the estimated amount of real GDP in dollars is \$139 billion lower than in the January forecast, because of the reduced estimates for 2009 and 2010.

Similar trends can be seen in the estimates for other broad economic indicators. Nominal (current-dollar) GDP is now projected to fall by 1.7% in 2009, and then increase by 2.3% in 2010 and 4.7% in 2011. The January growth rates were -1.4%, 3.5%, and 4.8%, respectively. Personal income growth is now estimated at -0.2% in 2009, 1.8% in 2010, and 3.9% in 2011, compared to the January estimates of 0.8%, 2.5%, and 4.5%. In terms of specific sources of income, the May estimates for wage income are 1% to 2% lower than the January estimates, but the new estimates of business, rental, and investment income have been reduced more significantly from the January figures (4% to 5% decreases). This is consistent with the April income tax collections data, which shows stable withholding collections, but very large decreases in quarterly estimated payments and net payments with returns (remittances less refunds). It is also consistent with the estimates of corporate profits, which have been reduced significantly since January.

Personal consumption was down significantly in the fourth quarter of 2008, but showed a small increase in the first quarter of this year. The May estimates (in dollars) are higher than the January projections in 2009 and 2010, but lower in 2011. Consumption is projected to decline by 0.7% in 2009 and then increase by 2.9% in 2010 and 4.0% in 2011. Global Insight indicates that the sharp first-quarter decline in real GDP was primarily due to decreased investment by businesses and significant reductions in inventories, rather than falling consumption. Inventory-to-sales ratios are still high by historical standards, but the recent decreases will help set the stage for future output growth.

Global Insight expects employment to continue to decline through the remainder of this year and the first quarter of 2010. Net increases in employment are expected beginning in the second quarter of next year. However, it is anticipated that the peak level of employment seen in late 2007 will not be reached until the beginning of 2013. The seasonally adjusted unemployment rate is estimated at 9.2% in 2009, 10.1% in 2010, and 9.5% in 2011. Compared to the January forecast, the projected levels of employment and growth rates are lower in each year. The unemployment rate is about 1% higher in each year.

The housing sector is expected to continue exerting a drag on economic growth during the remainder of 2009. Housing starts are estimated at 535,000 this year, and sales of new and existing

homes are estimated at 4.8 million. These figures compare with starts of 2.1 million and sales of 8.4 million when the market was peaking in 2005. With improvements in affordability, due to recent price declines, low interest rates, and the federal tax credit for first-time home buyers, increases in housing starts are forecast beginning in the third quarter of this year and in 2010 and 2011. Sales of new and existing homes are also expected to begin increasing later this year. However, the housing recovery will be constrained by more restrictive lending practices, and the level of activity seen in 2005 is not expected to recur for at least 10 years. The current housing indicators are below Global Insight's January estimates.

Global Insight also prepared two alternative forecasts, each with an estimated probability of 20%. The optimistic scenario assumes that the monetary and fiscal policy efforts of the federal government and foreign central banks take effect sooner than under the baseline forecast. There is still a decrease in real GDP until the third quarter of this year, but after that, growth resumes more quickly. The pessimistic alternative assumes that the financial crisis worsens, credit remains tight, and housing and consumer spending decline further. Under this scenario, the recession is deeper and more protracted, particularly in 2010. Real GDP growth is estimated at -3.9% in 2009, -1.0% in 2010, and 2.7% in 2011, compared to the baseline estimates of -3.1%, 1.5%, and 3.4%, respectively.

Revised General Fund Tax Estimates

Individual Income Tax. Individual income tax receipts are estimated at \$6,185 million in 2008-09, \$5,870 million in 2009-10, and \$6,080 million in 2010-11. The revised figures represent decreases relative to the previous projections of \$400 million in 2008-09, \$465 million in 2009-10, and \$517 million in 2010-11. These decreases total \$1,382 million and represent 86% of the three-year reduction in total taxes (-\$1,603 million) reported above.

In January, income tax collections for 2008-09 were estimated to decrease by 1.9% compared to collections in 2007-08, based on the economic forecast and taxable personal income growth at the time. The reestimate is based on year-to-date tax collections that are 8.3% below the collections total for the same period last year. The estimates for the 2009-11 biennium have also been decreased to reflect the estimated reduction in base year collections and lower levels of personal income. In January, Global Insight projected U.S. personal income would increase by 0.8% in 2009, 2.5% in 2010, and 4.5% in 2011, but the May forecast projects personal income to decrease by 0.2% in 2009 and increase by only 1.8% in 2010 and 3.9% in 2011.

Sales Tax. Through April, 2009, total year-to-date sales tax collections were 3.3% lower than in April, 2008. If the impact of the *Menasha Corporation* decision and other factors are accounted for, the adjusted year-to-date growth rate is -1.9%. Our estimate under Act 2, was for an annual reduction of 5.5% at the close of the 2008-09 fiscal year. At this time, based on year-to-date collections and an increased forecast of taxable consumption expenditures, we believe that sales tax revenue will be higher than the Act 2 estimates by \$96 million in 2008-09, \$66 million in 2009-10, and \$37 million in 2010-11. The revised estimates are \$4,130 million, \$4,055 million, and \$4,280 million, respectively. The upward revisions primarily reflect higher than anticipated year-to-date collections and a more optimistic forecast over the remainder of 2008-09. Slightly lower growth is

projected over the 2009-11 biennium, but the higher base year causes the estimates to be increased in all three years.

Corporate Income and Franchise Tax. Corporate income and franchise tax revenues are now projected to be \$615 million in 2008-09, \$650 million in 2009-10, and \$740 million in 2010-11. Compared to the previous estimates, the revised estimates represent decreased corporate income and franchise tax revenues of \$63 million in 2008-09, \$126 million in 2009-10, and \$93 million in 2010-11. Both sets of estimates include additional revenues from the combined reporting provisions in Act 2. The new estimates reflect year-to-date corporate income and franchise tax collections, which are 29.1% lower than in 2007-08. Similarly, corporate estimated payments have decreased 28.0%, compared to the same period last year.

The drop in collections mirrors the sharp decline in corporate earnings and business fixed investment in recent months. The Standard and Poor's stock index fell over 40% between the first quarter of 2008 and 2009. Business fixed investment dropped at an annual rate of 30% in the first quarter of 2009. Due to the significant reductions in business production and inventory since the fourth quarter of 2008, the economy may be approaching a point where meeting subsistence demand requires an increase in output. The forecast projects that corporate profits will begin to rebound in the fourth quarter 2009 and continue to increase throughout the forecast period. As a result, corporate income and franchise tax revenues are projected to increase in 2009-10 and 2010-11.

Public Utility Taxes. Compared to January's estimates, public utility taxes are estimated to be lower by \$6 million in 2008-09, and \$13 million in 2009-10 and 2010-11. The reductions are attributable to the private light, heat, and power company taxpayer group, which is subject to a gross receipts tax. Increases in electric rates due, in part, to the construction of new power production plants have been offset by large decreases in natural gas prices. Lower natural gas prices have affected gross receipts tax collections in two ways. First, consumers' natural gas rates are lower. Second, natural gas has increasingly been used as a power source for electricity generation, and lower natural gas prices have resulted in less dramatic electric rate increases than estimated in January and in ratepayer refunds in some instances due to fuel adjustment clause provisions in electric rates. Finally, the economic contraction is estimated to decrease commercial and industrial power consumption in 2009 and 2010.

Insurance Premiums Tax. Insurance premiums tax collections are projected to be \$140 million in 2008-09 and \$148 million in 2009-10 and 2010-11. These projections represent decreases from the previous estimates of \$30 million in 2008-09, \$31 million in 2009-10, and \$32 million in 2010-11. The new estimates primarily reflect premiums tax collections, which have declined significantly in recent months. Through April, insurance premiums tax collections are 11% lower than collections through April, 2008. The decline in premiums tax revenues reflects the decline in economic activity throughout the economy. Individuals are less likely to purchase insurance during economic downturns, while as businesses downsize they take actions to reduce insurance bills. For example, even though the cost of health insurance is expected to continue to rise, businesses can control some of the cost by switching to higher deductible, lower cost plans

with lower premiums. Insurance premium tax revenues are projected to increase somewhat as the economy rebounds.

Miscellaneous Taxes. Estimated revenues from miscellaneous taxes have been reduced by \$4 million in 2008-09 and by \$5 million in 2009-10 and 2010-11. The projected reduction in revenue is primarily due to a steeper than anticipated year-to-date decrease in real estate transfer fee collections of -31.6%, as well as a reduced forecast in housing indicators over the 2009-11 biennium. The estimates for the remaining miscellaneous taxes, municipal and circuit court-related fees, and the occupational tax on coal, have not been revised. Total miscellaneous tax revenues are estimated at \$52 million in 2008-09, \$47 million in 2009-10, and \$48 million in 2010-11.

Other Taxes. Estimated revenues from the estate tax, which is no longer being imposed, have been reduced by \$1 million in 2008-09 due to refunds in recent months. The estimates for the excise taxes on alcohol and tobacco have not been revised.

Impact on General Fund Balance

Based upon the tax collection estimates of this analysis, the balance in the general fund at the end of the 2008-09 fiscal year is projected to be -\$189.0 million, and the net balance at the end of the 2009-11 biennium is estimated at -\$1,449.7 million. These general fund balance projections are based upon: (1) the provisions of 2009 AB 75, as modified, to date, by the Joint Committee on Finance; and (2) the current law tax collection estimates of this analysis.

AB 75, as introduced, projected a net balance of \$139.0 million at the end of the 2009-11 biennium. The \$139.0 million balance is decreased by \$1,588.7 million to -\$1,449.7 million. The \$1,588.7 million figure is the net result of the reduction in estimated tax collections (-\$1,603.2 million) and changes made, to date, by the Joint Committee on Finance that improve the balance (\$14.5 million).

The balance estimates do not take into consideration any revenue or appropriation modifications that may occur over the remainder of the Finance Committee's work on AB 75.

This office will continue to review the revenue and expenditure estimates used in AB 75, as well as tax collections data and new economic forecasts, and notify you and your colleagues of any further adjustments that may be necessary.

Sincerely,

Robert Wm. Lang
Director

General Fund Information; General Fund Cash Flow (Part II; Pages 40-48).

The following tables provide updates and additions to various tables containing General Fund information for the 2008-09 and 2009-10 fiscal years, which are presented on either a cash basis or an agency-recorded basis. These tables contain information through June 30, 2009.

The projections and estimates in the following tables for the 2009-10 fiscal year, unless otherwise noted, reflect 2009 Wisconsin Act 2, the budget for the 2009-11 biennium (2009 Wisconsin Act 28), certain federal economic stimulus money in the amount of \$905 million that the State is expected to receive in the fiscal year (\$606 million for medical assistance programs, \$237 million for education aids, and \$63 million for other various purposes), the revised General Fund tax revenue estimates included in the May 11, 2009 LFB memorandum (as modified on May 14, 2009), and \$800 million of operating note receipts received on July 1, 2009 and the resulting impoundment payments due in February, March, April, and May 2010. The projections and estimates in the following tables *do not reflect* actions of the Legislature's Joint Committee on Finance subsequent to enactment of 2009 Wisconsin Act 28 relating to the amount of federal economic stimulus money the State is expected to receive in the 2009-10 fiscal year. The federal economic stimulus money discussed above is only a portion of such funds that the State expects to receive.

The comparison of monthly General Fund information that is presented on a cash basis has many inherent problems. Unforeseen events or variations from underlying assumptions may cause a decrease or increase in receipts and disbursements from those projected for any specific month. The following tables may show negative balances on a cash basis.

The State can have a negative cash balance at the end of a fiscal year. The Wisconsin Statutes provide certain administrative remedies, such as temporary reallocation, to deal with periods when the balance, on a cash basis, is negative. If the amount of temporary reallocation available to the General Fund is not sufficient, then the Secretary of Administration is authorized to set priorities for payments from the General Fund and to prorate and defer certain payments.

Table II-8; Actual and Projected General Fund Cash Flow (Page 43). Replace with the following updated table.

(a) Projections previously included in this table reflected the budget (2007 Wisconsin Act 20), the budget adjustment bill (2007 Wisconsin Act 226), the economic stimulus and budget repair legislation (2009 Wisconsin Act 2), the updated General Fund tax collections provided by LFB on January 29, 2009 (as updated on February 11, 2009), and the State's economic stimulus and budget repair bill for the 2009-09 fiscal year, the 2009-11 biennium (2009 Wisconsin Act 2), the revised General Fund tax revenue estimates included in the May 11, 2009 LFB memorandum, and provisions of 2009 Wisconsin Acts 11 and 23, which collectively authorized the State to use \$553 million of federal economic stimulus money received from the U.S. Department of Education. The projections also had reflected approximately \$281 million of federal economic stimulus money the State received for its medical assistance program, the assumption that the State will receive approximately \$75 million pursuant to the amended gaming compacts with tribal governments, and the additional receipts resulting from lapses and timing of transfers during June 2009. The federal economic stimulus money referenced above is only a portion of such federal money the State received, or expects to receive. This table does not include amounts for temporary reallocation (previously referred to as interfund borrowing).

(b) The General Fund cash balances presented in this schedule are not based on generally accepted accounting principles (GAAP). The General Fund includes funds designated for operations and capital purposes of certain proprietary programs of the State's universities. Receipts and disbursements of such funds for the designated programs and the disbursement of such funds for other purposes are reflected in the cash flow. A use of the designated funds for purposes other than the proprietary programs is, in effect, a borrowing of such funds. Therefore, at any time that the balance in the General Fund is less than the balance of such designated funds, the State is obligated to replenish the designated funds to the extent of the shortfall. The designated funds were expected to range from \$206 to \$350 million during the 2008-09 fiscal year. In addition, the General Fund holds deposits for several escrow accounts pursuant to court orders or federal rulings. These funds were expected to average approximately \$10 million during the 2008-09 fiscal year.

(c) The Wisconsin Statutes provide certain administrative remedies to deal with periods when the General Fund is in a negative cash position. The Secretary of Administration may temporarily reallocate cash in other funds to the General Fund; for the 2008-09 fiscal year this amount was, pursuant to provisions of 2009 Wisconsin Act 11, up to 7% of the general-purpose revenue appropriations then in effect, or approximately \$965 million. In addition, the Secretary of Administration may also temporarily reallocate for a period of up to 30 days an additional amount up to 3% of the general-purpose revenue appropriations then in effect, or approximately \$414 million for fiscal year 2008-09. If the amount available for temporary reallocation to the General Fund is not sufficient, then the Secretary of Administration is authorized to set priorities for payments from the General Fund and to prorate and defer certain payments.

(d) Includes \$800 million of operating note proceeds issued on July 1, 2008 and impoundment payments made on February 27, 2009, March 31, 2009, April 30, 2009, and May 29, 2009. The February 27, 2009 impoundment payment reflected the premium received on July 1, 2008 and deposited into the Operating Note Redemption Fund.

Table II-8; Actual and Projected General Fund Cash Flow (Page 43). Add the following new table.

PROJECTED GENERAL FUND CASH FLOW; JULY 1, 2009 TO JUNE 30, 2010^(a)
(Amounts In Thousands)

	July 2009	August 2009	September 2009	October 2009	November 2009	December 2009	January 2010	February 2010	March 2010	April 2010	May 2010	June 2010

- (a) The projections in this table reflect 2009 Wisconsin Act 2, the budget for the 2009-11 biennium (2009 Wisconsin Act 28), certain federal economic stimulus money in the amount of \$905 million that the State is expected to receive in the fiscal year (\$606 million for medical assistance programs, \$237 million for education aids, and \$63 million for other various purposes), and the revised General Fund tax revenue estimates included in the May 11, 2009 LFB memorandum (as modified on May 14, 2009). The projections and estimates in the following tables *do not reflect* actions of the Legislature's Joint Committee on Finance subsequent to enactment of 2009 Wisconsin Act 28 relating to the amount of federal economic stimulus money the State is expected to receive in the 2009-10 fiscal year. The federal economic stimulus money discussed above is only a portion of such funds that the State expects to receive. This table does not include any temporary reallocation (previously referred to as interfund borrowing).
- (b) The General Fund cash balances presented in this schedule are not based on generally accepted accounting principles (GAAP). The General Fund includes funds designated for operations and capital purposes of certain proprietary programs of the State's universities. Receipts and disbursements of such funds for the designated programs and the disbursement of such funds for other purposes are reflected in the cash flow. A use of the designated funds for purposes other than the proprietary programs is, in effect, a borrowing of such funds. Therefore, at any time that the balance in the General Fund is less than the balance of such designated funds, the State is obligated to replenish the designated funds to the extent of the shortfall. The designated funds are expected to range from \$220 to \$405 million during the 2009-10 fiscal year. In addition, the General Fund holds deposits for several escrow accounts pursuant to court orders or federal rulings. These funds are expected to average approximately \$5 million during the 2009-10 fiscal year.
- (c) The Statutes provide certain administrative remedies to deal with periods when the General Fund is in a negative cash position. The Secretary of Administration may temporarily reallocate cash in other funds to the General Fund in an amount up to 7% of the total general-purpose revenue appropriations then in effect and an additional 3% for a period of up to 30 days. These amounts are approximately \$940 million and \$403 million, respectively, for the 2009-10 fiscal year. If the amount available for temporary reallocation to the General Fund is not sufficient, then the Secretary of Administration is authorized to set priorities for payments from the General Fund and to prorate and defer certain payments.
- (d) Includes \$800 million of operating note proceeds issued on July 1, 2009 and impoundment payments due by February 26, 2010, March 31, 2010, April 30, 2010, and May 28, 2010. The February 26, 2010 impoundment payment reflects the premium received on July 1, 2009 and deposited into the Operating Note Redemption Fund.

- (a) None of the data presented here has been subjected to customary fiscal period closing procedures or other procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments. In addition, comparison of monthly General Fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month.
- (b) Projections previously included in this table reflected the budget for the 2007-09 biennium (2007 Wisconsin Act 20), the budget adjustment bill (2007 Wisconsin Act 226), the issuance of \$800 million in operating notes for the 2008-09 fiscal year, the updated General Fund tax collection projections included in the January 29, 2009 LFB memorandum (as updated on February 11, 2008), the State's economic stimulus and budget repair bill for the 2008-09 fiscal year and the 2009-11 biennium (2009 Wisconsin Act 2), approximately \$281 million in economic stimulus money the State has received for its medical assistance program, the revised General Fund tax revenue estimates included in the May 11, 2009 LFB memorandum, and the provisions of 2009 Wisconsin Acts 11 and 23, which collectively authorized the use of approximately \$553 million of federal economic stimulus money the State has received from the U.S. Department of Education. The federal economic stimulus money discussed above is only a portion of such funds that the State has received or expects to receive.
- (c) Changes are sometimes made after the beginning of the fiscal year to the projected revenues and disbursements. Depending on when these changes occur, there are situations in which prior estimates cannot be changed, which may result in large variances. This column includes adjustments to the variances to more accurately reflect the variance between the estimated and actual amounts.

	June.....	652,880	2,543,256	3,257,407

- (a) The General Fund balances presented in this table are not based on generally accepted accounting principles (GAAP).
- (b) The projections in this table for the 2009-10 fiscal year reflect 2009 Wisconsin Act 2, the budget for the 2009-11 biennium (2009 Wisconsin Act 28), certain federal economic stimulus money in the amount of \$905 million the State is expected to receive in the fiscal year (\$606 million for medical assistance programs, \$237 million for education aids, and \$63 million for other various purposes), and the revised General Fund tax revenue estimates included in the May 11, 2009 LFB memorandum (as modified on May 14, 2009). The projections and estimates in the following tables *do not reflect* actions of the Legislature’s Joint Committee on Finance subsequent to enactment of 2009 Wisconsin Act 28 relating to the amount of federal economic stimulus money the State is expected to receive in the 2009-10 fiscal year. The federal economic stimulus money discussed above is only a portion of such funds that the State expects to receive.
- (c) Operating notes were issued for the 2007-08, 2008-09, and 2009-10 fiscal years.
- (d) At some period during this month, the General Fund was in a negative cash position. Wisconsin Statutes provide certain administrative remedies to deal with periods when the General Fund is in a negative cash position. The Secretary of Administration may temporarily reallocate cash in other funds to the General Fund up to 7% of the general purpose revenue appropriations then in effect (approximately \$940 million for the 2009-10 fiscal year). In addition, the Secretary of Administration may also temporarily reallocate an additional amount of up to 3% of the general-purpose revenue appropriations then in effect (approximately \$403 million for the 2009-10 fiscal year) for a period of up to 30 days. If the amount of temporary reallocation available to the General Fund is not sufficient, then the Secretary of Administration is authorized to set priorities for payments from the General Fund and to prorate or defer certain payments.

Table II-11; Balances in Funds Available for Temporary Reallocation (Page 46). Replace with the following updated table.

BALANCES IN FUNDS AVAILABLE FOR TEMPORARY REALLOCATION^(a)
July 31, 2007 to June 30, 2009 – Actual
July 31, 2009 to June 30, 2010 – Estimated
(Amounts in Millions)

The following two tables show, on a monthly basis, the cash balances available for temporary reallocation. The first table does not include balances in the Local Government Investment Pool (LGIP), and the second table does include such balances. Though the LGIP is available for temporary reallocation, funds in the LGIP are deposited and withdrawn by local units of government, and thus are outside the control of the State. The monthly average daily balances in the LGIP for the past five years have ranged from a low of \$2.211 billion during November 2005 to a high of \$4.347 billion in August 2008. The Secretary of Administration may not exercise the authority to use temporary reallocation if doing so would jeopardize the cash flow of any fund or account from which a temporary reallocation would be made.

Federal and Other Inter- Governmental Revenues ^(f)	6,803,292,000	6,440,565,100	6,707,018,327	8,430,640,470
Dedicated and Other Revenues ^(g)	<u>4,151,603,000</u>	<u>4,802,995,000</u>	<u>4,460,411,116</u>	<u>4,624,277,555</u>
TOTAL.....	<u>\$ 23,997,838,000</u>	<u>\$ 23,769,160,100</u>	<u>\$ 23,329,658,004</u>	<u>\$ 24,372,389,947</u>

(a) The revenues in this table are presented on an agency-recorded basis and not a budgetary basis. None of the data presented here has been subjected to customary fiscal period closing procedures or other procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments.

(b) The amounts are from the Annual Fiscal Report (budgetary basis) for the 2007-08 fiscal year, dated October 15, 2008.

(c) The projections in this table reflect the budget for the 2007-09 biennium (2007 Wisconsin Act 20), the budget adjustment bill (2007 Wisconsin Act 226), the updated General Fund tax collection projections included in the January 29, 2009 LFB memorandum (as updated on February 11, 2008), and the State's economic stimulus and budget repair bill for the 2008-09 fiscal year and the 2009-11 biennium (2009 Wisconsin Act 2). The projections in these tables do not reflect approximately \$281 million of federal economic stimulus money the State has received for its medical assistance program, the revised General Fund tax revenue estimates included in the May 11, 2009 LFB memorandum, and provisions of 2009 Wisconsin Act 11 and 2009 Wisconsin Act 23, which collectively authorize the use of approximately \$553 million in federal economic stimulus money the State received from the U.S. Department of Education.

(d) The amounts shown are 2007-08 fiscal year revenues as recorded by all State agencies. The amounts shown are as of June 30, 2008 and do not include revenues for the 2007-08 fiscal year that were recorded by State agencies during the months of July and August, 2008. There may be differences between the tax revenues shown in this table and those reported by the Department of Revenue from time to time in its monthly general purpose revenue collections report; the Department of Revenue report only includes general purpose revenues or taxes that are actually collected by the Department of Revenue.

(e) The amounts shown are 2008-09 general purpose revenues and program revenue taxes collected across all State agencies. The amounts shown are as of June 30, 2009; additional revenues will be recorded by state agencies for the 2008-09 fiscal year during the months of July and August, 2009. There may be differences between the tax revenues shown in this table and those reported by the Department of Revenue from time to time in its monthly general purpose revenue collections report; the Department of Revenue report only includes general purpose revenues or taxes that are actually collected by the Department of Revenue.

(f) This category includes intergovernmental transfers. The amount of these transfers may vary greatly between fiscal years, and therefore this category may not be comparable on a historical basis.

(g) Certain transfers between General Fund appropriations are recorded as both revenues and expenditures of the General Fund. The amount of these transfers may vary greatly between fiscal years, and therefore this category may not be comparable on a historical basis.

APPENDIX C

EXPECTED FORM OF BOND COUNSEL OPINION

Upon delivery of the Bonds, it is expected that Foley & Lardner LLP will deliver a legal opinion in substantially the following form:

(Letterhead of Foley & Lardner LLP)

\$423,090,000

STATE OF WISCONSIN

\$197,265,000 GENERAL OBLIGATION BONDS OF 2009, SERIES C

\$225,825,000 GENERAL OBLIGATION BONDS OF 2009, SERIES D (TAXABLE)

We have served as bond counsel in connection with the issuance by the State of Wisconsin (**State**) of its \$197,265,000 General Obligation Bonds of 2009, Series C, dated the date hereof (**2009 Series C Bonds**) and its \$225,825,000 General Obligation Bonds of 2009, Series D (Taxable), dated the date hereof (**2009 Series D Bonds**) and, collectively with the 2009 Series C Bonds, (**Bonds**). The Bonds are authorized by Article VIII of the Wisconsin Constitution and Chapters 18 and 20 of the Wisconsin Statutes, and are being issued pursuant to a resolution adopted by the State of Wisconsin Building Commission (**Commission**) on August 12, 2009 (**Resolution**).

We examined the law, a certified copy of the proceedings relating to the issuance of the Bonds, and certifications of public officials and others. As to questions of fact material to our opinion, we relied upon those certified proceedings and certifications without independently undertaking to verify them.

Based upon this examination, it is our opinion that, under existing law:

1. The Bonds are valid and binding general obligations of the State.
2. The Resolution has been duly adopted by the Commission and is a valid and binding obligation of the State enforceable upon the State as provided in the Resolution.
3. The full faith, credit, and taxing power of the State are irrevocably pledged to the payment of the principal of, premium, if any, and interest on the Bonds as the Bonds mature and become due. There has been irrevocably appropriated, as a first charge upon all revenues of the State, a sum sufficient for such purpose.
4. Interest on the 2009 Series C Bonds is excluded from gross income for federal income tax purposes, is not an item of tax preference for purposes of the federal alternative minimum tax imposed on all taxpayers, and is not taken into account in determining adjusted current earnings for purposes of computing the federal alternative minimum tax imposed on certain corporations. The State must comply with all requirements of the Internal Revenue Code of 1986, as amended, that must be satisfied after the 2009 Series C Bonds are issued for interest on the 2009 Series C Bonds to be, or continue to be, excluded from gross income for federal income tax purposes. The State has agreed to do so. A failure to comply may cause interest on the 2009 Series C Bonds to be included in gross income for federal income tax purposes, in some cases retroactively to the date the 2009 Series C Bonds were issued. For purposes of Section 265(b)(7) of the Internal Revenue Code of 1986, as amended, the 2009 Series C Bonds are obligations issued in 2009 that are not refunding bonds. This letter expresses no opinion about other federal tax law consequences regarding the 2009 Series C Bonds.

The rights of the owners of the Bonds and the enforceability of the Bonds may be limited by bankruptcy, insolvency, reorganization, moratorium, and other similar laws affecting creditors' rights and by equitable principles (which may be applied in either a legal or an equitable proceeding). This letter expresses no opinion as to the availability of any particular form of judicial relief.

We have not been engaged or undertaken to review the accuracy, completeness, or sufficiency of the Official Statement or other offering material relating to the Bonds (except to the extent, if any, stated in the Official Statement), and we express no opinion relating thereto (except only the matters set forth as our opinion in the Official Statement). However, in serving as bond counsel, nothing has come to our attention that would lead us to believe that the Official Statement (except for the financial statements and other financial or statistical data included therein, as to which we express no view), as of the date of delivery of the Bonds, contained any untrue statement of a material fact or omitted to state any material fact required to be stated therein or necessary to make the statements contained therein, in light of the circumstances under which they were made, not misleading.

This letter speaks as of its date. We assume no duty to change this letter to reflect any facts or circumstances that later come to our attention or any changes in law. In serving as bond counsel, we have established an attorney-client relationship solely with the State.

Very truly yours,

FOLEY & LARDNER LLP

APPENDIX D
STATE'S CONTINUING DISCLOSURE UNDERTAKING

**MASTER AGREEMENT ON CONTINUING DISCLOSURE
(AMENDED AND RESTATED JULY 1, 2009)**

This Master Agreement on Continuing Disclosure (**Disclosure Agreement**) is executed and delivered by the State of Wisconsin (**Issuer**), a municipal securities issuer and a sovereign government. The Issuer covenants and agrees as follows:

SECTION 1. Definitions. The following capitalized terms shall have the following meanings:

“**Addendum Describing Annual Report**” shall mean an addendum, substantially in the form of Exhibit A hereto, that describes the contents of an Annual Report for a particular type of obligation.

“**Annual Report**” shall mean any report provided by the Issuer pursuant to, and as described in, Sections 4 and 5 of this Disclosure Agreement.

“**Bonds**” shall mean any issue of the Issuer’s obligations to which this Disclosure Agreement applies.

“**Bondholders**” shall mean the beneficial owners from time to time of the Bonds.

“**Commission**” shall mean the U.S. Securities and Exchange Commission.

“**Disclosure Agreement**” shall mean this agreement.

“**EMMA**” shall mean the Electronic Municipal Market Access system for municipal securities disclosure, a Commission-approved electronic database established and operated by the MSRB to accommodate the collection and availability of required filings of secondary market disclosures under the Rule.

“**Event Notice**” shall mean a notice of an occurrence of a Material Event provided under Section 6(b) hereof or a notice provided under Sections 4(c), 6(c), 7, 8, or 9.

“**Exchange Act**” shall mean the Securities Exchange Act of 1934, as amended from time to time.

“**Issuer**” shall mean the municipal securities issuer described above, namely, the State of Wisconsin.

“**Material Event**” shall mean any of the events listed in Section 6(a) of this Disclosure Agreement that is material to the Owners, as materiality is interpreted under the Exchange Act.

“**MSRB**” shall mean the Municipal Securities Rulemaking Board.

“**Owners**” shall mean the beneficial owners from time to time of the Bonds.

“**Participating Underwriter**” shall mean any broker, dealer, or municipal securities dealer that is required to comply with the Rule when acting as an underwriter in connection with a primary offering of an issue of Bonds.

“**Resolution**” shall mean the resolution or resolutions of the State of Wisconsin Building Commission or the trust indenture entered into by the Issuer, pursuant to which the Bonds are issued.

“**Rule**” shall mean Rule 15c2-12(b)(5) adopted by the Commission under the Exchange Act.

“**Supplemental Agreement**” shall mean an agreement, substantially in the form of Exhibit B hereto, that either (i) determines that the Disclosure Agreement and a specific Addendum Describing Annual Report shall apply to a specific issue of Bonds or (ii) determines that the Disclosure Agreement (other than Sections 4 or 5, which concern Annual Reports) shall apply to a specific issue of Bonds.

SECTION 2. Purpose of the Disclosure Agreement. The purpose of this Disclosure Agreement is to assist Participating Underwriters in complying with the Rule in connection with a primary offering of an issue of Bonds.

SECTION 3. Application of the Disclosure Agreement. This Disclosure Agreement shall apply to an issue of Bonds when the Issuer executes and delivers a Supplemental Agreement. This Disclosure Agreement may apply in whole or in part, as specified by the Supplemental Agreement. This Disclosure Agreement may apply to more than one issue of Bonds but shall be construed as a separate agreement for each issue of Bonds. The purpose of having this Disclosure Agreement apply to more than one issue of Bonds is to promote uniformity of the Issuer’s obligations with respect to all issues of Bonds.

SECTION 4. Provision of Annual Reports.

(a) The Issuer shall, not later than 180 days following the close of the Issuer’s fiscal year, provide to the MSRB an Annual Report that is consistent with the requirements of Section 5 of this Disclosure Agreement.

(b) If Issuer’s audited financial statements are not publicly available at the time the Annual Report is submitted, the Issuer shall submit them to the MSRB within ten business days after the statements are publicly available.

(c) If the Issuer fails to provide an Annual Report to the MSRB by the date required in subsection (a), the Issuer shall send an Event Notice to the MSRB.

SECTION 5. Content and Submission of Annual Reports.

(a) The Annual Report shall be provided for each obligated person described in the Addendum Describing Annual Report, and it shall contain or incorporate by reference, the financial statements and operating data, and use the accounting principles, described in the Addendum Describing Annual Report.

(b) The Annual Report shall be submitted to the MSRB in an electronic format, and accompanied by identifying information, as prescribed by the MSRB. As of the date of this Disclosure Agreement, the MSRB prescribes that all submissions of secondary disclosure be made through EMMA. The Annual Report may be submitted as a single document or as a package comprising separate documents. Any or all of the items constituting the Annual Report may be incorporated by reference from other documents available to the public on the MSRB's Internet Web site or filed with the Commission. The Issuer shall clearly identify each document so incorporated by reference.

(c) Each time the Issuer submits information to the MSRB in accordance with this Disclosure Agreement, it shall confirm, in the manner it deems appropriate, the MSRB's prescriptions concerning the electronic format and accompanying identifying information. As of the date of this Disclosure Agreement, information on the MSRB's required electronic format and submission procedures through EMMA can be found on the MSRB's Internet Web site at www.emma.msrb.org.

(d) To allow for uniformity of the contents of Annual Reports with respect to obligations that are similar in character, the Issuer may from time to time describe the contents in an Addendum Describing Annual Report and shall incorporate a description by reference in a Supplemental Agreement.

SECTION 6. Reporting of Significant Events.

(a) This Section 6 shall govern the giving of notices of the occurrence of any of the following events with respect to the Bonds, if material:

1. Principal and interest payment delinquencies.
2. Non-payment related defaults.
3. Unscheduled draws on debt service reserves reflecting financial difficulties.
4. Unscheduled draws on credit enhancements reflecting financial difficulties.
5. Substitution of credit or liquidity providers, or their failure to perform.
6. Adverse tax opinions or events affecting the tax-exempt status of the Bonds.
7. Modifications to rights of Bondholders.
8. Bond calls.
9. Defeasances.

10. Release, substitution, or sale of property securing repayment of the Bonds.

11. Rating changes.

(b) Whenever the Issuer obtains knowledge of the occurrence of a Material Event, the Issuer shall promptly file a notice of such occurrence with the MSRB. Notwithstanding the foregoing, notice of Material Events described in subsections (a)(8) and (9) need not be given under this subsection any earlier than the notice (if any) of the underlying event is given to affected Bondholders if it is required pursuant to the Resolution.

(c) Similarly, if the Issuer determines that it failed to give notice as required by this section, it shall promptly file an Event Notice with respect to such occurrence to the MSRB.

SECTION 7. Termination of Reporting Obligation. The Issuer's obligations under this Disclosure Agreement with respect to an issue of Bonds shall terminate upon the legal defeasance, prior redemption, or payment in full of all Bonds of the issue or if the Rule shall be revoked or rescinded by the Commission or declared invalid by a final decision of a court of competent jurisdiction. If such termination occurs prior to the stated maturity of the Bonds, then the Issuer shall give an Event Notice with respect to such termination to the MSRB.

SECTION 8. Amendment; Waiver. Notwithstanding any other provision of this Disclosure Agreement, the Issuer may amend this Disclosure Agreement, and any provision of this Disclosure Agreement may be waived, if the following conditions are met:

(a) The amendment or waiver may only be made in connection with a change in circumstances that arises from a change in legal requirements, change in law, or change in the identity, nature, or status of the Issuer, or an obligated person, or the type of business conducted; and

(b) This Disclosure Agreement, as amended or waived, would have complied with the requirements of the Rule at the time of the primary offering, after taking into account any amendments or interpretations of the Rule, as well as any change in circumstances; and

(c) The amendment or waiver does not materially impair the interests of Bondholders, as determined by an opinion of nationally recognized bond counsel, a certificate from an indenture trustee for the Bonds, or an approving vote of Bondholders pursuant to the terms of the Resolution at the time of the amendment or waiver.

In the event this Disclosure Agreement is amended or waived for any reason other than to cure any ambiguities, inconsistencies, or typographical errors that may be contained herein, the Issuer agrees to give an Event Notice with respect to such amendment or waiver to the MSRB in connection with the next Annual Report it files after such event, explaining the reasons for the amendment or waiver and the impact, if any, of the change in the type of financial statements or operating data being provided.

SECTION 9. Additional Information. The Issuer may from time to time choose to disseminate other information, using the means of dissemination set forth in this Disclosure Agreement or any other means of communication, or include other information in any Annual Report or Event Notice, in addition to that which is required by this Disclosure Agreement. If the Issuer chooses to include any information in any Annual Report or Event Notice in addition to that which is specifically required by this Disclosure Agreement, the Issuer shall have no obligation under this Disclosure Agreement to update such information or include it in any future Annual Report or Event Notice.

SECTION 10. Default. A default under this Disclosure Agreement shall not be deemed an Event of Default under the Resolution, and the sole remedy of a Bondholder under this Disclosure Agreement in the event of any failure of the Issuer to comply with this Disclosure Agreement shall be an action to compel performance. The Issuer reserves any defense it may have to any such action including that this Disclosure Agreement violates sovereign rights or that no funds have been appropriated for performance.

SECTION 11. Beneficiaries. The Issuer intends to be contractually bound by this Disclosure Agreement. This Disclosure Agreement shall inure solely to the benefit of the Issuer, the Participating Underwriters, and Owners and shall create no rights in any other person or entity.

SECTION 12. Responsible Officer. Pursuant to a resolution adopted by the State of Wisconsin Building Commission on August 9, 1995, the Capital Finance Director has been authorized to execute this Disclosure Agreement on behalf of the Issuer and the Capital Finance Office has been designated the office of the Issuer responsible for providing Annual Reports and giving notice of Listed Events, to the extent required hereunder. Any inquiries regarding this Disclosure Agreement should be directed to the Capital Finance Office, Department of Administration, Division of Executive Budget and Finance, 101 East Wilson Street, Madison, Wisconsin 53702, Phone: (608) 266-5355, Fax: (608) 266-7645 or such other address, telephone number, or fax number as the Issuer may from time to time provide by an addendum hereto.

SECTION 13. Satisfaction of Conditions. This Disclosure Agreement amends and restates the Master Agreement on Continuing Disclosure (**Prior Agreement**), executed and delivered by the Issuer and dated September 25, 1995. The Issuer finds and determines that the conditions stated under Section 8 of the Prior Agreement for amendment of the Prior Agreement have been satisfied and, more particularly:

(a) The amendments are being made in connection with a change in circumstances that arises from a change in legal requirements or a change in law (namely, amendments to the Rule);

(b) This Disclosure Agreement, as amended, would have complied with the requirements of the Rule at the time of the primary offering of the Bonds, after taking into account the amendments to the Rule; and

(c) The amendments do not materially impair the interests of the Bondholders, as determined by an opinion of nationally recognized bond counsel.

IN WITNESS WHEREOF, the Issuer has caused this Master Agreement on Continuing Disclosure to be executed by its duly authorized officer.
