Re: General Fund Monthly Financial Information—June 2009

Please find attached the Report of Monthly General Fund Financial Information for the period ending June 30, 2009. All footnotes and additional information for the tables appear on the last two pages as endnotes to this report. This cover letter provides comment on the attached tables of General Fund financial information.

- ***FY09 Ending Balance.*** Many of the tables for FY09 in the attached report are presented on a cash basis and reflect \$347 million of federal economic stimulus money the State received for its medical assistance program and \$552 million of federal economic stimulus money the State received from the U.S. Department of Education. This is only a portion of the federal economic stimulus money the State has received.

The tables in the attached report are not intended to provide a projection of the State's ending budgetary balance for FY09. The State will issue by October 15, 2009 its Annual Fiscal Report that will include the ending general fund balance (budgetary-basis) for FY09. Based on the General Fund tax revenue estimates in the May 11, 2009 Legislative Fiscal Bureau (**LFB**) memorandum and provisions of 2009 Wisconsin Acts 11 and 23 and 2009-11 biennial budget (2009 Wisconsin Act 28), a positive ending General Fund balance (budgetary-basis) is projected for FY09.

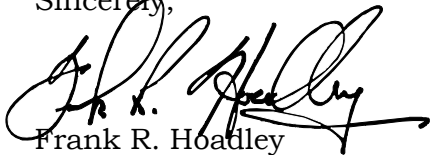

- ***FY10 General Fund Cash Flow Projections.*** The tables in the attached report that include FY10 projections (cash basis) reflect:
  - 2009 Wisconsin Act 2 and the 2009-11 biennial budget (2009 Wisconsin Act 28)
  - \$905 million of certain federal economic stimulus money the State is expected to receive, which includes \$606 million for medical assistance programs, \$237 million for education aids, and \$63 million for other various purposes. This is only a portion of the federal economic stimulus money the State expects to receive.

- Revised General Fund tax revenue estimates released by LFB on May 11, 2009, as modified on May 14, 2009.
- \$800 million of operating note proceeds and the resulting impoundment payments.
- **Projected FY10 Negative Cash Balances.** The largest negative cash balance for FY10 is currently negative \$596 million, which is expected to occur on April 9, 2010. Pursuant to Wisconsin Statutes, temporary reallocations (previously referred to as interfund borrowing) and other additional remedies are available to deal with periods when the cash balance is negative. The allowable amount of temporary reallocation for FY10 is up to 7% of the general-purpose revenue appropriations then in effect (approximately \$940 million), with an additional 3% for a period of up to 30 days (approximately \$403 million), which in aggregate is \$1.343 billion.

If the amount of temporary allocation available to the General Fund is insufficient, the Secretary of Administration is authorized to set priorities for payments from the General Fund and to prorate or defer certain payments.

Please contact this office with any questions or to request a copy of any item referenced above or in the attached report.

Sincerely,

A handwritten signature in black ink, appearing to read "F. R. Hoadley", written over a printed name.

## Cautionary Information!

|  |
|--|
| <b>Users of this information should be cautioned about several points:</b> |
|--|

The General Fund financial information in this document has been prepared using what is believed to be the best available data for these purposes. The tables in this document have been prepared using the same procedures used to prepare similar information for the State of Wisconsin Continuing Disclosure Annual Report, Official Statements prepared for specific securities, or reports filed in conjunction with various securities. This information is, however, preliminary in nature and subject to change.

- This information is unaudited and is not a “financial statement.” None of the data presented here has been subjected to customary fiscal period closing procedures or the procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments.
- This information only speaks as of the date on which it was prepared.
- Statements of information for dates before the date this information is prepared will most likely be restated or revised. Information classified as “actual”, and any difference from any prior estimate, does not signify a change to official estimates. Any official revenue or expenditure re-estimates that do occur will be separately identified, and if material, appropriately noted.
- The information does not intend to reflect the State’s projected budgetary balance for FY09 or FY10. The State is required to issue its Annual Fiscal Report (budgetary basis) for FY09 by October 15, 2009.
- Projections of results for dates after the date this information is prepared are forward looking. Actual results will almost certainly differ.
  - It is important to note that cash flow projections are expressed on a *cash basis* while the revenue estimates released by DOR are expressed on a *budgetary basis* and net of any refunds.
  - The projected General Fund cash flow for FY10 *reflects* 2009 Wisconsin Act 2 and the 2009-11 biennial budget (2009 Wisconsin Act 28) signed into law by Governor Doyle on June 29, 2009, \$905 million of certain federal economic stimulus funds that the State expects to receive, revised General Fund tax revenue estimates released by LFB on May 11, 2009 (as modified on May 14, 2009), and \$800 million of operating note proceeds and the resulting impoundment payments.
  - Projections are not adjusted to reflect actual revenues and expenditures and routine variability in the timing of receipts and disbursements, but may be adjusted to reflect unique events.
  - Projections of remaining fiscal year cash flow may be adjusted when necessary to reflect unforeseen events or additional revised forecasts of the General Fund condition statement.
- Data in the tables of financial information are subject to revision and reclassification for prior periods. This is particularly true for revenue data, where proper classification depends on tax returns which are received and processed significantly after the tax payments are received through electronic transfers.
- Some information is presented on a cash basis of accounting while other data is presented on a budgetary or agency recorded basis. Users should not compare information that is presented on one basis of accounting with information that is presented on a different basis of accounting.
- Comparison of monthly General Fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month.
- The State of Wisconsin is not obligated to provide this information or make it available on its website.
- None of the information in these tables of financial information is required by the State of Wisconsin’s continuing disclosure undertakings pursuant to SEC rule 15c2-12.
  - This information is not, and does not replace, a notice of a material event required by SEC rule 15c2-12.
  - This information is not, and does not replace, the annual financial information required by SEC rule 15c2-12.

**CASH BALANCES IN FUNDS AVAILABLE FOR TEMPORARY REALLOCATION<sup>(a) (g)</sup>**  
**July 31, 2007 to June 30, 2009 — Actual**  
**July 31, 2009 to June 30, 2010 — Projected<sup>(b)</sup>**  
**(Amounts in Millions)**

The following two tables show, on a monthly basis, the cash balances available for temporary reallocation. The first table does not include balances in the Local Government Investment Pool (LGIP) and the second table does include such balances. Though the LGIP is available for temporary reallocations, funds in the LGIP are deposited and withdrawn by local units of government, and thus are outside the control of the State. The monthly average daily balances in the LGIP for the past five years have ranged from a low of \$2.211 billion during November 2005 to a high of \$4.347 billion during August 2008. The Secretary of Administration may not exercise the authority to use temporary reallocation if doing so would jeopardize the cash flow of any fund or account from which a temporary reallocation would be made.

## ENDNOTES AND ADDITIONAL INFORMATION

- (a) Please refer to the cautionary statements at the beginning of this document. The cautionary statements are an integral part of this table. None of the data presented here has been subjected to customary fiscal period closing procedures or other procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments. In addition, comparison of monthly General Fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month.
- (b) The projections or estimates for FY09 had reflected the revised General Fund tax revenue estimates released by LFB on May 11, 2009, provisions of 2009 Wisconsin Acts 11 and 23, which collectively authorized the use of \$553 million in federal economic stimulus money the State received from the U.S. Department of Education, and receipt of \$281 million in federal economic stimulus funds for the State's medical assistance program.
- The projections or estimates for FY10 reflect the 2009-11 biennial budget (2009 Wisconsin Act 28), signed into law by Governor Doyle on June 29, 2009, \$905 million of certain federal economic stimulus money the State is expected to receive for its medical assistance program, education, and various other programs, revised General Fund tax revenue estimates released by LFB on May 11, 2009 (as modified on May 14, 2009), and \$800 million of operating note proceeds and the resulting impoundment payments. The federal economic stimulus money referenced above is only a portion of such money the State has received or expects to receive.
- (c) The General Fund cash balances presented are not based on Generally Accepted Accounting Principles (GAAP). The General Fund includes funds designated for operations and capital purposes of certain proprietary programs of the State's universities. Receipts and disbursements of such funds for the designated programs and the disbursement of such funds for other purposes are reflected in the cash flow. A use of the designated funds for purposes other than the proprietary programs is, in effect, a borrowing of such funds. Therefore, at any time that the balance in the General Fund is less than the balance of such designated funds, the State is obligated to replenish the designated funds to the extent of the shortfall. The designated funds were expected to range from \$206 to \$350 million during FY09 and are expected to range from \$220 to \$400 million during FY10. In addition, the General Fund holds deposits for several escrow accounts pursuant to court orders or federal rulings. These funds were expected to average \$10 million during FY09 and are expected to average \$5 million during FY10.
- (d) The Statutes provide certain administrative remedies to deal with periods when the General Fund is in a negative cash position. The Secretary of Administration may temporarily reallocate cash in other funds to the General Fund; for FY10 this amount may be up to 7% of the general-purpose revenue appropriations then in effect, or approximately \$940 million. In addition, the Secretary of Administration may also temporarily reallocate for a period of up to 30 days an additional amount up to 3% of the general-purpose revenue appropriations then in effect, or approximately \$403 million.
- If the amount of temporary reallocation available to the General Fund is not sufficient, the Secretary of Administration is authorized to set priorities for payments from the General Fund and to prorate and defer certain payments.
- (e) \$600 million of operating notes issued on July 2, 2007 for FY08, \$800 million of operating notes issued on July 1, 2008 for FY09, and \$800 million of operating notes issued on July 1, 2009 for FY10. The February, 2010 impoundment payment reflects the amount of premium received on July 1, 2009 and deposited into the Operating Note Redemption Fund.
- (f) Changes are sometimes made after the beginning of the fiscal year to the projected revenues and disbursements. Depending on when these changes occur, there are situations in which prior estimates can not be changed and the result is a large variance. This column may include adjustments to the variances to more accurately reflect the variance between the estimated and actual amounts.
- (g) The amounts shown reflect a reduction in the aggregate cash balances available to the extent any fund had a negative balance and temporary reallocation was used for such fund.
- (h) The amounts are from the Annual Fiscal Report (unaudited, budgetary basis) for FY08, dated October 15, 2008. A complete copy of the Annual Fiscal Report (unaudited, budgetary basis) for FY08 can be obtained by contacting the State of Wisconsin Capital Finance Office.
- (i) The projections or estimates reflect the FY09 General Fund budget through 2009 Wisconsin Act 2, and does not reflect the revised General Fund tax revenue estimates released by LFB on May 11, 2009 nor the provisions of 2009 Wisconsin Acts 11 and 23, which collectively authorized the use of \$553 million in federal economic stimulus money the State received from the U.S. Department of Education.
- (j) The amounts shown are FY08 general purpose revenues and program revenues taxes as recorded by state agencies. The amounts shown are as of June 30, 2008 and do not include revenues for FY08 that were recorded by State agencies during the months of July and August, 2008. There may be differences between the tax revenues shown in this report and those that may be reported by the Department of Revenue from time to time in their monthly general purpose revenue collections report; the Department of Revenue report (i) only includes general purpose revenues or taxes that are actually collected by the Department of Revenue, and (ii) may include accruals or other adjustments that may not be recorded by state agencies until a subsequent month.

- (k) The amounts shown are FY09 general purpose revenues and program revenue taxes as recorded by state agencies. Additional revenues will be recorded by state agencies for FY09 during the months of July and August, 2009. There may be differences between the tax revenues shown in this report and those that may be reported by the Department of Revenue from time to time in their monthly general purpose revenue collections report; the Department of Revenue report (i) only includes general purpose revenues or taxes that are actually collected by the Department of Revenue, and (ii) may include accruals or other adjustments that may not be recorded by state agencies until a subsequent month.
- (l) This category includes intergovernmental transfers. The amount of these transfers may vary greatly between fiscal years, and therefore, this category may not be comparable on a historical basis.
- (m) Certain transfers between General Fund appropriations are recorded as both revenues and expenditures of the General Fund. The amount of these transfers may vary greatly between fiscal years, and therefore, this category may not be comparable on a historical basis.
- (n) The amounts shown are FY08 expenditures as recorded by state agencies. The amounts shown are as of June 30, 2008 and do not include expenditures for FY08 that were recorded by State agencies during the months of July and August, 2008.
- (o) The amounts shown are FY09 expenditures as recorded by state agencies. Additional expenditures will be recorded by state agencies for FY09 during the months of July and August, 2009.

Additional information regarding the tables on the previous pages:

*Tribal Government Payments.* In May 2004, the Wisconsin Supreme Court ruled that certain amendments to the gaming compacts with tribal governments were unconstitutional. Although this decision concerned only an amendment to a gaming compact with one tribal government, the reasoning of the opinion applied to similar amendments to other gaming compacts that were executed on or after January 1, 2003. On July 14, 2006, the Wisconsin Supreme Court held that a 1993 amendment to the gambling provision of the Wisconsin Constitution did not invalidate or affect the extension, renewal, or amendment of State-tribal compacts originally executed in 1991 and 1992. In addition, the Wisconsin Supreme Court overruled a portion of its earlier decision from 2004 that had invalidated compact amendments from 2003 that allowed tribes to offer additional games beyond those agreed to in the original tribal compacts.

In FY08, budget and General Fund cash receipts assumed that the State would receive approximately \$124 million pursuant to the amended gaming compacts with tribal governments. This amount reflected (i) \$72 million, which is the estimate of all payments due in FY08, and (ii) \$52 million, which is an estimate of payments due in previous years from a tribal government that were expected to be made in FY08. With respect to the estimated \$72 million of payments due in FY08, the State received payments totaling \$44 million from all but one tribal government. With respect to the estimated \$52 million of payments due in previous years, the State did not receive such payments.

In FY09, budget and General Fund cash receipts assumed that the State would receive approximately \$75 million pursuant to the amended gaming compacts with tribal governments. The FY09 budget and General Fund Cash receipts further reflect receipt of an additional \$60 million payment made by a tribal government on December 15, 2008 pursuant to settlement of a new gaming compact amendment. This payment (and the settlement of the new gaming compact amendment) was from the same tribal government that did not make its scheduled payment in FY08 and payments due in previous years. With the new gaming compact amendment, the State and this tribal governments agree on the methodology for payments due from the tribal government for each fiscal year, beginning with FY09.

The FY10 budget and projected General Fund cash flows assume that the State will receive approximately \$47 million pursuant to the amended gaming compacts with tribal governments.
