To the Users of This Report:

Re: General Fund Monthly Financial Information—March 2012

Please find attached the Report of Monthly General Fund Financial Information for the period ending March 31, 2012. All footnotes and additional information for the tables appear on the last two pages as endnotes to this report.

This cover letter provides comment on the attached tables of General Fund financial information.

- **General Fund Tax Revenue Estimates – February 2012 Update.** On February 9, 2012, LFB released a memorandum that included updated General Fund tax revenue estimates for the 2011-13 biennium. For FY12, these estimates are \$13.195 billion, or an increase of \$283 million (or 2.2%) from collections in FY11, but a decrease of \$100 million from the projections included in the 2011-13 biennial budget (2011 Wisconsin Act 32), which had reflected estimates included in a May 11, 2011 memorandum from LFB. For FY13, the updated estimates are \$13.604 billion, or a decrease of \$173 million from the projections included in the 2011-13 biennial budget.

A complete copy of LFB's February 9, 2012 memorandum is available from the Capital Finance Office website (www.doa.state.wi.us/capitalfinance), the MSRB via its EMMA system, or the above addresses.

- **General Fund Condition Statements – February 2012 Update.** On February 9, 2012, LFB released a memorandum that included estimated General Fund condition statements for FY12 and FY13. For FY12, the projected gross ending balance (not including the statutory required balance) is \$12 million, which is approximately \$61 million less than a projected General Fund condition statement that was prepared in October 2011. For FY13, the projected net ending balance (which includes the statutory required reserve) is negative \$208 million, which is approximately \$216 million less than a prior projection.

A complete copy of LFB's February 9, 2012 memorandum is available from the Capital Finance Office website (www.doa.state.wi.us/capitalfinance), the MSRB via its EMMA system, or the above addresses.

- **Projected FY12 Negative Cash Balances.** At this time, projected cash balances are all positive for the remainder of FY12. If needed, temporary reallocations (previously referred to as interfund borrowing) and other additional remedies are available, pursuant to Wisconsin Statutes, to deal with periods when the cash balance is negative. The allowable amount of temporary reallocation for FY12 is up to 9% of the general-purpose revenue appropriations then in effect (approximately \$1.275 billion), with an additional 3% for a period of up to 30 days (approximately \$425 million), which in aggregate is \$1.700 billion.

If the amount of temporary allocation available to the General Fund is insufficient, the Secretary of Administration is authorized to set priorities for payments from the General Fund and to prorate or defer certain payments.

- **Tax Filing Update.** As of April 28, 2012, the total number of State of Wisconsin tax returns completely processed in calendar year (CY) 2012 was up 2.8% compared to this time in CY11. The total number of refunds issued in CY12 is up 7.5% compared to this time in CY11 and the average amount of refund is up 0.3%. The portion of all processed tax returns with refunds issued is 81.4% compared to 77.8% at this time in CY11. Electronic returns have increased by 2.3% from this time in CY2011 and are now 84.1% of total returns.

Please contact this office with any questions or to request a copy of any item referenced above or in the attached report.

Sincerely,

Frank R. Hoadley
Capital Finance Director

Monthly General Fund Financial Information

State of Wisconsin

For the Period Ending March 31, 2012

Cautionary Information!

Users of this information should be cautioned about several points:
--

The General Fund financial information in this document has been prepared using what is believed to be the best available data for these purposes. The tables in this document have been prepared using the same procedures used to prepare similar information for the State of Wisconsin Continuing Disclosure Annual Report, Official Statements prepared for specific securities, or reports filed in conjunction with various securities. This information is, however, preliminary in nature and subject to change.

- This information is unaudited and is not a “financial statement.” None of the data presented here has been subjected to customary fiscal period closing procedures or the procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments.
- This information only speaks as of the date on which it was prepared.
- Statements of information for dates before the date this information is prepared will most likely be restated or revised. Information classified as “actual”, and any difference from any prior estimate, does not signify a change to official estimates. Any official revenue or expenditure re-estimates that do occur will be separately identified, and if material, appropriately noted.
- The information does not intend to reflect the State’s projected budgetary balance for FY12.
- Projections of results for dates after the date this information is prepared are forward looking. Actual results will almost certainly differ.
 - It is important to note that cash flow projections are expressed on a *cash basis* while the tax revenue collection estimates released by the Wisconsin Department of Revenue and LFB are expressed on a *budgetary basis* and net of any refunds.
 - Projections are not adjusted to reflect actual revenues and expenditures and routine variability in the timing of receipts and disbursements, but may be adjusted to reflect unique events.
 - Projections of remaining fiscal year cash flow may be adjusted when necessary to reflect unforeseen events or additional revised forecasts of the General Fund condition statement.
- Data in the tables of financial information are subject to revision and reclassification for prior periods. This is particularly true for revenue data, where proper classification depends on tax returns which are received and processed significantly after the tax payments are received through electronic transfers.
- Some information is presented on a cash basis of accounting while other data is presented on a budgetary or agency-recorded basis. Users should not compare information that is presented on one basis of accounting with information that is presented on a different basis of accounting.
- Comparison of monthly General Fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month. In addition, comparison of year-to-date annual General Fund financial information also has many inherent problems due to the potential of different revenue and budget provisions for each fiscal year.
- The State of Wisconsin is not obligated to provide this information or make it available on its website.
- None of the information in these tables of financial information is required by the State of Wisconsin’s continuing disclosure undertakings pursuant to the Securities and Exchange Commission (SEC) Rule 15c2-12, however this information is filed with the MSRB’s EMMA system as an additional voluntary filing.
 - This information is not, and does not replace, a listed event required by SEC Rule 15c2-12.
 - This information is not, and does not replace, the annual financial information required by SEC Rule 15c2-12.

CASH BALANCES IN FUNDS AVAILABLE FOR TEMPORARY REALLOCATION^{(a)(g)}
July 31, 2009 to March 31, 2012 — Actual
April 30, 2012 to June 30, 2012 — Projected^(b)
(Amounts in Millions)

The following two tables show, on a monthly basis, the cash balances available for temporary reallocation. The first table does not include balances in the Local Government Investment Pool (LGIP) and the second table does include such balances. Though the LGIP is available for temporary reallocations, funds in the LGIP are deposited and withdrawn by local units of government, and thus are outside the control of the State. The monthly average daily balances in the LGIP for the past five years have ranged from a low of \$2.113 billion during November 2011 to a high of \$4.347 billion during February 2009. The Secretary of Administration may not exercise the authority to use temporary reallocation if doing so would jeopardize the cash flow of any fund or account from which a temporary reallocation would be made.

ENDNOTES AND ADDITIONAL INFORMATION

- (a) Please refer to the cautionary statements at the beginning of this document. The cautionary statements are an integral part of this table. None of the data presented here has been subjected to customary fiscal period closing procedures or other procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments. In addition, comparison of monthly General Fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month.
- (b) The projections, results, and estimates for FY12 (cash basis) reflect the budget for the 2011-13 biennium (2011 Wisconsin Act 32), estimated General Fund tax collections included in the February 9, 2012 memorandum from LFB, and \$800 million of operating note proceeds and the resulting impoundment payments. The projected General Fund Cash Flow for FY12 was revised at the start of FY12 with "Federal/Non-Tax Receipts" in July 2012 being reduced by \$271 million and re-categorized as "Other & Transfers/Non-Tax Receipts" to be received throughout FY12; this revision was made to reflect a change in the timing of disbursements for the Medicaid Program resulting from a State law change that occurred late FY11.
- (c) The General Fund cash balances presented are not based on Generally Accepted Accounting Principles (GAAP). The General Fund includes funds designated for operations and capital purposes of certain proprietary programs of the State's universities. Receipts and disbursements of such funds for the designated programs and the disbursement of such funds for other purposes are reflected in the cash flow. A use of the designated funds for purposes other than the proprietary programs is, in effect, a borrowing of such funds. Therefore, at any time that the balance in the General Fund is less than the balance of such designated funds, the State is obligated to replenish the designated funds to the extent of the shortfall. The designated funds are expected to range from \$500 million to \$1.2 billion during FY12. In addition, the General Fund holds deposits for several escrow accounts pursuant to court orders or federal rulings. These funds are expected to average \$60 million during FY12.
- (d) The Statutes provide certain administrative remedies to deal with periods when the General Fund is in a negative cash position. For FY12, the Secretary of Administration may temporarily reallocate cash in other funds to the General Fund in an amount up to up to 9% of the general-purpose revenue appropriations then in effect (approximately \$1.275 billion) and may also temporarily reallocate for a period of up to 30 days an additional amount up to 3% of the general-purpose revenue appropriations then in effect (approximately \$425 million, for an aggregate amount of \$1.700 billion). If the amount of temporary reallocation available to the General Fund is not sufficient, the Secretary of Administration is authorized to set priorities for payments from the General Fund and to prorate and defer certain payments.
- (e) \$800 million of operating notes issued on July 19, 2011 for FY12, \$800 million of operating notes issued on July 1, 2010 for FY11, and \$800 million of operating notes issued on July 1, 2009 for FY10. Impoundment payments were made, or are due, in February, March, April, and May of the corresponding fiscal year. The February impoundment payments reflect any premium received in connection with the sale of the respective operating notes and deposited into the Operating Note Redemption Fund.
- (f) Changes are sometimes made after the beginning of the fiscal year to the projected revenues and disbursements. Depending on when these changes occur, there are situations in which prior estimates can not be changed and the result is a large variance. This column may include adjustments, if any, to the variances to more accurately reflect the variance between the estimated and actual amounts.
- (g) The amounts shown reflect a reduction in the aggregate cash balances available to the extent any fund had a negative balance and temporary reallocation was used for such fund.
- (h) The amounts are from the Annual Fiscal Report (unaudited, budgetary basis) for FY11, dated October 15, 2011.
- (i) The projections or estimates on an agency-recorded basis reflect the 2011-13 biennial budget (2011 Wisconsin Act 32) and the General Fund tax revenue estimates released by LFB on May 11, 2011. The estimates do not reflect the estimated General Fund tax revenue estimates included in the February 9, 2012 memorandum from LFB.

- (j) The amounts shown are FY11 general purpose revenues and program revenues taxes as recorded by state agencies. There may be differences between the tax revenues shown in this report and those that may be reported by the Department of Revenue from time to time in their monthly general purpose revenue collections report; the Department of Revenue report (i) only includes general purpose revenues or taxes that are actually collected by the Department of Revenue (and not by other state agencies), and (ii) may include accruals or other adjustments that may not be recorded by state agencies until a subsequent month.
- (k) The amounts shown are FY12 general purpose revenues and program revenue taxes as recorded by state agencies. There may be differences between the tax revenues shown in this report and those that may be reported by the Department of Revenue from time to time in their monthly general purpose revenue collections report; the Department of Revenue report (i) only includes general purpose revenues or taxes that are actually collected by the Department of Revenue (and not by other state agencies), and (ii) may include accruals or other adjustments that may not be recorded by state agencies until a subsequent month.
- (l) This category includes intergovernmental transfers. The amount of these transfers may vary greatly between fiscal years, and therefore, this category may not be comparable on a historical basis.
- (m) Certain transfers between General Fund appropriations are recorded as both revenues and expenditures of the General Fund. The amount of these transfers may vary greatly between fiscal years, and therefore, this category may not be comparable on a historical basis.
- (n) The amounts shown are FY11 expenditures as recorded by state agencies.
- (o) The amounts shown are FY12 expenditures as recorded by state agencies.
