**State of Wisconsin**  
**Additional/Voluntary Filing #2012-19**  
Dated November 21, 2012

---

This Additional/Voluntary Filing does not concern an event described in Securities and Exchange Act Rule 15c2-12, as amended. The State of Wisconsin provides this information as it may be material to financial evaluation of one or more obligations of the State of Wisconsin.

**Issuer:** State of Wisconsin

**CUSIP Numbers:** 977055 Prefix (All)                      977056 Prefix (All)  
97705L Prefix (All)                              977087 Prefix (All)  
977092 Prefix (All)                              977100 Prefix (All)  
977109 Prefix (All)                              977123 Prefix (All)

This filing relates to all securities issued by the State of Wisconsin that contain this six-digit base CUSIP number.

**Type of Information:** Additional/Voluntary Disclosure; Budget

**Agency Budget Request and Revenue Estimates—Department of Administration Report, November 20, 2012.**

The attached report from the State of Wisconsin Department of Administration includes:

- (1) **Table 2**; the Department of Revenue's general purpose tax revenue estimates for the current fiscal year (2012-13) and the next two fiscal years (2013-14 and 2014-15),
- (2) **Table 1 and Table 5**; a summary of agency budget requests for the next two fiscal years (2013-2015 biennium), and
- (3) **Table 3 and Table 4**; projected general fund condition statements that reflect current law appropriations for fiscal year 2012-13, agency budget requests for fiscal years 2013-14 and 2014-15, and current economic outlook and revenue forecasts based on best available date at this point in the fiscal year.

The Governor will use this report to prepare the executive budget for the 2013-15 biennium. The report identifies two major risk factors to the general purpose tax revenue estimates and projected general fund condition statements; both of these risks—the 'fiscal cliff' and the Affordable Care Act—rest entirely in the fiscal uncertainty with the federal government and its budget.

The State of Wisconsin has filed this notice with the Municipal Securities Rulemaking Board through its Electronic Municipal Market Access (EMMA) system. This filing is also available on the State of Wisconsin Capital Finance Office web site at:

---

November 20, 2012

The Honorable Scott Walker, Governor  
Members of the Wisconsin Legislature  
State Capitol  
Madison, Wisconsin 53702

Dear Governor Walker and Members of the Legislature:

In accordance with Wisconsin state law, the Department of Administration is submitting the Department of Revenue's general purpose tax revenue estimates for the State's biennial budget for fiscal years 2013-14 and 2014-15, as well as a summary of state agency budget requests. In addition, we have included revenue estimates for the remainder of the current fiscal year 2012-13. These revenue estimates are used to identify the funds that serve as the base for the biennial budget.

This letter finds our budget in a much stronger position than two years ago. We finished fiscal year 2011-12 with a positive fund balance of \$342.1 million. As a result, we entered fiscal year 2012-13 with the largest opening balance since fiscal year 2000-01.

As reported in the annual fiscal report last month, under Governor Walker's leadership, Wisconsin made the largest contribution to the State's rainy day fund. The \$108.7 million was the first time the state contributed to the rainy day fund in consecutive years. In fiscal year 2010-11, Wisconsin transferred \$14.8 million into the fund.

Wisconsin has virtually reached a position of structural balance. At the introduction of the current biennium in February, 2011 Wisconsin faced a \$3.6 billion structural deficit. For the coming biennium, agency budget requests exceed expected revenues by \$91.4 million in fiscal year 2013-14 and by \$80.0 million in fiscal year 2014-15, for a total of \$171.4 million over the biennium.

Balancing this \$171.4 million will be accomplished in the coming budget. In other words, the revenues and expenditures are largely equivalent without the use of one-time injections of revenue to maintain spending at an unsustainable level as had become the practice in the past. In addition, fiscal year 2012-13 was the first fiscal year since fiscal year 2006-07 that Wisconsin has not needed to issue operating notes to maintain cash flow. Wisconsin has the sixth lowest amount of tax-supported and pension debt per capita of any state in the country.

### **Revenue Estimates**

The Department of Revenue's estimates of general purpose tax revenue for the current fiscal year (2012-13), fiscal year 2013-14 and fiscal year 2014-15 are summarized by tax source in Table 2.

For fiscal year 2012-13, state tax revenues are estimated at \$13.762 billion. This is \$248 million (1.8 percent) higher than fiscal year 2011-12 actual revenues and \$374 million higher than the revenue estimate made on May 10, 2012, that was contained in the final Chapter 20 schedule.

State tax revenues are estimated to increase from this revised fiscal year 2012-13 base to \$14.280 billion in fiscal year 2013-14, which is an increase of \$518.2 million (3.8 percent) over fiscal year 2012-13. Revenues are estimated to increase to \$14.783 billion in fiscal year 2014-15, an additional \$502.3 million (3.5 percent) over fiscal year 2013-14. In total, revenue is estimated to increase \$1.520 billion over the fiscal year 2012-13 base.

These revenue estimates are based on existing tax law and are the result of economic activity, not proposed general tax law changes. These figures also assume current federal law which, in the absence of action by Congress, would restore the federal estate tax credit for state estate taxes paid, reactivating the Wisconsin estate tax and resulting in state estate tax revenue collections of \$219 million in the 2013-15 biennium.

### **General Fund Condition Projections**

The general fund condition statements (Tables 3 and 4) reflect current law appropriations for fiscal year 2012-13 and the requests from state agencies for fiscal years 2013-14 and 2014-15. They incorporate the current economic outlook and revenue forecasts based on the best available data at this point in the fiscal year.

1. The Department of Revenue's revenue estimates indicate that the state's economy will continue to grow moderately for the rest of fiscal year 2012-13 and the subsequent two fiscal years.
2. The state's general fund gross balance at the end of the fiscal year 2012-13 is projected to be \$348.1 million (see Table 3). This projection is based on the actual gross balance available at the end of fiscal year 2011-12 (\$342.1 million), the Department of Revenue's revised fiscal year 2012-13 tax revenue estimates and the final budget for fiscal year 2012-13. Estimates of departmental revenues, sum sufficient appropriations and lapses have been updated based on the latest available information.
3. Table 4 shows the combination of estimated revenues, current tax law cuts, the sunset of the repeal of the federal estate tax worth \$219 million over the biennium, and agency budget requests for the 2013-15 biennium.
4. Revenue estimates are inherently difficult to make. The revenue estimates prepared by the Department of Revenue cover more than a two and one-half

year period, from now until June 30, 2015. As noted, there is great uncertainty with the federal budget and payments to states. The economic outlook will be reviewed again before the Governor's budget is introduced.

### **Agency Budget Requests**

On August 14, 2012, Governor Walker instructed state agencies to submit biennial budget requests and requested they maintain spending at, or below, the fiscal year 2012-13 base level, recognizing the statutory and discretionary lapses found in Act 32. As in past biennia, several exceptions were granted to preserve K-12 school aids and other human service spending. Agency budget requests are posted on the Department of Administration's website at [doa.state.wi.us](http://doa.state.wi.us).

State agency budget requests for the 2013-15 biennium are summarized statewide and by functional area (Appendix 1) and by each agency (Appendix 2) and attached to this letter. The requested funding is displayed in tables by source of funds and by major expenditure purpose, such as local assistance, state operations and aids to individuals and organizations. Each table also includes actual agency expenditures during fiscal year 2011-12 and the adjusted base amounts for fiscal year 2012-13. Fiscal year 2012-13 adjusted base year amounts are the starting point in considering changes to agency budgets for the 2013-15 biennium.

If approved, these agency budget requests would increase total spending (all-funds) from the adjusted base of \$32.671 billion in the current fiscal year to \$33.579 billion in fiscal year 2013-14 and \$34.041 billion in fiscal year 2014-15 (see Table 1). In other words, agencies have asked for annual increases of 2.8 percent in fiscal year 2013-14 (an additional \$908.2 million) and 1.4 percent in fiscal year 2014-15 (an additional \$461.5 million).

Requests that affect GPR expenditures are particularly sensitive because they draw on the state's tax revenues. Agencies have requested total spending amounts of \$15.305 billion in fiscal year 2013-14 and \$15.845 billion in fiscal year 2014-15 (see Table 1). To amplify, the agencies have requested annual increases of 3.6 percent (an additional \$528.9 million) in fiscal year 2013-14 and 3.5 percent in fiscal year 2014-15 (\$540.4 million). Two years ago, state agencies requested annual increases of 4.6 percent (\$658.5 million) in fiscal year 2011-12 and 4.9 percent in fiscal year 2012-13 (another \$728.8 million).

The Department of Administration's budget includes an appropriation related to the repayment of pension obligation bonds, which results in a one-time higher expenditure under the terms of the bond. As the required amount for the bond agreement is recalculated, it is expected that the appropriation amounts for fiscal years 2013-14 and 2014-15 will be reduced. In all years, the appropriation is reconciled with a corresponding lapse in the general fund condition.

Several other points about this summary of budget requests should be noted:

- A summary of agency budget requests for GPR spending is shown in Table 5. Similar information is shown for all fund sources in Table 6.

- The budget requests for the Legislature and the six legislative service agencies come from their respective staffs; they have not yet been reviewed by the appropriate committees and may, therefore, be subject to change.
- Budget requests of individual agencies do not normally include any funds for prospective increases for debt service, fuel and utilities, state employee compensation and fringe benefits, or University of Wisconsin faculty pay adjustments. These items will be addressed as Governor's recommendations in the budget bill submitted to the Legislature. The general fund condition included in Table 4 reflects some of these items (e.g., preliminary debt service estimates on authorized, but unissued bonds). Items not included could result in total spending demands being understated in the attached tables.
- The capital budget requests of agencies are not included in the attached tables. This also understates total spending demands.

### **Wisconsin's Economic Outlook**

Wisconsin's economy is gathering strength after the weakest national economic recovery since the Great Depression. We are three and one-half years after the end of the Great Recession (December 2007 to June 2009) and national real gross domestic product (GDP) growth has still not reached the 2.7 percent annual real GDP growth we experienced in 2006.

My predecessor predicted in this letter in November, 2010 that Wisconsin's recovery would "remain tempered" through our current biennium. He was relatively accurate. Wisconsin real GDP grew 1.1 percent in 2011 and is forecast to grow 1.7 percent in 2012.

As a reflection of the expected tepid economic growth, my predecessor projected increased tax revenues of 4.2 percent for both fiscal years 2010-11 and 2011-12. In actuality, general fund revenues increased annually by 6.4 percent in fiscal year 2010-11 (an additional \$780 million) and 4.7 percent in fiscal year 2011-12 (\$603 million).

The previous report also projected a 3.4 percent increase in tax revenues in the current 2012-13 fiscal year. This projection could not take into account the reality of a national economic softening that is responding to the domestic fiscal uncertainty and the recession in Europe.

Wisconsin is also feeling the slower growth, and we are expecting growth in revenues to moderate to 1.8 percent in fiscal year 2012-13, although overall revenues will be higher due to the stronger than expected collections in fiscal years 2010-11 and 2011-12.

Due to frugal management, we are on track to end the 2011-13 biennium with a \$348.1 million gross ending balance. There are still some remaining spending pressures in Medicaid, Corrections, the State Public Defender's private bar

appropriation and other areas that need to be accounted for, but they do not surmount the gross ending balance at this point.

Looking forward, IHS Global Insight sees the federal fiscal issues and the weakness of export markets in Europe and China impacting our economic rebound. Nationally, it projects a continuation of the soft economic recovery with national real GDP growth of 1.9 percent in 2013 with weak growth in the middle of the year and accelerating in the fourth quarter of 2013. After this lull, IHS Global Insight then expects a rebound to 2.8 percent real GDP growth in 2014 and 3.3 percent growth in 2015.

Wisconsin's economy continues to mirror the national economy in climbing out of the steep economic hole and, looking forward, seems to be gathering strength, before a more full-throttled recovery is evident.

Wisconsin tax revenue growth over the next biennium is projected to be 3.8 percent in fiscal year 2013-14 and 3.5 percent in fiscal year 2014-15. Revenue growth is projected to be \$518.2 million over the fiscal year 2012-13 base in fiscal year 2013-14 and \$1.02 billion over the fiscal year 2012-13 base in fiscal year 2014-15.

Employment growth, housing, manufacturing and personal income indicate a broadening and more robust recovery as noted below:

- **Employment Growth** – Wisconsin's unemployment rate is lower than the national average. During the current biennium, Wisconsin has seen its unemployment rate drop (7.3 percent in September) and is lower than the national average (7.8 percent in September). Wisconsin's unemployment rate equaled or exceeded 9.0 percent from May 2009 to March 2010, but it has declined steadily since that time.

In total, Wisconsin has recovered approximately 40 percent of the jobs lost in the Great Recession. According to the federal Bureau of Labor Statistics (BLS), Wisconsin's total labor force participation has increased, the total number of workers employed has increased, and total number of workers unemployed has decreased since the implementation of the 2011-13 Biennial Budget (2011 Wisconsin Act 32). Initial jobless claims in Wisconsin have declined from an average of 12,935 a week in October 2010 to 10,374 in October 2012. Continuing unemployment insurance claims similarly have declined from an average of 90,561 to 65,403 over the same period. Layoffs, as reported to BLS, have declined markedly and BLS' Quarterly Census of Employment and Wages indicates strengthening growth in employment.

- **Home Ownership** – Wisconsin building permits are expected to grow 9.2 percent in 2012 and at a higher rate in 2014 and 2015. Wisconsin had a home ownership rate of 68.5 percent in 2011, higher than the national average of 66.1 percent. Currently, monthly sales of existing homes in Wisconsin have increased year-over-year for 16 consecutive months and the median sale price has increased year-over-year for the last 7 months. The rebound of home

ownership, home prices and home building will accelerate economic growth, increase employment, and grow incomes through new jobs in construction.

- **Personal Income Growth** – Wisconsin's personal income grew 4.5 percent in 2011 and has seen a steady increase in the two quarters of 2012. Our per capita personal income increased 4.1 percent to \$39,575 in 2011, after growing 3.1 percent in 2010 and declining 3.4 percent in 2009. Wisconsin's personal income is expected to grow 3.2 percent in 2012 and 3.7 percent in 2013.
- **Manufacturing** – Wisconsin remains the second-most reliant state on manufacturing (behind Indiana), but unlike other Midwestern states, is not as dependent upon a healthy auto industry. Jobs in the manufacturing sector grew 2.8 percent in 2011 and 1.4 percent in the first half of 2012. As of September 2012, 446,000 Wisconsinites work in manufacturing – climbing back toward the pre-recession peak of 500,000 after a trough of 424,000 in January of 2010.

### **Risks to the Estimate**

There are two major risk factors that may impede this estimate and extinguish or delay the recovery. Both factors – the fiscal cliff and the Affordable Care Act – rest entirely in the fiscal uncertainty with the federal government and its budget.

According to the Congressional Budget Office, "[s]ubstantial changes to tax and spending policies are scheduled to take effect in January 2013, significantly reducing the federal budget deficit. According to the Congressional Budget Office's (CBO's) projections, if all of that fiscal tightening occurs, real (inflation-adjusted) gross domestic product (GDP) will drop by 0.5 percent in 2013.... [This] will cause...the [national] unemployment rate to rise to 9.1 percent in the fourth quarter of 2013...[and then] economic growth will pick up..."<sup>1</sup>

The fiscal tightening – also known as the fiscal cliff – compels a sequestration of funding streams that Wisconsin receives from the federal government, absent some other agreement. Medicaid and many other programs were exempted from the sequestration order. Initial reports indicate that Wisconsin has about \$94 million at stake in fiscal year 2013-14 with the sequestration agreement. About one-half of this reduction would affect federal education transfers to Wisconsin and, therefore, would not be felt until next fall's school year and after passage of the 2015-17 Biennial Budget.

It is important to note the extent of the uncertainty involved here. For example, while Medicaid was exempted from the sequestration agreement, it is an entitlement that will face pressure as the parties negotiate a solution to the long-term predicament. Medicaid, in Wisconsin, is a \$7 billion annual program that provides health care insurance for 20 percent of the state. It is a critical component of the Affordable Care Act's intent to provide health care to more Americans. Governor Walker provided

---

<sup>1</sup> See Congressional Budget Office, *Economic Effects of Policies Contributing to Fiscal Tightening in 2013* (November 2012), p. 1.

The Honorable Scott Walker, Governor  
Members of the Wisconsin Legislature  
Page 7  
November 20, 2012

\$1.2 billion to supplant the one-time American Recovery and Reinvestment Act of 2009 (ARRA) funds in the last biennial budget. Any changes by the federal government to the Medicaid program could have profound and long-lasting effects on Wisconsin's budget going forward.

A second risk factor is the implementation of the Affordable Care Act that will require the restructuring of the State's health care insurance delivery system. Wisconsin ranks 7th in the country in percent of citizens covered by health insurance, 70 percent of whom are provided through employer-sponsored insurance. The Affordable Care Act compels the introduction of health exchanges by October, 2013 that will require previously-uninsured individuals to carry health insurance and require every business to reassess their health benefits to its employees in the context of the new law and its mandates. Currently, Wisconsin's health insurance market is one of the most competitive in the nation. This kind of uncertainty presents a risk to the state's revenue and, as the largest funder of health care in Wisconsin, its expenditures.

Although the economic recovery has been fitful and is gathering strength, Wisconsin will be mindful of these risks. We will continue to manage the state budget as good stewards of the taxpayers' money to put the state on sound fiscal ground for future generations and position our state for economic success.

If you have any questions on this information, please contact me or State Budget Director Brian Hayes.

Sincerely,

A handwritten signature in black ink, appearing to read "Mike Huebsch". The signature is fluid and cursive, with the first name "Mike" being larger and more prominent than the last name "Huebsch".
