TTY (608) 261-6630 www.doa.wi.gov/capitalfinance

December 26, 2014

Thank you for your interest in the State of Wisconsin.

This is the Continuing Disclosure Annual Report for the fiscal year ending June 30, 2014 (2014 Annual Report).

The 2014 Annual Report provides information on different securities that the State issues and is provided under the State's continuing disclosure undertakings. These undertakings of the State are intended to help dealers and brokers comply with Rule 15c2-12 under the Securities Exchange Act of 1934. As of this date, the State has filed the 2014 Annual Report with the Municipal Securities Rulemaking Board (MSRB) through its Electronic Municipal Market Access (EMMA) system. EMMA receives, and makes available to the public, continuing disclosure documents and related information that is provided by issuers and obligated persons.

Official Statements for securities that the State issues during calendar year 2014 may incorporate parts of this 2014 Annual Report by reference.

#### Organization of the 2014 Annual Report

The 2014 Annual Report is divided into eight parts. The first two parts present general information.

- Part I presents the State's continuing disclosure undertakings. A Master Agreement on Continuing Disclosure (Amended and Restated December 1, 2010) establishes a general framework. Separate addenda describe the information to be provided for specific types of securities.
- Part II presents general information about the State, including its operations and financial results. This part includes the General Purpose External Financial Statements portion of the audited Comprehensive Annual Financial Report for the fiscal year ending June 30, 2014. This part also provides information on the 2013-15 biennial budget and the results of the 2013-14 fiscal year.

The remaining parts present information about different types of securities that the State issues.

- Part III General obligations (including bonds, commercial paper, and extendible municipal commercial paper)
- Part IV Master lease certificates of participation

- Part V Transportation revenue obligations (including bonds and commercial paper)
- Part VI Clean water revenue bonds
- Part VII Petroleum inspection fee revenue obligations (including bonds and extendible municipal commercial paper)
- Part VIII General fund annual appropriation bonds (including bonds and variable rate notes)

#### Ratings on the State's Securities

The following chart presents a summary of the long-term ratings currently assigned to different types of securities that the State issues.

		Kroll Bond	Moody's	Standard &
	Fitch	Rating	Investors	Poor's Ratings
<u>Security</u>	<u>Ratings</u>	Agency, Inc.	Service, Inc.	<u>Services</u>
General Obligations	AA	AA	Aa2*	AA
Master Lease Certificates of Participation	AA-	AA-	Aa3*	AA-
Transportation Revenue Bonds	AA+	AAA	Aa2	AA+
Clean Water Revenue Bonds	AA+	_	Aa1	AA+
Petroleum Inspection Fee Revenue Bonds	AA		Aa2	AA
General Fund Annual Appropriation Bonds	AA-	_	Aa3*	AA-

<sup>\*</sup> On November 19, 2014 Moody's Investors Service, Inc. changed the outlook on the State's general obligations and appropriation credits from "stable" to "positive" along with affirming its current rating on those respective obligations.

#### How to Get Additional Information

If you are interested in information about securities that the State issues, please contact the Capital Finance Office; <u>the Capital Finance Office is the only party</u> authorized to speak on the State's behalf about the State's securities.

The Capital Finance Office maintains a web site that provides access to both disclosure and non disclosure information. The Capital Finance Office posts to this web site general fund cash flow reports and all event and additional (voluntary) filings that it makes through MSRB's EMMA system.

<sup>&</sup>lt;sup>(a)</sup> The Building Commission is composed of eight voting members. The Governor serves as the chairperson. Each house of the Wisconsin State Legislature appoints three members. State law provides for the two major political parties to be represented in the membership from each house. One citizen member is appointed by the Governor and serves at the Governor's pleasure.

<sup>(</sup>b) As a result of the November 4, 2014 General Election, an inauguration of elected officials will occur on January 5, 2015. Governor Scott Walker was re-elected for another four-year term and the new Attorney General will be Brad D. Schimel. Other changes to the voting members of the Building Commission are also expected to occur.

#### **PART IV**

#### MASTER LEASE CERTIFICATES OF PARTICIPATION

Part IV of the 2014 Annual Report provides information about master lease certificates of participation (**Certificates** or **COPs**) issued under the State of Wisconsin Master Lease Program (**Program**). Selected information is provided in this introduction for the convenience of the readers; however, all information presented in this Part IV of the 2014 Annual Report should be reviewed to make an informed investment decision.

Total Outstanding Balance (12/15/2014) \$92,103,222

Ratings<sup>(a)</sup> (Fitch/Kroll/Moody's<sup>(b)</sup>/Standard & Poor's) AA-/AA-/Aa3/AA-

Certificates

Authority The Master Lease is authorized by Section 16.76(4),

Wisconsin Statutes; Certificates are issued pursuant to the

Master Indenture.

Trustee/Paying Agent U.S. Bank National Association serves as Trustee, Paying

Agent, registrar, and Lessor.

Security The Certificates evidence a proportionate interest in Lease

Payments to be made by the State under the Master Lease with regard to equipment items and service contracts. The Certificates do not constitute debt of the State or any of its subdivisions. The State's obligation to make Lease Payments is not a general obligation of the State and is not supported by the full faith and credit of the State. The State is not obligated to levy or pledge any tax to make the Lease Payments, but such payments are required from legally available funds, subject to

annual appropriation.

The Capital Finance Office, which is part of the Division of Executive Budget and Finance within the State of Wisconsin Department of Administration (**Department of Administration** or **DOA**), is responsible for managing the State's borrowing and finance programs. The law firm of Foley & Lardner LLP provided bond counsel services in connection with the State of Wisconsin Master Lease Program. Requests for additional information about the Certificates or the Program may be directed to the Capital Finance Office.

<sup>(</sup>a) The ratings presented reflect the ratings assigned to the Certificates without regard to any bond insurance policy. No information is provided in the 2014 Annual Report about any rating assigned to any Certificates based on any bond insurance policy.

<sup>(</sup>b) On November 19, 2014 Moody's Investors Service, Inc. changed the outlook on the State's master lease certificates of participation from "stable" to "positive" along with affirming its current rating of Aa3 on those obligations.

The 2014 Annual Report includes information and defined terms for different types of securities issued by the State. The context or meaning of terms used in one part of the 2014 Annual Report may differ from that of the same terms used in another part, and the total amount shown in a table may vary from the related sum due to rounding. No information or resource referred to in the 2014 Annual Report is part of the report unless expressly incorporated by reference.

Certain statements in Part IV of the 2014 Annual Report may be forward-looking statements that are based on expectations, estimates, projections, or assumptions. Any forward-looking statements are made as of the date of the 2014 Annual Report, and the State undertakes no obligation to update such statements to reflect subsequent events or circumstances. Actual results could differ materially from the anticipated results.

#### **OUTSTANDING CERTIFICATES**

Pursuant to the Master Indenture, dated as of July 1, 1996 (**Master Indenture**), among the State of Wisconsin, acting by and through its Department of Administration (**State** or **Lessee**), Firstar Bank Milwaukee, N.A., now known as U.S. Bank National Association (**Lessor**), and Firstar Trust Company, now known as U.S. Bank National Association, as trustee (**Trustee** and **Paying Agent**), the Trustee, with the consent of the State, has issued Certificates on the dates and in the amounts shown in Table IV-1. The table includes the outstanding principal balances as of December 15, 2014, and only includes Certificates that have an outstanding balance as of that date.

Table IV-1

2011	68,223,080
2012	55,891,494
2013	66,795,540

#### THE MASTER LEASE PROGRAM

#### General

The Program, which was created in 1992 for use by all State agencies, permits the State to acquire tangible property, and in certain situations, intangible property or prepaid service items (**Leased Items**), for State agencies through installment purchase contracts. Particular Leased Items are described in schedules (**Lease Schedules**) that are prepared under the Third Amended and Restated Master Lease, dated as of April 28, 2000 (**Master Lease**), between the Lessor and the State.

Through the period ending December 15, 2014, 16 State departments, the Legislature, the Supreme Court, and various other State bodies have used the Program to acquire approximately \$650 million of Leased Items.

#### **Program Structure**

The Master Lease and the Master Indenture establish the structure of the Program. The Master Lease contains general terms and conditions applicable to both the Program and Lease Schedules entered into by the Lessor and the State. A supplemental indenture creates a particular series of Certificates. See "Summary of the Master Lease".

The Master Indenture establishes a trust (**Trust**) comprising certain Lease Schedules, rents, and other payments the State is required to make under the Master Lease (**Lease Payments**), Leased Items, and other property and rights related to those Lease Schedules, including the security interest granted by the Master Lease. The Trust serves as a common pool of collateral, ratably securing all present and future Certificates. See "Summary of the Master Indenture".

#### **Program Operations**

The Program structure places within the Department of Administration centralized control of day-to-day operations:

- Functions related to Program administration, review of requests for eligible use of the Program, and day-to-day Program operations occur in the Capital Finance Office.
- Functions related to review of requests for budgetary capacity for Lease Payments resulting from use of the Program and biennial budget preparation occur in the State Budget Office.
- Functions related to collection of Lease Payments occur in the State Controller's Office.

Each of these offices is part of the Department of Administration's Division of Executive Budget and Finance.

To use the Program to acquire a Leased Item, a State agency submits a written request to the Capital Finance Office. This request is reviewed and approved by the Capital Finance Office, the State Budget Office, and the Secretary of Administration. Requests that include information technology items, including, but not limited to, development of software or related systems, are also reviewed by the Department of Administration's Division of Enterprise Technology. The review process includes a determination by the Capital Finance Office that lease financing is the best alternative for the particular circumstance and a determination by the State Budget Office that current resources are available to make the Lease Payments due in the current fiscal year. Upon receiving approval to use the Program, the State agency completes procurement of the Leased Item in compliance with State procurement requirements.

Upon acceptance of the Leased Item, the State agency forwards all related outstanding invoices to the Department of Administration for coordination of payment through the Program. Parallel to payment being made to the vendor, a Lease Schedule is prepared by the Department of Administration and executed by the State, the Lessor, and the State agency. This Lease Schedule is then added to the Master Lease. The Lease Schedule also identifies the budgetary appropriation from which the related Lease Payments are expected to be made.

Lease Payments are collected by the State Controller's Office. Scheduled Lease Payments are automatically withdrawn from the appropriations identified by the State agency and electronically wired to the Trustee.

#### **State Appropriation Process**

Lease Payments are not included in the State budget as a separate budget line item; rather, Lease Payments are included with other expenditures in one or more of a State agency's existing budget lines. State law establishes procedures for the budget's enactment. See "BUDGETING PROCESS AND FISCAL CONTROLS" in Part II of the 2014 Annual Report for a summary of the budget enactment process and other financial procedures of the State. The State Budget Office review and approval of requests to use the Program provides for Lease Payments to be addressed during preparation of a biennial budget.

The failure of the Legislature to adopt a new budget before the commencement of a biennium does not result in a lack of spending authority. Under Wisconsin law an existing appropriation continues in effect until it is amended or repealed. Once a newly enacted budget becomes effective, the continuing authority of existing appropriations is superseded by the newly enacted appropriations.

The continuing authority of existing appropriations until a new budget is adopted helps to protect against the effect of a delay in the adoption of a budget. If an amount has been appropriated for the second fiscal year in one biennium, there will be continuing authority in the same amount until a new biennial budget is enacted or some other legislative action is taken to amend or repeal the appropriation. The 2013-15 biennial budget of the State was enacted on July 1, 2013, which was the start of the biennium. Of the prior ten biennial budgets, the 2009-11 and 2011-13 biennial budgets were also enacted prior to the start of the biennium; however, each of the eight biennial budgets prior to the 2009-11 biennium were enacted after the start of the biennium, with the latest date after the start of a biennium being October 26, 2007 (for the 2007-09 biennium), which was nearly four months after the start of the 2007-08 fiscal year (which was the first fiscal year of that biennium).

The Department of Administration maintains separate accounts for all appropriations, showing the amounts appropriated, the amounts allotted, the amounts encumbered, the amounts expended, and certain other data necessary to the financial management and control of all State accounts. The Department of Administration also maintains the general ledgers of the General Fund and all other funds of the State.

#### **SECURITY FOR CERTIFICATES**

#### General

The Certificates represent proportionate interests in Lease Payments required to be made by the State under the Master Lease. The Master Lease requires the State to make Lease Payments from any source of

legally available funds, subject to annual appropriation. The scheduled Lease Payments are sufficient to pay when due the semiannual principal and interest payments on all outstanding Certificates.

The obligation of the State to make Lease Payments does not constitute an obligation for which the State is obligated to levy or pledge any form of taxation or for which the State has levied or pledged any form of taxation. The obligation of the State to make Lease Payments does not constitute debt of the State. Lease Payments are required from legally available funds, subject to annual appropriation. See "RISK FACTORS".

#### **Common Pool of Collateral**

Under the Master Indenture, the Lessor has assigned to the Trustee, for the benefit of all owners of Certificates, all its rights in the following:

- The funds and accounts created by the Master Indenture.
- The Lease Schedules specified in supplemental indentures.
- All Lease Payments, Leased Items, and other property and rights related to those Lease Schedules, including the security interest granted by the Master Lease.

All Leased Items serve as a common pool of collateral, ratably securing all present and future Certificates. All Certificates are secured by all Leased Items, regardless of their funding source or the time at which the Program finances them. If the Legislature fails to appropriate necessary funds for the continued performance of the State's obligations under any Lease Schedule or if an event of default occurs under the Master Lease, then an event of default exists with respect to all outstanding Certificates. Once a Lease Schedule is fully paid, the Leased Item covered by the Lease Schedule no longer serves as collateral.

In the opinion of Bond Counsel, the transfer of Lease Schedules by the Lessor to the Trustee constitutes a true sale and not a secured transaction. The State's obligation to make Lease Payments does not depend upon any service provided by the Lessor, and thus the transfer of Lease Schedules would be unaffected by any insolvency of the Lessor.

#### **Reserve Fund**

The Master Indenture allows a reserve fund to be established for any specific series of Certificates. As of December 15, 2014, no reserve fund has been established for any series of outstanding Certificates. In the event that the Department of Administration were to establish a reserve fund under the Master Indenture, the amounts in the reserve fund would only be available to the series of Certificates for which the reserve fund was established.

#### Governmental Use

In connection with each Lease Schedule, the State certifies that each Leased Item will be used to perform a governmental function. Many of the Leased Items will perform critical governmental functions, but the State does not certify that the Leased Items perform any "essential" functions. Examples of Leased Items currently existing in the Trust include components of the State's integrated tax collection system, expansion of the State's central mainframe computer, technology upgrades and equipment for various information technology initiatives, and energy conservation projects for state-owned buildings. In addition, components of a comprehensive information technology system that allows the State to centrally manage finance, budget, procurement, business intelligence and human resource functions currently exist in the Trust. Based on preliminary approvals, up to \$109 million of additional components of this system may be funded through future Lease Schedules. The origination of these additional components is expected to continue through calendar year 2016. See "TABLE IV-3; Outstanding Master Lease Schedules".

#### **Centralized Control and Review**

The Program structure allows one division within the Department of Administration to centrally administer many Program activities. Program functions related to administration, review, and day-to-day operations occur in the Capital Finance Office. Program functions related to review and biennial budget preparation occur in the State Budget Office. Program functions related to collection of Lease Payments occur in the State Controller's Office. Each of these offices is part of the Division of Executive Budget and Finance.

#### **Two-Phase Financing Structure**

The State typically uses a two-phase financing structure for the Program. In the first (or acquisition) phase, all Leased Items are initially financed with proceeds from a revolving credit facility. The revolving credit facility is a line of credit, and the State, acting on behalf of the Trustee, requests draws from the revolving credit facility to pay for the acquisition of Leased Items. A Certificate has been issued to the provider of the revolving credit facility to evidence the State's repayment of balances under the facility. The provider is currently PNC Bank, National Association, and the current scheduled termination date to make draws is September 1, 2016. The State pays interest on funds drawn from the revolving credit facility based on a taxable variable interest rate, and the repayment term under the credit facility can extend for up to three years after the scheduled termination date.

In the second phase, the State, acting on behalf of the Trustee, may sell additional Certificates to fund all, or a portion of, the Lease Schedules previously funded with proceeds from the revolving credit facility. Since all Lease Schedules have already been accepted by the State, the Certificates issued as part of the second phase are not subject to nonorigination risk. The State most recently issued fixed-rate Certificates for this purpose in November 2014, February 2014, and February 2012.

In connection with any refinancing, the Master Lease and the Lease Schedules provide for amendments to the terms of the Lease Schedules to match the payment dates and amounts of the Certificates.

All sources of financing for the Program are issued under the Master Indenture. See "SECURITY FOR CERTIFICATES; Common Pool of Collateral".

#### **Appropriation Process**

The central control of the Program provides the State Budget Office with knowledge of all past, current, and pending scheduled Lease Payments due under the Master Lease. Lease Payments due under the Master Lease are not included in the State budget as a separate budget line item; rather, Lease Payments due under the Master Lease are included with other expenditures in one or more of the existing budget line items for the participating agencies. The Secretary of Administration, under the direction of the Governor and with assistance from the State Budget Office, compiles all budget information and prepares an executive budget consisting of the planned operating expenditures and revenues of all State agencies.

State law establishes procedures for establishing and enacting a State budget. State law also provides that in the event a budget is not in effect at the start of a fiscal year, the prior year's budget serves as the budget until such time a new budget is enacted.

The Secretary of Administration has statutory power to order reductions in the appropriations of state agencies (which represent less than one-third of the General Fund budget). See "BUDGETING PROCESS AND FISCAL CONTROLS" in Part II of the 2014 Annual Report for additional information on the State's budget process.

#### Priority of Claims

The Master Lease includes representations that, if an emergency arises that requires the Department of Administration to draw vouchers for payment that will be in excess of available moneys, then the Secretary of Administration will establish a priority schedule for payments that gives a high priority to Lease Payments due under the Master Lease. However, the Secretary of Administration is required to give higher priority to payments on outstanding State general obligations, operating notes, and employee

payroll. See "GENERAL FUND INFORMATION; General Fund Cash Flow" in Part II of the 2014 Annual Report.

#### RISK FACTORS

#### Nonappropriation

The State's obligation to make Lease Payments is subject to appropriation of the necessary funds by the Legislature. No assurance is given that sufficient funds will be appropriated or otherwise available to make the Lease Payments. **Nonappropriation** is defined in the Master Lease as a determination by the State (or Lessee) that the Legislature has failed to appropriate necessary funds for the continued performance of the obligations of the Lessee under the Master Lease. A failure by the State to make a Lease Payment with respect to any Leased Item would cause the Master Lease to terminate with respect to all Leased Items. The State's obligation to make Lease Payments is not a general obligation of the State, and the obligation does not involve the State of Wisconsin Building Commission. Rather, the Master Lease is a contract entered into by the Department of Administration under separate statutory authority.

The Master Lease does not include a nonsubstitution clause. If the Legislature fails to appropriate necessary funds for the continued performance of the State's obligations under the Master Lease, the State is allowed to acquire and use similar items for the same function as the Leased Item for which no appropriation was made.

While it is possible that failure to make the Lease Payments might hinder the State's subsequent access to the capital markets, it should not be assumed that the Legislature would regard that possible consequence to be a compelling reason to appropriate the money needed for Lease Payments. See "SUMMARY OF THE MASTER LEASE" and "SUMMARY OF THE MASTER INDENTURE" for additional information about remedies available under the Master Lease and Master Indenture if no appropriation is made.

#### **Essentiality of Leased Items**

Although the State has made certain representations that each Leased Item serves a governmental function, it should be assumed that the State could function without any Leased Item.

#### **Collateral Value of Leased Items**

Although the State has provided a security interest in the Leased Items to the Trustee (for the benefit of the owners of Certificates), the Certificates are not offered on the basis of the collateral value of the Leased Items or the value of any other pledged asset (other than the Lease Payments). The term of the Lease Schedule is not permitted to exceed the useful life of the Leased Item; however, it should not be assumed that the value of the Leased Item at any particular time will exceed the portion of the remaining Lease Payments that will be applied to principal or that the existence of any excess would motivate the State to continue making Lease Payments. Typically it is difficult to realize the full value of collateral through sale of the collateral, and some of the Leased Items, such as service contracts, intangible property, or tangible property that is incorporated into real estate, may be impossible or difficult to sell or have little or no value to a third party purchaser.

Records that evidence the security interest are kept by the Department of Administration, separate and apart from the central record system of security interests kept by the State of Wisconsin Department of Financial Institutions under the Uniform Commercial Code.

#### **Tax Exemption**

No assurance can be given that, if the Master Lease were terminated, subsequent payments made by the Trustee with respect to the outstanding Certificates and designated as interest would be excluded from gross income for federal income tax purposes.

#### **Applicability of Securities Law**

If the Master Lease were terminated, then the transfer of a Certificate might be subject to compliance with the registration provisions of applicable federal and state securities laws, which could impair the liquidity of the Certificates.

Table IV-3
OUTSTANDING MASTER LEASE SCHEDULES
(As of December 15, 2014)

Schedule	Origination	Maturity		Financed	Principal
Number	<u>Date</u>	Date	<u>Leased Item</u>	<u>Amount</u>	<b>Balance</b>

Note: The principal balance of each Lease Schedule reflects amortization at an assumed fixed interest rate; during the period that a Lease Schedule is funded with proceeds from a revolving credit facility, interest accrues based on a variable interest rate. As a result, the principal balances included in this table may change slightly when reconciled to reflect actual accrued interest. Final reconciliation of the actual to the assumed interest rates occurs with the last scheduled Lease Payment.

#### SUMMARY OF THE MASTER LEASE

The following is a summary of certain provisions of the Master Lease.

#### Acquisition, Delivery, and Lease of Leased Items

The Master Lease establishes the process for acquiring property items and service items. It requires the State to provide written notice to the Lessor, identifying:

- The items it desires to lease
- The anticipated schedule for making Lease Payments
- The anticipated date or dates on which payments to acquire the Leased Item are due and payable

The notice must also confirm that the State expects that sufficient moneys will be available to pay the acquisition costs, as arranged solely by the State. The State (or the Lessor at the State's request) orders each Leased Item from the contractor selected by the State.

The State is responsible for selecting Leased Items, reviewing the terms of purchase, and arranging for the delivery, installation, testing, servicing, and maintenance of the Leased Items.

Upon delivery and any required installation of any Leased Item that is a property item, the State is required to inspect such item, and if it meets the State's specifications, then the State, before the end of the acceptance period agreed to by the contractor, must provide the Lessor with a certificate of acceptance. At the time the property item is accepted, the State will perfect a security interest therein in favor of the Lessor or any party to which such security interest is assigned with the State's consent. Before the commencement of service for a

Leased Item that is a service contract, the State must provide the Lessor with a certificate of acceptance. Any Leased Items thus acquired become subject to the Master Lease, and upon acceptance, the State becomes obligated to make the Lease Payments.

#### **Lease Term and Lease Termination**

The Master Lease is in effect until all Lease Payments have been paid, unless the Master Lease is either extended or terminated earlier, as provided in the Master Lease. With respect to any Leased Item, the obligation to make Lease Payments begins:

- On the date of execution of the related Lease Schedule and the certificate of acceptance, or
- On the date that sufficient moneys are received in a particular fund from which the costs of Leased Items are to be paid.

Subject to appropriation, the State presently intends to keep the Master Lease in effect for its entire term and to make all Lease Payments. The State agrees that the appropriate budget requests for each fiscal year will include all Lease Payments coming due in the fiscal year. In the event an emergency arises that requires the State to draw vouchers for payments that will be in excess of available moneys and the Secretary of Administration establishes a priority schedule for payments under the Wisconsin Statutes (Statutes), the Secretary will give a high priority to Lease Payments due under the Master Lease.

In accordance with the Statutes, the continuance of the Master Lease beyond the limits of funds already available to the State is contingent upon appropriation of the necessary funds. Upon the occurrence in any fiscal year of a Nonappropriation (**Event of Nonappropriation**), the State has the right to terminate the Master Lease. Termination would affect all Leased Items and would be effective as of the last day of a fiscal year (that is, June 30<sup>th</sup>).

The State would still be obligated to make any Lease Payments due by the end of the fiscal year but would not be responsible for the payment of any Lease Payments scheduled to come due in any succeeding fiscal year. In the event of termination of the Master Lease based on an Event of Nonappropriation, if the Lessor requests, the State is required to deliver possession of all Leased Items to the Lessor and must convey to the Lessor, or release, its interest in all Leased Items.

With respect to any Leased Item, the respective Lease Schedule terminates when all Lease Payments relating to it are paid under the Lease Schedule or when the State terminates the Lease Schedule by paying the applicable purchase price for the Leased Item.

The Master Lease will terminate in its entirety (which will affect all Leased Items) if the State exercises it right to terminate upon the occurrence of an Event of Nonappropriation, or if the State defaults and the Lessor elects to terminate the Master Lease.

#### **Insurance Requirements; Loss or Damage to Leased Items**

The State is required to provide insurance coverage against certain risks, through its self-funded liability and property programs, for which sum-sufficient appropriations are made under the Statutes. Insured risks include:

- Damage to, or destruction of, Leased Items
- Liability for injuries to or death of any person or damage to or loss of property related to use of the Leased Items
- The employer's costs for worker's compensation relating to use of the Leased Items

The State assumes all risks and liabilities for loss or damage to any Leased Item and for injury to or death of any person or damage to any other property arising from use of the property items or arising with respect to service items, to the extent such loss, damage, injury, death, or damage to other property is

caused by acts committed by an officer or employee of the State while acting within the scope of employment or any agent of the State while acting within the scope of the agency.

If any Leased Item delivered to the State is lost, then the State is required to replace the item or pay the applicable purchase price for that Leased Item.

When the State pays the purchase price for any Leased Item, the Master Lease terminates with respect to such Leased Item and the State becomes entitled to such Leased Item, as is, where is, and without any warranty, except for any warranty from the contractor that provided the Leased Item.

#### **Other Obligations**

The Lessor has no responsibility for the use or maintenance of the Leased Items. The State is required to use all Leased Items carefully, properly, and lawfully. The State is required to maintain all Leased Items. The State is required to pay any charges assessed against Leased Items.

#### Rights in Leased Items; Security Interest

The Lessor does not have legal title to Leased Items that are property items. Legal title to all property items rests in the State. Should the Master Lease terminate due to an Event of Nonappropriation or an event of default under the Master Lease, the State is required to transfer to the Lessor its interest in all Leased Items.

The State has granted to the Lessor a first priority purchase-money security interest in Leased Items to secure the State's payment of all Lease Payments.

The Lessor has no responsibility in connection with the selection of the Leased Items or the contractors providing the Leased Items. The Leased Items and contractors are selected solely by the State.

The Lessor has no responsibility for the condition or usefulness of the Leased Items. The Leased Items are leased as is, where is, and without any warranty. The Lessor also is not responsible for any damages in connection with the use of the Leased Items.

#### Assignment, Mortgaging, and Selling

The Lessor may not, without the prior written consent of the State, assign its obligations under the Master Lease or its interest in the Leased Items or grant a security interest in or lien upon the Leased Items or enter into any financing for the Leased Items.

#### **Option to Terminate Lease Schedule**

Depending on the source of funding for the Lease Schedule, the State may have the option to terminate the Lease Schedule by depositing an amount equal to the applicable purchase price. The amount shall be either:

- An amount equal to the outstanding principal amount of the Lease Schedule, interest to the date of redemption of the source of funding, and any redemption premium, or
- If permitted, an amount sufficient to purchase investments maturing on such dates and in such amounts to pay the Lease Payments when due (or until the source of funding may be redeemed).

#### **Events of Default and Remedies**

Each of the following shall be an event of default under the Master Lease:

- Failure by the State to pay when due any Lease Payments and the continuation of such failure for five business days.
- Failure by the State to observe any covenant with respect to any Leased Item (other than a failure to
  make Lease Payments) for a period of thirty days after notice, unless the Lessor and the Trustee agree
  to an extension.

- Any representation or warranty by the State in the Master Lease was untrue in any material respect.
- An event of default shall have occurred and be continuing under the Master Indenture.

If by reason of *force majeure* the State is unable to carry out its obligations under the Master Lease with respect to any Leased Item (other than its obligation to make Lease Payments, which must still be paid when due), then the State shall not be deemed in default during the period of inability.

Whenever any event of default occurs, the Lessor has the right to take one or more of the following steps:

- The Lessor, with or without terminating the Master Lease, may declare all Lease Payments due or to become due during the fiscal year to be immediately due and payable.
- The Lessor, with or without terminating the Master Lease, may give the State written notice requiring the State to deliver all the Leased Items to the Lessor. If the State were to fail to return them within 30 days, then the Lessor may exercise all its legal rights to take possession of the Leased Items and to receive damages resulting from the State's failure. Even if the Lessor were to take possession of the Leased Items, the State would continue to be responsible for Lease Payments during the fiscal year. If the event of default were cured and the Master Lease had not been terminated with respect to such Leased Items, then the Lessor would be required to return the Leased Items to the State at the State's expense.
- If the Lessor were to terminate the Master Lease and take possession of Leased Items, then the Lessor would be required to attempt to sell the Leased Items in a commercially reasonable manner. The Lessor would be required to apply any proceeds of the sale in the following order: (1) all expenses incurred in securing possession of the Leased Items, (2) all expenses incurred in completing the sale, (3) any amounts payable to any party having a security interest in or lien against the Leased Items, (4) the applicable purchase price for the Leased Items, and (5) the balance of any Lease Payments due with respect to such Leased Items for such Fiscal Year. Any remaining proceeds of the sale would be paid to the State.
- The Lessor would be permitted to use any other remedy available at law or in equity with respect to such event of default.

If the Master Lease were terminated before all Lease Payments had been paid, then the Lessor may require the State to return the Leased Items.

#### SUMMARY OF THE MASTER INDENTURE

The following is a summary of certain provisions of the Master Indenture.

#### General

Pursuant to the Master Indenture, the Lessor has transferred to the Trustee without recourse (but also without limitation on its obligations under the Master Lease) all its right in the funds and accounts established under the Master Indenture, the Lease Schedules specified in supplemental indentures, and all Lease Payments, Leased Items, and other property and rights related to those Lease Schedules, including the security interest granted by the Master Lease. Except as provided in the Master Indenture, all properties and rights received by, and moneys and investments held by, the Trustee under the provisions of the Master Indenture shall be held in trust for the benefit of the owners of the Certificates.

#### Funds and Accounts; Payments to be Deposited

The Master Indenture creates the following funds and accounts to be held and administered by the Trustee for each series of Certificates:

- Certificate Payment Fund (within which is an Interest Account, a Principal Account, and an Additional Rent Account),
- Project Fund (within which is a Project Account and an Earnings Account),

- Lease Payment Fund (within which is an Interest Account, a Principal Account, and an Additional Rent Account),
- Lease Payment Reserve Fund,
- Administrative Expense Payment Fund, and
- Insurance Fund.

The Trustee will deposit the proceeds from the issuance of Certificates, net of the underwriters' discount:

- If specified in the supplemental indenture, then the Trustee will deposit in the Principal Account and the Interest Account of the Certificate Payment Fund an amount to be used for the partial or complete redemption of one or more series of outstanding Certificates, and the Leased Items related with the redeemed Certificates will thereafter relate to the newly issued Certificates.
- If specified in the supplemental indenture, then the Trustee will pay to the Lessor the costs of acquiring Leased Items that have not been reimbursed.
- If specified in the supplemental indenture, then the Trustee will deposit in the Principal Account in the Lease Payment Fund the amount specified for payment or reimbursement of costs of issuance.
- If specified in the supplemental indenture, then the Trustee will deposit an amount in the Lease Payment Reserve Fund.
- Trustee will deposit an amount into the Project Account of the Project Fund specified in the supplemental indenture.
- The Trustee will deposit the balance of the proceeds, if any, in the Lease Payment Fund.

Earnings on the Project Account of the Project Fund are transferred as received to the Earnings Account of the Project Fund. Moneys in the Earnings Account are transferred and used for payment of amounts due or coming due within 30 days, in the following order: (1) to the Interest Account of the Lease Payment Fund for retransfer to the Interest Account of the Certificate Payment Fund and (2) to the Administrative Expense Payment Fund.

To the extent moneys in the Earnings Account of the Project Fund exceed amounts payable as described above, the excess is deposited in the Project Account of the Project Fund.

Subject to the requirement that the Trustee shall not invest or reinvest moneys in any Fund or Account in a manner that would cause any of the Certificates to become "arbitrage bonds", money available in the Project Account of the Project Fund will be disbursed to pay for the acquisition of additional Leased Items, as directed by the State.

Except as provided in the Master Indenture, any money remaining in the Project Account of the Project Fund on the date specified in the applicable supplemental indenture will be transferred by the Trustee to the Principal Account of the Lease Payment Fund, to be applied as a credit against the Lease Payments required to be paid by the State.

Upon any Event of Nonappropriation or upon an event of default under the Master Lease requiring the surrender of Leased Items, or upon any other termination of a Lease Schedule other than pursuant to the payment of all Lease Payments or the exercise by the State of its option to pay the purchase price, the Trustee is required immediately to transfer all amounts on deposit in the Project Account of the Project Fund to the Principal Account of the Lease Payment Fund.

On any day on which Certificates are to be paid or redeemed, the Trustee is required to transfer the aggregate amount on deposit in the Principal Account of the Lease Payment Fund for deposit into the Principal Account of the Certificate Payment Fund. On the date Certificates are to be redeemed in accordance with the Master Indenture as a result of deposit of moneys into the Principal Account of the

Lease Payment Fund, the Trustee is required then to transfer the money for deposit into the Principal Account of the Certificate Payment Fund. On the date that Certificates are to be redeemed due to the termination of a Lease Schedule as a result of an Event of Nonappropriation, and if funds have been transferred to the Lease Payment Fund, the Trustee is required to transfer all amounts on deposit in such Principal Account for deposit into the Principal Account of the Certificate Payment Fund. On the next succeeding Interest Payment Date after the date of transfer of moneys to the Principal Account of the Lease Payment Fund, the Trustee shall deposit such moneys into the Principal Account of the Certificate Payment Fund.

On each Interest Payment Date with respect to Certificates, the Trustee is required to transfer from the Interest Account of the Lease Payment Fund (and, if necessary, from the Earnings Account of the Project Fund) for deposit into the Interest Account of the Certificate Payment Fund, an amount equal to the interest then due on the Certificates.

On each Interest Payment Date with respect to Certificates, the Trustee is required to transfer from the Lease Payment Reserve Fund to the Interest Account or the Principal Account of the Lease Payment Fund for a particular series of Certificates to the extent amounts on deposit in the Interest Account are insufficient to pay interest due on the Certificates of such series, or amounts on deposit in the Principal Account are insufficient to pay that portion of the principal of the Certificates of such series to be paid or redeemed. If at any time amounts on deposit in the Lease Payment Reserve Fund are less than the required amount, as adjusted from time to time as provided for in the Master Indenture, then the State, upon receiving notice of such deficiency from the Trustee, shall immediately pay the Trustee an amount equal to the deficiency.

The Trustee is enabled to bill the State semi-annually for all administrative expenses. If at any time the Trustee determines that payments deposited, or to be deposited, in the Administrative Expense Fund will be more or less than the expenses for the current Fiscal Year, then the Trustee is enabled to adjust the semi-annual billing. The Trustee shall disburse amounts from the Administrative Expense Fund to pay invoices rendered in accordance with the Master Indenture.

Except as provided in the Master Indenture, the Trustee is required to pay to the State any amount remaining in any Fund or Account after full payment (or redemption) of all Certificates outstanding and payment of any fees, expenses, or costs owing with respect to the Certificates or the Lease Schedules.

The Trustee is required to invest moneys it holds under the Master Indenture in **Qualified Investments**, to be selected at the direction of the State, giving consideration, however, to the times at which moneys are required to be disbursed under the Master Indenture and, in that connection, may place moneys in demand or time deposits with any bank or trust company authorized to accept deposits of public funds.

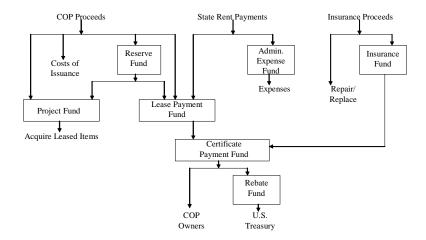

The following are Qualified Investments:

- Obligations of, or obligations guaranteed as to interest by, the United States or any agency or instrumentality thereof, when such obligations are backed by the full faith and credit of the United States.
- Federal Housing Administration debentures.
- Federal Home Loan Mortgage Corporation participation certificates.
- Farm Credit System consolidated system wide bonds and notes.
- Federal Home Loan Banks consolidated debt obligations.
- Federal National Mortgage Association senior debt obligations and mortgage-backed issues.
- Student Loan Marketing Association senior debt obligations and letter-of-credit-backed issues.
- Resolution Funding Corporation (**REFCORP**) debt obligations.

- Unsecured certificates of deposit, time deposits, and banker's acceptances (having maturities of not more than 365 days) of any bank, the short-term obligations of which are rated the highest classification (without regard to any suffix or numerical order) by each of those agencies selected by the State to assign a credit rating to the Certificates or the Program (Rating Agencies).
- Certificates of deposit or time deposits constituting direct obligations of any bank, the full amount of which is insured by the Federal Deposit Insurance Corporation.
- Debt obligations, including prerefunded municipals, rated in either of the two highest classifications (without regard to any suffix or numerical order) by each of the Rating Agencies.
- Commercial paper rated the highest classification (without regard to any suffix or numerical order) by each of the Rating Agencies.
- Securities issued by those investment companies registered under the Investment Company Act of 1940 commonly known as "money market funds" rated in the highest classification by each of the Rating Agencies that invest solely in securities which are otherwise Qualified Investments.
- Investments made through repurchase agreements with any transferor with debt or commercial paper rated in the highest classification (without regard to any suffix or numerical order) by each of the Rating Agencies, *provided* that each repurchase agreement (1) is acceptable in form and substance to the State and the Trustee, (2) provides for the registration of title to certificated government obligations in the name of the Trustee or any agent of the Trustee and the physical transfer of certificated government obligations to the Trustee or to a custodial account in the name of the Trustee at a Federal Reserve Bank and for the registration of title to book-entry government obligations in the name of the Trustee, (3) provides that the government obligations acquired pursuant to such repurchase agreement shall be valued at least monthly at the lower of the then-current fair market value or the repurchase price in the applicable repurchase agreement (except that the Lease Payment Reserve Fund shall always be valued at the then current fair market value), and (4) is with any state or national bank or foreign bank with a United States branch or agency with short-term obligations rated in the highest classification (without regard to any suffix or numerical order) by each of the Rating Agencies.
- Any stripped securities rated in the highest classification by each of the Rating Agencies, including, but not limited to, U.S. Treasury STRIPS and REFCORP STRIPS.
- Any security which matures or which may be tendered for purchase at the option of the holder
  within not more than seven years of the date on which it is acquired, if that security has a rating
  from each of the Rating Agencies which is equal to or higher than the rating assigned to the
  Certificates by the Rating Agencies and the rating is in either of the two highest classifications
  (without regard to any suffix or numerical order) of each of the Rating Agencies.

The following chart depicts the sources and uses of the various funds.

#### State of Wisconsin Master Lease Program Master Indenture - Sources and Uses of Funds

#### **Servicing of Lease Schedules**

The Lessor has agreed to service the Lease Schedules, and should the Lessor fail to do so, the Trustee has agreed to do so and to enforce their terms. At the time the State entered into the Master Lease and the Master Indenture, the Lessor and the Trustee were separate (but related) entities; now, as a result of successive corporate mergers, the Lessor and the Trustee are the same entity, serving in different capacities.

#### **Events of Default and Remedies**

The following shall constitute **Events of Default** under the Master Indenture:

- Any Event of Nonappropriation or event of default under the Master Lease or any Lease Schedule.
- Failure by the Lessor or the State to observe any covenant under the Master Indenture (other than an event specified above) for a period of 30 days after notice from the Trustee, the Lessor, or the owners of not less than 5% in aggregate principal amount of Certificates then outstanding; *provided*, *however*, if the failure cannot be corrected within the applicable period, then those parties may not unreasonably withhold their consent to an extension of such time if corrective action is instituted and diligently pursued.
- Any additional event designated as an event of default under any supplemental indenture.

If an Event of Nonappropriation or an event of default under the Master Lease were to occur and be continuing, then the Trustee would be required to cause the Certificates of all series to be redeemed pursuant to the Master Indenture, *pro rata*, to the extent money is available in the Lease Payment Fund. In addition, if an Event of Nonappropriation or an event of default had occurred and were continuing, the Trustee may proceed, and upon written request of owners of not less than a majority in aggregate principal amount of Certificates then outstanding shall proceed, to take any of the remedial steps available under the Master Lease (including acceleration, if applicable) or whatever action at law or in equity may be necessary or appropriate to enforce its rights as assignee under the Master Indenture. All payments received by the Trustee with respect to the Trust upon an event of default, whether from the sale of Leased Items, damages, or otherwise, shall be applied by the Trustee, *first*, to its reasonable fees and expenses and *second*, to the Lease Payment Fund.

In the event that no action is taken to eliminate an event of default under the Master Lease, the owners of a majority in aggregate principal amount of the Certificates then outstanding may institute any suit, action, or other proceeding at law or in equity for the protection or enforcement of any right under the Master Lease or the Master Indenture, but only if such owners have first requested in writing that action be taken, have given a reasonable opportunity for such suit, action, or other proceeding to be instituted, and have offered reasonable indemnity against the costs, expenses, and liabilities to be incurred thereby.

#### **Amendment**

The Master Indenture, the Master Lease, or any Lease Schedule (**Operative Documents**) may be amended, or a supplemental indenture created, without the consent of any owners of Certificates, in order to provide for the issuance of a series of Certificates, to cure any ambiguity, to correct or supplement any provision in any of the Operative Documents that may be inconsistent with any provision in any other Operative Document, or to add any other provision with respect to matters or questions arising under any Operative Document if it is not inconsistent with the provisions of any Operative Document, *provided* that such action does not, as evidenced by an opinion of counsel, adversely affect in any material respect the interests of any owner of Certificates.

Any of the Operative Documents may also be amended from time to time with the consent of the owners of not less than 51% of the aggregate outstanding principal amount of Certificates of any series affected thereby for the purpose of adding any provisions to or changing in any manner or eliminating any of the provisions of the Operative Documents, or of modifying in any manner the rights of the owners of not less than 51% of the aggregate outstanding principal amount of Certificates; *provided, however*, that no amendment shall without the consent of the owners of all Certificates:

- Increase or reduce the amount of, or delay the timing of, or otherwise adversely affect, collections of
  payments under any Lease Schedule (other than modifications permitted under the Master Lease) or
  required to be made on any Certificate,
- Release any Lease Schedule or all or substantially all collateral securing a Lease Schedule, or
- Reduce the percentage required for consent to any amendment

#### **Limitation on Rights of Certificate Owners**

No owners of a Certificate has any right to vote (except as provided in the Master Indenture) or in any manner otherwise control the operation and management of the Trust, or the obligations of the parties to any of the Operative Documents; nor shall anything set forth in the Master Indenture, or contained in the terms of the Certificates, be construed so as to constitute the owners of Certificate as partners or members of an association; nor shall any owner of a Certificate be under any liability to any third person by reason of any action taken by the parties to the Master Indenture pursuant to any provision of the Master Indenture.

No owners of Certificate shall have any right by virtue of any provision of the Master Indenture to institute any suit, action, or proceeding at law or in equity under or with respect to the Master Indenture, unless:

- Such owner of a Certificate has previously given to the Trustee a written notice of an event of default and of the continuance thereof, as provided in the Master Indenture,
- The owners of not less than 25% of the aggregate outstanding principal amount of Certificates have made written request of the Trustee to institute such action, suit, or proceeding in its own name as Trustee under the Master Indenture and shall have offered to the Trustee such reasonable indemnity as it may require against the costs, expenses, and liabilities to be incurred therein or thereby, and
- The Trustee, for 30 days after its receipt of such notice, request, and offer of indemnity, shall have neglected or refused to institute any such action, suit, or proceeding.
