
State of Wisconsin
Additional/Voluntary Filing #2014-22
Dated November 21, 2014

This Additional/Voluntary Filing does not concern an event described in Securities and Exchange Act Rule 15c2-12, as amended. The State of Wisconsin provides this information as it may be material to financial evaluation of one or more obligations of the State of Wisconsin.

Issuer: State of Wisconsin

CUSIP Numbers: 977055 Prefix (All) 977056 Prefix (All)
97705L Prefix (All) 977087 Prefix (All)
977092 Prefix (All) 977100 Prefix (All)
977109 Prefix (All) 977123 Prefix (All)

This filing relates to all securities issued by the State of Wisconsin that contain these six-digit base CUSIP numbers.

Type of Information: Financial/Operating Data Disclosures; Additional/Voluntary Disclosure; Budget

Agency Budget Request and Revenue Estimates—Department of Administration Report, November 20, 2014.

The attached report from the State of Wisconsin Department of Administration includes:

- (1) Table 2
Department of Revenue's general purpose tax revenue estimates for the current fiscal year (2014-15) and the next two fiscal years (2015-16 and 2016-17),
- (2) Table 1 and Table 5
Summary of agency budget requests for the next two fiscal years (2015-2017 biennium), and
- (3) Table 3 and Table 4
Projected general fund condition statements that reflect current law appropriations for fiscal year 2014-15, assumption that all agency budget requests for fiscal years 2015-16 and 2016-17 will be funded, and current economic outlook and revenue forecasts based on best available data at this point in the fiscal year.

The Governor will use this report to prepare the executive budget for the 2015-17 biennium.

The State of Wisconsin has filed this notice with the Municipal Securities Rulemaking Board through its Electronic Municipal Market Access (EMMA) system. This filing is also available on the State of Wisconsin Capital Finance Office web site at:

November 20, 2014

The Honorable Scott Walker, Governor
Members of the Wisconsin Legislature
State Capitol
Madison, Wisconsin 53702

Dear Governor Walker and Members of the Legislature:

Pursuant to s. 16.43, Wisconsin Statutes, the Department of Administration is submitting the Department of Revenue's general purpose tax revenue estimates for the State's biennial budget for fiscal years 2015-16 and 2016-17, as well as a summary of state agency budget requests. In addition, revenue estimates for the remainder of the current fiscal year 2014-15 have been included. Such revenue estimates are used to identify the funds that serve as the base for the biennial budget.

I am pleased to report our state budget's foundation is secure. The State of Wisconsin completed fiscal year 2013-14 with a positive general fund balance of \$516.9 million. As a result, we entered fiscal year 2014-15 with the second-largest opening balance since fiscal year 2000-01.

As reported in the Annual Fiscal Report last month, under Governor Walker's leadership, Wisconsin has built a \$279 million balance in the Budget Stabilization Fund, the largest in its history.

Over the last four years, Wisconsin has achieved balanced budgets. Regardless of the obstacles constructed at the federal level and the correspondingly sluggish national economic recovery, Wisconsin continues to manage its budget within the means of the taxpayers.

Such discipline and prioritization will continue, both for the remainder of fiscal year 2014-15 and through fiscal years 2015-16 and 2016-17. For the coming biennium, agency budget requests exceed expected revenues by \$1,096 million in fiscal year 2015-16 and by \$1,118 million in fiscal year 2016-17, for a total of \$2,214 million over the biennium.

While this represents the traditional method for such calculations, such figures are derived under the assumption that ALL agency budget requests will be funded in their entirety. This is a flawed assumption.

Revenue Estimates

The Department of Revenue's estimates of general purpose tax revenue for fiscal year 2014-15, fiscal year 2015-16 and fiscal year 2016-17 are summarized by tax source in Table 2. It is important to note that estimated revenues continue to climb even after the substantial income and property tax relief efforts enacted in 2013 Wisconsin Acts 20 and 145.

For fiscal year 2014-15, state tax revenues are estimated at \$14.643 billion. This is \$695 million (4.98 percent) higher than fiscal year 2013-14 actual.

State tax revenues are estimated to increase from this revised fiscal year 2014-15 base to \$15.035 billion in fiscal year 2015-16, an increase of \$392 million (2.68 percent). Revenues are estimated to increase to \$15.653 billion in fiscal year 2016-17, an additional \$618 million (4.11 percent) over fiscal year 2015-16. In total, revenue is estimated to increase \$1.402 billion over the revised fiscal year 2014-15 base.

These revenue estimates are based on existing tax law and are the result of economic activity, not proposed general tax law changes. These figures also assume current federal law, which continues to escalate taxation through the Affordable Care Act, further contributing to overall economic uncertainty.

General Fund Condition Projections

The general fund condition statements (Tables 3 and 4) reflect current law appropriations for fiscal year 2014-15 and the requests from state agencies for fiscal years 2015-16 and 2016-17. They incorporate the current economic outlook and revenue forecasts based on the best available data at this point in the fiscal year.

1. The Department of Revenue's revenue estimates indicate that the state's economy will continue to expand as employment and personal income grow throughout both the current 2013-15 biennium and upcoming 2015-17 biennium.
2. The state closed fiscal year 2013-14 with an actual gross balance in the general fund of \$516.9 million. Based on projections, the state's general fund gross balance at the end of fiscal year 2014-15 is projected to be -\$132.1 million (see Table 3), assuming state agency expenditures reach the appropriated maximum. This projection is based on the Department of Revenue's revised fiscal year 2014-15 tax revenue estimates and the final budget for fiscal year 2014-15. Estimates of departmental revenues, sum sufficient appropriations and lapses have been updated based on the latest available information.

The challenges of fiscal year 2014-15 are largely a result of adverse federal tax law changes commonly referred to as the federal fiscal cliff, which impacted

many states. This led to tax planning distortions that were a consequence of both the 3.8 percent surcharge on investment income included in the Affordable Care Act and the expiration of capital gains tax reductions, both of which took effect in 2013. This meant that in 2012 taxpayers divested at the expense of future years, negatively impacting state tax revenues. This was a risk my department highlighted in this report two years ago, and referenced in the Annual Fiscal Report last month. However, through continued prudent management of agency resources, the shortfall noted above will be addressed and the current biennium will end in balance.

3. Table 4 shows the combination of estimated revenues, current tax law cuts and agency budget requests for the 2015-17 biennium.
4. Projecting revenue estimates is inherently difficult. The revenue estimates prepared by the Department of Revenue cover a period of more than two and one-half years, from now until June 30, 2017. As noted, there remains great uncertainty with the federal budget and payments to states. The economic outlook will be reviewed again before the Governor's budget is introduced.

Agency Budget Requests

On July 9, 2014, Governor Walker instructed state agencies to submit biennial budget requests that restrain spending at, or below, the fiscal year 2014-15 base levels, recognizing the statutory and discretionary lapses found in Act 20. As in past biennia, several exceptions were granted, including certain human services spending and K-12 school aids. Agency budget requests are posted on the Department of Administration's Web site at doa.wi.gov.

State agency budget requests for the 2015-17 biennium are summarized statewide and by functional area (Appendix 1) and by each agency (Appendix 2). They are attached to this letter. The requested funding is displayed in tables by source of funds and by major expenditure purpose, including local assistance, state operations, and aids to individuals and organizations. Each table also includes actual agency expenditures during fiscal year 2013-14 and the adjusted base amounts for fiscal year 2014-15. Fiscal year 2014-15 adjusted base year amounts are the starting point in considering changes to agency budgets for the 2015-17 biennium.

If approved, these agency budget requests would increase total spending (ALL funds) from the adjusted base of \$35.018 billion in the current fiscal year to \$37.153 billion in fiscal year 2015-16, an increase of \$2.135 billion (6.1%). For fiscal year 2016-17, agencies have requested \$38.369 billion, an increase of \$1.216 billion over fiscal year 2015-16 (3.3%).

Requests for GPR expenditures receive a higher level of scrutiny because they draw on the state's tax revenues and therefore have the greatest impact on our taxpayers' ability to pay and overall economic growth. Agencies have requested GPR total

spending amounts of \$16.686 billion in fiscal year 2015-16 and \$17.680 billion in fiscal year 2016-17 (expressed in Table 1). This means agencies have requested annual GPR increases of 4.8 percent (an additional \$757.1 million) in fiscal year 2015-16 and 6.0 percent in fiscal year 2016-17 (\$994.4 million). Much of the requested increase comes from the Department of Public Instruction, which has requested over \$695 million additional GPR, and the Department of Health Services, which has requested over \$760 million GPR for Medicaid costs-to-continue (please see Table 5).

Several other points should be noted:

- A summary of agency budget requests for GPR spending is shown in Table 5. Similar information is shown for all fund sources in Table 6.
- The budget requests for the Legislature and the six legislative service agencies have been reviewed by the appropriate legislative committee.
- Budget requests of individual agencies do not normally include any funds for prospective increases for debt service, fuel and utilities, state employee compensation and fringe benefits, or University of Wisconsin faculty pay adjustments. These items will be addressed as Governor's recommendations in the budget bill submitted to the Legislature.
- The capital budget requests of agencies are not included in the attached tables. This also likely understates total spending demands, as the University of Wisconsin System, for example, has requested numerous projects for consideration.

Wisconsin's Economic Outlook

Wisconsin's economy continues to gather strength after the weakest national economic recovery since the Great Depression; however, this sluggish national recovery is contributing to relatively volatile changes in tax revenues. Five and one-half years after the end of the Great Recession, national real gross domestic product (GDP) growth has still not reached the 2.7 percent annual real GDP growth we experienced in 2006.

Nevertheless, we expect moderate but steady increases in GDP in the next three years. We have already seen solid growth in three of the past four quarters, with the severe winter substantively and unpredictably impacting the economy for one quarter. IHS Economics projects GDP to increase by 2.6 percent in calendar year 2015 and accelerate to 2.8 percent growth in calendar year 2016 and 3.0 percent in calendar year 2017. Wisconsin's GDP growth remains slightly above the Great Lakes region.

Due to the frugal management discussed earlier, the state will end the 2013-15 biennium with a balance. However, continued spending pressures, particularly in the

Medicaid program and correctional system, and unpredictability at the federal level represent challenges to keeping our fiscal house in order.

Continued expansion in employment, housing, manufacturing and personal income indicates a broadening and more robust recovery as noted below:

- **Employment Growth** – Wisconsin's unemployment remains lower than the national average. During the current biennium, Wisconsin has seen its unemployment rate drop (5.5 percent in September) and is lower than the national average (5.8 percent in September). Wisconsin's unemployment rate equaled or exceeded 9.0 percent from May 2009 to March 2010, but it has declined steadily since that time.

In total, Wisconsin has recovered approximately 91 percent of the private sector jobs lost in the Great Recession. According to the federal Bureau of Labor Statistics (BLS), Wisconsin's total labor force participation remains well above the national average and ranks 10th nationally for calendar year 2013. Initial jobless claims in Wisconsin have declined from an average of 12,935 per week in October 2010 to 6,762 in October 2014, a strongly favorable trend over the last four years. Layoffs, as reported to BLS, have declined markedly and BLS' Quarterly Census of Employment and Wages indicates consistent growth in employment.

As a result of this solid job growth and the corresponding decrease in jobless claims, the State has fully repaid the unemployment insurance loan from the federal government. This occurred far more rapidly than anticipated and provides further incentive for employers to expand job opportunities for Wisconsinites.

- **Home Ownership** – Wisconsin building permits have rebounded strongly in recent months, growing 13.6 percent in calendar year 2013 and are expected to continue this pattern. Wisconsin's rate of home ownership continued to improve to 68.5 percent in calendar year 2013, higher than the national average of 65.1 percent; conversely, the national rate of home ownership is trending in the wrong direction. Through September of this year, existing home sales are continuing the strong pace of calendar year 2013, while prices are rising moderately. The combination of robust home ownership, home prices and home-building will accelerate economic growth, increase employment and grow incomes through new jobs in construction. This remains one of Wisconsin's strongest employment sectors.
- **Personal Income Growth** – Wisconsin's per capita personal income grew 1.8 percent in calendar 2013, compared to 1.3 percent nationally. Similarly, Wisconsin's personal income is projected to grow 4.3 percent in calendar year 2015, 4.7 percent in calendar year 2016 and 5.3 percent in calendar year 2017.

Wage growth is also poised to exceed 4 percent annually through calendar year 2017. Overall, our state's median household income is 6.4 percent above the national average, its best level since 2006.

- **Manufacturing** – Wisconsin remains quite reliant on manufacturing (behind only Indiana). This should provide an advantage moving forward, as global demand for various manufactured goods will align with our concentration of capital goods manufacturing. Jobs in the manufacturing sector have grown substantially from January 2011 through September 2014, expanding 6 percent, or nearly 29,000 jobs.

Risks to the Estimate

There are multiple major risk factors that slow the recovery and therefore affect this estimate. Continued uncertainty in federal policy decisions remains a significant concern for state governments, and Wisconsin is no exception. The implementation of the Affordable Care Act continues its unstable path while inflicting new taxes and regulations on both individuals and businesses. Despite this, Wisconsin is the only state in the nation that has closed any gap in health insurance coverage. However, this success has required significant state taxpayer resources.

Moreover, this continued uncertainty jeopardizes economic stability and serves as a disincentive to invest. These factors, combined with the previously enacted sequestration policies, demonstrate that much of our state's future is regrettably linked to actions at the federal level.

Further, export markets in Europe and East Asia may weaken due to deflationary pressures and continuing fiscal consolidation. Specifically, there are substantive signs of faltering growth in Japan as well as China.

We will remain mindful of these risks. We will continue to manage the state budget under the guiding principle that the state will only spend what the taxpayers can afford, rather than what others believe government should provide. This philosophy has already positioned our state for sustained growth and prosperity, and we will continue to pursue this path.

If you have any questions on this information, please contact me or State Budget Director Michael Heifetz.

Sincerely,

Mike Huebsch
Secretary

Table 1

**Summary of Agency Budget Requests
for FY16 and FY17
(in millions of dollars)**

	<u>FY15 Base</u>	<u>FY16 Request</u>	<u>\$ Change Over Prior Year</u>	<u>% Change Over Prior Year</u>	<u>FY17 Request</u>	<u>\$ Change Over Prior Year</u>	<u>% Change Over Prior Year</u>
All Funds	\$35,018.2	\$37,153.4	\$2,135.2	6.1%	\$38,369.1	\$1,215.7	3.3%
GPR Only	\$15,929.2	\$16,686.3	\$757.1	4.8%	\$17,680.4	\$994.2	6.0%

Note: Change Over Prior Year may not add due to rounding.

Note: The FY17 Request amounts include \$662.9 million GPR that is appropriated to cover debt service for the pension obligation bonds. The request is an increase of \$383.1 million over the prior year. Due to the bond requirements, the appropriation is significantly higher than projected expenditures, resulting in a large offsetting lapse. If the projected lapse is removed from the FY17 Request, the Change Over Prior Year would be \$477.5 million, or 2.9%, over FY16 for GPR only.
