
State of Wisconsin
Additional/Voluntary Filing #2014-18
Dated October 16, 2014

This Additional/Voluntary Filing does not concern an event described in Securities and Exchange Act Rule 15c2-12, as amended. The State of Wisconsin provides this information as it may be material to financial evaluation of one or more obligations of the State of Wisconsin.

Issuer: State of Wisconsin

CUSIP Numbers: 977055 Prefix (All) 977056 Prefix (All)
97705L Prefix (All) 977087 Prefix (All)
977092 Prefix (All) 977100 Prefix (All)
977109 Prefix (All) 977123 Prefix (All)

This filing relates to all securities issued by the State of Wisconsin that contain this six-digit base CUSIP number.

Type of Information: Annual Financial Information and
Operating Data Pursuant to Rule 15c2-12

Attached is the **Annual Fiscal Report (Budgetary Basis) State of Wisconsin 2014**. The attached presents statements of fund condition and operations (budgetary basis) of the State of Wisconsin for the fiscal year ended June 30, 2014. The attached is NOT intended to represent financial statements prepared in accordance with generally accepted accounting principles (GAAP).

The State of Wisconsin is providing this Additional/Voluntary Filing with the Municipal Securities Rulemaking Board through its Electronic Municipal Market Access system. This Additional/Voluntary Filing is also available on the State of Wisconsin Capital Finance Office web site at:

October 15, 2014

The Honorable Scott Walker
The Honorable Members of the Legislature

This report presents statements of fund condition and operations (budgetary basis) of the State of Wisconsin for the fiscal year ended June 30, 2014. This satisfies the requirements of sec. 16.40(3), Wisconsin Statutes. Displayed are major sources of revenues and major categories of expenditures for the General Fund and other funds compared to the prior year.

The General Fund has an undesignated balance of \$516.9 million as of the end of the fiscal year. General-purpose revenue taxes were \$13.948 billion compared to \$14.086 billion in the prior year, a decrease of \$138 million or 1.0 percent. This modest change reflects taxpayers' continued reactions to the federal fiscal cliff, as well as substantial tax relief as enacted by Governor Walker. General sales & use tax collections increased 4.9% from the prior year.

General-purpose revenue expenditures, excluding fund transfers, were \$14.633 billion. This is \$165 million less than the budgeted expenditure allocation of \$14.798 billion.

In fiscal year 2014, the State of Wisconsin continued to devote the major share of state tax collections to assistance to local school districts, municipalities and counties. Local assistance accounted for 50.7 percent of total general purpose revenue spending. Aid payments to individuals and organizations represented 23.1 percent of total general purpose revenue expenditures. The University of Wisconsin accounted for 7.9 percent of total general purpose revenue spending and state operations spending for all other state agencies accounted for 18.3 percent of the total.

The State of Wisconsin expects to publish its comprehensive annual financial report in December of 2014. The report will be prepared under generally accepted accounting principles.

Respectfully submitted,

Mike Huebsch
Secretary of Administration

Stephen J. Censky, CPA
State Controller

The Year In Summary

Revenue Highlights

General purpose revenue (GPR) taxes for the fiscal year (FY) ending June 30, 2014 totaled \$13,948.1 million, a decrease of 1.0 percent from FY 2013 collections of \$14,085.6 million.

Total collections for FY 2014 were \$281.2 million, or 2.0 percent, below the estimate of \$14,229.3 million. Similar to other states, this shortfall is largely attributable to taxpayers' continued reactions to the federal fiscal cliff.

Table 1

General Purpose Revenue (GPR) Taxes By Source GPR Tax Collections (\$ Millions)

Tax Source	FY 14	% of Total	FY 13	% of Total	\$ Change FY14-FY13	% Change
Individual Income	\$7,061.4	50.6%	\$7,496.9	53.2%	\$-435.5	-5.8%
General Sales & Use	4,628.3	33.2%	4,410.1	31.3%	218.2	4.9%
Corporation Franchise & Income	967.2	6.9%	925.4	6.6%	41.8	4.5%
Excise	698.7	5.0%	689.5	4.9%	9.2	1.3%
Inheritance, Estate & Gift	-0.1	0.0%	0.3	0.0%	-0.4	-133.3%
Public Utility	361.0	2.6%	341.2	2.4%	19.8	5.8%
Insurance Companies	165.8	1.2%	159.3	1.1%	6.5	4.1%
Miscellaneous	65.8	0.5%	62.9	0.5%	2.9	4.6%
TOTAL GPR	\$13,948.1	100.0%	\$14,085.6	100.0%	\$-137.5	-1.0%

Individual Income Tax

Driven by a combination of income tax rate reductions and withholding changes, individual income tax collections decreased \$435.5 million (5.8 percent) from \$7,496.9 million in FY 2013 to \$7,061.4 million in FY 2014. This was \$178.7 million (2.5 percent) below the \$7,240.1 million estimate. The individual income tax share of total GPR taxes decreased from 53.2 percent in FY 2013 to 50.6 percent in FY 2014.

The largest component of individual income tax collections is withholding from wages and salaries, which increased 1.6 percent from \$6,973.1 million to \$7,081.9 million. Estimated payments decreased 7.7 percent from \$1,306.5 million to \$1,206.5 million, while refunds increased 14.1 percent from \$1,816.3 million to \$2,073.0 million. Final payments, or payments with returns, decreased 22.7 percent to \$481.2 million.

General Sales and Use Tax

Collections from the 5 percent general sales and use tax increased 4.9 percent from \$4,410.1 million to \$4,628.3 million. This was \$11.1 million (0.2 percent) below the \$4,639.4 million estimate. Sales tax collections as a percentage of total GPR taxes increased from 31.3 percent to 33.2 percent.

Corporation Franchise and Income Tax

Corporate collections increased 4.5 percent from \$925.4 million in FY 2013 to \$967.2 million in FY 2014. Corporate collections as a percentage of total GPR taxes increased from 6.6 percent to 6.9 percent. Corporate collections were \$97.7 million (9.2 percent) below the estimate of \$1,064.9 million.

The major source of corporate collections, estimated payments, increased by 12.3 percent from \$794.6 million in FY 2013 to \$892.4 million in FY 2014.

Excise Tax

Cigarette tax collections increased 0.7 percent from \$569.2 million in FY 2013 to \$573.0 million in FY 2014. Collections in FY 2014 were below the estimate by \$2.0 million (0.3 percent).

Tobacco products tax collections increased 7.5 percent from \$63.0 million in FY 2013 to \$67.7 million in FY 2014. Collections were equal to the estimate in FY 2014.

Liquor and wine tax collections increased 1.4 percent over the previous fiscal year, from \$48.3 million in FY 2013 to \$49.0 million in FY 2014. Collections were \$1.3 million (2.7 percent) above the estimate in FY 2014.

Beer tax collections of \$9.0 million were unchanged in FY 2014 from FY 2013. Collections were equal to the estimate in FY 2014.

Other Taxes

Public utility tax collections increased \$19.8 million (5.8 percent) from \$341.2 million in FY 2013 to \$361.0 million in FY 2014. Collections were \$7.3 million (2.1 percent) above the FY 2014 estimate.

Estate tax collections decreased from \$0.3 million in FY 2013 to \$(0.1) million in FY 2014.

Insurance company taxes (generally based on premiums) increased 4.1 percent from \$159.3 million in FY 2013 to \$165.8 million in FY 2014. Collections were \$1.8 million (1.1 percent) above the FY 2014 estimate.

Miscellaneous taxes increased 4.6 percent from \$62.9 million in FY 2013 to \$65.8 million in FY 2014. This is \$2.0 million below the estimate for the fiscal year. The largest component of miscellaneous tax, the real estate transfer fee, increased 6.6 percent, from \$48.0 million in FY 2013 to \$51.2 million in FY 2014.

Expenditure Highlights

The state began the 2013-15 biennium with a general fund GPR balance of \$759.2 million, the second highest unreserved balance in 20 years, and a \$279.3 million balance in the state's budget stabilization fund, the highest amount ever in the "rainy day" fund's history. Taken together, these balances provided the financial capacity for the Governor and Legislature to enact substantial income and property tax relief. In FY 2014, state tax collections decreased by 1.0 percent as income tax reductions allowed state residents to retain more of their earnings. In addition, a combination of increased funding for school aids and continued local government efforts to contain long-term operations costs resulted in a third year of property tax bill reductions for the median value home.

Total GPR spending increased 4.2 percent or \$591.4 million in FY 2014, as shown in Table 2. This compares to a 4.9 percent increase in FY 2013. The largest portion of GPR expenditures in FY 2014 was directed to school districts and other local units of government, consistent with past

years. Local Assistance payments increased by 2.6 percent, and these expenditures were \$7,424.2 million or 50.7 percent of total GPR spending in FY 2014 compared to \$7,238.2 million or 51.5 percent of total spending in FY 2013. Aid payments to individuals and organizations increased by 4.8 percent, and these expenditures were \$3,385.1 million, which was 23.1 percent of total GPR spending in FY 2014, compared to \$3,229.2 million or 23.0 percent in FY 2013. State operations spending increased 7.0 percent in FY 2014, with expenditures of \$3,824.2 million that accounted for 26.2 percent of total GPR spending, compared to \$3,574.7 million or 25.5 percent in FY 2013.

The GPR budget is shaped by its ten largest programs, as detailed in Table 3. These programs comprised 83.3 percent of total GPR expenditures in FY 2014, compared to 83.6 percent in FY 2013. Immediately following this section is a brief explanation of each program.

TOTAL	<u>\$14,673.9</u>		<u>\$14,332.9</u>			

School Aids: State GPR assistance to Wisconsin's 424 school districts increased by 2.8 percent or \$140.8 million in FY 2014. Overall, through a combination of state aids and property tax credits, the state reimbursed over 61 percent of school costs in FY 2014.

Since the 1993-94 school year, school districts have been subject to statewide revenue limits. These limits control the allowable increase in each school district's revenues by limiting the total revenue a district can collect from the combined sources of property tax levies for nondebt purposes and state general aids. These controls, combined with continued robust funding levels for state school aids and property tax credits, have succeeded in decreasing the statewide net school property tax levy by an average of -0.03 percent annually since FY 2011.

During FY 2014 school districts were provided a \$150 adjustment for each pupil. Half of the adjustment was funded by the state through a new categorical aid program, which provided \$75 per pupil outside revenue limits, with the remaining \$75 delivered through a per pupil revenue limit adjustment.

There are two major types of direct school aid. Approximately 87.1 percent of direct school aids are general aids, distributed by a formula designed to equalize each school district's property tax base per student, and aids to support the Milwaukee Public Schools special transfer aid program for pupils transferring between schools with certain concentrations of minority and nonminority populations. The remaining 12.9 percent of direct aids are categorical aids, distributed based on local expenditures for specific activities or educational programs. The major categorical aid programs are programs for addressing special education needs and maintaining small class sizes.

In addition to direct aid, in FY 2014 the state also provided funding for children from low-income families in the city of Milwaukee and certain eligible school districts statewide to attend private schools at no charge. For FY 2014, the Milwaukee Parental Choice Program was funded 64.8 percent with GPR and 35.2 percent by the Milwaukee Public School District through an adjustment to its general equalization aid calculation. School choice programs in certain eligible school districts statewide, including Racine, were 100 percent funded with GPR in FY 2014. In FY 2014, the

state provided \$169.9 million GPR for school choice.

Medical Assistance: Wisconsin's state and federally funded Medical Assistance (MA) program pays for medical services to certain categories of low-income persons. Included are people with disabilities, seniors, children, low-income adults and pregnant women, and other low-income individuals who have high medical expenses.

In FY 2014, total MA expenditures, including BadgerCare Plus, were \$8,225.9 million, of which \$2,305.5 million was GPR, \$618.4 million was SEG, \$540.3 million was PR and the remaining \$4,761.7 million was FED. On an all funds basis, MA expenditures increased by 12.6 percent over FY 2013. The majority of the increase, \$453 million, is due to a change in how drug rebates are recorded. In prior years, these funds were used to offset MA benefits expenditures and are now credited to, and expended from, a new program revenue appropriation.

Due to the federal Affordable Care Act and program changes implemented during FY 2014, total MA enrollment decreased by 0.4 percent, which is the second consecutive year of enrollment decline. Average monthly enrollment of low-income adults and children in the BadgerCare Plus program decreased by 0.9 percent, while the average monthly enrollment of elderly individuals and people with disabilities increased by 2.4 percent.

Enrollment trends varied within eligibility groups due to programmatic changes implemented on April 1, 2014. On that date, the enrollment cap for childless adults was removed and full MA coverage under BadgerCare Plus was extended to all adults without dependent children below 100 percent of the federal poverty level. Additionally, BadgerCare Plus eligibility for parents and caretakers was reduced from 200 percent to 100 percent of the federal poverty level; and certain households above 100 percent of the federal poverty level were transitioned from MA to the federal health exchange.

The Medical Assistance totals do not include expenditures for SeniorCare, Wisconsin's pharmacy assistance program for the elderly. In FY 2014, SeniorCare expenditures totaled \$86 million, an increase of \$8 million from FY 2013. This increase is due to several factors including an increase in

drug utilization and benefits paid to each enrollee in FY 2014. SeniorCare enrollment decreased by 1.0 percent due to continued growth in participation in the federal Medicare Part D program, particularly among low-income individuals who qualify for additional subsidies, and individuals with high drug costs. Of the total expenditures, \$16 million was GPR, \$53 million was PR and \$17 million was FED. Program revenues for SeniorCare are derived from negotiated rebates with pharmaceutical manufacturers.

Correctional Services: Total GPR expenditures for the state corrections program increased \$29.7 million or 2.6 percent over the prior year, reaching \$1,167.3 million in FY 2014. The number of incarcerated felons under the supervision of the state adult corrections program increased 0.04 percent from an average daily population of 22,396 in FY 2013 to 22,405 in FY 2014. The increase in spending is mainly attributed to increased program operation costs, namely personnel costs associated with the 1 percent general wage adjustment increase and additional overtime costs during FY 2014, as well as a rise in inmate health care costs related to increased pharmaceutical costs, medical staff personnel costs and medical supplies.

University of Wisconsin System: Total GPR expenditures for the UW System increased by \$56.2 million, or 5.1 percent in FY 2014. Tuition at UW institutions was frozen at academic year 2012-13 levels and continues to be a relative bargain in higher education. Resident undergraduate tuition for students at the UW-Madison campus was below the "Big Ten" peer group median, and \$3,824 below the "Big Ten" public institution average. In addition, UW-Milwaukee was \$2,002 below its peer group average and all other campuses were approximately \$858 below their peer group averages in the 2013-14 academic year.

In addition to low basic tuition, access to college for lower income families was further protected through steady support for the Wisconsin Higher Education Grants (WHEG) program for University of Wisconsin students. Since FY 2003 support for WHEG grants has increased by 183 percent.

State Property Tax Credits: The School Levy and First Dollar Tax Credits help to directly reduce property tax bills of residences and businesses. Funding for the School Levy Tax Credit in FY 2014

was \$747.4 million GPR. The credit offset 7.1 percent of 2012 gross property tax levies for all purposes statewide. The School Levy Tax Credit GPR expenditures, but not all funds expenditures, increased in FY 2014 as the use of lottery proceeds to pay a portion of the credit's costs was eliminated. The First Dollar Credit was created in 2007 Wisconsin Act 20 to provide additional property tax relief to owners of improved property. The credit, funded at \$148.3 million in FY 2014, helps to give greater tax relief to lower-value property by offsetting property taxes on the first \$6,600 of property value for eligible parcels.

Shared Revenue: State shared revenue provides unrestricted aid to municipal and county governments. In FY 2014, the shared revenue formula distributed a total of \$875.2 million, consisting of \$822.6 million GPR and \$52.6 million SEG. The GPR portion of this amount consisted of county and municipal aids of \$695.3 million, utility aids of \$69.2 million, and expenditure restraint payments of \$58.1 million. The Expenditure Restraint Program provides aids to municipalities with tax rates over five mills that restrained their spending increases. The GPR portion of shared revenue payments increased by 0.2 percent over FY 2013, reflecting a 2.1 percent increase in the public utility component of the payments. Statewide, shared revenue payments provided municipalities with about 13.0 percent and counties with about 3.1 percent of their general revenues.

Tax Relief to Individuals: Wisconsin paid out \$234.5 million GPR in tax relief to individuals through a variety of refundable tax credit programs during FY 2014.

The Earned Income Credit program reduces income taxes or supplements income for about 267,500 low-income working families with children. In FY 2014, this program paid a total of \$103.8 million in all funds to these households, an increase of about \$2.7 million over FY 2013.

The Homestead Credit is a refundable credit that aims to offset, at least partially, the amount that property taxes exceed a certain percentage of a tax filer's income. This type of credit is also known as a "circuit-breaker" tax credit. Claimants receive a credit against their state income tax liability or a refund check.

Wisconsin's Homestead Credit pioneered property tax relief through circuit-breakers. The program

remains one of the nation's leaders in circuit-breaker relief. In FY 2014, the credit provided \$118.0 million of tax relief, compared with \$122.8 million in FY 2013. Over 220,000 low-income homeowners and renters – around 29 percent of them elderly – benefit from the program each year.

The Veterans and Surviving Spouses Property Tax Credit reduced income taxes for or provided a refund check to approximately 6,800 veterans and surviving spouses by providing a credit for taxes paid on a principal dwelling. Tax credit expenditures were \$23.2 million in FY 2014, an increase of \$0.5 million over FY 2013.

Wisconsin's Farmland Preservation Credit programs provide credits to about 14,600 farmers who qualify through exclusive agricultural or farmland preservation zoning or individual farmland preservation agreements. Two separate calculations of and qualifications for the credit were available in FY 2014 – one based on income and the other based on the number of acres and other criteria. Combined expenditures under Farmland Preservation Credit programs totaled \$19.3 million in FY 2014, an increase of \$0.1 million over FY 2013.

Community Aids and Children and Family Aids: Community Aids and Children and Family Aids are state and federal funds distributed to counties to fund human services programs serving primarily low-income persons, children in need of protection, the elderly and the disabled. Beginning in FY 2009, these funds are administered and distributed by both the Department of Health Services and the Department of Children and Families with total GPR expenditures reaching \$184.6 million in FY 2014. Between FY 2013 and FY 2014, the Community Aids funding distributed by the departments decreased by \$10.9 million GPR due largely to the timing of payments and revenues related to the Medicaid cost settlements paid to counties.

State Supplemental Income: Wisconsin provides a supplement to the federal supplemental security income (SSI) program offering cash assistance to low-income aged, blind and disabled individuals, and to disabled parents as support for their children. In FY 2014, a total of \$150.9 million was expended in SSI payments. The expenditure increase of \$2.4 million GPR over FY 2013 is due to an increase in caseload.

Wisconsin Works: Wisconsin Works, or W-2, is a work-based system that provides support services to families in order to help them achieve self-sufficiency. On average, there were approximately 15,930 cases per month served over the course of FY 2014.

In addition to W-2 cash benefits, other program-related costs for work experience, job search, education and training, and administration are funded by the program. These include state funds committed for fraud programs and several other small public assistance-type programs. In total, \$131.1 million of state GPR was spent on W-2 and select other public assistance programs from this Department of Children and Families' appropriation in FY 2014, the same amount as in FY 2013.

UNDESIGNATED UNRESERVED BALANCE	<u>\$ 516,891</u>	<u>\$ 724,377</u>	<u>\$ (207,486)</u>

Notes:

1. UNDESIGNATED, UNRESERVED OPENING BALANCE. The fund condition for the fiscal year 2014 is the Final Chapter 20 fund condition statement. The opening balance for fiscal year 2014 was based on actual revenues, appropriations and opening balance from the preceding year.
2. PRIOR YEAR DESIGNATION FOR CONTINUING BALANCE. A portion of the previous year's gross ending balance had been designated, or set aside, to cover left over continuing budget authority that could legally be carried forward and spent in the next year. This continuing authority is generated in biennial appropriations in the first year, or even numbered year, of the biennium and in continuing appropriations each year. The fund condition summary does not include an estimate for the amount of continuing authority carried forward, and therefore, the designated amount for continuing balances is always a variance with the budget estimate.
3. TAXES. Actual tax collections were lower than the estimated tax collections contained in the Final Chapter 20 revenue estimates provided by the Legislative Fiscal Bureau.
4. DEPARTMENTAL REVENUES. Departmental revenues are revenues received by individual state agencies and deposited in the general fund. Departmental revenues include tribal gaming revenue. The estimate used in the fund condition summary assumed that the entire amount of DOA-determined lapses and transfers from state agencies would be allocated to departmental revenues. However, some of those reductions actually occurred as lapses from GPR appropriations.
5. GROSS APPROPRIATIONS. Final gross appropriations varied from estimated gross appropriations as follows:

Gross Appropriations Per the fund condition summary	\$ 15,013,474
Add: continuing appropriation authority brought forward	18,771
Add: increases to sum sufficient appropriations above Chapter 20	6,374
Add: new legislation	186
Add: biennial adjustments (included in January re-estimate)	<u>4,395</u>
FINAL GROSS APPROPRIATIONS	<u>\$ 15,043,200</u>
6. COMPENSATION RESERVES. Compensation reserves are budgetary set-asides for employee wage and benefit increases for the fiscal year.
7. TRANSFERS. Certain transfers were delayed until the second year of the biennium, resulting in a positive variance for transfers.
8. LAPSES. A lapse is the automatic termination of an appropriation. It represents the amount of unexpended, unencumbered balance of the appropriation at the end of the fiscal year. Actual lapses may differ from budgeted lapses due to the manner in which the legislature treats certain required appropriation reductions.

The accompanying notes are an integral part of this statement

¹ Expenditures exclude non-budgetary transfers and expenses.

² The fund condition for the fiscal year 2014 is the fund condition approved by Legislative Joint Finance Committee at its May 6, 2014 (13.10 Wisconsin Statutes) meeting.

Notes To Fund Statements

Note A Statutory Basis of Accounting

The State of Wisconsin Annual Fiscal Report is a report of financial results recognized on the statutory basis of accounting, for the fiscal year, against the state's budget as reflected in Chapter 20 of the Wisconsin Statutes. The report is not intended to display accounting information in accordance with Generally Accepted Accounting Principles (GAAP).

The State's Comprehensive Annual Financial Report, which is prepared in accordance with GAAP is issued under a separate cover at the end of the calendar year.

Statutes generally require that revenues and expenditures be recognized in the fiscal year in which they are received or paid, with specific exceptions. The legislature may change the recognition of revenues and expenditures among fiscal years.

The state's centralized accounting records remain open until July 31 (August 15 for income, sales and use tax receipts) to permit the state departments to record revenues and expenditures applicable to the fiscal year ended June 30.

The July and August recording of prior fiscal years' revenues and expenditures results in accrued revenues and accounts payable in the statement of assets, liabilities and fund balances. Included in these amounts are receivables and payables between funds which are not eliminated for presentation as "due to" or "due from" other funds.

Encumbrances are treated as expenditures in the initial year. However, the recording of charges against encumbrances applicable to the prior year is limited by the available appropriation balances of that year. Expenditures reported in this report are equal to current year disbursement and encumbrance balances less the prior year encumbrance balances. The Building Trust Fund, the Capital Improvement Fund, and the Bond Security and Redemption Fund are closed for encumbrances as of June 30.

Life insurance premiums are paid two months in advance of the actual coverage months. The life insurance costs for the last two months of the fiscal year are recorded as expenditures in the following fiscal year.

Health insurance premiums are paid one month in advance of the actual coverage month. The health insurance costs for the last month of the fiscal year are recorded as expenditures in the following fiscal year.

All investments owned by the state retirement funds are an exception to the requirement to recognize revenues and expenditures on the cash basis since investments are adjusted to market and the resultant unrealized gains or losses are reflected in the accounts of those funds.

State statutes also provide that contributions to the state retirement funds received after August 1, which relate to earnings paid for services rendered in the previous fiscal year, may be recorded as revenues of the previous fiscal year.

In addition, state administrative policies require that revenues and expenditures be reported on a net basis; i.e., overcollections refunded are deducted from revenues, and overpayments collected are deducted from expenditures. Collections on loan principal and interest are recorded as receipts.

Certain unused appropriation balances may be allowed to continue for use in future years, rather than lapse to the General Fund. In these cases the continuing balances are treated as reserves for Program Revenue (PR) or General Purpose Revenue (GPR) balances. GPR consists of general taxes and miscellaneous revenues which are paid into the general fund and are then available for appropriation by the legislature. PR consists of funds also paid into the General Fund which are dedicated for specific purposes and are appropriated by the legislature as estimates through the use of revolving accounts.

Note B Fiscal Controls

The State Constitution provides that no money shall be paid out of the Treasury except as appropriated by law. The Secretary of Administration exercises detail allotment control over all agency appropriations and approval authority over all encumbrances. The Secretary of Administration is also responsible for the audit of expenditures.

The Department of Administration maintains separate accounts for all appropriations showing the amounts appropriated, the amounts allotted, the amounts encumbered, the amounts disbursed and certain other data necessary to the financial management and control of all state accounts. The department also maintains the general ledgers of the funds of the state including the General Fund.

Note C Classification of Funds

Funds are generally classified in accordance with classification criteria appropriate for governmental accounting.

However, certain activities of a proprietary and fiduciary nature are combined within the Governmental and Trust, Agency and Other Funds. In addition, the activities of the State Building Trust Fund, included within the Capital Projects classification, consist of capital projects as well as projects for the maintenance and repair of state facilities.

Note D Extraordinary Transfers and Transactions Affecting Fund BalanceCompensation Reserve

In FY 2014, Chapter 20 included a compensation reserve for employee salary and fringe benefit increases. The total amount reserved (appropriated) was \$78,752,200 and the amount allotted was \$57,918,100 leaving a lapse amount of \$20,834,100.

Note E Published Budget

The published budget amounts used in Exhibit A-1 are based on the fund condition statement for the appropriation summaries under Chapter 20 of the Wisconsin Statutes, approved in the May 6, 2014 meeting of the Legislative Joint Finance Committee.

The adjustments column reflects legislation passed subsequent to the budget act, statutorily required appropriation adjustments to sum-sufficient and biennial appropriations and appropriation changes enacted under the statutory authority of the Legislative Joint Finance Committee or by statutory authority under program supplements.

The State of Wisconsin utilizes a budgetary procedure within the General Fund which treats most federal grant revenues, licenses and fees and revenues for proprietary activities as dedicated for the activities to which they relate. As such, variable budgeting techniques are used and the official state budget includes them only as estimates. These accounts, referred to as Program Revenue Appropriations, are not included in Exhibit A-1. Only those appropriations made from nondedicated General Purpose Revenues are included.

Note F Total Departmental Revenues

For budget comparison purposes, inter-fund transfers are added to other revenues to arrive at total departmental revenues. Exhibit A-1 displays departmental revenues of \$358.7 million and net transfers in of \$228.5 million. The fund condition captured these funds more generically as revenue. In order to properly compare actual revenues to budgeted revenues, actual revenues and transfers should be added together in order to compare to the departmental revenues in the fund condition statement, totaling \$587.2 million.

Note G Projected-to-Actual General Fund Condition

The variance between the published budgeted ending balance and actual undesignated balance at the end of fiscal year 2014 is explained as follows:

	(thousands)
ENDING FUND BALANCE (UNDESIGNATED) PER FUND CONDITION STATEMENT	\$ 724,377
OPENING BALANCE	
ADJUSTMENTS:	
Prior year designation for continuing balances	18,771
Total opening balance adjustments	<u>18,771</u>
REVENUE ADJUSTMENTS	
Taxes received less than estimate	(281,169)
Departmental revenues less than estimate	<u>(241,894)</u>
Total revenue below estimate	<u>(523,063)</u>
APPROPRIATION ADJUSTMENTS	
Sum Sufficient Changes	
Reestimates	(6,374)
Subsequent Legislation	(186)
Budget brought forward from previous year	(18,771)
Budget carried to next year for continuing appropriations	122,411
Biennial Adjustments	(4,395)
Total Appropriation Adjustments	<u>92,685</u>
LAPSES MORE THAN BUDGETED	98,076
INTER-FUND TRANSFERS	228,456
DESIGNATION FOR CONTINUING BALANCES	<u>(122,411)</u>
UNDESIGNATED FUND BALANCE	\$ <u><u>516,891</u></u>

Note H General Fund Cash Flow

Normally the General Fund experiences a short-term cash flow problem in the first half of the year, resulting in the issuance of an operating note. However, an operating note was not required for fiscal year 2014.

Note I Negative Transportation Fund Balances

The negative ending fund balance in the Transportation Fund represents commitments (encumbrances) recorded as expenditures in the current year which will be funded by the Federal, state and/or local governments in the future.

Note J Unappropriated Activities

The Department of Safety and Professional Services enters into contracts with private vendors to provide services for programs that they manage. These contracts have not been budgeted within a state appropriation and therefore, this activity is summarized here to provide full disclosure of state agency operations.

	Safety & Professional Services
Revenues	\$1,183,395
Expenditures	\$1,183,395
Balance	\$0

Note K Sum Sufficient Increases

The B-2 Exhibit shows both lapsing amounts and adjustments to sum sufficient appropriations. In order to correctly show the lapsing amounts the increase column includes supplements. These supplements need to be removed to calculate the Actual Sum Sufficient Increases.

B-2 Sum Sufficient Increases	\$6,997
Less Supplements (included in total above)	\$623
Actual Sum Sufficient Increases	\$6,374

Note L Economic Development Fund

The Recycling and Renewable Energy fund was renamed the Economic Development fund in 2011 Wisconsin Act 32 (budget bill). To better reflect the closing of the Recycling and Renewable Energy fund and the creation of the Economic Development fund in the A-3 Exhibit, these funds have been shown separately.
