

STATE OF WISCONSIN

MONTHLY GENERAL FUND FINANCIAL INFORMATION

FOR THE MONTH ENDING APRIL 30, 2014

By: Wisconsin Department of Administration
Capital Finance Office
Prepared on June 24, 2014

Special Note

The State has voluntarily provided unaudited monthly reports of General Fund financial information since July 2001. The State of Wisconsin has reviewed and updated these monthly reports to incorporate best practices suggested by the National Association of State Auditors, Comptrollers and Treasurers, and best practices utilized among our peers. The updated report provides additional information along with a comparison to historical General Fund results (cash basis). In addition, the State provides similar information in its Continuing Disclosure Annual Report, released in December of each year, and in its Official Statements for specific issuances of securities.

Cautionary Information

Users of this information should be cautioned about several points:
--

The General Fund financial information in this document has been prepared using what is believed to be the best available data for these purposes. The tables in this document have been prepared using the same procedures used to prepare similar information for the State of Wisconsin Continuing Disclosure Annual Report, Official Statements prepared for specific securities, or reports filed in conjunction with various securities. This information is, however, preliminary in nature and subject to change.

- This information is unaudited and is not a “financial statement.” None of the data presented here has been subjected to customary fiscal period closing procedures or the procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments.
- This information only speaks as of the date on which it was prepared.
- Statements of information for dates before the date this information is prepared will most likely be restated or revised. Information classified as “actual”, and any difference from any prior estimate, does not signify a change to official estimates. Any official revenue or expenditure re-estimates that do occur will be separately identified, and if material, appropriately noted.
- The information does not intend to reflect the State’s projected budgetary balance for FY14 or FY15.
- Projections of results for dates after the date this information is prepared are forward looking. Actual results will almost certainly differ.
 - It is important to note that cash flow projections are expressed on a *cash basis* while the tax revenue collection estimates released by the Department of Revenue (**DOR**) and the Legislative Fiscal Bureau (**LFB**) are expressed on a *budgetary basis* and net of any refunds.
 - Projections are not adjusted to reflect actual revenues and expenditures and routine variability in the timing of receipts and disbursements, but may be adjusted to reflect unique events.
 - Projections of remaining fiscal year cash flow may be adjusted when necessary to reflect unforeseen events or additional revised forecasts of the General Fund condition statement.
- Data in the tables of financial information are subject to revision and reclassification for prior periods. This is particularly true for revenue data, where proper classification depends on tax returns which are received and processed significantly after the tax payments are received through electronic transfers.
- Some information is presented on a cash basis of accounting while other data is presented on a budgetary or agency-recorded basis. Users should not compare information that is presented on one basis of accounting with information that is presented on a different basis of accounting.
- Comparison of monthly General Fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month. In addition, comparison of year-to-date annual General Fund financial information also has many inherent problems due to the potential of different revenue and budget provisions for each fiscal year.
- The following tables of General Fund financial information may be material to an investment decision in securities of the State of Wisconsin, although the presence of information here does not imply the State of Wisconsin has made a determination of its materiality.
- The State of Wisconsin is not obligated to provide this information or make it available on its website.
- None of the information in these tables of financial information is required by the State of Wisconsin’s continuing disclosure undertakings pursuant to the Securities and Exchange Commission (**SEC**) Rule 15c2-12; however this information is filed with the MSRB’s EMMA system as an additional voluntary filing.
 - This information is not, and does not replace, a listed event required by SEC Rule 15c2-12.
 - This information is not, and does not replace, the annual financial information required by SEC Rule 15c2-12.

General Notes to the Financial Information

- **FY15 General Fund Cash Flow.** The attached report includes General Fund cash flow projections for FY15. At this time, the State is not planning to issue operating notes in FY15.
- **Projected FY14 and FY15 General Fund Revenues.** Projected General Fund FY14 and FY15 cash flows reflect the following:
 - 2013-15 biennial budget (2013 Wisconsin Act 20), including tax cuts that were included in the budget.
 - Estimated General Fund Tax Revenues, as included in a memorandum dated January 16, 2014 from LFB.
 - Enactment on March 24, 2014 of legislation that reduced certain General Fund taxes and property taxes and provided greater funding for the Department of Workforce Development. This legislation resulted from a special session of the Wisconsin State Legislature (**Legislature**) that was called in January 2014.
 - Estimated impact of withholding table changes made by DOR on or about April 1, 2014 to reflect changes due to the indexing of individual income tax provisions and recent changes in tax rates and tax brackets.
- **Actual FY14 General Fund Revenues and Disbursements.** Compared to projections, the actual year-to-date FY14 General Fund Tax Receipts revenue (cash basis) for the period ending April 30, 2014, was unfavorable by \$362 million. In addition, year-to-date actual tax receipt results exceed the same period in FY13 by \$108 million. Regarding actual year-to-date disbursements, the actual results have decreased by \$803 million compared to projections for FY14. Compared to the same period for FY13, disbursements have increased by \$1.052 billion. This information is not intended to project an ending budgetary balances for FY14; actual FY14 revenues and disbursements will be reported by October 15, 2014 on a budgetary basis in the Annual Fiscal Report.
- **Projected General Fund Condition Statement.** The Legislative Joint Committee on Finance recently approved a General Fund summary that reflected all enacted bills from the recently completed legislative session, and all Joint Committee on Finance approvals as of May 5, 2014.

This General Fund summary is included on the next page and further reflects actions that occurred subsequent to the General Fund condition statement included LFB's report from January 2014, including but limited to, (i) adjustments on or after April 1, 2014 by DOR to the individual income tax withholding tables to reflect recent changes in tax rates and tax brackets, and (ii) legislation from a special session of the Legislature enacted by Governor Walker on March 24, 2014 that reduced certain General Fund taxes and property taxes and provided greater funding for the Department of Workforce Development.

The following projected General Fund condition statement includes the summary approved on May 6, 2014 by the Joint Committee on Finance and, for comparison purposes, estimated statements from the 2013-15 biennial budget and the January 2014 report from LFB.

- ***Budget Stabilization Fund Transfers FY14 and FY15.*** Provisions of legislation from the recent special session that was enacted on March 24, 2014 (2013 Wisconsin Act 145) suspends the statutory provisions requiring transfers from the General Fund to the Budget Stabilization Fund for FY14 and FY15. Under existing law, in the event general purpose revenues exceed the original budget estimates, 50% of general purpose revenues received that exceed the original budget estimates are transferred to the Budget Stabilization Fund.

**CASH BALANCES IN FUNDS AVAILABLE FOR
TEMPORARY REALLOCATION ^{(a) (g)}
July 31, 2012 to April 30, 2014 — Actual
May 31, 2014 to June 30, 2015 — Projected ^(b)
(Amounts in Millions)**

The following two tables show, on a monthly basis, the cash balances available for temporary reallocation. The first table does not include balances in the Local Government Investment Pool (LGIP) and the second table does include such balances. Though the LGIP is available for temporary reallocations, funds in the LGIP are deposited and withdrawn by local units of government, and thus are outside the control of the State. The monthly average daily balances in the LGIP for the past five years have ranged from a low of \$2.113 billion during November 2011 to a high of \$3.694 billion during August 2009. The Secretary of Administration may not exercise the authority to use temporary reallocation if doing so would jeopardize the cash flow of any fund or account from which a temporary reallocation would be made.

Endnotes

- (a) Please refer to the cautionary statements at the beginning of this document. The cautionary statements are an integral part of this table. None of the data presented here has been subjected to customary fiscal period closing procedures or other procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments. In addition, comparison of monthly General Fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month.
- (b) The projections for FY14 and FY15 (cash basis) reflect the 2013-15 biennial budget (2013 Wisconsin Act 20), estimated General Fund tax revenues from the Legislative Fiscal Bureau (**LFB**) as included in their January 16, 2014 report, withholding table changes, implemented on or after April 1, 2014 by the Wisconsin Department of Revenue (**DOR**), and the General Fund income tax cuts and other provisions from legislation approved in a special session of the Legislature and enacted by Governor Walker on March 24, 2014.
- (c) The General Fund cash balances presented are not based on Generally Accepted Accounting Principles. The General Fund includes funds designated for operations and capital purposes for certain proprietary programs of the State's universities. Receipts and disbursements of such funds for the designated programs and the disbursement of such funds for other purposes are reflected in the cash flow. A use of the designated funds for purposes other than the proprietary programs is, in effect, a borrowing of such funds. Therefore, at any time that the balance in the General Fund is less than the balance of such designated funds, the State is obligated to replenish the designated funds to the extent of the shortfall. These designated funds ranged from \$550 million to \$1.3 billion in FY12, from \$1.0 billion to \$1.9 billion in FY13, from \$1.4 billion to \$1.9 billion year-to-date in FY14, and are expected to range from \$1.1 billion to \$1.9 billion for the remainder of FY14 and from \$1.0 billion to \$1.5 billion in FY15. In addition, the General Fund holds deposits for several escrow accounts pursuant to court orders or federal rulings. These funds ranged from \$17 million to \$28 million in FY13 and are expected to average approximately \$25 million during FY14 and FY15.
- (d) The Statutes provide certain administrative remedies to deal with periods when the General Fund is in a negative cash position. The Secretary of Administration may temporarily reallocate cash in other funds to the General Fund in an amount up to 9% of the general-purpose revenue appropriations then in effect (approximately \$1.351 billion for FY14 and \$1.429 billion in FY15) and may also temporarily reallocate for a period of up to 30 days an additional amount up to 3% of the general-purpose revenue appropriations then in effect (approximately \$450 million for FY14 and \$477 million in FY 15). This results in an aggregate amount of \$1.801 billion for FY14 and \$1.906 billion for FY15. The enacted 2013-15 biennial budget permanently extends the 9% reallocation limit; prior to such action, the 9% limit applied only to the 2011-13 biennium with a 5% limit applicable prior to July 1, 2011. If the amount of temporary reallocation available to the General Fund is not sufficient, the Secretary of Administration is authorized to set priorities for payments from the General Fund and to prorate and defer certain payments.
- (e) Reflects no operating notes issued for FY13 and FY14, and the State does not expect to issue operating notes in FY15.
- (f) Changes are sometimes made after the beginning of the fiscal year to the projected revenues and disbursements. Depending on when these changes occur, there are situations in which prior estimates can not be changed and the result is a large variance. This column may include adjustments, if any, to the variances to more accurately reflect the variance between the estimated and actual amounts.
- (g) The amounts shown reflect a reduction in the aggregate cash balances available to the extent any fund had a negative balance and temporary reallocation was used for such fund.

- (h) The amounts are from the Annual Fiscal Report (unaudited, budgetary basis) for FY13, dated October 15, 2013.
- (i) The projections or estimates on an agency recorded basis reflect the 2013-15 biennial budget (2013 Wisconsin Act 20) but do NOT reflect estimated General Fund tax revenues from LFB as included in their January 16, 2014 report nor the impact of withholding table changes, implemented on or after April 1, 2014 by DOR.
- (j) The amounts shown are FY13 general purpose revenues and program revenues taxes as recorded by state agencies. There may be differences between the tax revenues shown in this report and those that may be reported by DOR from time to time in their monthly general purpose revenue collections report; the DOR report (i) only includes general purpose revenues or taxes that are actually collected by DOR (and not by other state agencies), and (ii) may include accruals or other adjustments that may not be recorded by state agencies until a subsequent month.
- (k) The amounts shown are FY14 general purpose revenues and program revenue taxes as recorded by state agencies. There may be differences between the tax revenues shown in this report and those that may be reported by DOR from time to time in their monthly general purpose revenue collections report; the DOR report (i) only includes general purpose revenues or taxes that are actually collected by DOR (and not by other state agencies), and (ii) may include accruals or other adjustments that may not be recorded by state agencies until a subsequent month.
- (l) This category includes intergovernmental transfers. The amount of these transfers may vary greatly between fiscal years, and therefore, this category may not be comparable on a historical basis.
- (m) Certain transfers between General Fund appropriations are recorded as both revenues and expenditures of the General Fund. The amount of these transfers may vary greatly between fiscal years, and therefore, this category may not be comparable on a historical basis.
- (n) The amounts shown are FY13 expenditures as recorded by state agencies.
- (o) The amounts shown are FY14 expenditures as recorded by state agencies.
