## SUMMARY DESCRIPTION OF BONDS

	SUMMARY DESCRIPTION OF BONDS
	resented on this page for the convenience of the reader. To make an informed rding the Bonds, a prospective investor should read the entire Official Statement.
Description:	State of Wisconsin General Obligation Bonds of 2016, Series A
Principal Amount:	\$295,185,000
Denominations:	Multiples of \$5,000
Date of Issue:	Date of delivery (on or about March 16, 2016)
Record Date:	April 15 and October 15
Interest Payments:	May 1 and November 1, beginning November 1, 2016
Maturities:	May 1, 2024-2036— <i>See front cover.</i>
Redemption:	<i>Optional</i> — The Bonds maturing on or after May 1, 2026 are callable at par on May 1, 2025 or any date thereafter— <i>See page 2</i> .
Form:	Book-entry-only—See pages 3-4.
Paying Agent:	All payments of principal of, and interest on, the Bonds will be paid by the Secretary of Administration. All payments will be made to The Depository Trust Company, which will distribute payments to DTC Participants as described herein.
Security:	The Bonds are general obligations of the State of Wisconsin. As of January 1, 2016, general obligations of the State were outstanding in the principal amount of \$7,988,224,416.
Additional General	
Obligation Debt:	The State may issue additional general obligation debt.
Authority for Issuance:	The Bonds are authorized by Article VIII of the Wisconsin Constitution and Chapters 18 and 20 of the Wisconsin Statutes.
Purpose:	Acquisition, construction, development, extension, enlargement, or improvement of land, water, property, highways, buildings, equipment, or facilities for public purposes and the funding of a portion of the State's outstanding general obligation extendible municipal commercial paper notes issued for the same purposes.
Legality of Investment:	State law provides that the Bonds are legal investments for all banks, trust companies, bankers, savings banks and institutions, building and loan associations, savings and loan associations, credit unions, investment companies, and other persons or entities carrying on a banking business; for all personal representatives, guardians, trustees, and other fiduciaries; and for the State and all public officers, municipal corporations, political subdivisions, and public bodies.
Tax Exemption:	Interest on the Bonds is excluded from gross income for federal income tax purposes and is not a specific item of tax preference for purposes of the federal alternative minimum tax imposed on all taxpayers— <i>See pages 7-8.</i> Interest on the Bonds is not exempt from current State of Wisconsin income or franchise taxes— <i>See page 7.</i>
Legal Opinion:	Validity and tax opinion to be provided by Foley & Lardner LLP—See page C-1.
2015 Annual Report	This Official Statement incorporates by reference, and makes updates and additions to, Parts I, II, and III of the State of Wisconsin Continuing Disclosure Annual Report, dated December 23, 2015.

## OFFICIAL STATEMENT \$295,185,000 STATE OF WISCONSIN GENERAL OBLIGATION BONDS OF 2016, SERIES A

### **INTRODUCTION**

This Official Statement provides information about the \$295,185,000 General Obligation Bonds of 2016, Series A (**Bonds**), which are being issued by the State of Wisconsin (**State**). This Official Statement incorporates by reference, and makes updates and additions to, Parts I, II, and III of the State of Wisconsin Continuing Disclosure Annual Report, dated December 23, 2015 (**2015 Annual Report**).

The Bonds are authorized under the Wisconsin Constitution and the Wisconsin Statutes, and are being issued pursuant to authorizing resolutions that the State of Wisconsin Building Commission (**Commission**) adopted on June 11, 2014 and December 9, 2015.

The Commission, an agency of the State, is empowered by law to authorize, issue, and sell all the State's general obligations. The Commission is assisted and staffed by the State of Wisconsin Department of Administration (**Department of Administration**).

The Commission has authorized the Department of Administration to prepare this Official Statement. This Official Statement contains information furnished by the State or obtained from the sources indicated.

### THE STATE

The State is located in the Midwest among the northernmost tier of states. The State ranks 20th among the states in population and 25th in land area. Wisconsin attained statehood in 1848, its capital is Madison, and its largest city is Milwaukee.

Information concerning the State, its financial condition, and its general obligation debt is included as APPENDIX A, which incorporates by reference Parts II and III of the 2015 Annual Report. APPENDIX A also makes updates and additions to Part II of the 2015 Annual Report, including but not limited to:

- Estimated General Fund condition statement for the 2015-16 and 2016-17 fiscal years and General Fund tax collection projections for the 2015-17 biennium, as included in a memorandum provided by the Legislative Fiscal Bureau (LFB) on January 21, 2016 (January 2016 LFB Report).
- General Fund information for the 2015-16 fiscal year through November 30, 2015, which is presented on either a cash basis or an agency-recorded basis.

Requests for additional information about the State may be directed to:

### THE BONDS

### General

The front cover of this Official Statement sets forth the maturity dates, principal amounts, interest rates, and redemption provisions for the Bonds. The Bonds are being issued in book-entry-only form, so the registered owner will be a securities depository or its nominee. The Commission has appointed, as the securities depository for the Bonds, The Depository Trust Company, New York, New York (DTC). See "THE BONDS; Book-Entry-Only Form".

The Bonds will be dated their date of delivery (expected to be March 16, 2016) and will bear interest from that date, payable on May 1 and November 1 of each year, beginning on November 1, 2016.

Interest on the Bonds will be computed on the basis of a 360-day year of twelve 30-day months. So long as the Bonds are in book-entry-only form, payments of the principal of, and interest on, each Bond will be paid to the securities depository.

The Bonds are being issued as fully-registered bonds in principal denominations of \$5,000 or multiples of \$5,000.

### Security

The Bonds are direct and general obligations of the State. The Wisconsin Constitution pledges the full faith, credit, and taxing power of the State to make principal and interest payments on general obligations, and requires the Legislature to provide for their payment by appropriation. The Wisconsin Statutes establish, as security for the payment of all debt service on general obligations, a first charge upon all revenues of the State. Further, a sufficient amount of those revenues is irrevocably appropriated for the payment of the principal of, and interest on, general obligations, so that no subsequent legislative action is required to release such revenues. The Bonds are secured equally with all other outstanding general obligations issued by the State.

### **Redemption Provisions**

### **Optional Redemption**

The Bonds maturing on or after May 1, 2026 may be redeemed on May 1, 2025, or any date thereafter, in whole or in part in multiples of \$5,000, at a redemption price equal to par (100% of the principal amount to be redeemed), plus accrued interest to the redemption date. The Commission may decide whether to redeem the Bonds, and the Capital Finance Director of the State may direct the amounts and maturities of any Bonds to be redeemed.

### Selection of Bonds

So long as the Bonds are in book-entry-only form, selection of the beneficial owners affected by the redemption will be made by the securities depository and its participants in accordance with their rules.

### Notice of Redemption

So long as the Bonds are in book-entry-only form, any redemption notice will be sent to the securities depository between 30 and 60 days before the redemption date. A redemption notice may be revoked by sending notice to the securities depository at least 15 days before the proposed redemption date.

Interest on any Bond called for redemption will cease to accrue on the redemption date so long as the Bond is paid or money is provided for its payment.

### **Registration and Payment of Bonds**

So long as the Bonds are in book-entry-only form, payment of the principal of, and interest on, the Bonds on the payment date will be made by wire transfer to the securities depository or its nominee by the **Paying Agent**—which is the Secretary of Administration.

### Ratings

The following ratings have been assigned to the Bonds:

<u>Rating</u>	Rating Organization
AA	Fitch Ratings
AA	Kroll Bond Rating Agency, Inc.
Aa2	Moody's Investors Service, Inc.
AA	Standard & Poor's Ratings Services

Any explanation of what a rating means may only be obtained from the rating organization giving the rating. A securities rating is not a recommendation to buy, sell, or hold securities and may be subject to revision or withdrawal at any time. Any downgrade or withdrawal of a rating may adversely affect the market price of the Bonds. The State may elect not to continue requesting ratings on the Bonds from any particular rating organization or may elect to request ratings on the Bonds from a different rating organization.

### **Application of Bond Proceeds**

The Wisconsin Legislature has established the borrowing purposes and amounts for which public debt may be issued. APPENDIX B presents a summary of the borrowing purposes and the amounts both authorized for, and previously attributed to, each borrowing purpose from the proceeds of general obligations (including in some cases purchase premium and interest earnings). APPENDIX B also presents the borrowing purposes and amounts for which the Bond proceeds have been authorized and are being used.

A portion of the Bonds are being issued to fund outstanding general obligation extendible municipal commercial paper notes (EMCP Notes) previously issued by the State. Such Bond proceeds will be transferred to the note fund held by the issuing and paying agent, and will be spent within 90 days of the delivery date of the Bonds to pay the principal of maturing EMCP Notes. The general obligation EMCP Notes are issued under a program resolution that provides that when a deposit is made that is sufficient to pay the principal of and interest on any of the EMCP Notes, then those notes shall be deemed to have been paid and shall cease to be entitled to any benefit under the program resolution.

Bond proceeds will be deposited in the State's Capital Improvement Fund and will be spent as the State incurs costs for the various borrowing or issuance purposes, except that the portion of the proceeds allocable to funding the EMCP Notes will be deposited in the State's Bond Security and Redemption Fund and then transferred to the issuing and paying agent for deposit into the note fund for the funding of the EMCP Notes. Until spent or transferred, the money will be invested by the State of Wisconsin Investment Board.

### **Book-Entry-Only Form**

The Bonds are being initially issued in book-entry-only form. Purchasers of the Bonds will not receive bond certificates but instead will have their ownership in the Bonds recorded in the book-entry system.

Bond certificates are to be issued and registered in the name of a nominee of DTC, which acts as a securities depository for the Bonds. Ownership of the Bonds by the purchasers is shown in the records of brokers and other organizations participating in the DTC book-entry system (**DTC Participants**). All transfers of ownership in the Bonds must be made, directly or indirectly, through DTC Participants.

### Payment

The State will make all payments of principal of, and interest on, the Bonds to DTC. Owners of the Bonds will receive payments through the DTC Participants.

### Notices and Voting Rights

The State will provide any notices or other communications about the Bonds to DTC. Owners of the Bonds will receive any notices or communications through the DTC Participants. In any situation involving voting rights, DTC will not vote but will rather give a proxy through the DTC Participants.

### Redemption

If less than all the Bonds of a given maturity are being redeemed, DTC's practice is to determine by lottery the amount of the Bonds to be redeemed from each DTC Participant.

### Discontinued Service

In the event that participation in DTC's book-entry system were to be discontinued without a successor securities depository being appointed, bond certificates would be executed and delivered to DTC Participants.

### Further Information

Further information concerning DTC and DTC's book-entry system is available at www.dtcc.com. The State is not responsible for any information available on DTC's web site. That information may be subject to change without notice.

The State is not responsible for any failure by DTC or any DTC Participant to transfer payments or notices to the owners of the Bonds or to follow the procedures established by DTC for its book-entry system.

### Redemption and Payment if Bonds Are Not in Book-Entry-Only Form

In the event the Bonds were not in book-entry-only form, how the Bonds are redeemed and paid would differ.

Bonds would be selected for redemption by lot. Any redemption notice would be published between 30 and 60 days before the date of redemption in a financial newspaper published or circulated in New York, New York. The notice would also be mailed, postage prepaid, between 30 and 60 days before the redemption date, to the registered owners of any Bonds to be redeemed. The mailing, however, would not be a condition to the redemption notice could be revoked by publication of a notice at least 15 days before the proposed redemption date in a financial newspaper published or circulated in New York, New York. Any revocation notice would also be mailed, postage prepaid, at least 15 days before the proposed redemption date to the registered owners of any Bonds to have been redeemed. The mailing, however, would not be a condition to the revocation; the revocation would still be effective even if the notice were not mailed. Interest on any Bond called for redemption would cease to accrue on the redemption date so long as the Bond was paid or money was provided for its payment.

Payment of principal would be made by check or draft issued upon the presentation and surrender of the Bonds at the principal office of the Paying Agent, as designated by the Commission. Payment of interest due on the Bonds would be made by check or draft mailed to the registered owner shown in the registration book at the close of business on the record date—which is the 15th day (whether or not a business day) of the calendar month before the interest payment date.

### **OTHER INFORMATION**

### Limitations on Issuance of General Obligations

General obligations issued by the State are subject to debt limits set forth in the Wisconsin Constitution and the Wisconsin Statutes. There is an annual debt limit of three-quarters of one percent, and a cumulative debt limit of five percent, of the aggregate value of all taxable property in the State. Currently, the annual debt limit is \$3,679,519,080, and the cumulative debt limit is \$24,530,127,230. Funding or refunding obligations such as the portion of the Bonds issued to fund the EMCP Notes are not subject to the annual limit but are accounted for in applying the cumulative debt limit. Accrued interest on any obligation that is not paid during the fiscal year in which it accrues is treated as debt and taken into account for purposes of the debt limitations.

As of January 1, 2016, general obligations of the State were outstanding in the principal amount of \$7,988,224,416. The issuance of the Bonds will not cause the State to exceed its annual debt limit or its cumulative debt limit.

### **Borrowing Plans for Calendar Year 2016**

### General Obligations

The Bonds are the second series of general obligations to be issued in calendar year 2016. The State has entered into a bond purchase agreement for \$295 million of general obligation refunding bonds that have an expected delivery date of March 8, 2016. In addition, the Commission has authorized the issuance of the following general obligations:

- Up to \$97 million of additional general obligations for general governmental purposes. The issuance of these additional general obligations is expected to be in the form of variable rate obligations with an initial issuance date in the second quarter of calendar year 2016.
- Up to \$155 million of additional general obligations for the refunding of general obligation bonds previously issued for general governmental purposes. The amount and timing of any sale and issuance of general obligations for refunding purposes depend on market conditions.
- General obligations for the funding of the State's outstanding general obligation commercial paper notes and EMCP Notes, which were outstanding in the amount of \$759 million as of February 1, 2016. This amount will be reduced by approximately \$105 million after the funding of EMCP Notes with proceeds of the Bonds. The amount and timing of any issuance of additional general obligations for this purpose depend on a decision to fund outstanding obligations bearing variable interest rates either with a different form of variable-rate obligation or with bonds bearing a fixed interest rate.

### Other Obligations

The State has not issued any transportation revenue obligations in this calendar year. The Commission has authorized \$375 million of transportation revenue obligations to refund outstanding transportation revenue bonds. The amount and timing of any issuance of transportation revenue refunding bonds depend on market conditions.

The State has not issued any clean water revenue bonds in this calendar year. The Commission has authorized up to \$192 million of clean water revenue refunding bonds. The amount and timing of any issuance of clean water revenue refunding bonds depend on market conditions. As described in Parts VI and VII of the 2015 Annual Report, any new money bonds for the State's Clean Water Fund Program are expected be issued under a new program resolution for environmental improvement fund revenue bonds.

The State has not issued any environmental improvement fund revenue bonds in this calendar year. The amount and timing of any authorization and issuance of environmental improvement fund revenue bonds depend on loan activity in the State's Clean Water Fund Program.

The State does not have authority to issue any general fund annual appropriation bonds for purposes other than refunding outstanding bonds. The amount and timing of any authorization and issuance of general fund annual appropriation refunding bonds in this calendar year depend on market conditions.

The State has not issued any master lease certificates of participation in this calendar year. The amount and timing of any issuance of master lease certificates of participation depend on market conditions and originations in the State's Master Lease Program.

At this time, the State does not expect to issue operating notes for the 2015-2016 fiscal year.

### Underwriting

The Bonds were purchased through competitive bidding on February 24, 2016 by Bank of America Merrill Lynch (**Underwriter**). The Underwriter paid \$358,194,187.85, and its bid resulted in a true-interest-cost rate to the State of 3.233%.

### **Reference Information About the Bonds**

Information about the Bonds is provided for reference in both the following table and the table on the front cover of this Official Statement. The CUSIP number for each maturity has been obtained from a source the State believes to be reliable, but the State is not responsible for the correctness of the CUSIP numbers. The Underwriter has provided the reoffering yields and prices for the Bonds. For each of the Bonds subject to optional redemption, the yield at issuance shown is the lower of the yield to the first optional call date or the yield to the nominal maturity date.

<sup>(a)</sup> These Bonds are priced to the May 1, 2025 first optional call date.

### Legal Investment

State law provides that the Bonds are legal investments for the following:

- Banks, trust companies, bankers, savings banks and institutions, building and loan associations, • savings and loan associations, credit unions, investment companies, and other persons or entities carrying on a banking business.
- Personal representatives, guardians, trustees, and other fiduciaries.
- The State and all public officers, municipal corporations, political subdivisions, and public • bodies.

### **Legal Opinions**

#### **Bond** Opinion

Legal matters relating to the authorization, issuance, and sale of the Bonds are subject to the approval of Bond Counsel, which is Foley & Lardner LLP. When the Bonds are delivered, Bond Counsel will deliver an approving opinion in substantially the form shown in APPENDIX C. If certificated Bonds were issued, then the opinion would be printed on the reverse side of each Bond.

### Attorney General

As required by law, the office of the Attorney General will examine a certified copy of all proceedings leading to issuance of the Bonds. When the Bonds are delivered, the Attorney General will deliver an opinion on the regularity and validity of the proceedings with respect to the Bonds. The Attorney General's opinion will also state that there is no action, suit, or proceeding, either pending or threatened in writing, known to the Attorney General, restraining or enjoining the issuance, sale, execution, or delivery of the Bonds, and there also is no action, suit, or proceeding, either pending or threatened in writing, known to the Attorney General, in any way contesting or affecting (1) the titles to their respective offices of any of the State officers involved in the issuance of the Bonds, (2) the validity of the Bonds or any of the proceedings taken with respect to the issuance, sale, execution, or delivery of the Bonds, or (3) the pledge or application of any moneys or security provided for the payment of the Bonds.

If certificated Bonds were issued, then a certificate of the Attorney General would be printed on the reverse side of each Bond.

### **Tax Exemption**

### Federal Income Tax

In the opinion of Bond Counsel, under existing law, interest on the Bonds is excluded from gross income for federal income tax purposes and is not a specific item of tax preference for purposes of the federal alternative minimum tax imposed on all taxpayers; however, interest on the Bonds is taken into account in determining adjusted current earnings for purposes of computing the alternative minimum tax imposed on certain corporations. The State must comply with certain requirements of the Internal Revenue Code for interest on the Bonds to be, or continue to be, excluded from gross income for federal income tax purposes. The State has agreed to comply with those requirements to the extent it may lawfully do so. Its failure to do so may cause interest on the Bonds to be included in gross income for federal income tax purposes, perhaps even starting from the date on which the Bonds are issued. No provision is made for an increase in interest rates or a redemption of the Bonds in the event interest on the Bonds is included in gross income.

The opinion of Bond Counsel will be based on legal authorities that are current as of its date, will cover certain matters not directly addressed by those authorities, and will represent Bond Counsel's judgment regarding the proper treatment of the Bonds for federal income tax purposes. It will not be binding on the Internal Revenue Service (**IRS**) or the courts and will not be a guaranty of result. As to questions of fact, Bond Counsel will rely upon certified proceedings and certifications of public officials and others without independently undertaking to verify them.

Bond Counsel will express no opinion about other federal tax matters regarding the Bonds. Other federal tax law provisions may adversely affect the value of an investment in the Bonds for particular owners of those Bonds. Prospective investors should consult their own tax advisors about the tax consequences of owning a Bond.

The IRS has an active tax-exempt bond enforcement program. Under current IRS procedures, owners of the Bonds would have little or no right to participate in an IRS examination of the Bonds. Moreover, it may not be practicable to obtain judicial review of IRS positions with which the State disagrees. Any action of the IRS, including selection of the Bonds for examination, the conduct or conclusion of such an examination, or an examination of obligations presenting similar tax issues, may affect the marketability of the Bonds.

Current and future legislative proposals, if enacted into law, may cause the interest on the Bonds to be subject, directly or indirectly, to federal income taxation or otherwise prevent the owners of the Bonds from realizing the full current benefit of the tax status of such interest. The introduction or enactment of any such legislative proposals may also affect the marketability of the Bonds. Prospective investors should consult their own tax advisors about federal legislative proposals.

### State of Wisconsin Income and Franchise Taxes

Interest on the Bonds is not exempt from current State of Wisconsin income or franchise taxes. Prospective investors should consult their own tax advisors about the state and local tax consequences of owning a Bond.

### Premium Bonds

Under existing law, no deduction is allowed for any amortizable bond premium on the Bonds. The excess of the issue price over the principal amount of that Bond is the amortizable bond premium. The issue price of the Bonds having a common maturity date and interest rate generally is the initial offering price to the public, excluding underwriters or other intermediaries, at which price a substantial amount of such maturity of the Bonds were first sold. Based on representations from the Underwriter, the State expects the issue price of each maturity of the Bonds to be the Price at Issuance set forth in the table under "OTHER INFORMATION; Reference Information About the Bonds".

During each taxable year, an owner of Bonds with amortizable bond premium must reduce his, her, or its tax basis in the Bond by the amount of the amortizable bond premium that is allocable to the portion of that taxable year during which the owner owned the Bond. The adjusted tax basis in a Bond will be used to determine taxable gain or loss upon a disposition (for example, upon a sale, exchange, redemption, or payment at maturity) of the Bond.

Owners of Bonds purchased at a premium should consult their own tax advisors with respect to the federal tax consequences of owning such Bonds, including computation of their tax basis and the effect of any purchase of Bonds that is not made in the initial offering at the issue price. Owners of such Bonds should also consult their own tax advisors with respect to the state and local tax consequences of owning those Bonds.

### **CONTINUING DISCLOSURE**

The State has made an undertaking, for the benefit of the beneficial owners of the Bonds, to provide an annual report presenting certain financial information and operating data about the State (Annual **Reports**). By December 27 of each year, the State will file the Annual Report with the Municipal Securities Rulemaking Board (MSRB) through its Electronic Municipal Market Access (EMMA) system. The State will also provide to the MSRB notices of the occurrence of certain events specified in the undertaking. Part I of the 2015 Annual Report, which contains information on the undertaking, is included by reference as part of this Official Statement.

Copies of the Annual Reports and notices may be obtained from:

State of Wisconsin Department of Administration Attn: Capital Finance Office 101 East Wilson Street, FLR 10 P.O. Box 7864 Madison, WI 53707-7864 (608) 267-0374 DOACapitalFinanceOffice@wisconsin.gov www.doa.wi.gov/capitalfinance

The undertaking also describes the consequences if the State fails to provide any required information. The State must report the failure to the MSRB. In the last five years, the State has not failed to comply in any material respect with this, or any similar, undertaking. During that period, rating agencies have changed their respective ratings with respect to various bond insurers. Certain obligations previously issued by the State were insured by policies issued by these bond insurers, and the State did not file notice of those rating changes, based on a determination that the changes were not material. On July 31, 2014, the State filed with the MSRB through its EMMA system, as a technical clarification, a written notice of

those rating changes of bond insurers where the rating before the change was above the underlying rating of the respective State obligations.

Dated: February 24, 2016

### STATE OF WISCONSIN

/s/ SCOTT WALKER

Governor Scott Walker, Chairperson State of Wisconsin Building Commission

/s/ SCOTT A. NEITZEL

Scott A. Neitzel, Secretary State of Wisconsin Department of Administration

/s/ SUMMER R. STRAND

### APPENDIX A

### INFORMATION ABOUT THE STATE

This Appendix includes by reference information concerning the State of Wisconsin (**State**) and its general obligations, contained in Parts II and III of the State of Wisconsin Continuing Disclosure Annual Report, dated December 23, 2015 (**2015 Annual Report**), which can be obtained as described below. This Appendix also makes updates and additions to the information presented in Part II of the 2015 Annual Report, including but not limited to:

- Estimated General Fund condition statement for the 2015-16 and 2016-17 fiscal years and General Fund tax collection projections for the 2015-17 biennium, as included in a memorandum provided by the Legislative Fiscal Bureau (LFB) on January 21, 2016 (January 2016 LFB Report).
- General Fund information for the 2015-16 fiscal year through November 30, 2015, which is presented on either a cash basis or an agency-recorded basis.

Part II of the 2015 Annual Report contains general information about the State. More specifically, that part presents information about the following matters:

- State's revenue and expenditures
- State's operations, financial procedures, accounting, and financial reporting
- Organization of, and services provided by, the State
- Budget process and fiscal controls
- State budget (including results of fiscal year 2014-15 and State budget for the 2015-17 biennium)
- Potential effects of litigation
- State obligations
- Employee pension funds and other post-employment benefits
- State Investment Board
- Statistical information about the State's population, income, and employment

Included as APPENDIX A to Part II of the 2015 Annual Report are the audited general purpose external financial statements for the fiscal year ending June 30, 2015, prepared in conformity with generally accepted accounting principles (GAAP) for governments as prescribed by the Government Accounting Standards Board, and the independent auditor's report provided by the State Auditor.

Part III of the 2015 Annual Report contains information concerning general obligations issued by the State. That part discusses the security provisions for general obligations (including the flow of funds to pay debt service on general obligations) and presents data about the State's outstanding general obligations and the portion of outstanding general obligations that is revenue supported.

The 2015 Annual Report was filed with the Municipal Securities Rulemaking Board (MSRB) through its Electronic Municipal Market Access (EMMA) system, and also is available from the part of the Capital Finance Office web site called "Official Disclosure for Bonds, Notes, and Other Securities Issued by the State of Wisconsin." The Capital Finance Office web site is located at the following address:

www.doa.wi.gov/capitalfinance

Copies of the 2015 Annual Report may also be obtained from:

State of Wisconsin Department of Administration Capital Finance Office 101 E. Wilson Street, FLR 10 P.O. Box 7864 Madison, WI 53707-7864 (608) 267-0374 DOACapitalFinanceOffice@wisconsin.gov

The State independently provided, from July 2001 to June 2013, monthly reports on general fund financial information. The State did not provide these monthly reports from June 2013 through March 2014, and the frequency of the reports provided during calendar year 2015 was less than monthly. These monthly reports are not required by any of the State's undertakings to provide information concerning the State's securities. These monthly reports are available on the State's Capital Finance Office web site that is listed above and also were filed as additional voluntary information with the MSRB through its EMMA system; however, the reports are not incorporated by reference into this Official Statement or Part II of the 2015 Annual Report. The State is not obligated to provide such monthly reports at any time in the future.

After publication and filing of the 2015 Annual Report, certain changes or events occurred that affect items discussed in the 2015 Annual Report. Listed below, by reference to particular sections of Part II of the 2015 Annual Report, are changes or additions to the discussions contained in those particular sections. Many of the following changes or additions have not been filed with the MSRB. However, the State has filed, and expects to continue to file, informational notices with the MSRB, some of which may be notices that are not required to be filed under the State's undertakings.

**State Budget; Budget for 2015-17 Biennium** and **2015-17 General Fund Tax Collections** (Part II; Pages 34-36). Update with the following information:

### January 2016 LFB Report

On January 21, 2016, LFB released a memorandum that includes an updated General Fund condition statement and estimated General Fund tax revenues for each fiscal year of the 2015-17 biennium. The General Fund condition statement projections included in the January 2016 LFB Report show net ending balances at the end of the 2015-16 fiscal year of \$219 million, and at the end of the 2016-17 fiscal year of \$70 million. These amounts are both greater than the 2015-17 biennial budget estimates - by \$122 million for the 2015-16 fiscal year and \$4 million for the 2016-17 fiscal year.

The table on the following page includes the estimated General Fund condition statement for each year of the 2015-17 biennium. The table also includes, for comparison, the estimated General Fund condition statement for each year of the 2015-17 biennium, as included in the 2015-17 biennial budget (2015 Wisconsin Act 55).

The estimated General Fund tax revenues included in the January 2016 LFB Report are \$15.176 billion for the 2015-16 fiscal year, or a decrease of \$32 million from the amounts included in the 2015-17 biennial budget, and \$15.656 billion for the 2016-17 fiscal year, or a decrease of \$136 million from the amounts included in the 2015-17 biennial budget.

A complete copy of the January 2016 LFB Report is included as part of this Official Statement at the end

of this Appendix A. In addition, the State has filed the January 2016 LFB Report with the MSRB through its EMMA system, and a copy is available at the addresses included on pages A-1 and A-2.

**General Fund Information; General Fund Cash Flow** (Part II; Pages 43-55). The following tables provide updates and additions to various tables containing General Fund information for the 2015-16 fiscal year, which are presented on either a cash basis or an agency-recorded basis. Unless otherwise noted, these tables contain information through November 30, 2015.

The comparison of monthly General Fund information that is presented on a cash basis has many inherent problems. Unforeseen events or variations from underlying assumptions may cause a decrease or increase in receipts and disbursements from those projected for any specific month. The following tables may show negative balances on a cash basis. The State can have a negative cash balance at the end of a fiscal year.

The Wisconsin Statutes provide certain administrative remedies to deal with periods when the General Fund is in a negative cash position. The Secretary of Administration may temporarily reallocate cash in other funds to the General Fund in an amount up to 9% of the general-purpose revenue appropriations then in effect and may also temporarily reallocate for a period of up to 30 days an additional amount up to 3% of the general-purpose revenue appropriations then in effect.

If the amount available for temporary reallocation to the General Fund is not sufficient, then the Secretary of Administration is authorized to set priorities for payments from the General Fund and to prorate or defer certain payments.

### ACTUAL GENERAL FUND CASH FLOW; JULY 1, 2015 TO NOVEMBER 30, 2015 PROJECTED GENERAL FUND CASH FLOW; DECEMBER 1, 2015 TO JUNE 30, 2016<sup>(a)</sup>

(Amounts in Thousands)

(a) The results, projections, or estimates in this table reflect the enacted budget for the 2015-17 biennium (2015 Wisconsin Act 55) and the estimated General Fund tax revenues included in the January 2015 LFB Report. The May 2015 LFB Memorandum notes, while not quantified, that the growth rate for General Fund tax collections in the 2015-16 fiscal year may be reduced. The projections or estimates in this table do not reflect the estimated General Fund tax revenues included in the January 2016 LFB Report and does not include any temporary reallocations of cash.

(b) The General Fund cash balances presented in this schedule are not based on generally accepted accounting principles (GAAP). The General Fund includes funds designated for operations and capital purposes of certain proprietary programs of the State's universities. Receipts and disbursements of such funds for the designated programs and the disbursement of such funds for other purposes are reflected in the cash flow. A use of the designated funds for purposes other than the proprietary programs is, in effect, a borrowing of such funds. Therefore, at any time that the balance in the General Fund is less than the balance of such designated funds, the State is obligated to replenish the designated funds to the extent of the shortfall. The ending monthly balances of designated funds ranged from \$1.9 billion to \$1.9 billion to \$1.9 billion for the 2014-15 fiscal year, and are expected to range from \$1.0 billion to \$1.8 billion for the 2015-16 fiscal year. In addition, the General Fund holds deposits for several escrow accounts pursuant to court orders or federal rulings. These funds are expected to average approximately \$25 million during the 2015-16 fiscal year.

(c) The Wisconsin Statutes provide certain administrative remedies to deal with periods when the General Fund may be in a negative cash position. The Secretary of Administration may temporarily reallocate cash in other funds to the General Fund in an amount up to 9% of the total general-purpose revenue appropriations then in effect with an additional amount up to 3% for a period of up to 30 days. The resulting amounts available for temporary reallocation in the 2015-16 fiscal year are approximately \$1.430 billion and \$477 million, respectively. If the amount available for temporary reallocation to the General Fund is not sufficient, then the Secretary of Administration is authorized to set priorities for payments from the General Fund and to prorate and defer certain payments.

(a) None of the data presented here has been subjected to customary fiscal period closing procedures or other procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments. In addition, comparison of monthly General Fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month.

(b) The results, projections, and estimates in this table for the 2015-16 fiscal year reflect the budget bill for the 2015-17 biennium (2015 Wisconsin Act 55), but do not reflect the estimated General Fund tax revenues included in the January 2016 LFB Report.

(c) Changes are sometimes made after the beginning of the fiscal year to the projected revenues and disbursements. Depending on when these changes occur, there are situations in which prior estimates cannot be changed, which may result in large variances. This column includes adjustments to the variances, if any, to more accurately reflect the variance between the estimated and actual amounts.

### Table II-13: General Fund Monthly Cash Position (Part II; Page 50). Replace with the following updated table.

<sup>(a)</sup> The General Fund balances presented in this table are not based on generally accepted accounting principles (GAAP). <sup>(b)</sup> The results, projections, or estimates in this table for the 2015-16 fiscal year reflect the budget bill for the 2015-17

biennium, but do not reflect the estimated General Fund tax revenues included in the January 2016 LFB Report. <sup>(c)</sup> Operating notes were not issued for the 2013-14 and 2014-15 fiscal years, and have not been issued for the 2015-16

fiscal year.

<sup>(d)</sup> At some period during this month, the General Fund was in a negative cash position. The Wisconsin Statutes provide certain administrative remedies for periods when the General Fund is in a negative cash position. The Secretary of Administration may temporarily reallocate cash in other funds to the General Fund up to 9% of the total general purpose revenue appropriations then in effect. For the 2014-15 fiscal year, this amount was \$1.429 billion, and for the 2015-16 fiscal year this amount is projected to be \$1.430 billion. In addition, the Secretary of Administration may also temporarily reallocate an additional amount of up to 3% of total general purpose revenue appropriations for a period of up to 30 days. For the 2014-15 fiscal year, this amount was \$476 million, and for the 2015-16 fiscal year this amount is projected to be \$477 million. If the amount available for temporary reallocation to the General Fund is insufficient, then the Secretary of Administration is authorized to set priorities for payments from the General Fund and to prorate or defer certain payments.

## **Table II-14; Cash Balances in Funds Available for Temporary Reallocation** (Part II; Page 51). Replace with the following updated table.

### CASH BALANCES IN FUNDS AVAILABLE FOR TEMPORARY REALLOCATION<sup>(a)</sup> July 31, 2013 to November 30, 2015 – Actual December 31, 2015 to June 30, 2016 – Estimated (Amounts in Millions)

The following two tables show, on a monthly basis, the cash balances available for temporary reallocation. The first table does not include balances in the Local Government Investment Pool (LGIP), and the second table does include such balances. Though the LGIP is available for temporary reallocation, funds in the LGIP are deposited and withdrawn by local units of government and thus are outside the control of the State. The monthly average daily balances in the LGIP for the past five years have ranged from a low of \$2.113 billion during November 2011 to a high of \$3.464 billion during February 2013. The Secretary of Administration may not exercise the authority to make temporary reallocation if doing so would jeopardize the cash flow of any fund or account from which the temporary reallocation would be made.

### GENERAL FUND RECORDED REVENUES<sup>(a)</sup> (Agency-Recorded Basis) July 1, 2015 to November 30, 2015 Compared With Previous Year

(a) The revenues in this table are presented on an agency-recorded basis and not a budgetary basis. None of the data presented in this table has been subjected to customary fiscal period closing procedures or other procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments.

<sup>(b)</sup> The amounts are from the Annual Fiscal Report (budgetary basis) for the 2014-15 fiscal year, dated October 15, 2015.

<sup>(c)</sup> The results, projections, or estimates included in this table on an agency-recorded basis reflect the 2015-17 biennial budget (2015 Wisconsin Act 55), but do not reflect the estimated General Fund tax revenues included in the January 2016 LFB Report.

- (d) The amounts shown are 2014-15 fiscal year revenues as recorded by all State agencies. There may be differences between the tax revenues shown in this table and those reported by the Wisconsin Department of Revenue (DOR) from time to time in its monthly general purpose revenue collections report; the DOR report only includes general purpose revenues or taxes that are actually collected by DOR.
- (e) The amounts shown are 2015-16 fiscal year general purpose revenues and program revenue taxes collected across all State agencies. There may be differences between the tax revenues shown in this table and those reported by DOR from time to time in its monthly general purpose revenue collections report; the DOR report only includes general purpose revenues or taxes that are actually collected by DOR.
- <sup>(f)</sup> This category includes intergovernmental transfers. The amount of these transfers may vary greatly between fiscal years, and therefore this category may not be comparable on a historical basis.
- <sup>(g)</sup> Certain transfers between General Fund appropriations are recorded as both revenues and expenditures of the General Fund. The amount of these transfers may vary greatly between fiscal years, and therefore this category may not be comparable on a historical basis.

<sup>(e)</sup> The amounts shown are 2015-16 fiscal year expenditures as recorded by all State agencies.

## **Legislative Fiscal Bureau**

Robert Wm. Lang, Director

One East Main, Suite 301 • Madison, WI 53703 Email: Fiscal.Bureau@legis.wisconsin.gov Telephone: (608) 266-3847 • Fax: (608) 267-6873

State of Wisconsin

January 21, 2016

Representative John Nygren, Assembly Chair Senator Alberta Darling, Senate Chair Joint Committee on Finance State Capitol Madison, WI 53702

Dear Representative Nygren and Senator Darling:

Early each year, this office conducts a review of the status of the state's general fund and presents its findings to the Legislature. In even-numbered years, the analysis includes an examination of economic forecasts and tax collection and expenditure data of the current fiscal year, and projections for each fiscal year of the current biennium. We have now completed that review.

Based upon our analysis, we project the closing, net general fund balance at the end of this biennium (June 30, 2017) to be \$70.2 million. This is \$94.3 million below the \$164.5 million balance that was estimated prior to our review. The \$164.5 million balance includes all bills enacted to date in this legislative session (through 2015 Act 126).

The \$94.3 million reduction is the net result of: (1) a decrease of \$158.2 million in estimated tax collections; (2) an increase in departmental revenues of \$6.3 million; (3) a decrease of \$87.1 million in sum sufficient appropriation expenditures; and (4) a \$29.5 million decrease in estimated lapses to the general fund.

The following table reflects the 2015-17 general fund condition statement, which incorporates our revenue and expenditure projections.

### TABLE 1

### 2015-17 General Fund Condition Statement

Revenues	<u>2015-16</u>	2016-17
Opening Balance, July 1	\$135,555,000	\$283,990,800
Taxes	15,175,600,000	15,655,700,000
Departmental Revenues		
Tribal Gaming Revenues	25,605,000	24,705,800
Other	518,042,900	513,953,700
Total Available	\$15,854,802,900	\$16,478,350,300
Appropriations, Transfers, and Reserves Gross Appropriations Sum Sufficient Reestimates Transfer to Transportation Fund Compensation Reserves Less Lapses Net Appropriations	\$15,896,434,700 -40,252,300 38,009,600 10,692,500 -334,072,400 \$15,570,812,100	17,058,396,000 -46,884,300 39,458,300 18,616,800 -726,425,200 \$16,343,161,600
Balances		
Gross Balance	\$283,990,800	\$135,188,700
Less Required Statutory Balance	-65,000,000	-65,000,000
Net Balance, June 30	\$218,990,800	\$70,188,700

Net appropriations are projected to decrease by \$57.6 million (a decrease of \$87.1 million of sum sufficient expenditures offset by a \$29.5 million reduction in estimated lapses). Significant factors in this estimate include a reduction in homestead tax credits for the biennium (-\$19.5 million) and earned income tax credits (-\$4.9 million). In addition, debt service is projected to be \$18.8 million lower than previously anticipated.

The following additional points should be noted about Table 1. First it incorporates the fiscal effects of all bills enacted to date in the current legislative session (through 2015 Act 126). Second, it does not reflect the impact of any bills that are pending before the Legislature that have not yet been enacted.

Finally, it does not reflect any changes to the appropriations for the medical assistance (MA) program, or assume any lapses of unexpended GPR from those appropriations. 2015 Act 55 (the 2015-17 budget act) allocated \$5.6 billion GPR for MA benefits over the 2015-17 biennium. Statutes require the Department of Health Services to submit a quarterly report to the Joint Committee on Finance on the status of the MA budget, based on actual expenditures and updated program information. The most recent report, dated December 30, 2015, projects a biennial GPR surplus in the MA budget of \$72.6 million (approximately 1.3% of the total MA).

GPR budget). This is due mainly to lower-than-expected enrollment in the program over the first half of 2015-16, and an increase in the projected federal matching rate for federal fiscal year 2016-17. As the biennium progresses, projected MA expenditures will change due to fluctuations in program enrollment, average benefit costs, federal revenue, and other factors. Through the Department's quarterly reports, the Legislature will be able to monitor the fiscal status of the program and react to any modifications, if necessary, prior to the conclusion of the biennium.

### **General Fund Taxes**

The following section presents information regarding general fund taxes for the 2015-17 biennium, including a discussion of the national economic forecast and general fund tax revenue estimates for fiscal years 2015-16 and 2016-17.

**National Economic Review and Forecast.** This office prepared revenue estimates for the 2015-17 biennium in January, 2015, based on IHS Global Insight, Inc.'s January, 2015, forecast for the U.S. economy. The forecast predicted accelerated economic growth in 2015, primarily due to lower gasoline prices, income gains, and positive consumer sentiment. Slower, positive growth was predicted for 2016 and 2017. Under that forecast, Global Insight assumed that the Federal Reserve would begin increasing the federal funds rate in June of 2015, and that Congress would pass legislation to increase the debt ceiling prior to mid-March. In addition, the forecast assumed that the Brent spot price for oil would average \$64/barrel in 2015, reaching its lowest level during the second quarter of 2015, and that the trade-weighted value of the dollar would appreciate by 5.7% in 2015. The primary risk to the forecast was a slowdown in Chinese and European economies that could create downward pressure on growth in the U.S. economy.

In May, our office reviewed additional tax collection data and Global Insight's April economic forecast and did not revise revenue estimates for 2014-15, 2015-16, or 2016-17. Our office noted that it was possible that additional revenues would be realized in 2014-15, but that any excess collections in that year would likely be offset by reduced growth rates for personal income and personal consumption expenditures in the following two years. General fund tax collections in 2014-15 were \$71.4 million above estimated amounts, which was 0.5% higher than aggregate general fund tax collection estimates for that year.

Economic growth in 2015 was somewhat slower than projected last January. Real (inflation-adjusted) growth in U.S. gross domestic product (GDP) is now estimated at 2.4% in 2015, which is lower than the projection of 3.1% for that year. The U.S. dollar appreciated faster in 2015 compared to foreign currencies, caused by expansionary monetary policy among major trading partners and lower than expected growth among emerging markets. The stronger dollar contributed to downward pressure on U.S. exports and domestic production. Global Insight expected declining oil prices (which decreased faster and for a longer period of time than forecast) to provide consumers with additional disposable income to spend on other goods and services. However, oil refinery shutdowns in California and Chicago tightened the supply of refined gasoline, causing pump prices for consumers to fall at a slower rate than the declining price of crude oil. In addition, consumers chose to save a larger portion of their reduced energy costs than Global Insight had expected, lowering the personal consumption growth rate to 3.4% in 2015 rather than the previously forecasted rate of 3.9%. In response to slower growth, the Federal Reserve did not increase the federal funds target rate until December of 2015, six months

after Global Insight had projected.

Global Insight expects underlying domestic economic growth in employment, consumer spending, and housing to offset declines in manufacturing that are expected to be caused by weak international demand and an increased value of the U.S. dollar. Under the current (January, 2016) forecast, Global Insight expects real GDP growth of 2.7% in 2016 and 2.9% in 2017. The revised forecast is based on the following key assumptions. First, the outlook incorporates changes from recently enacted federal spending and tax bills and assumes that: (1) the federal tax on high-premium insurance plans will be postponed until 2020; (2) the federal gasoline tax will remain at its current level through the forecast period; (3) grants-in-aid to state and local government and local highway spending will be higher than previously forecast; and (4) accelerated depreciation allowances on equipment will be made permanent, rather than sunset after 2019. Second, the Federal Reserve will increase its target for the federal funds rate at a steady, moderate pace until it reaches 3.25% by the end of 2018. Third, real GDP growth over the next decade will average 1.8% per year among major currency partners and 3.6% among other important trading partners. Fourth, the average price of oil will decline from \$54/barrel in 2015 to \$48/barrel in 2016 before increasing to \$58/barrel in 2017. Finally, the inflationadjusted, trade-weighted value of the dollar is expected to continue appreciating against the U.S.'s broad index of trading partners through the first half of 2016, at which point the dollar is expected to be 17.7% higher than its average value in the second half of 2014, and then begin a steady decline over the remainder of the forecast period.

*GDP*. Real GDP is now projected to grow 2.7% in 2016 and 2.9% in 2017. The revised forecast maintains the same growth rate in 2016 and a slightly higher growth rate compared to the January, 2015, forecast of 2.7% in 2017. The expectations for nominal (current-dollar) GDP growth are slightly lower in 2016 and slightly higher in 2017 as compared to the prior forecast, changing from 4.6% in 2016 and 2017 to 4.4% in 2016 and 4.9% in 2017. As noted previously, both real and nominal GDP growth in 2015 were lower than had been previously forecast by 0.7 percentage points and 1.4 percentage points, respectively.

*Consumer Prices.* The Consumer Price Index (CPI) rose by 0.1% in 2015, which was the same as had been anticipated by Global Insight last January. CPI is expected to rise 1.2% in 2016 and 2.6% in 2017. The revised forecast is significantly lower than the prior forecast in 2016, which expected the CPI to increase by 2.3%, and slightly higher than the prior forecast of 2.4% for 2017. The previous forecast expected energy prices to increase in 2016, following declining prices in 2015. However, the current forecast expects prices for energy and commodities to continue to fall in 2016, providing a larger offset against higher prices for food and services than was previously forecast. The higher CPI growth in 2017 reflects Global Insight's expectation that energy prices will increase faster in that year than under the previous forecast.

Monetary Policy. The U.S. Federal Reserve increased its target range for the federal funds rate of 0.25% to 0.50% at its mid-December meeting. The Fed had maintained its previous target for the federal funds rate of 0% to 0.25% since December, 2008, and this was the first rate increase by the Fed since June, 2006. The Fed has expressed confidence that inflation will rise, over the medium term, to its 2% objective and that the labor market has shown considerable improvement over the course of the year. However, the Fed noted that continued low prices for energy and non-energy imports in the near term could result in a lower level of inflation.

Global Insight projects that the Fed will gradually increase rates during the forecast period, with the average federal funds rate rising from 0.13% in 2015 to 0.90% in 2016 and 1.91% in 2017. These rates are lower than Global Insight's prior forecast, which projected the average federal funds rate to rise to 0.44% in 2015, 1.56% in 2016, and 3.33% in 2017. The lower federal funds rate projections, in part, reflect that the Fed first increased rates in December instead of June, as previously forecast.

*Personal Consumption.* Nominal consumption expenditures rose by 3.4% in 2015, which is lower than the 3.9% projection under the prior forecast. Sales of items generally subject to the state sales tax (most durable goods, clothing, restaurant meals and accommodations, and other taxable nondurable goods and services) grew by 4.3% in 2015, led by strong growth in sales of new light trucks and motor vehicle leasing services. Sales of nontaxable items (food for home consumption, gasoline, certain medical equipment and products, and most services) grew by 3.0% in 2015, with growth in expenditures for most services offsetting the reduction in gasoline expenditures. Nominal expenditures for taxable and nontaxable goods and services were projected under the prior forecast to be 4.7% and 3.5%, respectively, in 2015. As previously noted, lower gasoline prices did not result in as much of an increase in spending on other items as was previously forecast by Global Insight, with consumers choosing to increase savings.

The forecast expects consumption growth of 4.1% in 2016 and 5.2% in 2017, which is considerably lower in 2016 and slightly higher in 2017 than the prior projection of 4.9% in both years. Growth in purchases of items subject to the sales tax is projected to be 4.3% in 2016 and 5.4% in 2017. Sales of nontaxable goods and services are projected to follow a similar growth pattern, increasing 3.9% in 2016 and 5.2% in 2017. As compared to the previous forecast, growth in purchases of nontaxable goods and services are significantly lower for 2016, primarily due to the expectation that expenditures on gasoline, natural gas, and other energy goods will continue to decline in that year rather than increase as had been previously predicted.

*Personal Income.* Personal income grew by 4.5% in 2015, which was slightly faster than the 4.4% growth that was previously projected. Global Insight expects personal income growth of 4.2% in 2016 and 5.2% in 2017, which is lower than the previous forecast of 5.0% in 2016 and 5.5% in 2017. The downward revision for personal income growth in 2016 reflects reduced expectations for growth in wages and salaries, personal dividend interest, personal income, and proprietors' farm income.

Personal income is a proxy for adjusted gross income (AGI), which is the basis for calculating individual income taxes. However, not all components of personal income are included in AGI. Wage and salary income is the largest component of both measures, and forecasted growth rates for wages and salaries are 4.2% in 2016 and 5.2% in 2017. These percentages represent downward revisions to the previous forecast, which predicted growth rates of 5.0% for 2016 and 5.5% for 2017. AGI also includes farm and nonfarm proprietors' income, rental income, personal dividend income, personal interest income, and transfer payments from businesses to individuals, and the current forecast predicts combined growth rates of 2.9% in 2016 and 5.2% in 2017 for these personal income components. These rates compare to 5.7% for 2016 and 6.9% for 2017 under the previous forecast. It should be noted that these personal income components also have a nontaxable component since personal income includes a small amount of imputed income. In addition, AGI includes certain components that are not included

in personal income.

*Employment.* Expectations for the national unemployment rate, which is a function of both the number of jobs and the number of labor market participants, improved under Global Insight's most recent forecast. The average unemployment rate was 5.3% in 2015, which is lower than the prior forecast of 5.5%. The average unemployment rate is expected to decline to 4.9% in 2016 and remain at that level in 2017, which is lower than the previous forecast of 5.3% in 2016 and 5.2% in 2017. The labor force participation rate has declined each year from a peak of 64.6% in 2006 to 61.3% in 2015. However, this trend is expected to reverse beginning in 2016, with the labor force participation rate increasing to 61.6% in that year and to 61.8% in 2017. These rates are slightly lower than projected last January.

Total nonfarm payrolls increased by an estimated 243,000 per month in 2015, and are projected to increase by 198,000 per month in 2016 and 155,000 per month in 2017. These projections are similar to the prior forecast. Private sector payrolls are expected to grow by 1.9% in 2016 and 1.4% in 2017, and public sector payrolls are expected to grow by 0.4% in 2016 and 0.6% in 2017.

*Housing.* The average interest rate for a conventional 30-year fixed rate mortgage was 3.9% in 2015, and is projected to increase to 4.4% in 2016 and 4.7% in 2017. These projections are lower than Global Insight's previous forecast of 4.4% in 2015, 5.4% in 2016, and 6.1% in 2017. Compared to the previous forecast, the lowered projections reflect delayed rate increases by the Federal Reserve.

Housing starts increased 110,000 in 2015 to 1.11 million, and are expected to increase to 1.26 million in 2016 and 1.42 million in 2017. These projections are lower than Global Insight's previous projections, which expected housing starts to reach 1.50 million by 2017. Similarly, growth in sales of new and existing houses has been revised downward from the previous forecast, with estimated growth of 6.5% in 2015, 3.2% in 2016, and 3.6% in 2017. Under the prior forecast, new and existing home sales were projected to grow by 10.4% in 2015 and 7.4% in 2016, and then fall by 1.3% in 2017. Although the growth rate in 2017 has improved under the revised forecast, overall sales of new and existing homes are projected to be 165,000 units lower in that year than under the previous forecast. It should also be noted that sales of new and existing homes and the number of housing starts in 2015 remain 32% and 46% below their 2005 peak levels, respectively, and are not expected to exceed those levels over the forecast period.

Global Insight estimates that home prices contracted by 0.4% in 2015, which is lower than the 4.4% growth that had been projected in the prior forecast. Home prices are expected to recover over the forecast period, with projected growth of 4.1% in 2016 and 4.4% in 2017. The revised estimates project higher growth rates over the next two years compared to Global Insight's previous forecast, which expected growth in home prices of 2.0% in 2016 and 3.6% in 2017.

*Corporate Profits.* Economic profits are estimated to have declined 1.6% in 2015, but are anticipated to grow by 4.0% in 2016 and 2.8% in 2017. Global Insight had previously forecast growth of 10.6% in 2015 and 1.8% in 2016, followed by a contraction of 3.9% in 2017. Before-tax book profits grew 4.6% in 2015, which was lower than the prior growth forecast of 5.5%.

Growth in before-tax book profits is now estimated at 2.8% in 2016 and -0.2% in 2017, which is higher growth than was projected in the January, 2015, forecast of -0.1% in 2016 and -5.8% in 2017. The before-tax profits estimates are significantly affected by federal law changes regarding bonus depreciation.

*Business Investment.* Business investment in equipment grew at a rate of 4.5% in 2015, and is expected to grow 5.5% in 2016 and 7.2% in 2017. These estimates are lower than Global Insight's previous forecast, which anticipated growth of 7.8% in 2015 and 7.6% in 2016, but higher than the previous forecast for growth in 2017 of 5.8%. According to Global Insight, the slower near-term growth rate is primarily caused by capital spending cutbacks among companies that are exposed to foreign competition, low oil and gas prices, and falling agricultural prices.

Intellectual property investment for software, another indicator of business investment, grew by 4.9% in 2015 and is expected to grow at slower rates over the forecast period of 4.5% in 2016 and 5.0% in 2017. In the January, 2015, forecast, intellectual property investment was expected to grow by 7.2% in 2015, 7.1% in 2016, and 6.8% in 2017.

Business investment in nonresidential structures contracted 1.7% in 2015, and is expected to grow by 3.6% in 2016 and 5.6% in 2017. Under the previous forecast, growth was projected at 0.3% in 2015, 6.1% in 2016, and 11.9% in 2017. The downward revision to the forecast reflects significant reductions in investment for mining and petroleum structures, which contracted by more than twice the rate that had been previously forecast for 2015 and is expected to continue contracting by nearly 25% in 2016.

International Trade. In 2015, exports decreased by \$88.4 billion (3.8%) compared to reduced imports of \$93.0 billion (3.2%), which decreased the U.S. trade deficit by \$4.6 billion. Weak foreign growth and a stronger dollar contributed to lower exports, but were offset by a steep decline in imports of petroleum products due to low oil prices. The trade deficit improved less than was expected in the prior forecast, which anticipated a reduction of \$124.1 billion in 2015. Global Insight expects the trade deficit to decline by an additional \$58.3 billion in 2016 before reversing direction in 2017, when net imports are expected to increase by \$84.9 billion. The declining trade deficit in 2016 under the current forecast is primarily due to continued reductions in petroleum imports coupled with improved growth in exports of services.

According to Global Insight, weak foreign growth coupled with continued U.S. growth resulted in the trade-weighted value of the dollar appreciating against all major currency and other important trading partners (except for those pegged to the U.S. dollar) in 2015. The dollar appreciated against major currency trading partners by 19.6% and against other important trading partners by 11.5% in 2015, which is substantially higher than the prior forecast that the dollar would appreciate 10.7% against major currency trading partners and 3.8% against other important trading partners. The dollar was expected to depreciate in value against all other currencies in 2016 and 2017 under Global Insight's prior forecast. However, the current forecast expects the trade-weighted value of the dollar to continue to appreciate by 5.6% against major currency trading partners in 2016, but then depreciate by 7.5% and 1.5%, respectively, in 2017.

The revised projections outlined above, which reflect Global Insight's baseline forecast, are

### TABLE 2

### Summary of National Economic Indicators IHS Global Insight, Inc., Baseline Forecast January, 2016 (\$ in Billions)

	<u>2014</u>	<u>2015</u>	<u>2016</u>	<u>2017</u>
Nominal Gross Domestic Product	\$17,348.1	\$17,951.1	\$18,743.4	\$19,668.4
Percent Change	4.1%	3.5%	4.4%	4.9%
Real Gross Domestic Product	\$15,961.7	\$16,346.8	\$16,780.6	\$17,274.5
Percent Change	2.4%	2.4%	2.7%	2.9%
Consumer Prices (Percent Change)	1.6%	0.1%	1.2%	2.6%
Personal Income	\$14,694.2	\$15,359.7	\$15,998.1	\$16,825.4
Percent Change	4.4%	4.5%	4.2%	5.2%
Personal Consumption Expenditures	\$11,865.9	\$12,269.8	\$12,767.5	\$13,435.9
Percent Change	4.2%	3.4%	4.1%	5.2%
Economic Profits	\$2,072.9	\$2,040.7	\$2,122.8	\$2,181.5
Percent Change	1.7%	-1.6%	4.0%	2.8%
Unemployment Rate	6.2%	5.3%	4.9%	4.9%
Total Nonfarm Payrolls (Millions) Percent Change	139.023 1.9%	$141.944 \\ 2.1\%$	144.319 1.7%	$146.174 \\ 1.3\%$
Light Vehicle Sales (Millions of Units)	16.44	17.39	$17.76 \\ 2.1\%$	18.19
Percent Change	5.8%	5.8%		2.4%
Sales of New and Existing Homes (Millions)	5.360	5.708	5.890	6.101
Percent Change	-2.6%	6.5%	3.2%	3.6%
Housing Starts (Millions of Units)	1.001	1.109	1.265	1.419
Percent Change	7.8%	10.9%	14.0%	12.2%

Global Insight also prepares "pessimistic" and "optimistic" scenarios. Under the pessimistic scenario, given a 20% probability of occurring, the U.S. economy enters a recession during the middle two quarters of 2016 in response to unanticipated declines in international markets. Global Insight predicts that, under this scenario, European markets decline more than anticipated and lower commodity prices cause slower growth in emerging markets, which in turn causes investors to purchase U.S. assets and further strengthen the dollar compared to other currencies. Under this scenario: (1) domestically manufactured goods become more expensive as the dollar appreciates; (2) nonresidential construction declines; (3) employers choose to hire fewer employees; and (4) the unemployment rate begins to increase. The Federal Reserve does not increase the target federal funds rate over the forecast period in response to recessionary pressures. Real GDP growth is projected to be lower than the baseline scenario by 1.8 percentage points in 2016 and 1.6 percentage points in 2017.

In the optimistic scenario, to which Global Insight assigns a 15% probability, higher productivity growth, an increase in household formation, and stronger foreign growth cause a lower trade-adjusted value of the dollar to help the U.S. economy grow at a faster rate than forecast under the baseline. Increased residential and nonresidential construction, consumer spending, and corporate profits are projected under this scenario, contributing an additional 0.7 percentage points to real GDP growth in 2016 and 1.0 percentage points in 2017. The optimistic scenario projects that oil prices average 22.9% higher than the baseline projection in 2016, the dollar strengthens against other currencies in 2017, and the Federal Reserve increases its target for the federal funds rate more rapidly, averaging 2.58% in 2017 compared to the baseline projection of 1.91%.

General Fund Tax Projections. Table 3 shows revised general fund tax revenue estimates for 2015-16 and 2016-17. The projections are based on Global Insight's January, 2016, forecast of the U.S. economy and incorporate all tax law changes enacted to date.

### TABLE 3

### Projected General Fund Tax Collections (\$ Millions)

	2014-15	Previous	Estimates	Revised Estimates January, 2016		
	<u>Actual</u>	<u>2015-16</u>	<u>2016-17</u>	<u>2015-16</u>	<u>2016-17</u>	
Individual Income	\$7,325.8	\$7,858.5	\$8,238.2	\$7,810.0	\$8,050.0	
General Sales and Use	4,892.1	5,050.9	5,217.5	5,050.9	5,217.5	
Corporate Income and Franchise	1,004.9	994.0	1,015.7	990.0	1,045.0	
Public Utility	381.8	366.8	373.4	370.8	382.4	
Excise						
Cigarette	569.6	551.0	545.5	571.0	565.5	
Tobacco Products	71.9	71.4	73.6	76.4	79.6	
Liquor and Wine	48.8	48.5	49.4	50.0	51.0	
Beer	8.8	8.6	8.4	9.0	9.0	
Insurance Company	165.5	181.0	187.0	168.0	172.0	
Miscellaneous Taxes	72.0	73.9	76.3	79.5	83.7	
Total	\$14,541.2	\$15,204.6	\$15,784.9	\$15,175.6	\$15,655.7	
Change from Prior Year		\$663.3	\$580.3	\$634.4	\$480.1	
Percent Change		4.6%	3.8%	4.4%	3.2%	

As shown in the table, total general fund tax revenues are estimated at \$15,175.6 million in 2015-16 and \$15,655.7 million in 2016-17. These amounts are lower than the previous estimates by \$29.0 million in the first year and \$129.2 million in the second year. The biennial decrease is \$158.2 million, or 0.5%. The largest reduction is in the individual income tax, and the estimates for insurance company taxes have also been decreased. With the exception of the sales and use tax, all of the other estimates have been increased somewhat. The sales tax estimates have not been revised.

Under current law, the state automatically conforms to federal changes to Section 179 of

the Internal Revenue Code, which allows taxpayers to claim an immediate deduction for the cost of acquiring certain types of business property, rather than depreciating such property over its useful life. Under our prior forecast, we assumed that Congress would continue to provide oneyear extensions of the Section 179 expensing provisions as they existed in tax year 2014 (higher expense limits were extended on a temporary basis several times between tax years 2003 through 2014). Under the Protecting Americans from Tax Hikes Act of 2015, the higher expense limits were made permanent, rather than being extended for only one year, and will be indexed for inflation. In addition, the types of property that are eligible for immediate expensing were expanded to include certain air conditioning and heating units. Also, based on more recent federal data, the Department of Revenue has reestimated the fiscal impact of the one-year extension of the tax year 2014 provisions to be higher than previously estimated. Compared to our previous estimates, the Section 179 law changes are estimated to reduce state tax revenues by approximately \$75 million more in the 2015-17 biennium.

The remaining decrease in the estimates (\$83 million) primarily reflects the fact that the current economic forecast is less favorable than the January, 2015, forecast.

**Individual Income Tax.** State individual income tax revenues were \$7,325.8 million in 2014-15 and are estimated at \$7,810.0 million in 2015-16 and \$8,050.0 million in 2016-17. Relative to the previous figures, the current estimates are lower by \$48.5 million in the first year and \$188.2 million in the second year. On a year-to-year basis, the current estimates represent increases of 6.6% for 2015-16 and 3.1% for 2016-17.

Based on preliminary collection information through December, 2015, individual income tax revenues for the current fiscal year are 5.1% higher than such revenues through the same period in 2014-15. A higher rate of increase (7.9%) is anticipated over the next six months largely because fewer refunds are expected for 2015 tax returns, than were processed for 2014 tax returns. A lower level of refunds will occur this year because the withholding table change that took effect in tax year 2014, affected withholding levels for nine months in the 2014 tax year, but all 12 months in the 2015 tax year. Because withholding changes do not affect individuals' tax liabilities, lower withholding levels result in lower tax refunds.

The reductions from the prior estimates primarily reflect a reduced forecast of personal income, the federal Section 179 changes, and a larger share of the manufacturing and agriculture credit (MAC) being claimed under the individual income tax instead of the corporate tax. In addition, the estimated cost of the historic rehabilitation tax credit has been increased.

General Sales and Use Tax. State sales and use tax revenues totaled \$4,892.1 million in 2014-15, which was 5.7% higher than the year prior. Sales tax collections through December, 2015, are 2.3% higher than the same period in 2014 and are projected to accelerate to 3.9% for the remainder of the 2015-16 fiscal year. Sales tax revenues are estimated at \$5,050.9 million in 2015-16 and \$5,217.5 in 2016-17, reflecting growth of 3.2% and 3.3%, respectively. These estimates account for law changes but are otherwise unchanged from previous estimates.

**Corporate Income and Franchise Tax.** Corporate income/franchise taxes were \$1,004.9 million in 2014-15, which was \$69.9 million above the Act 55 estimate. Corporate tax revenues are projected to be \$990.0 million in 2015-16 and \$1,045.0 million in 2016-17. These estimates

reflect a decrease of 1.5% in 2015-16 and growth of 5.6% in 2016-17. These estimates are lower than the prior estimates by \$4.0 million in 2015-16 and higher by \$29.3 million in 2016-17.

The new estimates reflect a significant reduction in 2015 corporate economic profits (12.2 percentage points lower than the previous growth rate), but stronger growth in profits for 2016 and 2017 compared to the prior forecast. Quarterly estimated tax payments through December are 4.2% lower compared to the same period last year. Historically, estimated payments generate between 86% and 96% of total corporate tax collections. Although actual collections exceeded the estimate by nearly \$70 million last year, revenues in 2015-16 are now expected to be somewhat lower than the previous estimates due to the reduced profit forecast, weaker estimated payments through December, and increased costs of the Section 179 provisions and the historic rehabilitation credit.

The increased revenue estimate for 2016-17 primarily reflects an improved profit forecast in that year. In addition, the share of the MAC claimed by corporate filers has been reduced from the prior estimates. Overall, the estimated cost of the MAC in the 2015-17 biennium has been reduced slightly since Act 55 was enacted.

**Public Utility Taxes.** Public utility tax revenues were \$381.8 million in 2014-15, and are currently projected at \$370.8 million in 2015-16 and \$382.4 million in 2016-17. Compared to the previous estimates, these amounts are higher by \$4.0 million in 2015-16 and \$9.0 million in 2016-17. Utility tax collections are currently expected to decrease by 2.9% in 2015-16 and increase by 3.1% in 2016-17. Private light, heat, and power companies are the largest taxpayer group, comprising 65% of estimated public utility taxes for the 2015-17 biennium. Collections from these companies totaled \$243.8 million in 2014-15, and are estimated to decrease to \$238.1 million (-2.3%) in 2015-16 and increase to \$249.1 million (4.6%) in 2016-17. The decrease in 2015-16 reflects, in part, reduced energy prices and last year's relatively warm winter weather.

**Excise Taxes.** General fund excise taxes are imposed on cigarettes, liquor (including wine and hard cider), tobacco products, and beer. In 2014-15, excise tax collections totaled \$699.1 million. Of this amount, \$569.6 million (approximately 81%) was from the excise tax on cigarettes.

Excise tax revenues over the next biennium are estimated at \$706.4 million in 2015-16 and \$705.1 million in 2016-17, which represents increased revenue of \$26.9 million in the first year and \$28.3 million in the second year compared to the prior estimates. Excise tax estimates have increased largely due to higher year-to-date cigarette tax collections, which are currently 2.2% higher than collections over the same period in 2014.

**Insurance Premiums Taxes.** Insurance premiums taxes totaled \$165.5 million in 2014-15, which was \$10.6 million less than had been estimated in January, 2015. Premiums tax collections are projected to be \$168.0 million in 2015-16 and \$172.0 million in 2016-17. The estimates are lower than prior estimates by \$13.0 million in 2015-16 and \$15.0 million in 2016-17. The reduced estimates in the first year are primarily caused by a lower base for tax collections following the actual collection totals in 2014-15, as well as a lower than expected adjusted year-to-date growth in tax collections of 0.35%. Although year-to-date premiums tax collections are 16.2% higher than last year, the Office of the Commissioner of Insurance reports that the strong growth rate is due to an acceleration in posting certain tax payments under the Office's new tax processing system, which will be offset by less revenue allocated to the final month of collections. The estimate for 2016-17 reflects historic tax collection growth trends.

**Miscellaneous Taxes.** Miscellaneous taxes include the real estate transfer fee (RETF), municipal and circuit court-related fees, a small amount from the occupational tax on coal, and some estate tax revenue from audit activity. Miscellaneous tax revenues were \$72.0 million in 2014-15. Of this amount, \$57.8 million (approximately 80%) was from the RETF.

Miscellaneous tax revenues over the next biennium are estimated at \$79.5 million in 2015-16 and \$83.7 million in 2016-17, which represents increased revenue of \$5.6 million in the first year and \$7.4 million in the second year compared to the prior estimates. Miscellaneous tax estimates have increased largely due to higher year-to-date RETF collections, which are currently 15.2% above collections over the same period in 2014.

As noted above, the revised tax revenue estimates are based on Global Insight's January, 2016, baseline forecast of the U.S. economy, which projects continued economic growth for the next several years. Global Insight's pessimistic forecast foresees an economic contraction in the second and third quarters of 2016, with positive growth resuming in the fourth quarter. Global Insight assigns a 20% probability to that scenario. The January economic forecast was prepared before the recent declines in oil prices and global stock markets, which could affect future forecasts. Preparing tax revenue estimates always involves uncertainty. Final collections may be higher or lower than the estimates, depending upon the actual performance of the economy. Although we believe that the revised estimates reflect the most likely movement of the economy over the next 18 months, tax collections and economic forecasts will need to be monitored throughout the remainder of the biennium.

I will keep you apprised of any changes to the estimates that may be necessary.

Sincerely,

dng

Robert Wm. Lang Director

RWL/sas cc: Members, Wisconsin Legislature

### **APPENDIX C**

### EXPECTED FORM OF BOND COUNSEL OPINION

Upon delivery of the Bonds, it is expected that Foley & Lardner LLP will deliver a legal opinion in substantially the following form:

(Letterhead of Foley & Lardner LLP)

State of Wisconsin Building Commission 101 East Wilson Street, 7<sup>th</sup> Floor Madison, Wisconsin 53703

Subject:

### \$295,185,000 STATE OF WISCONSIN GENERAL OBLIGATION BONDS OF 2016, SERIES A

We have acted as bond counsel in connection with the issuance by the State of Wisconsin (**State**) of its \$295,185,000 General Obligation Bonds of 2016, Series A, dated the date hereof (**Bonds**). The Bonds are authorized by Article VIII of the Wisconsin Constitution and Chapters 18 and 20 of the Wisconsin Statutes, and are being issued pursuant to resolutions adopted by the State of Wisconsin Building Commission (**Commission**) on June 11, 2014 and December 9, 2015 (**Resolutions**).

We examined the law, a certified copy of the proceedings relating to the issuance of the Bonds, and certifications of public officials and others. As to questions of fact material to our opinion, we relied upon those certified proceedings and certifications without independently undertaking to verify them.

Based upon this examination, it is our opinion that, under existing law:

- 1. The Bonds are valid and binding general obligations of the State.
- 2. The Resolutions have been duly adopted by the Commission and are valid and binding obligations of the State, enforceable upon the State as provided in the Resolutions.
- 3. The full faith, credit, and taxing power of the State are irrevocably pledged to the payment of the principal of, and premium, if any, and interest on, the Bonds as the Bonds mature and become due. There has been irrevocably appropriated, as a first charge upon all revenues of the State, a sum sufficient for such purpose.
- 4. Interest on the Bonds is excluded from gross income for federal income tax purposes and is not a specific item of tax preference for purposes of the federal alternative minimum tax imposed on all taxpayers; however, interest on the Bonds is taken into account in determining adjusted current earnings for purposes of computing the federal alternative minimum tax imposed on certain corporations. The State must comply with all requirements of the Internal Revenue Code of 1986, as amended, that must be satisfied after the Bonds are issued for interest on the Bonds to be, or continue to be, excluded from gross income for federal income tax purposes. The State has agreed to do so. A failure to comply may cause interest on the Bonds to be included in gross income for federal income tax purposes, in some cases retroactively to the date the Bonds were issued. We express no opinion about other federal tax law consequences regarding the Bonds.

The rights of the owners of the Bonds and the enforceability of the Bonds may be limited by bankruptcy, insolvency, reorganization, moratorium, and other similar laws affecting creditors' rights and by equitable principles (which may be applied in either a legal or an equitable proceeding). This letter expresses no opinion as to the availability of any particular form of judicial relief.

We have not been engaged or undertaken to review the accuracy, completeness, or sufficiency of the Official Statement dated February 24, 2016 or other offering material relating to the Bonds (except to the extent, if any, stated in the Official Statement), and we express no opinion as to those matters (except only the matters set forth as our opinion in the Official Statement).

This letter speaks as of its date. We assume no duty to change this letter to reflect any facts or circumstances that later come to our attention or any changes in law. In acting as bond counsel, we have established an attorney-client relationship solely with the State.

Very truly yours,

FOLEY & LARDNER LLP
