Cautionary Information

Users of this information should be cautioned about several points:
--

The General Fund financial information in this document has been prepared using what is believed to be the best available data for these purposes. The tables in this document have been prepared using the same procedures used to prepare similar information for the State of Wisconsin Continuing Disclosure Annual Report, Official Statements prepared for specific securities, or reports filed in conjunction with various securities. This information is, however, preliminary in nature and subject to change.

- This information is unaudited and is not a “financial statement.” None of the data presented here has been subjected to customary fiscal period closing procedures or the procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments.
- This information only speaks as of the date on which it was prepared.
- Statements of information for dates before the date this information is prepared will most likely be restated or revised. Information classified as “actual”, and any difference from any prior estimate, does not signify a change to official estimates. Any official revenue or expenditure re-estimates that do occur will be separately identified, and if material, appropriately noted.
- The information does not intend to reflect the State’s projected budgetary balance for FY18.
- Projections of results for dates after the date this information is prepared are forward looking. Actual results will almost certainly differ.
 - It is important to note that cash flow projections are expressed on a *cash basis* while the tax revenue collection estimates released by the Department of Revenue (**DOR**) and the Legislative Fiscal Bureau (**LFB**) are expressed on a *budgetary basis* and net of any refunds.
 - Projections are not adjusted to reflect actual revenues and expenditures and routine variability in the timing of receipts and disbursements, but may be adjusted to reflect unique events.
 - Projections of remaining fiscal year cash flow may be adjusted when necessary to reflect unforeseen events or additional revised forecasts of the General Fund condition statement.
- Data in the tables of financial information are subject to revision and reclassification for prior periods. This is particularly true for revenue data, where proper classification depends on tax returns which are received and processed significantly after the tax payments are received through electronic transfers.
- Some information is presented on a cash basis of accounting while other data is presented on a budgetary or agency-recorded basis. Users should not compare information that is presented on one basis of accounting with information that is presented on a different basis of accounting.
- Comparison of monthly General Fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month. In addition, comparison of year-to-date annual General Fund financial information also has many inherent problems due to the potential of different revenue and budget provisions for each fiscal year.
- The following tables of General Fund financial information may be material to an investment decision in securities of the State of Wisconsin, although the presence of information here does not imply the State of Wisconsin has made a determination of its materiality.
- The State of Wisconsin is not obligated to provide this information or make it available on its website.
- None of the information in these tables of financial information is required by the State of Wisconsin’s continuing disclosure undertakings pursuant to the Securities and Exchange Commission (**SEC**) Rule 15c2-12; however, this information is filed with the Municipal Securities Rulemaking Board (**MSRB**) Electronic Municipal Market Access (**EMMA**) system as an additional / voluntary filing.
 - This information is not, and does not replace, a listed event required by SEC Rule 15c2-12.
 - This information is not, and does not replace, the annual financial information required by SEC Rule 15c2-12.

General Notes to the Financial Information

- **Continuing Disclosure Annual Report – FY17.** The State’s Continuing Disclosure Annual Report dated December 22, 2017 is now available and has been filed with the MSRB through its EMMA system. This report excludes the Comprehensive Annual Financial Report (CAFR) and the audited general purpose external financial statements. When the CAFR becomes available, it will be filed with the MSRB through its EMMA system. A complete copy of the Continuing Disclosure Annual Report is available from the Capital Finance Office website. See the [Additional Information](#) section.
- **Annual Fiscal Report (Budgetary Basis) – FY17.** On October 15, 2017, the State’s Annual Fiscal Report (unaudited, budgetary basis) was released and it reported that the State ended FY17 with an undesignated balance of \$579 million. The Annual Fiscal Report for FY17 (unaudited, budgetary basis) has been posted and is available from the MSRB via its EMMA system or on the Capital Finance Office website. See the [Additional Information](#) section.
- **2017-19 Biennial Budget.** The budget for FY18 and FY19 was enacted by the Governor on September 21, 2017 with some vetoes. Based on the enacted 2017 Wisconsin Act 59 the General Fund condition statement’s gross ending balances for the biennium are estimated to be \$443 million in FY18 and \$211 million in FY19. See the [Additional Information](#) section for links to the LFB summary documents.
- **Projected FY18 General Fund Revenues.** Projected FY18 General Fund revenues (cash basis) included in the tables of this monthly report reflect the following:
 - 2017 Wisconsin Act 59
 - The LFB estimated General Fund condition statement and associated tax revenues in a report released on January 18, 2017 (**January 2017 LFB Report**). The LFB subsequently validated the findings in a report dated May 10, 2017.
- **Actual and Projected General Fund Condition Statement and General Fund Tax Collections.** The next page contains the General Fund condition statement and General Fund tax collections, which include actual results from FY 17 from the 2017 Annual Fiscal Report, dated October 15, 2017, and projections for FY18 as included in 2017 Wisconsin Act 59.
- **Actual FY18 General Fund Revenues and Disbursements.** Compared to projections, the actual FY18 General Fund tax receipts (cash basis) for the period ending October 31, 2017, were higher by \$35 million. Compared to the same period for FY17, General Fund tax receipts (cash basis) were higher by \$176 million. Regarding fiscal year disbursements, the actual FY18 General Fund disbursements (cash basis) are lower than projections by \$115 million. Compared to the same period for FY17, disbursements increased by \$260 million.

**CASH BALANCES IN FUNDS AVAILABLE FOR
TEMPORARY REALLOCATION ^{(a) (g)}
July 31, 2015 to October 31, 2017 — Actual
November 30, 2017 to June 30, 2018 — Projected ^(b)
(Amounts in Millions)**

The following two tables show, on a monthly basis, the cash balances available for temporary reallocation. The first table does not include balances in the Local Government Investment Pool (LGIP) and the second table does include such balances. Though the LGIP is available for temporary reallocations funds in the LGIP are deposited and withdrawn by local units of government, and thus are outside the control of the State. The monthly average daily balances in the LGIP for the past five years have ranged from a low of \$2.18 billion during November 2013 to a high of \$3.88 billion during August 2016. The Secretary of Administration may not exercise the authority to use temporary reallocation if doing so would jeopardize the cash flow of any fund or account from which a temporary reallocation would be made.

Endnotes

- (a) Please refer to the cautionary statements at the beginning of this document. The cautionary statements are an integral part of this table. None of the data presented here has been subjected to customary fiscal period closing procedures or other procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments. In addition, comparison of monthly General Fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month.
- (b) The results, projections and estimates for the FY18 (cash basis) reflect the enacted budget for the 2017-19 biennium (2017 Wisconsin Act 59) and the estimated General Fund tax revenues included in the January 2017 LFB Report and confirmed in the May 2017 LFB Report.
- (c) The General Fund cash balances presented are not based on Generally Accepted Accounting Principles. The General Fund includes funds designated for operations and capital purposes for certain proprietary programs of the State's universities. Receipts and disbursements of such funds for the designated programs and the disbursement of such funds for other purposes are reflected in the cash flow. A use of the designated funds for purposes other than the proprietary programs is, in effect, a borrowing of such funds. Therefore, at any time that the balance in the General Fund is less than the balance of such designated funds, the State is obligated to replenish the designated funds to the extent of the shortfall. These designated funds ranged from \$1.1 billion to \$1.8 billion during FY17, and are projected to range from \$1.1 billion to \$1.8 billion in FY18. In addition, the General Fund holds deposits for several escrow accounts pursuant to court orders or federal rulings. These funds have averaged, and are expected to continue to average, approximately \$25 million in each fiscal year.
- (d) The Statutes provide certain administrative remedies to deal with periods when the General Fund is in a negative cash position. The Secretary of Administration may temporarily reallocate cash in other funds to the General Fund in an amount up to 9% of the general-purpose revenue appropriations then in effect (approximately \$1.519 in FY18) and may also temporarily reallocate for a period of up to 30 days an additional amount up to 3% of the general-purpose revenue appropriations then in effect (approximately \$506 million in FY18). If the amount of available to the General Fund is not sufficient, the Secretary of Administration is authorized to set priorities for payments from the General Fund and to prorate or defer certain payments.
- (e) Reflects no operating notes issued for FY16 or FY17 and assumes no operating notes for FY18.
- (f) Changes are sometimes made after the beginning of the fiscal year to the projected revenues and disbursements. Depending on when these changes occur, there are situations in which prior estimates cannot be changed and the result is a large variance. This column includes adjustments, if any, to the variances to more accurately reflect the variance between the estimated and actual amounts.
- (g) The amounts shown reflect a reduction in the aggregate cash balances available to the extent any fund had a negative balance and temporary reallocations were made from such fund.
- (h) This category includes intergovernmental transfers. The amount of these transfers may vary greatly between fiscal years, and therefore, this category may not be comparable on a historical basis.
- (i) Certain transfers between General Fund appropriations are recorded as both revenues and expenditures of the General Fund. The amount of these transfers may vary greatly between fiscal years, and therefore this category may not be comparable on a historical basis.
- (j) The amounts are from the Annual Fiscal Report (unaudited, budgetary basis) for FY17, dated October 15, 2017.
- (k) The estimates reflect the 2017-19 biennial budget (2017 Wisconsin Act 59).
- (l) The amounts shown are FY17 general purpose revenues and program revenues taxes as recorded by State agencies. There may be differences between the tax revenues shown in this report and those that may be reported by DOR from time to time in its monthly general purpose revenue collections report; the DOR report (i) only includes general purpose revenues or taxes that are actually collected by DOR (and not by other State agencies), and (ii) may include accruals or other adjustments that may not be recorded by State agencies until a subsequent month.

- (m) The amounts shown are FY18 general purpose revenues and program revenue taxes as recorded by State agencies. There may be differences between the tax revenues shown in this report and those that may be reported by DOR from time to time in its monthly general purpose revenue collections report; the DOR report (i) only includes general purpose revenues or taxes that are actually collected by DOR (and not by other State agencies), and (ii) may include accruals or other adjustments that may not be recorded by State agencies until a subsequent month.
- (n) The amounts shown are FY17 expenditures as recorded by State agencies.
- (o) The amounts shown are FY18 expenditures as recorded by State agencies.
