Cautionary Information

Users of this information should be cautioned about several points:

The General Fund financial information in this document has been prepared using what is believed to be the best available data for these purposes. The tables in this document have been prepared using the same procedures used to prepare similar information for the State of Wisconsin Continuing Disclosure Annual Report, Official Statements prepared for specific securities, or reports filed in conjunction with various securities. This information is, however, preliminary in nature and subject to change.

- This information is unaudited and is not a “financial statement.” None of the data presented here has been subjected to customary fiscal period closing procedures or the procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments.
- This information only speaks as of the date on which it was prepared.
- Statements of information for dates before the date this information is prepared will most likely be restated or revised. Information classified as “actual”, and any difference from any prior estimate, does not signify a change to official estimates. Any official revenue or expenditure re-estimates that do occur will be separately identified, and if material, appropriately noted.
- The information does not intend to reflect the State’s projected budgetary balance for FY19.
- Projections of results for dates after the date this information is prepared are forward looking. Actual results will almost certainly differ.
 - It is important to note that cash flow projections are expressed on a *cash basis* while the tax revenue collection estimates released by the Department of Revenue (**DOR**) and the Legislative Fiscal Bureau (**LFB**) are expressed on a *budgetary basis* and net of any refunds.
 - Projections are not adjusted to reflect actual revenues and expenditures and routine variability in the timing of receipts and disbursements but may be adjusted to reflect unique events.
 - Projections of remaining fiscal year cash flow may be adjusted when necessary to reflect unforeseen events or additional revised forecasts of the General Fund condition statement.
- Data in the tables of financial information are subject to revision and reclassification for prior periods. This is particularly true for revenue data, where proper classification depends on tax returns which are received and processed significantly after the tax payments are received through electronic transfers.
- Some information is presented on a cash basis of accounting while other data is presented on a budgetary or agency-recorded basis. Users should not compare information that is presented on one basis of accounting with information that is presented on a different basis of accounting.
- Comparison of monthly General Fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month. In addition, comparison of year-to-date annual General Fund financial information also has many inherent problems due to the potential of different revenue and budget provisions for each fiscal year.
- The following tables of General Fund financial information may be material to an investment decision in securities of the State of Wisconsin, although the presence of information here does not imply the State of Wisconsin has decided of its materiality.
- The State of Wisconsin is not obligated to provide this information or make it available on its website.
- None of the information in these tables of financial information is required by the State of Wisconsin’s continuing disclosure undertakings pursuant to the Securities and Exchange Commission (**SEC**) Rule 15c2-12; however, this information is filed with the Municipal Securities Rulemaking Board’s (**MSRB**) Electronic Municipal Market Access (**EMMA**) system as an additional / voluntary filing.
 - This information is not, and does not replace, a listed event required by SEC Rule 15c2-12.
 - This information is not, and does not replace, the annual financial information required by SEC Rule 15c2-12.

General Notes to the Financial Information

- **2019-21 Biennial Budget.** The Governor's executive biennial budget for FY20 and FY21 was released on February 28, 2019. The executive budget was introduced in both houses of the Legislature and referred to the Joint Committee on Finance (**JCF**) for review.

On June 13, 2019, JCF approved their version of the biennial budget bill, which amends the Governor's executive budget and is expected to be considered by the Legislature the week of June 24th. The following are links to the amended biennial budget bill approved by JCF and summary of such bill as prepared by the Legislative Fiscal Bureau (**LFB**):

https://docs.legis.wisconsin.gov/2019/related/amendments/ab56/asa1_ab56.pdf

http://docs.legis.wisconsin.gov/misc/lfb/budget/2019_21_biennial_budget/402_comparative_summary_of_budget_recommendations_governor_and_joint_committee_on_finance_june_2019_entire_document.pdf

Additional information on the Governor's executive budget for the 2019-21 biennium is available from the Capital Finance Office; see the Additional Information section.

- **Updated Revenue Estimates – FY19.** The LFB released a report on May 15, 2019 (**May 2019 LFB Report**) that included a revised FY19 General Fund Condition Statement and updated estimates of General Fund tax collections for FY19 and the 2019-21 biennium. A copy of the May 2019 LFB Report has been posted to the MSRB's EMMA system and is also available from the Capital Finance Office.

The May 2019 LFB Report suggests an estimated General Fund net balance at the end of FY19 of \$929 million. This estimate is \$312 million higher than the estimated balance included in the report released by LFB on January 30, 2019 (**January 2019 LFB Report**) and \$381 million higher than the Department of Administration (**DOA**) report of November 20, 2018 (**November 2018 DOA Report**).

The estimated General Fund condition statement from the May 2019 LFB Report is provided on the next page, with comparisons to the actual FY18 statement as reported in the Annual Fiscal Report, and the FY19 estimates from the 2017-19 biennium (**2017 Wisconsin Act 59**) and the January 2019 LFB Report.

- **Budget Stabilization Fund Estimated Deposit – FY19.** The May 2019 LFB Report includes an estimated FY19 deposit into the Budget Stabilization Fund of \$291 million. This deposit reflects revenue estimates in FY19 being higher than estimated in 2017 Wisconsin Act 59, and taking into account provisions of provisions of 2017 Wisconsin Act 368 (which excludes increased sales tax collections under the Wayfair decision for remote sales tax).
- **Projected FY19 General Fund Tax Revenue Collections.** The May 2019 LFB Report also provides updated General Fund tax revenue collections for FY19. This estimate was \$1.122 billion (6.9%) more than actual General Fund tax collections for FY18, \$592 million higher than the January 2019 LFB Report, and \$450 million higher than the November 2018 DOA Report.

The table on the following page reflects FY19 General Fund projected tax collections as included in the May 2019 LFB Report in comparison to the FY18 actual tax collections as reported in the 2018 Annual Fiscal Report and the estimated FY19 collections from the 2017-19 biennial budget and the January 2019 LFB Report.

**CASH BALANCES IN FUNDS AVAILABLE FOR
TEMPORARY REALLOCATION ^{(a) (g)}
July 31, 2016 to April 30, 2019 — Actual
May 31, 2019 to June 30, 2019 — Projected ^(k)
(Amounts in Millions)**

The following two tables show, on a monthly basis, the cash balances available for temporary reallocation. The first table does not include balances in the Local Government Investment Pool (LGIP) and the second table does include such balances. Though the LGIP is available for temporary reallocations funds in the LGIP are deposited and withdrawn by local units of government, and thus are outside the control of the State. The monthly average daily balances in the LGIP for the past five years have ranged from a low of \$2.19 billion during November 2014 to a high of \$3.98 billion during August 2018. The Secretary of Administration may not exercise the authority to use temporary reallocation if doing so would jeopardize the cash flow of any fund or account from which a temporary reallocation would be made.

Endnotes

- (a) Please refer to the cautionary statements at the beginning of this document. The cautionary statements are an integral part of this report. None of the data presented here has been subjected to customary fiscal period closing procedures or other procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments. In addition, comparison of monthly General Fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month.
- (b) The results, projections, and estimates for FY19 (cash basis) reflect the enacted budget for the 2017-19 biennium (2017 Wisconsin Act 59), the January 2018 LFB Report, the June 2018 LFB paper, the November 2018 DOA Report, and the January 2019 LFB Report, but do not reflect the estimates from the May 2019 LFB Report.
- (c) The General Fund cash balances presented are not based on Generally Accepted Accounting Principles. The General Fund includes funds designated for operations and capital purposes for certain proprietary programs of the State's universities. Receipts and disbursements of such funds for the designated programs and the disbursement of such funds for other purposes are reflected in the cash flow. A use of the designated funds for purposes other than the proprietary programs is, in effect, a borrowing of such funds. Therefore, at any time that the balance in the General Fund is less than the balance of such designated funds, the State is obligated to replenish the designated funds to the extent of the shortfall. These designated funds ranged from \$1.1 billion to \$1.8 billion during FY17 and FY18 and are anticipated to range from \$1.1 billion to \$1.8 billion during FY19. In addition, the General Fund holds deposits for several escrow accounts pursuant to court orders or federal rulings. These funds have averaged, and are expected to continue to average, approximately \$25 million in each fiscal year.
- (d) The Statutes provide certain administrative remedies to deal with periods when the General Fund is in a negative cash position. The Secretary of Administration may temporarily reallocate cash in other funds to the General Fund in an amount up to 9% of the gross general-purpose revenue appropriations then in effect (approximately \$1.605 billion in FY19 per the January 2019 LFB Report) and may also temporarily reallocate for a period of up to 30 days an additional amount up to 3% of the general-purpose revenue appropriations then in effect (approximately \$534 million in FY19 per the January 2019 LFB Report). If the amount of available to the General Fund is not sufficient, the Secretary of Administration is authorized to set priorities for payments from the General Fund and to prorate or defer certain payments.
- (e) Reflects no operating notes issued for FY17, FY18, or FY19.
- (f) Changes are sometimes made after the beginning of the fiscal year to the projected revenues and disbursements. Depending on when these changes occur, there are situations in which prior estimates cannot be changed and the result is a large variance. This column includes adjustments, if any, to the variances to more accurately reflect the variance between the estimated and actual amounts.
- (g) The amounts shown reflect a reduction in the aggregate cash balances available to the extent any fund had a negative balance and temporary reallocations were made from such fund.
- (h) This category includes intergovernmental transfers. The amount of these transfers may vary greatly between fiscal years, and therefore, this category may not be comparable on a historical basis.
- (i) Certain transfers between General Fund appropriations are recorded as both revenues and expenditures of the General Fund. The amount of these transfers may vary greatly between fiscal years, and therefore this category may not be comparable on a historical basis.
- (j) The amounts are from the Annual Fiscal Report (unaudited, budgetary basis) for FY18, dated October 15, 2018.
- (k) The estimates reflect the 2017-19 biennial budget (2017 Wisconsin Act 59), but do not include the January 2018 LFB Report, the June 2018 LFB Paper, the November 2018 DOA Report, the January 2019 LFB Report, or the May 2019 LFB Report.

- (l) The amounts shown are FY18 general purpose revenues and program revenues taxes as recorded by State agencies. There may be differences between the tax revenues shown in this report and those that may be reported by DOR from time to time in its monthly general purpose revenue collections report; the DOR report (i) only includes general purpose revenues or taxes that are actually collected by DOR (and not by other State agencies), and (ii) may include accruals or other adjustments that may not be recorded by State agencies until a subsequent month.
- (m) The amounts shown are FY19 general purpose revenues and program revenue taxes as recorded by State agencies. There may be differences between the tax revenues shown in this report and those that may be reported by DOR from time to time in its monthly general purpose revenue collections report; the DOR report (i) only includes general purpose revenues or taxes that are actually collected by DOR (and not by other State agencies), and (ii) may include accruals or other adjustments that may not be recorded by State agencies until a subsequent month.
- (n) The amounts shown are FY18 expenditures as recorded by State agencies.
- (o) The amounts shown are FY19 expenditures as recorded by State agencies.
