Agency Budget Request and Revenue Estimates—Department of Administration Report, November 21, 2022.

Pursuant to Wisconsin Statutes the Department of Administration is required to provide a compilation of total amounts of each agency's biennial budget request and report the Department of Revenue's general purpose tax revenue estimates for the forthcoming biennium. In addition, revenue estimates for the remainder of the current fiscal year are included. The attached report from the State of Wisconsin Department of Administration includes:

- (1) Table 2
Department of Revenue's general purpose tax revenue estimates for the current fiscal year (2022-23) and the next two fiscal years (2023-24 and 2024-25),
- (2) Table 3 and Table 4
Projected general fund condition statements that reflect current law appropriations for fiscal year 2022-23, assumption that all agency general purpose revenue budget requests for fiscal years 2023-24 and 2024-25 will be funded, and current economic outlook and revenue forecasts based on best available data at this point in the fiscal year, and,
- (3) Table 1 and Table 5
Summary of agency general purpose revenue budget requests for the next two fiscal years (2023-25 biennium).

It is typical for agency requests to exceed available revenues; the Governor will use this report to prepare the executive budget for the 2023-25 biennium, and past practice is that not all agency requests are included in the executive budget or the final budget.

The State of Wisconsin is providing this Additional/Voluntary Filing with the Municipal Securities Rulemaking Board through its Electronic Municipal Market Access system. This Additional/Voluntary Filing is also available on the State of Wisconsin Capital Finance Office website and State of Wisconsin investor relations website at:

AGENCY BUDGET REQUESTS and REVENUE ESTIMATES

FY2024

FY2025

STATE OF WISCONSIN

Division of Executive
Budget and Finance

Department of Administration

November 21, 2022

STATE OF WISCONSIN
DEPARTMENT OF ADMINISTRATION

Tony Evers, Governor
Kathy Blumenfeld, Secretary-designee

November 21, 2022

The Honorable Tony Evers, Governor
Members of the Wisconsin Legislature
State Capitol
Madison, Wisconsin 53702

Dear Governor Evers and Members of the Legislature:

Under s.16.43, Wisconsin Statutes, the Department of Administration is required to submit specific budgetary information by November 20 of even-numbered years. Pursuant to this requirement, this letter provides a summary of state agency budget requests for the 2023-25 biennium and the Department of Revenue's general purpose tax revenue estimates for the remainder of the 2022-23 fiscal year and the following two fiscal years (2023-24 and 2024-25).

State agency budget request estimates will be reviewed and updated as needed prior to the Governor introducing his budget in early 2023. As examples, additional information will become available in upcoming months related to programs such as Medical Assistance and certain school aids that will likely result in adjustments to information provided here. Further, as typically occurs, it is likely the Governor's recommended budget will include modifications and additions to the state agencies' budget requests.

Please note specific assumptions have been made regarding these estimates. First, these estimates include an assumption related to the amount of General Purpose Revenue (GPR) anticipated to be lapsed in Medicaid due to the higher federal match rate throughout the public health emergency. In its most recent quarterly report to the Joint Committee on Finance, the Department of Health Services estimated this figure would be \$504.9 million.

State Fiscal Condition

The fiscal condition of the State of Wisconsin is in its strongest position in state history. We recently released the state's Annual Fiscal Report for the 2021-22 fiscal year, which noted a positive General Fund balance of nearly \$4.3 billion, a figure that is more than double what was estimated when 2021 Wisconsin Act 58 was enacted in July 2021.

In addition, this record high opening balance is more than seven times the balance at the end of the 2017-18 fiscal year. As this report notes, the newly estimated 2022-23 fiscal year gross ending balance is forecasted to be much larger, \$6.576 billion, which is roughly \$2.7 billion higher than previously estimated in the final Chapter 20 schedule from earlier this year.

In addition to this remarkable General Fund balance, the state's Budget Stabilization Fund maintained a balance of \$1.734 billion at the end of the 2021-22 fiscal year, the largest in state history and more than five times the balance at the end of the 2017-18 fiscal year. The estimated fiscal year 2022-23 ending General Fund balance and the estimated Budget

Stabilization Fund balance amount to 42 percent of fiscal year 2022-23 state GPR net appropriations.

Further, after 30 consecutive years of running a Generally Accepted Accounting Principles (GAAP) deficit, the State of Wisconsin has now had two consecutive years with a GAAP surplus, including a \$1.18 billion surplus at the end of the 2020-21 fiscal year.

Stellar financial management has also literally paid off in other ways. In August 2021, the state received upgrades from two rating agencies, with one rating upgraded to a AAA level, which is Wisconsin's first AAA rating since 1982. The upgrades reflect the rating agencies' recognition of significantly improved reserves, elimination of the negative fund balance (on a GAAP basis), and strong fiscal oversight.

As you know, debt management has remained a priority of this administration. The amount of the state's long-term obligations has been reduced by an average of \$340 million per year over the past four years. In addition, the amount of state transportation revenue bonds has been reduced by \$203 million since the end of calendar year 2018.

Overall, the state's GPR debt service as a percentage of tax revenues in the 2022-23 fiscal year is estimated to be 2.24 percent, which is down from 3.40 percent at the end of the 2017-18 fiscal year. Finally, over the past nearly four years, numerous debt refinancing transactions have been completed that have provided present value debt service savings for all borrowing programs of roughly \$394 million.

Given the continued volatility in our international economy, we will keep doing what is needed to position our state as favorably as we can moving forward. Our continued success in the years ahead will be heavily based on our ability to work together to advance our shared values of improving Wisconsinites' quality of life and making our state an even better place to live, work, learn, raise a family, and recreate. As leaders, we must continue our steady fiscal stewardship but also invest in our people and especially in those areas we know require it such as education, healthcare, public safety, our infrastructure, our environment, and economy.

Revenue Estimates

We once again provided considerable individual income tax relief of roughly \$1 billion in fiscal year 2021-22 alone in the last biennial budget the Governor signed into law. Even after significantly reducing individual income taxes, our overall state tax revenues continued to increase by over \$975 million in the 2021-22 fiscal year over the prior fiscal year.

The Department of Revenue's estimates of general purpose tax revenues for fiscal years 2022-23, 2023-24, and 2024-25 are summarized by individual tax source in Table 2. For fiscal year 2022-23, overall state tax revenues are forecasted by the Department of Revenue to be \$21.293 billion which would be \$744.2 million more than those received in the 2021-22 fiscal year.

Total state tax revenues are estimated to increase above this revised fiscal year 2022-23 base to \$21.617 billion in fiscal year 2023-24, an increase of \$323.8 million (1.5 percent). In addition, state tax revenues are anticipated to further increase by \$855.1 million (4.0 percent) to \$22.472 billion in fiscal year 2024-25.

These revenue estimates are based on current state and federal laws. In addition, these estimates are tied to the most recently available reports related to economic activity and do not include any proposed general tax law changes. As the past few years have clearly shown, revenue estimates are profoundly challenging to make at any time, noting those released here encompass more than two and one-half years through June 30, 2025.

General Fund Condition Estimates

The General Fund Condition Statements (see Tables 3 and 4) reflect current law appropriations for fiscal year 2022-23 and requests from state agencies for fiscal years 2023-24 and 2024-25. They incorporate the current economic outlook and revenue forecasts based on the best available data at this point in the current fiscal year.

Based on this updated information, the state's general fund balance at the end of the 2022-23 fiscal year is now projected to be \$6.576 billion (see Table 3), assuming nearly all state agency appropriations are entirely expended. This projection is based on the Department of Revenue's revised fiscal year 2022-23 tax revenue estimates and the final budget for fiscal year 2022-23. Estimates of departmental revenues and lapses have also been updated based on the latest available information.

State general fund balances for the next biennium are estimated to be \$8.421 billion at the end of the 2023-24 fiscal year and \$9.757 billion (see Table 4) at the end of the 2024-25 fiscal year. These figures are by far the highest nominal ending balance estimates in state history and are a reflection of the prudent and outstanding fiscal stewardship by the Governor in recent years.

Agency Budget Requests

On June 7, 2022, the Governor directed most state agencies, with certain exceptions related to K-12 school aids, Medical Assistance, and critical services provided to our citizens, to submit biennial budget requests that did not seek to increase GPR-funded expenditures in either fiscal year 2023-24 or 2024-25. His instructions also extended to SEG-funded administrative operations in other agencies as well.

State agency budget requests are summarized for the 2023-25 biennium both statewide and by functional area (see Appendix 1) and by each state agency (see Appendix 2). If all requests were approved, agency budget requests alone would increase total spending (on an all funds basis) from the adjusted base of \$44.165 billion in the current fiscal year to \$47.669 billion (7.9 percent). For fiscal year 2024-25, agencies are seeking \$48.856 billion, an increase of \$1.187 billion (2.5 percent) over fiscal year 2023-24.

Requests for GPR expenditures of \$20.808 billion are included in fiscal year 2023-24 and \$22.148 billion in fiscal year 2024-25 (see Table 1). These figures reflect overall agency

annual GPR requests of \$1.143 billion (5.8 percent) in fiscal year 2023-24 over fiscal year 2022-23 and an increase of \$1.339 billion (6.4 percent) in fiscal year 2024-25 over fiscal year 2023-24.

Similar to other recent budgets, a significant share of the overall requested increase emanates from the Department of Public Instruction, the University of Wisconsin System, and the Department of Health Services, which combined have requests totaling a little more than \$3.1 billion. A comprehensive summary of all agency budget requests for GPR expenditures is shown in Table 5 with similar information related to requests on an all funds basis in Table 6.

Agency budget requests do not generally include funding for possible increases in debt service, fuel utilities, state employee compensation and fringe benefits, or University of Wisconsin faculty pay adjustments. These items will be addressed in the Governor's recommendations in the budget bill he submits to the Legislature in early 2023. In addition, state agencies' capital budget requests are not included in this document. Thus, total expenditure requests for the 2023-25 biennium are not entirely reflected in the attached tables.

Wisconsin Economic Outlook

Wisconsin has largely followed the trajectory of the national economic recovery from the COVID-19 global pandemic and has similarly encountered some of the same constraints as those seen nationally, principally elevated levels of inflation and tight labor markets. Due to shocks to the global economy stemming from Russia's invasion of Ukraine this year and tightening monetary policy to confront high inflation, a subdued macroeconomic outlook is expected in the coming few years. For 2022, the November IHS Markit forecast projects that real GDP will rise by 1.8 percent, following a robust 5.9 percent growth rate in 2021 as the national economy recovered from a 2.8 percent contraction during 2020. In 2023, IHS Markit forecasts a mild recession, with a decline in real GDP of 0.2 percent before growth resumes in 2024 and 2025 with 1.3 percent and 1.8 percent growth, respectively. Due to the mild nature of the projected downturn, personal income will continue to grow in nominal terms, with growth of 4.6 percent in 2023, 4.4 percent in 2024, and 4.5 percent in 2025. This follows growth of 6.7 percent in 2020 and 7.4 percent in 2021 that was bolstered by government transfer payments and a reduced growth rate of 2.3 percent in 2022 as temporary transfer payments expired.

Employment at the national level has recovered its losses from the pandemic, with growth of 2.8 percent in 2021 and 4.1 percent in 2022 following the 5.8 percent decline in 2020. For 2023, IHS Markit projects no change in nonfarm payrolls and then a slight decline of 0.3 percent in 2024, followed by a return to growth of 0.7 percent in 2025. Measured by quarter, as opposed to calendar year average levels, the forecast projects that national nonfarm payrolls will peak in the fourth quarter of 2022 before declining 1.7 percent by the fourth quarter of 2023. Measured by peak-to-trough job losses, this projected downturn would be the shallowest recent recession. The 2007-09 recession saw a 6.0 percent peak-to-trough decline in nonfarm payrolls nationally while the 2001 recession saw a peak-to-trough decline of 1.9 percent. The shallow nature of the projected downturn contributes to the modest growth rates projected in general fund taxes as opposed to declines.

Wisconsin's employment trends have moved in the same direction as the national trends, with growth in nonfarm payrolls of 13.9 percent since the April 2020 trough in employment compared to 17.2 percent nationally. Wisconsin's slower underlying demographic growth, especially in the working age population, has become a constraint in matching national employment growth rates. Wisconsin's unemployment rate declined to a record low of 2.8 percent in December 2021 and has stayed close to prepandemic lows in recent months, with unemployment at 3.2 percent in September compared to 3.5 percent nationally. It is expected that Wisconsin's economy would broadly follow national trends in any possible mild recession and would sustain similar employment losses before recovering.

Risks to the Estimate

The revenue projections used for the purposes of this report are built on a national economic forecast from IHS Markit that relies on a series of assumptions that may or may not come to pass. Two principal risks to the macroeconomic forecast have emerged, which now dominate potential downside risks to the projected revenues.

The first is Russia's invasion of Ukraine and the ongoing war since February 2022. Global commodities markets have been greatly disrupted, contributing to large increases in a variety of energy, industrial, and agricultural commodities. This shock has heightened already elevated inflation in most of the world as well as created uncertainties for multinational businesses, especially those with large exposures to Europe. It is currently expected that disruptions in energy supplies and the resulting elevated prices for electricity and natural gas in Europe will cause a deep recession, which in turn could affect exports from the United States to Europe. Further, the war contributes to a geopolitical risk premium in the pricing of financial assets, which diminishes investment. If the war becomes prolonged well into 2023 and even beyond, this represents a downside risk to the economic outlook and therefore revenues. Alternatively, swift resolution of the war and a resulting return to normalized trade in commodities as well as lower risk financial conditions could be an upside risk to the forecast.

The second major risk to the forecast is if inflation remains elevated for longer than expected, forcing the Federal Reserve to continue a restrictive posture on monetary policy. The November IHS Markit outlook projects inflation will fall from 7.7 percent growth year-over-year in the fourth quarter of 2022 to 3.0 percent year-over-year by the fourth quarter of 2023, with further declines in 2024 toward the long-run 2.0 percent target established by Federal Reserve policymakers. Should inflation remain elevated, monetary policy may tighten further, restricting the growth in credit to consumers and businesses and causing economic activity to stagnate or decline. Alternatively, should inflation moderate more rapidly than expected, the Federal Reserve could shift from restrictive monetary policy to a neutral policy posture, which would neither be attempting to curtail or stimulate economic growth. The trajectory of inflation is uncertain at the present time, and it is the prime factor in determining the length and depth of any downturn in the economy due to monetary policy actions.

Complicating the ability to accurately project revenues in the current macroeconomic situation has been the disproportionate share of revenue growth that has resulted from

The Honorable Tony Evers, Governor
Members of the Wisconsin Legislature
Page 6
November 21, 2022

volatile components, including investment income and corporate profits. A deeper decline in financial markets and shortfalls in corporate profits in response to a potential economic downturn could therefore pose an especially acute risk to revenue forecasts given the reliance on investment income and corporate profits in current baseline tax revenues.

Finally, I would like to extend my appreciation to the Department of Administration State Budget Office and the Department of Revenue Secretary, Peter Barca, and his staff for the timely revenue estimates they recently provided to assist in assembling this report.

If you have any questions related to this information, please contact me or State Budget Director Brian Pahnke.

Sincerely,

Kathy K. Blumenfeld
Secretary-designee

APPENDIX 4
AGENCY PROPOSALS
REQUIRED UNDER
S. 16.423

Proposals Required Under s. 16.423

Pursuant to s. 16.423, Wis. Stats., all state agencies, meaning any office, department or independent agency in the Executive Branch, the Legislature and the Courts, are required to submit a base budget review report no later than May 15 in even-numbered years. These reports are required to include:

1. A description of each appropriation of the state agency.
2. For each appropriation, an accounting of all expenditures in every quarter in each of the previous three fiscal years.
3. For each appropriation, an analysis of whether it contributes to the mission of the agency and whether the objectives of the appropriation justify the expenditures.
4. For each appropriation, a determination of the minimum level of funding needed to achieve its objectives not to exceed the prior fiscal year's adjusted base and an accounting of the appropriation's current funding.
5. A description of the agency mission or guiding principles.

The State Budget Office created an on-line state expenditure reporting tool to improve the transparency of the state's finances. The tool includes each state agency appropriation, a link to its statutory description and its expenditures by quarter dating back three fiscal years. This tool was created to comply with ss. 16.423(3)(a) and (3)(b). The on-line expenditure reporting tool is formatted to be consistent with the base budget review report filed under s. 16.423, 2007 Wis. Stats.

<http://openbook.wi.gov/ExpenditureDetailReport.aspx>

In addition, state agencies were provided instructions and worksheets to comply with s. 16.423 and to certify compliance with the statutes. Included is a summary table of the submissions from state agencies.
