AA+ S&P Global Ratings

Tax Status Interest on the 2022 Series 4 Bonds is excluded from gross income for federal income tax purposes and is not an item of tax preference for purposes of the federal alternative minimum tax imposed on individuals; however, interest on the 2022 Series 4 Bonds is taken into account in determining "adjusted financial statement income" for purposes of computing the federal alternative minimum tax imposed on certain corporations for taxable years beginning after December 31, 2022—*See pages 12-13.*

Interest on the 2022 Series 5 Bonds is included in gross income for federal income tax purposes—*See pages 14-17.*

Interest on the Bonds is not exempt from current State of Wisconsin income or franchise taxes—*See page 17.*

Redemption The 2022 Series 4 Bonds maturing on or after May 1, 2033 are callable at par on May 1, 2032 or any date thereafter—*See page 4.*

The 2022 Series 5 Bonds maturing on or after May 1, 2033 are callable at par on May 1, 2032 or any date thereafter—*See page 4.*

The 2022 Series 5 Bonds are also subject to redemption at any time at the make-whole redemption price—*See pages 4-5.*

Security General obligations of the State of Wisconsin—*See page 4.*

Purpose Bond proceeds are being used for the current refunding (including by purchasing Tendered Bonds pursuant to the Invitation) and advance refunding of general obligation bonds previously issued by the State of Wisconsin for general governmental purposes—*See pages 2-3.*

Interest Payment Dates May 1 and November 1

First Interest Payment Date May 1, 2023

Delivery On or about November 3, 2022

This document is called an official statement because it is the only document the State has authorized for providing information about the Bonds. This document is not an offer or solicitation of an offer for the sale of the Bonds, and no unlawful offer, solicitation, or sale may occur through the use of this document or otherwise. This document is not a contract, and it provides no investment advice. Prospective investors should consult their advisors and legal counsel with questions about this document, the Bonds, and anything else related to the offering.

The purpose of this document is to provide prospective investors with information that may be important in making an investment decision. It may not be used for any other purpose without the State’s permission. The State is the author of this document and is responsible for its accuracy and completeness. The Underwriters are not the authors of this document. In accordance with their responsibilities under federal securities laws, the Underwriters are required to review the information in this document and must have a reasonable basis for their belief in the accuracy and completeness of its key representations.

Certain statements in this document are forward-looking statements that are based on expectations, estimates, projections, or assumptions. Forward-looking statements contained in this document are made as of the date hereof, and the State undertakes no obligation to update such statements to reflect subsequent events or circumstances. Actual results could differ materially from the anticipated results.

Some of the people who prepared, compiled, or reviewed the information in this document had specific functions that covered some of its aspects but not others. For example, financial staff may have been asked to assist with quantitative financial information, and legal counsel with specific documents or legal issues.

No dealer, broker, sales representative, or other person has been authorized by the State to give any information or to make any representations about the Bonds other than what is in this document. The information and expressions of opinion in this document may change without notice. The delivery of this document or any sale of the Bonds does not imply that there has been no change in the matters contained in this document since the date of this document. Material referred to in this document is not part of this document unless expressly incorporated.

In connection with the offering of the Bonds, the Underwriters may over-allot or effect transactions which stabilize or maintain the market prices of the Bonds at levels above those which might otherwise prevail in the open market. Such stabilizing, if commenced, may be discontinued at any time. The Underwriters may offer and sell the Bonds to certain dealers and dealer banks and banks acting as agents at prices lower than the public offering prices stated on the **inside front cover** hereof and such public offering prices may be changed from time to time by the Underwriters.

OFFICIAL STATEMENT

\$277,675,000

STATE OF WISCONSIN

**\$257,090,000 GENERAL OBLIGATION REFUNDING BONDS OF
2022, SERIES 4**

**\$20,585,000 GENERAL OBLIGATION REFUNDING BONDS OF
2022, SERIES 5 (TAXABLE)**

INTRODUCTION

This Official Statement provides information about the \$257,090,000 General Obligation Refunding Bonds of 2022, Series 4 (**2022 Series 4 Bonds**) and \$20,585,000 General Obligation Refunding Bonds of 2022, Series 5 (Taxable) (**2022 Series 5 Bonds**) (collectively, the 2022 Series 4 Bonds and the 2022 Series 5 Bonds are called the **Bonds**), which are being issued by the State of Wisconsin (**State**). This Official Statement incorporates by reference, and makes updates and additions to, **Parts I, II, and III** of the State of Wisconsin Continuing Disclosure Annual Report, dated December 23, 2021 (**2021 Annual Report**).

The Bonds are authorized under the Wisconsin Constitution and the Wisconsin Statutes, and are being issued pursuant to authorizing resolutions that the State of Wisconsin Building Commission (**Commission**) adopted on October 14, 2020 and October 20, 2021.

The Commission, an agency of the State, is empowered by law to authorize, issue, and sell all of the State's general obligations. The Commission is assisted and staffed by the State of Wisconsin Department of Administration (**Department of Administration**).

The Commission has authorized the Department of Administration to prepare this Official Statement. This Official Statement contains information furnished by the State or obtained from the sources indicated.

THE STATE

The State is located in the Midwest among the northernmost tier of states. The State ranks 20th among the states in population and 25th in land area. Wisconsin attained statehood in 1848, its capital is Madison, and its largest city is Milwaukee.

Information concerning the State, its financial condition, and its general obligation debt is included as **APPENDIX A**, which incorporates by reference **Parts II and III** of the 2021 Annual Report. **APPENDIX A** also makes updates and additions to Parts II and III of the 2021 Annual Report, including:

- Additional information about the State's response to, and federal assistance relating to, the COVID-19 pandemic.
- Estimated General Fund condition statement for the 2021-23 biennium and estimated General Fund tax collections for the 2021-22 and 2022-23 fiscal years, as included in a report provided by the Legislative Fiscal Bureau (**LFB**) on January 25, 2022 (**January 2022 LFB Report**).
- General Fund information for the 2021-22 fiscal year, which is presented on either a cash basis or an agency-recorded basis, and projected General Fund information for the 2022-23 fiscal year, which is presented on a cash basis.
- General Fund condition statement and General Fund tax collections for the 2021-22 fiscal year, as included in the Annual Fiscal Report (budgetary basis), dated October 14, 2022.

Requests for additional information about the State may be directed to:

PLAN OF REFUNDING

General

The Commission is empowered by law to issue funding and refunding bonds. The Bonds are being issued for the purposes and within the amounts authorized by the Wisconsin State Legislature **(Legislature)**. See **APPENDIX B**.

A portion of the 2022 Series 4 Bonds is being issued for the current refunding of certain maturities, or portions of maturities, of general obligation bonds previously issued by the State for general governmental purposes **(Current Refunding)**. The refunded maturities, or portions of maturities, associated with the Current Refunding are currently outstanding in the total principal amount of \$194,330,000 **(Current Refunded Bonds)**.

The remaining portion of the 2022 Series 4 Bonds and all of the 2022 Series 5 Bonds are being issued for the advance refunding of certain maturities, or portions of maturities, of general obligation bonds previously issued by the State for general governmental purposes **(Advance Refunding)**. The refunded maturities, or portions of maturities, associated with the Advance Refunding are currently outstanding in the total principal amount of \$134,505,000 **(Advance Refunded Bonds)**.

APPENDIX D identifies and provides information about the Current Refunded Bonds and the Advance Refunded Bonds **(Refunded Bonds)**.

Invitation to Tender Bonds

On October 3, 2022, the State released an Invitation to Offers to Tender Bonds **(Invitation)**, inviting holders of certain maturities of the State's outstanding general obligation bonds **(Invited Bonds)** to tender Invited Bonds for purchase by the State on the terms and conditions set forth in the Invitation. The purpose of the Invitation was to give the State the opportunity to retire the Invited Bonds on the date of issuance of the Bonds **(Settlement Date)**. The expiration date of the Invitation was October 18, 2022.

Pursuant to the Invitation, the owners of certain of the Invited Bonds have tendered their Invited Bonds **(Tendered Bonds)** for cash and, subject to the conditions set forth in the Invitation, the State expects to purchase some of the Tendered Bonds at the purchase prices and on the other terms set forth in the Invitation, as supplemented and amended including by a pricing notice. Tendered Bonds purchased by the State **(Purchased Bonds)** will be canceled on the Settlement Date and will no longer be deemed outstanding. Funds to pay the purchase price of the Purchased Bonds, and to pay the costs of the Invitation, are expected to be provided from the proceeds of the Bonds, and from other funds of the State.

This discussion is not intended to summarize the terms of the Invitation, or to solicit offers to tender Invited Bonds, and reference is made to the Invitation for a discussion of the terms of the Invitation and the conditions for settlement of the Invited Bonds validly tendered and accepted for purchase. The State has filed the Invitation with the Municipal Securities Rulemaking Board **(MRSB)** through its Electronic Municipal Market Access **(EMMA)** system, and a copy is available from the State as provided on page **A-2**.

APPENDIX D identifies and provides information about the Purchased Bonds, which constitute all of the Current Refunded Bonds.

Current Refunding

Upon delivery of the Bonds, a portion of the proceeds of the 2022 Series 4 Bonds will be deposited into the State's Bond Security and Redemption Fund. Those proceeds will be used to pay the purchase price of the Purchased Bonds (being the Current Refunded Bonds), including accrued interest, on the Settlement Date.

Advance Refunding

To provide for the Advance Refunding, portions of the proceeds of the 2022 Series 4 Bonds and the 2022 Series 5 Bonds will be used to purchase a portfolio of securities (**Escrow Obligations**), which by State statutes must be direct, noncallable general obligations of the United States or its agencies, corporations wholly owned by the United States, the Federal National Mortgage Association, or any corporation chartered by an act of Congress. The Escrow Obligations, together with the interest to be earned, and a beginning cash deposit, will be sufficient to pay when due

- the interest on the Advance Refunded Bonds to and including their respective maturity or redemption dates, and
- the principal or redemption price of the Advance Refunded Bonds on their respective maturity or redemption dates.

Refunding Escrow Agreement

The Escrow Obligations, the beginning cash balance, and the interest earnings will be held in an escrow fund (**Escrow Fund**) created by a Refunding Escrow Agreement (**Escrow Agreement**), between the State and Zions Bancorporation, National Association (**Escrow Trustee**), solely for the benefit of the owners of the Advance Refunded Bonds. The Escrow Fund will not serve as security for or be available for the payment of principal of or interest on the Bonds.

The Escrow Fund will be held by the Escrow Trustee in trust to make payments of principal or redemption price of, and interest on, the Advance Refunded Bonds. The Escrow Fund will be held by the Escrow Trustee separate and apart from all other funds or accounts held by the Escrow Trustee. No fees or other charges of the Escrow Trustee may be paid from moneys in the Escrow Fund. Instead, the Escrow Agreement provides that the State will pay all such fees and charges to the Escrow Trustee from other available funds.

The arithmetical accuracy of the computations of the sufficiency of the amounts deposited into the Escrow Fund will be independently verified by Samuel Klein and Company, Certified Public Accountants (**Verification Agent**).

Use of Proceeds and Pledge

The portion of the proceeds of the 2022 Series 4 Bonds deposited into the Bond Security and Redemption Fund may be expended only for the payment of the purchase price of the Current Refunded Bonds (which consist solely of the Purchased Bonds).

All money in the Escrow Fund may be expended only for the payment of the principal or redemption price of, and interest on, the Advance Refunded Bonds. However, notwithstanding the amounts in the Bond Security and Redemption Fund and the Escrow Fund, there is irrevocably appropriated, as a first charge on all revenues of the State, a sum sufficient for the payment of the Refunded Bonds. Each year, for the purpose of determining the constitutional limit on public debt, the amounts held in the Bond Security and Redemption Fund and the Escrow Fund will be subtracted from the amount of outstanding aggregate public debt of the State.

THE BONDS

General

The **inside front cover of this Official Statement** sets forth the maturity dates, principal amounts, interest rates, and other information for the Bonds. The Bonds are being issued in book-entry-only form, so the registered owner will be a securities depository or its nominee. The Commission has appointed The Depository Trust Company, New York, New York (**DTC**), as the securities depository for the Bonds. See **“THE BONDS; Book-Entry-Only Form”**.

The Bonds will be dated their date of delivery (expected to be November 3, 2022) and will bear interest from that date, payable on May 1 and November 1 of each year, beginning on May 1, 2023.

Interest on the Bonds will be computed on the basis of a 360-day year of twelve 30-day months. So long as the Bonds are in book-entry-only form, payments of the principal of, and premium, if any, and interest on, each Bond will be paid to the securities depository.

The Bonds are being issued as fully-registered bonds in initial principal denominations of \$5,000 or multiples of \$5,000.

Security

The Bonds are direct and general obligations of the State. The Wisconsin Constitution pledges the full faith, credit, and taxing power of the State to make principal and interest payments on general obligations, and requires the Legislature to provide for their payment by appropriation. The Wisconsin Statutes establish, as security for the payment of all debt service on general obligations, a first charge upon all revenues of the State. Further, a sufficient amount of those revenues is irrevocably appropriated for the payment of the principal of, and interest on, general obligations, so that no subsequent legislative action is required to release such revenues. The Bonds are secured equally with all other outstanding general obligations issued by the State.

Redemption Provisions

Optional Redemption at Par

The 2022 Series 4 Bonds maturing on or after May 1, 2033 may be redeemed on May 1, 2032, or any date thereafter, in whole or in part in multiples of \$5,000, at a redemption price equal to par (100% of the principal amount to be redeemed), plus accrued interest to the redemption date.

The 2022 Series 5 Bonds maturing on or after May 1, 2033 may be redeemed on May 1, 2032, or any date thereafter, in whole or in part in multiples of \$5,000, at a redemption price equal to par (100% of the principal amount to be redeemed), plus accrued interest to the redemption date.

Optional Redemption with Make Whole Premium

The 2022 Series 5 Bonds may also be redeemed at any time, in whole or in part in multiples of \$5,000, in such principal amounts and from such maturities as the Commission may determine, at a redemption price (**Make-Whole Redemption Price**) equal to the greater of:

- (A) 100% of the principal amount of the 2022 Series 5 Bonds to be redeemed, or
- (B) the sum of the present values of the remaining scheduled payments of principal and interest on the 2022 Series 5 Bonds to be redeemed (exclusive of interest accrued to the date on which such 2022 Series 5 Bonds are to be redeemed), discounted to the date of redemption of such 2022 Series 5 Bonds on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate (as defined below) plus (i) 5 basis points (0.05%) for the 2022 Series 5 Bonds maturing on May 1, 2027, (ii) 10 basis points (0.10%) for the 2022 Series 5 Bonds maturing May 1, 2028, (iii) 15 basis points (0.15%) for the 2022 Series 5 Bonds maturing on May 1, 2031, (iv) 17.5 basis points (0.175%) for the 2022 Series 5 Bonds maturing May 1, 2033 and 2034, and (v) 25 basis points (0.25%) for the 2022 Series 5 Bonds maturing May 1, 2035 through 2037,

plus, in each case, accrued interest on the 2022 Series 5 Bonds to be redeemed to the date fixed for redemption.

For purposes of determining the Make-Whole Redemption Price:

- (i) “Treasury Rate” means, with respect to any redemption date for a particular 2022 Series 5 Bond, the yield to maturity of United States Treasury securities (excluding inflation indexed securities) with a constant maturity (as compiled and published in the Federal Reserve Statistical Release H.15 (519) that has become publicly available not less than two Business Days nor more than 45 calendar days prior to the redemption date (or, if such Statistical Release is no longer published, any publicly available source of similar market data)), most nearly equal to the period from the redemption date to the maturity date of the 2022 Series 5 Bond to be redeemed, as determined by the Designated Consultant; provided, however, that if the period from the redemption date to such maturity date is less than one year, the weekly average yield on actually traded United States Treasury securities adjusted to a constant maturity of one year will be used.
- (ii) “Designated Consultant” means an independent accounting firm, investment banking firm, or financial advisor retained by the State at the State’s expense.
- (iii) “Business Day” means a day which is not (1) a Saturday or Sunday, (2) a day on which commercial banks are required or authorized by law to be closed in the State, or (3) a day on which The New York Stock Exchange is closed for the entire day or the federal reserve banks are closed.

Selection of Bonds

If less than all the Bonds of a given series are to be redeemed at the option of the State, the particular maturities of such Bonds to be redeemed will be determined by the Capital Finance Director.

So long as the 2022 Series 4 Bonds are in book-entry-only form, selection of the beneficial owners affected by the redemption will be made by the securities depository and its participants in accordance with their rules.

So long as the 2022 Series 5 Bonds are in book-entry-only form and DTC or a successor securities depository is the sole registered owner of such 2022 Series 5 Bonds, if some but less than all of the 2022 Series 5 Bonds of a particular maturity are to be redeemed on any date, the State shall instruct DTC to provide for a pro rata redemption in accordance with its procedures as a pro rata pass-through distribution of principal, or if the DTC operational arrangements do not allow for pro rata pass-through distribution of principal, the 2022 Series 5 Bonds to be redeemed shall be selected by lot; provided that, so long as such 2022 Series 5 Bonds are registered in the book-entry-only system, the selection for redemption of the 2022 Series 5 Bonds will be in accordance with operational arrangements of DTC then in effect.

It is the State’s intent that redemption allocations with respect to the 2022 Series 5 Bonds made by DTC be made on a pro rata pass-through distribution of principal basis as described above. However, the State cannot provide any assurance that DTC, DTC’s direct and indirect participants or any other intermediary will allocate the redemption of 2022 Series 5 Bonds on such basis, nor will the State be responsible for any failure of DTC, DTC’s direct and indirect participants, or other intermediary to do so.

Notice of Redemption

So long as the Bonds of a given series are in book-entry-only form, any redemption notice for such Bonds will be sent to the securities depository between 30 and 60 days before the redemption date. A redemption notice may be revoked by sending notice to the securities depository at least 15 days before the proposed redemption date.

Interest on any Bond called for redemption will cease to accrue on the redemption date so long as the Bond is paid or money is provided for its payment.

Registration and Payment of Bonds

So long as the Bonds are in book-entry-only form, payment of the principal of, and premium if any, and interest on, the Bonds on each payment date will be made by wire transfer to the securities depository or its nominee by the **Paying Agent**—which is the Secretary of Administration.

Ratings

The following ratings have been assigned to the Bonds:

<u>Rating</u>	<u>Rating Organization</u>
AAA	Kroll Bond Rating Agency, LLC
Aa1	Moody's Investors Service, Inc.
AA+	S&P Global Ratings

Any explanation of what a rating means may only be obtained from the rating organization giving the rating. A securities rating is not a recommendation to buy, sell, or hold securities and may be subject to revision or withdrawal at any time. A rating organization may lower or withdraw its rating if in its judgment circumstances so warrant. Any downgrade or withdrawal of a rating may adversely affect the market price of the Bonds. The State may elect not to continue requesting ratings on the Bonds from any particular rating organization or may elect to request ratings on the Bonds from a different rating organization.

Sources and Uses of Funds

The proceeds from the sale of the Bonds are expected to be used as follows:

	<u>2022 Series 4 Bonds</u>	<u>2022 Series 5 Bonds</u>	<u>Total</u>
Sources			
Principal Amount	\$257,090,000.00	\$20,585,000.00	\$277,675,000.00
Original Issue Premium	29,067,630.25	-	29,067,630.25
TOTAL SOURCES	\$286,157,630.25	\$20,585,000.00	\$306,742,630.25
Uses			
Deposit to Escrow Fund	\$105,103,075.06	\$20,457,100.60	\$125,560,175.66
Deposit to Bond Security and Redemption Fund	179,005,481.91	-	179,005,481.91
Underwriters' Discount	1,215,376.71	98,071.02	1,313,447.73
Costs of Issuance	833,696.57	29,828.38	863,524.95
TOTAL USES	\$286,157,630.25	\$20,585,000.00	\$306,742,630.25

Book-Entry-Only Form

The Bonds are being initially issued in book-entry-only form. Purchasers of the Bonds will not receive bond certificates but instead will have their ownership in the Bonds recorded in the book-entry system.

Bond certificates are to be issued and registered in the name of a nominee of DTC, which acts as a securities depository for the Bonds. Ownership of the Bonds by the purchasers is shown in the records of brokers and other organizations participating in the DTC book-entry system (**DTC Participants**). All transfers of ownership in the Bonds must be made, directly or indirectly, through DTC Participants.

Payment

The State will make all payments of principal of, and premium, if any, and interest on, the Bonds to DTC. Owners of the Bonds will receive payments through the DTC Participants.

Notices and Voting Rights

The State will provide any redemption notices or other communications about the Bonds to DTC. Owners of the Bonds will receive any redemption notices or other communications through the DTC Participants. In any situation involving voting rights, DTC will not vote but will rather give a proxy through the DTC Participants.

Redemption

If less than all the 2022 Series 4 Bonds of a given maturity are being redeemed, DTC's practice is to determine by lottery the amount of the 2022 Series 4 Bonds to be redeemed from each DTC Participant.

If less than all the 2022 Series 5 Bonds of a given maturity are being redeemed, the redemption price shall be allocated to all beneficial owners of the 2022 Series 5 Bonds on a pro rata pass-through distribution of principal basis in accordance with DTC procedures. See "**THE BONDS; Redemption Provisions; Selection of Bonds**".

Discontinued Service

In the event that participation in DTC's book-entry system were to be discontinued without a successor securities depository being appointed, bond certificates would be executed and delivered to DTC Participants.

Further Information

Further information concerning DTC and DTC's book-entry system is available at www.dtcc.com. The State is not responsible for any information available on DTC's website. That information may be subject to change without notice.

The State is not responsible for any failure by DTC or any DTC Participant to transfer payments or notices to the owners of the Bonds or to follow the procedures established by DTC for its book-entry system.

Redemption and Payment if Bonds are not in Book-Entry-Only Form

In the event the Bonds were not in book-entry-only form, how the Bonds are redeemed and paid would differ from the descriptions above.

2022 Series 4 Bonds would be selected for redemption by lot.

Each owner of a 2022 Series 5 Bond would receive an amount equal to the total principal amount of 2022 Series 5 Bonds to be redeemed times a fraction, the numerator of which is the principal amount of the 2022 Series 5 Bonds of such maturity held by the registered owner and the denominator of which is the principal amount of all 2022 Series 5 Bonds of such maturity then outstanding.

Any redemption notice would be published between 30 and 60 days before the date of redemption in a financial newspaper published or circulated in New York, New York. The notice would also be mailed, postage prepaid, between 30 and 60 days before the redemption date, to the registered owners of any Bonds to be redeemed. The mailing, however, would not be a condition to the redemption; any proceedings to redeem the Bonds would still be effective even if the notice were not mailed. A redemption notice could be revoked by publication of a notice at least 15 days before the proposed redemption date in a financial newspaper published or circulated in New York, New York. Any revocation notice would also be mailed, postage prepaid, at least 15 days before the proposed redemption date to the registered owners of any Bonds to have been redeemed. The mailing, however, would not be a condition to the revocation; the revocation would still be effective even if the notice were not mailed. Interest on any Bond called for redemption would cease to accrue on the redemption date so long as the Bond was paid or money was provided for its payment.

Payment of principal and premium, if any, would be made by check or draft issued upon the presentation and surrender of the Bonds at the principal office of the Paying Agent, as designated by the Commission. Payment of interest due on the Bonds would be made by check or draft mailed to the registered owner

shown in the registration book at the close of business on the record date—which is the 15th day (whether or not a business day) of the calendar month before the interest payment date.

UNDERWRITING

General

The Bonds are being purchased by the **Underwriters** listed on the **front cover**, for which Jefferies LLC is acting as the representative (**Representative**).

The Underwriters have agreed, subject to certain conditions, to purchase the 2022 Series 4 Bonds from the State at an aggregate purchase price of \$284,942,253.54, reflecting an original issue premium \$29,067,630.25 and an Underwriters' discount of \$1,215,376.71, and to purchase the 2022 Series 5 Bonds from the State at an aggregate purchase price of \$20,486,928.98, reflecting an Underwriters' discount of \$98,071.02. The Underwriters' obligations are subject to certain conditions, and they will be obligated to purchase all the Bonds if any Bonds are purchased.

The Purchased Bonds are being tendered under the terms of the Invitation through Jefferies LLC and Siebert Williams Shank & Co., LLC, as Dealer Managers (**Dealer Managers**). For their services as Dealer Managers, the Dealer Managers will be compensated (**Dealer Manager Fee**) in an amount equal to a percentage of the aggregate principal amount of the Purchased Bonds. The Dealer Manager Fee is expected to be paid from proceeds of the 2022 Series 4 Bonds.

The Underwriters have agreed to reoffer the Bonds at the public offering prices set forth on the **inside front cover**. The Bonds may be offered and sold to certain dealers (including dealers depositing the Bonds into investment trusts) at prices lower than such public offering prices, and such prices may be changed, from time to time, by the Underwriters.

Certain of the Underwriters may have entered into distribution agreements with third-party broker-dealers, under which the Underwriters may distribute municipal securities to investors through the respective financial advisors or electronic trading platforms of such third-party broker-dealers. As part of these arrangements, the Underwriters may share a portion of their underwriting compensation with such third-party broker-dealers.

Certain legal matters will be passed upon for the Underwriters by their counsel, Ice Miller LLP.

The Underwriters and their respective affiliates include full-service financial institutions engaged in various activities, which may include sales and trading, commercial and investment banking, advisory, investment management, investment research, principal investment, hedging, market making, brokerage, and other financial and non-financial activities and services. In the course of their various business activities, the Underwriters and their respective affiliates, officers, directors, and employees may purchase, sell, or hold a broad array of investments and actively trade securities, derivatives, loans, commodities, currency, credit default swaps, and other financial instruments for their own accounts and for the accounts of their customers, and such investment and trading activities may involve or relate to assets, securities, or other instruments of the State (directly, as collateral securing other obligations, or otherwise) or of others that have relationships with the State. The Underwriters and their respective affiliates may also communicate independent investment recommendations, market color, or trading ideas or publish or express independent research views in respect of such assets, securities, or instruments and may at any time hold, or recommend to clients that they should acquire, long or short positions in such assets, securities, or instruments.

If an Underwriter or its affiliate is an owner of Refunded Bonds, that Underwriter or affiliate would receive a portion of the proceeds from the issuance of the Bonds in connection with the redemption or purchase of those Refunded Bonds.

Priority of Allocations of 2022 Series 4 Bonds

The State has advised the Underwriters that any holder of the Invited Bonds who tenders any Invited Bonds in the Tender Offer and who submits an order to purchase 2022 Series 4 Bonds may, subject to the following sentence, have a preference of allocation of the 2022 Series 4 Bonds up to the principal amount

of the Invited Bonds that such holder is tendering. The Representative has the discretion to accept orders outside of the State's advised priorities if it determines that it is in the best interests of the Underwriters of the 2022 Series 4 Bonds, as provided in the rules of the Municipal Securities Rulemaking Board. The State also has the discretion to alter its instructions.

OTHER INFORMATION

Limitations on Issuance of General Obligations

General obligations issued by the State are subject to debt limits set forth in the Wisconsin Constitution and the Wisconsin Statutes. There is an annual debt limit of three-quarters of one percent, and a cumulative debt limit of five percent, of the aggregate value of all taxable property in the State. Currently, the annual debt limit is \$5,588,711,543 and the cumulative debt limit is \$37,258,076,955. Funding or refunding obligations (such as the Bonds) are not subject to the annual limit but are accounted for in applying the cumulative debt limit. Accrued interest on any obligation that is not paid during the fiscal year in which it accrues is treated as debt and taken into account for purposes of the debt limitations.

As of October 1, 2022, general obligations of the State were outstanding in the aggregate principal amount of \$7,093,037,888. The issuance of the Bonds will not cause the State to exceed its annual debt limit or its cumulative debt limit.

Borrowing Plans for Calendar Year 2022

General Obligations

The Bonds will be the sixth and seventh series of general obligations to be issued in calendar year 2022. The State has previously issued three series of general obligations in calendar year 2022, in the aggregate principal amount of \$308 million, for the funding or refunding of general obligations previously issued for general governmental purposes. The State has also issued two series of general obligations in the principal amount of \$320 million for general governmental purposes. The State has also sold one series of general obligation refunding bonds in calendar year 2022, in the principal amount of \$126 million, for delivery on or about January 31, 2023.

In addition, the Commission has authorized the issuance of the following general obligations:

- Up to \$604 million of additional general obligations for the refunding of general obligation bonds previously issued for general governmental purposes. Authorizations of the Commission are only valid for one year and, as a result, the authorized amount of general obligations for refunding purposes reduces to \$500 million on October 21, 2022. The amount and timing of any sale and issuance of any additional general obligations for refunding purposes depend, among other factors, on market conditions.
- General obligations for the funding of the State's outstanding extendible municipal commercial paper notes (**EMCP**) and variable rate demand obligation notes (**VRDO Notes**), which were outstanding in the amount of \$127 million as of October 1, 2022. On June 22, 2022, the Commission adopted a new program resolution for its EMCP, to replace the existing EMCP program resolution. On August 8, 2022 the State released an Offering Memorandum for the placement of its EMCP under the new program resolution, and on August 18, 2022, the State issued \$73 million of EMCP to fund its outstanding EMCP issued under the previous program resolution. The amount and timing of any issuance of general obligations for the funding of the State's EMCP or VRDO Notes depend on a decision to fund such obligations with a different form of variable-rate obligations or with bonds bearing fixed interest rates.

In December 2022, the Commission likely will be asked to authorize the issuance of additional general obligations for general governmental purposes in the principal amount of up to approximately \$300 million. If such authorization is provided, the State intends to sell general obligations in the form of fixed-rate bonds at competitive sale, with delivery in January 2023.

Other Obligations

The State has not issued any transportation revenue obligations for the financing of transportation facilities and highway projects in calendar year 2022. The authorization, sale, and issuance of any transportation revenue obligations depend on the expenditures for such projects and market conditions. The Commission has authorized up to \$300 million of transportation revenue obligations to refund outstanding transportation revenue bonds. The amount and timing of any issuance of transportation revenue refunding bonds depend, among other factors, on market conditions.

The State has not issued any general fund annual appropriation refunding bonds in calendar year 2022. The amount and timing of any issuance of general fund annual appropriation refunding bonds depend, among other factors, on market conditions.

The State has not issued any environmental improvement fund revenue bonds in calendar year 2022. The Commission has authorized up to \$150 million of environmental improvement fund revenue bonds for the purpose of making loans under the State's Environmental Improvement Fund. The State has issued a Preliminary Official Statement, dated October 18, 2022, for the competitive sale of \$50 million of environmental improvement bonds on October 25, 2022, with delivery on November 17, 2022.

The State has issued one series of master lease certificates of participation in calendar year 2022, in the principal amount of \$24 million, to fund or refund outstanding master lease certificates of participation. The amount and timing of any additional issuance of master lease certificates of participation depend, among other factors, on originations in the State's master lease program and market conditions.

The State does not currently intend to issue operating notes for the 2022-23 fiscal year.

Reference Information About the Bonds

Information about the Bonds is provided for reference in the tables on the **inside front cover** of this Official Statement. The CUSIP number for each maturity has been obtained from a source the State believes to be reliable, but the State is not responsible for the correctness of the CUSIP numbers. The Underwriters have provided the reoffering yields and prices for the Bonds.

Municipal Advisor

Baker Tilly Municipal Advisors, LLC (**Municipal Advisor**) has been retained by the State to perform professional services in the capacity of municipal advisor in connection with certain aspects of the issuance of the Bonds. The Municipal Advisor is a registered municipal advisor with the Securities Exchange Commission and the MSRB and is a controlled subsidiary of Baker Tilly US, LLP. The Municipal Advisor has provided financial advisor services and advice on the Invitation, the plan of refunding, and the structure of the Bonds. The Municipal Advisor also reviewed certain legal and disclosure documents, including this Official Statement, for financial matters, but the Municipal Advisor makes no representation, warranty, or guarantee regarding the accuracy or completeness of the information in this Official Statement. The Municipal Advisor also has reviewed the pricing of the Bonds by the Underwriters. The Municipal Advisor will receive compensation contingent upon the sale and delivery of the Bonds.

Verification of Mathematical Computations

The arithmetical accuracy of certain computations will be independently verified by the Verification Agent. These computations, which were provided by the Underwriters, indicate that the projected receipts from the Escrow Obligations, together with an initial cash deposit, are sufficient to make all payments of the principal or redemption price of, and interest on, the Advance Refunded Bonds through their respective maturity or redemption dates.

The Verification Agent relied upon assumptions and information supplied by the Underwriters and the Municipal Advisor on behalf of the State and has not made any study or examination of them, except as noted in its report. The Verification Agent has not expressed an opinion on the reasonableness of the assumptions or the likelihood that the debt service requirements of the Advance Refunded Bonds will be paid as described in its report.

Legal Investment

State law provides that the Bonds are legal investments for the following:

- Banks, trust companies, bankers, savings banks and institutions, building and loan associations, savings and loan associations, credit unions, investment companies, and other persons or entities carrying on a banking business.
- Personal representatives, guardians, trustees, and other fiduciaries.
- The State and all public officers, municipal corporations, political subdivisions, and public bodies.

Legal Opinions

Bond Opinion

Legal matters relating to the authorization, issuance, and sale of the Bonds are subject to the approval of **Bond Counsel**, which is Foley & Lardner LLP. When the Bonds are delivered, Bond Counsel will deliver an approving opinion in substantially the form shown in **APPENDIX C**. If certificated Bonds were issued, then the opinion would be printed on the reverse side of each Bond.

Attorney General

As required by law, the office of the Attorney General will examine a certified copy of all proceedings leading to issuance of the Bonds. When the Bonds are delivered, the Attorney General will deliver an opinion on the regularity and validity of the proceedings with respect to the Bonds. The Attorney General's opinion will also state that there is no action, suit, or proceeding, either pending or threatened in writing, known to the Attorney General, restraining or enjoining the issuance, sale, execution, or delivery of the Bonds, and there also is no action, suit, or proceeding, either pending or threatened in writing, known to the Attorney General, in any way contesting or affecting (1) the titles to their respective offices of any of the State officers involved in the issuance of the Bonds, (2) the validity of the Bonds or any of the proceedings taken with respect to the issuance, sale, execution, or delivery of the Bonds, or (3) the pledge or application of any moneys or security provided for the payment of the Bonds.

If certificated Bonds were issued, then a certificate of the Attorney General would be printed on the reverse side of each Bond.

Other Legal Matters

The State and its officers and employees are defendants in numerous lawsuits. The State does not expect that any pending litigation will be finally determined so as to result individually or in the aggregate in final judgments against the State that would materially affect the State's ability to pay the principal of and interest on the Bonds.

ERISA Considerations

The Employee Retirement Income Security Act of 1974, as amended (**ERISA**), imposes certain fiduciary and prohibited transaction restrictions on employee pension and welfare benefit plans subject to ERISA (**ERISA Plans**). Section 4975 of the Internal Revenue Code of 1986, as amended (**Code**) imposes essentially the same prohibited transaction restrictions on tax-qualified retirement plans described in Section 401(a) of the Code (**Qualified Retirement Plans**) and on individual retirement accounts described in Section 408(b) of the Code (collectively, **Tax-Favored Plans**). Certain employee benefit plans, such as governmental plans (as defined in Section 3(32) of ERISA) and, if no election has been made under Section 410(d) of the Code, church plans (as defined in Section 3(33) of ERISA), are not subject to ERISA requirements (**Non-ERISA Plans**). Accordingly, assets of such plans may be invested in Bonds without regard to the ERISA considerations described below, subject to the provisions of applicable federal and state law. Any such plan which is a Qualified Retirement Plan and exempt from taxation under Sections 401(a) and 501(a) of the Code, however, is subject to the prohibited transaction rules set forth in the Code.

Section 404 of ERISA imposes a number of general fiduciary requirements, including those of investment prudence and diversification and the requirement that a plan's investment be made in accordance with the documents governing the plan. In addition, Section 406 of ERISA and Section 4975 of the Code prohibit a broad range of transactions involving assets of ERISA Plans and Tax-Favored Plans and entities with underlying assets that include plan assets by reason of ERISA Plans or Tax-Favored Plans investing in such entities (collectively, **Benefit Plans**) and persons who have certain specified relationships to the Benefit Plans (**Parties in Interest** or **Disqualified Persons**) unless a statutory or administrative exemption is available. Fiduciaries with respect to a Benefit Plan that participate in a non-exempt prohibited transaction may incur personal liability under Section 409 of the Code.

Certain other Parties in Interest (or Disqualified Persons) that participate in a non-exempt prohibited transaction may be subject to a penalty (or an excise tax) imposed pursuant to Section 502(i) of ERISA (or Section 4975 of the Code).

Certain transactions involving the purchase, holding, or transfer of Bonds might be deemed to constitute prohibited transactions under ERISA and the Code if assets of the State were deemed to be assets of a Benefit Plan. Under a regulation issued by the United States Department of Labor (**Plan Assets Regulation**), as modified by Section 3(42) of ERISA, the assets of the State would be treated as plan assets of a Benefit Plan for the purposes of ERISA and the Code only if the Benefit Plan acquires an "equity interest" in the State and none of the exceptions contained in the Plan Assets Regulation is applicable. An equity interest is defined under the Plan Assets Regulation as an interest in an entity other than an instrument which is treated as indebtedness under applicable local law and which has no substantial equity features. Although there can be no assurances in this regard, the Bonds should be treated as debt without substantial equity features for purposes of the Plan Assets Regulation. Nevertheless, the acquisition or holding of Bonds by or on behalf of a Benefit Plan could be considered to give rise to a prohibited transaction if the State, or any of its affiliates, is or becomes a Party in Interest or a Disqualified Person with respect to such Benefit Plan. A prohibited transaction could also occur in the event that a Benefit Plan transfers a Bond to a Party in Interest or a Disqualified Person. In such case, certain exemptions from the prohibited transaction rules could apply depending on the type and circumstances of the plan fiduciary making the decision to acquire a Bond. Included among these exemptions are: Prohibited Transaction Class Exemption (PTCE) 96-23, regarding transactions effected by "in-house asset managers"; PTCE 90-1, regarding investments by insurance company pooled separate accounts; PTCE 95-60, regarding transactions effected by "insurance company general accounts"; PTCE 91-38, regarding investments by bank collective investment funds; and PTCE 84-14, regarding transactions effected by "qualified professional assets managers."

Any ERISA Plan fiduciary considering whether to purchase Bonds on behalf of an ERISA Plan should consult with its counsel regarding the applicability of the fiduciary responsibility and prohibited transaction provisions of ERISA and the Code to such investment and the availability of any of the exemptions referred to above. Persons responsible for investing the assets of Tax-Favored Plans that are not ERISA Plans should seek similar counsel with respect to the prohibited transaction provisions of the Code. Persons responsible for investing the assets of employee benefit plans that are not subject to ERISA or the Code should seek counsel with respect to the compliance of such investment with all applicable laws and the governing plan documents.

The sale of the Bonds to a Benefit Plan or a Non-ERISA Plan is in no respect a representation by the State that such investment meets all relevant legal requirements or that such investment is otherwise appropriate for such Benefit Plan or Non-ERISA Plan.

TAX MATTERS

Tax Exemption—2022 Series 4 Bonds

Federal Income Tax

In the opinion of Bond Counsel, under existing law, interest on the 2022 Series 4 Bonds is excluded from gross income for federal income tax purposes and is not an item of tax preference for purposes of the federal alternative minimum tax imposed on individuals; however, interest on the 2022 Series 4 Bonds is

taken into account in determining “adjusted financial statement income” for purposes of computing the federal alternative minimum tax imposed on certain corporations for taxable years beginning after December 31, 2022. The State must comply with certain requirements of the Internal Revenue Code for interest on the 2022 Series 4 Bonds to be, or continue to be, excluded from gross income for federal income tax purposes. The State has agreed to comply with those requirements to the extent it may lawfully do so. Its failure to do so may cause interest on the 2022 Series 4 Bonds to be included in gross income for federal income tax purposes, perhaps even starting from the date on which the 2022 Series 4 Bonds are issued. No provision is made for an increase in interest rates or a redemption of the 2022 Series 4 Bonds in the event interest on the 2022 Series 4 Bonds is included in gross income.

The opinion of Bond Counsel will be based on legal authorities that are current as of its date, will cover certain matters not directly addressed by those authorities, and will represent Bond Counsel’s judgment regarding the proper treatment of the 2022 Series 4 Bonds for federal income tax purposes. It will not be binding on the Internal Revenue Service (**IRS**) or the courts and will not be a guaranty of result. As to questions of fact, Bond Counsel will rely upon certified proceedings and certifications of public officials and others without independently undertaking to verify them.

Bond Counsel will express no opinion about other federal tax matters regarding the 2022 Series 4 Bonds. Other federal tax law provisions may adversely affect the value of an investment in the 2022 Series 4 Bonds for particular owners of those 2022 Series 4 Bonds. Prospective investors should consult their own tax advisors about the tax consequences of owning a 2022 Series 4 Bond.

The IRS has an active tax-exempt bond enforcement program. Under current IRS procedures, owners of the 2022 Series 4 Bonds would have little or no right to participate in an IRS examination of the 2022 Series 4 Bonds. Moreover, it may not be practicable to obtain judicial review of IRS positions with which the State disagrees. Any action of the IRS, including selection of the 2022 Series 4 Bonds for examination, the conduct or conclusion of such an examination, or an examination of obligations presenting similar tax issues, may affect the marketability of the 2022 Series 4 Bonds.

The Inflation Reduction Act of 2022 (**Act**) was signed into law on August 16, 2022. For tax years beginning after December 31, 2022, the Act imposes an alternative minimum tax of 15% on the “adjusted financial statement income” of certain corporations. Interest on the Bonds will be taken into account in determining adjusted financial statement income. Other current and future legislative proposals, if enacted into law, may cause the interest on the 2022 Series 4 Bonds to be subject, directly or indirectly, to federal income taxation or otherwise prevent the owners of the 2022 Series 4 Bonds from realizing the full current benefit of the tax status of such interest. The introduction or enactment of any such legislative proposals may also affect the marketability of the 2022 Series 4 Bonds. Prospective investors should consult their own tax advisors about the Act and other federal legislative proposals.

Premium Bonds

2022 Series 4 Bonds purchased, whether at original issuance or otherwise, for an amount greater than their principal amount payable at maturity will be treated as having amortizable bond premium. No deduction is allowable for the amortizable bond premium in the case of bonds, such as the 2022 Series 4 Bonds, the interest on which is excluded from gross income for federal income tax purposes.

During each taxable year, an owner of 2022 Series 4 Bonds with amortizable bond premium must reduce his, her, or its tax basis in the 2022 Series 4 Bond by the amount of the amortizable bond premium that is allocable to the portion of that taxable year during which the owner owned the 2022 Series 4 Bond. The adjusted tax basis in a Bond will be used to determine taxable gain or loss upon a disposition (for example, upon a sale, exchange, or payment at maturity) of the 2022 Series 4 Bond.

Owners of 2022 Series 4 Bonds purchased at a premium should consult their own tax advisors with respect to the federal tax consequences of owning such 2022 Series 4 Bonds, including computation of their tax basis and the effect of any purchase of 2022 Series 4 Bonds that is not made in the initial offering at the issue price. Owners of such 2022 Series 4 Bonds should also consult their own tax advisors with respect to the state and local tax consequences of owning those 2022 Series 4 Bonds.

Tax Status—2022 Series 5 Bonds

The following discussion summarizes certain U.S. federal tax considerations generally applicable to holders of the 2022 Series 5 Bonds that acquire their 2022 Series 5 Bonds in the initial offering. The discussion below is based upon laws, regulations, rulings, and decisions in effect and available on the date hereof, all of which are subject to change, possibly with retroactive effect. Prospective investors should note that no rulings have been or are expected to be sought from the Internal Revenue Service (**IRS**) with respect to any of the U.S. federal tax consequences discussed below, and no assurance can be given that the IRS will not take contrary positions. Further, the following discussion does not deal with U.S. tax consequences applicable to any given investor, nor does it address the U.S. tax considerations applicable to all categories of investors, some of which may be subject to special taxing rules (regardless of whether or not such investors constitute U.S. Holders), such as certain U.S. expatriates, banks, REITs, RICs, insurance companies, tax-exempt organizations, dealers or traders in securities or currencies, partnerships, S corporations, estates and trusts, investors that hold their 2022 Series 5 Bonds as part of a hedge, straddle or an integrated or conversion transaction, or investors whose “functional currency” is not the U.S. dollar. Furthermore, it does not address (i) alternative minimum tax consequences or (ii) the indirect effects on persons who hold equity interests in a holder. This summary also does not consider the taxation of the 2022 Series 5 Bonds under state, local or non-U.S. tax laws. In addition, this summary generally is limited to U.S. tax considerations applicable to investors that acquire their 2022 Series 5 Bonds pursuant to this offering for the issue price that is applicable to such 2022 Series 5 Bonds (the first price at which a substantial amount of such 2022 Series 5 Bonds are sold to the public) and who will hold their 2022 Series 5 Bonds as “capital assets” within the meaning of Section 1221 of the Code.

As used herein, **U.S. Holder** means a beneficial owner of a 2022 Series 5 Bond that is a “United States person,” as defined in Section 7701(a)(30) of the Code, and generally means an individual citizen or resident of the United States, a corporation or other entity taxable as a corporation created or organized in or under the laws of the United States or any state thereof (including the District of Columbia), an estate the income of which is subject to U.S. federal income taxation, regardless of its source, or a trust where a court within the United States is able to exercise primary supervision over the administration of the trust and one or more United States Persons have the authority to control all substantial decisions of the trust (or a trust that has made a valid election under U.S. Treasury Regulations to be treated as a domestic trust). As used herein, **Non-U.S. Holder** generally means a beneficial owner of a 2022 Series 5 Bond (other than a partnership) that is not a U.S. Holder. If a partnership holds 2022 Series 5 Bonds, the tax treatment of such partnership or a partner in such partnership generally will depend upon the status of the partner and upon the activities of the partnership. Partnerships holding 2022 Series 5 Bonds, and partners in such partnerships, should consult their own tax advisors regarding the tax consequences of an investment in the 2022 Series 5 Bonds (including their status as U.S. Holders or Non-U.S. Holders).

It should be noted that certain taxpayers that are required to prepare certified financial statements or file financial statements with certain regulatory or governmental agencies may be required to recognize income, gain, and loss with respect to the 2022 Series 5 Bonds at the time that such income, gain, or loss is recognized on such financial statements instead of under the rules described below.

Prospective investors should consult their own tax advisors in determining the U.S. federal, state, local, or non-U.S. tax consequences to them from the purchase, ownership, and disposition of the 2022 Series 5 Bonds in light of their particular circumstances.

Interest on the 2022 Series 5 Bonds is not excluded from gross income for federal income tax purposes.

U.S. Holders

Principal and Interest. Interest on the 2022 Series 5 Bonds generally will be taxable to a U.S. Holder as ordinary interest income at the time such amounts are accrued or received, in accordance with the U.S. Holder’s method of accounting for U.S. federal income tax purposes.

To the extent that the issue price of any maturity of the 2022 Series 5 Bonds is less than the amount to be paid at maturity of such 2022 Series 5 Bonds (excluding amounts stated to be interest and payable at least annually over the term of such 2022 Series 5 Bonds) by more than a *de minimis* amount, the difference

may constitute original issue discount (**OID**). U.S. Holders of 2022 Series 5 Bonds will be required to include OID in income for U.S. federal income tax purposes as it accrues, in accordance with a constant yield method based on a compounding of interest (which may be before the receipt of cash payments attributable to such income). Under this method, U.S. Holders generally will be required to include in income increasingly greater amounts of OID in successive accrual periods.

2022 Series 5 Bonds purchased for an amount in excess of the principal amount payable at maturity (or, in some cases, at their earlier call date) will be treated as issued at a premium. A U.S. Holder of a 2022 Series 5 Bond issued at a premium may make an election, applicable to all debt securities purchased at a premium by such U.S. Holder, to amortize such premium, using a constant yield method over the term of such 2022 Series 5 Bond.

Sale or Other Taxable Disposition of the 2022 Series 5 Bonds. Unless a nonrecognition provision of the Code applies, the sale, exchange, redemption, retirement, or other disposition of a 2022 Series 5 Bond will be a taxable event for U.S. federal income tax purposes. In such event, in general, a U.S. Holder of a 2022 Series 5 Bond will recognize gain or loss equal to the difference between (i) the amount of cash plus the fair market value of property received (except to the extent attributable to accrued but unpaid interest on the 2022 Series 5 Bond, which will be taxed in the manner described above) and (ii) the U.S. Holder's adjusted U.S. federal income tax basis in the Bond (generally, the purchase price paid by the U.S. Holder for the 2022 Series 5 Bond, decreased by any amortized premium, and increased by the amount of any OID previously included in income by such U.S. Holder with respect to such 2022 Series 5 Bond). Any such gain or loss generally will be capital gain or loss. In the case of a non-corporate U.S. Holder of the 2022 Series 5 Bonds, the maximum marginal U.S. federal income tax rate applicable to any such gain will be lower than the maximum marginal U.S. federal income tax rate applicable to ordinary income if such U.S. Holder's holding period for the 2022 Series 5 Bonds exceeds one year. The deductibility of capital losses is subject to limitations.

Additional Tax on Net Investment Income. Under Section 1411 of the Code, an additional tax is imposed on individuals, in an amount equal to 3.8% of the lesser of (i) net investment income (defined as gross income from interest, dividends, net gain from disposition of property not used in a trade or business, and certain other listed items of gross income) and (ii) the excess of "modified adjusted gross income" of the individual over \$200,000 for unmarried individuals (\$250,000 for married couples filing a joint return or a surviving spouse). Prospective investors should consult with their own tax advisors concerning this additional tax, as it may apply to interest on the 2022 Series 5 Bonds as well as gain on the sale of a 2022 Series 5 Bond.

Information Reporting and Backup Withholding. Payments on the 2022 Series 5 Bonds generally will be subject to U.S. information reporting and possibly to "backup withholding." Under Section 3406 of the Code and applicable U.S. Treasury Regulations issued thereunder, a non-corporate U.S. Holder of the 2022 Series 5 Bonds may be subject to backup withholding at the current rate of 24% with respect to "reportable payments," which include interest paid on the 2022 Series 5 Bonds and the gross proceeds of a sale, exchange, redemption, retirement, or other disposition of the 2022 Series 5 Bonds. The payor will be required to deduct and withhold the prescribed amounts if (i) the payee fails to furnish a U.S. taxpayer identification number (**TIN**) to the payor in the manner required, (ii) the IRS notifies the payor that the TIN furnished by the payee is incorrect, (iii) there has been a "notified payee underreporting" described in Section 3406(c) of the Code, or (iv) the payee fails to certify under penalty of perjury that the payee is not subject to withholding under Section 3406(a)(1)(C) of the Code. Amounts withheld under the backup withholding rules may be refunded or credited against the U.S. Holder's federal income tax liability, if any, provided that the required information is timely furnished to the IRS. Certain U.S. Holders (including among others, corporations and certain tax-exempt organizations) are not subject to backup withholding. A U.S. Holder's failure to comply with the backup withholding rules may result in the imposition of penalties by the IRS.

Non-U.S. Holders

Principal and Interest. Subject to the discussions below under the headings “TAX MATTERS; Tax Status-2022 Series 5 Bonds; *Non-U.S. Holders; Information Reporting and Backup Withholding*” and “*Foreign Account Tax Compliance Act*,” payments of principal or redemption price of, and interest on, any 2022 Series 5 Bond to a Non-U.S. Holder, other than (1) a “controlled foreign corporation,” as such term is defined in the Code, which is related to the State through stock ownership and (2) a bank which acquires such 2022 Series 5 Bond in consideration of an extension of credit made pursuant to a loan agreement entered into in the ordinary course of business, will not be subject to any U.S. federal withholding tax provided that the beneficial owner of the 2022 Series 5 Bond provides a certification completed in compliance with applicable statutory and regulatory requirements, which requirements are discussed below under the heading “*Information Reporting and Backup Withholding*,” or an exemption is otherwise established.

Disposition of the 2022 Series 5 Bonds. Subject to the discussions below under the headings “TAX MATTERS; Tax Status-2022 Series 5 Bonds; *Non-U.S. Holders; Information Reporting and Backup Withholding*” and “*Foreign Account Tax Compliance Act*,” any gain realized by a Non-U.S. Holder upon the sale, exchange, redemption, retirement (including pursuant to an offer by the State or a deemed retirement due to defeasance of the 2022 Series 5 Bond), or other disposition of a 2022 Series 5 Bond generally will not be subject to U.S. federal income tax, unless (i) such gain is effectively connected with the conduct by such Non-U.S. Holder of a trade or business within the United States; or (ii) in the case of any gain realized by an individual Non-U.S. Holder, such holder is present in the United States for 183 days or more in the taxable year of such sale, exchange, redemption, retirement, or other disposition and certain other conditions are met.

U.S. Federal Estate Tax. A 2022 Series 5 Bond that is held by an individual who at the time of death is not a citizen or resident of the United States will not be subject to U.S. federal estate tax as a result of such individual’s death, provided that, at the time of such individual’s death, payments of interest with respect to such 2022 Series 5 Bond would not have been effectively connected with the conduct by such individual of a trade or business within the United States.

Information Reporting and Backup Withholding. Subject to the discussion below under the heading “TAX MATTERS; Tax Status-2022 Series 5 Bonds; *Non-U.S. Holders; Foreign Account Tax Compliance Act*,” under current U.S. Treasury Regulations, payments of principal or redemption price of, and interest on, any 2022 Series 5 Bonds to a Non-U.S. Holder will not be subject to any backup withholding tax requirements if the beneficial owner of the 2022 Series 5 Bond or a financial institution holding the 2022 Series 5 Bond on behalf of the beneficial owner in the ordinary course of its trade or business provides an appropriate certification to the payor and the payor does not have actual knowledge that the certification is false. If a beneficial owner provides the certification, the certification must give the name and address of such owner, state that such owner is not a United States person, or, in the case of an individual, that such owner is neither a citizen nor a resident of the United States, and be signed by the owner under penalties of perjury. The current backup withholding tax rate is 24%.

Foreign Account Tax Compliance Act. Sections 1471 through 1474 of the Code (**FATCA**) impose a 30% withholding tax on certain types of payments made to foreign financial institutions, unless (i) the foreign financial institution enters into an agreement with the U.S. Treasury to, among other things, undertake to identify accounts held by certain U.S. persons or U.S.-owned entities, annually report certain information about such accounts, and withhold 30% on payments to account holders whose actions prevent it from complying with these and other reporting requirements, or (ii) the foreign financial institution is otherwise exempt from those requirements. In addition, FATCA imposes a 30% withholding tax on the same types of payments to a non-financial foreign entity unless the entity certifies that it does not have any substantial U.S. owners or the entity furnishes identifying information regarding each substantial U.S. owner. Failure to comply with the additional certification, information reporting, and other specified requirements imposed under FATCA could result in the 30% withholding tax being imposed on payments of principal of and interest on the 2022 Series 5 Bonds and sales proceeds of the 2022 Series 5 Bonds held by or through a foreign entity. In general, withholding under FATCA currently applies to payments of U.S. source

interest (including OID) and to gross proceeds from the sale, exchange, or retirement of debt obligations. However, the IRS has issued proposed regulations, upon which taxpayers may generally rely, that exclude gross proceeds from the sale, exchange, or retirement of debt obligations such as the 2022 Series 5 Bonds from the application of the withholding tax imposed under FATCA. Prospective investors should consult their own tax advisors regarding FATCA and its effect on them.

State Tax Considerations

General

In addition to the federal income tax consequences described above, potential investors should consider the state income tax consequences of the acquisition, ownership, and disposition of the Bonds. State income tax law may differ substantially from the corresponding federal law, and the foregoing is not intended to describe any aspect of the income tax laws of any state. Therefore, potential investors should consult their own tax advisors with respect to the various state tax consequences of an investment in the Bonds.

State of Wisconsin Income and Franchise Taxes

Interest on the Bonds is not exempt from current State of Wisconsin income or franchise taxes.

CONTINUING DISCLOSURE

The State has made an undertaking to enable brokers, dealers, and municipal securities dealers, in connection with their participation in the offering of the Bonds, to comply with Rule 15c2-12(b)(5) adopted by the U.S. Securities and Exchange Commission under the Securities Exchange Act of 1934. In the undertaking, the State has agreed, for the benefit of the beneficial owners of the Bonds, to provide an annual report presenting certain financial information and operating data about the State (**Annual Reports**). By December 27 of each year, the State has agreed to file the Annual Report with the MSRB through its EMMA system. The State has also agreed to provide to the MSRB notices of the occurrence of certain events specified in the undertaking.

[Part I of the 2021 Annual Report](#), which contains information on the undertaking, including the State's Master Agreement on Continuing Disclosure (Amended and Restated March 1, 2019), the Addendum Describing Annual Report for General Obligations, and the form of Supplemental Agreement that will apply the Master Agreement and the Addendum to the Bonds, is included by reference as part of this Official Statement.

Copies of the Annual Reports and notices may be obtained from:

State of Wisconsin Department of Administration
Attn: Capital Finance Office
101 East Wilson Street, FLR 10
P.O. Box 7864
Madison, WI 53707-7864
(608) 267-1836
DOACapitalFinanceOffice@wisconsin.gov

State of Wisconsin Building Commission

APPENDIX A

CERTAIN INFORMATION ABOUT THE STATE

This Appendix includes by reference information concerning the State of Wisconsin (**State**), contained in [Parts II and III of the State of Wisconsin Continuing Disclosure Annual Report, dated December 23, 2021 \(2021 Annual Report\)](#), which can be obtained as described below. This Appendix also makes updates and additions to the information presented in Parts II and III of the 2021 Annual Report, including but not limited to:

- Additional information about the State’s response to, and federal assistance relating to, the COVID-19 pandemic.
- Estimated General Fund condition statement for the 2021-23 biennium and estimated General Fund tax collections for the 2021-22 and 2022-23 fiscal years, as included in a report provided by the Legislative Fiscal Bureau (**LFB**) on January 25, 2022 (**January 2022 LFB Report**).
- General Fund information for the 2021-22 fiscal year, which is presented on either a cash basis or an agency-recorded basis, and projected General Fund information for the 2022-23 fiscal year, which is presented on a cash basis.
- General Fund condition statement and General Fund tax collections for the 2021-22 fiscal year, as included in the Annual Fiscal Report (budgetary basis), dated October 14, 2022.

[Part II of the 2021 Annual Report](#) contains general information about the State. More specifically, that part presents information about the following matters:

- COVID-19 update
- Environmental, social, and governance factors
- State’s revenue and expenditures
- State’s operations, financial procedures, accounting, and financial reporting
- Organization of, and services provided by, the State
- Budget process and fiscal controls
- State budget (including results of 2020-21 fiscal year and summary of 2021-23 biennial budget)
- Potential effects of litigation
- State obligations
- Employee pension funds and other post-employment benefits
- State Investment Board
- Statistical information about the State’s population, income, and employment

The State’s audited General Purpose External Financial Statements and independent auditor’s report provided by the State Auditor for the fiscal year ended June 30, 2021, prepared in conformity with generally accepted accounting principles (**GAAP**) for governments as prescribed by the Governmental Accounting Standards Board, are included as [Appendix A](#) to Part II of the 2021 Annual Report.

[Part III of the 2021 Annual Report](#) contains information concerning general obligations issued by the State. That part discusses the security provisions for general obligations (including the flow of funds to pay debt service on general obligations) and presents data about the State’s outstanding general obligations and the portion of outstanding general obligations that is revenue supported.

The 2021 Annual Report and the Annual Comprehensive Financial Report for the fiscal year ended June 30, 2021 were both filed with the Municipal Securities Rulemaking Board (**MSRB**) through its Electronic Municipal Market Access (**EMMA**) system. The 2021 Annual Report and the Annual Comprehensive Financial Report are also available from the part of the Capital Finance Office website called “Official Disclosure for Bonds, Notes, and Other Securities Issued by the State of Wisconsin” and the State investor relations website. The Capital Finance Office website and the State investor relations website are located at the following respective addresses:

Copies of the 2021 Annual Report may also be obtained from:

State of Wisconsin Department of Administration
Capital Finance Office
101 E. Wilson Street, FLR 10
P.O. Box 7864
Madison, WI 53707-7864
(608) 267-1836
DOACapitalFinanceOffice@wisconsin.gov

The State has independently provided periodic reports on General Fund financial information. These reports are not required by any of the State's undertakings to provide information concerning the State's securities. These reports are available on the State's Capital Finance Office website that is listed above and were also filed as additional voluntary information with the MSRB through its EMMA system; however, the reports are not incorporated by reference into this Official Statement or Part II of the 2021 Annual Report. The State is not obligated to provide such reports at any time in the future.

After publication and filing of the 2021 Annual Report, certain changes or events have occurred that affect items discussed in the 2021 Annual Report. Listed below, by reference to particular sections of Parts II and III of the 2021 Annual Report, are changes or additions to the information contained in those particular sections. When changes occur, the State may or may not (unless required to do so under the State's undertakings) file notices with the MSRB. However, the State has filed, and expects to continue to file, additional and other voluntary information with the MSRB, some of which may not be listed event notices required to be filed under the State's undertakings.

This Official Statement includes changes or additions that were released after the date of the Preliminary Official Statement (October 3, 2022). Any such changes or additions are identified accordingly.

COVID-19 Update (Part II, Pages 21-22). Update with the following information.

Federal Aid – Coronavirus Aid, Relief, and Economic Security Act (CARES Act)

As of June 30, 2022, the State had allocated \$2.0 billion of CARES Act funds to State and local government expenditures related to COVID-19, substantially all of which expenditures had been made.

Federal Aid – The American Rescue Plan Act of 2021 (ARPA)

As of June 30, 2022, the State had allocated \$2.5 billion of ARPA funds and had made actual expenditures of these funds in the amount of approximately \$772 million.

General Information and Vaccinations

The Wisconsin Department of Health Services (**DHS**) continues to work to get COVID-19 vaccines to Wisconsinites. All State individuals ages 6 months and older are eligible for the vaccine. As of September 28, 2022, approximately 62% of all Wisconsin residents were fully vaccinated, and approximately 36% of all Wisconsin residents had received a booster dose.

Environmental, Social, and Governance Factors; Social Factors (Part II, Pages 22-24) and **Table II-31; Population Trends** (Part II, Page 87). Update with the following information.

On December 21, 2021, the U.S. Census Bureau released national and state population estimates for July 1, 2020 through July 1, 2021. According to the estimates, the population of the State grew by 3,585, or 0.06%, and the population of the United States grew by 392,665, or 0.1%, the lowest rate since the nation's founding. The U.S. Census Bureau noted that the slow rate of growth can be attributed, in part, to the COVID-19 pandemic. Further details can be obtained from the U.S. Census Bureau.

State Budget; Budget for 2021-23 Biennium and Estimated General Fund Tax Collections for 2021-23 Biennium (Part II; Pages 37-39). Update with the following information, some of which became available after the date of the Preliminary Official Statement (October 3, 2022).

Fiscal Year 2021-22 Results

The 2021-22 fiscal year ended on June 30, 2022. The Annual Fiscal Report (budgetary basis) for the 2021-22 fiscal year (**Annual Fiscal Report**) was published on October 14, 2022. This report includes the ending budgetary undesignated balance for the 2021-22 fiscal year. The State filed the Annual Fiscal Report for the 2021-22 fiscal year with the MSRB through its EMMA system, and a copy is available from the State as provided above.

The State ended the 2021-22 fiscal year with an undesignated balance of \$4.3 billion. This amount is \$3.0 billion more than the projected ending balance for that fiscal year in the 2021-23 biennial budget (**2021 Wisconsin Act 58**), \$1.6 billion more than the projected ending balance that was included in the January 2022 LFB Report, and \$2.9 billion more than the assumed beginning balance for the 2021-22 fiscal year included in 2021 Wisconsin Act 58.

The table on page [A-4](#) includes the General Fund condition statement for the 2021-22 fiscal year. The table also includes, for comparison, the General Fund condition statement for the 2020-21 fiscal year and the estimated General Fund condition statements included in 2021 Wisconsin Act 58 and the January 2022 LFB Report. The table on page [A-5](#) includes General Fund tax collections for the 2021-22 fiscal year.

January 2022 LFB Report – General Fund Condition Statement

The January 2022 LFB Report includes an updated estimated General Fund condition statement for each fiscal year of the 2021-23 biennium. The net General Fund balance for the end of the biennium (June 30, 2023) is projected to be \$3.8 billion. This is \$2.9 billion higher than the balance that was projected at the time of the enactment of 2021 Wisconsin Act 58, as modified to incorporate the fiscal year 2020-21 ending balance as shown in the Annual Fiscal Report for fiscal year 2020-21 and adjusted to reflect the Wisconsin Department of Revenue (**DOR**) updated individual income tax withholding tables, that were effective January 1, 2022.

The table on page [A-4](#) provides the estimated General Fund condition statement for each fiscal year of the 2021-23 biennium. The table also includes, for comparison, the estimated General Fund condition statement for each year of the 2021-23 biennium, as included in 2021 Wisconsin Act 58, and adjusted to reflect DOR's updated individual income tax withholding tables, that were effective January 1, 2022.

A complete copy of the January 2022 LFB Report, which includes a national economic forecast and its application to the State's General Fund tax revenue estimates, is included at the end of this Appendix A. In addition, the State has filed the January 2022 LFB Report with the MSRB through its EMMA system, and a copy is available from the State as provided on page [A-2](#).

¹ Adjusted to reflect the fiscal year 2020-21 ending balance as shown in the Annual Fiscal Report for fiscal year 2020-21 and DOR's updated individual income tax withholding tables that were effective January 1, 2022.

January 2022 LFB Report – General Fund Tax Collections

The January 2022 LFB Report also includes an updated estimate of General Fund tax revenues for each fiscal year of the 2021-23 biennium. The estimated General Fund tax revenues are \$18.9 billion for the 2021-22 fiscal year and \$20.9 billion for the 2022-23 fiscal year. These amounts are \$1.1 billion and \$1.4 billion, respectively, greater than the estimated General Fund tax revenues as included in 2021 Wisconsin Act 58, as adjusted to reflect DOR's updated individual income tax withholding tables, that were effective January 1, 2022.

The table on page [A-5](#) includes the estimated General Fund tax revenues for each fiscal year of the 2021-23 biennium, as shown in the January 2022 LFB Report, and actual General Fund tax collections for fiscal year 2021-22, as shown in the Annual Fiscal Report. The table also includes, for comparison, the estimated General Fund tax revenues for each year, as included in a report provided by LFB dated June 8, 2021 (**June 2021 LFB Report**), and in 2021 Wisconsin Act 58, as adjusted to reflect DOR's updated individual income tax withholding tables, that were effective January 1, 2022.

¹ Adjusted to reflect DOR's updated individual income tax withholding tables, that were effective January 1, 2022.

A complete copy of the January 2022 LFB Report, which includes a national economic forecast and its application to the State's General Fund tax revenue estimates, is included at the end of this Appendix A. In addition, the State has filed the January 2022 LFB Report with the MSRB through its EMMA system, and a copy is available from the State as provided on page [A-2](#).

General Fund Information; General Fund Cash Flow (Part II; Pages 46-58). The following tables provide updates and additions to various tables containing General Fund information for the 2021-22 and 2022-23 fiscal years. Actual General Fund information for the 2021-22 fiscal year through June 30, 2022, and projections for the 2022-23 fiscal year, are presented primarily on a cash basis.

The projections and estimates for the 2022-23 fiscal year reflect 2021 Wisconsin Act 58 and the January 2022 LFB Report. The following tables also reflect the receipt of approximately \$2.0 billion of federal funds pursuant to the CARES Act, which the State has allocated, and continues to allocate, to State and local government expenditures related to the COVID-19 pandemic, and the receipt of federal funds pursuant to ARPA, including the receipt of \$1.5 billion in May 2022 (reflecting funds for the State under the State Fiscal Recovery Fund along with certain non-entitlement governmental unit allocation of funds under the Local Fiscal Recovery Fund that are required to pass through the State). Projections and estimates do not reflect any specific disbursement, but rather generalized assumptions for disbursement of remaining CARES Act and ARPA federal funds.

The comparison of monthly General Fund information that is presented on a cash basis has many inherent problems. Unforeseen events or variations from underlying assumptions may cause a decrease or increase in receipts and disbursements from those projected for any specific month. The following tables may show negative balances on a cash basis. The State can have a negative cash balance at the end of a fiscal year.

The Wisconsin Statutes provide certain administrative remedies to deal with periods when the General Fund is in a negative cash position. The Secretary of Administration may temporarily reallocate cash in other funds to the General Fund in an amount up to 9% of the general-purpose revenue appropriations then in effect and may also temporarily reallocate for a period of up to 30 days an additional amount up to 3% of the general-purpose revenue appropriations then in effect.

If the amount available for temporary reallocation to the General Fund is not sufficient, then the Secretary of Administration is authorized to set priorities for payments from the General Fund and to prorate and defer certain payments.

Table II-11; General Fund Cash Flow (Part II; Page 49). Replace with the following updated tables.

(a) Temporary reallocations of cash are not included.

(b) The General Fund cash balances presented in this schedule are not based on generally accepted accounting principles (GAAP). The General Fund includes funds designated for operations and capital purposes of certain proprietary programs of the State's universities. Receipts and disbursements of such funds for the designated programs and the disbursement of such funds for other purposes are reflected in the cash flow. A use of the designated funds for purposes other than the proprietary programs is, in effect, a borrowing of such funds. Therefore, at any time that the balance in the General Fund is less than the balance of such designated funds, the State is obligated to replenish the designated funds to the extent of the shortfall. These designated funds are anticipated to range from \$1.3 billion to \$1.8 billion for the 2021-22 fiscal year. In addition, the General Fund holds deposits for several escrow accounts pursuant to court orders or federal rulings. These funds have averaged and are expected to continue to average approximately \$25 million during each fiscal year.

(c) The Wisconsin Statutes provide certain administrative remedies to deal with periods when the General Fund may be in a negative cash position. The Secretary of Administration may temporarily reallocate cash in other funds to the General Fund in an amount up to 9% of the general-purpose revenue appropriations then in effect with an additional amount up to 3% for a period of up to 30 days. The resulting amounts available for temporary reallocation for the 2021-22 fiscal year (based on 2021 Wisconsin Act 58), are approximately \$1.737 billion and \$579 million, respectively. If the amount available for temporary reallocation to the General Fund is not sufficient, then the Secretary of Administration is authorized to set priorities for payments from the General Fund and to prorate or defer certain payments.

(a) The projections and estimates in this table reflect 2021 Wisconsin Act 58, the January 2022 LFB Report, and the receipt of ARPA federal funds, including a receipt of \$1.5 billion in May 2022 (reflecting funds for the State under the State Fiscal Recovery Fund along with certain non-entitlement governmental unit allocation of funds under the Local Fiscal Recovery Fund that are required to pass through the State). Projections and estimates do not reflect any specific disbursement, but rather generalized assumptions for disbursement, of remaining CARES Act and ARPA federal funds. Temporary reallocations of cash are not included.

(b) The General Fund cash balances presented in this schedule are not based on generally accepted accounting principles (GAAP). The General Fund includes funds designated for operations and capital purposes of certain proprietary programs of the State's universities. Receipts and disbursements of such funds for the designated programs and the disbursement of such funds for other purposes are reflected in the cash flow. A use of the designated funds for purposes other than the proprietary programs is, in effect, a borrowing of such funds. Therefore, at any time that the balance in the General Fund is less than the balance of such designated funds, the State is obligated to replenish the designated funds to the extent of the shortfall. These designated funds are anticipated to range from \$1.5 billion to \$2.2 billion for the 2022-23 fiscal year. In addition, the General Fund holds deposits for several escrow accounts pursuant to court orders or federal rulings. These funds have averaged and are expected to continue to average approximately \$25 million during each fiscal year.

(c) The Wisconsin Statutes provide certain administrative remedies to deal with periods when the General Fund may be in a negative cash position. The Secretary of Administration may temporarily reallocate cash in other funds to the General Fund in an amount up to 9% of the general-purpose revenue appropriations then in effect with an additional amount up to 3% for a period of up to 30 days. The resulting amounts available for temporary reallocation for the 2022-23 fiscal year (based on 2021 Wisconsin Act 58), are approximately \$1.778 billion and \$593 million, respectively. If the amount available for temporary reallocation to the General Fund is not sufficient, then the Secretary of Administration is authorized to set priorities for payments from the General Fund and to prorate or defer certain payments.

(a) None of the data presented here has been subjected to customary fiscal period closing procedures or other procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments. In addition, comparison of monthly General Fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month.

2021-22 FISCAL YEAR VARIANCE YEAR-TO-DATE \$ 4,146,668 \$ 4,146,668

- (a) None of the data presented here has been subjected to customary fiscal period closing procedures or other procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments. In addition, comparison of monthly General Fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month.
- (b) The projections and estimates for the 2021-22 fiscal year reflect the June 2021 LFB Report, 2021 Wisconsin Act 58, the January 2022 LFB Report, and receipt of ARPA federal funds. Projections and estimates also reflect DOR's updated individual income tax withholding tables, effective January 1, 2022. The projections and estimates do not reflect any specific disbursement of remaining CARES Act and ARPA federal funds.
- (c) Changes are sometimes made after the beginning of the fiscal year to the projected revenues and disbursements. Depending on when these changes occur, there are situations in which prior estimates cannot be changed which may result in large variances. This column includes adjustments to the variances, if any, to more accurately reflect the variance between the estimated and actual amounts.

(a) The General Fund balances presented in this table are not based on generally accepted accounting principles (GAAP).
(b) The projections and estimates for the 2022-23 fiscal year (cash basis) reflect 2021 Wisconsin Act 58 and the January 2022 LFB Report.

Source: Wisconsin Department of Administration.

Table II-15; Cash Balances in Funds Available for Temporary Reallocation (Part II; Page 54).
 Replace with the following updated table.

**CASH BALANCES IN FUNDS AVAILABLE FOR
 TEMPORARY REALLOCATION ^{(a) (b)}
 July 31, 2020 to June 30, 2022 — Actual
 July 31, 2022 to June 30, 2023 — Projected ^(c)
 (Amounts in Millions)**

The following two tables show, on a monthly basis, the cash balances available for temporary reallocation. The first table does not include balances in the Local Government Investment Pool (LGIP) and the second table does include such balances. Though the LGIP is available for temporary reallocation, funds in the LGIP are deposited and withdrawn by local units of government, and thus are outside the control of the State. The monthly average daily balances in the LGIP for the past five years have ranged from a low of \$2.799 billion during October 2018 to a high of \$6.382 billion during March 2022. The Secretary of Administration may not exercise the authority to use temporary reallocation if doing so would jeopardize the cash flow of any fund or account from which a temporary reallocation would be made.

Available Balances; Does Not Include Balances in the LGIP

<u>Month (Last Day)</u>	<u>2020</u>	<u>2021</u>	<u>2022</u>	<u>2023</u>
January		\$ 1,866	\$ 2,273	\$ 1,866

July	\$ 7,004	8,383	7,004	
August	6,087	7,160	6,087	
September	5,970	6,915	5,970	
October	5,410	6,410	5,410	
November	5,418	6,342	5,418	
December	6,549	7,238	6,549	

- ^(a) None of the data presented here has been subjected to customary fiscal period closing procedures or other procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments. In addition, comparison of monthly General Fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month.
- ^(b) The amounts shown reflect a reduction in the aggregate cash balances available to the extent any fund had a negative balance and temporary reallocations were made from such fund.
- ^(c) The projections and estimates for 2022-23 fiscal year (cash basis) reflect 2021 Wisconsin Act 58 and the January 2022 LFB Report. Actual results, projections, and estimates reflect the receipt of ARPA federal funds, including receipt of \$1.5 billion in May 2022 (reflecting funds for the State under the State Fiscal Recovery Fund along with certain non-entitlement governmental unit allocation of funds under the Local Fiscal Recovery Fund that are required to pass through the State). Projections and estimates do not reflect any specific disbursement, but rather generalized assumptions for disbursement, of remaining CARES Act and ARPA federal funds.

- (a) The revenues in this table are presented on an agency-recorded basis and not a budgetary basis. None of the data presented here has been subjected to customary fiscal period closing procedures or other procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments.
- (b) The amounts are from the Annual Fiscal Report (budgetary basis) for the 2020-21 fiscal year dated October 15, 2021.
- (c) The amounts are from the Annual Fiscal Report (budgetary basis) for the 2021-22 fiscal year dated October 14, 2022.
- (d) The amounts shown are the 2020-21 fiscal year general purpose revenues and program revenues taxes as recorded by State agencies. The amounts shown are as of June 30, 2021 and do not include revenues for 2020-21 fiscal year that were recorded by State agencies during the months of July, August, and September 2021. There may be differences between the tax revenues shown in this report and those that may be reported by DOR from time to time in its monthly general purpose revenue collections report; the DOR report (i) only includes general purpose revenues or taxes that are actually collected by DOR (and not by other State agencies), and (ii) may include accruals or other adjustments that may not be recorded by State agencies until a subsequent month.
- (e) The amounts shown are the 2021-22 fiscal year general purpose revenues and program revenue taxes as recorded by State agencies. The amounts shown are as of June 30, 2022 and do not include revenues for 2021-22 fiscal year that may be recorded by State agencies during the months of July, August, and September 2022. There may be differences between the tax revenues shown in this report and those that may be reported by DOR from time to time in its monthly general purpose revenue collections report; the DOR report (i) only includes general purpose revenues or taxes that are actually collected by DOR (and not by other State agencies), and (ii) may include accruals or other adjustments that may not be recorded by State agencies until a subsequent month.
- (f) This category includes intergovernmental transfers. The amount of these transfers may vary greatly between fiscal years, and therefore, this category may not be comparable on a historical basis.
- (g) Certain transfers between General Fund appropriations are recorded as both revenues and expenditures of the General Fund. The amount of these transfers may vary greatly between fiscal years, and therefore this category may not be comparable on a historical basis.

State Obligations; Employee Pension Funds (Part II; Pages 71-73). Update with the following information and table:

Annual annuity adjustments for the remainder of calendar year 2022 were announced by the Wisconsin Retirement System (WRS) on March 9, 2022 and include an increase of 7.4% for retirees in the WRS Core Retirement Trust, or Core Fund, and an increase of 15.0% for retirees in the WRS Variable Retirement Trust, or Variable Fund. The following table includes the Core Fund and Variable Fund annuity adjustments granted during the previous 10 years.

**WISCONSIN RETIREMENT SYSTEM
SUMMARY OF ANNUITY ADJUSTMENTS**

<u>Year</u>	<u>Core Fund</u>	<u>Variable Fund</u>
2012	(7.0)%	(7.0)%
2013	(9.6)	9.0
2014	4.7	25.0
2015	2.9	2.0
2016	0.5	(5.0)
2017	2.0	4.0
2018	2.4	17.0
2019	0.0	(10.0)
2020	1.7	21.0
2021	5.1	13.0

Variable Rate Obligations; Commercial Paper Notes (Part III; Pages 114-116). Update with the following information:

Funding of CP Notes and Expiration of Credit Agreement

With the issuance on March 1, 2022 of its General Obligation Refunding Bonds of 2022, Series 1, the State retired all of the outstanding CP Notes, and no CP Notes currently remain outstanding. Furthermore, the Liquidity Facility the State had secured in the form of a line of credit provided pursuant to a Credit Agreement between the State and PNC Bank, National Association expired on March 13, 2022.

Variable Rate Obligations; Extendible Municipal Commercial Paper (Part III; Pages 116-118). Update with the following information:

Adoption of New Program Resolution

On June 22, 2022, the Commission adopted a new program resolution for its general obligation extendible municipal commercial paper (**EMCP**), to replace the existing EMCP Program Resolution. Among other changes, the provisions for the establishment of the Reset Rate, in the event of the extension of the maturity of the EMCP, have been changed. Further information is available in the State's Offering Memorandum for its EMCP, dated August 8, 2022, which has been filed with the MSRB through its EMMA system, and is available from the State as provided on page [A-2](#).

On August 18, 2022, the State issued its initial EMCP under the new program resolution, to fund the entire \$73 million of outstanding EMCP issued under the previous EMCP Program Resolution.

Variable Rate Obligations (Part III; Page 121). Update with the addition of the following subsection:

Floating Rate Notes

On July 7, 2022, the State issued its \$134,820,000 General Obligation Floating Rate Notes of 2022, Series A (SIFMA-Based Interest Rate) (**Floating Rate Notes**). The Floating Rate Notes mature May 1, 2023 and 2025, and bear interest at a variable rate determined each week based on the Securities Industry and Financial Markets Association Municipal Swap Index. Further information is available in the State's Official Statement for the Floating Rate Notes, dated June 22, 2022, which has been filed with the MSRB through its EMMA system, and is available from the State as provided on page [A-2](#).

State of Wisconsin

January 25, 2022

Senator Howard Marklein, Senate Chair
Representative Mark Born, Assembly Chair
Joint Committee on Finance
State Capital
Madison, WI 53702

Dear Senator Marklein and Representative Born:

In January of each year, this office conducts a review of the status of the state's general fund and presents its findings to the Legislature. In the even-numbered years, this analysis includes an examination of economic forecasts and tax collection and expenditure data of the current fiscal year, and projections for each year of the current biennium. We have now completed that review.

Based upon our analysis, we project the closing, net general fund balance at the end of this biennium (June 30, 2023) to be \$3,812.3 million. This is \$2,881.7 million above the net balance that was projected at the time of enactment of the 2021-23 biennial budget, as modified to: (1) incorporate the 2020-21 ending balance (2021-22 opening balance) as shown in the Annual Fiscal Report; and (2) revise 2021-22 individual income tax revenues to reflect the Department of Revenue's decision to adjust tax withholding tables effective January 1, 2022.

The \$2,881.7 million is the net result of: (1) an increase of \$2,509.2 million in estimated tax collections; (2) an increase of \$33.1 million in departmental revenues (non-tax receipts deposited into the general fund); and (3) a decrease of \$339.4 million in net appropriations.

The \$339.4 million reduction in net appropriations is primarily due to the following: (1) an estimated lapse of \$270 million in the appropriation for medical assistance benefits because of an enhanced federal medical assistance (MA) matching rate; (2) a reduction of \$34.2 million in the sum sufficient appropriation of state funding for the Wisconsin Healthcare Stability Plan due to modifications made in the American Rescue Plan Act of 2021 (ARPA); and (3) an estimated reduction of \$23.4 million in the amounts necessary to fund general fund debt service. A further

explanation of the MA and Healthcare Stability Plan appropriations is presented after Table 1. In addition, the status of the state's budget stabilization fund is discussed.

The following table reflects the 2021-23 general fund condition statement, which incorporates our revenue and expenditure projections.

TABLE 1
2021-23 General Fund Condition Statement

	<u>2021-22</u>	<u>2022-23</u>
Revenues		
Opening Balance, July 1	\$2,581,053,000	\$2,838,066,700
Taxes	18,943,300,000	20,884,600,000
Departmental Revenues		
Tribal Gaming Revenues	0	21,729,300
Other	<u>481,661,900</u>	<u>486,219,400</u>
Total Available	\$22,006,014,900	\$24,230,615,400
 Appropriations, Transfers, and Reserves		
Gross Appropriations	\$19,306,412,500	\$19,754,023,500
MA Biennial Adjustment	-360,000,000	360,000,000
Sum Sufficient Reestimates	-15,734,000	-28,898,000
Transfers to:		
Transportation Fund	178,869,600	97,289,300
Building Trust Fund	15,000,000	0
MA Trust Fund	174,665,900	527,783,700

Compensation Reserves	41,929,200	105,951,600
Less Lapses	<u>-233,195,000</u>	<u>-552,862,200</u>
Net Appropriations	\$19,167,948,200	\$20,323,287,900
 Balances		
Gross Balance	\$2,838,066,700	\$3,907,327,500
Less Required Statutory Balance	<u>-90,000,000</u>	<u>-95,000,000</u>
Net Balance, June 30	\$2,748,066,700	\$3,812,327,500

Table 1 incorporates the fiscal effects of all bills enacted to date in the current legislative session (through 2021 Act 118). It does not reflect the impact of any bills that are pending before the Legislature.

Medical Assistance. As noted in Table 1, it is expected that the biennial appropriation for the MA program will be underspent by \$360 million in 2021-22. Because it is a biennial

appropriation, the \$360 million in 2021-22 will be available in the second year of the biennium. In 2022-23, it is projected that \$270 million of the MA appropriation will lapse (revert) to the general fund. The \$270 million is included in the \$552.9 million lapse figure for 2022-23. The \$270 million biennial surplus results primarily because an enhanced federal Medicaid matching rate, applicable during the federal public health emergency related to the COVID-19 pandemic, will be in effect longer than was anticipated during biennial budget bill deliberations. Under provisions of the federal Families First Coronavirus Response Act of 2020, each states' federal Medicaid matching rate is increased by 6.2 percentage points during any calendar quarter for which the public health emergency related to COVID-19 remains in effect. At the time of passage of Act 58, it was assumed that the higher matching rate would be applicable until the final quarter of 2021. However, the Secretary of the U.S. Department of Health and Human Services has issued two additional 90-day extension orders for the public health emergency, most recently on January 14, 2022. With these extensions, the enhanced matching rate will remain in effect at least until the end of state fiscal year 2021-22, six months beyond the Act 58 assumptions. Due to the uncertain future course of the COVID-19 pandemic, additional extensions of the public health emergency are possible. Any additional extension beyond June 30, 2022, would result in a higher GPR lapse from the MA program.

Wisconsin Healthcare Stability Plan. The sum-sufficient GPR appropriation for the Wisconsin Healthcare Stability Plan has been reestimated to \$0 in 2022-23, a reduction of \$34.2 million from the Act 58 estimate. Federal pass-through funding for reinsurance payments for plan year 2021 (paid in 2022-23) will be higher than the Act 58 estimates due to a provision of ARPA that increases the value of premium tax credits. The pass-through federal funding available to the state is now expected to exceed the amount of reinsurance payments that were made for plan year 2021, so no state funding will be required for the payments.

Budget Stabilization Fund. Under s. 16.518(3) of the statutes, if actual tax collections exceed the amounts estimated in the state's biennial budget act, one-half of such excess is deposited into the budget stabilization fund. However, if the balance in the budget stabilization fund prior to a transfer exceeds 5% of estimated general fund expenditures, as included in the biennial budget act, no transfer is made. Because the current balance in the budget stabilization fund of \$1,730 million is well above the 5% threshold, no transfer will be made even though estimated tax collections for 2021-23 are significantly above those shown in the 2021-23 budget act.

Review of the National Economy in 2021

This office prepared revenue estimates for the 2021-23 biennium in January, 2021, based on the January, 2021, IHS Markit forecast for the U.S. economy. The forecast predicted real gross domestic product (GDP) growth of 4.0% in 2021, 3.9% in 2022, and 2.5% in 2023. IHS Markit forecast that federal stimulus from the Consolidated Appropriations Act of 2021 (CAA) and a successful inoculation campaign against COVID-19 would: (a) release pent-up demand for in-person services in the second half of 2021; and (b) cause payroll employment to increase throughout 2021 and 2022.

The January, 2021, IHS Markit forecast was based on the following assumptions. First, the forecast assumed the seven-day average of COVID-19 infections would peak in January of 2021,

and fall significantly, with widespread inoculation of the population achieved by the summer. Second, the forecast incorporated stimulus spending from the CAA, but did not include further federal stimulus in its forecast. Third, the Federal Reserve was expected to maintain the federal funds rate target near 0% until late-2026 and expand its treasury holdings to another \$1.4 trillion. Fourth, the forecast assumed that the tariffs and trade agreements made between the U.S. and China would remain in effect. Fifth, real, trade-weighted foreign GDP was expected to rebound as the COVID-19 pandemic receded, with 4.4% growth in 2021, after declining by 5.7% in 2020. Finally, the price of Brent crude oil was expected to gradually recover from a low of \$29 per barrel in the second quarter of 2020 to \$50 per barrel by late-2021.

IHS Markit's January, 2021, forecast also included an optimistic and pessimistic scenario. The optimistic forecast scenario was that a more significant decline in COVID-19 cases, hospitalizations, and deaths due to widespread inoculations and observance of social distancing guidelines would result in a faster economic recovery, bolstered by: (a) a quicker than expected resumption of pre-pandemic consumer spending patterns; (b) an improved unemployment rate; and (c) a stronger rebound in 2021 real GDP. The downside risk to the forecast was that containment measures would be re-introduced to combat the surge in COVID-19 cases that was occurring at the time, inhibiting consumer spending and slowing economic recovery.

In June, this office reviewed additional tax collection data and IHS Markit's May economic forecast. The estimates were revised upward, primarily based on significant strength in individual income tax, sales and use tax, and corporate income/franchise tax collections through May, 2021. The economic impact of ARPA, which was signed into law in March, 2021, was not included in the January, 2021, forecast. ARPA provided an additional \$1.9 trillion in stimulus, including \$1,400 stimulus checks to each qualifying person, an extension of emergency unemployment compensation programs (including an enhanced unemployment benefit of \$300 per week) through September 4, 2021, a second round of forgivable paycheck protection program (PPP) loans, and \$1 trillion in aid to states for various purposes. This injection of funds into the economy helped contribute to an 11.5% increase in real disposable income in the first quarter of 2021, compared to the previous quarter, subsequently leading to an increase in consumer spending. Further, the rate of new COVID-19 cases declined rapidly between January and May as more of the population received the vaccine, which contributed to a sooner than expected relaxation of containment measures and an increase in consumer spending.

Finally, the June revisions also incorporated IHS Markit's May, 2021, forecast for the U.S. economy. The forecast for real GDP growth had been increased relative to the January, 2021, estimates from: (a) 4.0% to 6.7% in 2021; and (b) 3.9% to 4.7% in 2022. However, growth expectations decreased from 2.5% to 1.9% in 2023, reflecting the acceleration of the economic recovery under the May forecast. Economic profits were revised up significantly, partly reflecting additional subsidies to businesses provided under ARPA, from a decline of 1.4% in 2021 and 0.2% in 2022 to growth of 20.3% and 6.0%, respectively. Forecasted 2021 growth was revised up in May to reflect changes to the following indicators: (a) nominal personal consumption expenditures (PCE), which was increased by 4.1 percentage points; (b) personal income (up 1.1 percentage points); (c) light vehicle sales (up 5.3 percentage points); and (d) housing starts (up 6.1 percentage points). IHS Markit had still projected that sufficient inoculation against COVID-19 would be achieved over the summer, but had grown more confident that vaccinations would outpace the

spread of new strains of the virus. The Federal Reserve had moved up its expected timeline for beginning to raise the federal funds rate from late-2026 to mid-2024. In May, IHS Markit forecasted the price of Brent crude oil to increase to \$69 per barrel in the third quarter of 2021, rather than to \$50 per barrel by late-2021. Finally, the primary upside and downside risks to the forecast remained generally the same as the January, 2021, forecast, except that the likelihood for the optimistic scenario increased relative to the pessimistic scenario with a more robust consumer response to stimulus provided by ARPA as a contributor.

Overall, IHS Markit now estimates that nominal GDP grew 10.0% in 2021, 0.4 percentage points higher than the May, 2021, forecast of 9.6%. However, after adjusting for inflation, the national economy actually grew less than previously forecasted. IHS Markit estimates that real U.S. GDP grew 5.7% in 2021, which is 1.0 percentage point lower than previously estimated. Despite slower real growth, real GDP surpassed its pre-pandemic level by the second quarter of 2021.

The COVID-19 pandemic, including caseloads, the rollout of vaccines, and federal pandemic-related stimulus, continued to guide economic outcomes throughout 2021. As predicted in the January forecast, the seven-day average of daily new COVID-19 cases peaked at 250,000 cases per day in mid-January, before reaching a low for the year of less than 12,000 cases per day in mid-June, according to the COVID-19 data tracker maintained by the Centers for Disease Control and Prevention (CDC). However, cases began to rise again in July as the new, and more contagious, Delta variant of the COVID-19 virus began spreading across the population. Cases surged to nearly 165,000 per day by early September, before easing until late-October. By November, another new variant, Omicron, had been discovered, with the first confirmed U.S. case being identified on December 1. Cases began increasing again in the final months of 2021, surging to record-highs by late-December. According to available CDC data, it appears that new cases may have peaked at just over 795,000 cases per day on January 13, 2022, more than triple the nation's previous peak. As of January 17, 2022, the seven-day average of new COVID-19 cases had declined somewhat to just under 740,000 cases per day. The Omicron variant, which is believed to spread more easily than Delta, accounted for nearly 90% of new COVID-19 cases by January 1, 2022. As of January 17, 2022, more than 850,000 Americans had died of COVID-19, including more than 11,700 Wisconsin residents. The seven-day average of deaths per day was more than 1,700 in the U.S. and more than 30 in Wisconsin.

In contrast with the May assumptions, U.S. vaccinations had not reached sufficient levels during the summer to outpace the spread of the Delta variant. By July 1, 2021, about 48% of the U.S. population was considered to be fully vaccinated. Children under age 12 were not eligible for any COVID-19 vaccines until eligibility was expanded to children ages five and older in November, 2021. As of December 31, 2021, 61.9% of the population was fully vaccinated, while 21.8% of the total population had received an additional booster shot to enhance their immunity.

As anticipated, consumer spending was the primary driver of the economy, contributing 5.41 percentage points to real GDP growth. Consumer spending surged in the second quarter of 2021 and remained strong in the following quarters, propelled by increased stimulus and the easing of COVID-19 containment measures, which released pent-up demand. IHS Markit estimates that nominal PCE, which is not adjusted for inflation, grew 20.7% in the second quarter of 2021,

compared to the same quarter in 2020, followed by growth of 11.7% and 13.4% in the third and fourth quarters, respectively. Overall, 2021 nominal PCE growth was up 2.0 percentage points compared to the estimate in the May forecast. While consumer spending remained robust throughout the year, the spread of the Delta variant delayed the recovery in consumer spending on services. The shift in consumer spending from goods back to services, which was anticipated to begin during the second half of 2021, has occurred at a slower rate than previously estimated. Nominal PCE on services comprised 65.2% of total nominal PCE in the fourth quarter of 2021, down from 68.6% in the first quarter of 2020.

Nominal consumer spending was also bolstered by consumer prices, which increased more than was expected earlier in the year. In December, 2021, the Bureau of Labor Statistics (BLS) reported that the consumer price index (CPI) was up 7.0% that month compared to a year earlier, the largest growth in 39 years. IHS Markit now estimates the average CPI over 2021 at 4.7%, up from 2.6% in the May forecast. Increased demand for consumer goods and services, paired with supply shortages (inventory and labor) in a wide range of industries, led to price increases for food, energy, vehicles, and houses, among others.

Supply shortages in 2021 were seen across many industries that experienced early-pandemic factory shutdowns that depleted inventories. At the forefront of the discussion on supply shortages was the semiconductor industry. Semiconductor chips are silicon transistors that allow items such as vehicles, computers, smart phones, appliances, and other electrical devices to function. Prior to the pandemic, demand for semiconductor chips was growing in line with increased consumer demand for electrical products that required these chips. At the onset of the pandemic, the shift to remote working and learning further increased demand for personal electronics products that require these chips, while stay-at-home orders decreased demand for other goods, such as vehicles. In response, car manufacturers, predicting that sales of cars would drop, chose to cancel chip orders. At the same time, some chip production factories were reported to have shut down, leading to a depletion of inventory and delays in production of semiconductor chips. Once the chip factories opened back up, production was still constrained by labor shortages and lack of capacity (plant and equipment), and many of the available chips were funneled towards personal electronics manufacturers that continued to order chips. While demand for cars did fall initially, it recovered quickly. Demand for cars surged in the second quarter of 2021, with sales of light vehicles increasing 49.7% compared to the same quarter in the previous year. However, motor vehicle sales declined 13.4% in the third quarter and 20.6% in the fourth quarter as inventory of new cars was depleted. Low inventory significantly increased new and used car prices in the second half of 2021.

Another supply-side hindrance to the recovery was the ongoing congestion at U.S. ports. Beginning in late-2020, and intensifying through much of 2021, container ships began to build up in the waters near major ports in California, waiting to unload their freight. Many factors contributed to this build-up, including a shift in consumer demand from services to goods that increased the overall volume of goods imported into the U.S. (the value of imports increased 22.2% in 2021). In addition, lack of capacity in warehouses and labor shortages, namely among truck drivers, meant that there was nowhere for the arriving goods to go once unloaded. On top of this, COVID-19 outbreaks caused occasional shutdowns at ports and further delayed the unloading of container ships.

Although the national unemployment rate continues to recover from its peak of 13.0% in the second quarter of 2020, it has done so at a slightly slower pace than the May forecast anticipated. IHS Markit reports that the unemployment rate fell to 5.9%, 5.1%, and 4.3% in quarters two, three, and four, respectively. Despite steady gains in nonfarm payrolls throughout 2021, nonfarm payrolls in December, 2021, remained 3.6 million lower than February of 2020. However, increases in job openings indicate that this is not because of a lack of labor demand. In November, there were 1.6 job openings for each unemployed worker nationally. Wisconsin has seen even higher levels of labor demand, with 2.1 jobs available per unemployed worker in October of 2021. The Wisconsin unemployment rate was 2.8% in December, 2021, according to BLS, the lowest rate on record.

Personal income increased 11.9% in the first quarter of 2021, compared to the fourth quarter of 2020. Over this same period, federal transfer payments increased by 78.6%, whereas wage and salary disbursements increased by only 1.0%. Federal transfer payments waned in quarters two, three, and four of 2021, decreasing 33.5%, 7.0%, and 7.1%, respectively, compared to the prior quarter. The large decrease in the second quarter illustrated the absence of one-time stimulus payments from ARPA, while the continued decreases throughout the remainder of the year partly reflected the expiration of enhanced federal unemployment insurance benefits. Wage and salary disbursements, on the other hand, continued to increase 3.0%, 2.7%, and 2.0% over the previous quarter in quarters two, three, and four of 2021, respectively. For comparison, prior to 2020, growth in wage and salary disbursements in a given quarter (compared to the prior quarter) averaged 1.1% over the last decade.

Despite rising wages and record job openings, the labor force participation rate, which measures the labor force (those working or actively looking for work) as a percentage of the civilian population (age 16 and older), has been slow to recover since the onset of the pandemic. The participation rate, which was at 63.4% in February, 2020, dropped to its pandemic-low of 60.2% in April, 2020, then partly recovered to 61.5% by the end of 2020. Since then, the national labor force participation rate has remained relatively stagnant, gradually increasing to 61.9% in November, 2021. According to IHS Markit, the primary contributors to the lagging labor force participation rate in 2021 include: (a) concerns about safety in the workplace; (b) difficulties finding daycare for young children; (c) the shift of schools from in-person to virtual learning, necessitating childcare; (d) early retirement prompted by growth in household net worth (stocks, real estate, and other assets); and (e) high household savings and/or the availability of emergency unemployment benefits that may allow some individuals to delay their return to work. While many of these contributors are temporary, it will likely still take some time for some individuals to rejoin the workforce. However, BLS reports that Wisconsin's labor force participation rate (66.4% as of November) has already surpassed its February, 2020 level (66.2%), suggesting that these factors are having less of an effect in this state relative to other states. Despite this, the labor force participation rate in Wisconsin has generally been trending downward since its peak in late-1997, as a larger portion of an aging population continues to enter retirement.

The savings rate as a percentage of disposable income, which averaged 7.7% in 2019 and increased to 16.4% in 2020, remained elevated at an average rate of 11.9% in 2021. However, the increased savings rate was primarily driven by stimulus early in the year, which boosted the savings rate to 20.5% in the first quarter. As the year progressed, stimulus waned and households

began spending down much of their savings accumulated during the pandemic. By the fourth quarter, the personal savings rate had declined to 6.8%. Real household net worth increased 11.0% in 2021, bolstered by nominal growth in nonfinancial assets (19.2%), such as real estate, and financial assets (13.5%), including equity holdings and money. In particular, the S&P 500 stock index increased by an estimated 32.6% in 2021, which bolstered equity holdings by 25.4%. The average price of new homes and of existing homes increased in 2021, by 16.8% and 11.8%, respectively.

The Federal Reserve announced in December, 2020, that the federal funds rate target would not be increased until three conditions were met: (a) maximum employment is achieved; (b) inflation has risen to 2%; and (c) inflation is on track to rise moderately above 2% for some time. As 2021 progressed, consumer demand became increasingly strong, labor demand gradually returned, and supply chain issues created by the pandemic began to limit supply. These factors contributed to price increases in certain industries. For much of the year, the Federal Reserve characterized the elevated inflation as transitory, meaning that it was expected to be temporary. However, in the latter half of the year, price increases became increasingly more widespread, and it became evident that supply chain issues would take longer to resolve than initially expected. By December, inflation had surged far above the 2% target, and it appeared likely that it would remain elevated in the near term. In addition, labor market conditions had become increasingly tight, as labor demand recovered from the pandemic faster than labor supply, leaving a shortage of available workers.

In response to these new developments, the Federal Reserve indicated in a Federal Open Market Committee (FOMC) statement (on November 3, 2021) that it would begin reducing its purchases of U.S. Treasury securities and mortgage-backed securities later that month, with plans to end new purchases by late-June, 2022. The Federal Reserve had been previously purchasing \$120 billion in securities each month, and the new plan was to reduce future purchases by \$15 billion per month. On December 15, 2021, the Federal Reserve issued another statement indicating that, beginning in January, 2022, it would reduce future purchases by \$30 billion per month, which would end enhanced securities purchases by March, 2022. In addition, the Federal Reserve no longer characterized inflation as transitory, noting that inflation had exceeded 2% for some time.

President Biden signed the Infrastructure Investment and Jobs Act (IIJA) into law on November 15, 2021. Spread out over five years, IIJA enacted \$548 billion of new budget authority, mainly for spending on physical infrastructure that may be one-time funding. The Build Back Better (BBB) bill was passed by the House on November 19, 2021, and was subsequently sent to the Senate for consideration. IHS Markit's baseline forecast does not include any economic effects from BBB, as its passage remains uncertain.

National Economic Forecast

Under the January, 2022, forecast, IHS Markit predicts real GDP growth to slow compared to 2021, but remain strong at 4.1% in 2022 before moderating to 2.5% in 2023. Similar to 2021, the new forecast projects that nominal GDP will increase in 2022 and 2023, relative to the May forecast, while real GDP will be lower in 2022 than previously estimated. The forecast assumes that consumer spending will temporarily weaken for services affected by increased COVID-19 infections this winter. However, as infections decline, IHS Markit predicts that the transition of COVID-19 from pandemic to endemic (in which COVID-19 continues to circulate among the population more predictably), the gradual easing of supply disruptions and labor shortages, and relatively accommodative financial conditions will support continued expansion in 2022.

The new IHS Markit forecast is based on the following key assumptions. First, a winter increase in infections resulting from the Omicron variant temporarily slows consumer spending on certain services. However, COVID-19 resumes its transition from pandemic to endemic by Spring, as more of the population is vaccinated or is naturally immunized, and behavior adjusts to the risks of living alongside repeated variants of the virus. Second, the forecast incorporates all federal 2020 pandemic relief measures, ARPA, and the IJA. The potential effects of BBB are not included in Markit's baseline forecast, as its passage remains uncertain. Third, state and local governments do not experience a fiscal contraction, helped by strong revenues and federal financial support provided under ARPA, the second payment of which is made to states in quarter two of 2022. Fourth, the Federal Reserve is expected to taper its pace of new U.S. Treasury and mortgage-backed security purchases to zero by mid-March of 2022, before beginning to raise the federal funds rate in May of 2022. The Federal Reserve also allows its holdings of securities to diminish over 2023 and 2024. Fifth, it is assumed that the current tariffs and trade agreements made between the U.S. and China remain in effect. Sixth, real, trade-weighted foreign GDP is expected to grow 3.8% in 2022, while foreign measures of inflation are expected to recede from around 3% in 2021 and 2022 to 2.3% in 2023. Finally, the price of Brent crude oil, which is estimated at \$79 per barrel in the fourth quarter of 2021, will ease to \$67 per barrel by 2025, before resuming its gradual rise.

The forecast is summarized in Table 2, which reflects IHS Markit's January, 2022, baseline outlook. Selected baseline projections are presented in more detail below, with alternative optimistic and pessimistic scenarios discussed thereafter.

TABLE 2

**Summary of National Economic Indicators
IHS Markit Baseline Forecast, January, 2022
(\$ in Billions)**

	<u>2020</u>	<u>2021</u>	<u>2022</u>	<u>2023</u>
Nominal Gross Domestic Product	\$20,893.7	\$22,979.5	\$24,869.0	\$26,069.6
Percent Change	-2.2%	10.0%	8.2%	4.8%
Real Gross Domestic Product	\$18,384.7	\$19,425.7	\$20,221.2	\$20,731.2
Percent Change	-3.4%	5.7%	4.1%	2.5%
Consumer Prices (Percent Change)	1.2%	4.7%	4.2%	2.2%
Personal Income	\$19,627.6	\$21,043.2	\$21,326.2	\$22,350.4
Percent Change	6.5%	7.2%	1.3%	4.8%
Nominal PCE	\$14,047.6	\$15,765.7	\$16,922.6	\$17,632.2
Percent Change	-2.6%	12.2%	7.3%	4.2%
Economic Profits	\$2,243.8	\$2,758.5	\$2,794.0	\$2,829.8
Percent Change	-5.2%	22.9%	1.3%	1.3%
Unemployment Rate	8.1%	5.4%	3.7%	3.6%
Total Nonfarm Payrolls (Millions)	142.3	146.1	151.6	153.6
Percent Change	-5.7%	2.7%	3.7%	1.3%
Light Vehicle Sales (Millions of Units)	14.47	14.97	15.44	17.17
Percent Change	-14.7%	3.4%	3.1%	11.2%
Sales of New and Existing Homes (Millions of Units)	6.485	6.923	6.923	6.286
Percent Change	7.9%	6.8%	0.0%	-9.2%
Housing Starts (Millions of Units)	1.397	1.587	1.476	1.332
Percent Change	8.1%	13.6%	-7.0%	-9.8%

Consumer Prices. IHS Markit estimates that consumer prices grew 4.7% in 2021, increased from 2.6% estimated in the previous forecast. Core CPI (which excludes food and energy prices) was up 3.6% from the prior year, compared to the May estimate of 1.9%. Energy prices were a major contributor to overall CPI growth in 2021 (20.9% growth), as the price of Brent crude oil grew beyond the May expectations (\$69 and \$68 per barrel in the third and fourth quarters, respectively), reaching \$73 per barrel in the third quarter, and ending the year at \$79 per barrel.

IHS Markit forecasts that CPI will remain elevated in 2022 (4.2%) and increase more slowly in 2023 (2.2%), well above the previous forecast (1.7% and 1.9%, respectively), as consumer demand moderates and supply chains issues are resolved. Growth in energy prices is expected to slow considerably in 2022 (2.2%) and turn negative (-1.7%) in 2023. Growth in commodities and food prices are expected to remain above 4.0% in 2022 before easing in 2023.

Employment. The U.S. unemployment rate fell to 3.9% by December, 2021, just 0.4 percentage points above the pre-pandemic low of 3.5%. The January, 2022, forecast estimates that the average national unemployment rate was 5.4% in 2021. IHS Markit forecasts that the national unemployment rate will decline to its trough of 3.5% by the third quarter of 2022, earlier than previously forecast, before increasing slightly to 3.7% by the end of 2023. The Wisconsin unemployment rate was 2.8% in December, 2021, according to BLS, the lowest rate on record.

Payrolls are expected to surpass the previous peak in the second half of 2022, after which annual growth in payrolls is expected to fall short of the pre-pandemic trend. Overall, nonfarm payrolls are projected to increase by 3.7% in 2022 and another 1.3% in 2023. Meanwhile, the labor force participation rate is forecast to recover slightly, from an average of 61.6% in 2021 to 62.4% in 2022 and 62.7% in 2023, but still below pre-pandemic levels (63.1%). The labor force participation rate for the population under age 65 is projected to surpass its pre-pandemic peak by the third quarter of 2022, two quarters later than the previous forecast, offset by a larger share of the population over age 65 that is expected to permanently leave the workforce.

Personal Income. Personal income grew by more than previously expected (6.1% in the May forecast) in 2021 at 7.2%, stemming from growth in wages and salary disbursements (9.0%) and federal transfer payments (7.4%). Going forward, personal income is forecast to grow at a slower rate in 2022 (1.3%), as growth in wage and salary disbursements is mostly offset by the decline in federal transfer payments, and is projected to increase by 4.8% in 2023. IHS Markit forecasts that wage and salary disbursement will continue to grow by 8.2% in 2022 and by 5.3% in 2023. Compared to the previous forecast, growth rates were revised upward for personal income and wage and salary disbursements in each year of the forecast period. Despite the growth in personal income in 2021, real disposable income only grew 2.1% over the same period, and is projected to decline by 3.5% in 2022 before recovering to grow by 2.8% in 2023.

Personal Consumption. IHS Markit projects a gradual "renormalization" of consumer spending patterns in the coming years, as consumers shift away from spending on goods and towards spending on services. The current forecast projects that this shift will occur more slowly than anticipated in May, with spending on services making up 66.4% of total nominal PCE in 2022 and 67.8% in 2023, which is up from 65.1% in 2021, but still short of the pre-pandemic level (69.0%).

Amid rising wages, strong household net worth, and a tight labor market, IHS Markit projects that consumers will have money to spend. The savings rate is expected to decline from 11.9% in 2021 to 5.6% in 2022 and 6.1% in 2023, as individuals begin spending down their excess savings accumulated during the pandemic. Overall, nominal PCE is expected to be higher than the previous estimates, with growth of 7.3% in 2022 and 4.2% in 2023. Sales of consumer items generally subject to the state sales tax (such as most durable goods, clothing, restaurant meals, accommodations, and certain services) grew by an estimated 9.3% in 2021, and are forecast to grow by 13.9% in 2022 and 4.6% in 2023. The estimate for real PCE growth, which accounts for inflation, was increased in 2021 compared to the previous forecast, but is now forecast to grow more slowly in 2022 and 2023 than estimated in May. Lower real PCE growth reflects a decrease in consumer buying power because of higher inflation.

Despite supply chain issues that disrupted new vehicle sales during the second half of the year, sales of light vehicles grew an estimated 3.4% in 2021. IHS Markit forecasts modest growth in light vehicle sales in 2022 (3.1%), followed by stronger 2023 growth (11.2%), as chip shortages are resolved and producers have had time to replenish their inventories. Annual sales of light vehicles are not expected to reach their pre-pandemic peak (17.5 million in 2016) until 2024.

Housing. Housing starts were up 13.6% in 2021, the highest level in 15 years, yet still 23% below the 2005 peak. Although sales of existing houses peaked in the fourth quarter of 2020, the U.S. still saw its highest number of homes sold in 2021 since 2006, with year-over-year growth of 8.9% in 2021. On the other hand, new house sales declined 8.2% in 2021, reflecting inventory shortages, after peaking in the third quarter of 2020. According to the Federal Housing Finance Agency House Price Index, which began tracking housing price data in 1991, housing prices rose with a record high growth rate of 18.5% in the third quarter of 2021, compared to the third quarter in the previous year.

Going forward, IHS Markit forecasts that housing starts will decline 7.0% in 2022 and another 9.8% in 2023. Sales of existing homes are projected to increase by only 0.4% in 2022, before declining 9.6% in 2023, while growth in sales of new homes is projected to continue its decline by 3.3% in 2022 and 5.5% in 2023. Home prices are expected to grow at a slower rate in 2022 and 2023, due to: (a) an expanding housing stock; (b) homes with delinquent mortgage payments that are currently protected by forbearance being put up for sale; (c) more aspiring homeowners being priced out of the single-family home market; and (d) a rise in mortgage rates, which would reduce demand and help stabilize price growth. The average price of existing homes is projected to grow 4.7% in 2022 and 3.4% in 2023. Growth in average new home prices is expected to remain elevated in 2022 (11.0%), before slowing considerably in 2023 (1.7%).

Overall, current estimates for growth in housing starts are similar to the May forecast. Growth in sales of existing homes has been increased for 2021 and 2022, relative to the previous forecast, but decreased in 2023. Growth in new home sales was revised down significantly in 2021, but increased in 2022 and 2023, compared to previous estimates.

Monetary Policy. In response to rising inflation, the Federal Reserve is expected to tighten monetary policy more quickly than assumed in the May forecast. As noted previously, the Federal Reserve announced at its December FOMC meeting that it would end its purchases of U.S. Treasury and mortgage-backed securities by March, 2022. IHS Markit anticipates that the Federal Reserve will begin raising the federal funds rate in May of 2022, with two more increases expected by the end of the year. IHS Markit notes that the first interest rate increase could occur as early as March, 2022, but expects that additional guidance from the Federal Reserve will be forthcoming after its FOMC meeting on January 25-26, 2022. As the rates increase, it is estimated that the average commitment rate for a 30-year, conventional, fixed mortgage will increase from 3.0% in 2021 to 3.4% in 2022 and 4.1% in 2023.

Business Investment. IHS Markit estimates that growth in nominal nonresidential fixed investment recovered 9.1% in 2021, more quickly than previously estimated, after declining by 4.7% in 2020. Growth in 2021 was led by investment in equipment (13.2%), with the strongest growth in industrial equipment (17.6%). As a result of strength in consumer demand and the

continued recovery of the U.S. economy, businesses have profit incentives to expand capacity to keep pace with sales. The forecast anticipates that nominal nonresidential fixed investment will continue to grow by 9.1% in 2022 and 5.7% in 2023. Reflecting the projection that oil prices will remain high in the coming years, IHS Markit forecasts that investment on mining and petroleum structures will increase 32.9% in 2022 and 12.7% in 2023.

The January, 2021, forecast projected that inventories would increase by \$96.9 billion in 2021, after falling \$59.6 billion in 2020. Instead, inventories fell by another \$52.3 billion in 2021, due largely to increased demand for goods and ongoing supply chain issues that had been drawing down inventories. IHS Markit expects businesses to rebuild inventories in the coming years, with total inventories increasing by \$143.0 billion in 2022 and \$153.1 billion in 2023. While IHS Markit reports that many industries had already begun restocking inventory in the fourth quarter of 2021, it predicts that inventories for motor vehicles and parts will not begin rebuilding until the second quarter of 2022.

International Trade. Overall, net exports reduced real GDP growth by 1.37 percentage points in 2021, as the rebound in nominal imports (22.2%) outpaced growth in nominal exports (16.4%). However, growth in imports is expected to slow to 8.0% in 2022 and 2.6% in 2023, as consumers shift from purchasing goods to purchasing services. This, along with stronger growth in exports as global demand increases (9.8% in 2022 and 6.8% in 2023), is expected to improve the U.S. balance of trade in the coming years. Net exports are forecast to reduce GDP only modestly in 2022 (-0.04 percentage points), before contributing 0.35 percentage points in 2023.

Overall, the estimates for total imports and total exports were increased in each year compared to May. However, a larger upward revision was made to imports, resulting in a reduction in the U.S. balance of trade compared to previous estimates.

Corporate Profits. Corporate before-tax book profits grew by an estimated 36.0% in 2021, higher than the 24.6% growth forecast in May, 2021, and up significantly from the 0.6% growth forecast in January, 2021. IHS Markit now forecasts before-tax book profits to decline by 2.4% in 2022, before recovering 2.4% in 2023. Economic profits, which are adjusted for inventory valuation and capital consumption at current cost (and thus are not affected by federal tax laws), increased by 22.9% in 2021, slightly above the May forecast. IHS Markit forecasts more modest increases in economic profits of 1.3% in 2022 and 2023. The January, 2022, forecast assumes that the effective federal corporate tax rate for all industries was 12.4% in 2021, and is expected to increase to 12.9% in 2022 and 13.0% in 2023, a lower effective rate than projected for each year in May.

Fiscal Policy. The federal budget deficit is expected to decline from \$2.77 trillion in federal fiscal year 2021 to \$1.27 trillion in 2022 and \$0.81 trillion in 2023, lower than was forecast in May. Although the IIJA provides \$548 billion in new budget authority, these expenditures will be spread out over five years, so its impact on annual GDP growth in any given year is relatively modest. IHS Markit estimates that spending by the federal government contributed just 0.04 percentage points to GDP growth in 2021, and will detract 0.11 percentage points from GDP in 2022 and 0.01 percentage points in 2023. By contrast, state and local government spending is

forecast to contribute 0.31 percentage points to GDP growth in 2022 and 0.27 percentage points in 2023.

As noted, the forecast assumes that state and local governments will not experience a fiscal contraction due, in part, to financial support provided by the federal government. To date, \$58.2 billion in federal funds have been awarded to the State of Wisconsin, local units of government, and individuals, businesses, and nonprofit entities in the state, from federal acts responding to the COVID-19 pandemic.

Alternative Scenarios. IHS Markit's January, 2022, forecast also includes an optimistic scenario and a pessimistic scenario. Under the optimistic scenario, IHS Markit assigns a 20% probability that a quicker recovery in consumer spending and stronger productivity than assumed in the baseline forecast will occur. A more robust consumer and business response to IJJA and an effective response to the Omicron variant helps support the stronger recovery. This scenario assumes that much of household spending in 2022 occurs early in the year, as a result of: (a) consumers spending down additional excess savings accumulated in 2020 and 2021; and (b) a COVID-19 environment that is less threatening and infection rates that dissipate quickly from current infection levels. Under the optimistic scenario, CPI increases at a faster rate than under the baseline, at 4.4% in 2022 and 2.5% in 2023. This scenario also assumes that firms continue to capitalize on productivity gains they achieved during the early stages of the pandemic, leading to a quicker rise in business fixed investment. The national unemployment rate quickly falls below 4.0% by early 2022. Real GDP grows at a 7.8% annual rate in the fourth quarter of 2021, rather than the 6.8% rate assumed under the baseline forecast, and rises to 5.7% (rather than 4.1%) in 2022.

Under the pessimistic scenario, to which IHS Markit assigns a 30% probability, recovery in consumer spending is weakened by an alarming rise in COVID-19 cases and hospitalizations that leads to a reduction in socially-dense consumer activities. Ongoing supply-chain issues worsen under this scenario, leading to prolonged delays in the production and shipment of consumer durable goods and growth in consumer spending being 1.3 percentage points lower than the baseline forecast in 2022 and 2023. These factors prompt businesses to scale back investment plans, leading to weaker business fixed investment growth of 5.0% in 2022. The pessimistic scenario assumes a slower increase in consumer prices (3.6% in 2022 and 1.1% in 2023) as compared to the baseline. The unemployment rate is expected to continue declining, though at a slower pace, to 4.2% by mid-2023, before rising slightly in the following years. Real GDP growth is weaker in the fourth quarter of 2021, compared to the baseline, and slows to 2.7% in 2022.

General Fund Taxes

Table 3 shows general fund tax revenue estimates for 2021-22 and 2022-23. The previous estimates are the general fund tax estimates included in Act 58, adjusted to reflect the Department of Revenue's decision to adjust tax withholding tables effective January 1, 2022 (the first such adjustment since April 1, 2014).

TABLE 3**Projected General Fund Tax Collections
(\$ in Millions)**

	2020-21 <u>Actual</u>	<u>Previous Estimates</u>		<u>Revised Estimates</u> January, 2022	
		<u>2021-22</u>	<u>2022-23</u>	<u>2021-22</u>	<u>2022-23</u>
		Individual Income	\$9,283.4	\$7,970.7	\$9,115.6
General Sales and Use	6,373.5	6,639.6	6,844.5	6,925.0	7,230.0
Corporate Income/Franchise	2,560.1	1,910.0	2,160.0	2,420.0	2,585.0
Public Utility	356.3	354.0	352.0	369.0	371.0
Excise					
Cigarette	509.8	494.0	483.0	498.0	487.0
Tobacco Products	92.7	96.0	100.0	95.0	99.0
Vapor Products	1.5	1.7	2.0	3.6	4.0
Liquor and Wine	64.6	60.0	61.0	61.0	62.0
Beer	9.2	8.9	8.8	8.7	8.6
Insurance Company	202.1	209.0	217.0	211.0	220.0
Miscellaneous Taxes	<u>119.6</u>	<u>117.0</u>	<u>114.0</u>	<u>132.0</u>	<u>128.0</u>
Total	\$19,572.8	\$17,860.9	\$19,457.9	\$18,943.3	\$20,884.6
Change from Prior Year		-\$1,711.9	\$1,597.0	-\$629.5	\$1,941.3
Percent Change		-8.7%	8.9%	-3.2%	10.2%

In total, these amounts are \$2,509.2 million greater than the previous estimates. The percentage difference is 6.7%. The majority of the excess revenue (97% of the excess revenue) is from increased projections for: (a) corporate income/franchise tax revenues, which are \$935.0 million higher than the previous estimates; (b) individual income tax revenues, which are \$823.7 million higher; and (c) sales and use tax revenues, which are \$670.9 million higher. The remaining 3% (\$79.6 million) of the excess revenue is primarily comprised of higher estimates for taxes on public utilities and the real estate transfer fee.

The new estimates are based on the most recent national economic forecast and tax collections data through December. They reflect all state and federal law changes enacted, to date, that impacted state tax collections.

Individual Income Tax. Total individual income tax collections were \$9,283.4 million in 2020-21, an increase of 6.2% over the prior year. Actual revenues in 2020-21 were 0.4% (\$33.4 million) higher than this office's previous estimate. Based on preliminary collections information through December, 2021, total year-to-date income tax collections are higher by 13.7% (\$562.3 million) than such receipts during the same time period one year ago.

However, revenues are projected to decline over the rest of 2021-22 by \$1,626 million (31.4%) relative to the same time period in the prior year. This estimated revenue decrease over the rest of the year is driven primarily by: (a) the income tax rate reduction included in 2021 Act

58, which lowered the rate in the third income tax bracket from 6.27% to 5.30%, beginning in tax year 2021; and (b) the Department of Revenue's decision to update the income tax withholding tables beginning January 1, 2022, to reflect the income tax rates, brackets, and sliding scale standard deduction (SSSD) in effect under current law for tax year 2022. Together, these two provisions are estimated to reduce income tax collections by \$1,729 million in 2021-22. On a year-over-year basis, total income tax revenues are estimated to decline by 11.5% to \$8,220 million in 2021-22 (\$249.3 million higher than the previous estimate).

On January 6, 2022, it was announced that a winning Powerball ticket was purchased in Ashwaubenon. Assuming the winner elects to receive the cash option, this is estimated to result in additional income tax revenues of \$17.2 million on a one-time basis. Though recent news reports indicate that the individual has not yet come forward to claim their prize, this amount is nonetheless included in the income tax revenue projection for 2021-22.

In 2022-23, income tax collections are estimated to increase year-over-year by 17.9% to \$9,690 million (an increase of \$574.4 million relative to the prior estimate for 2022-23). This is due, in part, to a currently-tight labor market and resultant wage inflation. The revenue increase is estimated to persist even while the estimate projects a continued increase in the CPI, on which the income tax rates, brackets, and SSSD for each tax year are based. All else equal, an increase in the CPI serves to reduce income tax collections, because relatively more income is subject to tax at lower rates. The estimate also reflects the anticipation that income tax refunds will be significantly lower in 2022-23 relative to 2021-22, which is principally caused by the withholding table update described above. Because lesser amounts of tax will be over-withheld from each paycheck beginning in tax year 2022, this will reduce the refund payments taxpayers would otherwise receive, beginning in 2022-23.

General Sales and Use Tax. State sales and use tax revenues totaled \$6,373.5 million in 2020-21, which was an increase of 9.2% over the prior year. Sales tax revenues are estimated at \$6,925.0 million in 2021-22 and \$7,230.0 million in 2022-23, constituting annual growth of 8.7% in 2021-22 and 4.4% in 2022-23. These estimates represent revenue increases relative to the prior estimates of \$285.4 million in 2021-22 and \$385.5 million in 2022-23. The increased estimates are based on sales tax collections to date and IHS Markit's projections for: (a) increased inflation in 2021 and 2022, which requires consumers to spend more money to maintain the same level of consumption; and (b) increased personal income and higher accumulated savings to date. IHS Markit's current projections for annual inflation were revised up from the May, 2021, forecast by 2.1 percentage points in 2021 and 2.5 percentage points in 2022.

Sales tax collections through December, 2021, are 13.2% (\$332 million) higher than the same period in the prior year. The strong year-to-date growth in collections reflects growth over months in the previous year in which COVID-19 vaccines were not yet available and consumers engaged in less in-person economic activity. It is estimated that, over the rest of 2021-22, sales tax revenue will increase at a slower rate of 5.7%.

Prior to the start of the pandemic, it was estimated that Wisconsin would collect \$146.3 million in 2020-21 in sales tax from remote sellers and marketplace providers. Actual sales tax collections from these sellers amounted to \$401.4 million in 2020-21, which is \$255.1 million

more than the 2020-21 estimate. It is believed that the pandemic resulted in a large and continuing shift in consumer spending from physical stores to online stores, which is reflected in this data. Year-to-date sales tax collected by marketplace providers and remote sellers in 2021-22 has increased 31.2% (\$42.2 million) compared to the same period in the previous year. If sales tax collections were adjusted to exclude the increased collections from marketplace providers and remote sellers, year-to-date growth in collections would have been 11.5%.

Corporate Income/Franchise Tax. Corporate income/franchise tax collections were \$2,560.1 million in 2020-21, which grew 59.2% above the previous year. Strong growth in 2020-21 was attributable to: (a) 22.9% growth in economic profits in 2021; (b) strong corporate audit payments; and (c) a one-time enhancement of \$155 million due to the shifting of estimated and final payments resulting from the extension of tax filing deadlines in 2020 to July 15 (this revenue would have otherwise been collected in 2019-20). Corporate tax revenues are projected to decline by \$140.1 million to \$2,420.0 million in 2021-22 and then increase by \$165.0 million to \$2,585.0 million in 2022-23, reflecting a contraction of 5.5% in 2021-22 and growth of 6.8% in 2022-23.

Compared to the corporate tax revenues forecast in June, 2021, actual collections were \$230.1 million higher in 2020-21, and the current estimates are \$510 million higher in 2021-22 and \$385 million higher in 2022-23. This is so for two main reasons. First, based on information from the federal Small Business Administration on the timing of loan forgiveness, as well as corporate tax refunds paid year-to-date, \$58.3 million of the estimated fiscal effect of providing state tax benefits for certain loan forgiveness and economic support programs (including forgiven PPP loans) under 2021 Act 1 is now projected to occur in 2021-22, rather than 2020-21 as initially estimated. Second, strong year-to-date collections (22.6% over the same period through December in 2020-21) were likely affected by tax planning activities in tax year 2021, in anticipation of the potential passage of BBB. Although not yet enacted, several of the proposed provisions include certain changes to the tax treatment of foreign-derived profits, an alternative minimum 15% corporate tax rate for corporations reporting more than \$1.0 billion in annual profit, and a 1% corporate stock buyback excise tax. Because corporate tax filers had a strong incentive to realize profits before such changes may go into effect, it is assumed that payments made in the first half of 2021-22 include tax revenues from profits that might otherwise have been realized later in the biennium.

Despite the strong growth in collections in the first half of 2021-22, several factors account for the forecasted decline compared to collections in 2020-21. First, tax filing deadlines for corporate filers were not extended in 2021, and thus no revenues were thrown forward from 2020-21 into 2021-22 (resulting in a decline of \$155 million compared to the previous year). Second, according to the Department of Revenue, the sharp increase in corporate audit payments in recent years reflects economic activity from prior years and is unlikely to repeat in 2021-22 and 2022-23, relative to 2020-21. Third, IHS Markit forecasts that growth in economic profits will moderate to 1.3% in 2022 and 2023. Fourth, strong year-to-date collections were likely affected by tax planning activities that are not anticipated to continue during the remainder of the biennium. Fifth, the majority of the revenue reduction estimated under 2021 Act 1 is now estimated to occur in 2021-22, rather than 2020-21.

Public Utility Taxes. Revenues from public utility taxes totaled \$356.3 million in 2020-21 and are estimated at \$369 million in 2021-22 and \$371 million in 2022-23. Year-over-year, these amounts represent an increase of 3.6% in 2021-22 and 0.5% in 2022-23. Relative to the previous estimates, these estimates reflect an increase of \$15 million in 2021-22 and \$19 million in 2022-23.

The higher estimates are primarily attributable to strong demand for electricity and natural gas services, which experienced accelerated growth as the economy returned to pre-pandemic patterns in 2021. Data reported by Wisconsin utilities through September 30, 2021, show year-over-year growth of 13.3% for natural gas sales, and 4.0% for electricity sales. These trends are anticipated to continue in 2022, with the U.S. Energy Information Administration forecasting 2022 growth of 8.4% for natural gas sales nationally and 2.9% for electricity sales in the Wisconsin region.

Estimated tax payments from the next largest taxpayer group, telecommunications companies, are anticipated to decline during the biennium as the exemption enacted under 2019 Act 128 for property providing broadband internet service in rural areas phases in. The exemption first affects public utility tax collections in 2021-22, and is estimated to reduce collections by \$1.6 million in 2021-22 and \$8.3 million in 2022-23, growing further as it phases in fully by 2025-26. Collections for other ad valorem utility taxpayers are anticipated to decline as the statewide net property tax rate is expected to decline over the biennium. Overall, the estimated declines in telecommunications and other ad valorem company collections are offset by strong growth in electricity and natural gas sales, resulting in modest growth in utility tax revenues over the 2021-23 biennium.

Excise Taxes. General fund excise taxes are imposed on cigarettes, liquor (including wine and hard cider), other tobacco products, vapor products, and beer. Total excise tax revenues in 2020-21 were \$677.8 million, of which \$509.8 million (75.2%) was from the excise tax on cigarettes. Despite strong growth in liquor (17.9%) and beer (8.2%) tax collections, total excise tax collections in 2020-21 declined 0.2% from the prior fiscal year. This decline was driven by a 2.6% decrease in cigarette tax revenues. Total excise tax revenues are estimated to decrease by 1.7% to \$666.3 million in 2021-22 and by 0.9% to \$660.6 million in 2022-23. Compared to the previous estimates, these amounts are \$5.7 million higher in 2021-22 and \$5.8 million higher in 2022-23.

Cigarette tax revenues are estimated at \$498.0 million in 2021-22 and \$487.0 million in 2022-23, constituting annual revenue declines of 2.3% and 2.2%, respectively. These estimates are higher than previously forecast by \$4.0 million each year. This increase was partly in response to higher than anticipated 2020-21 cigarette tax revenues (\$2.8 million above the previous forecast). In addition, year-to-date growth in 2021-22 cigarette tax revenues is -2.9% compared to the same period in the prior year. However, after adjusting for the estimated reduction in revenues resulting from the federal law raising the legal age for purchasing cigarettes and tobacco products to 21, year-to-date revenues are only down 2.3% compared to the prior year. Based on this, the estimate has been revised up now that the fiscal effects of the federal law change have been fully realized, and future revenue declines are expected to be smaller than those seen in recent months.

Insurance Premiums Taxes. Insurance premiums tax collections were \$202.1 million in 2020-21, \$1.1 million above the previous estimate. Revenues are projected to increase to \$211.0 million in 2021-22 and to \$220.0 million in 2022-23 (growth rates of 4.4% and 4.3%, respectively). The estimates are \$2.0 million higher each year from the previous estimates, and are based on growth in year-to-date insurance premiums tax collections (4.2%), trends in historical collection growth, and projected growth in consumer spending on insurance.

Miscellaneous Taxes. Miscellaneous taxes include the real estate transfer fee, municipal and circuit court-related fees, and a small amount from the occupational tax on coal. Miscellaneous tax revenues were \$119.6 million in 2020-21, of which 88.7% was generated from the real estate transfer fee. Total miscellaneous tax collections in 2020-21 represented an increase of 30.4% from the prior fiscal year, in part due to strong housing demand fueled by low mortgage rates, which led to rising prices. Miscellaneous tax revenues are estimated at \$132.0 million in 2021-22 and \$128.0 million in 2022-23, which is higher than the previous estimate by \$15.0 million and \$14.0 million, respectively.

The revised estimates reflect much higher than expected year-to-date growth in collections from the real estate transfer fee (18.0%) and improved housing market indicators. At the time of the June, 2021, forecast, this office projected relatively flat growth in the first half of 2021-22, based on a number of IHS Markit indicators. These indicators are now showing: (a) a larger amount of existing and new home sales during the second half of 2021 and into 2022, compared to IHS Markit's May, 2021 forecast; and (b) significantly higher house prices, particularly for new houses.

This office will continue to monitor state revenues and expenditures and new economic forecasts, and notify you and your colleagues of any further adjustments that may be necessary.

Sincerely,

Robert Wm. Lang
Director

RWL/ml

^(a) Amounts previously credited to the Capital Improvement Fund (which include interest earnings and may include sale proceeds representing purchase premium) reduce issuance authority by the same amount.

^(b) Only a portion of the Bonds are treated as refunding bonds for purposes of the State's legislative authorizations. The remaining Bonds are treated as funding bonds and do not reduce the remaining legislative authority.

^(c) Accrued interest on any obligation that is not paid during the fiscal year in which it accrues is treated as debt and taken into account for purposes of the statutory authority to issue debt.

APPENDIX C

EXPECTED FORM OF BOND COUNSEL OPINION

Upon delivery of the Bonds, it is expected that Foley & Lardner LLP will deliver a legal opinion in substantially the following form:

(Letterhead of Foley & Lardner LLP)

State of Wisconsin Building Commission
101 East Wilson Street, 7th Floor
Madison, Wisconsin 53703

\$257,090,000
STATE OF WISCONSIN
GENERAL OBLIGATION REFUNDING BONDS OF 2022, SERIES 4
and
\$20,585,000
STATE OF WISCONSIN
GENERAL OBLIGATION REFUNDING BONDS OF 2022, SERIES 5 (TAXABLE)

We have acted as bond counsel in connection with the issuance by the State of Wisconsin (**State**) of its \$257,090,000 General Obligation Refunding Bonds of 2022, Series 4, dated the date hereof (**2022 Series 4 Bonds**) and its \$20,585,000 General Obligation Refunding Bonds of 2022, Series 5 (Taxable), dated the date hereof (**2022 Series 5 Bonds** and, collectively with the 2022 Series 4 Bonds, **Bonds**). The Bonds are authorized by Article VIII of the Wisconsin Constitution and Chapters 18 and 20 of the Wisconsin Statutes, and are being issued pursuant to resolutions adopted by the State of Wisconsin Building Commission (**Commission**) on October 14 2020 and October 20, 2021 (**Resolutions**).

We examined the law, a certified copy of the proceedings relating to the issuance of the Bonds, and certifications of public officials and others. As to questions of fact material to our opinion, we relied upon those certified proceedings and certifications without independently undertaking to verify them.

Based upon this examination, it is our opinion that, under existing law:

1. The Bonds are valid and binding general obligations of the State.
2. The Resolutions have been duly adopted by the Commission and are valid and binding obligations of the State, enforceable upon the State as provided in the respective Resolutions.
3. The full faith, credit, and taxing power of the State are irrevocably pledged to the payment of the principal of, and premium, if any, and interest on, the Bonds as the Bonds mature and become due. There has been irrevocably appropriated, as a first charge upon all revenues of the State, a sum sufficient for such purpose.
4. Interest on the 2022 Series 4 Bonds is excluded from gross income for federal income tax purposes and is not an item of tax preference for purposes of the federal alternative minimum tax imposed on individuals; however, interest on the 2022 Series 4 Bonds is taken into account in determining “adjusted financial statement income” for purposes of computing the federal alternative minimum tax imposed on certain corporations for taxable years beginning after December 31, 2022. The State must comply with all requirements of the Internal Revenue Code of 1986, as amended, that must be satisfied after the 2022 Series 4 Bonds are issued for interest on the 2022 Series 4 Bonds to be, or continue to be, excluded from gross income for federal income tax purposes. The State has agreed to do so. A failure to comply may cause interest on the 2022 Series 4 Bonds to be included in gross income for federal income tax purposes, in some cases retroactively to the date the 2022 Series 4 Bonds were issued. We express no opinion about other federal tax law consequences regarding the Bonds.

The rights of the owners of the Bonds and the enforceability of the Bonds may be limited by bankruptcy, insolvency, reorganization, moratorium, and other similar laws affecting creditors' rights and by equitable principles (which may be applied in either a legal or an equitable proceeding). This letter expresses no opinion as to the availability of any particular form of judicial relief.

We have not been engaged or undertaken to review the accuracy, completeness, or sufficiency of the Official Statement dated October 19, 2022 or other offering material relating to the Bonds (except to the extent, if any, stated in the Official Statement), and we express no opinion as to those matters (except only the matters set forth as our opinion in the Official Statement).

This letter speaks as of its date. We assume no duty to change this letter to reflect any facts or circumstances that later come to our attention or any changes in law. In acting as bond counsel, we have established an attorney-client relationship solely with the State.

Very truly yours,

FOLEY & LARDNER LLP

APPENDIX D

^(a) The Refunded Bonds maturing on each maturity date reflect only a portion of the total amount of the bonds of the applicable series maturing on that maturity date. The CUSIP number shown is the CUSIP number currently assigned.

^(b) CUSIP numbers have been obtained from sources the State believes to be reliable, but the CUSIP numbers are subject to change after issuance of the Refunded Bonds, and the State takes no responsibility for the correctness of the CUSIP numbers.

^(c) These are Purchased Bonds as described under "**PLAN OF REFUNDING; Invitation to Tender Bonds**" in this Official Statement.
