Cautionary Information

Users of this information should be cautioned about several points:

The General Fund financial information in this document has been prepared using what is believed to be the best available data as of its date. The tables in this document have been prepared using the same procedures used to prepare similar information for the State of Wisconsin Continuing Disclosure Annual Report, Official Statements prepared for specific securities, or reports filed in conjunction with various securities. This information is, however, preliminary in nature and subject to change.

- This information is unaudited and is not a “financial statement.” None of the data presented here has been subjected to customary fiscal period closing procedures or the procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments.
- This information speaks only as of the date on which it was prepared. The State is not obligated to update any of this information unless so required by undertakings related to its Continuing Disclosure Annual Report.
- Information classified as “actual”, and any difference from any prior estimate, does not signify a change to official estimates. Any official revenue or expenditure re-estimates that do occur will be separately identified and, if material, appropriately noted.
- The information is not intended to reflect the State’s projected budgetary balance for fiscal years 2025-26 and 2026-27.
- Projections of results for dates after the date this information is prepared are forward looking. Actual results will almost certainly differ.
 - It is important to note that cash flow projections are expressed on a *cash basis* while the tax revenue collection estimates released by the Department of Revenue (**DOR**) and the Legislative Fiscal Bureau (**LFB**) are expressed on a *budgetary basis* and net of any refunds.
 - Projections are not adjusted to reflect actual revenues and expenditures and routine variability in the timing of receipts and disbursements but may be adjusted to reflect unique events.
 - Projections of remaining fiscal year cash flow may be adjusted when necessary to reflect unforeseen events or additional revised forecasts of the General Fund condition statement.
- Data in the tables of financial information are subject to revision and reclassification for prior periods. This is particularly true for revenue data, where proper classification depends on tax returns which are received and processed significantly after the tax payments are received through electronic transfers.
- Some information is presented on a cash basis of accounting while other data is presented on a budgetary or agency-recorded basis. Users should not compare information that is presented on one basis of accounting with information that is presented on a different basis of accounting.
- Comparison of monthly General Fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month. In addition, comparison of year-to-date annual General Fund financial information also has many inherent problems due to the potential of different revenue and budget provisions for each fiscal year.
- The presence of information here does not imply the State of Wisconsin made any determination as to its materiality.
- None of the information in these tables of financial information is required by the State of Wisconsin’s continuing disclosure undertakings pursuant to Securities and Exchange Commission (**SEC**) Rule 15c2-12; however, this information is being filed with the Municipal Securities Rulemaking Board’s (**MSRB**) Electronic Municipal Market Access (**EMMA**) system as an additional/voluntary filing.

- This information is not, and does not replace, a listed event required by SEC Rule 15c2-12.
- This information is not, and does not replace, the annual financial information required by SEC Rule 15c2-12.

(a) Temporary reallocations of cash are not included.

(b) The General Fund cash balances presented in this schedule are not based on GAAP. The General Fund includes funds designated for operations and capital purposes of certain proprietary programs of the State's universities. Receipts and disbursements of such funds for the designated programs and the disbursement of such funds for other purposes are reflected in the cash flow. A use of the designated funds for purposes other than the proprietary programs is, in effect, a borrowing of such funds. Therefore, at any time that the balance in the General Fund is less than the balance of such designated funds, the State is obligated to replenish the designated funds to the extent of the shortfall. These designated funds are anticipated to range from \$600 million to \$2.0 billion for the 2024-25 fiscal year. In addition, the General Fund holds deposits for several escrow accounts pursuant to court orders or federal rulings. These funds have averaged and are expected to continue to average approximately \$25 million during each fiscal year.

(c) The Wisconsin Statutes provide certain administrative remedies to deal with periods when the General Fund may be in a negative cash position. The Secretary of Administration may temporarily reallocate cash in other funds to the General Fund in an amount up to 9% of the general-purpose revenue appropriations then in effect with an additional amount up to 3% for a period of up to 30 days. The resulting amounts available for temporary reallocation for the 2024-25 fiscal year (based on 2023 Wisconsin Act 19) are approximately \$1.894 billion and \$631 million, respectively. If the amount available for temporary reallocation to the General Fund is not sufficient, then the Secretary of Administration is authorized to set priorities for payments from the General Fund and to prorate or defer certain payments.

In addition, comparison of monthly General Fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month.

- (a) None of the data presented here has been subjected to customary fiscal period closing procedures or other procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments. In addition, comparison of monthly General Fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month. Amounts are as of June 30 and are not the final amounts for the fiscal year. Transactions occurring during July, August and September may affect the prior year's final fiscal amounts.
- (b) The estimates for the 2024-25 fiscal year reflect 2023 Wisconsin Act 19, the January 2024 LFB Report, and 2023 Wisconsin Act 102. The estimates do not reflect any specific disbursement of remaining ARPA federal funds. The projections and estimates also do not reflect the May 2024 LFB Memo, the November 2024 DOA Report, the January 2025 LFB Report and the May 2025 LFB Memo.
- (c) Changes are sometimes made after the beginning of the fiscal year to the projected revenues and disbursements. Depending on when these changes occur, there are situations in which prior estimates cannot be changed which may result in large variances. This column includes adjustments to the variances, if any, to more accurately reflect the variance between the estimated and actual amounts.

July 31, 2023 to November 30, 2025 – Actual
December 31, 2025 to June 30, 2026 – Projected^(c)
(Amounts in Millions)**

The following two tables show, on a monthly basis, the cash balances available for temporary reallocation. The first table does not include balances in the Local Government Investment Pool (LGIP) and the second table does include such balances. Though the LGIP is available for temporary reallocations, funds in the LGIP are deposited and withdrawn by local units of government, and thus are outside the control of the State. The monthly average daily balances in the LGIP for the past five years have ranged from a low of \$4.256 billion during November 2021 to a high of \$8.179 billion during July 2025. The Secretary of Administration may not exercise the authority to use temporary reallocation if doing so would jeopardize the cash flow of any fund or account from which a temporary reallocation would be made.
