Cautionary Information

Users of this information should be cautioned about several points:
--

The General Fund financial information in this document has been prepared using what is believed to be the best available data as of its date. The tables in this document have been prepared using the same procedures used to prepare similar information for the State of Wisconsin Continuing Disclosure Annual Report, Official Statements prepared for specific securities, or reports filed in conjunction with various securities. This information is, however, preliminary in nature and subject to change.

- This information is unaudited and is not a “financial statement.” None of the data presented here has been subjected to customary fiscal period closing procedures or the procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments.
- This information speaks only as of the date on which it was prepared. The State is not obligated to update any of this information unless so required by undertakings related to its Continuing Disclosure Annual Report.
- Information classified as “actual”, and any difference from any prior estimate, does not signify a change to official estimates. Any official revenue or expenditure re-estimates that do occur will be separately identified and, if material, appropriately noted.
- The information is not intended to reflect the State’s projected budgetary balance for fiscal year 2024-25.
- Projections of results for dates after the date this information is prepared are forward looking. Actual results will almost certainly differ.
 - It is important to note that cash flow projections are expressed on a *cash basis* while the tax revenue collection estimates released by the Department of Revenue (**DOR**) and the Legislative Fiscal Bureau (**LFB**) are expressed on a *budgetary basis* and net of any refunds.
 - Projections are not adjusted to reflect actual revenues and expenditures and routine variability in the timing of receipts and disbursements but may be adjusted to reflect unique events.
 - Projections of remaining fiscal year cash flow may be adjusted when necessary to reflect unforeseen events or additional revised forecasts of the General Fund condition statement, including, but not limited to, the fiscal effects of the COVID-19 pandemic.
- Data in the tables of financial information are subject to revision and reclassification for prior periods. This is particularly true for revenue data, where proper classification depends on tax returns which are received and processed significantly after the tax payments are received through electronic transfers.
- Some information is presented on a cash basis of accounting while other data is presented on a budgetary or agency-recorded basis. Users should not compare information that is presented on one basis of accounting with information that is presented on a different basis of accounting.
- Comparison of monthly General Fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month. In addition, comparison of year-to-date annual General Fund financial information also has many inherent problems due to the potential of different revenue and budget provisions for each fiscal year.
- The presence of information here does not imply the State of Wisconsin made any determination as to its materiality.
- None of the information in these tables of financial information is required by the State of Wisconsin’s continuing disclosure undertakings pursuant to Securities and Exchange Commission (**SEC**) Rule

15c2-12; however, this information is being filed with the Municipal Securities Rulemaking Board's **(MSRB)** Electronic Municipal Market Access **(EMMA)** system as an additional / voluntary filing.

- This information is not, and does not replace, a listed event required by SEC Rule 15c2-12.
- This information is not, and does not replace, the annual financial information required by SEC Rule 15c2-12.

Budgetary Results of 2023-24 Fiscal Year

The 2023-24 fiscal year ended on June 30, 2024. The Annual Fiscal Report (budgetary basis) for the 2023-24 fiscal year (**Annual Fiscal Report**) was published on October 15, 2025. This report includes the General Fund ending budgetary undesignated balance and General Fund tax collections for the 2023-24 fiscal year. The State filed the Annual Fiscal Report for the 2023-24 fiscal year with the MSRB through its EMMA system, and a copy is available from the State as provided on page [22](#).

The Budget Stabilization Fund balance as of June 30, 2024 was approximately \$1.9 billion. Under current law, while fiscal year 2023-24 General Fund tax collections exceed estimates included in the 2023-25 biennial budget (**2023 Wisconsin Act 19**), no additional automatic transfers of excess tax collections will be made until the balance is less than 5 percent of estimated general purpose revenue expenditures in the fiscal year.

General Fund Condition Statement

The State ended the 2023-24 fiscal year with an undesignated balance of \$4.6 billion. This amount is \$375.9 million higher than the projected ending balance for that fiscal year in 2023 Wisconsin Act 19, \$914.2 million higher than the projected ending balance that was included in a report released by LFB on January 24, 2024 (**January 2024 LFB Report**), and \$275.9 million higher than the assumed beginning balance for the 2024-25 fiscal year included in 2023 Wisconsin Act 19.

The following table includes the General Fund condition statement for the 2023-24 fiscal year as included in the Annual Fiscal Report. The table also includes, for comparison, the General Fund condition statements for the 2022-23 fiscal year included in the Annual Fiscal Report for the 2022-23 fiscal year and for the 2023-24 fiscal year as included in 2023 Wisconsin Act 19, the January 2024 LFB Report, and a memo released by LFB on May 22, 2024 (**May 2024 LFB Memo**).

**CASH BALANCES IN FUNDS AVAILABLE FOR
TEMPORARY REALLOCATION^{(a)(h)}
July 31, 2022 to September 30, 2024 — Actual
October 1, 2024 to June 30, 2025 - Projected
(Amounts in Millions)**

The following two tables show, on a monthly basis, the cash balances available for temporary reallocation. The first table does not include balances in the Local Government Investment Pool (LGIP) and the second table does include such balances. Though the LGIP is available for temporary reallocations, funds in the LGIP are deposited and withdrawn by local units of government, and thus are outside the control of the State. The monthly average daily balances in the LGIP for the past five years have ranged from a low of \$3.412 billion during November 2019 to a high of \$7.752 billion during March 2024. The Secretary of Administration may not exercise the authority to use temporary reallocation if doing so would jeopardize the cash flow of any fund or account from which a temporary reallocation would be made.

Endnotes

- (a) Please refer to the cautionary statements at the beginning of this document. The cautionary statements are an integral part of this report. None of the data presented here has been subjected to customary fiscal period closing procedures or other procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments. In addition, comparison of monthly General Fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month.
- (b) Temporary reallocations of cash are not included.
- (c) The General Fund cash balances presented in this schedule are not based on generally accepted accounting principles. The General Fund includes funds designated for operations and capital purposes of certain proprietary programs of the State's universities. Receipts and disbursements of such funds for the designated programs and the disbursement of such funds for other purposes are reflected in the cash flow. A use of the designated funds for purposes other than the proprietary programs is, in effect, a borrowing of such funds. Therefore, at any time that the balance in the General Fund is less than the balance of such designated funds, the State is obligated to replenish the designated funds to the extent of the shortfall. These designated funds ranged from \$1.5 billion to \$2.2 billion for fiscal year 2021-22, \$1.1 billion to \$1.5 billion for fiscal year 2022-23, and are anticipated to range from \$895 million to \$1.6 billion for fiscal year 2023-24.
- (d) The Statutes provide certain administrative remedies to deal with periods when the General Fund is in a negative cash position. The Secretary of Administration may temporarily reallocate cash in other funds to the General Fund in an amount up to 9% of the gross general-purpose revenue appropriations then in effect (approximately \$2.0 billion in fiscal year 2023-24) and may also temporarily reallocate for a period of up to 30 days an additional amount up to 3% of the general-purpose revenue appropriations then in effect (approximately \$680 million in fiscal year 2023-24). If the amount of available to the General Fund is not sufficient, the Secretary of Administration is authorized to set priorities for payments from the General Fund and to prorate or defer certain payments.
- (e) The projections and estimates for the 2023-24 fiscal year (cash basis) reflect 2023 Wisconsin Act 19 and the January 2024 LFB Report. The projections and estimates do not reflect any specific disbursement, but rather generalized assumptions for disbursement, of remaining ARPA federal funds. Temporary reallocations of cash are not included.
- (f) Reflects no operating notes issued or assumed to be issued for fiscal years 2021-22, 2022-23 or 2023-24.
- (g) Changes are sometimes made after the beginning of the fiscal year to the projected revenues and disbursements. Depending on when these changes occur, there are situations in which prior estimates cannot be changed and the result is a large variance. This column includes adjustments, if any, to the variances to more accurately reflect the variance between the estimated and actual amounts.
- (h) The amounts shown reflect a reduction in the aggregate cash balances available to the extent any fund had a negative balance and temporary reallocations were made from such fund.
- (i) This category includes intergovernmental transfers. The amount of these transfers may vary greatly between fiscal years, and therefore, this category may not be comparable on a historical basis. In addition, reflects receipt, as of June 30, 2023, of approximately \$2.5 billion of ARPA federal funds.
- (j) Certain transfers between General Fund appropriations are recorded as both revenues and expenditures of the General Fund. The amount of these transfers may vary greatly between fiscal years, and therefore this category may not be comparable on a historical basis.

- (k) The amounts are from the Annual Fiscal Report (unaudited, budgetary basis) for fiscal year 2022-23, dated October 16, 2023.
- (l) The amounts are from the Annual Fiscal Report (unaudited, budgetary basis) for fiscal year 2023-24, dated October 15, 2024.

The amounts shown are as of June 30, 2023 and also include any fiscal year 2022-23 revenues that may have been recorded by State agencies during the months of July, August, and September 2023.
