1.0 GENERAL INFORMATION

1.1 Introduction

The purpose of this Program is to provide funding to support, replicate, and expand effective, evidence-based or evidence-informed violence reduction initiatives, particularly in communities disproportionately impacted by violence. The State, as represented by the Department of Administration (DOA), intends to use the results of this Grant Announcement to establish one or more Grant Agreements. DOA intends to award up to **\$10,000,000.00** in grants through this Announcement. Funding for this assistance is provided to Wisconsin by the American Rescue Plan Act of 2021.

1.2 Granting Agency

This Grant Announcement is issued by DOA which is the sole point of contact for the State of Wisconsin during the selection process. All communications with DOA should be directed to the following email address:

Email: ovp@wisconsin.gov

The agreement(s) resulting from this Grant Announcement will be administered by the Wisconsin Department of Administration.

1.3 Definitions

Applicant	The legal entity that will enter into a Grant Agreement with DOA in the event of an award.
Adverse Childhood Experiences (ACEs)	Adverse childhood experiences, or ACEs, are potentially traumatic events that occur in childhood (0-17 years). Examples include but are not limited to: experiencing violence, abuse, or neglect, witnessing violence in the home or community, and having a family member attempt or die by suicide. Also included are aspects of the child's environment that can undermine their sense of safety, stability, and bonding.
Capital Expenditure	Expenditures to acquire capital assets, excluding vehicles, or expenditures to make additions, improvements, modifications, replacements, rearrangements, reinstallations, renovations, or alterations to capital assets that materially increase their value or useful life.
Community-Based Policing	Community policing is a philosophy that promotes organizational strategies that support the systematic use of partnerships and problem-solving techniques to proactively address the immediate conditions that give rise to public safety issues, crime, social disorder, and fear of crime.

Community Violence Intervention (CVI)	Community violence intervention (CVI) is an approach that uses evidence-informed strategies to reduce violence through tailored community-centered initiatives. These multidisciplinary strategies engage individuals and groups to prevent and disrupt cycles of violence and retaliation and establish relationships between individuals and community assets to deliver services that save lives, address trauma, provide opportunities and improve the physical, social, and economic conditions that drive violence.
Crime Gun Intelligence	Crime gun intelligence refers to the systematic collection, analysis, and use of information related to firearms involved in crime. Crime gun intelligence tools can help law enforcement disrupt the supply of crime guns, identify and apprehend offenders, and prevent future acts of gun violence when properly implemented.
DOA	Department of Administration.
Evidence-based programs	Programs, practices, activities, policies, procedures, and interventions that are guided by the best research evidence with practice-based expertise, evaluation, cultural competence, and the values of the persons receiving the services and that promote positive individual-level or population-level outcomes.
Evidence-Informed	Evidence-informed indicates a practice is backed by evidence generated by multiple disciplines and a variety of methods and may include findings from research and evaluation as well as case studies, expert opinions, or documented lessons learned from the field.
Focused Firearm Violence Deterrence	Focused deterrence strategies seek to change offender behavior by understanding underlying crime-producing dynamics and conditions that sustain recurring crime problems and implementing an appropriately focused blended strategy of law enforcement, community mobilization, and social service actions. Direct communications of increased enforcement risks and the availability of social service assistance to intended groups and individuals are defining characteristics of focused deterrence strategies.
Hospital-Based Violence Intervention	Hospital-based violence intervention programs are intended to strengthen connections between the acute treatment of violence-related injuries and community assistance to prevent future injuries and health risk behaviors.
Positive Childhood Experiences (PCEs)	Positive Childhood Experiences (PCEs) stem from safe, stable, nurturing relationships and environments, and have the power to prevent or protect children from traumatic events, toxic stress, or Adverse Childhood Experiences (ACEs). These positive experiences can happen both in and outside the home. Parents, caregivers, relatives, teachers, community members, and neighbors can create environments, experiences, and relationships that allow children to feel cared for and protected.

Prevention	Prevention is an effort (e.g., activity, program, policy change) to change norms, knowledge, attitudes, and behaviors to prevent a negative outcome. Community violence intervention (CVI) prevention efforts typically focus on individuals who are not involved in delinquent/criminal behavior but who may be at risk of involvement.
Qualified Census Tract	Any census tract (or equivalent geographic area defined by the Bureau of the Census) in which at least 50% of households have an income less than 60% of the area median family income. Eligible Wisconsin Qualified Census Tracts are available here: https://www.huduser.gov/portal/qct/1statetable.html?statefp=55.0&DDAYEAR=2022
Safe and Secure Storage	Safe and secure are complementary components. Safe means unloaded, and secure means locked up in a secure place such as a gun safe or lock box. The key or lock combination should only be accessible to authorized users.
State	State of Wisconsin.
Street Outreach	Street outreach approaches train staff - including outreach workers and violence interrupters, who have credibility in the community and can establish relationships with young people at greatest risk for violence - to mediate conflicts and provide connections to community supports.
Threat Assessment	Threat assessment involves three functions: identify, assess, and manage. Threat assessment aims to interrupt people on a pathway to commit "predatory or instrumental violence," the type of behavior associated with targeted attacks.
Violence Prevention Organization	An organization, including but not limited to a non-profit organization, local government agency, hospital, school district, institution of higher education, firearm retailer, firearm range, or federally recognized Native American tribal government, operating in a specific geographic region that has the capacity to support violence prevention, violence intervention, firearm or hunter safety training, health, early childhood, education, economic support, housing, or environmental justice.

6.0 NARRATIVE

This section is scored. There are 100 total possible points with the maximum for each response equal to 20 points. ***Please see Section 7.1 for example use of funds.***

Complete Section 2: Narrative

The purpose of this section is to provide the State with a basis for determining an applicant's specific qualifications to conduct this work and advance the goals of the grant. Be specific when answering the following questions. Applicants shall provide a thorough and concise response detailing how the organization intends to use the funds.

Applicants will be required to submit an application detailing how the organization intends to use the funds. Organizations will be required to submit reports detailing how the grant funding was utilized consistent with the Grant Agreement.

Applicants shall provide narrative responses detailing the following with a 1,750-character limit (approximately 300 words), unless otherwise noted, for each response:

1. Applicant Mission. Describes the mission of the applicant organization and as it relates to providing the proposed services and programming of the application category.
2. Organizational Experience. Describes the organization's experience implementing and managing the initiatives, services, and programming of the application category. Identifies specific communities served and outcomes of programming. Identifies if any activities will be sub-awarded or subcontracted to another entity to carry out the project and describe that entity's experience if known. If experience is unknown, identifies how that entity will be selected. If a subcontractor is used, identifies the project deliverables to be carried out. **Note: 2,250-character limit (approximately 375 words)**
3. Services/Programming Proposed. Detailed narrative of services and/or programming to be provided during the grant period and how the services and/or programming will promote the services of the application category. Please note the following regarding Qualified Census Tract Response Requirements: An eligible applicant does not need to be located in a qualified census tract in order to apply for funding. The Department of the Treasury has used Qualified Census Tracts as a mechanism to identify communities that have been disproportionately impacted by the pandemic but has acknowledged that there are other ways to identify disproportionately impacted communities.

An eligible applicant is not required to meet certain population-based criteria, such as those associated with income or poverty. Applicants should address how service areas in the application narrative serve communities disproportionately impacted by the COVID-19 pandemic. For example, other measures may include homelessness, rent burdened or historically low-income communities.

There may also be other scenarios, e.g., a tourism-dependent community, where COVID-19 had economic impacts disproportionate to the rest of the state or country. Applicants using measures other than Qualified Census Tracts should provide justification using quantitative metrics for the relevant neighborhood or community.

The following includes examples of the types of applicant activities anticipated for the above five (5) questions and are specific to each category.

Category Activities Examples:

- Category A focuses on Suicide Prevention and Firearm Storage Grants and could include activities such as suicide prevention training, firearm safety training, threat assessment training, distribution or use of safe firearm storage devices for the purpose of suicide prevention, and public awareness/education campaign related expenses.
