Naomi De Mers, Division Administrator

March 20, 2020

To: Design Consultants

From: Naomi De Mers, Administrator
Division of Facilities Development and Management

Subject: Consultant Employee COVID-19 Reporting Requirements

The purpose of this correspondence is to set forth reporting requirements related to COVID-19 exposure for all design consultants performing work on the jobsites for state construction projects with the Department of Administration (DOA) on any State construction project. Nothing in this communication should be construed as directing design consultants to stop work on projects. Design and construction work should continue to proceed in accordance with DHS guidelines. No work should stop unless directed by the State of Wisconsin.

Effective immediately, in the event that a design consultant knows or has reason to believe that any of its employees or any of the employees of its subconsultants performing work on a Division of Facilities Development and Management (DFDM) construction jobsite or an in-person meeting has contracted COVID-19 or been exposed to another person who has contracted COVID-19, the design consultant shall promptly provide notice thereof to the DFDM Project Manager. In addition, the design consultant shall submit the attached form to the Project Manager as soon as possible, providing the information requested therein.

The purpose of this directive is to provide DOA with information necessary to take appropriate action to ensure the health and safety of State employees and members of the general public who are served by State government. Be assured that DFDM will not seek information about individual employees that would violate their privacy rights under the Americans with Disabilities Act.

Design consultants are encouraged to visit the Wisconsin Department of Health and Services' website (<https://www.dhs.wisconsin.gov/covid-19/>) for information related to COVID-19 and its impact on public health and safety.

Please visit our [website](#) to download the reporting form.
