Dear Town Officials,

The Village of Wrightstown had a special board meeting tonight to discuss the current version of the Intergovernmental Agreement. The board again deliberated on many aspects of the agreement with the cooperative development zone again creating the most controversy. I feel that the Town did a great job getting the agreement to where it is and that with negotiation it could have been a viable option for both parties. The board, at the end of a two and a half hour debate, decided to make a motion directing me to discontinue negotiations with the Town of Wrightstown. I still will push for a global approach to our development in the future because this is how I see the most growth potential for the region but this is not the perspective of all current board members. I would also like to keep our meeting on September 27th to have a face to face conversation on this decision. So again I would like to thank you for the work that all of you have put into this agreement and I hope that in the future I can get our board to see things with the global perspective that I carry with all my future goals.

Respectfully,

Travis Coenen – Village Administrator
