When to Use?

SVAR:

- Software, Maintenance, and Support

Cloud:

- Software, Infrastructure, Platforms, Implementation, Customizations, Maintenance, and Support

SVAR (505ENT-M23-NASPOSVAR)

- Contact your IT Director to discuss the project.
- Confirm the solution is available or develop requirements if there is not a known solution.
- Contact all resellers to ask for a quote and any additional Terms and Conditions that may be required by the publisher or reseller. Negotiate software licenses, support, terms, and conditions.
- If not available through SVAR, submit emails that the software is not available to Sandra for a Business Case Exception, then check the Cloud Contract.
- Agency executes and issues the PO.

Cloud (505ENT-018-NASPOCLOUD)

- Contact IT Director and/or DET to discuss the project. Brian Kreklau must be contacted before using this contract. (Brian.Kreklau@wisconsin.gov)
- Develop requirements if there is not a known solution. Steps to use Cloud, including contacting DET. If applicable CBR and Architecture.
