Debra began her tribal gaming regulatory career with Ho-Chunk Nation in 1994. After working for game and system suppliers, she sought to join a company that provides the same morals, values and dedication for doing business in tribal; regulatory, gaming and hospitality. She found that with Merydyan, as a Partner and Chief Operating Officer, she leads all the initiatives for interfacing with Clients and internal team to deliver exception customer service. Her #1 goal - to ensure every client feels they are being heard and Merydyan is exceeding their expectations with the delivery of the PRYME Ecosystem of Paperless Workflow Solution.
