

HOW TO READ THE 2009-11 EXECUTIVE BUDGET

OVERVIEW

The 2009-11 Executive Budget presents the annual spending requests of Wisconsin's state agencies for the next two years, the Governor's recommendations on those requests and gubernatorial initiatives.

Agency requests are generally presented as departmentwide decision items, though some larger agencies' requests are presented by program. Governor's recommendations on decision items are grouped under the headings Recommendations and Items Not Approved.

STATEWIDE SUMMARIES AND NARRATIVES

Twelve statewide tables precede the individual agency information and provide the combined agencies' requests for dollar amounts and positions. They show the state's entire budget by funding source and functional area, on an annual basis. In addition, general purpose revenue (GPR) totals are shown separately from all other fund sources, for both dollar amounts and positions.

AGENCY SUMMARIES

Each agency's budget appears in the following format:

- Governor's Recommendation Tables
- Agency Description
- Agency Performance Measures
- Decision Item Index
- Budget Summary Tables
- Decision Items Approved
- Decision Items Not Approved

The title page for each agency shows, in table format, the Governor's Recommendation for amounts and positions by funding source, including the change from the prior year. A narrative description of the agency follows the tables. Agency performance measures are also presented for each agency that developed measures. Every agency was instructed to identify its mission, goals, objectives and measures by which its program performance could be reviewed. This information is presented at the program level in each Chapter 20 program for which measures were developed. The purpose of the performance measures is to expand the budget information available to decision makers to include program outcomes and not just the budget inputs the agency is requesting.

The next item is an index of the agency's numbered decision items. The section continues with two summary tables – one for dollar amounts and one for positions – showing the adjusted base, request totals and the Governor's recommendation, by funding source and annual breakdown. Additional tables present this information by program, if applicable. Decision item details, in both table and narrative form, complete the agency's request.

STANDARD BUDGET ADJUSTMENTS

Among the decision items for each agency are standard budget adjustments, showing the net changes from the adjusted base year for categories of costs considered to be "housekeeping." These are costs over which agencies have little or no discretion and are not connected with the policy initiatives of the agency. Standard budget adjustments are calculated by applying standard additions and subtractions to an agency's adjusted

base-year budget and are used to provide a measure of the funding level required to continue current operations into the next biennium.

The following categories constitute the standard budget adjustments:

Turnover Reduction. A standard reduction must be applied to the permanent position salary costs in the adjusted base year. This subtraction recognizes that normal position vacancies will reduce expenditures for salaries. Turnover reduction, however, is not required in (alpha) appropriations that fund 50 or fewer full-time equivalent (FTE) positions. In the 2009-11 budget, the GPR turnover reduction rate is generally 3 percent.

Removal of Noncontinuing Elements from the Base. Positions for which the ending date falls prior to July 1, 2011, must be removed from the agency, along with associated salary and fringe benefits costs. If an agency wishes to request continuation of such positions beyond their ending date, the request is shown in a stand-alone decision item. In addition, funds provided by the Legislature for a one-time purpose, that are not continuing into the next biennium, are subtracted from the adjusted base year level.

Full Funding of Continuing Position Salaries and Fringe Benefits. If a position was created prior to the base year (fiscal year 2008-09) for less than a full 12 months and continues into the next biennium, an amount to bring funding up to a full annual level must be added. In addition, where base year salaries and associated fringe benefits budgeted for authorized positions differ from the amount needed to cover actual payrolls as they existed in July 2008, adjustments can be requested to provide full funding. Any increases must be documentable in reports from the statewide personnel management information system. These adjustments do not offset the turnover reductions taken against the adjusted base, as explained above.

Funding of Ongoing Fiscal Year 2008-09 Section 13.10 Supplements. If the Joint Committee on Finance approves a base building increase after June 30, 2008, these funds or positions may be added by the agency (if approved before the budget submission deadline) or by the Department of Administration or Joint Committee on Finance (if approved later).

Reclassifications and Semiautomatic Pay Progression. Agencies with 40 or fewer FTE permanent positions charged to a given alpha appropriation are permitted to budget prospectively for reclasses which will be given in the upcoming biennium. Agencies with appropriations funding more than 40 FTE positions are expected to fund reclasses out of position vacancy savings.

Overtime. Agencies may request the restoration of funds needed for overtime that were budgeted and paid during the current biennium but eliminated under the full funding of salaries adjustment.

Night and Weekend Differential Pay. Agencies may request funds needed to pay employee salaries that are higher than the budgeted rates due to night or weekend work.

Full Funding of Lease and Directed Moves Costs. Agencies may request additional funds needed to provide the full annualized funding of private office lease costs that increased, but were not fully supplemented, in fiscal year 2007-08. In addition, if an agency was required to move by the Department of Administration in order to accommodate the state space management function, related ongoing costs could be requested here.

Minor Transfers within the Same Alpha Appropriation. Minor position or funding realignments to carry out reorganizations within the same alpha appropriation can be made with this decision item.

BUDGET TABLES

Four basic agencywide tables provide request and recommendation data. A description of each follows.

TABLE 1
Summary of 2009-11 Budget Requests and Recommendations

- ❶ Identifies the various fund sources contained in the agency's budget. Further breakouts are provided for the major expenditure types (i.e., state operations, local assistance, and aids to individuals and organizations).
- ❷ Identifies the actual expenditures for fiscal year 2007-08. These amounts are included for reference.
- ❸ Identifies the adjusted base level for fiscal year 2008-09. The adjusted base includes all funds authorized by the 2007-09 budget, adjustments made in all other legislation affecting the agency's spending authority and Joint Committee on Finance actions, pay plan supplements, and space rental adjustments authorized by the 2007-09 budget.
- ❹ The amount requested by the agency for each year of the 2009-11 biennium.
- ❺ The spending level recommended by the Governor for each year of the 2009-11 biennium.

TABLE 2
Summary of Position Requests and Recommendations

Table 2 complements Table 1 by showing the number of full-time equivalent (FTE) positions authorized in fiscal year 2008-09 and the number requested by the agency and recommended by the Governor in fiscal year 2009-10 and fiscal year 2010-11. Authorization of positions is the primary means by which the number of permanent staff employed by the State of Wisconsin is controlled. Expenditure types are not generally shown in Table 2 because position authorizations are usually for state operations.
