State of Wisconsin
Governor Scott Walker

Department of Agriculture, Trade and Consumer Protection
Ben Brancel, Secretary

Date: September 15, 2014

To: The Honorable Scott Walker
Governor

Mike Huebsch, Secretary
Department of Administration

From: Ben Brancel, Secretary *Ben Brancel*
Department of Agriculture, Trade and Consumer Protection

Re: 2015-2017 Biennial Budget Request

Please find enclosed the 2015-2017 biennial budget request for the Department of Agriculture, Trade and Consumer Protection (DATCP). The Department's biennial budget request supports your priorities for economic development, as well as your commitment to fiscal responsibility and the streamlining of government operations. As directed, DATCP's submittal maintains our overall fiscal year 2015-16 and 2016-17 GPR budgets at the fiscal year 2014-15 adjusted base.

We are looking forward to the improvements the State Transforming Agency Resources (STAR) project will give DATCP in managing our finance, budget, procurement, business intelligence, and human resource functions.

With our modest request, DATCP will continue to grow our state's \$59 billion agriculture industry and improve the lives of our fellow Wisconsinites.

Agriculture generates \$59 billion for Wisconsin

AGENCY DESCRIPTION

The department was created by Chapter 479, Laws of 1929. The department is headed by a nine-member board, including two consumer representatives, appointed by the Governor with the advice and consent of the Senate for staggered six-year terms. The Governor also appoints a secretary, with the advice and consent of the Senate, to administer the department. The department's programs are administered through six divisions: Food Safety, Trade and Consumer Protection, Animal Health, Agricultural Development, Agricultural Resource Management, and Management Services.

The Office of the Secretary includes the secretary, deputy secretary and assistant deputy secretary. Attached directly to the secretary's office are the legislative liaison and communications director.

MISSION

The mission of the department is to ensure the safety and quality of food, control animal and plant diseases, promote efficient use of agricultural resources, protect the environment, promote fair business practices for buyers and sellers, and promote the interests of agriculture.

PROGRAMS, GOALS, OBJECTIVES AND ACTIVITIES

Program 1: Food Safety and Consumer Protection

Goal: Ensure fair business practices for buyers and sellers and safe products, including food, for consumers and the environment by establishing and enforcing legal standards, by mediating disputes between consumers and businesses, and by providing consumer education and information to Wisconsin citizens.

Objective/Activity: Return to consumers and government money gained through unfair business practices.

Program 3: Agricultural Development Services

Goal: Aid the growth of Wisconsin agriculture by identifying opportunities for farmers and agribusiness that result in increased revenue, profitability, diversification, expansion or exports.

Objective/Activity: Increase sales of Wisconsin's agricultural products locally, regionally and internationally through educational programs, producer development, market analysis, market development and business development. Surveys measure the initial increase in sales and the resulting ongoing sales increase which occurred that year.

Program 7: Agricultural Resource Management

Goal: Improve environmental, public health and livestock protection in Wisconsin while allowing for the efficacious and wise use of fertilizer, pesticide and other agrichemical materials.

Objective/Activity: Allow Wisconsin farmers, businesses and homes to safely and conveniently dispose of unwanted pesticides and other hazardous chemicals, including unwanted prescription drugs, at public collection sites.

Program 8: Central Administrative Services

Goal: Support the vision and goals of the department by partnering with management and staff to provide information, advice and expertise that support the needs of the business.

Objective/Activity: Resolve computer and computer-user problems, to the user's satisfaction, in a timely manner.

PERFORMANCE MEASURES

2013 AND 2014 GOALS AND ACTUALS

Prog. No.	Performance Measure	Goal 2013	Actual 2013	Goal 2014	Actual 2014
1.	Money returned to consumers, fines and forfeitures.	\$5.2 million	\$8.1 million	\$5.2 million	5.5 million**
3.	Increased Sales (Initial/Ongoing) based on company evaluations of approximately 1/3 clients surveyed	\$15 million/ \$25 million	\$17.8 million	\$18 million/ \$29 million	\$18.3 million
7.	Amount of agricultural, business and household hazardous wastes collected at Wisconsin Clean Sweep collection sites.	1,500,000 pounds	2,632,000 pounds	1,500,000 pounds	1,600,000 pounds *
8.	Percentage of all computer hardware/software/user problems reported to the Help Desk resolved within the month.	96%	97%	96%	98%**

NOTE:

*This is an estimate - will not have final numbers until April 2015.

**Based on calendar year -- will not have final numbers until February 2015.

2015, 2016 AND 2017 GOALS

Prog. No.	Performance Measure	Goal 2015	Goal 2016	Goal 2017
1.	Money returned to consumers, fines and forfeitures.	\$5.4 million	\$5.4 million	\$5.4 million
3.	***Export Sales	\$20 million	\$20 million	\$20 million
7.	Amount of agricultural, business and household hazardous wastes collected at Wisconsin Clean Sweep collection sites.	1,700,000 pounds	1,800,000 pounds	1,900,000 pounds
8.	Percentage of all computer hardware/software/user problems reported to the Help Desk resolved within the month.	96%	96%	96%

*** "Export Sales" is the current terminology for prior biennium's metric "Increased Sales" for Prog. No. 3.

Decision Item (DIN) - 4002

Decision Item (DIN) Title - Soil and Water Resource Management Aids

NARRATIVE

The department requests \$7.0 million in additional bonding authority for the Soil and Water Resource Management Program. Bonding supports cost-share grants to landowners for installation of runoff control technologies such as manure storage. This is a standard request as part of the state's long-running nonpoint water pollution control efforts.

Soil and Water Resource Management Program Bonding Authority

Biennial Budget Issue Paper

DIN 4020

Wisconsin Department of Agriculture, Trade and Consumer Protection

September 15, 2014

Request:

The department requests an increase of \$7.0 million in bond authority for landowner cost-sharing provided through the soil and water resource management program (SWRM) authorized by Chapter 92, Stats. The department has received the same authorization in each biennium since 2008.

Analysis:

As in past years, the department plans to allocate half of the authorization (\$3.5 million) for grants awarded to counties in each year of the next biennium. These funds enable counties to offer farmers and others cost-share funds to install conservation practices. These practices include manure storage facilities, systems to control runoff from barnyards and feed storage, waterways and other erosion controls, and shoreline and stream bank protection. Under state law (s. 281.16, Stats.), farmers must receive cost-sharing of 70 percent (90 percent in the case of economic hardship) if they are required to install conservation practices. The requested increase in bond authority ensures an adequate supply of cost-sharing particularly for farmers who must receive funds, supports the installation of practices that protect water quality, and sustains progress in implementing state nonpoint pollution control goals.

This funding is particularly important to farmers. In today's world of farming, preventing runoff and protecting groundwater are critical to avoiding environmental liability, and meeting requirements of different programs including the enhanced requirements for farmers to claim tax credits under the Farmland Preservation Program (FPP). Over time, the challenges of meeting conservation responsibilities have grown but the resources to assist farmers have not kept pace. Increased bond cost-sharing will help farmers overcome the following barriers to meeting their conservation responsibilities:

- *Additional conservation responsibilities.* In 2011, farmers were required to meet new performance standards adopted by DNR. According to a DNR fiscal estimate, the new prohibitions against the discharges of feed storage leachate and milking center wastewater alone are expected to cost "\$9,312,500 to completely implement the standard statewide." By the end of 2015, farmers claiming FPP tax credits will need to meet increased conservation compliance requirements based on these performance standards.
- *Increased costs for practice installation.* Manure storage has become increasingly

important to sound livestock management while installation costs continue to increase. For example, installation costs for practices have increased in the last 5-10 years as follows: excavation costs have increased by over 60 percent to \$3.50 per cubic yard; concrete costs, increased about 60 percent to \$125 per cubic yard; steel used for rebar, increased by 15 percent to \$6,600 per ton; HDPE liner, waterstop and other plastic components, increased by 20-30 percent in costs (e.g. 8 inch PVC pressure pipe can be as high as \$9.75 per linear foot).

- *Increased costs based on facility size.* As livestock operations grow, the costs of conservation practices increase in two ways: the scale of the conservation practice increases to reflect the greater size, the operation faces new requirements that only apply to larger livestock facilities.
- *Increased costs to meet tighter technical standards.* Over time, technical requirements for conservation practices have become more demanding in response to many factors including the need to accommodate heavier equipment, more intensive farming activities, and new scientific research. In practice, for manure storage, increased technical requirements translate into greater costs for recompaction, rebar, and waterstop.
- *Reduced state bond cost-sharing for farm practices.* In the thirteen years since the redesign of the nonpoint pollution control program, state bond cost-sharing from DNR and DATCP has declined from an annual allocation of \$16 million in 2002 to \$5.6 million in 2015. In addition, farmers must compete with other landowners to access bond funds which counties use to meet all of the local conservation priorities identified in their Land and Water Resource Management plans. For example, shoreline and stream bank protection projects consistently rank in the top three of county expenditures involving DATCP cost-share dollars.

From many perspectives, including improved drinking water and high quality waters that support tourism, everyone benefits from landowners who install conservation practices with state cost-share dollars. The failure to provide cost-share funding for these practices not only jeopardizes these benefits, it will in the end drive up the costs to clean up environmental problems.

Soil and Water Resource Management Program Bonding Authority

Biennial Budget Issue Paper

DIN 4020

Statutory change required:

Increase the authorization under s. 20.866 (2) (we), Stats., from \$54,075,000 to \$61,075,000.

	PROGRAM NARRATIVE	
DEPARTMENT 115	Agriculture, Trade and Consumer Protection	
PROGRAM		

The Department of Agriculture, Trade and Consumer Protection was created by Chapter 479, Laws of 1929. The department is headed by a nine member board, including two consumer representatives, appointed by the Governor with the advice and consent of the Senate for staggered six-year terms. The Governor appoints a secretary to administer the department. The mission of the department is to ensure the safety and quality of food, control animal and plant diseases, promote efficient use of agricultural resources, protect the environment, promote fair business practices for buyers and sellers, and promote the interests of agriculture. The department's programs are administered through six divisions.

1. The **Food Safety Division** protects the state's food supply, from the point of food production and processing to the point of distribution and retail sale.
2. The **Trade and Consumer Protection Division** has broad authority to ensure fair business practices between buyers and sellers, which encourages confidence in the marketplace. The division inspects grain, fruit, and vegetables. The division regulates fuel quality and the storage of flammable material.
3. The **Animal Health Division** administers programs to protect the health and welfare of domestic animals through field investigations, laboratory analysis, quarantine and regulatory control.
4. The **Agricultural Development Division** administers programs for the marketing and promotion of agricultural products, and promotes agricultural development and diversification.
5. The **Agricultural Resource Management Division** promotes wise use of agricultural resources and protection of the environment. Programs include pesticide use regulation, farmland preservation, land and water resource conservation, plant protection, and enforcement for feed, seed and fertilizer quality and safe use.
6. The **Management Services Division** provides administrative and support services including budget and accounting, data processing, human resources, general laboratory services, and general support services to the Secretary's Office and agency divisions.

The Office of the Secretary includes the secretary, deputy secretary and assistant deputy secretary. Attached directly to the secretary's office are the legislative liaison and communications director.

		PROGRAM NARRATIVE
DEPARTMENT	115	Agriculture, Trade and Consumer Protection
PROGRAM	01	Food Safety and Consumer Protection

Program 01 consists of two divisions, the Division of Food Safety and the Division of Trade and Consumer Protection.

The Division of Food Safety is the state's primary food regulatory division. Division programs safeguard consumers' physical and economic health. The Division of Food Safety enforces state statutes and regulations governing the food supply from the farm to the consumer.

The division has food inspection, dairy inspection, laboratory certification, grade A milk certification, and meat and poultry inspection programs. The division also administers a product grading program for cheese, butter, and eggs and a laboratory evaluation program for laboratories that perform microbiological and drug residue analyses on food, milk, or water. The division has approximately 30,000 business customers. Inspection programs cover production, wholesale processing, transportation, storage, retail processing, and sale of food, dairy and meat products. Food safety and consumer protection also are ensured through food sampling and label review.

The Division of Trade and Consumer Protection has primary responsibility for Wisconsin's laws that ensure a fair marketplace for buyers and sellers, including buyers and sellers of agricultural commodities. The division's statutory authority to prohibit unfair trade practices by rule forms the cornerstone of the state's general trade regulation and consumer protection programs. The division's responsibilities include administration and enforcement of laws regulating deceptive advertising, consumer product safety and consumer fraud. The division administers the statewide consumer protection hotline and Wisconsin's Do Not Call program.

The division operates the Office of Privacy Protection. The program goals are to help the public deter, detect and prevent identity theft. The Office also educates law enforcement about identity theft and businesses on the importance of protecting personal data in their possession.

The division regulates many commercial transactions, including apartment and manufactured home site rentals, telecommunications consumer contracts, auto repairs, and home improvements.

The division enforces state laws requiring honest weights and measures for all commodities, as well as ensuring that fuel meets minimum standards. The division protects the health and safety of the public through its regulation of storage tanks used for flammable and combustible materials.

Trade practices are regulated to protect and to promote fair and open competition in the marketplace. The division's trade practices programs include the regulation of discriminatory sale practices. In order to protect agricultural producers from fraud and devastating financial defaults, division auditors monitor the financial condition and business practices of dairy plants, grain elevators and vegetable processing plants.

In cooperation with USDA, inspection programs include grading, inspection, weighing and certification of grain, fruits and vegetable products. The goal of these inspection programs is to allow foreign buyers to purchase with confidence by assuring an accurate representation of product quality, condition, size, and compliance with grade and labeling standards and export requirements,

	PROGRAM NARRATIVE	
DEPARTMENT 115	Agriculture, Trade and Consumer Protection	
PROGRAM 02	Animal Health Services	

The mission of the Division of Animal Health is to safeguard animal health, public health and animal industries in Wisconsin by providing an efficient regulatory framework and expertise in maintaining and protecting the health of animals. It encompasses all of the state's agricultural resources susceptible to destruction by animal diseases and thus safeguards animal health and animal agricultural economics. Protection is achieved through surveillance, vaccination programs, regulatory compliance and enforcement activities designed to prevent and control diseases. Activities to control and respond rapidly to animal related diseases include disease surveillance, field investigation, quarantine, and regulatory control of animal movement as well as emergency preparedness activities, premises identification and animal identification initiatives.

Program and field staff routinely provide education and outreach to veterinarians, livestock producers and the public.

The division manages many disease programs such as: brucellosis herd certification for bovine, swine, farm-raised deer, and goats; tuberculosis herd certification for bovine, farm-raised deer, and goats; pseudorabies herd certification for swine; brucella ovis-free flock certification for sheep and the chronic wasting disease herd status program for farm-raised deer and Johne's disease certification for bovine and goats. These herd certifications make it easier for owners to sell and move their animals intra and interstate.

The division also licenses animal markets, animal dealers and animal truckers, feedlots, deer farms and fish farms to assist with disease control and animal traceability. These entities are required to keep records of livestock movement, including official identification of animals.

In addition to safeguarding the health of animal resources in Wisconsin, the program provides guidance for the humane treatment of animals. The division provides annual humane officer training and provides expertise and guidance to law enforcement on situations where the humane handling of animals is in question.

The division includes a program to license and regulate dog sellers and facilities. The program authorizes the department to license dog breeders that sell at least 25 dogs from more than 3 litters per year, and sets clear criteria regarding acceptable standards of care for dogs in licensed facilities.

The division works collaboratively with federal, state, and local agencies as well as private industry groups in its pursuit of animal and public health.

DEPARTMENT 115	Agriculture, Trade and Consumer Protection	
PROGRAM 03	Agricultural Development Services	

The Division of Agricultural Development (DAD) works in partnership with the state’s agricultural industry and others to promote, develop and diversify Wisconsin’s agricultural sector. Its programs are organized to provide services across a continuum of business development: from the farm to value added processing; to the final product sale at the local, regional or international level. The goal of the Division is to help grow Wisconsin agriculture by providing business and market development services.

Business Development

The Division’s business development services include business planning, financial analysis and business operational guidance tailored to the producers’ needs.

Staff helps Wisconsin’s producers make informed decisions regarding profitability, expansion, transition and product development. These services are delivered through the following: Dairy 30X20 (profitability and production); Organic Producer Technical Assistance and certification cost-share program; Development and Diversification; Livestock Development and Specialty Meat Processing.

Market Development

The Division’s local and regional agricultural market and product development efforts consist of comprehensive economic development services which stimulate the growth of local food production systems and increase the markets for Wisconsin-grown food and agricultural products.

Staff delivers the services to growers, processors, retailers, distributors and purchasing institutions in a complimentary manner through market development analysis, producer development support, distribution guidance, processing expertise and branding/marketing support programs and services that include: Buy Local Buy Wisconsin; AmeriCorps-Farm to School; Something Special from Wisconsin; and SavorWisconsin.com. The Specialty Crop Block Grant program is managed by DAD, responding to proposals that range from market development, research and early commercialization of agricultural products and practices.

International and Exports

Agricultural Development is home to the Wisconsin International Trade Team which utilizes its expertise to build partnerships with foreign business leaders and governments, to enhance trade and aid the growth of Wisconsin agriculture through increased exports through a comprehensive program of exporter education, market analysis, market development and access to federal market expansion funding.

One-on-One Assistance

The Division's Wisconsin Farm Center was created to provide resources, referral services, and respond to crisis, including: a hotline for the Farm Mediation and Financial Advising Program, job counseling and social service referrals plus volunteer farm credit advisors who mediate debtor/creditor and contract issues. Division staff assists underserved, minority, women and beginning farmers providing risk management education and access to a range of resources.

Within the Farm Center is the Rural Electric Power Services (REPS) Program and Herd Health Diagnostics, which works cooperatively with the Wisconsin Public Service Commission, (PSC) farmers and rural electric providers to prevent and resolve "stray voltage" and conduct tests to assist with the determination of causes for animal health concerns.

Market Orders, Promotions and Tax Credit Certification

The Division conducts the elections for the state's eight commodity promotion boards and audits commodity check off funds through the Marketing Orders Program; and, working closing with the promotion boards, manages the outreach and education through the Alice in Dairyland program.

	PROGRAM NARRATIVE	
DEPARTMENT 115	Agriculture, Trade and Consumer Protection	
PROGRAM 04	Agricultural Assistance	

The agricultural assistance program encourages and develops public interest in agriculture through education and stimulates innovation in agricultural markets, products and uses that add value to the agriculture industry of Wisconsin.

Targeted state aid is provided to:

- Seventy-six county and district fairs for premium payments to exhibitors;
- World Dairy Expo to be used to emphasize the advantages and strengths of Wisconsin's dairy industry;
- Wisconsin Farm Bureau to provide public schools with classroom materials related to agriculture.

State aid also funds three competitive grant programs:

- Dairy 30x20 grant program;
- Dairy Processor grant program;
- Buy Local, Buy Wisconsin (BLBW) grants fund projects to stimulate Wisconsin's agricultural economy by increasing the purchasing of Wisconsin grown or produced food by local food buyers.

	PRORAM NARRATIVE	
DEPARTMENT 115	Agriculture, Trade and Consumer Protection	
PROGRAM 07	Agricultural Resource Management	

Agricultural Resource Management Program is a division comprised of the Land and Water Resources Bureau, the Plant Industry Bureau, and the Agrichemical Management Bureau.

The Land and Water Resource Bureau is responsible for activities related to farmland preservation and soil and water conservation. The bureau reviews county agricultural preservation plans, land and water resource management (LWRM) plans, petitions for designation of Agricultural Enterprise Areas (AEAs), and exclusive agricultural zoning ordinances, and analyzes the impacts of public projects on farmland. The bureau is responsible for development and implementation of nutrient management standards for the State. The bureau also provides oversight and support for local programs related to agricultural performance standards, livestock siting standards, and drainage districts. Bureau support includes annual grants to counties to pay for county staff and landowner cost-sharing, as well as statewide engineering assistance provided by field staff located in 5 regional offices. The bureau is also responsible for providing staff for the the Wisconsin Land and Water Conservation Board whose duties include making recommendations regarding approval of county LWRM plans and annual allocation plans that award grants to counties and others. The bureau also provides staff support for the Livestock Siting Board.

The Plant Industry Bureau works to control serious plant pests, diseases and exotic species that threaten Wisconsin's crops, forests and plant communities. It also works to control honeybee diseases and pests. The bureau uses quarantine and treatment programs, as necessary, to control major pests such as gypsy moth and Emerald Ash Borer. It inspects bee colonies, lumber, nursery stock and agricultural crops to certify that they are free of diseases and destructive pests. This facilitates the interstate and international movement of Wisconsin agricultural commodities. The bureau also issues phytosanitary certificates which are required for all agricultural plant exports. The bureau licenses and inspects nursery growers and dealers, Christmas tree growers and seed labelers. The bureau conducts pest surveys across the state to evaluate pest pressure on various crops. The bureau publishes a weekly pest survey bulletin that goes out to the agricultural community during the growing season and is a tool to aid them in their profitability.

The Agrichemical Management Bureau is responsible for the regulation of pesticide storage, handling, application, and disposal to minimize potential exposure and harm to persons, property, and the environment. The bureau directs clean up of pesticide and fertilizer spills and administers the Agricultural Chemical Clean Up Program. The bureau administers regulations that set standards for the bulk storage of pesticides and fertilizers, and assures that products including animal feed, fertilizer, pesticides, soil and plant additives and agricultural lime are correctly labeled and free from adulteration. The bureau licenses manufacturers and distributors of these products and also licenses and certifies pesticide applicators through an examination process. The bureau is also responsible for carrying out inspections, investigations, and enforcement activities related to the above programs. This includes investigation of groundwater contamination by pesticides, complaints of damage or harm to persons, property or the environment resulting from pesticide misuse, and toxic response incidents involving livestock. The bureau provides funding and technical support to municipalities for the collection and disposal of waste pesticides and household hazardous wastes (including unwanted prescription drugs).

DEPARTMENT	115	Agriculture, Trade and Consumer Protection	
PROGRAM	08	Central Administrative Services	

This program includes the Office of the Secretary, the Office of Legal Services, the Wisconsin Agricultural Statistics Service (WASS) and the Division of Management Services. The Division of Management Services provides central administrative services to the Board of Agriculture, Trade and Consumer Protection, the Secretary's Office and the other Divisions of the Department. These functions include: budget development, procurement, accounting, and financial management; information technology services; human resource services; and general agency support services. Laboratory services provided to the other divisions, and other state agencies are also located in the Division of Management Services. WASS houses a cooperative partnership between the USDA-National Agricultural Statistics Services (NASS) and DATCP. The goal of the program is to provide important, usable, and accurate statistical agricultural information necessary to evaluate agriculture and provide for sound decision making.
