The Governor recommends the "Pay Their Way" plan, a unique initiative to establish a sports and entertainment special purpose district to oversee the construction of a new facility in downtown Milwaukee for use by the Milwaukee Bucks and for other entertainment purposes. Partial funding for the facility will be enabled through state appropriation bonds, upon submission of proof from the Milwaukee Bucks of complete financing from other private and public sources. Principal and interest will be paid for by revenue growth realized from new media contracts and other National Basketball Association initiatives. This endeavor will preserve current base income tax resources derived from hosting a National Basketball Association franchise in our state and generate additional income tax revenue.

As part of the shared agency services pilot program, the Governor also recommends the Office of State Employment Relations be merged into the department as the Division of Personnel Management. In addition to services for the shared service agencies, the division will promote the hiring and retention of veterans in state government positions. The Governor further recommends directing the department to study an enterprisewide shared services model and to develop an implementation plan for the 2017-19 biennial budget. See Department of Children and Families, Item #3; Department of Health Services, Item #19; Department of Natural Resources, Item #4; Department of Transportation, Item #3; and Department of Workforce Development, Item #5.

The Governor recommends creating an Office of Marketing in the Department of Tourism to utilize the expertise of that department to provide centralized marketing services to all state agencies. The Governor also recommends deleting position authority from the department to avoid duplication of services. See Department of Tourism, Item #1.

Administration

15. Technology for Educational Achievement Program Appropriation Consolidation

The Governor recommends consolidating multiple SEG appropriations that fund the Technology for Educational Achievement program into a single alpha appropriation. Individual numeric appropriations for each category of eligible education entity would be maintained.

16. Additional Data Lines from Technology for Educational Achievement Program

The Governor recommends statutory language that would allow the Technology for Educational Achievement program to provide more than one data line or video link to an eligible educational agency, subject to available funding and criteria determined by the program, including an educational agency's current bandwidth, equipment, readiness, available providers and other economic development in the area. The statutory language would allow the program to undertake an initiative, funded with up to \$25 million of federal E-rate funds, to provide or increase bandwidth to educational entities with critical broadband needs.

17. Building Commission Approval Processes

The Governor recommends modifying approval processes of the Building Commission to ensure overall oversight is maintained, while streamlining the procedures for previously-enumerated and routine maintenance projects. The commission would maintain active authority over authorizing the department to contract public debt or obligations and releases from the building trust fund. This initiative will improve efficiency by reducing redundant approvals and simplifying the process for more routine items. See Building Commission, Item #1.

18. Building Program Thresholds

The Governor recommends, in order to reflect modern construction costs for state building projects, changing review thresholds including: (a) small projects increasing from \$185,000 to \$760,000; (b) signatures by the secretary, as delegated by the Governor, for contracts or change orders with costs at or less than \$500,000; (c) signatures by the Governor for contracts or change orders with costs over \$500,000; and (d) enumeration of a building project from \$760,000 to \$3,000,000. See Building Commission, Item #2.

19. Building Trust Fund Transfer

The Governor recommends transferring \$3,000,000 in FY16 from the unencumbered balance of the department's capital planning and building construction services appropriation to the building trust fund to provide upfront funding for planning services costs incurred prior to construction of a state building project. See Building Commission, Item #3.

The Governor recommends transferring, from the Department of Workforce Development, the Division of Worker's Compensation in the following manner: statutory and administrative functions to the Office of the Commissioner of Insurance and adjudicatory functions to the department's Division of Hearings and Appeals. These transfers will consolidate similar functions and create greater efficiencies. See Office of the Commissioner of Insurance, Item #1; and Department of Workforce Development, Item #1.

The Governor recommends adjusting PR-S expenditure authority for the Division of Hearings and Appeals in accordance with current division operations, including: (a) estimated cost-savings from providing digital records for its non-Chapter 227 cases, (b) Division of Vocational Rehabilitation hearings for the Department of Workforce Development, and (c) crime victim compensation hearings for the Department of Justice. The Governor also recommends clarifying the division's ability to charge the Department of Justice for crime victim compensation hearings services. The Governor further recommends transferring administrative law judge responsibilities to the division from the Office of the Commissioner of Insurance to consolidate adjudicatory functions. See Office of the Commissioner of Insurance, Item #6.

23. Division of Hearings and Appeals Statutory Language Changes

The Governor recommends statutory language clarifying that the department's Division of Hearings and Appeals may provide digital records for its Chapter 227 cases. In addition, the Governor recommends creating an archaeological site review appeals process for local and state agencies at the division. See Historical Society, Item #4.

The Governor recommends creating the Office of Lean Government to enhance Lean initiatives to find efficiencies across all state agencies. The Governor also recommends reallocating existing department positions to staff the office. The Governor further recommends eliminating state reimbursement to businesses for services provided to a local government in establishing a Lean program.

The Governor recommends creating the Office of Government Continuity to coordinate statewide continuation of government and continuity of operations functions. To staff the office, the Governor recommends transferring 1.0 FTE position from the Department of Safety and Professional Services, 1.0 FTE position from the Historical Society, and 1.0 FTE position from the Department of Health Services. The office will work with agencies that need assistance and will delegate authority to develop and implement continuity of operations to agencies with effective plans already in place. See Department of Safety and Professional Services, Item #6; Historical Society, Item #6; and Department of Health Services, Item #17.

26. Eliminate Federal Surplus Property Program

The Governor recommends eliminating the state's federal surplus property program, as the program has struggled to be self-sustaining. The 1033 program, which transfers excess military property to state and local law enforcement agencies, would continue to be operated by the Department of Military Affairs. See Department of Military Affairs, Item #3.
