AGENCY DESCRIPTION

The board was created in 2007 Wisconsin Act 20. Its predecessor agency, the Wisconsin Council on Developmental Disabilities, was established in 1970 by federal law and in 1972 by state statute as the State Planning and Advisory Council on Intellectual and Developmental Disabilities.

The board consists of 26 members. The Governor appoints 21 members, and the remaining 5 members represent specific state agencies and state partner organizations, and are appointed by the secretary or director of each of those agencies. Over 60 percent of the members are people with developmental disabilities or their families. Other members represent public service providers, private not-for-profit agencies and nongovernmental representatives. The agency has seven staff members, including an executive director who is selected and supervised by the board. The executive director hires and supervises the other staff.

Under federal law, a developmental disability is a severe, chronic disability which occurs before the 22nd birthday, is expected to last indefinitely, and results in substantial functional limitations in three or more major life activities, such as self-care and employment. This definition includes physical, cognitive, mental and other disabilities. Under Wisconsin law, the definition is not based on function, but on diagnosis and includes intellectual disability, brain injury, autism, cerebral palsy and Prader-Willi Syndrome.

Board for People with Developmental Disabilities

MISSION

Under federal law, the board's mission is to:

- Engage in advocacy, capacity building and systemic change activities that enable people with developmental disabilities to be independent, productive and included in all facets of community life.
- Review and advise state agencies, such as the Department of Health Services, on plans and programs affecting persons with developmental disabilities.
- Provide continuing counsel to the Governor and the Legislature.

PROGRAMS, GOALS, OBJECTIVES AND ACTIVITIES

Every five years, the board develops a state plan for systems change, which is reviewed and approved by the federal Administration on Developmental Disabilities. The relevant state plan, effective from 2017 through 2021, had two primary goals: community inclusion and advocacy.

Program 1: Developmental Disabilities

Goal: More people with intellectual and developmental disabilities (I/DD) will be included in their communities.

Objective/Activity: By September 30, 2021, 50 percent more people with I/DD will be working in integrated employment of their choice at a competitive wage.

Objective/Activity: By September 30, 2021, 25 percent more people with I/DD will make choices about their everyday lives.

Objective/Activity: By September 30, 2021, 25 percent more people with I/DD will reliably be able to get where they need to go each day.

Objective/Activity: By September 30, 2021, 25 percent more people with I/DD will say they have a network of community members they can rely on.

Goal: More people with I/DD trained in advocacy and self-advocacy, resulting in an increase in the number of policies/laws that support people with disabilities to be more included in community life.

Objective/Activity: By September 30, 2021, 25 percent more self-advocates with I/DD will participate in a state self-advocacy organization led by individuals with intellectual disabilities.

Objective/Activity: By September 30, 2021, 50 percent more self-advocates with I/DD and their families will participate in leadership training and practice their leadership skills.

Objective/Activity: By September 30, 2021, the board will act as a policy advisor to the Legislature, Governor and other policymakers on policies that affect all aspects of community life, decision making and full inclusion. This will result in 25 improved policies and practices that increase community participation, decision making and full inclusion.
