The Honorable Tony Evers<br>Governor, State of Wisconsin<br>East Wing - State Capitol<br>Madison WI 53702

## Dear Governor Evers:

Enclosed is the Wisconsin Department of Revenue's 2023-25 biennial budget request for your review. As instructed, the requested funding in this budget proposal is level with our fiscal year 2021-23 adjusted base, with only standard budget adjustments.

The Department of Revenue is recommending the legalization of marijuana, consistent with the governor's 2021-23 executive budget. While some program specifics will mirror the prior proposal that included creating an infrastructure for regulating both medical and recreational marijuana, as in the last budget, we will work collaboratively with the governor and state agencies throughout the remainder of the budget process to ensure we have the necessary resources to implement efficient and safe programs.

Additionally, the department is recommending that the state adopt the tax treatment for the federally forgiven student loans as reflected in the American Rescue Plan Act (ARPA) and refrain from taxing that amount of discharged loan as income. Wisconsin law currently treats those forgiven student loans as taxable income. Because Wisconsin does not have rolling conformity with the Internal Revenue Codes (IRC), the Wisconsin Legislature must actively adopt the IRCs and the Governor must sign to enact the changes. Without correcting this tax treatment, the state stands to receive a windfall in revenue that was not previously anticipated at the expense of Wisconsin families.

Our department has received several inquiries about the state's tax treatment of the student loan program recently announced by President Biden. We feel adoption of this provision is significant to the state, in particular, for not falling behind other states in workforce attraction and retention of young people. There are only 8 states that have not already exempted these loans for income tax purposes.

An estimate using data provided by a think tank calculates the potential windfall to the state at approximately $\$ 650$ million. It is important to note that this estimate is not based on our typical federal government sources for estimates and could have some variation dependent on timing for implementation. We plan to update the fiscal estimate once we receive reliable information from our usual federal government sources, for example, the Congressional Budget Office or the Joint Committee on Taxation.

Further, it is also important to note that this is a new revenue stream that was not contemplated when the budget was forecast by the DOR or the Legislative Fiscal Bureau. We feel this action should not be viewed as a revenue loss, but rather an act to ensure the state isn't unduly enriched by this unforeseen revenue stream. In fact, adoption of this provision, will have a net zero result in our forecasted budget, which already anticipates a substantial surplus.

Given the heightened interest surrounding this issue, we suspect the state legislature may move to pass a bill effectuating this change more readily than the budget passage. We certainly welcome a quicker resolution to this issue. The sooner this provision is passed, the sooner, we will be able to provide Wisconsin taxpayers, including parents of dependent borrowers who could potentially be impacted, with certainty for income tax filing purposes. Wherever financially feasible, Wisconsin has a history of conformity with federal tax laws.

Operating efficiently is one of the Department of Revenue's core goals, and we believe this budget proposal reflects our commitment to administer the state's tax laws, State and Local Finance requirements, the Wisconsin Lottery and other DOR programs efficiently, while providing excellent customer service.

We look forward to working with you and the State Budget Office during the budget process.

## AGENCY DESCRIPTION

The department is headed by a secretary who is appointed by the Governor with the advice and consent of the Senate. The department advises the Governor and Legislature on tax policy; administers the state's tax laws, lottery and unclaimed property program; distributes property tax relief and local unrestricted aid payments; and oversees general administration of the property tax system. The department's activities are organized into the following four major program areas:

- The Division of Income, Sales and Excise Tax collects taxes through accepting tax payments and processing tax returns, enforces tax laws and collects taxes through audit and compliance activities, provides taxpayer assistance, conducts criminal investigations, and administers the state's debt collection and unclaimed property programs;
- The Division of State and Local Finance administers state policy and programs affecting local government finance and the state's property tax system, including establishing equalized values, supervising general administration of the local property tax, and assessing the value of manufacturing property statewide;
- The Lottery Division administers the lottery program that provides funding for the property tax credit; and
- The administrative services area includes the Secretary's Office, Office of General Counsel, Division of Enterprise Services, Division of Technology Services, and Division of Research and Policy, who provide the Executive Office and Legislature with detailed analyses of revenue and tax policy options.

The tax programs administered by the department provide revenue for the state's general fund and other segregated funds. In addition, programs administered by the department provide revenue to counties and local tax districts. The department also administers the homestead, farmland preservation, earned income and other credits, which are paid to eligible applicants from the general fund. During the COVID-19 pandemic and subsequent recovery, the department employed the services of its sophisticated tax systems, and capable staff in order to manage COVID-19 relief grants to businesses and local governments. Using the department's existing robust data mining technology allowed the grants to be paid out in an efficient and expeditious manner to the businesses who were in dire need, which assisted our state's economic recovery. The grant programs administered by the department include We're All In Phase 2, We're All In - Restaurants, Wisconsin Tomorrow Small Business, Wisconsin Tomorrow Lodging, 2 iterations of Farm Support, and American Rescue Plan Act funds for Local Governments.

## MISSION

Strengthen Wisconsin through fair tax and lottery administration, while educating and serving the public, our customers and communities.

## Decision Item (DIN) Title - Legalization of the Sale of Marijuana

## NARRATIVE

The Department of Revenue recommends legalizing the sale of marijuana for recreational use for sales that occur at a marijuana retailer holding a permit issued by the department. The department also recommends the imposition of a 15 percent wholesale excise tax and a 10 percent retail excise tax on the sale of marijuana by department-issued permit holders. The fiscal impact is an estimated increase of $\$ 165.8$ million in FY 25. Additionally, DOR will create and maintain a medical marijuana registry program whereby a person who is a qualifying patient (an individual who has been diagnosed by a physician as having or undergoing a debilitating medical condition or treatment and who is at least 18 years old) may obtain a registry identification card and purchase marijuana from a licensed retail establishment without having to pay the sales or excise taxes imposed on that sale.

Decision Item (DIN) Title - Student Loan Forgiveness -Exemption from Income Tax

## NARRATIVE

The Department of Revenue recommends adopting the federal government tax treatment for discharged student loans as reflected in the American Rescue Plan Act (ARPA). Under existing Wisconsin law, the amount of student loans forgiven will be treated as income unless the law is changed to allow the forgiven loan to be exempt from income tax. While determining a precise fiscal impact at this time is extremely difficult, we believe the amount of money could be substantial given the population in Wisconsin. However, it is important to note that any revenue generated by counting the forgiven loans as income would result in a potential windfall to the state, as this source of income was not anticipated at the time the budget was forecast by both DOR and the Legislative Fiscal Bureau. It is, therefore, not revenue that was ever expected. It is important to recognize that historically Wisconsin attempts to conform with federal Internal Revenue Code (IRC) provisions whenever it is fiscally possible for the ease of taxpayers to comply with tax laws.

Columns A-G were prepopulated for agencies to reflect state operations adjusted base and reductions agreed to by DOA and LFB. See Appendix H for instructions on how to complete these templates.
Proposed \$ and Proposed FTE columns reflect total agency proposed spending and positions for indicated fiscal year. These amounts should include standard budget adjustments (SBAs), any proposed reallocations or reductions to meet the target, and any other requests that the agency would want considered under this proposal.

Appropriations with zero dollars and zero FTEs are not loaded into the template. If you have any questions, contact your SBO analyst.
IF YOUR AGENCY PLANS TO TAKE THE SAME CUTS OVER BOTH YEARS, YOU SHOULD ONLY FILL OUT ONE GRID FOR 0\% GROWTH AND ONE GRID FOR 5\% REDUCTION, THEN CHANGE "FY24" TO "FY24 AND 25".

Note 1: Reduction target must be met within state operations appropriations, but may be allocated across those appropriations and fund sources. Note 2: Amounts should be SBAs (DINs 3001-3011) from agency request multiplied by -1 .

Items - Describe proposed changes (excl. SBAs) to reach target or other priorities of agency
1 Fiscal effect of 38.0 FTE reduction is greater than $\$ 35$ million loss of revenue each fiscal year
2 Programs that have ended but still may have some processing needs for audit assessments and refunds
3 This reflects a reduction of $\$ 316,300$ representing 4.5 FTE. There is also minimal supplies and services savings. Cutting these positions puts State \& Local Finance at risk of failing to meet statutory deadlines.
4 Reduction in positions, 5.0 FTE in the technology services area. These cuts would put technology at risk of not completing projects necessary for timely processing of tax and government returns, and refunds. The .85 represents a paralegal in an attorney office with a large case load.
5 This would close a private lease space and require staff to hotel using space in a nearby state office building.
6 Adjustment for unused supplies \& services due to efficiencies from changes in process and decrease in demand.
7 Cuts in these appropriations would affect licensing, time, and maintenance, for the major tax processing systems, WINPAS and IPAS.
8 FTE reduction with associated supplies and service

Note 1: Reduction target must be met within state operations appropriations, but may be allocated across those appropriations and fund sources
Target Reduction =
Note 2: Amounts should be SBAs (DINs 3001-3011) from agency request multiplied by -1.

## Difference $=$

## Items - Describe proposed changes (excl. SBAs) to reach target or other priorities of agency

1 Fiscal effect of 38.0 FTE reduction is greater than $\$ 35$ million loss of revenue each fiscal year
3 This reflects a reduction of $\$ 316,300$ representing 4.5 FTE There is and
4 Reduction in positions, 5.0 FTE in the technology services area. These cuts would put technology at risk of not completing projects necessary for timely processing of tax and government returns, and refunds. The 85 represents a paralegal in an attorney office with a large case load.
This would close a private lease space and require staff to hotel using space in a nearby state office building
6 Adjustment for unused supplies \& services due to efficiencies from changes in process and decrease in demand
7 Cuts in these appropriations would affect licensing, time, and maintenance, for the major tax processing systems, WINPAS and IPAS
8 FTE reduction with associated supplies and services
