STATE OF WISCONSIN
DEPARTMENT OF ADMINISTRATION

Tony Evers, Governor
Kathy Blumenfeld, Secretary

November 20, 2024

The Honorable Tony Evers, Governor
Members of the Wisconsin Legislature
State Capitol
Madison, Wisconsin 53702

Dear Governor Evers and Members of the Legislature:

Under s. 16.43, Wisconsin Statutes, the Department of Administration is required to submit specific budgetary information by November 20 of even-numbered years. Pursuant to this requirement, this letter provides a summary of state agency budget requests for the 2025-27 biennium and the Department of Revenue's general purpose tax revenue estimates for the remainder of the 2024-25 fiscal year and the following two fiscal years (2025-26 and 2026-27).

State agency budget request estimates will be reviewed and updated as needed prior to the Governor introducing his budget in early 2025. As examples, additional information will become available in upcoming months related to programs such as Medical Assistance and certain school aids that may result in adjustments to information provided here. Further, as typically occurs, it is quite unlikely the Governor will include all state agencies' budget requests in his recommended budget.

As has previously occurred, this report shows there is a current imbalance when comparing agency requested expenditures, assuming they are all approved, with estimated revenues for the 2025-27 biennium. Regardless, the Governor's recommended budget will include a positive ending balance when it is submitted to the Legislature in a few months.

State Fiscal Condition

The fiscal condition of the State of Wisconsin remains on sound footing. We recently released the state's Annual Fiscal Report for the 2023-24 fiscal year, which noted a positive General Fund gross balance of over \$4.6 billion, a figure well above the most recent formal estimates released in June of this year.

In addition, the state's Budget Stabilization Fund recorded a balance of \$1.9 billion at the end of the 2023-24 fiscal year, the largest in state history and nearly six times the balance at the end of the 2017-18 fiscal year. The estimated 2024-25 fiscal year ending General Fund balance and the estimated Budget Stabilization Fund balance amount to 25.2 percent of 2024-25 fiscal year state GPR net appropriations.

Further, after 30 consecutive years of running a Generally Accepted Accounting Principles (GAAP) deficit, it is remarkable to note the State of Wisconsin has now had four consecutive years with a GAAP surplus, including a \$6.7 billion surplus at the end of the 2022-23 fiscal year.

Our steadfast financial management has continued to pay dividends in multiple ways. In August 2021, the state received upgrades from two rating agencies, with one rating upgraded to a AAA level, which is Wisconsin's first AAA rating since 1982. These upgrades, which have been maintained for

The Honorable Tony Evers, Governor
Members of the Wisconsin Legislature
Page 2
November 20, 2024

the past three plus years, reflected rating agencies' recognition of significantly improved reserves, elimination of the negative fund balance (on a GAAP basis), and strong fiscal oversight.

As I noted two years ago, debt management has been a focus of this administration as the amount of the state's long-term obligations has been reduced by an average of \$433 million per year over the past six years. In addition, the amount of state transportation revenue bonds has been reduced by \$408 million since the end of calendar year 2018.

Overall, the state's GPR debt service as a percentage of tax revenues in the 2024-25 fiscal year is estimated to be 2.1 percent, which is down from 3.4 percent at the end of the 2017-18 fiscal year. Over the past six years, numerous debt refinancing transactions have been completed that have provided present value debt service savings for all borrowing programs of roughly \$558 million. Finally, we have reduced the state's overall outstanding debt by \$2.6 billion from roughly \$13.1 billion in calendar year 2018 to \$10.5 billion in calendar year 2024.

We will keep doing what is needed to build upon our accomplishments to move forward as we have done for the past nearly six years. Our continued success in the days ahead will be profoundly based on our ability to get things done together to further what we know works in continually improving the lives of Wisconsinites across our state. As leaders, we must continue our steady fiscal stewardship and invest in those areas we know require it including, but not limited to, education, childcare, healthcare, public safety, infrastructure, the environment, and workforce.

Revenue Estimates

The Department of Revenue's estimates of general purpose tax revenues for fiscal years 2024-25, 2025-26, and 2026-27 are summarized by individual tax source in Table 2. For fiscal year 2024-25, overall state tax revenues are forecasted by the Department of Revenue to be \$22.013 billion which would be \$683.1 million more than those received in fiscal year 2023-24.

Total state tax revenues are estimated to increase above this revised fiscal year 2024-25 base to \$22.657 billion in fiscal year 2025-26, an increase of \$644.5 million (2.9 percent). In addition, state tax revenues are anticipated to further increase by \$382.7 million (1.7 percent) to \$23.040 billion in fiscal year 2026-27.

These revenue estimates are based on current state and federal laws. In addition, these estimates are tied to the most recently available reports related to economic activity and do not include any proposed general tax law changes. As recent years have clearly shown, revenue estimates are difficult to make at any time, noting those released here cover more than two and one-half years through June 30, 2027.

General Fund Condition Estimates

The General Fund Condition Statements (see Tables 3 and 4) reflect current law appropriations for fiscal year 2024-25 and requests from state agencies for fiscal years 2025-26 and 2026-27. They incorporate the current economic outlook and revenue forecasts based on the best available data at this point in the current fiscal year.

Based on this updated information, the state's General Fund balance at the end of the 2024-25 fiscal year is now projected to be \$4.000 billion (see Table 3), assuming nearly all state agency appropriations are entirely expended. This projection is based on the Department of Revenue's

The Honorable Tony Evers, Governor
Members of the Wisconsin Legislature
Page 3
November 20, 2024

revised fiscal year 2024-25 tax revenue estimates and the final budget for fiscal year 2024-25. Estimates of departmental revenues and lapses have also been updated based on the latest available information.

State General Fund balances for the next biennium are estimated to be \$2.194 billion at the end of the 2025-26 fiscal year and -\$0.743 billion (see Table 4) at the end of the 2026-27 fiscal year. It is not unusual for agency requests to exceed available projected revenues. Again, this imbalance assumes that all state agency requests are approved, which is highly unlikely.

Agency Budget Requests

On June 7, 2024, the Governor directed most state agencies, with certain exceptions related to the University of Wisconsin System, K-12 school aids, Medical Assistance, and critical services provided to our citizens, to submit biennial budget requests that did not seek to increase GPR-funded expenditures in either fiscal year 2025-26 or 2026-27. His instructions also extended to SEG-funded administrative operations in certain agencies as well.

State agency budget requests are summarized for the 2025-27 biennium both statewide and by functional area (see Appendix 1) and by each state agency (see Appendix 2). If all requests were approved, agency budget requests alone would increase total spending (on an all funds basis) from the adjusted base of \$49.440 billion in the current fiscal year to \$53.810 billion (8.8 percent) in fiscal year 2025-26. For fiscal year 2026-27, agencies are seeking \$55.817 billion, an increase of \$2.008 billion (3.7 percent) over fiscal year 2025-26.

Requests for GPR expenditures of \$23.495 billion are included in fiscal year 2025-26 and \$24.847 billion in fiscal year 2026-27 (see Table 1). These figures reflect overall agency annual GPR requests of \$2.114 billion (9.9 percent) in fiscal year 2025-26 over fiscal year 2024-25 and an increase of \$1.352 billion (5.8 percent) in fiscal year 2026-27 over fiscal year 2025-26.

Like other recent budgets, a substantial share of the overall increase requested comes from the Department of Public Instruction and the University of Wisconsin System, which combined have requests for GPR expenditures totaling roughly \$5.188 billion. A comprehensive summary of all agency budget requests for GPR expenditures is shown in Table 5 with similar information related to requests on an all funds basis in Table 6.

Please note that agency budget requests do not generally include funding for possible increases in debt service, fuel and utilities, state employee compensation and fringe benefits, or University of Wisconsin faculty pay adjustments. These items will be addressed in the Governor's recommendations in the budget bill he submits to the Legislature in early 2025. In addition, state agencies' capital budget requests are not included in this document. Thus, total expenditure requests for the 2025-27 biennium are not entirely reflected in the attached tables.

Wisconsin Economic Outlook

Following the economic crisis caused by the COVID-19 global pandemic and the swift recovery in its aftermath, Wisconsin's economy has followed the national economic trend of strong and steady employment growth amidst inflation falling from its elevated levels in 2021 and 2022. Shocks in global energy and food commodity markets related to Russia's invasion of Ukraine in 2022 have moderated and the monetary policy tightening cycle initiated by the Federal Reserve in 2022 has given way to a gradual path of short-term rate reductions. For 2024, the S&P Global forecast projects

The Honorable Tony Evers, Governor
Members of the Wisconsin Legislature
Page 4
November 20, 2024

that real GDP will rise by 2.7 percent, following a similar 2.9 percent growth rate in 2023 and 2.5 percent growth rate in 2022. In the following three years, S&P Global projects a modest rate of growth of 2.0 percent in 2025, 2.1 percent in 2026, and 1.8 percent in 2027. Personal income is projected to follow a similar trend in nominal terms, with growth of 4.9 percent, 5.0 percent, and 4.8 percent in 2025, 2026, and 2027, respectively. These growth rates reflect a slowing trend compared to the nearly 6 percent growth rates in 2022 and 2023 resulting in part from higher rates of inflation.

Employment at the national level has grown strongly during the recovery from the COVID-19 global pandemic and the continued expansion since then. For 2024, employment growth is estimated at 1.6 percent for total nonfarm payrolls, following growth of 4.3 percent in 2022 and 2.3 percent in 2023. A slowing pattern of growth in recent months resulting from moderating labor demand, higher rates of prime age labor force utilization, and demographic headwinds is projected to precede growth of just 0.8 percent in 2025, 0.3 percent in 2026, and 0.1 percent in 2027. Stagnant growth in total employment requires accelerating growth in productivity to maintain overall economic growth. In the period from 2022 to 2024, average output per hour for all workers is estimated to have grown by 0.9 percent per year while projections in the 2025 through 2027 period rely upon annual productivity growth of 1.9 percent per year.

Wisconsin's employment trends have moved in the same direction as the national trends, with growth in nonfarm payrolls since the trough in employment in April 2020 nationally at 22.0 percent while Wisconsin employment has grown 17.7 percent through September 2024. Wisconsin's slower underlying demographic growth, especially in the working age population, has become a constraint in matching national employment growth rates. Wisconsin's unemployment rate declined to a record low of 2.6 percent in March 2023 and has stayed close to prepandemic lows in recent months, with unemployment at 2.9 percent in September 2024 compared to 4.1 percent nationally. In addition, the Department of Workforce Development announced a new state record for total employment last week, which marks the sixth consecutive monthly record for state employment and highlights the unprecedented number of workers currently participating in Wisconsin's economy. It is expected that Wisconsin employment growth and unemployment rates will follow national trends in a similar relationship to the past few years.

Risks to the Estimate

The revenue projections used for the purposes of this report are built on a national economic forecast from S&P Global that relies on a series of assumptions that may follow paths different from expectations. Uncertainty in these forecasts should be viewed in the context of the S&P Global forecast two years ago that predicted a mild recession in 2023 that ultimately did not manifest. Unexpected strength in the macroeconomy, especially in the form of stronger employment growth aided by immigration flows and resilience to monetary policy tightening, was a positive factor in Wisconsin's revenue outlook. Similarly, a variety of risks at this time may result in economic performance disappointing the present baseline economic forecast.

The first significant risk to the economic forecast is the high degree of uncertainty about the trajectory of inflation and the accompanying easing of monetary policy. S&P Global's national economic forecast includes a projection for inflation that shows the rate of growth in consumer prices easing from 2.9 percent in 2024 to 2.1 percent in 2025 and 2.4 percent in each of 2026 and 2027. Easing inflation allows the annual average federal funds rate to decline from 5.15 percent in 2024 to 3.79 percent in 2025 and 2.63 percent in 2026. Improvements in the cost of credit are critical to a steady rate of economic growth during the next two years. Should inflation prove more resilient than

The Honorable Tony Evers, Governor
Members of the Wisconsin Legislature
Page 5
November 20, 2024

expected, the Federal Reserve could pursue a more restrictive monetary policy that results in reduced demand for credit and deteriorating credit quality with rising default rates by borrowers putting pressure on lending institutions and, consequently, the broader economy. Since the beginning of the Federal Reserve's easing policy in September 2024, long-term interest rates have risen more than expected, indicating credit market concerns over the trajectory of inflation and monetary policy. However, should inflation fall more rapidly than expected, credit conditions could ease more swiftly than the baseline economic forecast calls for and support more aggressive economic growth.

The second major risk to the forecast, according to S&P Global, is significant policy uncertainty at the federal level on fiscal policy, trade, and immigration. With the individual income tax provisions of the Tax Cuts and Jobs Act of 2017 expiring at the end of 2025, decisions by Congress and the incoming administration to continue those provisions, or potentially expand or curtail them, will influence the extent to which federal fiscal policy is stimulative or contractionary. Large baseline federal deficits may encourage a more restrictive set of federal fiscal policies than expected in the current economic forecast. Further expansions in the federal deficit fueled by additional tax reductions may stimulate consumer demand and business investment, but at the cost of elevated rates of inflation. As such, congressional action on fiscal policy may affect the trajectory of monetary policy as well. In addition, uncertainty over trade and immigration policies pose a risk to the macroeconomic outlook. Increases in domestic trade barriers compared to current policy may raise prices for consumers and producers while also triggering retaliation by foreign trading partners on exporters. Meanwhile, restrictions on the flow of immigration could remove one of the principal causes of higher-than-expected employment growth over the past three years.

A further complication in revenue estimates cited by S&P Global comes from volatility in financial markets, which have surged substantially since the declines that occurred in 2022. Those declines reduced revenue collections in fiscal year 2022-23 as capital gains realizations fell markedly from the highs in tax year 2021. With a resurgence in capital gains realizations expected for tax year 2024 after two years of strong financial asset appreciation, more of the individual income tax base for the upcoming biennium is reliant on the trajectory of asset prices. Continued rapid appreciation could cause further upward revisions to the revenue forecast, while a return to more typical historical valuations could cause sharp declines in tax revenue related to investment income.

Finally, I would like to extend my appreciation to the Department of Administration State Budget Office and the Department of Revenue Secretary, David Casey, and his staff for the timely revenue estimates they recently provided to assist in preparing this report.

If you have any questions related to this information, please contact me or State Budget Director Brian Pahnke.

Sincerely,

DocuSigned by:

APPENDIX 4

AGENCY PROPOSALS
REQUIRED UNDER
S. 16.423

Proposals Required Under s. 16.423

Pursuant to s. 16.423, Wis. Stats., all state agencies, meaning any office, department or independent agency in the Executive Branch, the Legislature and the Courts, are required to submit a base budget review report no later than May 15 in even-numbered years. These reports are required to include:

1. A description of each appropriation of the state agency.
2. For each appropriation, an accounting of all expenditures in every quarter in each of the previous three fiscal years.
3. For each appropriation, an analysis of whether it contributes to the mission of the agency and whether the objectives of the appropriation justify the expenditures.
4. For each appropriation, a determination of the minimum level of funding needed to achieve its objectives not to exceed the prior fiscal year's adjusted base and an accounting of the appropriation's current funding.
5. A description of the agency mission or guiding principles.

The State Budget Office created an online state expenditure reporting tool to improve the transparency of the state's finances. The tool includes each state agency appropriation, a link to its statutory description and its expenditures by quarter dating back three fiscal years. This tool was created to comply with ss. 16.423(3)(a) and (3)(b). The online expenditure reporting tool is formatted to be consistent with the base budget review report filed under s. 16.423, 2007 Wis. Stats.

<http://openbook.wi.gov/ExpenditureDetailReport.aspx>

In addition, state agencies were provided instructions and worksheets to comply with s. 16.423 and to certify compliance with the statutes. Included is a summary table of the submissions from state agencies.
