

STATE CONTROLLER'S OFFICE – BULLETIN 02-01-2018

Wisconsin Department of Administration – Division of Executive Budget and Finance

BULLETIN 02-01-2018

SCO ACCOUNTING SUPPORT

To provide improved accounting support to the agencies, the SCO has designated 5 staff to support agency accounting questions. These staff will gain knowledge of their designated agency's programs, appropriations and unique accounting issues, so that they may be more helpful and responsive to agency questions – especially during the Fiscal Year End. A listing of the SCO staff and the agencies that each will support may be found on the SCO Accounting Support web page (see the Accounting Services section on the Information For State Agencies page):

<https://doa.wi.gov/Pages/StateFinances/State-Controllers-Office-Information-for-state-agencies.aspx>

Also on that page is a chart that shows which questions should be routed to the SCO Accounting Support vs. the SCO Subject Matter Experts vs. STAR. If an agency initially sends a question to one area, and it is determined that another area can better respond, the question will be rerouted, and the agency will be informed.

Please contact State Controller Jeff Anderson if you have any comments or ideas on how the State Controller's Office may improve the support it provides to agency accountants. Thank you.
