Report on the Audit of the State Retiree Health Insurance Employer Schedules

Opinions

We have audited the Schedule of Employer Allocations of the State Retiree Health Insurance program, as of and for the year ended June 30, 2022, and the related notes. We have also audited the totals for the columns titled Ending Total OPEB Liability, Total Deferred Outflows of Resources, Total Deferred Inflows of Resources, and Total Employer OPEB Expense included in the Schedule of OPEB Amounts by Participating Employer of the State Retiree Health Insurance program, as of and for the year ended June 30, 2022, and the related notes. The schedules were prepared by the State of Wisconsin Department of Administration (DOA).

In our opinion, the accompanying schedules referred to above present fairly, in all material respects, the employer allocations and the Ending Total OPEB Liability, Total Deferred Outflows of Resources, Total Deferred Inflows of Resources, and Total Employer OPEB Expense for the State Retiree Health Insurance program as of and for the year ended June 30, 2022, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, which is issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibility for the Audit of the Employer Schedules section. We are required to be independent of DOA and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Employer Schedules

Management is responsible for the preparation and fair presentation of the schedules in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the schedules that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the Audit of the Employer Schedules

Our objectives are to obtain reasonable assurance about whether the Schedule of Employer Allocations and the specified column totals included in the Schedule of OPEB Amounts by Participating Employer are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance. Therefore, reasonable assurance is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the schedules.

In performing an audit in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, we exercised professional judgment and maintained professional skepticism throughout the audit. We also identified and assessed the risks of material misstatement of the Schedule of Employer Allocations and the specified column totals included in the Schedule of OPEB Amounts by Participating Employer, whether due to fraud or error, and designed and performed audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the Schedule of Employer Allocations and the specified column totals included in the Schedule of OPEB Amounts by Participating Employer.

In addition, we obtained an understanding of internal control relevant to DOA's preparation and fair presentation of the Schedule of Employer Allocations and the specified column totals included in the Schedule of OPEB Amounts by Participating Employer in order to design audit procedures that were appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of DOA's internal control. Accordingly, no such opinion is expressed. We also evaluated the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, and evaluated the overall presentation of the Schedule of Employer Allocations and the specified column totals included in the Schedule of OPEB Amounts by Participating Employer.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Restriction on Use

Our report is intended solely for the information and use of the Legislature, DOA, the Department of Employee Trust Funds (ETF), the ETF Board, the Group Insurance Board, and State Retiree Health Insurance program employers and their auditors, and is not intended to be and should not be used by anyone other than these specified parties.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 28, 2023, and published in report 23-12, on our consideration of DOA's internal control over financial reporting; our tests of its compliance with certain provisions of laws, regulations, and contracts; and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of DOA's internal control over financial reporting or on compliance. That report is an

integral part of an audit performed in accordance with *Government Auditing Standards* and should be used when considering DOA's internal control over financial reporting and compliance.

Notes to the Employer Schedules

Plan Description

The State of Wisconsin's Health Insurance Plan, defined as a single employer plan under Governmental Accounting Standards Boards Statement No. 75 *Accounting and Financial Reporting for Postemployment Benefits other than Pensions*, is an employer-sponsored program (not administered as a trust) offering group medical coverage to eligible employees and retirees of State and component unit employers. Created under Chapter 40 of the Wisconsin Statutes, the State Department of Employee Trust Funds and the Group Insurance Board have program administration and oversight responsibilities under Wis. Stat. Sections 15.165(2) and 40.03(6). As of January 2021, the most recent actuarial valuation date, there were 62,805 active and 8,219 retirees and beneficiaries participating in the plan. There were also 1,214 vested terminated members that are entitled to receive benefits but are not currently participating.

Under this plan, retired employees of the State and participating component units pay the same healthcare premium as active employees, creating an implicit rate subsidy. The total amount by which the premiums are higher for active employees when they are pooled with inactive employees than when the active employees are separately rated, is referred to as an implicit rate subsidy in relation to the benefits for the inactive employees. The actuarially-determined implicit rate subsidy for pre-age 65 retirees is treated as an other postemployment benefit (OPEB). At age 65, when eligible, retirees are required to enroll in Medicare.

Retiree health insurance OPEB benefits are paid on a "pay-as-you-go" basis. There is no trust and no assets have accumulated for the plan. In fiscal year 2022 participating employers made actuarially-determined contributions of \$47,688,079 for the implicit rate subsidy. That is, the actuary determined that employer paid health insurance contributions for active employees were \$47.7 million higher than they would have been if they were rated separately from retired participants.

Measurement Focus and Basis of Accounting

The Plan is accounted for using the flow of economic resources measurement focus and the accrual basis of accounting. Premiums paid by retirees and benefit expenses are recognized in the accounting period in which the benefits are provided.
