FY 2019 Expense Module Close

SCO will be extending the FY 2019 Final Expense Processing deadline (which was scheduled for today) to Monday, July 22nd, because of the issues with budget checking this week in the Expense Module.

The delay for the FY2019 Expense Module closing will also delay the inactivation of certain business purposes announced in the 06-25-2019 bulletin until Tuesday, July 23rd. See bulletin 06-25-2019 (link provided below) for the listing of business purposes that will be available starting July 24th.
