BULLETIN 04-07b-2017

Pension Obligation Bond Allocations

The SCO has received a question from a few agencies regarding the allocation of Pension Obligation Bond (POB) billings to non-Federal appropriations that receive revenues via transfers from Federal appropriations.

Agencies should not pay those POB amounts that have been allocated to appropriations that have expenditures included in the Schedule of Expenditures of Federal Awards (SEFA).

Please contact John Oppeneer in the State Controller's Office if you have any questions on the POB billings.
