To the Users of This Report:

Re: Monthly Financial Information—July, 2004

Please find attached the Report of General Fund Financial Information for the month ending July 31, 2004. This cover letter is intended to provide comment on the attached tables of general fund financial information. The user's attention is specifically drawn to the following.

• Largest Projected Negative Cash Balance - Negative \$928 Million Projected June 30, 2005 Cash Balance - Negative \$235 Million. The largest projected negative balance during FY05 is negative \$928 million, which is estimated to occur on December 9, 2004. The State is also projecting a negative ending cash balance for FY05. Pursuant to Wisconsin Statutes, there are certain remedies, such as interfund borrowing, to deal with periods when the balance is negative. Ending a fiscal year with a negative cash balance is also allowed under Wisconsin Statutes.

The interfund borrowing limit for FY05 is \$589 million with an additional \$354 million for a period of up to 30 days, which totals approximately \$943 million

• **FY04**; **Revenues Exceed Estimates.** On September 3, 2004, the Wisconsin Department of Revenue announced that General Purpose Revenue (GPR) collections for FY04, on a budgetary basis, were \$69 million or 0.6% above the Legislative Fiscal Bureau (LFB) February 2004 estimate of \$10,670 million and were 5.3% above collections in FY03. The State's Annual Fiscal Report will include the ending general fund balance for FY04 (unaudited, budgetary basis) and will be released by October 15, 2004

Sincerely,

/s/ Frank R. Hoadley

Monthly General Fund Financial Information State of Wisconsin

For the Period Ending July 31, 2004

Prepared by the Wisconsin Department of Administration Prepared on September 13, 2004

The following tables of general fund financial information are provided with respect to securities issued by the State of Wisconsin. The information may be material to an investment decision in the securities, although the presence of information here does not imply the State of Wisconsin has made a determination of its materiality.

THE PROJECTED GENERAL FUND CASH FLOWS REFLECT THE RE-ESTIMATES OF DEPARTMENTAL REVENUES AND EXPENDITURES PROVIDED BY THE LEGISLATIVE FISCAL BUREAU ON JANUARY 15, 2004 AND THE GENERAL FUND TAX COLLECTION ESTIMATES PROVIDED BY THE LEGISLATIVE FISCAL BUREAU ON FEBRUARY 10, 2004.

THE PROJECTED GENERAL FUND CASH FLOW DOES NOT ADDRESS THE RECENT SUPREME COURT DECISION CONCERNING AMENDMENTS TO GAMING COMPACTS. THE STATE'S 2003-05 BIENNIAL BUDGET ASSUMED \$102 MILLION OF PAYMENTS IN FY04 FROM ALL AMENDED GAMING COMPACTS. SUBSEQUENT TO THE SUPREME COURT'S DECISION, THE STATE HAS RECEIVED PAYMENTS EXPECTED TO BE RECEIVED BY JUNE 30, 2004 FROM ALL BUT ONE OF THE TRIBAL GOVERNMENTS; THE AMOUNT THAT WAS NOT RECEIVED IS \$30 MILLION. DISCUSSIONS CONTINUE WITH THE TRIBAL GOVERNMENTS REGARDING THE OUTSTANDING PAYMENT AND ALL PAYMENTS DUE ON OR AFTER JUNE 30, 2005

Cautionary Information

Users of this information should be cautioned about several points:

The general fund financial information in this document has been prepared using what is believed to be the best available data for these purposes. The tables in this document have been prepared using the same procedures used to prepare similar information for the State of Wisconsin Continuing Disclosure Annual Report, Official Statements prepared for specific securities, or reports filed in conjunction with various securities. This information is, however, preliminary in nature and subject to change.

- This information is unaudited and is not a "financial statement." None of the data presented here has been subjected to customary fiscal period closing procedures or the procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments.
- This information only speaks as of the date on which it was prepared.
- Statements of information for dates before the date this information is prepared will almost certainly be subject to restatement and revision. Information classified as "actual", and any difference from any prior estimate, does not signify a change to official estimates. Any official revenue or expenditure re-estimates that do occur will be separately identified, and if material, appropriately noticed.
- The information does not intend to reflect the State's ending budgetary balance for either FY04 or FY05. By October 15, 2004, the State is required to release its Annual Fiscal Report that includes the ending budgetary-balance for FY04.
- Projections of results for dates after the date this information is prepared are forward looking. Actual results will almost certainly differ.
 - ➤ Projections of general fund cash flow reflect the re-estimates of departmental revenues and expenditures provided by the Legislative Fiscal Bureau on January 15, 2004 and the general fund tax collection estimates provided by the Legislative Fiscal Bureau on February 10, 2004. It is important to note that cash flow projections are expressed on a *cash basis* while the revenue estimates released by the Legislative Fiscal Bureau are expressed on a *budgetary basis* and net of any refunds.
 - Projections are not adjusted to reflect actual revenues and expenditures and routine variability in the timing of receipts and disbursements, but may be adjusted to reflect unique events. As an example, an adjustment was made in September 2003 to the-then projections of general fund cash flow to better reflect end-of-month electronic fund transfers, particularly those related to individual income tax receipts.
 - Projections of remaining fiscal year cash flow may be adjusted when necessary to reflect unforeseen events or additional revised forecasts of the general fund condition statement.
- Data in these tables of financial information are subject to revision and reclassification for prior periods. This is particularly
 true for revenue data, where proper classification depends on tax returns which are received and processed significantly
 after the tax payments are received through electronic transfers.
- Some data is presented on a cash basis of accounting while other data is presented on a budgetary or agency recorded basis. Users should not compare data that is presented with different bases of accounting.
- Comparison of monthly general fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month.
- The State of Wisconsin is not obligated to provide this information or make it available on its website.
- None of the information in these tables of financial information is required by the State of Wisconsin's continuing disclosure undertakings pursuant to SEC rule 15c2-12.
 - > This information is not, and does not replace, a notice of a material event required by SEC rule 15c2-12.
 - This information is not, and does not replace, the annual financial information required by SEC rule 15c2-12.

⁽a) Projections reflect the re-estimates of departmental revenues and expenditures provided by the Legislative Fiscal Bureau on January 15, 2004 and the general fund tax collection estimates provided by the Legislative Fiscal Bureau on February 10, 2004. Projections do not reflect the recent Supreme Court decision concerning amendments to gaming compacts. Subsequent to the Supreme Court's decision, the State has received payments expected to be received by June 30, 2004 from all but one of the tribal governments. Discussions continue with the tribal governments regarding the outstanding payment and all payments due on or after June 30, 2005. While the projections are based on budgetary assumptions, they are presented on a cash basis and not a budgetary basis. Projections do not include interfund borrowings.

⁽b) The General Fund cash balances presented in this schedule are not based on Generally Accepted Accounting Principles (GAAP). The General Fund includes funds designated for operations and capital purposes of certain proprietary programs of the State's Universities. Receipts and disbursements of such funds for the designated programs and the disbursement of such funds for other purposes are reflected in the cash flow. A use of the designated funds for purposes other than the proprietary programs is, in effect, a borrowing of such funds. Therefore, at any time that the balance in the General Fund is less than the balance of such designated funds, the State is obligated to replenish the designated funds to the extent of the shortfall. Therefore, at any time that the balance in the General Fund is the depository for several escrow accounts pursuant to court orders or federal rulings. These funds are expected to average approximately \$50 million during the 2004-05 fiscal year.

⁽c) The Statutes provide certain administrative remedies to deal with periods when the General Fund is in a negative cash position. The Secretary of Administration may temporarily reallocate cash in other funds (up to 5% of the general-purpose revenue appropriations then in effect) to the General Fund. This amount is approximately \$589 million for the 2004-05 fiscal year. In addition, the Secretary of Administration may also temporarily reallocate an additional amount up to 3% of the general-purpose revenue appropriations then in effect (approximately \$354 million for the 2004-05 fiscal year) for a period of up to 30 days. If the amount of interfund borrowing available to the General Fund is not sufficient, the Secretary of Administration is authorized to prorate and defer certain payments.

⁽d) Includes \$75 million to be transferred from the Transportation Fund to the General Fund in June 2005.

⁽e) \$190 million of the November 2004 shared revenue payments are to be made from Segregated Funds and are not included in these Local Aid disbursement totals.

⁽f) \$60 million of the September 2004 equalization payments are to be made from Transportation Fund and are not included in these Local Aid disbursement totals.

- (a) Please refer to the cautionary statements contained on page 2 of this document. The cautionary statements are an integral part of this table. None of the data presented here has been subjected to customary fiscal period closing procedures or other procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments. In addition, comparison of monthly general fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month.
- (b) Estimates include re-estimates of departmental revenues and expenditures provided by the Legislative Fiscal Bureau on January 15, 2004 and the general fund tax collection estimates provided by the Legislative Fiscal Bureau on February 10, 2004. While the information from the Legislative Fiscal Bureau is presented on a budgetary basis, the estimates are presented on a cash basis and not a budgetary basis. Estimates do not reflect the recent Supreme Court decision in Panzer v. Doyle (concerning amendments to gaming compacts). Subsequent to the Supreme Court's decision, the State has received payments expected to be received by June 30, 2004 from all but one of the tribal governments. Discussions continue with the tribal governments regarding the outstanding payment and all payments due on or after June 30, 2005.
- (c) Changes are sometimes made after the beginning of the fiscal year to the projected revenues and disbursements. Depending on when these changes occur, there are situations in which prior estimates can not be changed and the result are some large variances. This column includes adjustments to the variances to more accurately reflect the variance between the estimated and actual amounts.

⁽a) The General Fund balances presented in this table are not based on Generally Accepted Accounting Principles (GAAP).

⁽b) The monthly receipt and disbursement projections for July 1, 2004 through June 30, 2005 are based on the reestimates of departmental revenues and expenditures that the Legislative Fiscal Bureau released on January 15,
2004 and the general fund tax collection estimates provided by the Legislative Fiscal Bureau on February 10,
2004. Projections do not reflect the recent Supreme Court decision concerning amendments to gaming
compacts. Subsequent to the Supreme Court's decision, the State has received payments expected to be received
by June 30, 2004 from all but one of the tribal governments. Discussions continue with the tribal governments
regarding the outstanding payment and all payments due on or after June 30, 2005.

⁽c) The amounts shown in September 2003 include receipts from the issuance of operating notes and amounts shown in February–May 2004 include disbursements for impoundment payments required in connection with the issuance of operating notes. No operating notes were issued for the 2002-03 fiscal year and no operating notes are assumed for the 2004-05 fiscal year.

The Statutes provide certain administrative remedies to deal with periods when the General Fund is in a negative cash position. The Secretary of Administration may temporarily reallocate cash in other funds (up to 5% of the general-purpose revenue appropriations then in effect) to the General Fund. This amount is approximately \$589 million for FY05. In addition, the Secretary of Administration may also temporarily reallocate an additional amount up to 3% of the general-purpose revenue appropriations then in effect (approximately \$354 million for FY05) for a period of up to 30 days. If the amount of interfund borrowing available to the general fund is not sufficient, the Secretary of Administration is authorized to prorate and defer certain payments. See "Cash Balances In Funds Available For Interfund Borrowing".

CASH BALANCES IN FUNDS AVAILABLE FOR INTERFUND BORROWING(a)

July 31, 2002 to July 31, 2004 — Actual August 30, 2004 to June 30, 2005— Estimated^(b) (Amounts in Millions)

The following two tables show, on a monthly basis, the cash balances available for interfund borrowing. The first table does not include balances in the Local Government Investment Pool (LGIP). While the LGIP is available for interfund borrowing, funds in the LGIP are deposited and withdrawn by local units of government, and thus are outside the control of the State.
