To the Users of This Report:

Re: Monthly Financial Information—February 2007

Please find attached the Report of General Fund Financial Information for the month ending February 28, 2007. All footnotes and additional information for the tables appear as endnotes on the last two pages of this report. This cover letter is intended to provide comment on the attached tables of general fund financial information.

- LFB January 30, 2007 Memorandum. Many of the tables in the attached report (cash basis) reflect the estimated General Fund tax revenues (budgetary basis) for FY07 that the Department of Revenue (DOR) released on November 20, 2006. The tables <u>do not</u> reflect the estimated General Fund tax collections for FY07 that the Legislative Fiscal Bureau (LFB) released on January 30, 2007. These estimates (budgetary basis) were approximately \$52 million more than the estimates provided by DOR on November 20, 2006.
- **<u>FY07 Budget Adjustment Bill.</u>** On March 16, 2007, Governor Doyle signed into law 2007 Wisconsin Act 5, which includes some adjustments (budgetary basis) for FY07. The tables in the attached report (cash basis) <u>do not</u> reflect this budget adjustment bill. If updates to projected General Fund cash flows are needed to reflect these adjustments, they will be included in next month's Report of General Fund Financial Information.
- <u>**Tax Filing Update.**</u> As of April 7, 2007, the total number of tax returns processed was down 0.8% compared to this time in calendar year 2006. The total number of returns claiming refunds is up 7.7%. The average amount of refund is down 6.6%, and the portion of tax returns claiming refunds is up to 91% compared to 82% for this time in calendar year 2006. Electronic returns have increased by 3.8% over this time in calendar year 2006 and are now 68.2% of total returns.

8. Endnotes and Additional Information.

Cautionary Information

Users of this information should be cautioned about several points:

The general fund financial information in this document has been prepared using what is believed to be the best available data for these purposes. The tables in this document have been prepared using the same procedures used to prepare similar information for the State of Wisconsin Continuing Disclosure Annual Report, Official Statements prepared for specific securities, or reports filed in conjunction with various securities. This information is, however, preliminary in nature and subject to change.

- This information is unaudited and is not a "financial statement." None of the data presented here has been subjected to customary fiscal period closing procedures or the procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments.
- This information only speaks as of the date on which it was prepared.
- Statements of information for dates before the date this information is prepared will most likely be restated or revised. Information classified as "actual", and any difference from any prior estimate, does not signify a change to official estimates. Any official revenue or expenditure re-estimates that do occur will be separately identified, and if material, appropriately noted.
- The information does not intend to reflect the State's projected budgetary balance for FY07. The State has issued its Annual Fiscal Report (budgetary basis) for FY06.
- Projections of results for dates after the date this information is prepared are forward looking. Actual results will almost certainly differ.
 - It is important to note that cash flow projections are expressed on a *cash basis* while the revenue estimates released by DOR and the Legislative Fiscal Bureau (LFB) are expressed on a *budgetary basis* and net of any refunds. The projected General Fund cash flow (cash basis) for the remainder of FY07 reflects the revenue estimates released by DOR on November 20, 2006 (budgetary basis), but does not reflect the revenue estimates release by LFB on January 30, 2007 (budgetary basis).
 - The projected General Fund cash flow (cash basis) for the remainder of FY07 does not reflect the budget adjustment bill (budgetary basis) signed into law on March 16, 2007; if updates are needed, they will be reflected in next month's report.
 - Projections are not adjusted to reflect actual revenues and expenditures and routine variability in the timing of receipts and disbursements, but may be adjusted to reflect unique events.
 - Projections of remaining fiscal year cash flow may be adjusted when necessary to reflect unforeseen events or additional revised forecasts of the general fund condition statement.
- Data in these tables of financial information are subject to revision and reclassification for prior periods. This is particularly true for revenue data, where proper classification depends on tax returns which are received and processed significantly after the tax payments are received through electronic transfers.
- Some information is presented on a cash basis of accounting while other data is presented on a budgetary or agency recorded basis. Users should not compare information that is presented on one basis of accounting with information that is presented on a different basis of accounting.
- Comparison of monthly general fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month.
- The State of Wisconsin is not obligated to provide this information or make it available on its website.
- None of the information in these tables of financial information is required by the State of Wisconsin's continuing disclosure undertakings pursuant to SEC rule 15c2-12.
 - This information is not, and does not replace, a notice of a material event required by SEC rule 15c2-12.
 - This information is not, and does not replace, the annual financial information required by SEC rule 15c2-12.

CASH BALANCES IN FUNDS AVAILABLE FOR INTERFUND BORROWING^(h) July 31, 2004 to February 28, 2007 — Actual March 31, 2007 to June 30, 2007 — Projected (Amounts in Millions)

The following two tables show, on a monthly basis, the cash balances available for interfund borrowing. The first table does not include balances in the Local Government Investment Pool (LGIP). While the LGIP is available for interfund borrowing, funds in the LGIP are deposited and withdrawn by local units of government, and thus are outside the control of the State.

ENDNOTES AND ADDITIONAL INFORMATION

- (a) FY07 projections, or estimates, reflect the biennial budget bill for the 2005-07 biennium (2005 Wisconsin Act 25), all enacted bills from the 2005 legislative session, and the General Fund revenue estimates released by DOR on November 20, 2006. Projections do not reflect the General Fund revenue estimates released by LFB on January 30, 2007 nor the budget adjustment bill for FY07 that was signed into law on March 16, 2007. Projections assume that the State will receive approximately \$112 million pursuant to the amended gaming compacts with tribal governments. Included in this amount is \$82 million, which is the estimate of all payments due in FY07, and \$30 million, which is an estimate of a payment due in the previous biennium that is expected to be made in FY07 by a tribal government. Amounts do not reflect interfund borrowing.
- (b) The General Fund cash balances presented are not based on Generally Accepted Accounting Principles (GAAP). The General Fund includes funds designated for operations and capital purposes of certain proprietary programs of the State's universities. Receipts and disbursements of such funds for the designated programs and the disbursement of such funds for other purposes are reflected in the cash flow. A use of the designated funds for purposes other than the proprietary programs is, in effect, a borrowing of such funds. Therefore, at any time that the balance in the General Fund is less than the balance of such designated funds, the State is obligated to replenish the designated funds to the extent of the shortfall. The designated funds are expected to range from \$160 to \$300 million during FY07. In addition, the General Fund is the depository for several escrow accounts pursuant to court orders or federal rulings. These funds are expected to average approximately \$30 million during FY07.
- (c) The Statutes provide certain administrative remedies to deal with periods when the General Fund is in a negative cash position. The Secretary of Administration may temporarily reallocate cash in other funds (up to 5% of the general-purpose revenue appropriations then in effect) to the General Fund. This amount is approximately \$661 million for FY07. In addition, the Secretary of Administration may also temporarily reallocate an additional amount up to 3% of the general-purpose revenue appropriations then in effect (approximately \$397 million for FY07) for a period of up to 30 days. If the amount of interfund borrowing available to the General Fund is not sufficient, the Secretary of Administration is authorized to prorate and defer certain payments.
- (d) The FY07 General Fund cash flow includes \$20 million that was transferred from the Petroleum Inspection Fund to the General Fund on September 1, 2006, \$88 million that was transferred from the Transportation Fund to the General Fund on October 12, 2006, and \$25 million that is expected to be transferred from the General Fund to the Medical Assistance Trust Fund on June 30, 2007.
- (e) Please refer to the cautionary statements contained on page 2 of this document. The cautionary statements are an integral part of this table. None of the data presented here has been subjected to customary fiscal period closing procedures or other procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments. In addition, comparison of monthly general fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month.
- (f) Changes are sometimes made after the beginning of the fiscal year to the projected revenues and disbursements. Depending on when these changes occur, there are situations in which prior estimates can not be changed and the result is a large variance. This column may include adjustments to the variances to more accurately reflect the variance between the estimated and actual amounts.
- (g) Operating notes were not issued for FY05 and FY06, and are not expected to be issued for FY07.
- (h) The following funds are available for interfund borrowing. The amounts shown reflect a reduction in the aggregate cash balances available to the extent any fund listed below has a negative balance and is subject to interfund borrowing.

<u>Tribal Government Payments.</u> In May 2004, the Wisconsin Supreme Court ruled that certain amendments to the gaming compacts with tribal governments were unconstitutional. Although this decision concerned only an amendment to a gaming compact with one tribal government, the reasoning of the opinion applied to similar amendments to other gaming compacts that were executed on or after January 1, 2003. Subsequent to the Wisconsin Supreme Court's decision, the State still received in FY04 the expected payments from all but one tribal government, which did not make its payment of about \$30 million.

In FY05, the State received the expected payments from all but two tribal governments. One tribal government placed its payment of nearly \$44 million in escrow for release to the State upon completion of a new amendment to its gaming compact. The other tribal government did not make its payment of about \$30 million.

In FY06, budget and General Fund cash receipts assumed that the State would receive approximately \$146 million pursuant to the amended gaming compacts with tribal governments. This amount reflected (i) \$73 million, which was the estimate of all payments due in FY06, and (ii) \$74 million, which was an estimate of payments due in previous fiscal years that were expected to be made in FY06 by two tribal governments. With respect to the estimated \$73 million of payments due in FY06, the estimated amount due was subsequently revised downward to \$67 million to reflect provisions of the compacts with the tribal governments, and the State received payments totaling \$44 million from all but one tribal government. The State and this tribal government continue arbitration with respect to this tribal government's amended gaming compact. With respect to the estimated \$74 million of payments from the two tribal governments that equal this amount.

On July 14, 2006, the Wisconsin Supreme Court held that a 1993 amendment to the gambling provision of the Wisconsin Constitution did not invalidate or affect the extension, renewal, or amendment of State-tribal compacts originally executed in 1991 and 1992. In addition, the Wisconsin Supreme Court overruled a portion of its earlier decision from 2004 that had invalidated compact amendments from 2003 that allowed tribes to offer additional games beyond those agreed to in the original tribal compacts.

For the FY07 budget and General Fund cash receipts, the projections assume that the State will receive approximately \$112 million pursuant to the amended gaming compacts with tribal governments. This amount reflects (i) \$82 million, which is the estimate of all payments due in FY07, and (ii) \$30 million, which is an estimate of a payment due in the previous biennium that is expected to be made in FY07 by a tribal government.
