To the Users of This Report:

Re: General Fund Monthly Financial Information—March 2010

Please find attached the Report of Monthly General Fund Financial Information for the period ending March 31, 2010. All footnotes and additional information for the tables appear on the last two pages as endnotes to this report.

This cover letter provides comment on the attached tables of General Fund financial information.

- **Updated General Fund Tax Revenue Collection Estimates and General Fund Condition Statement.** The projected General Fund cash flows (cash basis) in the attached report for the remainder of FY10 reflect updated General Fund tax revenue collection estimates (budgetary basis) included in a memorandum released by the Legislative Fiscal Bureau (**LFB**) on January 27, 2010. While the LFB memorandum addressed the entire 2009-11 biennium, the \$214 million decrease for FY10 specifically included the following:

- A decrease of \$76 million in estimated individual income tax collections, of which \$30 million is the direct result of Minnesota's termination of the tax reciprocity agreement with Wisconsin.
- A decrease of \$74 million in estimated general sale and use tax collections.
- A decrease of \$35 million in estimated excise tax collections.

The LFB memorandum of January 27, 2010 also includes an updated General Fund condition statement; the projected gross ending General Fund balance for FY10 is \$305 million. This amount reflects the above changes in estimated General Fund tax revenue collections along with other updated revenues and appropriations. This projected ending gross General Fund balance for FY10 is approximately \$63 million less than the balance included in the enacted 2009-11 budget.

- **FY10 General Fund Cash Flow.** In addition to the updated General Fund tax revenue collection estimates included the LFB memorandum of

January 27, 2010, the FY10 actual and projected General Fund cash flows (cash basis) in the attached report also reflect the following:

- 2009 Wisconsin Act 2 and the 2009-11 biennial budget (2009 Wisconsin Act 28).
  - \$1.002 billion of certain federal economic stimulus money the State has received or expects to receive in FY10, which includes \$606 million for medical assistance programs, \$237 million for education aids, \$76 million for shared revenues, and \$83 million for other various purposes. This is only a portion of the federal economic stimulus money the State has received or expects to receive.
  - \$800 million of operating note proceeds and the resulting impoundment payments.
- **Tax Filing Update.** As of April 17, 2010, the total number of tax returns completely processed in calendar year **(CY)** 2010 was down 2.3% compared to this time in CY09. The total number of refunds issued in CY10 is down 1.6% compared to this time in CY09 and the average amount of refund is up 7.8%. The portion of all processed tax returns with refunds issued is 85.4% compared to 84.8% at this time in CY09. Electronic returns have increased by 1.8% over this time in CY09 and are now approximately 80% of total returns.

Please contact this office with any questions or to request a copy of any item referenced above or in the attached report.

Sincerely,

Frank R. Hoadley  
Capital Finance Director

# Monthly General Fund Financial Information State of Wisconsin

## For the Period Ending March 31, 2010

Prepared by the Wisconsin Department of Administration

Prepared on April 29, 2010

The following tables of General Fund financial information are provided with respect to securities issued by the State of Wisconsin. The information may be material to an investment decision in the securities, although the presence of information here does not imply the State of Wisconsin has made a determination of its materiality.

**ACTUAL AND PROJECTED GENERAL FUND FY10 CASH FLOWS (CASH BASIS) REFLECT UPDATED GENERAL FUND TAX REVENUE COLLECTION ESTIMATES RELEASED BY LFB ON JANUARY 27, 2010, \$1.002 BILLION OF CERTAIN FEDERAL ECONOMIC STIMULUS MONEY THE STATE HAS RECEIVED OR EXPECTS TO RECEIVE, THE 2009-11 BIENNIAL BUDGET (2009 WISCONSIN ACT 28), 2009 WISCONSIN ACT 2, AND \$800 MILLION OF OPERATING NOTE PROCEEDS AND THE RESULTING IMPOUNDMENT PAYMENTS.**

### Table of Contents

1. **Cautionary Information!**
2. **Actual and Projected General Fund Cash Flow (Cash Basis)**  
This table corresponds to Table II-9, page 42, of the State of Wisconsin Continuing Disclosure Annual Report, December 23, 2009.
3. **General Fund Receipts and Disbursements Year-To-Date Compared to Estimates and Previous Fiscal Year (Cash Basis)**  
This table corresponds to Table II-10, page 43, of the State of Wisconsin Continuing Disclosure Annual Report, December 23, 2009.
4. **General Fund Monthly Cash Position (Cash Basis)**  
This table corresponds to Table II-11, page 44, of the State of Wisconsin Continuing Disclosure Annual Report, December 23, 2009.
5. **Cash Balances in Funds Available for Temporary Reallocation**  
This table corresponds to Table II-12, page 45, of the State of Wisconsin Continuing Disclosure Annual Report, December 23, 2009.
6. **General Fund Recorded Revenues (Agency Recorded Basis)**  
This table corresponds to Table II-13, page 46, of the State of Wisconsin Continuing Disclosure Annual Report, December 23, 2009.
7. **General Fund Recorded Expenditures by Function (Agency Recorded Basis)**  
This table corresponds to Table II-14, page 47, of the State of Wisconsin Continuing Disclosure Annual Report, December 23, 2009.
8. **Endnotes and Additional Information**

## Cautionary Information!

<b>Users of this information should be cautioned about several points:</b>
--

The General Fund financial information in this document has been prepared using what is believed to be the best available data for these purposes. The tables in this document have been prepared using the same procedures used to prepare similar information for the State of Wisconsin Continuing Disclosure Annual Report, Official Statements prepared for specific securities, or reports filed in conjunction with various securities. This information is, however, preliminary in nature and subject to change.

- This information is unaudited and is not a “financial statement.” None of the data presented here has been subjected to customary fiscal period closing procedures or the procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments.
- This information only speaks as of the date on which it was prepared.
- Statements of information for dates before the date this information is prepared will most likely be restated or revised. Information classified as “actual”, and any difference from any prior estimate, does not signify a change to official estimates. Any official revenue or expenditure re-estimates that do occur will be separately identified, and if material, appropriately noted.
- The information does not intend to reflect the State’s projected budgetary balance for FY10.
- Projections of results for dates after the date this information is prepared are forward looking. Actual results will almost certainly differ.
  - It is important to note that cash flow projections are expressed on a *cash basis* while the tax revenue collection estimates released by the Wisconsin Department of Revenue and LFB are expressed on a *budgetary basis* and net of any refunds.
  - Projections are not adjusted to reflect actual revenues and expenditures and routine variability in the timing of receipts and disbursements, but may be adjusted to reflect unique events.
  - Projections of remaining fiscal year cash flow may be adjusted when necessary to reflect unforeseen events or additional revised forecasts of the General Fund condition statement.
- Data in the tables of financial information are subject to revision and reclassification for prior periods. This is particularly true for revenue data, where proper classification depends on tax returns which are received and processed significantly after the tax payments are received through electronic transfers.
- Some information is presented on a cash basis of accounting while other data is presented on a budgetary or agency recorded basis. Users should not compare information that is presented on one basis of accounting with information that is presented on a different basis of accounting.
- Comparison of monthly General Fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month. In addition, comparison of year-to-date annual General Fund financial information also has many inherent problems due to the potential of different revenue and budget provisions for each fiscal year.
- The State of Wisconsin is not obligated to provide this information or make it available on its website.
- None of the information in these tables of financial information is required by the State of Wisconsin’s continuing disclosure undertakings pursuant to the Securities and Exchange Commission (SEC) Rule 15c2-12.
  - This information is not, and does not replace, a notice of a material event required by SEC Rule 15c2-12.
  - This information is not, and does not replace, the annual financial information required by SEC Rule 15c2-12.

**CASH BALANCES IN FUNDS AVAILABLE FOR TEMPORARY REALLOCATION<sup>(a) (g)</sup>**

**July 31, 2007 to March 31, 2010 — Actual**  
**April 30, 2010 to June 30, 2010 — Projected<sup>(b)</sup>**  
**(Amounts in Millions)**

The following two tables show, on a monthly basis, the cash balances available for temporary reallocation. The first table does not include balances in the Local Government Investment Pool (LGIP) and the second table does include such balances. Though the LGIP is available for temporary reallocations, funds in the LGIP are deposited and withdrawn by local units of government, and thus are outside the control of the State. The monthly average daily balances in the LGIP for the past five years have ranged from a low of \$2.211 billion during November 2005 to a high of \$4.347 billion during August 2008. The Secretary of Administration may not exercise the authority to use temporary reallocation if doing so would jeopardize the cash flow of any fund or account from which a temporary reallocation would be made.

**Available Balances; Does Not Include Balances in the LGIP**

<u>Month (Last Day)</u>	<u>2007</u>	<u>2008</u>	<u>2009</u>	<u>2010</u>

Note: All footnotes to this table appear at the end of this report in the section entitled "Endnotes and Additional Information".

## ENDNOTES AND ADDITIONAL INFORMATION

- (a) Please refer to the cautionary statements at the beginning of this document. The cautionary statements are an integral part of this table. None of the data presented here has been subjected to customary fiscal period closing procedures or other procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments. In addition, comparison of monthly General Fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month.
- (b) The actual results and the projections or estimates for FY10 (cash basis) reflect updated General Fund tax revenue collection estimates released by LFB on January 27, 2010, \$1.002 billion of certain federal economic stimulus money the State has received or is expected to receive for its medical assistance program, education, shared revenue, and various other programs, the 2009-11 biennial budget (2009 Wisconsin Act 28), 2009 Wisconsin Act 2, and \$800 million of operating note proceeds and the resulting impoundment payments. The federal economic stimulus money referenced above is only a portion of the federal economic stimulus money the State has received or expects to receive.
- (c) The General Fund cash balances presented are not based on Generally Accepted Accounting Principles (GAAP). The General Fund includes funds designated for operations and capital purposes of certain proprietary programs of the State's universities. Receipts and disbursements of such funds for the designated programs and the disbursement of such funds for other purposes are reflected in the cash flow. A use of the designated funds for purposes other than the proprietary programs is, in effect, a borrowing of such funds. Therefore, at any time that the balance in the General Fund is less than the balance of such designated funds, the State is obligated to replenish the designated funds to the extent of the shortfall. The designated funds were expected to range from \$220 to \$400 million during FY10. In addition, the General Fund holds deposits for several escrow accounts pursuant to court orders or federal rulings. These funds were expected to average \$5 million during FY10.
- (d) The Statutes provide certain administrative remedies to deal with periods when the General Fund is in a negative cash position. The Secretary of Administration may temporarily reallocate cash in other funds to the General Fund; for FY10 this amount may be up to 7% of the general-purpose revenue appropriations then in effect, or approximately \$940 million. In addition, the Secretary of Administration may also temporarily reallocate for a period of up to 30 days an additional amount up to 3% of the general-purpose revenue appropriations then in effect, or approximately \$403 million for FY10, which provides an aggregate amount of \$1.343 billion.

If the amount of temporary reallocation available to the General Fund is not sufficient, the Secretary of Administration is authorized to set priorities for payments from the General Fund and to prorate and defer certain payments.

- (e) \$600 million of operating notes issued on July 2, 2007 for FY08, \$800 million of operating notes issued on July 1, 2008 for FY09, and \$800 million of operating notes issued on July 1, 2009 for FY10. The February, 2010 impoundment payment reflected the amount of premium received on July 1, 2009 and deposited into the Operating Note Redemption Fund.
- (f) Changes are sometimes made after the beginning of the fiscal year to the projected revenues and disbursements. Depending on when these changes occur, there are situations in which prior estimates can not be changed and the result is a large variance. This column may include adjustments to the variances to more accurately reflect the variance between the estimated and actual amounts.
- (g) The amounts shown reflect a reduction in the aggregate cash balances available to the extent any fund had a negative balance and temporary reallocation was used for such fund.
- (h) The amounts are from the Annual Fiscal Report (unaudited, budgetary basis) for FY09, dated October 15, 2009. A complete copy of the Annual Fiscal Report (unaudited, budgetary basis) for FY09 can be obtained by contacting the State of Wisconsin Capital Finance Office.
- (i) The projections or estimates on an agency recorded basis reflect 2009 Wisconsin Act 2, the 2009-11 biennial budget (2009 Wisconsin Act 28), and the General Fund tax revenue estimates released by LFB on May 11, 2009 (as modified on May 14, 2009), but the projections do not reflect updated General Fund tax revenue collection estimates released by LFB on January 27, 2010.
- (j) The amounts shown are FY09 general purpose revenues and program revenues taxes as recorded by state agencies. There may be differences between the tax revenues shown in this report and those that may be reported by the Department of Revenue from time to time in their monthly general purpose revenue tax collections report; the Department of Revenue report (i) only includes general purpose revenues or taxes that are actually collected by the Department of Revenue, and (ii) may include accruals or other adjustments that may not be recorded by state agencies until a subsequent month.
- (k) The amounts shown are FY10 general purpose revenues and program revenue taxes as recorded by state agencies. There may be differences between the tax revenues shown in this report and those that may be reported by the Department of Revenue from time to time in their monthly general purpose revenue tax collections report; the Department of Revenue report (i) only includes general purpose revenues or taxes that are actually collected by the Department of Revenue, and (ii) may include accruals or other adjustments that may not be recorded by state agencies until a subsequent month. Additional information about year-to-date FY10 General Fund agency recorded revenues **appears on the next page.**

- (l) This category includes intergovernmental transfers. The amount of these transfers may vary greatly between fiscal years, and therefore, this category may not be comparable on a historical basis.
- (m) Certain transfers between General Fund appropriations are recorded as both revenues and expenditures of the General Fund. The amount of these transfers may vary greatly between fiscal years, and therefore, this category may not be comparable on a historical basis.
- (n) The amounts shown are FY09 expenditures as recorded by state agencies.
- (o) The amounts shown are FY10 expenditures as recorded by state agencies.

Additional information regarding the tables on the previous pages:

*FY10 General Fund Revenues.* The General Fund tax revenue collection estimates included in LFB's January 2010 memorandum shows an annual change of 0.2% in General Fund tax revenue collections between FY09 and FY10. However, it cannot be assumed that this annual change also applies to collections year-to-date on either a budgetary or agency recorded basis. The 2009-11 biennial budget includes several General Fund tax increases; however, many of these projected General Fund tax revenue increases (including, but not limited to, changes to capital gains exclusion and an additional top income tax bracket) will not be realized until final tax year 2009 settlements in April, 2010 (this report being for the period ending March 31, 2010).

*Tribal Government Payments.* In May 2004, the Wisconsin Supreme Court ruled that certain amendments to the gaming compacts with tribal governments were unconstitutional. Although this decision concerned only an amendment to a gaming compact with one tribal government, the reasoning of the opinion applied to similar amendments to other gaming compacts that were executed on or after January 1, 2003. On July 14, 2006, the Wisconsin Supreme Court held that a 1993 amendment to the gambling provision of the Wisconsin Constitution did not invalidate or affect the extension, renewal, or amendment of State-tribal compacts originally executed in 1991 and 1992. In addition, the Wisconsin Supreme Court overruled a portion of its earlier decision from 2004 that had invalidated compact amendments from 2003 that allowed tribes to offer additional games beyond those agreed to in the original tribal compacts.

In FY08, budget and General Fund cash receipts assumed that the State would receive approximately \$124 million pursuant to the amended gaming compacts with tribal governments. This amount reflected (i) \$72 million, which is the estimate of all payments due in FY08, and (ii) \$52 million, which is an estimate of payments due in previous years from a tribal government that were expected to be made in FY08. With respect to the estimated \$72 million of payments due in FY08, the State received payments totaling \$44 million from all but one tribal government. With respect to the estimated \$52 million of payments due in previous years, the State did not receive such payments.

In FY09, budget and General Fund cash receipts assumed that the State would receive approximately \$75 million pursuant to the amended gaming compacts with tribal governments. The FY09 budget and General Fund Cash receipts further reflect receipt of an additional \$60 million payment made by a tribal government on December 15, 2008 pursuant to settlement of a new gaming compact amendment. This payment (and the settlement of the new gaming compact amendment) was from the same tribal government that did not make its scheduled payment in FY08 and payments due in previous years. With the new gaming compact amendment, the State and this tribal governments agree on the methodology for payments due from the tribal government for each fiscal year, beginning with FY09.

The FY10 budget and projected General Fund cash flows assume that the State will receive approximately \$47 million pursuant to the amended gaming compacts with tribal governments.
