
State of Wisconsin
Additional/Voluntary Filing #2013-19
Dated October 15, 2013

This Additional/Voluntary Filing does not concern an event described in Securities and Exchange Act Rule 15c2-12, as amended. The State of Wisconsin provides this information as it may be material to financial evaluation of one or more obligations of the State of Wisconsin.

Issuer: State of Wisconsin

CUSIP Numbers: 977055 Prefix (All) 977056 Prefix (All)
97705L Prefix (All) 977087 Prefix (All)
977092 Prefix (All) 977100 Prefix (All)
977109 Prefix (All) 977123 Prefix (All)

This filing relates to all securities issued by the State of Wisconsin that contain this six-digit base CUSIP number.

Type of Information: Annual Financial Information and
Operating Data Pursuant to Rule 15c2-12

Attached is the **Annual Fiscal Report (Budgetary Basis) State of Wisconsin 2013**. The attached presents statements of fund condition and operations (budgetary basis) of the State of Wisconsin for the fiscal year ended June 30, 2013. The attached is NOT intended to represent financial statements prepared in accordance with generally accepted accounting principles (GAAP).

The State of Wisconsin is providing this Additional/Voluntary Filing with the Municipal Securities Rulemaking Board through its Electronic Municipal Market Access system. This Additional/Voluntary Filing is also available on the State of Wisconsin Capital Finance Office web site at:

October 15, 2013

The Honorable Scott Walker
The Honorable Members of the Legislature

This report presents statements of fund condition and operations (budgetary basis) of the State of Wisconsin for the fiscal year ended June 30, 2013. This satisfies the requirements of sec. 16.40(3), Wisconsin Statutes. Displayed are major sources of revenues and major categories of expenditures for the General Fund and other funds compared to the prior year.

The General Fund has an undesignated balance of \$759.2 million as of the end of the fiscal year. This is \$274.5 million higher than the balance of \$484.7 million projected in the January 24, 2013 Legislative Fiscal Bureau re-estimates.

General-purpose revenue taxes were \$14.086 billion compared to \$13.515 billion in the prior year, an increase of \$571 million or 4.2 percent. Collections increased in fiscal year 2012-13 with individual income and sales tax collections 6.5% and 2.8% more, respectively, than the prior year.

General-purpose revenue expenditures, excluding fund transfers, were \$14.042 billion compared to \$13.381 billion in the prior year, a increase of \$661 million or 4.9 percent.

In fiscal year 2013, the State of Wisconsin continued to devote the major share of state tax collections to assistance to local school districts, municipalities and counties. Local assistance accounted for 51.5 percent of total general purpose revenue spending. Aid payments to individuals and organizations represented 23.0 percent of total general purpose revenue expenditures. The University of Wisconsin accounted for 7.8 percent of total general purpose revenue spending and state operations spending for all other state agencies accounted for 17.7 percent of the total.

The State of Wisconsin expects to publish its comprehensive annual financial report in December of 2013. The report will be prepared under generally accepted accounting principles.

Respectfully submitted,

Michael Huebsch
Secretary of Administration

Stephen J. Censky, CPA
State Controller

The Year In Summary

Revenue Highlights

General purpose revenue (GPR) taxes for the fiscal year (FY) ending June 30, 2013 totaled \$14,085.6 million, an increase of 4.2 percent from FY 2012 collections of \$13,514.6 million.

Total collections for FY 2013 were \$286.5 million, or 2.1 percent, above the estimate of \$13,799.1 million.

Table 1

General Purpose Revenue (GPR) Taxes By Source GPR Tax Collections (\$ Millions)

Tax Source	FY 13	% of Total	FY 12	% of Total	\$ Change FY13-FY12	% Change
Individual Income	\$7,496.9	53.2%	\$7,041.7	52.1%	\$455.2	6.5%
General Sales & Use	4,410.1	31.3%	4,288.7	31.7%	121.4	2.8%
Corporation Franchise & Income	925.4	6.6%	906.6	6.7%	18.8	2.1%
Excise	689.5	4.9%	709.5	5.3%	-20.0	-2.8%
Inheritance, Estate & Gift	0.3	0.0%	0.3	0.0%	0.0	0.0%
Public Utility	341.2	2.4%	365.9	2.7%	-24.7	-6.8%
Insurance Companies	159.3	1.1%	148.1	1.1%	11.2	7.6%
Miscellaneous	62.9	0.5%	53.8	0.4%	9.1	16.9%
TOTAL GPR	\$14,085.6	100.0%	\$13,514.6	100.0%	\$571.0	4.2%

Individual Income Tax

Individual income tax collections increased \$455.2 million (6.5 percent) from \$7,041.7 million in FY 2012 to \$7,496.9 million in FY 2013. This was \$216.9 million (3.0 percent) above the \$7,280.0 million estimate. The individual income tax share of total GPR taxes increased from 52.1 percent in FY 2012 to 53.2 percent in FY 2013.

The largest component of individual income tax collections is withholding from wages and salaries, which increased 2.8 percent from \$6,782.7 million to \$6,973.1 million. Estimated payments increased 21.6 percent from \$1,074.8 million to \$1,306.5 million, while refunds increased 2.7 percent from \$1,767.9 million to \$1,816.3 million. Final payments, or payments with returns, increased 10.4% to \$622.8 million.

General Sales and Use Tax

Collections from the 5 percent general sales and use tax increased 2.8 percent from \$4,288.7 million to \$4,410.1 million. This was \$30.1 million (0.7 percent) above the \$4,380.0 million estimate. Sales tax collections as a percentage of total GPR taxes decreased from 31.7 percent to 31.3 percent.

Corporation Franchise and Income Tax

Corporate collections increased 2.1 percent from \$906.6 million in FY 2012 to \$925.4 million in FY 2013. Corporate collections as a percentage of total GPR taxes decreased from 6.7 percent to 6.6 percent. Corporate collections were \$35.4 million (4.0 percent) above the estimate of \$890.0 million.

The major source of corporate collections, estimated payments, increased by 1.0 percent from \$787.0 million in FY 2012 to \$794.6 million in FY 2013.

Excise Tax

Cigarette tax collections decreased 3.2 percent from \$587.8 million in FY 2012 to \$569.2 million in FY 2013. Collections in FY 2013 were above the estimate by \$9.2 million (1.6 percent).

Tobacco products tax collections decreased 3.8 percent from \$65.5 million in FY 2012 to \$63.0 million in FY 2013. Collections were \$0.2 million more than expected.

Liquor and wine tax collections increased 2.8 percent over the previous fiscal year, from \$47.0 million in FY 2012 to \$48.3 million in FY 2013. Collections were \$1.3 million (2.6 percent) below the estimate in FY 2013.

Beer tax collections decreased 2.2 percent from \$9.2 million in FY 2012 to \$9.0 million in FY 2013. Collections were \$0.1 million (1.1 percent) below the estimate in FY 2013.

Other Taxes

Public utility tax collections decreased \$24.7 million (6.8 percent) from \$365.9 million in FY 2012 to \$341.2 million in FY 2013. Collections were \$14.3 million below the FY 2013 forecast.

Estate tax collections of \$0.3 million were unchanged in FY 2013 from FY 2012. Revenues that were received during FY 2013 reflect delinquent, audit, and refund activity.

Insurance company taxes (generally based on premiums) increased 7.6 percent from \$148.1 million in FY 2012 to \$159.3 million in FY 2013. Collections were above the FY 2013 forecast by \$7.3 million (4.8 percent).

Miscellaneous taxes increased from \$53.8 million in FY 2012 to \$62.9 million in FY 2013. This is \$3.0 million above the forecast for the fiscal year. The largest component of miscellaneous tax, the real estate transfer fee, increased 20.6 percent, from \$39.8 million in FY 2012 to \$48.0 million in FY 2013.

Expenditure Highlights

In FY 2013, state tax collections increased by 4.2 percent, reflecting Wisconsin's continued recovery from the nation's worst economic crisis in decades. Changes to collective bargaining provisions for public employees in 2011 Wisconsin Act 10 and 2011 Wisconsin Act 32 continued to provide state and local governments tools to generate savings and to contain long-term operations costs. In the 2011-13 fiscal biennium, the state eliminated a \$3.6 billion structural deficit, ending FY 2013 with a \$759.2 million balance and transferring \$153.2 million to the budget stabilization fund. While aids to individuals grew by 7.8 percent, this was primarily related to making 12 monthly payments to managed care organizations (as opposed to 10 in FY 2012) and to lifting the cap on enrollment in Family Care, the state's long-term care assistance program.

Total GPR spending increased 4.9 percent or \$661.4 million in FY 2013, as shown in Table 2. This compares to a 1.4 percent decrease in FY 2012. The largest portion of GPR expenditures in FY 2013 was directed to school districts and

local units of government, consistent with past years. These local assistance expenditures were \$7,238.2 million or 51.5 percent of total GPR spending in FY 2013 compared to \$7,188.7 million or 53.7 percent of total spending in FY 2012. Aid payments to individuals and organizations were \$3,229.2 million, which was 23.0 percent of total GPR spending in FY 2013 compared to \$2,996.3 million or 22.4 percent in FY 2012. State operations costs of \$3,574.7 million accounted for 25.5 percent of total GPR spending, compared to \$3,195.7 million or 23.9 percent in FY 2012. Local Assistance payments increased by 0.7 percent. Aids to Individuals payments increased by 7.8 percent. State operations spending increased 11.9 percent in FY 2013.

The GPR budget is shaped by its ten largest programs, as detailed in Table 3. These programs comprised 83.6 percent of total GPR expenditures in FY 2013, down from 84.3 percent in FY 2012. Immediately following this section is a brief explanation of each program.

Transfers	<u>290.8</u>		<u>370.4</u>			
TOTAL	<u>\$14,332.9</u>		<u>\$13,751.1</u>			

School Aids: State GPR assistance to Wisconsin's 424 school districts increased by 1.4 percent or \$71.3 million in FY 2013. Overall, through a combination of state aids and property tax credits, the state was able to reimburse over 60 percent of school costs in FY 2013.

Since the 1993-94 school year, school districts have been subject to statewide revenue limits. These limits control the allowable increase in each school district's revenues by limiting the total revenue a district can collect from the combined sources of property tax levies for nondebt purposes and state general aids. These controls, combined with continued robust funding levels for state school aids and property tax credits, have succeeded in limiting the statewide net school property tax levy increase to an average of 1.3 percent annually since FY 2008.

In an effort to continue controlling property taxes during FY 2013, districts were provided a \$50 per pupil revenue limit adjustment, the smallest amount since adjustments were implemented except for the revenue limit reduction in FY 2012. Federal grants under the Education Jobs Fund helped school

districts manage decreased aid and revenue limit levels.

There are two major types of direct school aid. Approximately 87.5 percent of direct school aids are general aids, distributed by a formula designed to equalize each school district's property tax base per student, and aids to support the Milwaukee Public Schools special transfer aid program for pupils transferring between schools with certain concentrations of minority and nonminority populations. The remaining 12.5 percent of direct aids are categorical aids, distributed based on local expenditures for specific activities or educational programs. The major categorical aid programs are programs for addressing special education needs and maintaining small class sizes.

In addition to direct aid, in FY 2013 the state also provided funding for children from low-income families in the cities of Milwaukee and Racine to attend private schools at no charge. For FY 2013, these school choice programs were funded 61.6 percent with GPR and 38.4 percent by the Milwaukee and Racine school districts through an adjustment to their general equalization aid

calculation. In FY 2013, the state provided \$154.3 million GPR for school choice.

Medical Assistance: Wisconsin's state and federally funded Medical Assistance (MA) program pays for medical services to certain categories of low-income persons. Included are people with disabilities, seniors, children, low-income adults and pregnant women, and other low-income individuals who have high medical expenses.

In FY 2013, total MA expenditures, including BadgerCare Plus, were \$7,302.3 million, of which \$2,073.9 million was GPR, \$633.1 million was SEG, \$103.8 million was PR and the remaining \$4,491.5 million was FED. On an all funds basis, MA expenditures increased by 8.6 percent over FY 2012. The majority of the increase, \$432 million, is due to the timing of capitation payments to managed care organizations, which resulted in 14 payments in FY 2011, 10 payments in FY 2012 and 12 payments in FY 2013. After expenditures are adjusted to reflect twelve monthly payments in each fiscal year, total MA expenditures increased 3 percent between FY 2012 and FY 2013 due to inflation and changes in enrollment.

Program changes implemented during FY 2013 resulted in total MA enrollment decreasing by 0.8 percent, which is the first decrease in program enrollment in over 15 years. Enrollment trends varied within eligibility groups. Average monthly enrollment of low-income adults and children in the BadgerCare Plus program decreased by 2.5 percent, approximately 20,000 individuals per month, while the average monthly enrollment of elderly individuals and people with disabilities increased by 2.6 percent, approximately 5,200 individuals per month.

On July 1, 2012, the Department of Health Services began charging sliding scale premiums for adults enrolled in BadgerCare Plus with family incomes over 133 percent of the federal poverty level and children with family incomes over 200 percent of the federal poverty level. The percentage of the premiums charged by the department is equivalent to the premium levels established by the Affordable Care Act for individuals receiving premium subsidies through the health care exchanges. The department found that during the first three months, enrollment among populations required to pay the premiums decreased by 15 percent. After the first six months, the rate of disenrollment decreased and

enrollment of low-income adults and children has remained flat in recent months.

In the 2011-13 biennial budget, 2011 Wisconsin Act 32, enrollment in the state's community based long-term care entitlement program, Family Care, was capped while the Department of Health Services conducted a comprehensive review of program costs and outcomes and identified strategies to strengthen Family Care. On April 3, 2012, the temporary enrollment cap was lifted by 2011 Wisconsin Act 127. As a result, the waiting list to enroll in the program decreased from 5,284 in March 2012 to 74 in July 2013.

The Medical Assistance totals do not include expenditures for SeniorCare, Wisconsin's pharmacy assistance program for the elderly. In FY 2013, SeniorCare expenditures totaled \$78 million, a decrease of \$10 million from FY 2012. This decrease is due to continued growth in participation in the federal Medicare Part D program, particularly among low-income individuals who qualify for additional subsidies, and individuals with high drug costs. Of the total expenditures, \$16 million was GPR, \$49 million was PR and \$13 million was FED. Program revenues for SeniorCare are derived from negotiated rebates with pharmaceutical manufacturers.

Correctional Services: Total GPR expenditures for the state corrections program increased \$54.9 million or 5.1 percent over the prior year, reaching \$1,137.6 million in FY 2013. The number of incarcerated felons under the supervision of the state adult corrections program increased 0.2 percent from an average daily population of 22,351 in FY 2012 to 22,396 in FY 2013. The increase in spending is mainly attributed to bond refinancing in FY 2012 which lowered interest rates and delayed payments to FY 2013. In addition, the department made significant cuts to expenditures in FY 2012 as a result of 2011 Wisconsin Act 32, which included holding vacancies open and making a significant reduction to Youth Aids funding to find savings in order to generate lapses to the general fund. As a result, the FY 2012 expenditures levels were lower than those of FY 2011, which reached \$1,138.5 million.

University of Wisconsin System: Total GPR expenditures for the UW System increased by \$183.2 million, or 20.1 percent in FY 2013. Tuition at UW institutions, despite annual increases, continues to be a relative bargain in higher education. Resident undergraduate tuition for students at the UW-Madison campus was at the "Big Ten" peer group median, and \$1,102 below the "Big Ten" public institution average. UW-Milwaukee was \$477 below its peer group median and all other campuses were approximately \$906 below their peer group medians in the 2012-13 academic year.

In addition to low basic tuition, access to college for lower income families was further protected through steady support for the Wisconsin Higher Education Grants (WHEG) program for University of Wisconsin students. Since FY 2003 support for WHEG grants has increased by 183 percent.

State Property Tax Credits: The School Levy and First Dollar Tax Credits help to directly reduce property tax bills of residences and businesses. Funding for the School Levy Tax Credit in FY 2013 was \$747.4 million for all funds. The credit offset 7.1 percent of 2012 gross property tax levies for all purposes statewide. The First Dollar Credit was created in 2007 Wisconsin Act 20 to provide additional property tax relief to owners of improved property. The credit, funded at \$147.3 million in FY 2013, helps to give greater tax relief to lower-value property by offsetting property taxes on the first \$6,800 of property value for eligible parcels.

Shared Revenue: State shared revenue provides unrestricted aid to municipal and county governments. In FY 2013, the shared revenue formula distributed a total of \$873.6 million, consisting of \$820.6 million GPR and \$53.0 million SEG. The GPR portion of this amount consisted of county and municipal aids of \$694.7 million, utility aids of \$67.8 million, and expenditure restraint payments of \$58.1 million. The Expenditure Restraint Program provides aids to municipalities with tax rates over five mills that restrained their spending increases. The GPR portion of shared revenue payments decreased by 8 percent over FY 2012, reflecting a reduction in county and municipal aids enacted in 2011 Wisconsin Act 32. Statewide, shared revenue payments provided municipalities with about 13.6 percent and counties with about 3.5 percent of their general revenues.

Tax Relief to Individuals: Wisconsin paid out \$250.3 million GPR in tax relief to individuals through a variety of refundable tax credit programs during FY 2013.

The Earned Income Credit program reduces income taxes or supplements income for about 268,000 low-income working families with children. In FY 2013, this program paid a total of \$101.1 million in all funds to these households, a decrease of about \$2.2 million over FY 2012 due to reductions in claimants.

The Homestead Credit is a refundable credit that aims to offset, at least partially, the amount that property taxes exceed a certain percentage of a tax filer's income. This type of credit is also known as a "circuit-breaker" tax credit. Claimants receive a credit against their state income tax liability or a refund check.

Wisconsin's Homestead Credit pioneered property tax relief through circuit-breakers. The program remains one of the nation's leaders in circuit-breaker relief. In FY 2013, the credit provided \$122.8 million of tax relief, compared with \$133.7 million in FY 2012. About 233,000 low-income homeowners and renters – around 29 percent of them elderly – benefit from the program each year.

The Veterans and Surviving Spouses Property Tax Credit reduced income taxes for or provided a refund check to approximately 6,800 veterans and surviving spouses by providing a credit for taxes paid on a principal dwelling. Tax credit expenditures were \$22.7 million in FY 2013, an increase of \$2.8 million over FY 2012.

Wisconsin's Farmland Preservation Credit programs provide credits to about 14,600 farmers who qualify through exclusive agricultural or farmland preservation zoning or individual farmland preservation agreements. Two separate calculations of and qualifications for the credit were available in FY 2013 – one based on income and the other based on the number of acres and other criteria. Combined expenditures under Farmland Preservation Credit programs totaled \$19.2 million in FY 2013, a decrease of \$0.4 million over FY 2012.

Community Aids and Children and Family Aids:

Community Aids and Children and Family Aids are state and federal funds distributed to counties to fund human services programs serving primarily low-income persons, children in need of protection, the elderly and the disabled. Beginning in FY 2009, these funds are administered and distributed by both the Department of Health Services and the Department of Children and Families with total GPR expenditures reaching \$195.5 million in FY 2013. Between FY 2012 and FY 2013, the Community Aids funding distributed by the Department of Health Services increased by \$21.8 million GPR due to a change in the timing of payments and revenues related to the Medicaid cost settlements paid to counties.

State Supplemental Income: Wisconsin provides a supplement to the federal supplemental security income (SSI) program offering cash assistance to low-income aged, blind and disabled individuals, and to disabled parents as support for their children. In FY 2013, a total of \$148.5 million was expended in SSI payments. The expenditure increase of \$4.3 million GPR over FY 2012 is due to an increase in caseload.

Wisconsin Works: Wisconsin Works, or W-2, is a work-based system that provides support services to families in order to help them achieve self-sufficiency. On average, there were approximately 14,354 cases per month served over the course of FY 2013.

In addition to W-2 cash benefits, other program-related costs for work experience, job search, education and training, and administration are funded by the program. These include state funds committed for fraud programs and several other small public assistance-type programs. In total, \$131.1 million of state GPR was spent on W-2 and select other public assistance programs from this Department of Children and Families' appropriation in FY 2013, the same amount as in FY 2012.

Total Available Resources	<u>15,110,876</u>	<u>14,781,975</u>	<u>328,901</u>	
APPROPRIATIONS				
Gross Appropriations	14,791,814	14,671,906	(119,908)	5
Compensation Reserves	19,011	61,910	42,899	6
Transfers	290,844	147,581	(143,263)	7
Less: Lapses	<u>(749,998)</u>	<u>(584,153)</u>	<u>165,845</u>	8
Net Appropriations	<u>14,351,671</u>	<u>14,297,244</u>	<u>(54,427)</u>	
UNDESIGNATED UNRESERVED BALANCE	<u>\$ 759,205</u>	<u>\$ 484,731</u>	<u>\$ 274,474</u>	

Notes:

1. UNDESIGNATED, UNRESERVED OPENING BALANCE. The fund condition for the fiscal year 2013 is included in the Legislative Fiscal Bureau letter of January 24, 2013 to the Joint Committee on Finance. The opening balance for fiscal year 2013 was based on actual revenues, appropriations and opening balance for the preceding year.
2. PRIOR YEAR DESIGNATION FOR CONTINUING BALANCE. A portion of the previous year's gross ending balance had been designated, or set aside, to cover left over continuing budget authority that could legally be carried forward and spent in the next year. This continuing authority is generated in biennial appropriations in the first year, or even numbered year, of the biennium and in continuing appropriations each year. The fund condition summary does not include an estimate for the amount of continuing authority carried forward, and therefore, the designated amount for continuing balances is always a variance with the budget estimate.
3. TAXES. Actual tax collections were higher than the estimated tax collections contained in the January 24, 2013 revenue estimates provided by the Legislative Fiscal Bureau.
4. DEPARTMENTAL REVENUES. Departmental revenues are revenues received by individual state agencies and deposited in the general fund. Departmental revenues include tribal gaming revenue. The estimate used in the fund condition summary assumed that the entire amount of DOA-determined lapses and transfers from state agencies would be allocated to departmental revenues. However, some of those reductions actually occurred as lapses from GPR appropriations.
5. GROSS APPROPRIATIONS. Final gross appropriations varied from estimated gross appropriations as follows:

Gross Appropriations Per the fund condition summary	\$ 14,671,906
Add: continuing appropriation authority brought forward	72,373
Add: increases to sum sufficient appropriations above Chapter 20	47,665
Less: new legislation	-130
Add: biennial adjustments (included in January re-estimate)	<u>0</u>
FINAL GROSS APPROPRIATIONS	<u>\$ 14,791,814</u>
6. COMPENSATION RESERVES. Compensation reserves are budgetary set-asides for employee wage and benefit increases for the fiscal year.
7. TRANSFERS. Conditions requiring a transfer to the Budget Stabilization fund were met in FY2013, pursuant to WI Stats.
8. LAPSES. A lapse is the automatic termination of an appropriation. It represents the amount of unexpended, unencumbered balance of the appropriation at the end of the fiscal year. Actual lapses may differ from budgeted lapses due to the manner in which the legislature treats certain required appropriation reductions.

The accompanying notes are an integral part of this statement.

¹ Expenditures exclude non-budgetary transfers and expenses.

² The fund condition for the fiscal year 2013 is the fund condition approved by Legislative Joint Finance Committee at its August 10, 2012 13.10 meeting, modified by the January 2013 re-estimates.

Notes To Fund Statements

Note A Statutory Basis of Accounting

The State of Wisconsin Annual Fiscal Report is a report of financial results recognized on the statutory basis of accounting, for the fiscal year, against the state's budget as reflected in Chapter 20 of the Wisconsin Statutes. The report is not intended to display accounting information in accordance with Generally Accepted Accounting Principles (GAAP).

The State's Comprehensive Annual Financial Report, which is prepared in accordance with GAAP is issued under a separate cover at the end of the calendar year.

Statutes generally require that revenues and expenditures be recognized in the fiscal year in which they are received or paid, with specific exceptions. The legislature may change the recognition of revenues and expenditures among fiscal years.

The state's centralized accounting records remain open until July 31 (August 15 for income, sales and use tax receipts) to permit the state departments to record revenues and expenditures applicable to the fiscal year ended June 30.

The July and August recording of prior fiscal years' revenues and expenditures results in accrued revenues and accounts payable in the statement of assets, liabilities and fund balances. Included in these amounts are receivables and payables between funds which are not eliminated for presentation as "due to" or "due from" other funds.

Encumbrances are treated as expenditures in the initial year. However, the recording of charges against encumbrances applicable to the prior year is limited by the available appropriation balances of that year. Expenditures reported in this report are equal to current year disbursement and encumbrance balances less the prior year encumbrance balances. The Building Trust Fund, the Capital Improvement Fund, and the Bond Security and Redemption Fund are closed for encumbrances as of June 30.

Note that the life insurance premiums are paid two months in advance of the actual coverage months. The life insurance costs for the last two months of the fiscal year are recorded as expenditures in the following fiscal year.

Effective January 2012, the deduction for health insurance premiums was changed to one month in advance of the actual coverage months instead of the two months in advance as previously done. The health insurance costs for the last month of the fiscal year are recorded as expenditures in the following fiscal year.

All investments owned by the state retirement funds are an exception to the requirement to recognize revenues and expenditures on the cash basis since investments are adjusted to market and the resultant unrealized gains or losses are reflected in the accounts of those funds.

State statutes also provide that contributions to the state retirement funds received after August 1, which relate to earnings paid for services rendered in the previous fiscal year, may be recorded as revenues of the previous fiscal year.

In addition, state administrative policies require that revenues and expenditures be reported on a net basis; i.e., overcollections refunded are deducted from revenues, and overpayments collected are deducted from expenditures. Collections on loan principal and interest are recorded as receipts.

Certain unused appropriation balances may be allowed to continue for use in future years, rather than lapse to the General Fund. In these cases the continuing balances are treated as reserves for Program Revenue (PR) or General Purpose Revenue (GPR) balances. GPR consists of general taxes and miscellaneous revenues which are paid into the general fund and are then available for appropriation by the legislature. PR consists of funds also paid into the General Fund which are dedicated for specific purposes and are appropriated by the legislature as estimates through the use of revolving accounts.

Note B Fiscal Controls

The State Constitution provides that no money shall be paid out of the Treasury except as appropriated by law. The Secretary of Administration exercises detail allotment control over all agency appropriations and approval authority over all encumbrances. The Secretary of Administration is also responsible for the audit of expenditures.

The Department of Administration maintains separate accounts for all appropriations showing the amounts appropriated, the amounts allotted, the amounts encumbered, the amounts disbursed and certain other data necessary to the financial management and control of all state accounts. The department also maintains the general ledgers of the funds of the state including the General Fund.

Note C Classification of Funds

Funds are generally classified in accordance with classification criteria appropriate for governmental accounting.

However, certain activities of a proprietary and fiduciary nature are combined within the Governmental and Trust, Agency and Other Funds. In addition, the activities of the State Building Trust Fund, included within the Capital Projects classification, consist of capital projects as well as projects for the maintenance and repair of state facilities.

Note D Extraordinary Transfers and Transactions Affecting Fund BalanceCompensation Reserve

In FY 2013, Chapter 20 included a compensation reserve for employee salary and fringe benefit increases. The total amount reserved (appropriated) was \$61,910,000 and the amount allotted was \$19,010,700 leaving a lapse amount of \$42,899,300.

Note E Published Budget

The published budget amounts used in Exhibit A-1 are based on the fund condition statement for the January 24, 2013 Legislative Fiscal Bureau revenue estimates.

The adjustments column reflects legislation passed subsequent to the budget act, statutorily required appropriation adjustments to sum-sufficient and biennial appropriations and appropriation changes enacted under the statutory authority of the Legislative Joint Finance Committee or by statutory authority under program supplements.

The State of Wisconsin utilizes a budgetary procedure within the General Fund which treats most federal grant revenues, licenses and fees and revenues for proprietary activities as dedicated for the activities to which they relate. As such, variable budgeting techniques are used and the official state budget includes them only as estimates. These accounts, referred to as Program Revenue Appropriations, are not included in Exhibit A-1. Only those appropriations made from nondedicated General Purpose Revenues are included.

Note F Total Departmental Revenues

For budget comparison purposes, inter-fund transfers are added to other revenues to arrive at total departmental revenues. Exhibit A-1 displays departmental revenues of \$392.3 million and net transfers in of \$218.5 million. The fund condition captured these funds more generically as revenue. In order to properly compare actual revenues to budgeted revenues, actual revenues and transfers should be added together in order to compare to the departmental revenues in the fund condition statement, totaling \$610.8 million.

Note G Projected-to-Actual General Fund Condition

The variance between the published budgeted ending balance and actual undesignated balance at the end of fiscal year 2013 is explained as follows:

	(thousands)
ENDING FUND BALANCE (UNDESIGNATED) PER FUND CONDITION STATEMENT	\$ 484,731
OPENING BALANCE	
ADJUSTMENTS:	
Prior year designation for continuing balances	72,373
Total opening balance adjustments	<u>72,373</u>
REVENUE ADJUSTMENTS	
Taxes received more than estimate	286,527
Departmental revenues less than estimate	<u>(248,482)</u>
Total revenue above estimate	<u>38,045</u>
APPROPRIATION ADJUSTMENTS	
Sum Sufficient Changes	
Reestimates	(47,665)
Subsequent Legislation	130
Budget brought forward from previous year	<u>(72,373)</u>
Budget carried to next year for continuing appropriations	18,771
Total Appropriation Adjustments	<u>(101,137)</u>
LAPSES MORE THAN BUDGETED	65,481
INTER-FUND TRANSFERS	218,483
DESIGNATION FOR CONTINUING BALANCES	<u>(18,771)</u>
UNDESIGNATED FUND BALANCE	\$ <u><u>759,205</u></u>

Note H General Fund Cash Flow

Normally the General Fund experiences a short-term cash flow problem in the first half of the year, resulting in the issuance of an operating note. However, an operating note was not required for fiscal year 2013.

Note I Negative Transportation Fund Balances

The negative ending fund balance in the Transportation Fund represents commitments (encumbrances) recorded as expenditures in the current year which will be funded by the Federal, state and/or local governments in the future.

Note J Unappropriated Activities

The Department of Safety and Professional Services and the Department of Justice enter into contracts with private vendors for programs that they manage. The Department of Justice enters into these contracts on behalf of the Department of Transportation, Department of Public Instruction and Office of the Commissioner of Insurance. These contracts have not been budgeted within a state appropriation and therefore, this activity is summarized here to provide full disclosure of state agency operations.

	Safety & Prof Services	Justice
Revenues	\$757,124	\$319,408
Expenditures	\$757,124	\$319,408
Balance	<u>\$0</u>	<u>\$0</u>

Note K Sum Sufficient Increases

The B-2 Exhibit shows both lapsing amounts and adjustments to sum sufficient appropriations. In order to correctly show the lapsing amounts the increase column includes supplements. These supplements need to be removed to calculate the Actual Sum Sufficient Increases.

B-2 Sum Sufficient Increases	\$47,665
Less Supplements (included in total above)	\$0
Actual Sum Sufficient Increases	<u>\$47,665</u>

Note L Economic Development Fund

The Recycling and Renewable Energy fund was renamed the Economic Development fund in 2011 Wisconsin Act 32 (budget bill). To better reflect the closing of the Recycling and Renewable Energy fund and the creation of the Economic Development fund in the A-3 Exhibit, these funds have been shown separately.
