Re: General Fund Monthly Financial Information—January 2013

Please find attached the Report of Monthly General Fund Financial Information for the period ending January 31, 2013. All footnotes and additional information for the tables appear on the last two pages as endnotes to this report.

This cover letter provides comment on the attached tables of General Fund financial information.

<u>Estimated Tax Revenues – FY13.</u> The Legislative Fiscal Bureau (LFB) released a report on January 24, 2013 (January 2013 LFB Report) that included estimated General Fund tax revenues of \$13.799 billion for FY13. This amount is an increase of approximately \$285 million from collections in FY12, and an increase of approximately \$37 million from the FY13 estimates provided by the Wisconsin Department of Revenue (DOR) and included in the statutorily-required report released by the Wisconsin Department of Administration (DOA) on November 20, 2012 (November 2012 DOA Report).

A complete copy of the January 2013 LFB Report is available from the Capital Finance Office website (<u>www.doa.state.wi.us/capitalfinance</u>), the Municipal Securities Rulemaking Board (**MSRB**) through its Electronic Municipal Market Access (**EMMA**) system, or the above addresses.

• **FY13 General Fund Condition Statement (Budgetary Basis).** The January 2013 LFB Report also included a General Fund condition statement for FY13 that shows a projected net ending balance of approximately \$420 million. This amount is approximately \$137 million more than the projected net balance from the November 2012 DOA Report.

This projection does not reflect any State General Fund impact of mandated across-the-board cuts, effective March 1, 2013, being made to the federal fiscal year 2013 budget. These cuts are occurring since, as of March 1, 2013, the congressional Joint Select Committee on Deficit Reduction had failed to reduce the federal deficit by a pre-determined amount. The State is aware of the federal programs and the estimated amounts that are subject to this sequestration; however, the final amounts of such cuts will be determined over a six-month period of time. A complete copy of the January 2013 LFB Report is available from the Capital Finance Office website (<u>www.doa.state.wi.us/capitalfinance</u>), MSRB through its EMMA system, or the above addresses.

- <u>2013-15 Biennial Executive Budget.</u> On February 20, 2013, Governor Walker presented the proposed executive budget for the 2013-15 biennium. Information on the proposed executive budget is available at the State Budget Office website (<u>www.doa.state.wi.us/debf/execbudget.asp</u>) or from the above addresses
- **<u>Projected Negative Cash Balances.</u>** The projected cash flows for the remainder of FY13 currently do not include any dates when negative cash balances exist.

If negative cash balances were to occur, temporary reallocations and other additional remedies are available, pursuant to Wisconsin Statutes, to deal with periods when the cash balance is negative. The allowable amount of temporary reallocation is up to 9% of the general-purpose revenue appropriations then in effect (approximately \$1.329 billion for FY13), with an additional 3% for a period of up to 30 days (approximately \$443 million for FY13). In aggregate these amounts are approximately \$1.772 billion for FY13. If the amount of temporary allocation available to the General Fund is insufficient, the Secretary of Administration is authorized to set priorities for payments from the General Fund and to prorate or defer certain payments.

Please contact this office with any questions or to request a copy of any item referenced above or in the attached report.

Sincerely,

David R. Erdman Assistant Capital Finance Director

## **Cautionary Information!**

### Users of this information should be cautioned about several points:

The General Fund financial information in this document has been prepared using what is believed to be the best available data for these purposes. The tables in this document have been prepared using the same procedures used to prepare similar information for the State of Wisconsin Continuing Disclosure Annual Report, Official Statements prepared for specific securities, or reports filed in conjunction with various securities. This information is, however, preliminary in nature and subject to change.

- This information is unaudited and is not a "financial statement." None of the data presented here has been subjected to customary fiscal period closing procedures or the procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments.
- This information only speaks as of the date on which it was prepared.
- Statements of information for dates before the date this information is prepared will most likely be restated or revised. Information classified as "actual", and any difference from any prior estimate, does not signify a change to official estimates. Any official revenue or expenditure re-estimates that do occur will be separately identified, and if material, appropriately noted.
- The information does not intend to reflect the State's projected budgetary balance for FY13.
- Projections of results for dates after the date this information is prepared are forward looking. Actual results will almost certainly differ.
  - It is important to note that cash flow projections are expressed on a *cash basis* while the tax revenue collection estimates released by DOR and LFB are expressed on a *budgetary basis* and net of any refunds.
  - Projections are not adjusted to reflect actual revenues and expenditures and routine variability in the timing of receipts and disbursements, but may be adjusted to reflect unique events.
  - Projections of remaining fiscal year cash flow may be adjusted when necessary to reflect unforeseen events or additional revised forecasts of the General Fund condition statement.
- Data in the tables of financial information are subject to revision and reclassification for prior periods. This is particularly true for revenue data, where proper classification depends on tax returns which are received and processed significantly after the tax payments are received through electronic transfers.
- Some information is presented on a cash basis of accounting while other data is presented on a budgetary or agency-recorded basis. Users should not compare information that is presented on one basis of accounting with information that is presented on a different basis of accounting.
- Comparison of monthly General Fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month. In addition, comparison of year-to-date annual General Fund financial information also has many inherent problems due to the potential of different revenue and budget provisions for each fiscal year.
- The State of Wisconsin is not obligated to provide this information or make it available on its website.
- None of the information in these tables of financial information is required by the State of Wisconsin's continuing disclosure undertakings pursuant to the Securities and Exchange Commission (SEC) Rule 15c2-12, however this information is filed with the MSRB's EMMA system as an additional voluntary filing.
  - > This information is not, and does not replace, a listed event required by SEC Rule 15c2-12.
  - This information is not, and does not replace, the annual financial information required by SEC Rule 15c2-12.

#### CASH BALANCES IN FUNDS AVAILABLE FOR TEMPORARY REALLOCATION<sup>(a)(g)</sup> July 31, 2010 to January 31, 2013 — Actual February 28, 2013 to June 30, 2013 — Projected<sup>(b)</sup> (Amounts in Millions)

The following two tables show, on a monthly basis, the cash balances available for temporary reallocation. The first table does not include balances in the Local Government Investment Pool (LGIP) and the second table does include such balances. Though the LGIP is available for temporary reallocations, funds in the LGIP are deposited and withdrawn by local units of government, and thus are outside the control of the State. The monthly average daily balances in the LGIP for the past five years have ranged from a low of \$2.113 billion during November 2011 to a high of \$4.347 billion during February 2009. The Secretary of Administration may not exercise the authority to use temporary reallocation if doing so would jeopardize the cash flow of any fund or account from which a temporary reallocation would be made.

#### ENDNOTES AND ADDITIONAL INFORMATION

- <sup>(a)</sup> Please refer to the cautionary statements at the beginning of this document. The cautionary statements are an integral part of this table. None of the data presented here has been subjected to customary fiscal period closing procedures or other procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments. In addition, comparison of monthly General Fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month.
- <sup>(b)</sup> The projections and results for FY13 (cash basis) reflect the budget for the 2011-13 biennium (2011 Wisconsin Act 32), subsequent actions of the Legislature's Joint Committee on Finance, estimated General Fund tax revenues from LFB as included in their January 24, 2013 report, DOR's estimated General Fund tax revenues as included in the November 20, 2012 report from DOA, and projections included in the May 10, 2012 memorandum from DOA. These General Fund cash-based projections do not reflect any impact of mandated across-the-board cuts, effective March 1, 2013, being made to the federal fiscal year 2013 budget. The State is aware of the federal programs and the estimated amounts that are subject to this sequestration; however, the final amounts of such cuts (and their impact on the State's General Fund) will be determined over a six-month period of time.
- (c) The General Fund cash balances presented are not based on Generally Accepted Accounting Principles (GAAP). The General Fund includes funds designated for operations and capital purposes of certain proprietary programs of the State's universities. Receipts and disbursements of such funds for the designated programs and the disbursement of such funds for other purposes are reflected in the cash flow. A use of the designated funds for purposes other than the proprietary programs is, in effect, a borrowing of such funds. Therefore, at any time that the balance in the General Fund is less than the balance of such designated funds, the State is obligated to replenish the designated funds to the extent of the shortfall. The designated funds are expected to range from \$600 million to \$1.2 billion in FY13. In addition, the General Fund holds deposits for several escrow accounts pursuant to court orders or federal rulings. These funds are expected to average \$30 million during FY13.
- (d) The Statutes provide certain administrative remedies to deal with periods when the General Fund is in a negative cash position. The Secretary of Administration may temporarily reallocate cash in other funds to the General Fund in an amount up to 9% of the general-purpose revenue appropriations then in effect (approximately \$1.328 billion for FY13) and may also temporarily reallocate for a period of up to 30 days an additional amount up to 3% of the general-purpose revenue appropriations then in effect (approximately \$443 million for FY13). This results in an aggregate amount of \$1.771 billion for FY13. The above reallocation limit of 9% applies to the 2011-13 biennium; assuming no change in State law, this 9% will change to 5% at the start of FY14. If the amount of temporary reallocation available to the General Fund is not sufficient, the Secretary of Administration is authorized to set priorities for payments from the General Fund and to prorate and defer certain payments.
- (e) Assumes no operating notes issued for FY13 but reflects \$800 million of operating notes issued on July 19, 2011 for FY12 and \$800 million of operating notes issued on July 1, 2010 for FY11. Impoundment payments were made in February, March, April, and May of the corresponding fiscal year in which operating notes were issued. The February impoundment payments reflect any premium received in connection with the sale of the respective operating notes and deposited into the Operating Note Redemption Fund.
- <sup>(f)</sup> Changes are sometimes made after the beginning of the fiscal year to the projected revenues and disbursements. Depending on when these changes occur, there are situations in which prior estimates can not be changed and the result is a large variance. This column may include adjustments, if any, to the variances to more accurately reflect the variance between the estimated and actual amounts.

- <sup>(g)</sup> The amounts shown reflect a reduction in the aggregate cash balances available to the extent any fund had a negative balance and temporary reallocation was used for such fund.
- <sup>(h)</sup> The amounts are from the Annual Fiscal Report (unaudited, budgetary basis) for FY12, dated October 15, 2012.
- (i) The projections or estimates on an agency recorded basis reflect the 2011-13 biennial budget (2011 Wisconsin Act 32), all legislative actions signed into law through 2011 Wisconsin Act 286, and the General Fund tax revenue estimates from DOR included in the May 10, 2012 memorandum from DOA, but do NOT reflect DOR's estimated General Fund tax revenues as included in the November 20, 2012 report from DOA nor LFB's estimates of General Fund tax revenues as included in their January 24, 2013 report.
- (i) The amounts shown are FY12 general purpose revenues and program revenues taxes as recorded by state agencies. There may be differences between the tax revenues shown in this report and those that may be reported by the Department of Revenue from time to time in their monthly general purpose revenue collections report; the Department of Revenue report (i) only includes general purpose revenues or taxes that are actually collected by the Department of Revenue (and not by other state agencies), and (ii) may include accruals or other adjustments that may not be recorded by state agencies until a subsequent month.
- <sup>(k)</sup> The amounts shown are FY13 general purpose revenues and program revenue taxes as recorded by state agencies. There may be differences between the tax revenues shown in this report and those that may be reported by the Department of Revenue from time to time in their monthly general purpose revenue collections report; the Department of Revenue report (i) only includes general purpose revenues or taxes that are actually collected by the Department of Revenue (and not by other state agencies), and (ii) may include accruals or other adjustments that may not be recorded by state agencies until a subsequent month.
- <sup>(1)</sup> This category includes intergovernmental transfers. The amount of these transfers may vary greatly between fiscal years, and therefore, this category may not be comparable on a historical basis.
- <sup>(m)</sup> Certain transfers between General Fund appropriations are recorded as both revenues and expenditures of the General Fund. The amount of these transfers may vary greatly between fiscal years, and therefore, this category may not be comparable on a historical basis.
- <sup>(n)</sup> The amounts shown are FY12 expenditures as recorded by state agencies.
- <sup>(0)</sup> The amounts shown are FY13 expenditures as recorded by state agencies.
