December 23, 2016

Thank you for your interest in the State of Wisconsin.

This is the Continuing Disclosure Annual Report for the fiscal year ending June 30, 2016 (**2016 Annual Report**).

The 2016 Annual Report provides information on different securities that the State issues and is provided under the State's continuing disclosure undertakings. These undertakings of the State are intended to help dealers and brokers comply with Rule 15c2-12 under the Securities Exchange Act of 1934. As of this date, the State has filed the 2016 Annual Report with the Municipal Securities Rulemaking Board (**MSRB**) through its Electronic Municipal Market Access (**EMMA**) system. EMMA receives, and makes available to the public, continuing disclosure documents and related information that is provided by issuers and obligated persons.

Official Statements for securities that the State issues during calendar year 2017 may incorporate parts of this 2016 Annual Report by reference.

Organization of the 2016 Annual Report

The 2016 Annual Report is divided into nine parts. The first two parts present general information.

- **Part I** presents the **State's continuing disclosure undertakings**. A Master Agreement on Continuing Disclosure (Amended and Restated December 1, 2010) establishes a general framework. Separate addenda describe the information to be provided for specific types of securities.
- **Part II** presents **general information about the State**, including its operations and financial results. This part also provides information on the 2015-17 biennial budget and the results of the 2015-16 fiscal year.

The State's audited general purpose external financial statements and independent auditor's report for the fiscal year ended June 30, 2016 are not available as of the date of the 2016 Annual Report. When available, the State's Comprehensive Annual Financial Report and the audited general purpose external financial statements section of the CAFR for the fiscal year ended June 30, 2016 will be filed within 10 business days with the MSRB through its EMMA system, and will be made a part of APPENDIX A to Part II of the 2016 Annual Report.

The remaining parts present information about different types of securities that the State issues.

- **Part III – General obligations (including bonds, commercial paper, and extendible municipal commercial paper)**
- **Part IV – Master lease certificates of participation**
- **Part V – Transportation revenue obligations (including bonds and commercial paper)**
- **Part VI – Clean water revenue bonds**
- **Part VII – Environmental improvement revenue bonds**
- **Part VIII – Petroleum inspection fee revenue obligations (including bonds and extendible municipal commercial paper)**
- **Part IX – General fund annual appropriation bonds (including bonds and variable rate notes)**

Ratings on the State's Securities

The following chart presents a summary of the long-term ratings currently assigned to different types of securities that the State issues.

PART V

TRANSPORTATION REVENUE OBLIGATIONS

Part V of the 2016 Annual Report provides information about transportation revenue obligations issued by the State of Wisconsin (**State**) in the form of transportation revenue bonds (**Bonds**) and transportation revenue commercial paper notes (**Notes**). Selected information is provided in this introduction for the convenience of the readers; however, all information presented in this Part V of the 2016 Annual Report should be reviewed to make an informed investment decision.

Total Outstanding Balance (12/15/2016)	\$1,976,123,000
Amount Outstanding of Fixed-Rate Obligations	1,887,400,000
Amount Outstanding of Variable-Rate Obligations	88,723,000
Percentage of Outstanding Obligations in form of Variable-Rate Obligations	4.49%
Ratings ^(a) (Fitch/Kroll ^(b) /Moody's/S&P)	
Bonds	AA+/AAA/Aa2/AA+
Notes	F1+/P-1/A-1+
Authority	State of Wisconsin Transportation Facilities and Highway Projects Revenue Obligations General Resolution, dated June 26, 1986, as amended, and Subchapter II of Chapter 18 and Section 84.59, Wisconsin Statutes
Trustee/Paying Agent	The Bank of New York Mellon Trust Company, N.A. serves as Trustee for all obligations, as well as Registrar and Paying Agent for the Bonds. U.S. Bank National Association, serves as Issuing and Paying Agent for the Notes.
Security	The Bonds are secured by a first lien pledge of Program Income, the Funds created by the General Resolution, as amended, and any other income of the Program. The Notes are payable from Program Income deposited into the Subordinated Debt Service Fund; this pledge is subordinate to that granted to payment of the Bonds. Program Income includes vehicle Registration Fees authorized under Section 341.25, Wisconsin Statutes (which is a substantial amount of the Program Income) and certain Other Registration-Related Fees added pursuant to 2003 Wisconsin Act 33 (including, but not limited to, vehicle title transaction fees, registration and title counter service fees, and personalized license plate issuance and renewal fees).
Audit Report and Financial Statements	APPENDIX A to this Part V of the 2016 Annual Report includes the independent auditor's reports and the audited statements of cash receipts and disbursements.
<p>^(a) The ratings presented are the ratings assigned to the transportation revenue obligations without regard to any bond insurance policy. No information is provided in the 2016 Annual Report about any rating assigned to any transportation revenue obligations based on any bond insurance policy.</p> <p>^(b) While the State of Wisconsin applied for and received a rating on the transportation revenue bonds from Kroll Bond Rating Agency, at this time, Kroll has not been requested to rate the Notes for this credit.</p>

The State of Wisconsin Building Commission (**Building Commission** or **Commission**) supervises all matters concerning the State's issuance of revenue obligations. The Capital Finance Office, which is part of the State of Wisconsin Department of Administration's Division of Executive Budget and Finance, is responsible for managing the State's borrowing programs. Requests for additional information about transportation revenue obligations may be directed to the Capital Finance Office. The law firm of Quarles & Brady LLP has provided bond counsel services in connection with the issuance of the outstanding transportation revenue obligations. The State of Wisconsin Department of Transportation (**DOT** or **Department of Transportation**) is responsible for the planning and completion of major highway projects funded, in part, with the proceeds of transportation revenue obligations.

Transportation revenue obligations have mostly been issued as tax-exempt obligations; however, in the years 2009 and 2010 a total of two series of taxable obligations were issued as "qualified build America bonds" pursuant to Section 54AA of the Internal Revenue Code of 1986, as amended (**Code**).

The 2016 Annual Report includes information and defined terms for different types of securities issued by the State. The context or meaning of terms used in one part of the 2016 Annual Report may differ from those of the same terms used in another part, and the total amount shown in a table may vary from the related sum due to rounding. See "**GLOSSARY**" for the definitions of capitalized terms used in this Part V of the 2016 Annual Report. No information or resource referred to in the 2016 Annual Report is part of the report unless expressly incorporated by reference.

Certain statements in this Part V of the 2016 Annual Report may be forward-looking statements that are based on expectations, estimates, projections, or assumptions. Any forward-looking statements are made as of the date of the 2016 Annual Report, and the State undertakes no obligation to update such statements to reflect subsequent events or circumstances. Actual results could differ materially from the anticipated results.

OUTSTANDING OBLIGATIONS

The State has issued transportation revenue obligations on the dates and in the amounts shown in Table V-1. The table also includes the outstanding principal balances of the transportation revenue obligations as of December 15, 2016.

^(a) Pursuant to a refunding escrow agreement, the principal of and interest on all, or a portion of the Bonds, have been or will be paid as it comes due or will be called for redemption prior to maturity. The principal amount of Bonds for which payment is provided is treated as not outstanding for purposes of this table.

The 2005 Series A Bonds, 2007 Series 1 Bonds, 2008 Bonds, 2009 Series B Bonds, 2010 Series A Bonds, 2010 Series B Bonds, 2012 Series 1 Bonds, 2012 Series 2 Bonds, 2013 Bonds, 2014 Series 1 Bonds, 2014 Series 2 Bonds, 2015 Series 1 Bonds, and 2015 Series A Bonds (collectively, **Prior Bonds**), together with any additional Bonds issued by the State pursuant to the General Resolution, are referred to collectively as the **Bonds**. See **“SECURITY; Sources of Payment”**. All other previously issued Bonds have been defeased or redeemed in full and are not Outstanding Bonds within the meaning of the General Resolution.

The Transportation Revenue Commercial Paper Notes (**Notes**) consist of the Transportation Revenue Commercial Paper Notes of 1997, Series A, the Transportation Revenue Commercial Paper Notes of 2006, Series A, and the Transportation Revenue Commercial Paper Notes of 2013, Series A. The Notes are issued pursuant to the General Resolution on parity with each other and any other obligations to be issued on parity with the Notes, and the pledge granted to the Notes is subordinate to the pledge granted to the Bonds. See **“VARIABLE RATE OBLIGATIONS”**.

The Commission typically adopts Series Resolutions that authorize the issuance of transportation revenue obligations for refunding purposes. This authorization is generally effective for a period of one year from date of adoption. In addition, the Commission has adopted Series Resolutions that authorize the issuance of Bonds to pay for the funding of the Notes; these Series Resolutions are required pursuant to the terms of a credit agreement by which the liquidity facility providers provide a line of credit for liquidity on the Notes, and this authorization is effective for the term of the Notes. The Bonds to refund outstanding Bonds, any Bonds to fund new money purposes, and Bonds to take-out the Notes, when and if issued, are expected to be issued on a parity with the Bonds issued by the State pursuant to the General Resolution. In addition, any Notes issued to fund new money purposes are expected to be issued on a parity with the Notes.

Table V-2 provides a historical view of the amount of outstanding Bonds and Notes as of December 15th for the previous ten years.

SECURITY**Sources of Payment**

The Prior Bonds have been issued on parity with each other. The Prior Bonds and any additional parity Bonds issued by the State pursuant to the General Resolution, are revenue obligations of the State payable solely from the Redemption Fund created by the General Resolution and are secured by a first lien pledge of Program Income, the Funds created by the General Resolution, and any other income of the Program pledged to the payment of interest, principal, and Redemption Price on the Bonds.

Program Income includes vehicle registration fees authorized under Section 341.25, Wisconsin Statutes (**Registration Fees**) and certain other vehicle registration-related fees added pursuant to 2003 Wisconsin Act 33 and a supplement to the General Resolution dated October 15, 2003 (**Other Registration-Related Fees**). The Other Registration-Related Fees include many types of fees that are enumerated in Wisconsin Statutes, however, many of the Other Registration-Related Fees result in insignificant or sporadic annual revenues. Given this insignificant and sporadic nature, the State is currently providing continuing disclosure on some, but not all, Other Registration-Related Fees. These specific Other Registration-Related Fees include vehicle title transaction fees, registration and title counter service fees, and personalized license plate issuance and renewal fees. See **“OTHER REGISTRATION-RELATED FEES.”**

All Program Income is collected by the Trustee, or the Department of Transportation as agent of the Trustee, and deposited outside the State Treasury in an account with the Trustee defined as the **Redemption Fund**. Program Income is defined to include all the interest earned or gain realized from the investment of the Redemption Fund.

The Notes, and any other obligations to be issued on parity with the Notes, are also revenue obligations of the State payable from Program Income deposited into the Subordinated Debt Service Fund created by the General Resolution. The pledge of such Program Income to payment of the Notes is subordinate to the pledge of Program Income granted to payment of the Bonds. The pledge remains effective until all Bonds and Notes issued under the General Resolution are fully paid in accordance with their terms.

The Bonds are revenue obligations of the State payable solely out of the Redemption Fund. The Notes are revenue obligations of the State payable solely out of the Subordinated Debt Service Fund. The State is not generally liable on the Bonds and Notes, and the Bonds and the Notes are not a debt of the State for any purpose whatsoever.

Program Income Covenant

In the General Resolution, the State has covenanted that it will charge and cause to be deposited with the Trustee sufficient Program Income:

- To pay all interest on and principal of the Bonds as the same become due
- To maintain the Debt Service Reserve Requirement, if any, in the Reserve Fund
- To pay Program Expenses
- To pay principal of and interest on the Notes, as such amounts are deposited into the Subordinated Debt Service Fund
- To maintain the applicable requirements of such other funds and accounts specified under the General Resolution

Program Income received by the Trustee in the Redemption Fund is used in the above order. All Program Income in excess of the amounts needed for such purposes is to be transferred to the Transportation Fund held by the Department of Transportation and becomes free of the lien of the pledge of the General Resolution. DOT uses moneys in the Transportation Fund for many authorized purposes. See “**SUMMARY OF CERTAIN PROVISIONS OF THE GENERAL RESOLUTION**”.

The State pledges and agrees with the Bondholders and holders of Notes that the State will not limit or alter its powers to fulfill the terms of any agreements (made in the General Resolution, in the Bonds, or in the Notes) with the Bondholders and holders of Notes, or in any way impair the rights and remedies of the Bondholders and holders of Notes until the Bonds and Notes, together with interest, including interest on any unpaid installments of interest thereon, Redemption Price, and all costs and expenses in connection with any action or proceeding by or on behalf of the Bondholders and holders of Notes, are fully met and discharged.

Build America Bonds

The direct payment the State expects to receive from the United States Treasury on each interest payment date, in connection with the 2009 Series B Bonds and 2010 Series B Bonds, which were designated as “qualified build America bonds”, is not Program Income and is not pledged to the payment of interest, principal, or Redemption Price on the Bonds or Notes.

With respect to the direct payments the State expects to receive, since such payments are not Program Income and not pledged to the payment on the Bonds or Notes, there is no direct impact on the Bonds or Notes with these direct payments being subject to the mandated across-the-board cuts to the Federal budget for the current federal fiscal year. The impact of these cuts for the current federal fiscal year is a 6.9% reduction in the direct payment amount that the State expected to receive.

Transportation Fund Constitutional Amendment

A constitutional amendment referendum question was approved in the State’s general election on November 4, 2014. The constitutional amendment requires most revenues generated by use of the State’s transportation system be deposited with a trustee for the benefit of the Department or the holders of transportation-related revenue bonds (such as Bondholders and holders of the Notes) or into the Transportation Fund administered by the Department for the exclusive purpose of funding the State’s transportation systems. The constitutional amendment further prohibits any transfers or lapses from this Transportation Fund.

This constitutional amendment has no direct impact on Bondholders and holders of the Notes. Pursuant to the General Resolution, Program Income will continue to be first collected by the Trustee and deposited outside the State Treasury in the Redemption Fund and Subordinated Debt Service Fund. After all General Resolution requirements are met, excess Program Income is then transferred to the State’s Transportation Fund. See “**SECURITY; Program Income Covenant**” above. At that time, the revenues will then be subject to the requirements of this constitutional amendment.

Reserve Fund

The General Resolution creates a Reserve Fund for the Bonds; however, the balance of the Reserve Fund is \$0.00.

The State pursuant to each Series Resolution specifies the Debt Service Reserve Requirement, if any, for each Series of Bonds. The individual Debt Service Reserve Requirements for each Series of the Outstanding Bonds are combined to determine the aggregate Debt Service Reserve Requirement for the Reserve Fund. If all of the Bonds of a Series cease to be Outstanding, then the aggregate Debt Service Reserve Requirement is reduced by the Debt Service Reserve Requirement attributable to that Series of Bonds. Since 2003, the State has not specified a Debt Service Reserve Requirement for any Series of Bonds that have been issued. Furthermore, the State does not currently expect to specify a Debt Service Reserve Requirement for any future Series of additional Bonds; however, the State reserves the right to change its practice and no representation is made as to the amount of the Debt Service Reserve Requirement that the State may specify for any future Series of additional Bonds.

In the event that the Reserve Fund were to be funded in connection with a future Series of Bonds, the General Resolution provides that it shall be used to make up any deficiency in the Redemption Fund for the payment of principal of and interest on all of the-then Outstanding Bonds. If there is a deficiency in the Reserve Fund, the Trustee shall, after setting aside in the Principal and Interest Account the applicable amount required to be deposited therein, deposit Program Income into the Reserve Fund in an amount sufficient to remedy such deficiency.

Additional Bonds

The General Resolution authorizes the issuance of additional Bonds for the purpose of paying the costs of Projects, funding reserves, paying costs of issuance, and refunding Outstanding Bonds. Except in the case of additional Bonds being issued to refund Outstanding Bonds, the Series of additional Bonds may be issued only if Program Income for any 12 consecutive calendar months of the preceding 18 calendar months was at least equal to 2.25 times the maximum aggregate Principal and Interest Requirement in any Bond Year for all Outstanding Bonds, which includes the Bonds to be issued. The General Resolution defines Outstanding Bonds, as of any particular date, as all Bonds theretofore and thereupon being delivered except:

- Any Bond canceled by the Trustee, or proven to the satisfaction of the Trustee to have been canceled by the Registrar
- Any Bond deemed to have been defeased pursuant to the General Resolution
- Any Bond in lieu of or in substitution for which another Bond shall have been delivered pursuant to the requirements of the General Resolution or any Series Resolution

Statutory authority exists for the issuance of a total of \$3.931 billion of transportation revenue obligations to finance a portion of major highway projects. Approximately \$182 million of legislative authority remains unissued. The Building Commission has approved an authorizing resolution for not to exceed \$144 million of transportation revenue obligations to finance a portion of major highway projects. This authorization is good until October 12, 2017, and the State intends to issue these obligations in the first or second quarter of calendar year 2017 in the in the form of additional Bonds or additional Notes. The issuance of transportation revenue obligations beyond the legislative authorized amount would require additional legislative authorization, which has customarily happened with each biennial budget of the State.

In addition, upon the issuance of additional Bonds the amount on deposit in the Reserve Fund must at least equal the aggregate Debt Service Reserve Requirement. See **“SUMMARY OF CERTAIN PROVISIONS OF THE GENERAL RESOLUTION; Additional Bonds”** and **“Reserve Fund”**.

Forecasted Debt Service Coverage

Table V-3 provides a summary of annual debt service due on the Outstanding Bonds and shows the forecasted coverage of annual debt service on the Outstanding Bonds as of December 15, 2016, based on the Department of Transportation’s estimated total Program Income for fiscal years 2017 through 2027. The estimated Program Income includes both Registration Fees and certain Other Registration-Related Fees for this period. See **“REGISTRATION FEES; Estimated Future Registration Fees”** and **“OTHER**

REGISTRATION-RELATED FEES". There can be no assurance that the following estimates will be realized in the amounts shown.

In addition, **Table V-3** also provides the expected amortization of the Outstanding Notes and shows the forecasted coverage of annual debt service on both the Outstanding Bonds and the Outstanding Notes, with the latter reflecting the Subordinated Debt Service Fund Requirement for each respective series of Notes with interest calculated at an assumed interest rate of 5% per annum.

The Department of Transportation will monitor Registration Fee and Other Registration-Related Fee revenues as they relate to scheduled debt service payments on the Bonds and payments on the Notes and recommend appropriate adjustments in Registration Fees or Other Registration-Related Fees to the Governor and the Legislature. The State has covenanted in the General Resolution that as long as Bonds and Notes are Outstanding it will charge and cause to be deposited with the Trustee sufficient Program Income, including Registration Fees and Other Registration-Related Fees, to pay principal and interest on such Bonds, as the same become due, to maintain the Reserve Fund at the Debt Service Reserve Requirement, to pay Program Expenses, and to make payments into the Subordinated Debt Service Fund.

Neither the State's independent auditors nor any other independent accountants have compiled, examined, or performed any procedures with respect to the prospective financial information shown above, nor have they expressed any opinion or any other form of assurance on such information or its achievability and assume no responsibility for and disclaim any association with the prospective financial information.

REGISTRATION FEES

Current Fees and Registered Vehicles

Registration Fees as enumerated under Section 341.25 Wisconsin Statutes are highway user fees collected by the Department of Transportation from owners of most motor vehicles. **Table V-4** summarizes the types of major Registration Fees and the specific fee.

Interstate truck registration revenues are collected through the International Registration Plan (IRP) and is a component of Registration Fees. Wisconsin is one of 48 states, the District of Columbia, and ten Canadian provinces that participate in the IRP, which is a multi-state compact for the collecting and sharing of large truck registration fees. Under the IRP, the registration fees on trucks involved in multi-state commercial activity are split between the participating states on the basis of proportionate mileage.

The total amount of Registration Fee revenues for fiscal year 2016 are generated from three broad categories of vehicles:

- (1) 53.3% of total revenues generated from registration of passenger vehicles (automobiles, mini-van, conversion vans, and sport-utility vehicles).
- (2) 15.6% of total revenues generated from registration of small trucks (8,000 pounds or less gross weight).
- (3) 31.1% of total revenues generated from registration of large trucks (over 8,000 pounds gross weight plus IRP vehicles).

Table V-6 reflects the steady rate of growth that has occurred in non-IRP Registration Fee revenues over the past ten years. In fiscal years 2008 and 2009 the percentage change reflects an increase in Registration Fees that occurred during that specific fiscal year.

The 2007-09 biennial budget (2007 Wisconsin Act 20) increased the Registration Fees for most vehicle types effective January 1, 2008. Registration Fee increases authorized in the 2007-09 budget include:

- \$20 increase in the automobile fee.
- Increase in truck fees ranging from \$22.50 to \$590.
- Increase in various truck and trailer fees ranging from \$6.75 to \$590.50.

In addition, the 2003-05 biennial budget previously increased the automobile fees from \$45 to \$55, effective October 1, 2003.

Finally, the pattern of Registration Fees being lower in odd-numbered fiscal years reflects, in part, some vehicle types such as motorcycles and mopeds being registered only on a biennial basis. In a period of relatively flat vehicle registrations, the effect of this biennial registration becomes more apparent.

Estimated Future Registration Fees

Future Registration Fee revenues depend on the size of the vehicle fleet in subsequent years and the level of fees imposed on the various vehicle types. The methodology for Registration Fee revenue projections consists of two components:

- Projection of registration by vehicle type by an econometric model developed by DOT, which relates the size of the vehicle fleet to anticipated changes in certain key economic variables
- Application of the relevant registration fee to the projection of registered vehicle type

The Department of Transportation's model has two distinct components:

- Anticipated changes in the size of the State's automobile fleet
- Anticipated changes in the size of the State's truck fleet

The econometric model relates the size of the automobile fleet and truck fleet to the disposable income in the State, the relative price of new autos and light trucks, the level of unemployment, the size of the driving age population, historical rates of vehicle scrappage, construction employment in the State, and a measure of consumer sentiment. The long-range economic data used in the model are based on the projections published by IHS Global Insight, Inc., as well as the State of Wisconsin Department of Revenue.

Table V-7 summarizes projected Registration Fee revenues pursuant to Section 341.25, Wisconsin Statutes, until fiscal year 2027. These projections were completed by DOT in October 2016.

Registration Fee Collection Procedures

Registration Fees are collected throughout the fiscal year. In order to smooth out the Department of Transportation's vehicle registration workload, it has staggered vehicle registrations throughout the year. As a result, in fiscal year 2016 the flow of quarterly collections of annual Registration Fee revenues

ranged from a low of 22.3% to a high of 26.5%. Any future adjustment of Registration Fees may change the monthly distribution of Registration Fees collected.

The Department of Transportation is the agent of the Trustee with respect to the collection of Registration Fees, pursuant to an agreement between these parties. The non-IRP Registration Fees are collected in a number of ways:

- By mail to a lock-box system operated by U.S. Bank, National Association (**Bank**)
- Over the counter in field registration stations
- By mail to the Department of Transportation's Central office in Madison (**Central Office**)
- At vehicle emission testing stations
- By State auto, light truck, and motorcycle dealers
- Via internet charge card renewal system
- By financial institutions
- By private financial service centers
- By various retailers, such as grocery stores and convenience stores
- By law enforcement agencies
- By municipal and County Clerk offices, as well as some municipal courts

Regardless of the method of collection, all Registration Fees are initially deposited with the Trustee for deposit in the Redemption Fund.

The principal method of collecting non-IRP Registration Fees is registration renewals by mail, which are sent directly to the Bank operating the lock-box system as agent for the Trustee. Under this lock-box system the vehicle owner mails the renewals to the Bank. The renewal includes a check payable to "Registration Fee Trust" and an enclosure with relevant registration information on it. The Bank is to deposit its receipts of Registration Fees daily with the Trustee for deposit in the Redemption Fund.

Over-the-counter collections take place in 33 Division of Motor Vehicle Customer Service Centers (**DMV CSC**) throughout the State. These DMV CSCs collect Registration Fees on behalf of the Trustee, as well as driver license fees, title fees, lien fees, salesman's license fees, permit fees, disabled identification card fees, and various other Department of Transportation charges. The Department of Transportation's financial system is a transaction-based computer system with the field stations linked to the DOT's Central Office by terminal. All transactions are summarized daily and reported to the Central Office. The DMV CSCs deposit their collections in an account in the Trustee's name for deposit in the Redemption Fund.

Collections at the Department of Transportation's Central Office differ from DMV CSC collections in that it is primarily IRP payments and mail applications that are processed. IRP payments consist of checks submitted by individual truck operators, as well as checks generated by other states transmitting IRP payments to the State. Mail applications handled through the Central Office are primarily associated with the registration of vehicles that involve the transfer of ownership. All checks and cash collected through the Central Office are delivered to the Trustee for deposit in the Redemption Fund.

The Department of Transportation has a contract with a vehicle emission contractor to collect Registration Fees at any of the emission testing facilities. Currently, there are around 200 independently owned facilities throughout the seven county emission program area. A registrant may choose to renew their registrations at a testing station. Under this method, the emission testing station is treated like a field registration station with a direct connection to the Central Office's terminal. The vendor retains a service fee charged to registrants who use this option.

Licensed motor vehicle dealers are required by law to process vehicle title and registration transactions for their customers, unless exempted by the Department. The Department of Transportation has a series of contracts with car, light truck, and motorcycle dealers to process vehicle title and registration and transmit such information electronically to it through an interface managed by a third-party vendor. The contracts provide an electronic interface between the Department of Transportation and the dealer's data processing systems. The dealer collects registration and other fees that are electronically transferred daily from their bank accounts to the Department of Transportation by the third-party vendor. The vendor retains a service fee charged to registrants who use this option. In addition, dealers may choose to process title and registration applications electronically through an internet-based system managed by the Department.

Internet charge card renewal is a system available to motorists who prefer to charge their vehicle registration renewals. Under this system, motorists can renew their registrations through the internet. The Department of Transportation has contracted with a banking vendor to handle the interfaces and transmission of data to a credit card processing vendor. The vendor transfers all monies collected from these transactions daily, through a wire transfer to the Department of Transportation's account and then to the Trustee for deposit in the Redemption Fund. The vendor retains a service fee charged to registrants who use this option. Charge cards are also accepted at DMV CSCs. The Department of Transportation has contracted with the same banking vendor and credit card processing vendor to provide the necessary interfaces. The processing vendor charges a service fee and this fee is passed onto customers who use this option.

Financial institutions are required by law to process stand-alone lien add and release transactions electronically for customers, unless exempted by the Department of Transportation. Lenders may use contracted third party vendors or a free electronic interface provided by the Department of Transportation. In addition, the Department of Transportation runs a voluntary program for financial institutions, State agencies, and small businesses to contract in order to process titles and registrations and transmit the information through an electronic interface, provided by a separate vendor, to itself and the approved business. These contracted agents collect registration and other fees that are electronically transferred daily from the financial institution to the Trustee for deposit into the Redemption Fund. The vendor retains a service fee charged to registrants who use this option.

Registrants may renew vehicle registrations at private financial service centers. The Department of Transportation has contracted with a separate vendor to handle the electronic interface and transmission of data. The financial service centers collect Registration Fees that are electronically transferred daily from the center to the Trustee for deposit into the Redemption Fund. The vendor retains a service fee charged to registrants who use this option.

Registrants may also renew vehicle registration at participating retailers, law enforcement agencies, and municipal and County Clerk offices as well as some municipal courts. The Department of Transportation has contracted with a separate vendor to handle the electronic interface and transmission of data. The retailers, law enforcement agencies, and County Clerk offices collect Registration Fees that are electronically transferred daily from the participating agent to the Trustee for deposit into the Redemption Fund. The vendor retains a service fee charged to registrants who use this option.

OTHER REGISTRATION-RELATED FEES

General

Pursuant to provisions of 2003 Wisconsin Act 33 and the supplement to the General Resolution, adopted by the Commission on October 15, 2003, Other Registration-Related Fees are pledged as Program Income. The Other Registration-Related Fees include more than 60 types of fees that are enumerated in Wisconsin Statutes, however, many of the Other Registration-Related Fees result in insignificant or sporadic annual revenues. Given this insignificant and sporadic nature, the State is currently providing continuing disclosure on some, but not all, Other Registration-Related Fees. These specific Other

Registration-Related Fees include vehicle title transaction fees, registration and title counter service fees, and personalized license plate issuance and renewal fees.

Vehicle Title Transaction Fees

The Wisconsin Statutes require all motor vehicles and trailers exceeding 3,000 pounds to be titled. Titling occurs prior to vehicle registration and the resulting Certificate of Title is evidence of vehicle ownership. The Department of Transportation issues a title when ownership of the vehicle has been confirmed. This occurs when a vehicle is purchased from a dealer, or when vehicles are transferred between individuals in a non-dealer sale. Titling occurs only when vehicle ownership changes and is not an annual reoccurring fee.

The Certificate of Title document is issued on secured paper stock and contains the following information: name and address of owner, description of vehicle (make, year, color, vehicle type, and vehicle identification number), name of the secured party or lien holder, odometer reading information, and other required information.

The title fees are enumerated in Section 342.14, Wisconsin Statutes and is currently \$69.50. The title fee is comprised of two components; \$62 title fee and \$7.50 supplemental title fee. The \$69.50 title fee is paid by the owner when filing an application for first Certificate of Title, and by the buyer when filing an application for Certificate of Title after transfer of ownership of the vehicle. The titling fees are paid to the Department of Transportation at the same time the vehicle is registered. The replacement, or duplicate, title fee is currently \$20. Replacement titles are issued for lost, stolen, or mutilated titles.

From fiscal year 2012 to 2016, the Department of Transportation averaged the issuance of approximately 1.3 million titles each year, whereby a title fee was collected. In fiscal year 2016, the Department of Transportation issued 1.4 million titles.

Registration and Title Counter Service Fees

Customers have the option of processing their vehicle titling and registration transactions by mail or in person at a DMV CSC. If the transaction is processed at the DMV CSC, the customer is charged an additional fee for that service. The additional fee is intended to recover some of the cost of providing face-to-face service. Before the customer receives the various products, the counter fee, and titling and/or vehicle Registration Fees are collected.

The counter fee is enumerated in Section 341.255, Wisconsin Statutes. For transactions that renew a vehicle registration, the counter fee is \$3, however a \$5 counter fee is charged for transactions relating to the issuance of a Certificate of Title, issuance of temporary license plates, issuance of temporary or permanent parking permits for disabled persons, transactions involving both titling and registration for the same vehicle, or transactions relating to only vehicle registration (but not renewals).

The average volume of registration renewals for calendar years 2011 through 2015 was 395,966 transactions at the DMV CSCs. The calendar year 2015 volume at the DMV CSC for renewals was 409,311. The average volume of titling, temporary plates, and registrations for calendar years 2011 through 2015 was 1,407,684 transactions at the DMV CSCs. The calendar year 2015 volume at the DMV CSCs for titling, temporary plates and registrations was 1,563,065.

Personalized License Plate Fees

Personalized license plates are license plates whereby the registration number is composed of a maximum set of numbers or letters or both specifically requested by the customer. The personalized license plate is only available for certain vehicle types: automobiles, motorcycles, motor homes, motor trucks with a gross weight of no more than 8,000 pounds, and farm trucks with a gross weight of no more than 12,000 pounds.

During the initial vehicle registration process or any time a registrant desires to change a license plate message, an applicant must complete and return to the Department of Transportation a special application form specifying the desired personalized message and provide two alternate messages. Subject to

approval by the Department of Transportation, the customized license plate is then manufactured and sent to the customer.

The personalized license plate fee is enumerated in Section 341.145, Wisconsin Statutes. The \$15 annual fee must be submitted with the application and is also due annually at the time of vehicle registration renewals. This fee is in addition to the regular Registration Fees. For motorcycles and farm trucks that receive biennial license plates, the personalized license plate fee is also \$15 a year, due with the initial application. The fee to maintain a personalized plate issued on a biennial basis is \$30, payable during registration renewal and is in addition to the regular biennial Registration Fee.

The average number of requests for new personalized license plates processed for calendar years 2011 through 2015 was 21,299. The average number of annual personalized license plate registrations during calendar years 2011 through 2015 was 230,625. At the end of calendar year 2015, the State had 233,637 registered personalized license plates.

Actual and Estimated Other Registration-Related Fees

Table V-8 provides further information on the amount of Other Registration-Related Fees described above in **“OTHER REGISTRATION-RELATED FEES; General”**. These amounts include actual collections for the past ten years and projections for the upcoming ten years; the projected Other Registration-Related Fees are for fiscal years 2017 through 2027.

The Other Registration-Related Fees include many types of fees that are enumerated in the Wisconsin Statutes; while all are Program Income, the certain Other Registration-Related Fees outlined by the box in **Table V-8** are those fees for which the State is currently providing continuing disclosure. See **Table V-3** for the total of Registration Fees and the Other Registration-Related Fees being used for ratings and continuing disclosure.

Neither the State’s independent auditors nor any other independent accountants have compiled, examined, or performed any procedures with respect to the prospective financial information shown above, nor have they expressed any opinion or any other form of assurance on such information or its achievability and assume no responsibility for and disclaim any association with the prospective financial information.

RISK FACTORS

Revenue Obligations

The Bonds are limited obligations of the State, payable from and secured by a first lien pledge of Program Income, the Funds created by the General Resolution, and any other income of the Program. The Notes are limited obligations of the State, payable from Program Income deposited into the Subordinated Debt Service Fund. The pledge of Program Income to the Subordinated Debt Service Fund for the Notes is junior and subordinate to the pledge of Program Income to the payment of the Bonds. See **“SECURITY”** above.

No representation or assurance can be made that Program Income will be realized in amounts sufficient to pay principal of, and interest on, the Bonds and Notes when due. The Program Income and the other amounts held by the Trustee under the General Resolution, and for the Notes, under the Transportation Revenue Commercial Paper Note Program Resolution (**CP Program Resolution**), constitute the only property pledged to secure the payment of the Bonds and Notes. No physical collateral secures the payment of the Bonds or Notes. Moreover, in the event the amount of the Program Income is inadequate for payment of the Bonds and Notes, the Trustee cannot compel the State to impose taxes to address such inadequacy.

The amount of Program Income collected is expected to be sufficient to pay debt service on the Bonds and Notes. However, no assurance can be given that such expected results will in fact be achieved, nor

can there be any assurance that the sufficiency of historic Program Income collections indicates that future Program Income will similarly be sufficient.

Neither the full faith and credit nor the taxing power of the State or any political subdivision of the State will be pledged to the payment of the principal of, premium, if any, or interest on the Bonds or Notes.

Parity Debt

The Bonds are issued pursuant to the General Resolution on parity with each other and any other obligations to be issued on parity with the Bonds.

The Notes are issued pursuant to the General Resolution, as supplemented by the CP Program Resolution, on a parity with each other and any other obligations to be issued on a parity with the Notes. The pledge of Program Income granted to the Notes is junior and subordinate to the pledge granted to the Bonds.

The State may issue additional Bonds on a parity with existing Bonds, and additional Notes on a parity with existing Notes, under the General Resolution, and with respect to the Notes, the CP Program Resolution, if certain conditions are met. See “**SECURITY; Additional Bonds**” above. Any such additional Bonds or Notes will be entitled to share ratably with the holders of the Bonds or Notes, respectively, in any moneys realized from the exercise of remedies under the General Resolution and, with respect to the Notes, the CP Program Resolution, in the event of a default.

Impact of General Economic Factors

The amount of Program Income available to be collected depends on economic activity related to the registration of motor vehicles and related fee-generating activities. A reduction in the number of motor vehicle registrations, title transactions and related fee-generating activities could lead to a reduction in the amount of Program Income collected. Various economic, climatic, political, or civil disruptions could affect the State’s economy and economic conditions, resulting in reduced Program Income. These include, without limitation, adverse changes in income levels, adverse changes in the availability of financing options for automobile and truck purchases, and fluctuations in the price of oil and gasoline.

Industry Demand Factors

The number of motor vehicle registrations, title transactions and related fee-generating activities depend in large part on demand for and use of automobiles, trucks and other motor vehicles in the State. In addition to adverse general economic factors, longer term trends in automobile, truck and other motor vehicle demand could be adversely affected by various factors, including increased reliance on alternative methods to trucking for business and industrial transport, increased reliance on public transportation, stagnation in or lack of acceptance of new motor vehicle product offerings, demographic changes in the driving age population, and increased alternative transportation options including rideshare services.

Registration Fee Collection Procedures

All Program Income is collected by the Trustee, or the Department of Transportation as agent of the Trustee, and deposited outside the State Treasury in an account with the Trustee defined as the Redemption Fund. Disruptions with respect to the collection of Program Income could adversely affect the Bonds and Notes.

Potential Future Reduction of Registration Fees and Other Registration-Related Fees

Registration Fees and Other Registration-Related Fees may be reduced by Legislative decisions, which may be influenced by many factors. While under the General Resolution the State has pledged and agreed that the State will not limit or alter the ability of the State to fulfill the terms of its agreements with respect to the Bonds and Notes, or impair the rights and remedies of holders of the Bonds and Notes, and has covenanted that it will charge sufficient Program Income to pay principal and interest on the Bonds and Notes, no guarantee can be made that the Legislature will not reduce the Registration Fees or Other Registration-Related Fees pledged to the Bonds and Notes. While a failure to make payments of the

principal of, and premium, if any, and interest on, any of the Bonds or Notes could hinder the State's subsequent access to the capital markets, it should not be assumed that the Legislature would regard that possible consequence to be a compelling reason to raise fees needed for those payments.

Future occurrences could adversely affect legislative support for the current level of the Registration Fee and Other Registration-Related Fees. Political factors may also come to bear on such fees.

Future Changes in Law

Future changes in applicable law by the Legislature could be adverse to holders of the Bonds and Notes. Legislative changes relating to the amount and timing of vehicle registration and related fees and collection procedures could lead to a reduction in or delay in receipt of Program Income. State law also allows for consideration of constitutional amendment referendum questions, which occurred for the Transportation Fund as recently as November 2014.

Liquidity Facility Risk for Notes

In order to provide liquidity for the payment of the principal of and interest on maturing Notes, the CP Program Resolution requires a liquidity facility. The State has obtained a Credit Agreement from the Liquidity Facility Provider in satisfaction of this requirement.

The ability of the Liquidity Facility Provider to honor draws on the Credit Agreement is based solely on the Liquidity Facility Provider's general credit. Declines and disruptions in the financial markets may adversely affect the municipal bond market and banking business, and may adversely affect the financial condition of financial institutions including the Liquidity Facility Provider, weakening its credit status as reflected in its credit ratings.

The Credit Agreement will not, and is not intended to, protect holders of the Notes from events affecting the Liquidity Facility Provider or its creditworthiness, including, without limitation, the insolvency of the Liquidity Facility Provider. No claim may be asserted for federal deposit insurance against the Federal Deposit Insurance Corporation in respect to the Notes or the Credit Agreement, and owners of the Notes should not assume any such insurance coverage is available with respect to the Notes or the Credit Agreement. If an event of termination or event of suspension occurs under the Credit Agreement, the obligation of the Liquidity Facility Provider will immediately and automatically terminate or suspend, without notice or demand and without payment of any Notes.

The Credit Agreement is subject to renewal or replacement from time-to-time. There can be no guarantee that the Credit Agreement will be renewed or replaced in the future, and failure to renew or replace the Credit Agreement may adversely affect the Notes. Any substitute liquidity facility may have covenants, events of default, conditions to borrowing, and other provisions different from the current Credit Agreement, and the Notes are not required to be tendered in connection with delivery of such substitute liquidity facility, as long as it meets the requirements of the Program Resolution. See "**VARIABLE RATE OBLIGATIONS; Liquidity Facility**" below.

Issuance of Additional Bonds to Fund Notes

The Commission has adopted Series Resolutions authorizing the issuance of Bonds to pay for the funding of the Notes. The State's ability to issue such Bonds, if necessary, will depend on the State's future market access for such Bonds and general market conditions, and no assurance can be given that such Bonds can be successfully marketed in the future.

Tax Matters

There are or may be pending in the Congress of the United States legislative proposals relating to the federal tax treatment of interest on obligations of the nature of the Bonds and Notes. The State cannot predict whether and in what form any such proposal might be enacted or how such proposals, if enacted, would apply to the Bonds or Notes. A change in the federal tax status of Bonds or Notes issued on a tax-exempt basis may cause the value of such Bonds or Notes to fall. In addition, interest on such Bonds or

Notes could become includible in gross income for federal income tax purposes as a result of future acts or omissions of the State.

A defeasance of any Bonds issued on a taxable basis may cause recognition of a gain or loss, for federal tax purposes, at the time of defeasance. Owners of such Bonds should consult their tax advisors regarding the tax consequences of any defeasance of such Bonds.

PROJECTS

Security on the Bonds or Notes is not dependent upon projects built with Bond or Note proceeds.

Bond and Note proceeds are used to finance a portion of major highway projects enumerated in the Wisconsin Statutes for construction. A major highway project is defined as a project which has a total cost of more than \$30 million and which involves one or more of the following:

- Constructing a new highway 2.5 miles or more in length
- Reconstructing or reconditioning 2.5 miles or more of an existing highway
- Adding one or more lanes, 5 miles or more to an existing highway
- Improving 10 miles or more of existing multi-lane divided highway to freeway standards
- Total cost of \$75 million, has been approved for construction by the Transportation Projects Commission, but does not address any of the above specific mileage threshold requirements.

All state highway improvement projects, including authorized major highway projects, are scheduled in the Department of Transportation's six-year highway improvement program. The six-year program, updated on a biennial basis, serves as a basic tool for the Department of Transportation's long-term improvement plans and construction programs.

Construction of major highway projects uses moneys from the following sources:

- Bond or Note proceeds
- Federal aid
- Moneys in the Transportation Fund which may be appropriated for such purposes

The Transportation Projects Commission approves major construction projects for enumeration. Major highway projects must be enumerated prior to construction. The Department of Transportation is actively working on 15 major highway projects with an estimated cost to complete of at least \$2.158 billion in 2016 dollars. See "**SECURITY; Additional Bonds**".

VARIABLE RATE OBLIGATIONS

The State has issued, and there currently remains outstanding, transportation revenue commercial paper notes, or Notes.

General

The State has appointed Goldman, Sachs & Co., J.P. Morgan Securities LLC, and Morgan Stanley & Co. LLC to serve as **Dealers** and U.S. Bank National Association, as successor to Deutsche Bank Trust Company Americas, to serve as **Issuing and Paying Agent** for the Notes. The Depository Trust Company (**DTC**) serves as **Depository** for the Notes.

The State has obtained a **Liquidity Facility** in the form of a line of credit, which is provided for in the Second Amended and Restated Credit Agreement, dated as of April 20, 2016 (**Credit Agreement**) between the State and State Street Bank and Trust Company (**Liquidity Facility Provider**) which provides a current commitment of \$120 million. Table V-9 summarizes, for each authorized and outstanding series of Notes, the principal amount initially issued, the date of initial issuance, and the principal amount outstanding as of December 15, 2016.

Table V-9

SUMMARY OF OUTSTANDING TRANSPORTATION REVENUE NOTES (December 15, 2016)

<u>Series Designation</u>	<u>Initial Principal Amount</u>	<u>Outstanding Principal Amount</u>	<u>Date of Initial Issuance</u>
1997 Series A	\$157,763,000	\$ 20,458,000	May 7, 1997
2006 Series A	91,290,000	11,260,000	October 2, 2006
2013 Series A	70,025,000	<u>57,005,000</u>	November 5, 2013
	Total	\$ 88,723,000	

Additional Notes may be issued pursuant to action of the Commission subject to meeting certain conditions as described in the **CP Program Resolution**, such as an additional bonds test. In addition, the aggregate principal amount of Notes outstanding, plus the interest to accrue on such Notes to maturity, plus the aggregate principal amount of all outstanding Advances made by the Liquidity Facility Provider, may not exceed the commitment amount of the Liquidity Facility.

Description of the Notes

Each Note will be dated the date it is issued. It will be issued as an interest-bearing obligation in a denomination of \$100,000 or increments of \$1,000 above \$100,000.

The Notes are not callable prior to maturity.

Each Note will mature from 1 to 270 days from its issue date but no Note may be issued with a maturity date later than two (2) business days prior to the expiration date of the Liquidity Facility.

Each Note will bear interest from its date of issuance, at the rate determined at the date of issuance, payable at maturity. Interest is computed on the basis of a year having 365 or 366 days and the actual number of days elapsed. The interest rate on the Notes cannot exceed 12% per annum. Payment of each Note will be made to the Depository and then distributed by the Depository.

Liquidity Facility

In order to provide liquidity for the payment of the principal of and interest on maturing Notes, the State has entered into the Credit Agreement with the Liquidity Facility Provider.

Pursuant to the Credit Agreement, the Liquidity Facility Provider is obligated, subject to certain conditions, to make advances from a line of credit (**Advances**) from time to time on any business day

during the term of the Credit Agreement, which Advances may only be used to provide funds to pay the principal of and interest on the Notes on the maturity date thereof to the extent that proceeds of roll-over Notes, or other moneys on deposit in the **Note Fund** held by the Issuing and Paying Agent for the Notes, are not available. The aggregate principal amount of all Advances made on any date may not exceed the outstanding commitment amount under the Credit Agreement (currently \$120 million), as such amount may be increased or decreased from time to time. The CP Program Resolution requires that the commitment amount cannot be less than the sum of the outstanding Notes, plus the interest to accrue on such Notes to maturity, plus the aggregate principal amount of all outstanding Advances provided by the Liquidity Facility Provider.

If the amounts on deposit in the Note Fund are insufficient for payment of principal or interest on the Notes when due, then the Issuing and Paying Agent shall make a draw on the line of credit under the Credit Agreement to provide money for such payment. The obligation of the Liquidity Facility Provider to make advances when a draw is made is subject to certain conditions and may be terminated or be suspended immediately without notice or demand and without payment of Notes outstanding upon the occurrence of certain events.

The Credit Agreement currently terminates on April 20, 2019. The Credit Agreement provides that the termination date may be extended, if the parties agree. Alternatively, the State is permitted to replace the Credit Agreement with another comparable agreement or agreements with any other liquidity facility provider provided that such substitution meets all required qualifications set forth in the CP Program Resolution, including, but not limited to, written evidence from each rating agency (two at a minimum) which, at the request of the State, is then rating the Notes and which is then also rating the provider (or its guarantor) of the proposed substitute liquidity facility to the effect that the substitution of the Liquidity Facility will not by itself result in a withdrawal, suspension, or reduction of its ratings of the Notes from those which then prevail.

The State has delivered a promissory note (**Promissory Notes**) to the Liquidity Facility Provider evidencing its obligation to repay all Advances. The Promissory Note ranks equally with the Notes and is payable solely from Program Income deposited into the Subordinated Debt Service Fund, as provided for in the resolutions authorizing the Notes. Likewise, new Promissory Notes would be issued to the provider of any substituted Liquidity Facility. Any such substituted Liquidity Facility Agreement may have covenants, events of default, conditions to borrowing and other provisions different from those referred to above for the existing Liquidity Facility.

The State will notify the Dealers of any change in the Liquidity Facility or provider thereof. The State will also notify the Municipal Securities Rulemaking Board (**MSRB**) through its Electronic Municipal Market Access (**EMMA**) system of any change in the Liquidity Facility or provider thereof.

Investors should obtain and review a copy of the Credit Agreement in order to understand all of the terms and provisions of the document. A copy of the Credit Agreement can be obtained from the State at the address included on the first page of this Part V of the 2016 Annual Report.

Description of the Liquidity Facility Provider

The following information concerning State Street has been provided by representatives of State Street and has not been independently confirmed or verified by the State. No representation is made herein as to the accuracy or adequacy of such information or as to the absence of material adverse changes in such information subsequent to the date hereof, or that the information given below or incorporated herein by reference is correct as of any time subsequent to its date.

State Street Bank and Trust Company (**Bank**) is a wholly-owned subsidiary of State Street Corporation (**Corporation**). The Corporation (NYSE: STT) provides financial services to institutional investors, including investment servicing, investment management and investment research and trading. With \$27.51 trillion in assets under custody and administration and \$2.25 trillion in assets under management as of December 31, 2015, the Corporation operates in more than 100 geographic markets worldwide. The consolidated total assets of the Bank as of December 31, 2015 accounted for approximately 98% of the

consolidated total assets of the Corporation as of the same date. As of December 31, 2015, the Corporation had consolidated total assets of \$245.19 billion, total deposits (including deposits in non-U.S. offices) of \$191.63 billion, total investment securities of \$100.02 billion, total loans and leases, net of unearned income and allowance for loan losses, of \$18.75 billion and total shareholders' equity of \$21.10 billion.

The Bank's Consolidated Reports of Condition and Income for A Bank With Domestic and Foreign Offices Only -- FFIEC 031 (**Call Reports**) through December 31, 2015 have been submitted through the Federal Financial Institutions Examination Council and provided to the Board of Governors of the Federal Reserve System, the primary U.S. federal banking agency responsible for regulating the Corporation and the Bank. Publicly available portions of those Call Reports, and future Call Reports so submitted by the Bank, are available on the Federal Deposit Insurance Corporation's website at www.fdic.gov. The Call Reports are prepared in conformity with regulatory instructions that do not in all cases follow U.S. generally accepted accounting principles.

Additional financial and other information related to the Corporation and the Bank, including the Corporation's Annual Report on Form 10-K for the year ended December 31, 2015 and additional annual, quarterly and current reports subsequently filed or furnished by the Corporation with the U.S. Securities and Exchange Commission (**SEC**), can be accessed free of charge on the SEC's website at www.sec.gov. The above website is not incorporated by reference into this Part V of the 2016 Annual Report.

Any statement contained in any document referred to above shall be deemed to be modified or superseded for purposes of this Part V of the 2016 Annual Report to the extent that a statement contained herein or in any subsequently submitted, filed, or furnished document that also is referred to above modifies or supersedes such statement. The delivery hereof shall not create any implication that there has been no change in the affairs of State Street since the date hereof, or that information contained or referred to is correct as of any time subsequent to that date.

A copy of any or all of the publicly available documents referred to above, other than exhibits to such documents, may be obtained without charge on written request to Investor Relations, State Street Corporation, One Lincoln Street, Boston, Massachusetts 02111, telephone number 617-786-3000.

SUMMARY OF CERTAIN PROVISIONS OF THE GENERAL RESOLUTION

The General Resolution contains various covenants and security provisions, certain of which are summarized below. In general, this Section does not summarize any provisions of the Series Resolutions. Reference should be made to the General Resolution for a full and complete statement of its provisions. A copy of the General Resolution or any Series Resolution may be obtained by contacting the State at the address provided in the [introduction to this Part V of the 2016 Annual Report](#).

Resolution to Constitute Contract

The provisions of the General Resolution shall be a part of the contract of the State with the holders of Bonds and shall be deemed to be and shall constitute a contract among the State, the Trustee and the holders from time to time of the Bonds and shall be for the equal benefit, protection and security of the holders of any and all of such Bonds.

Provisions for Issuance of Bonds

The General Resolution authorizes Bonds of a Series to be issued from time to time in accordance with the terms of the General Resolution without limitation as to amount except as provided by law. Bonds

shall be issued pursuant to authorization by a Series Resolution containing the provisions specified by the General Resolution. Following issuance of the initial Series of Bonds, the Commission must determine that the additional obligations test set forth in the General Resolution is met prior to issuing Bonds for other than refunding purposes. The Bonds of a Series may be authenticated and delivered only upon receipt by the Trustee of, among other things:

- A Bond Counsel's opinion to the effect, among other things, that the Bonds of such Series have been duly and validly authorized and issued in accordance with the Wisconsin Constitution and the Wisconsin Statutes and in accordance with the General Resolution; and,
- The proceeds of the Bonds of such Series to be deposited with the Trustee pursuant to the General Resolution.

Additional Bonds

Following the initial issuance of Bonds, the State will not create or permit the creation of, or issue any obligations or create any indebtedness which shall be secured by a superior or equal charge and lien on the Program Income, except that additional Series of Bonds may be issued from time to time subsequent to the issuance of the initial Series of Bonds on a parity with the Bonds of such initial Series of Bonds and secured by an equal charge and lien on the Program Income. However, no additional Series of Bonds shall be issued subsequent to the initial Series of Bonds unless:

- The principal amount of the additional Bonds together with the principal amount of the Outstanding Bonds will not exceed in aggregate principal amount any limitation thereon imposed by law;
- Except in the case of refunding Bonds, there shall be filed with the Trustee a Certificate of an Authorized Officer of the Commission and the Department of Transportation stating that Program Income, including interest earnings on amounts deposited in the Funds or Accounts held by the Trustee and available for debt service, for any twelve (12) consecutive calendar months of the preceding eighteen (18) calendar months, was equal to at least 2.25 times the maximum aggregate Principal Requirement and Interest Requirement for any Fiscal Year for all Outstanding Bonds (the General Resolution defines Outstanding Bonds to include the Bonds being issued upon the delivery of such Certificate);
- Upon the issuance and delivery of the additional Bonds, the amount credited to the Reserve Fund shall be at least equal to the Debt Service Reserve Requirement immediately after issuance; and
- All requirements with respect to adoption of Series Resolutions and conditions precedent to delivery of Bonds set forth in the General Resolution have been complied with.

Refunding Bonds

The State may issue refunding Bonds of one or more Series to refund any Outstanding Bonds of one or more Series whether by payment at maturity or by redemption. Refunding Bonds shall be issued pursuant to and in accordance with the provisions of a Series Resolution authorizing such refunding Bonds.

Application of Bond Proceeds

The proceeds of sale of a Series of Bonds shall be deposited as follows:

- To the Principal and Interest Account of the Redemption Fund, the amount of any accrued interest on the Series of Bonds to their date of delivery;
- To the Principal and Interest Account of the Redemption Fund, the amount of any premium determined by the applicable Series Resolution, or specified in a certificate of an authorized officer of the Commission;
- To the Principal and Interest Account of the Redemption Fund, the proceeds of any Series of refunding Bonds to the extent provided in the applicable Series Resolution;
- To the Reserve Fund, the amount specified in the Series Resolution as necessary to establish or increase the amount set aside therein to the Debt Service Reserve Requirement;

- To any other Fund or Account to the extent permitted by the Revenue Obligations Act and provided for by a Series Resolution; and
- To the Program Capital Fund, the balance of the proceeds of any Series of Bonds, which shall be allocated:
 - (a) to the Capitalized Interest Account, the amount of capitalized interest, if any, determined by the applicable Series Resolution to be deposited; and
 - (b) to the Program Account, the balance of the proceeds of any Series of Bonds.

Establishment of Funds

All Program Income and other moneys or securities held by the Trustee pursuant to the General Resolution are revenues of the Trustee and are revenues outside of the State Treasury which shall be held in trust and applied only in accordance with the provisions of the General Resolution. The General Resolution establishes and creates the following trust funds that are to be held by the Trustee:

- Program Capital Fund, which consists of a Capitalized Interest Account and a Program Account;
- Redemption Fund, which consists of a Principal and Interest Account and a Program Income Account;
- Reserve Fund; and
- Program Expense Fund.

The General Resolution authorizes the creation of other Funds and Accounts for a particular Series of Bonds by the applicable Series Resolution.

Capitalized Interest Account

Amounts in the Capitalized Interest Account, if any, shall be transferred to the Principal and Interest Account of the Redemption Fund to be used for payment of capitalized interest on the Bonds in accordance with the schedule set forth in a Series Resolution or in a Certificate of an Authorized Officer of the Building Commission delivered to the Trustee. Amounts in the Capitalized Interest Account shall also be transferred to the Principal and Interest Account of the Redemption Fund for redemption of Bonds (1) upon receipt by the Trustee of a Certificate of an Authorized Officer of the Building Commission stating that such redemption is necessary for compliance with the covenants contained in the General Resolution concerning tax exemption of the interest on certain of the Bonds, and (2) in accordance with the provisions of the terms of a Series Resolution with respect to the Series of Bonds authorized by such Series Resolution.

Program Account

Amounts in the Program Account shall be used solely for the following purposes:

- Paying the Costs of Issuance;
- Financing Projects in accordance with the Act and the General Resolution; and
- Transfers to the Principal and Interest Account of the Redemption Fund to pay interest on the principal of or Redemption Price of Outstanding Bonds (a) upon receipt by the Trustee of a Certificate of an Authorized Officer of the Building Commission stating that such redemption is necessary for compliance with the covenants contained in the General Resolution concerning tax exemption of the interest on certain of the Bonds, (b) in accordance with the provisions of the terms of a Series Resolution, and (c) upon receipt by the Trustee of a Certificate of an Authorized Officer of the Building Commission stating that there are no further Projects to be funded from the Program Account.

Redemption Fund

There shall be deposited into the Principal and Interest Account of the Redemption Fund from the proceeds of the sale of the Bonds, immediately upon receipt thereof, an amount equal to the accrued interest and any premium (if so specified in a certificate of an authorized officer of the Commission) paid

upon the sale of the Bonds and the proceeds of any Series of refunding Bonds. All Program Income shall be deposited promptly with the Trustee (or with national banking associations, state banks or trust companies acting as agents of the Trustee for transfer daily to the Trustee) and such amounts shall be deposited in the Program Income Account of the Redemption Fund. There shall also be deposited in the Program Income Account of the Redemption Fund any other amounts required or permitted to be deposited therein pursuant to the General Resolution.

The amounts deposited in the Principal and Interest Account of the Redemption Fund from the proceeds of a Series of Bonds representing accrued interest and any specified premium shall be set aside and applied to the payment of interest on the next succeeding Interest Payment Date and any additional Interest Payment Dates specified in the Series Resolution or a Certificate of an Authorized Officer of the Building Commission.

The amounts deposited in the Principal and Interest Account of the Redemption Fund from the proceeds of a Series of refunding Bonds shall be applied to the payment or redemption of Bonds as provided in the Series Resolution.

Commencing on the date of issuance of the Bonds and continuing each succeeding business day until the amounts required in (1) through (5) of this paragraph are deposited and thereafter on each Redemption Fund Deposit Day (the 1st day of January, April, July, and October), and continuing each succeeding business day until the amounts required in (1) through (5) of this paragraph are deposited, the Trustee shall immediately transfer aside from the amounts deposited in the Program Income Account, in the following order of priority:

- (1) To the Principal and Interest Account, after giving effect to:
 - (a) amounts to be available from accrued interest and premium, if specified, and in the Capitalized Interest Account, and
 - (b) any balance in the Principal and Interest Account on each Redemption Fund Deposit Day, and
 - (c) amounts transferred from the Reserve Fund, and
 - (d) amounts transferred from the Program Expense Fund, an amount equal to the Interest Requirement with respect to Outstanding Bonds;
- (2) To the Principal and Interest Account, after giving effect to any balance in the Principal and Interest Account in excess of the Interest Requirement an amount equal to the Principal Requirement on the Outstanding Bonds;
- (3) To the Reserve Fund, an amount equal to any deficiency in the Reserve Fund;
- (4) To the Program Expense Fund created in the General Resolution, an amount equal to any unfunded portion of the Program Expenses payable over the next three months according to the General Resolution; and
- (5) To the Subordinated Debt Service Fund created for the Notes, an amount equal to the Subordinated Debt Service Fund Requirement.

Immediately upon meeting the requirements set forth above, amounts in the Program Income Account of the Redemption Fund, including any interest earned thereon, in excess of the amounts required to be set aside above, shall be paid by the Trustee to the State Treasury for deposit into the Transportation Fund free and clear of the lien of the General Resolution in accordance with the Revenue Obligations Act and the Act.

To the extent not otherwise provided for in the Series Resolution applicable to any Series of Bonds, on the first day of each Fiscal Year and prior to any of the transfers by the Trustee that day specified above, all amounts in the Principal and Interest Account shall be paid by the Trustee to the State Treasury for deposit into the Transportation Fund free and clear of the lien of the General Resolution in accordance with the Revenue Obligations Act and the Act.

Payment of Bonds

The Trustee is required to pay to the Registrar and Paying Agent for the Bonds on or before each Interest Payment Date, (1) the amount equal to interest due on the Outstanding Bonds on such date, (2) the amount equal to the principal amount of Outstanding Bonds maturing on such date and (3) the amount equal to the Redemption Price of any Outstanding Bonds to be redeemed on such date, and in each such case, such amounts shall be applied by such Registrar and Paying Agent to such payments.

There shall be deposited in the Principal and Interest Account of the Redemption Fund any amounts which are required to be deposited therein pursuant to the General Resolution, a Series Resolution and any other amounts available therefor and determined by the State to be deposited therein for the purpose of redeeming Bonds. Subject to the provisions of the respective Series of Bonds and to the provisions of the respective resolutions authorizing the issuance thereof and authorizing the issuance of refunding Bonds, all amounts deposited in the Principal and Interest Account of the Redemption Fund in accordance with the provisions described in this paragraph shall be set aside and applied to the payment, purchase or redemption of Bonds.

Purchase of Bonds

Except as may be otherwise provided in connection with the issuance of refunding Bonds, at any time prior to the 45th day upon which Bonds are to be paid or redeemed from the amounts described in the preceding paragraph, the Trustee may upon receipt of written instructions signed by an Authorized Officer of the Building Commission apply such amounts to the purchase of any of the Bonds which may be paid or redeemed by application of amounts on deposit in the Principal and Interest Account of the Redemption Fund. The Trustee shall purchase Bonds at such times, for such prices, in such amounts and in such manner as the Building Commission shall direct. The purchase price paid by the Trustee (excluding accrued interest but including any brokerage and other charges) for any Bond purchased shall not exceed the principal amount of such Bond or the Redemption Price of such Bond on the next Redemption Date for such Bonds.

Program Expense Fund

On the 1st day of January, April, July, and October, the Trustee shall immediately transfer amounts on deposit in the Program Income Account to the Program Expense Fund for the purpose of paying Program Expenses for the succeeding three months as set forth in the annual budget prepared by the Department of Transportation, but only upon a Certificate of an Authorized Officer of the Department of Transportation, stating that the amounts are required and have been or will be expended for purposes for and to which the Program Expense Fund may be used and applied.

Reserve Fund

If on any Interest Payment Date, Principal Installment Date, or Redemption Date for the Bonds, the amount in the Principal and Interest Account of the Redemption Fund shall be less than the amount required for the payment of interest, principal or Redemption Price on Outstanding Bonds on such date, the Trustee shall apply assets in the Reserve Fund to the extent necessary to make good the deficiency.

In the event there is a deficiency in the Reserve Fund, it shall be made up from the Redemption Fund after both the Interest Requirement and the Principal Requirement with respect to Outstanding Bonds have been met. Monies flow to the Redemption Fund commencing on the date of issuance of a Series of Bonds or on a Redemption Fund Deposit Day, whichever is earlier.

On the first day of each Fiscal Year or on the maturity or redemption date of any Bonds, income and earnings from Investment Obligations in the Reserve Fund shall be transferred to the Principal and Interest Account to the extent such transfer will not reduce the amount in the Reserve Fund below an amount equal to the Debt Service Reserve Requirement.

Investments and Deposits

Subject to instructions from time to time received from an Authorized Officer of the Building Commission and to the provisions of the General Resolution, moneys in any Fund or Account shall be

continuously invested and reinvested or deposited and redeposited by the Trustee in the highest yield Investment Obligations that may be reasonably known to the Trustee to the extent the same are authorized by the applicable Series Resolution and at the time legal for investment of funds under the Act, the Revenue Obligations Act and other applicable law. Investments shall be made with a view toward maximizing yield (with proper preservation of principal) and minimizing the instances of uninvested funds.

Investment Obligations purchased as an investment of moneys in any Fund or Account held by the Trustee under the provisions of the General Resolution shall be deemed at all times to be part of such Fund or Account but the income or interest earned and gains realized from Investment Obligations held by the Reserve Fund and Program Expense Fund in excess of the requirements of said Funds shall be transferred to the Principal and Interest Account on the first day of each Fiscal Year or on the maturity or redemption date of any Bonds.

The Trustee shall sell at the best price obtainable, or present for redemption or exchange, any Investment Obligations purchased by it pursuant to the General Resolution whenever it shall be necessary in order to provide moneys to meet any payments or transfers from the Fund or Account for which such investment was made.

In computing the amount in the Reserve Fund, obligations purchased as an investment of moneys therein shall be valued at par if purchased at par value or at amortized value if purchased at other than par value. Valuation shall be made on the 20th day of each March, June, September and December and as otherwise required under the General Resolution and on any particular date shall not include the amount of interest then earned or accrued to such date on any deposit or investment.

The Trustee shall invest and reinvest the moneys in any Fund or Account in available Investment Obligations so that the maturity date or date of redemption at the option of the holder thereof shall coincide as nearly as practicable with the times at which monies are needed to be so expended.

Investment Obligations means any of the investments described under “**GLOSSARY**”.

Powers as to Bonds and Pledge

The State covenants that it is duly authorized pursuant to law to authorize and issue the Bonds and to adopt the General Resolution and to pledge the Program Income purported to be pledged by the General Resolution in the manner and to the extent provided in the General Resolution.

Payment Covenant

The State covenants that it will duly and punctually pay or cause to be paid, but solely from sources as provided in the General Resolution, the principal and Redemption Price of every Bond and the interest thereon, on the dates and at the places and in the manner stated in the Bonds according to the true intent and meaning thereof.

Tax Covenants

The State and the Trustee shall at all times do and perform all acts and things necessary or desirable in order to assure that interest paid on the Bonds shall, for the purposes of federal income taxation, be excludable from the gross income of the recipients thereof and exempt from such taxation.

The State and the Trustee shall not permit at any time or times any of the proceeds of the Bonds or any other funds of the State to be used directly or indirectly to acquire any securities or obligations, the acquisition of which would cause any Bond to be an “arbitrage bond” as defined in Section 148 of Code.

The State and the Trustee shall not permit at any time or times any proceeds of any Bonds or any other funds of the State to be used, directly or indirectly, in a manner which would result in the exclusion of any Bond from the treatment afforded by Section 103 of the Code, as from time to time amended, by reason of the classification of such Bond as a “private activity bond” within the meaning of Section 141 of the Code.

The State reserves the right to elect to issue Bonds, the interest on which is not exempt from federal income taxation, if such election is made prior to the issuance of such Bonds, and the covenants as to tax exemption shall not apply to such Bonds.

Funds and Reports

The Department of Transportation covenants that it will keep, or cause to be kept and maintained proper books of account relating to the Program and within 120 days after the end of each Fiscal Year shall cause such books of account to be audited by an Accountant. A copy of each audit report, annual balance sheet and income and expense statement showing in reasonable detail the financial condition of the Program (including a schedule of monthly Program Income) as of the close of each Fiscal Year, and summarizing in reasonable detail the income and expenses for such year, including the transaction relating to the Funds, shall be filed promptly with the Trustee and shall be available for inspection by any Bondholder. See “**AUDITED FINANCIAL STATEMENTS**” in **APPENDIX A**.

Budgets

The Department of Transportation must file an annual budget broken down on a quarterly basis covering the fiscal operations of the Program for the succeeding Fiscal Year not later than the first day of each Fiscal Year with the Trustee. The annual budget shall at least set forth for such Fiscal Year the estimated Program Income, the debt service due and payable or estimated to become due and payable during such Fiscal Year and estimated Program Expenses. The Department of Transportation may at any time file with the Trustee an amended annual budget for the remainder of the then current Fiscal Year in the manner provided for the filing of the annual budget. Copies of the annual budget as then amended and in effect shall be made available by the Trustee during normal business hours in the Trustee’s office for inspection by any Bondholder.

The Program

The State covenants from time to time, with all practical dispatch and in a sound and economical manner consistent in all respects with the Act, the Revenue Obligations Act, the provisions of the General Resolution and sound banking practices and principles to:

- Use and apply the proceeds of the Bonds, to the extent not reasonably or otherwise required for other purposes of the Program, to finance Projects, pursuant to the Act, the Revenue Obligations Act and the General Resolution;
- Do all such acts and things as shall be necessary to charge and cause to be deposited with the Trustee Program Income sufficient to pay interest and principal and redemption premium on all Outstanding Bonds, to maintain the Debt Service Reserve Requirement in the Reserve Fund, to maintain any Credit Support and Liquidity Fund Requirement provided for in a Series Resolution, to pay Program Expenses; and maintain any Subordinated Debt Service Fund Requirement provided for in a Series Resolution

Power of Amendment

The Building Commission may, from time to time and without the consent and concurrence of any holder of any Bond, adopt a Supplemental Resolution modifying or amending the General Resolution if the modification or amendment does not adversely affect the rights of the holders of the Outstanding Bonds.

Any modification of or amendment to the General Resolution which does affect the rights and obligations of the State and of the holders of the Bonds, in any particular, may be made by a Supplemental Resolution with the written consent given as provided in the General Resolution, (1) of the holders of at least two-thirds in principal amount of the Outstanding Bonds at the time such consent is given, (2) in case less than all of the several Series of Bonds then Outstanding are affected by the modification or amendment, of the holders of at least two-thirds in principal amount of the Bonds of each Series so affected and Outstanding at the time such consent is given, and (3) in case the modification or amendment changes the terms of any Sinking Fund Installment, of the holders of at least two-thirds in principal amount of the Bonds of the particular Series and maturity entitled to such Sinking Fund Installment and Outstanding at the time such

consent is given. If any such modification or amendment will not take effect so long as any Bonds of any specified maturity remain Outstanding, however, the consent of the holders of such Bonds shall not be required and such Bonds shall not be deemed to be Outstanding for the purpose of any calculation of Outstanding Bonds under the General Resolution or Series Resolution. No such modification or amendment shall permit a change in the terms of redemption or maturity of the principal of any Outstanding Bond or of any installment of interest thereon or a reduction in the principal amount or the Redemption Price thereof or in the rate of interest without the consent of the holder of such Bond, or shall reduce the percentages or otherwise affect the classes of Bonds, the consent of the holders of which is required to effect any such modification or amendment.

Events of Default

It is an Event of Default if:

- (1) Payment of any installment of interest on the Outstanding Bonds shall not be made after the same shall become due;
- (2) Payment of the principal of, Redemption Price or any Sinking Fund Installment on any Bond when and as the same shall become due and payable, whether at maturity or upon call for redemption or otherwise, shall not be made when and as the same shall become due; or
- (3) The State shall fail or refuse to comply with the provisions of the General Resolution including replenishment of the Reserve Fund, or shall default in the performance or observance of any of the covenants, agreements or conditions on its part contained in the General Resolution or in any Supplemental or Series Resolution or the Bonds, and such failure, refusal or default shall continue for a period of thirty (30) days after written notice thereof by the Trustee or the holders of not less than 25% in principal amount of the Outstanding Bonds.

Remedies

Upon the happening and continuance of any Event of Default specified in clauses (1) and (2) under Events of Default above, the Trustee shall proceed, or upon the happening and continuance of any Event of Default specified in clause (3) under Events of Default above, the Trustee may proceed and, upon the written request of the holders of not less than 25% in principal amount of the Outstanding Bonds, shall proceed, in its own name, subject to the General Resolution, to protect and enforce the rights of the Bondholders by such of the following remedies as the Trustee, being advised by counsel, shall deem most effectual to protect and enforce such rights: (a) by mandamus or other suit, action, or proceeding at law or in equity, to enforce all rights of the Bondholders, including the right to require the State to charge and cause to be deposited with the Trustee sufficient Program Income and to require the State to carry out the covenants and agreements with Bondholders and to perform its duties under the Act, the Revenue Obligations Act and the General Resolution; (b) by bringing suit upon the Bonds; (c) by action or suit in equity, to require the State to account as if it were the trustee of an express trust for the holders of the Bonds; (d) by action or suit in equity, to enjoin any acts or things which may be unlawful or in violation of the rights of the holders of the Bonds; (e) by declaring all Bonds due and payable, and if all defaults shall be cured, then, with written consent of the holders of not less than 25% in principal amount of the Outstanding Bonds, by annulling such declaration and its consequences; or (f) in the event that all Bonds are declared due and payable, by selling Investment Obligations.

Before declaring the principal of Bonds due and payable upon an Event of Default, the Trustee shall first give thirty (30) days notice in writing to the Governor and Attorney General of the State.

Priority of Bonds After Default

In the event that upon the happening and continuance of an Event of Default, the Funds or Accounts held by the Trustee, Registrar and Paying Agent are insufficient for the payment of interest, principal or Redemption Price then due on the Bonds, such Funds or Accounts (other than portions of Funds held for the payment or redemption of particular Bonds which have theretofore become due at maturity or by call for redemption) and any other monies received or collected by the Trustee acting pursuant to the Act, the

Revenue Obligations Act and the General Resolution, after making provisions for the payment of any expenses necessary in the opinion of the Trustee to protect the interests of the holders of the Bonds and for the payment of the charges and expenses and liabilities incurred and advances made by the Trustee or the Registrar and Paying Agent in the performance of their respective duties under the General Resolution, are to be applied as follows:

- (1) If the principal of all of the Bonds has not become or been declared due and payable:

First: To the payment to the persons entitled thereto of all installments of interest then due in the order or maturity of such installments, and, if the amount available is not sufficient to pay in full any installment, then to the payment thereof ratably, according to the amounts due on such installment, to the persons entitled thereto, without any discrimination or preference.

Second: To the payment to the persons entitled thereto of the unpaid principal or Redemption Price of any Bonds which shall have become due, whether at maturity or by call for redemption, in the order of their due dates, and, if the amounts available shall not be sufficient to pay in full all the Bonds due on any date, then to the payment thereof ratably, according to the amounts of principal or Redemption Price due on such date, to the persons entitled thereto, without any discrimination or preference.

- (2) If the principal of all of the Bonds has become or been declared due and payable, to the payment of the principal and interest then due and unpaid upon the Bonds without preference or priority of principal over interest or of interest over principal, or of any installment of interest over any other installment of interest, or of any Bond over any other Bond, ratably, according to the amounts due respectively for principal and interest, to the persons entitled thereto without any discrimination or preference except as to any difference in the respective rates of interest specified in the Bonds.

Limitation on Rights of Bondholders

No individual Bondholder shall have any right to initiate legal proceedings to enforce rights under the General Resolution unless such holder shall have given to the Trustee written notice of the Event of Default or breach of duty on account of which such proceeding is to be taken, and unless the holders of not less than 25% in principal amount of the Outstanding Bonds have made written request of the Trustee after the right to exercise such right of action has occurred, and shall have afforded the Trustee a reasonable opportunity either to exercise the powers granted to it under the General Resolution or to institute such proceedings in its name and unless, also, there has been offered to the Trustee reasonable security and indemnity against costs, expenses and liabilities and the Trustee has refused or neglected to comply with such request within a reasonable time. No provision in the General Resolution on defaults and remedies affects or impairs the right of any Bondholder to enforce the payment of the principal of and interest on his Bonds, or the obligation of the State to pay the same from the source, at the time and place specified in said Bond.

Compensation of Fiduciaries

Each Fiduciary is entitled to such fees and reimbursement as shall be established in an agreement between the Commission and such Fiduciary by the Trustee from the Program Expense Fund (except that the agreement for Registrar shall be between the Secretary of Administration and the Registrar). Each Fiduciary shall have a lien for such fees and reimbursement on any and all Funds at any time held by it under the General Resolution.

Removal of Trustee

The Trustee is required to be removed if so requested by the holders of a majority in principal amount of the Outstanding Bonds excluding any Bonds held by or for the account of the State. The State may remove the Trustee at any time, except during the existence of an Event of Default, for such cause as the State may determine in its sole discretion. In either such event, a successor is required to be appointed.

Defeasance

If the State shall pay or cause to be paid to the holders of the Bonds, the principal and interest and Redemption Price to become due thereon, at the times and in the manner stipulated therein and in the General Resolution, then the pledge of Program Income and other monies, securities and funds thereby pledged and all other rights granted thereby shall be discharged and satisfied.

Bonds or interest installments for the payment or redemption of which monies have been set aside and shall be held in trust by Fiduciaries (through deposit by the State of funds for such payment or redemption or otherwise) shall, at the maturity or Redemption Date thereof, be deemed to have been paid within the meaning and with the effect expressed in the above paragraph. Any Bonds shall, prior to maturity or Redemption Date thereof, be deemed to have been paid within the meaning and with the effect so expressed if:

- In case any of the Bonds to be redeemed on any date prior to their maturity, the State has given to the Trustee in form satisfactory to it, irrevocable instructions to publish, as provided in the General Resolution, notice of redemption on said date of such Bonds;
- There has been deposited with the Trustee either monies in an amount which are sufficient, or Investment Obligations which are direct obligations of or obligations guaranteed by the United States of America or other obligations, the payment of which is provided for by an irrevocable escrow deposit invested in direct obligations of the United States of America, the principal of and the interest on which when due will provide monies which, together with the monies, if any, deposited with the Trustee at the same time, will be sufficient to pay when due the principal or Redemption Price and interest due and to become due on said Bonds on and prior to the Redemption Date or maturity date thereof, as the case may be; or
- In the event said Bonds are not by their terms subject to redemption within the next succeeding 60 days, the State has given the Trustee, in form satisfactory to it, irrevocable instructions to publish, as soon as practicable, at least once in an Authorized Newspaper a notice to the holders of such Bonds that the deposit required above has been made with the Trustee and that said Bonds are deemed to have been paid and stating such maturity or Redemption Date upon which monies are to be available for the payment of the principal of and Redemption Price on said Bonds.

Neither the Investment Obligations nor the monies so deposited with the Trustee nor principal or interest payments on any such Investment Obligations shall be withdrawn or used for any purpose other than (and shall be held in trust for) the payment of the principal of, Redemption Price and interest on said Bonds, but any cash received from such principal or interest payments on such Investment Obligations deposited with the Trustee, if not then needed for such purpose may, to the extent practicable and legally permitted, be reinvested in Investment Obligations maturing at times and in amounts sufficient to pay when due the principal of, Redemption Price and interest to become due on said Bonds on and prior to such Redemption Date or maturity date thereof, as the case may be, and interest earned from such reinvestments may be paid over to the State, as received by the Trustee, free and clear of any trust, lien or pledge.

INDEPENDENT AUDITORS' REPORT

To the Wisconsin Department of Transportation
State of Wisconsin

Report on the Financial Statements

We have audited the accompanying statements of cash receipts and disbursements of the Wisconsin Department of Transportation Revenue Bond Program (the "Program") for the fiscal years ended June 30, 2016 and 2015, and the related notes to the statements of cash receipts and disbursements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the cash basis of accounting described in Note 2; this includes determining that the cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Program's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Program's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to in the first paragraph present fairly, in all material respects, the statements of cash receipts and disbursements of the Wisconsin Department of Transportation Revenue Bond Program for the years ended June 30, 2016 and 2015, in accordance with the cash basis of accounting as described in Note 2.

Emphasis of Matter

As discussed in Note 3, the Program implemented GASB Statement No. 72, *Fair Value Measurement and Application*. Our opinion is not modified with respect to this matter.

Basis of Accounting

We draw attention to Note 2 of the notes to the statements of cash receipts and disbursements, which describes the basis of accounting. This financial statement is prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to that matter.

Other Matters

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the financial statements. Such missing information, although not a part of the financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. Our opinion on the financial statements is not affected by this missing information.

Our audit was conducted for the purpose of forming an opinion on the statements of cash receipts and disbursements of the Program as a whole. The financial information listed in the table of contents as supplementary information on pages 13 through 27 are presented for purposes of additional analysis and are not a required part of the financial statements. The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

The schedule of program revenue and schedule of motor vehicle registration and registration-related fees – cash basis on pages 28 and 29 have not been subject to the auditing procedures applied in the audits of the statements of cash receipts and disbursements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 28, 2016, on our consideration of the Program's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Program's internal control over financial reporting and compliance.

WISCONSIN DEPARTMENT OF TRANSPORTATION REVENUE BOND PROGRAM

NOTES TO STATEMENTS OF CASH RECEIPTS AND DISBURSEMENTS FOR THE FISCAL YEARS ENDED JUNE 30, 2016 AND 2015

1. NATURE OF PROGRAM

The State of Wisconsin Transportation Revenue Bond Program (the "Program") originated in April 1984 pursuant to the adoption of the General Resolution, as amended, by the State of Wisconsin Building Commission. The purpose of the Program is to provide financing for the construction, maintenance and repair of certain major highway projects and administrative facilities. Receipts provided from motor vehicle registration fees and certain other vehicle registration-related fees are used to service the Program's borrowing obligations. The Wisconsin Department of Transportation ("Department") is responsible for managing the construction projects and the collection of motor vehicle registration fees and certain other vehicle registration-related fees.

The Department has statutory authority (as amended) as of June 30, 2016, to issue a total of \$3,931,472,900 of revenue obligations (excluding refunded bonds), in order to partially finance the costs of the authorized projects, in addition to proceeds from State of Wisconsin ("State") general obligation debt, federal aid and other money in the State Transportation Fund. As of June 30, 2016, the Department has remaining authority to issue \$182,081,691 of additional obligations.

As part of the State's reporting entity, the Program's financial information is included in the State of Wisconsin Comprehensive Annual Financial Report.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Cash Receipts and Disbursements Basis of Accounting—The statements of cash receipts and disbursements present the Program's cash receipts and disbursements, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Under this basis of accounting, cash receipts are recorded when received and disbursements are recorded when paid. The Program's cash and investments balance is presented at cost.

The Department has entered into trust agreements, as amended, with The Bank of New York Mellon Trust Company, N.A. (the "Trustee"), relating to the creation and administration of the State of Wisconsin Transportation Revenue Bonds, 1998 Series A, 2005 Series A, Series A, 2007 Series 1, 2008 Series A, 2009 Series B (Taxable), 2010 Series A, 2010 Series B (Taxable), 2012 Series 1, 2012 Series 2, 2013 Series 1, 2014 Series 1, 2014 Series 2, 2015 Series 1, and 2015 Series A. Among other provisions, the trust agreements, in conjunction with the General Resolution, specify those funds to be created and maintained, the timing and flow of monies through the funds, the determination of the debt service reserve requirements (see Note 6) and the procedure to be followed for the redemption of the bonds. It is the Department's view that the statements of cash receipts and disbursements along with the related notes meet the reporting requirements of the trust agreements.

NOTES TO STATEMENTS OF CASH RECEIPTS AND DISBURSEMENTS FOR THE FISCAL YEARS ENDED JUNE 30, 2016 AND 2015

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Receipts and Disbursements:

Motor Vehicle Registration Fees Retained by Trustee - Motor vehicle registration fees and certain other vehicle registration-related fees retained by the Trustee are recorded at time of impounding, when transfer of possession occurs.

Investment Income - Investment income is recorded when received.

Bond Proceeds - Bond proceeds are recorded as receipts on the date of closing at gross value of the issuance. All related fees are reported as bond issuance costs within disbursements.

Debt Service - Principal and Interest - Debt service payments are recorded when paid.

Net Premium Paid/(Discount Earned) on Investments - The net of the premium paid on investments purchased at more than face value and the discount earned on investments purchased at less than face value.

Highway Program Expenditures - Highway program expenditures are recorded when paid by the Program to the Transportation Fund of the State of Wisconsin.

Program Expenses – Revenue Bond Program - Program expenses are recorded when paid.

Program Expenses - Commercial Paper Program - Represents payments for expenses made by the Revenue Bond Program on behalf of the Commercial Paper Program.

Bond Issuance Costs - Costs associated with issuing bonds, such as legal, financial advisor and accounting fees, are recorded when paid. For bonds issued late in the fiscal year, subsequent payment of the related issuance costs may occur and be reported in the fiscal year following issuance of the bonds and recording of the bond proceeds.

3. CASH AND INVESTMENTS

The Program's investment policies are governed by the General Resolution and Wisconsin Statutes. The Program is authorized to invest in direct obligations of or obligations guaranteed by the United States, obligations of agencies created or sponsored by an Act of Congress, obligations of any state or municipality that are rated in either of the two highest rating categories by a nationally recognized bond rating agency, bankers acceptances and certificates of deposit from banks with combined capital and surplus aggregating at least \$100 million whose securities are rated within the two highest rating categories assigned by a nationally recognized rating agency, corporate commercial paper given the highest rating by S&P Global Ratings and Moody's Investors Service, Inc., and a fund whose assets consist of direct obligations or obligations guaranteed by the United States or obligations of agencies created or sponsored by Congress. Program assets are to be invested in the highest yielding authorized securities, with maturity or redemption dates coinciding as closely as possible with cash flow and liquidity needs of Program operations.

Investments of the Program are subject to various risks:

- Custodial credit risk is the risk that, in the event of failure of the counterparty (e.g., broker-dealer) to a transaction, the Program will not be able to recover the value of investments or collateral securities that are in the possession of another party. Securities of the U.S. government and its agencies were registered and held by the Program's agent in the Program's name. The deposit account is FDIC-insured up to \$250,000 but is not collateralized. Money market funds are not insured or collateralized.
- Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This risk is measured by the assignment of a rating by a nationally recognized statistical rating organization, such as S&P Global Ratings, Moody's Investors Service, Inc., and Fitch Ratings. As of June 30, 2016, the deposit account was rated Aa1 by Moody's, AA- by S&P and AA by Fitch. S&P's rating for U.S. government securities was AA+. All remaining investments were rated AAA.

NOTES TO STATEMENTS OF CASH RECEIPTS AND DISBURSEMENTS FOR THE FISCAL YEARS ENDED JUNE 30, 2016 AND 2015

3. CASH AND INVESTMENTS (Continued)

- Concentration of credit risk may be a concern if investments in any one issuer represent 5 percent or more of net Program assets, excluding investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments. Concentration of credit risk is not addressed in the Program's investment requirements. As of June 30, 2016, 41 percent of the Program's assets were held in a deposit account. 11 percent of the Program's assets were invested in federal agency securities and 48 percent in a money market fund; however, this fund solely invests in U.S. government securities.
- Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. Money market funds are liquid, having no future maturity dates. The Fannie Mae Discount Notes will mature on July 1, 2016.
- Foreign currency risk is the risk that changes in currency exchange rates will adversely affect the fair value of an investment. Foreign currency holdings are not specifically addressed in the Program's investment requirements; however, no investments denominated in foreign currency were held by the Program as of June 30, 2016.

Fair Value Measurements

The Program implemented GASB Statement No. 72, *Fair Value Measurement and Application*, for the year ending June 30, 2016. The Program categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant observable inputs; Level 3 inputs are significant unobservable inputs.

The Program has the following fair value measurements as of June 30, 2016:

	<u>Fair Value Measurements Using:</u>

4. REVENUE BONDS

The Program's revenue obligations are issued pursuant to Subchapter II of Chapter 18 of the Wisconsin Statutes as amended, Section 84.59 of the Wisconsin Statutes and a General Resolution and Series Resolutions adopted by the State of Wisconsin Building Commission. The bonds are revenue obligations of the State, payable solely from the Redemption Fund created by the General Resolution. The bonds are collateralized by a first lien pledge of income derived from vehicle registration fees under Section 341.25 of the Wisconsin Statutes and certain other vehicle registration-related fees, as collected by the Trustee ("Program Income"). The State has covenanted in the General Resolution that it will charge motor vehicle registration fees and certain other vehicle registration-related fees sufficient to pay principal and interest on the bonds, as they become due, to pay program expenses and to maintain the debt service reserve requirement. Fees collected in excess of the amount needed to service this Program, and outstanding Wisconsin Department of Transportation Revenue Commercial Paper Notes, are transferred to the Department free of the first lien pledge of the General Resolution. The State is not generally liable on the bonds nor are the projects financed by the bonds pledged as collateral.

A summary of these revenue obligations outstanding as of June 30, 2016 and 2015 is as follows:

	<u>2016</u>	<u>2015</u>
Transportation Revenue Bonds, 1998 Series A, fixed interest rate of 5.5%, interest payable semiannually, annual principal payments of variable amounts through 2016	\$ 8,825,000	\$ 17,185,000

Principal outstanding at June 30 due beyond one year	<u>\$1,887,400,000</u>	<u>\$1,764,795,000</u>

At June 30, 2015, the Program had cash and investments totaling \$88,400,000 from bond proceeds to be used to retire principal payments due July 1, 2016.

Additional series of bonds may be issued on par with the current bond series outstanding and collateralized by an equal charge and lien on the Program Income. However, no additional series may be issued unless, among other things, Program Income, including interest, for 12 consecutive months within the preceding 18-month period is at least 2.25 times the maximum aggregate principal and interest requirement in any bond year for all outstanding bonds.

Future maturities of bonds payable as of June 30, 2016 are as follows:

Fiscal Year Ending June 30,	
2017	\$ 102,395,000
2018	103,350,000
2019	119,605,000

2037	<u>19,410,000</u>
	<u>\$1,989,795,000</u>

The 2009 Series B (Taxable) and 2010 Series B (Taxable) Bonds are “qualified build America bonds” pursuant to Section 54AA of the Internal Revenue Code of 1986, as amended. The State expects to receive 35% of the interest payable to bondholders from the United States Treasury. Interest subsidies from the United States Treasury received in connection with these “build America bonds” are not pledged to the payment of principal, interest, or redemption price on the bonds and are not reported as income to the Program. The \$4.6 million subsidy for interest due January 1 and July 1, 2016, was received and deposited in the State Transportation Fund. The subsidy was reduced by \$.03 million (6.8%), as required by the Budget Control Act of 2011 (federal budget sequestration).

5. DEFEASED REVENUE BONDS

From time to time, the Program issues revenue bonds to defease older revenue bonds in order to generate debt service savings. The proceeds from the issuance of revenue bonds, together with assets transferred from the refunded bond series, are deposited with a trustee bank in a separate Escrow Account. These funds are invested by an escrow agent in U.S. Treasury obligations and certain other government securities so that sufficient monies are available to pay the principal, interest and redemption price of the defeased bonds.

A summary of the debt service savings and economic gain (present value of debt service savings) as a result of refunding transactions during the fiscal years ended June 30, 2016 and 2015 follows:

Refunding Issue	Debt Service Savings	Economic Gain
2015 Series 1	\$ 23,817,151	\$ 20,482,348
2014 Series 2	\$ 8,217,454	\$ 6,656,361

Defeased bonds, totaling \$220.1 million as of June 30, 2016, are not included in the outstanding revenue bonds summarized in Note 4. Also, the related securities in the Escrow Accounts are not included in the Program's cash and investments balance. Once defeased, no related activity in the Escrow Accounts is reported in the Program's Statements of Cash Receipts and Disbursements. The following is a summary of these defeased bonds at June 30, 2016.

The revenue bonds defeased by 2014 Series 2 that remain outstanding were as follows:

Series	Maturity	Principal Amount	Redemption Date	Redemption Price

		137,235,000		
Total defeased bonds outstanding at June 30, 2016:		<u>\$220,110,000</u>		

6. DEBT SERVICE RESERVE FUND REQUIREMENT

The General Resolution creates a Reserve Fund for the Bonds; however, the balance as of June 30, 2016 is zero. The State, pursuant to each Series Resolution, specifies the Debt Service Reserve Requirement ("DSRR"), if any, for each Series of Bonds. The individual DSRRs for each Series of outstanding bonds are combined to determine the aggregate DSRR for the Reserve Fund. If all of the Series of Bonds cease to be outstanding, then the aggregate DSRR is reduced by the individual DSRR attributable to that Series of Bonds. Since 2003, the State has not specified a DSRR for any Series of bonds that have been issued. Furthermore, the State does not currently expect to specify a DSRR for any future Series of additional bonds; however, the State reserves the right to change its practice and specify a DSRR for any future Series of additional bonds.

7. ADMINISTRATIVE EXPENSES

The Program is not charged for certain departmental administrative expenses incurred by the State of Wisconsin related to the operation of the Program. All such costs are charged to the Transportation Fund of the State of Wisconsin. Costs charged to the Program include expenses of the trustee, audit fees and other direct expenses of the Program. Program expenses of the Transportation Revenue Commercial Paper Program are paid by the Revenue Bond Program.

INDEPENDENT AUDITORS' REPORT

To the Wisconsin Department of Transportation
State of Wisconsin

Report on the Financial Statements

We have audited the accompanying statements of cash receipts and disbursements of the Wisconsin Department of Transportation Commercial Paper Program (the "Program") for the fiscal years ended June 30, 2016 and 2015, and the related notes to statements of cash receipts and disbursements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the cash basis of accounting described in Note 2; this includes determining that the cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Program's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Program's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the statements of cash receipts and disbursements of the Wisconsin Department of Transportation Commercial Paper Program for the years ended June 30, 2016 and 2015, in accordance with the cash basis of accounting as described in Note 2.

Emphasis of Matter

As discussed in Note 3, the Program implemented GASB Statement No. 72, *Fair Value Measurement and Application*. Our opinion is not modified with respect to this matter.

Basis of Accounting

We draw attention to Note 2 of the notes to the statements of cash receipts and disbursements, which describes the basis of accounting. This financial statement is prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to that matter.

Other Matters

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the financial statements. Such missing information, although not a part of the financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. Our opinion on the financial statements is not affected by this missing information.

The schedule of program revenue and schedule of motor vehicle registration and registration-related fees – cash basis on pages 10 and 11 have not been subject to the auditing procedures applied in the audits of the statements of cash receipts and disbursements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 28, 2016, on our consideration of the Program's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Program's internal control over financial reporting and compliance.

WISCONSIN DEPARTMENT OF TRANSPORTATION COMMERCIAL PAPER PROGRAM

NOTES TO STATEMENTS OF CASH RECEIPTS AND DISBURSEMENTS FOR THE FISCAL YEARS ENDED JUNE 30, 2016 AND 2015

1. NATURE OF PROGRAM

The State of Wisconsin Transportation Revenue Commercial Paper Program (the "Program") originated on April 23, 1997, pursuant to the adoption of the Program Resolution, as amended, by the State of Wisconsin Building Commission. The Program Resolution is a Series Resolution to the General Resolution, as amended, adopted by the Commission. The purpose of the Program is to provide financing for the construction, maintenance and repair of certain major highway projects and transportation facilities. Receipts provided from motor vehicle registration fees and certain other vehicle registration-related fees are used to service the Program's borrowing obligations, after the debt service requirements for the Transportation Revenue Bond Program have been met. The Wisconsin Department of Transportation ("Department") is responsible for managing the construction projects and the collection of motor vehicle registration fees and certain other vehicle registration-related fees.

The Department has statutory authority (as amended) as of June 30, 2016, to issue a total of \$3,931,472,900 of revenue obligations, including notes and excluding refunded bonds. The Program has authority to issue notes in an aggregate outstanding principal amount not to exceed \$275,000,000, in order to partially finance the costs of the authorized projects, in addition to proceeds from the Transportation Revenue Bond Program, State of Wisconsin ("State") general obligation debt, federal aid and other money in the State Transportation Fund. As of June 30, 2016, the Department has remaining authority to issue \$182,081,691 of additional obligations.

As part of the State's reporting entity, the Program's financial information is included in the State of Wisconsin Comprehensive Annual Financial Report.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Cash Receipts and Disbursements Basis of Accounting—The statements of cash receipts and disbursements present the Program's cash receipts and disbursements, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Under this basis of accounting, cash receipts are recorded when received and disbursements are recorded when paid. The cash and investments balance is presented at cost.

The Department has entered into trust agreements, as amended, with The Bank of New York Mellon Trust Company, N.A. (the "Trustee"), relating to the creation and administration of the Transportation Revenue Commercial Paper Notes of 1997 Series A, 2006 Series A and 2013 Series A. Among other provisions, the trust agreements, in conjunction with the General Resolution, specify those funds to be created and maintained, the timing and flow of monies through the funds, and the procedure to be followed for the redemption of the notes.

It is the Department's view that the statements of cash receipts and disbursements along with the related notes meet the reporting requirements of the trust agreements.

NOTES TO STATEMENTS OF CASH RECEIPTS AND DISBURSEMENTS FOR THE FISCAL YEARS ENDED JUNE 30, 2016 AND 2015

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

U.S. Bank National Association is the Issuing and Paying Agent (the "Agent") for the Notes. The Depository Trust Company ("DTC") serves as securities depository for the Notes. Purchasers of the Notes do not receive note certificates but instead have their ownership recorded in the DTC book-entry system. The Trustee transfers to the Agent monies sufficient to cover Note principal and interest payments; the Agent makes payment to the DTC. Owners of the Notes receive payments through brokers and other organizations participating in the DTC system.

Receipts and Disbursements—

Motor Vehicle Registration Fees Retained by Trustee - Motor vehicle registration fees and certain other vehicle registration-related fees retained by the Trustee are recorded at time of impounding, when transfer of possession occurs.

Investment Income - Investment income is recorded when received.

Commercial Paper Note Proceeds - Proceeds are recorded as receipts on the date of closing at gross value of the issuance when new notes are issued by the program to finance highway related project costs. Notes maturing and subsequently reissued during the year are not reported as cash receipts and disbursements in the financial statements. All related fees are reported as issuance costs within disbursements.

Debt Service - Principal and Interest - Cash payments for debt service are recorded when paid. Notes payable that mature and are replaced with new notes are not reflected in the statements of cash receipts and disbursements as there is no cash receipt or cash disbursement.

Net Premium Paid/(Discount Earned) on Investments - The net of the premium paid on investments purchased at more than face value and the discount earned on investments purchased at less than face value.

Highway Program Expenditures—Highway program expenditures are recorded when paid by the Program to the Transportation Fund of the State of Wisconsin.

3. CASH AND INVESTMENTS

The Program's investment policies are governed by the General Resolution and Wisconsin Statutes. The Program is authorized to invest in direct obligations of or obligations guaranteed by the United States, obligations of agencies created or sponsored by an Act of Congress, obligations of any state or municipality that are rated in either of the two highest rating categories by a nationally recognized bond rating agency, bankers acceptances and certificates of deposit from banks with combined capital and surplus aggregating at least \$100 million whose securities are rated within the two highest rating categories assigned by a nationally recognized rating agency, corporate commercial paper given the highest rating by S&P Global Ratings and Moody's Investors Service, Inc., and a fund whose assets consist of direct obligations or obligations guaranteed by the United States or obligations of agencies created or sponsored by Congress. Program assets are to be invested in the highest yielding authorized securities, with maturity or redemption dates coinciding as closely as possible with cash flow and liquidity needs of Program operations.

3. CASH AND INVESTMENTS (Continued)

During fiscal years 2016 and 2015, the Program's assets were held in a deposit account or invested in money market funds, federal agency securities and U.S. Treasury securities. The money market funds invest exclusively in obligations of the U.S. Treasury, including Treasury bills, bonds and notes. Program assets are reported at cost, which approximates fair value.

The following table summarizes the cost and fair market value for each of the investments:

Investment	June 30, 2016		June 30, 2015	
	Cost	Fair Value	Cost	Fair Value
Bank of New York Cash	\$ 127,344	\$ 127,344	\$ -	\$ -
Bank of New York Cash Reserve (deposit account)	5,032,224	5,032,224	3,175,865	3,175,865
Money Market Funds:				
• Dreyfus Treasury Cash Management	16,415,771	16,415,771	8,711,278	8,711,278
• Fidelity Institutional - Treasury Portfolio	1,354,282	1,354,282	1,474,452	1,474,452
• Goldman Sachs Financial Sq Funds	550,062	550,062	577,663	577,663
Federal Agency Securities:				
• Federal National Mortgage Association Discount Notes	6,860,700	6,881,000	6,742,103	6,750,000
• Federal Home Loan Bank Discount Notes	-	-	6,742,419	6,743,000
• Federal Home Loan Mortgage Corp Discount Notes	-	-	1,606,630	1,607,000
Total	<u>\$ 30,340,383</u>	<u>\$ 30,360,683</u>	<u>\$ 29,030,410</u>	<u>\$ 29,039,258</u>

Investments of the Program are subject to various risks:

- Custodial credit risk is the risk that, in the event of failure of the counterparty (e.g., broker-dealer) to a transaction, the Program will not be able to recover the value of investments or collateral securities that are in the possession of another party. The deposit account is FDIC-insured up to \$250,000 but is not collateralized. Money market funds are not insured or collateralized. Securities of the U.S. government were registered and held by the Program's agent in the Program's name.
- Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This risk is measured by the assignment of a rating by a nationally recognized statistical rating organization, such as S&P Global Ratings, Moody's Investors Service, Inc., and Fitch Ratings. As of June 30, 2016, the deposit account was rated Aa1 by Moody's, AA- by S&P and AA by Fitch. Fitch rated one money market fund with an A. All remaining investments were rated AAA.

NOTES TO STATEMENTS OF CASH RECEIPTS AND DISBURSEMENTS FOR THE FISCAL YEARS ENDED JUNE 30, 2016 AND 2015

3. CASH AND INVESTMENTS (Continued)

- Concentration of credit risk may be a concern if investments in any one issuer represent 5 percent or more of net Program assets, excluding investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments. Concentration of credit risk is not addressed in the Program's investment requirements. As of June 30, 2016, 17 percent of the Program's assets were held in a deposit account. 23 percent of the Program's assets were invested in federal agency securities and 60 percent in a money market fund; however, this fund solely invests in U.S. government securities.
- Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. Money market funds are liquid, having no future maturity dates while federal agency securities mature on July 1, 2016.
- Foreign currency risk is the risk that changes in currency exchange rates will adversely affect the fair value of an investment. Foreign currency holdings are not specifically addressed in the Program's investment requirements; however, no investments denominated in foreign currency were held by the Program as of June 30, 2016.

Fair Value Measurements

The Program categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant observable inputs; Level 3 inputs are significant unobservable inputs.

The Program has the following fair value measurements as of June 30, 2016:

	Fair Value Measurements Using:		
	Level 1	Level 2	Level 3
Investments:			
Federal National Mortgage Association Discount Notes	\$ 6,881,000	\$ -	\$ -
Total investments by fair value level	\$ 6,881,000	\$ -	\$ -

NOTES TO STATEMENTS OF CASH RECEIPTS AND DISBURSEMENTS FOR THE FISCAL YEARS ENDED JUNE 30, 2016 AND 2015

4. NOTES PAYABLE

The notes consist of interest-bearing obligations issued in initial denominations of \$100,000 and additional increments of \$1,000 above \$100,000. The notes are issued pursuant to Subchapter II of Chapter 18 of the Wisconsin Statutes as amended, Section 84.59 of the Wisconsin Statutes, the General Resolution, a Program Resolution and Series Resolutions adopted by the State of Wisconsin Building Commission. The notes are revenue obligations of the State, payable solely from the Subordinated Debt Service Fund (see Note 5).

The State is not generally liable on the notes, nor are the projects financed by the notes pledged as collateral. The notes are collateralized by a pledge of income derived from vehicle registration fees under Section 341.25 of the Wisconsin Statutes and certain other vehicle registration-related fees, as collected by the Trustee ("Program Income"). The notes are subordinate to the pledge of Program Income for payment of the State Transportation Revenue Bonds outstanding. The State has covenanted in the General Resolution that it will charge motor vehicle registration fees and certain other vehicle registration-related fees sufficient to pay principal and interest on the notes. Fees collected in excess of the amount needed to service this Program and the outstanding State Transportation Revenue Bonds are transferred to the Department pursuant to the General Resolution.

In order to assure the timely payment of principal and interest on the notes, the State has entered into a Second Amended and Restated Credit Agreement, dated April 20, 2016, with State Street Bank and Trust Company (the "Credit Agreement"). As of June 30, 2016, the commitment amount is \$120,000,000, an amount not less than the note principal outstanding at that time. This Credit Agreement, which is a Liquidity Facility Agreement under the program resolution, expires April 20, 2019, but may be extended upon agreement of both parties. The Credit Agreement describes events which, if they occur, would cause early termination.

The notes will mature no later than 270 days from the date of issuance provided that a credit agreement is in effect. No notes may be issued with a maturity date after the stated expiration of the credit agreement or after the stated date of a substitute credit agreement. The principal of and interest on the notes will be paid at maturity and the notes are not callable prior to maturity. The State expects to pay the principal on the notes with the proceeds of additional notes until the State provides permanent financing through the issuance of long-term transportation revenue bonds. Each note bears interest from its date of issuance, at the rate determined on the date of issuance (which may not exceed 12% per annum).

A summary of the notes outstanding as of June 30, 2016 and 2015 is as follows:

	<u>2016</u>	<u>2015</u>
Commercial Paper Notes of 1997, Series A	\$ 31,468,000	\$ 41,878,000
Commercial Paper Notes of 2006, Series A	21,985,000	32,200,000
Commercial Paper Notes of 2013, Series A	<u>63,675,000</u>	<u>70,025,000</u>
Total Notes Payable as of June 30	\$ <u>117,128,000</u>	\$ <u>144,103,000</u>

4. NOTES PAYABLE (Continued)

As of June 30, 2016, the Commercial Paper Notes of 1997, Series A had maturities ranging from July 5 to July 20, 2016. The Commercial Paper Notes of 2006, Series A had maturities ranging from July 7 to July 20, 2016. The Commercial Paper Notes of 2013, Series A had maturities ranging from July 7 to July 19, 2016. The weighted average interest rate for all series of Transportation Revenue Commercial Paper Notes was 0.478%.

As of June 30, 2015, the Commercial Paper Notes of 1997, Series A had maturities ranging from August 3 to August 6, 2015. The Commercial Paper Notes of 2006, Series A had maturities ranging from August 3 to August 6, 2015. The Commercial Paper Notes of 2013, Series A had maturities ranging from September 1 to October 8, 2015. The weighted average interest rate of all series of Transportation Revenue Commercial Paper notes was 0.0926%

5. SUBORDINATED DEBT SERVICE FUND

The General Resolution creates a Subordinated Debt Service Fund which is intended to be used to provide for the payment of principal and interest on the notes from Program Income deposited into this fund. The pledge of such Program Income to payment of the notes is subordinate to the pledge of Program Income to payment of outstanding State Transportation Revenue Bonds.

6. ADMINISTRATIVE EXPENSES

The Program is not charged for certain departmental administrative expenses related to the operation of the Program. All such costs are charged to the Transportation Fund of the State of Wisconsin. Expenses related to dealer fees, issuing and paying agent fees, trustee fees, bond rating fees, audit fees and other expenses of the Program are paid by the Revenue Bond Program.
