### **Cautionary Information**

### Users of this information should be cautioned about several points:

The General Fund financial information in this document has been prepared using what is believed to be the best available data for these purposes. The tables in this document have been prepared using the same procedures used to prepare similar information for the State of Wisconsin Continuing Disclosure Annual Report, Official Statements prepared for specific securities, or reports filed in conjunction with various securities. This information is, however, preliminary in nature and subject to change.

- This information is unaudited and is not a "financial statement." None of the data presented here has been subjected to customary fiscal period closing procedures or the procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments.
- This information only speaks as of the date on which it was prepared.
- Statements of information for dates before the date this information is prepared will most likely be restated or revised. Information classified as "actual", and any difference from any prior estimate, does not signify a change to official estimates. Any official revenue or expenditure re-estimates that do occur will be separately identified, and if material, appropriately noted.
- The information does not intend to reflect the State's projected budgetary balance for FY16.
- Projections of results for dates after the date this information is prepared are forward looking. Actual results will almost certainly differ.
  - ➤ It is important to note that cash flow projections are expressed on a *cash basis* while the tax revenue collection estimates released by the Department of Revenue (**DOR**) and the Legislative Fiscal Bureau (**LFB**) are expressed on a *budgetary basis* and net of any refunds.
  - > Projections are not adjusted to reflect actual revenues and expenditures and routine variability in the timing of receipts and disbursements, but may be adjusted to reflect unique events.
  - Projections of remaining fiscal year cash flow may be adjusted when necessary to reflect unforeseen events or additional revised forecasts of the General Fund condition statement.
- Data in the tables of financial information are subject to revision and reclassification for prior periods.
   This is particularly true for revenue data, where proper classification depends on tax returns which are received and processed significantly after the tax payments are received through electronic transfers.
- Some information is presented on a cash basis of accounting while other data is presented on a budgetary or agency-recorded basis. Users should not compare information that is presented on one basis of accounting with information that is presented on a different basis of accounting.
- Comparison of monthly General Fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month. In addition, comparison of year-to-date annual General Fund financial information also has many inherent problems due to the potential of different revenue and budget provisions for each fiscal year.
- The following tables of General Fund financial information may be material to an investment decision in securities of the State of Wisconsin, although the presence of information here does not imply the State of Wisconsin has made a determination of its materiality.
- The State of Wisconsin is not obligated to provide this information or make it available on its website.
- None of the information in these tables of financial information is required by the State of Wisconsin's continuing disclosure undertakings pursuant to the Securities and Exchange Commission (SEC) Rule 15c2-12; however this information is filed with the MSRB's EMMA system as an additional / voluntary filing.
  - This information is not, and does not replace, a listed event required by SEC Rule 15c2-12.
  - ➤ This information is not, and does not replace, the annual financial information required by SEC Rule 15c2-12.

## CASH BALANCES IN FUNDS AVAILABLE FOR TEMPORARY REALLOCATION (a) (g)

July 31, 2013 to February 29, 2016 — Actual March 31, 2016 to June 30, 2016 — Projected (Amounts in Millions)

The following two tables show, on a monthly basis, the cash balances available for temporary reallocation. The first table does not include balances in the Local Government Investment Pool (LGIP) and the second table does include such balances. Though the LGIP is available for temporary reallocations, funds in the LGIP are deposited and withdrawn by local units of government, and thus are outside the control of the State. The monthly average daily balances in the LGIP for the past five years have ranged from a low of \$2.11 billion during November 2011 to a high of \$3.46 billion during February 2013. The Secretary of Administration may not exercise the authority to use temporary reallocation if doing so would jeopardize the cash flow of any fund or account from which a temporary reallocation would be made.

Note: All footnotes to this table appear at the end of this report in the section entitled "Endnotes". Please note other information in this report is as of February 29, 2016. These two tables include data through December 31, 2015.

### **Endnotes**

- (a) Please refer to the cautionary statements at the beginning of this document. The cautionary statements are an integral part of this table. None of the data presented here has been subjected to customary fiscal period closing procedures or other procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments. In addition, comparison of monthly General Fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month.
- (b) The results, estimates, and projections for FY16 (cash basis) reflect the 2015-17 biennial budget (2015 Wisconsin Act 55), the estimated General Fund tax revenues included in a memorandum from LFB dated January 23, 2015 (January 2015 LFB Memorandum) as further addressed in a memorandum from the LFB dated May 6, 2015, and the estimated General Fund tax revenues included in the January 2016 LFB Report.
- The General Fund cash balances presented are not based on Generally Accepted Accounting Principles. The General Fund includes funds designated for operations and capital purposes for certain proprietary programs of the State's universities. Receipts and disbursements of such funds for the designated programs and the disbursement of such funds for other purposes are reflected in the cash flow. A use of the designated funds for purposes other than the proprietary programs is, in effect, a borrowing of such funds. Therefore, at any time that the balance in the General Fund is less than the balance of such designated funds, the State is obligated to replenish the designated funds to the extent of the shortfall. These designated funds ranged from \$550 million to \$1.3 billion in FY12, from \$1.2 billion to \$1.9 billion in FY13, from \$1.2 billion to \$1.9 billion in FY14, and are expected to range from \$1.0 billion to \$1.8 billion in FY15. In addition, the General Fund holds deposits for several escrow accounts pursuant to court orders or federal rulings. These funds have averaged, and are expected to continue to average, approximately \$25 million in each fiscal year.
- The Statutes provide certain administrative remedies to deal with periods when the General Fund is in a negative cash position. The Secretary of Administration may temporarily reallocate cash in other funds to the General Fund in an amount up to 9% of the general-purpose revenue appropriations then in effect (approximately \$1.430 billion in FY16) and may also temporarily reallocate for a period of up to 30 days an additional amount up to 3% of the general-purpose revenue appropriations then in effect (approximately \$477 million in FY 16). This results in an aggregate amount of \$1.907 billion for FY16. If the amount of temporary reallocation available to the General Fund is not sufficient, the Secretary of Administration is authorized to set priorities for payments from the General Fund and to prorate or defer certain payments.
- (e) Reflects no operating notes issued for FY14, FY15 and FY16.
- Changes are sometimes made after the beginning of the fiscal year to the projected revenues and disbursements. Depending on when these changes occur, there are situations in which prior estimates can not be changed and the result is a large variance. This column may include adjustments, if any, to the variances to more accurately reflect the variance between the estimated and actual amounts.
- (g) The amounts shown reflect a reduction in the aggregate cash balances available to the extent any fund had a negative balance and temporary reallocation was used for such fund.
- (h) This category includes intergovernmental transfers. The amount of these transfers may vary greatly between fiscal years, and therefore, this category may not be comparable on a historical basis.
- Certain transfers between General Fund appropriations are recorded as both revenues and expenditures of the General Fund. The amount of these transfers may vary greatly between fiscal years, and therefore, this category may not be comparable on a historical basis.
- (j) The amounts are from the Annual Fiscal Report (unaudited, budgetary basis) for FY15, dated October 15, 2015.
- The projections or estimates on an agency recorded basis reflect the 2015-17 biennial budget (2015 Wisconsin Act 55) and the estimated General Fund tax revenues included in the January 2015 LFB Memorandum. The May 6, 2015 LFB memorandum noted, while not quantified, that the growth rate for General Fund tax collection in FY16

- may be reduced from that included in the January 2015 LFB Memorandum. The projections or estimates do not reflect the estimated General Fund tax collections included in the January 2016 LFB Report.
- The amounts shown are FY15 general purpose revenues and program revenues taxes as recorded by state agencies. There may be differences between the tax revenues shown in this report and those that may be reported by DOR from time to time in their monthly general purpose revenue collections report; the DOR report (i) only includes general purpose revenues or taxes that are actually collected by DOR (and not by other state agencies), and (ii) may include accruals or other adjustments that may not be recorded by state agencies until a subsequent month.
- (m) The amounts shown are FY16 general purpose revenues and program revenue taxes as recorded by state agencies. There may be differences between the tax revenues shown in this report and those that may be reported by DOR from time to time in their monthly general purpose revenue collections report; the DOR report (i) only includes general purpose revenues or taxes that are actually collected by DOR (and not by other state agencies), and (ii) may include accruals or other adjustments that may not be recorded by state agencies until a subsequent month.
- (n) The amounts shown are FY15 expenditures as recorded by state agencies.
- (o) The amounts shown are FY16 expenditures as recorded by state agencies.
