December 6, 2017

GOVERNOR SCOTT WALKER
MEMBERS OF THE STATE LEGISLATURE
PUBLIC EMPLOYEES, EMPLOYERS AND OTHER INTERESTED PARTIES:

I am pleased to present the Comprehensive Annual Financial Report (CAFR) of the Wisconsin Department of Employee Trust Funds (ETF) for the year ended December 31, 2016. This report provides comprehensive information about ETF, the Wisconsin Retirement System (WRS), and other benefit plans and trust funds administered by ETF.

Responsibility for the accuracy of the data and the fairness and completeness of this presentation, including all disclosures, rests with the management of the ETF. To the best of our knowledge, the enclosed information is accurate in all material respects and is reported in a manner designed to provide a fair representation of the financial position and results of the operations of ETF.

The Legislative Audit Bureau (LAB) has issued an unmodified ("clean") opinion on the financial statements for the year ended December 31, 2016. The independent auditors' report is located at the beginning of the Financial Section of this CAFR.

"Management's Discussion and Analysis" (MD&A) immediately follows the independent auditors' report and provides a narrative introduction, overview and analysis of the financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

Historical Overview

The WRS was created effective January 1, 1982. The system covers state and local public employees, including faculty and staff of the University of Wisconsin System, local police and firefighters, and all publicly-employed teachers in the state. Those not included are employees of the City of Milwaukee and Milwaukee County, who are covered under separate retirement systems. Pension coverage for local government employees has been in place since 1891, when the legislature required Milwaukee to create a pension fund for retired and disabled police and firefighters. The legislature has since extended pension coverage to other public employees, along with creating group life and health insurance programs.

The Group Insurance Board (GIB) was created in 1959 to monitor the administration of the life and health insurance programs. In 1967, the Department of Employee Trust Funds was created to administer the various retirement and related benefit programs.

Currently, the WRS is composed of 29% state employees and 71% local employees. As of December 31, 2016, the WRS had 257,285 active employees, 197,647 annuitants (retirees, disability, and beneficiaries), and 167,191 inactive employees with deferred benefits payable.

ETF Mission and Responsibilities

ETF's mission is "to develop and deliver quality benefits and services to our customers while safeguarding the integrity of the Trust." ETF administers retirement, health, life, income continuation, long-term disability, and long-term care insurance programs, along with an employee reimbursement accounts program, commuter benefits program, and a deferred compensation plan. ETF also administers retirement disability coverage and serves as the state's designated coverage agent for Social Security for Wisconsin public employers. There are five different statutory boards with responsibilities for programs operated by the Department. The ETF Board is both the overall governing body for the Department and the general policy-setting and trustee board for the WRS.

All insurance programs are administered through contractual arrangements with private sector insurance firms and service corporations. Participation by eligible employees is mandatory for retirement and Social Security but optional for the other programs. ETF collects but does not invest the trust fund monies created for these programs. That responsibility rests with the State of Wisconsin Investment Board (SWIB).

ETF is responsible for:

- Collecting all monies due the trust funds.
- Calculating and ensuring appropriate disbursement of all benefit payments from the trust funds.
- Providing information to, and answering inquiries from, participating employees and employers.
- Establishing the controls, systems, and procedures necessary to ensure the appropriate administration and security of the trust.

Funding Status

PENSION PLAN

The funded status of the WRS is the measure of the extent to which the system has accumulated enough assets to pay the benefits earned by participants. The funded ratio is the ratio of plan assets to estimated future liabilities. The assets can be measured using either the current fair value of assets or a smoothed funding value of assets. The fair value measurement gives a more timely measurement, but can be extremely volatile. The funding value measurement, where gains or losses are smoothed over a five-year period, is less representative of current fair value, but better presents the funding trends without the year-to-year volatility.

The WRS continues to be one of the best-funded public employee retirement systems in the country. A well-funded system ensures that a lifetime of benefits can be paid to today's workers without burdening the next generation of taxpayers with higher contributions. The financial strength of the WRS is attributable to its unique plan design, funding discipline at the state and local level, strong governance, and the effective investment strategies of the SWIB.

The funding value-based ratio of the WRS remains nearly 100% as of December 31, 2016. The fair value-based ratio, calculated in accordance with standards recently issued by the Governmental Accounting Standards Board, is 99.1%. This is an increase from 98.2%, and was primarily the result of higher market returns in 2016 compared to 2015.

OTHER EMPLOYEE BENEFIT PLANS

The funded status of the Health Insurance Plan is a measure of the extent to which the system has accumulated enough assets to pay the benefits earned by participants, meet the liquidity needs of the plan, and smooth year-to-year volatility in claims. Funded status is measured as the ratio of reserves to annual expenses.

INTRODUCTORY SECTION

Both the State and Local Health Plan include fully-insured Health Maintenance Organization Plans, a self-insured fee-for-service “Standard Plan”, a self-insured Pharmacy Benefit Plan and a self-insured Dental Benefit Plan. The ratio of reserves to annual expenses of the various plans as of December 31, 2016, was:

State Standard Plan	159%
State Pharmacy Benefit Plan	29%
State Dental Benefit Plan	(2%)
Local Standard Plan	5%
Local Pharmacy Benefit Plan	44%
Local Dental Benefit Plan	(9%)

2016 was the first year of the self-insured Dental Benefit Plan. Considering the negative fund balance and projected future claims, the GIB approved a 4.3% premium rate increase at its August 2017 meeting.

Please refer to Note 9 and the Statistical Section for the funding status of other employee benefit plans.

Investments

At December 31, 2016, the total assets of the Core and Variable investment portfolios was \$99.8 billion, an increase from \$94.7 billion at December 31, 2015. The increase was due to positive investment returns caused by more favorable market conditions in 2016 compared to 2015.

Legislative Initiatives

During 2016, there was no legislation enacted that affected the WRS and the employee benefit programs administered by ETF.

Administration

ETF’s administration of the WRS continues to make it one of the most cost-efficient systems in terms of administrative expenses per member. In a recent public pension fund administration benchmarking study conducted by industry leader CEM Benchmarking, Inc., the annual per-member administrative expenses associated with the retirement and disability programs was \$67 for the WRS, compared to the median per-member cost of \$90 for peer retirement systems. ETF employs one full-time equivalent staff person per 1,761 members, compared to the peer system median of one per 1,446 members.

Acknowledgements

I would like to express my appreciation to the Governor, members of the legislature, members of the boards, staff, employers, participants, and all those whose efforts and interest combine to ensure the successful operation of our system, while protecting the integrity of the trust funds.

Sincerely,

Robert J. Conlin
Secretary

ETF BOARDS AND DEPARTMENT ORGANIZATION

The individuals who serve on the boards that provide oversight for the Department of Employee Trust Funds (ETF) play important roles. Board decisions affect hundreds of thousands of individuals who participate in the retirement programs funded by the trust funds as well as other fringe benefit programs ETF operates for Wisconsin.

This section explains how board membership is determined and how membership overlaps. Under state law, members of the boards are chosen in a variety of ways. Some members are ex-officio, some are direct appointees of the governor, others are appointed to fixed terms from lists submitted to the governor by specified organizations, and still others are directly elected by active participants or retirees.

The members and officers of each board are listed below, along with a short explanation of board responsibilities. Membership on the boards as of May 1, 2016, is as follows:

Employee Trust Funds Board (13 Members)

This board has general oversight of ETF; appoints the ETF Secretary; approves tables used for computing benefits, contribution rates and actuarial assumptions; authorizes all annuities except for disability; approves or rejects ETF administrative rules; and generally oversees administration of the benefit programs, except group insurance and deferred compensation. State law sets ETF Board membership criteria, with some members appointed by the Teachers Retirement Board (TR Board) and the Wisconsin Retirement Board (WR Board). The ETF Board has established three committees to assist the Board in fulfilling its fiduciary and oversight responsibilities: an Executive Committee, an Audit Committee and a Budget and Operations Committee. The Executive Committee oversees the effective operation of Board and other Committee meetings and reviews personnel matters relating to the Department and the Secretary. The Audit Committee reviews the adequacy and effectiveness of the Department's system of internal controls, including those relating to information technology systems, and the Department's

accounting and financial reporting systems. The Budget and Operations Committee reviews the biennial budget process and the Department's operating budget, as well as the Department's strategic business and information technology planning activities.

BOARD MEMBERS

Chair: Wayne E. Koessl

Appointed by the WR Board. WR Board member appointed under § 15.16 (3)(b) 1,2,4,5 or 8 (chief executive, finance officer or member of a governing body of a participating city or village, county clerk, deputy county clerk, chairperson, or member of the governing body of a participating county or town, or public member who is not a participant).

Vice Chair: John David

Appointed by Wisconsin Retirement Board. Any WR Board member appointed under § 15.161(1)(b).

Secretary: Robert M. Niendorf

Appointed by the TR Board. TR Board member appointed under § 15.16 (3)(a)4 (UW teacher participant).

William Ford

Elected by WRS annuitants. WRS annuitant as defined for purposes other than life insurance under § 40.02 (4). § 15.16 (1)(d)

Michael Langyel

Appointed by the TR Board. TR Board member elected under § 15.165 (3)(a)7 (City of Milwaukee teacher participant). § 15.165 (1)(a)3

Leilani Paul

Elected by educational support personnel. WRS participant who is either a public school district educational support employee or a technical college district educational support employee. § 15.16 (1)(f)

Roberta Rasmus

Appointed by the TR Board. TR Board member appointed under § 15.16 (3)(a)3 or 5 (public school administrator or school board member). § 15.16 (3)(a)5

Stacey Rolston

Administrator in Department of Administration, Division of Personnel Management or Administrator's designee. § 15.16 (1) (intro.)

Victor Shier

Appointed by Governor, with Senate confirmation. Public member who is not a participant in or beneficiary of the WRS, with at least five years of experience in actuarial analysis, administration of an employee benefit plan, or significant administrative responsibility in a major insurer. § 15.16 (1)(c)

Mary Von Ruden

Appointed by the WR Board. WR Board member appointed under §15.16 (3)(b)3,6, or 7 (participating employee of a city or village, participating employee of a local employer other than a city or village or participating state employee). § 15.16 (1)(b)2

David Wiltgen

Appointed by TR Board. TR Board member appointed or elected under § 15.165 (3)(a) 1 or 2 (public or vocational school teacher).

Bob Ziegelbauer

Governor or the Governor's designee on the Group Insurance Board. § 15.16 (1) (intro.)

Vacant

Appointed by Wisconsin Retirement Board. Wisconsin Retirement Board member appointed under § 15.165 (3)(b) 7 or 8 (participating state employee or public member who is not a participant). § 15.16 (1)(b) 3

Wisconsin Retirement Board (9 Members)

The WR Board advises the ETF Board on matters relating to retirement; approves or rejects administrative rules; authorizes or terminates disability benefits for non-teachers; and hears appeals of disability rulings. This board appoints four members to the ETF Board and one non-teaching member to the State of Wisconsin Investment Board.

BOARD MEMBERS**Chair: Wayne E. Koessl**

Appointed by the Governor from a list of five names submitted by the executive committee of the Wisconsin Counties Association. Chairperson or member of the governing body of a participating county or town, and from a different county than subds. 5 & 6. § 15.165 (3)(b)4

Vice Chair: John David

Appointed by the Governor from a list of five names submitted by the Board of Directors of the League of Wisconsin Municipalities. Chief executive or member of the governing body of a participating city or village and from a different county than subds. 2 & 3. § 15.165 (3)(b)1

Secretary: Mary Von Ruden

Appointed by the Governor. Participating employee from a participating local employer other than a city or village and from a different county than subds. 4 & 5. § 15.165 (3)(b)6

Ted Nickel

Ex officio; Commissioner of Insurance or an experienced actuary in the Office of the Commissioner designated by the Commissioner. § 15.165 (3)(b)9

Herbert Stinski

Appointed by the Governor. Participating employee and principal finance officer of a participating city or village and from a different county than subds. 1 & 3. § 15.165 (3)(b)2

Julie Wathke

Appointed by the Governor. County clerk or deputy county clerk from a participating county different than subds. 4 & 6. § 15.165 (3)(b)5

INTRODUCTORY SECTION

Steven Wilding

Appointed by the Governor. Participating employee of a participating city or village and from a different county than subds. 1 & 2. § 15.165 (3)(b)3

Vacant

Appointed by the Governor. Public member who is not a participant or beneficiary of the WRS. § 15.165 (3)(b)8

Vacant

Appointed by the Governor. Participating state employee. § 15.165 (3)(b)7

Teachers Retirement Board (13 Members)

The TR Board advises the ETF Board on retirement and other benefit matters involving public school, technical college, state and university teachers; acts on administrative rules and authorizes or terminates teacher disability benefits and hears disability benefit appeals. Nine of the 13 members are elected. This board appoints four members to the ETF Board and one teacher participant to the State of Wisconsin Investment Board.

BOARD MEMBERS**Chair: Robin Starck**

Elected by public school teachers. Public school teacher. § 15.165 (3)(a)1

Vice Chair: R. Thomas Pedersen

Elected by participating Wisconsin Technical College teachers. Public school teacher from a participating Wisconsin Technical College district and a participating employee in the WRS. § 15.165 (3)(a)2

Secretary: Brent Grochowski

Elected by public school teachers. Public school teacher. § 15.165 (3)(a)1

Sandra Clafin-Chalton

Appointed by the Governor. UW teacher participant in the WRS (not from same campus as other UW teacher representative). § 15.165 (3)(a)4

Gary Epping

Appointed by the Governor. Member of a school board. § 15.165 (3)(a)5

Chris Heller

Elected by public school teachers. Public school teacher. § 15.165 (3)(a)1

Craig Hubbell

Appointed by the Governor. Public school administrator who is not a classroom teacher. § 15.165 (3)(a)3

Jon Joslin

Elected by public school teachers. Public school teacher. § 15.165 (3)(a)1

Dennis Murphy

Elected by annuitants who were teacher participants. Annuitant who was a teacher participant in the WRS. § 15.165 (3)(a)6

Allison Pratt

Elected by public school teachers. Public school teacher. § 15.165 (3)(a)1

David Schalow

Appointed by the Governor. UW teacher participant in the WRS (not from same campus as other UW teacher representative). § 15.165 (3)(a)4

Kim Schroeder

Elected by Milwaukee Public School District teachers who are participants. City of Milwaukee teacher who is a participant in the WRS. § 15.165 (3)(a)7

David Wiltgen

Elected by public school teachers. Public school teacher. § 15.165 (3)(a)1

Group Insurance Board (11 Members)

This board sets policy for the group health, life, and income continuation insurance plans for state employees and the group health, life, and income continuation insurance plans for local employers who choose to offer them. The board also can provide other insurance plans, if employees pay the entire premium.

BOARD MEMBERS**Chair: Vacant****Vice Chair: Bonnie Cyganek**

Ex officio; Attorney General or Attorney General's designee. § 15.165 (2)

Secretary: Michael Farrell

Appointed by the Governor. No membership requirement. § 15.165 (2)

Terri Carlson

Appointed by the Governor. Insured participant in the WRS who is not a teacher. § 15.165 (2)

Herschel Day

Appointed by the Governor. Insured participant in the WRS who is a teacher. § 15.165 (2)

Charles Grapentine

Appointed by the Governor. Insured participant in the WRS who is a retired employee. § 15.165 (2)

Michael Heifetz

Ex officio; Secretary of Department of Administration or Secretary's designee. § 15.165 (2)

Theodore Neitzke

Appointed by the Governor. Insured participant in the WRS who is an employee of a local unit of government. § 15.165 (2)

Stacey Rolston

Ex officio; Administrator in Department of Administration, Division of Personnel Management or Administrator's designee. § 15.165 (2)

Daniel Schwartz

Ex officio; Commissioner of Insurance or Commissioner's designee. § 15.165 (2)

Nancy Thompson

Appointed by the Governor. Chief executive or member of the governing body of a local unit of government that is a participating employer. § 15.165 (2)

Bob Ziegelbauer

Ex officio; Governor or Governor's designee. § 15.165 (2)(intro)

Deferred Compensation Board (5 Members)

This board sets policy, contracts with investment and administrative service providers, and oversees administration of the Deferred Compensation Program. The board is responsible for establishing criteria and procedures for selecting and evaluating investment options offered by the Program. The governor, with senate confirmation, appoints all board members; there are no statutory requirements for appointments.

BOARD MEMBERS**Chair: Edward D. Main**

Appointed by the Governor, with Senate confirmation. § 15.165 (4)

Vice Chair: John F. Nelson

Appointed by the Governor, with Senate confirmation. § 15.165 (4)

Secretary: Gail Hanson

Appointed by the Governor, with Senate confirmation. § 15.165 (4)

Arthur Zimmerman

Appointed by the Governor, with Senate confirmation. § 15.165 (4)

Vacant

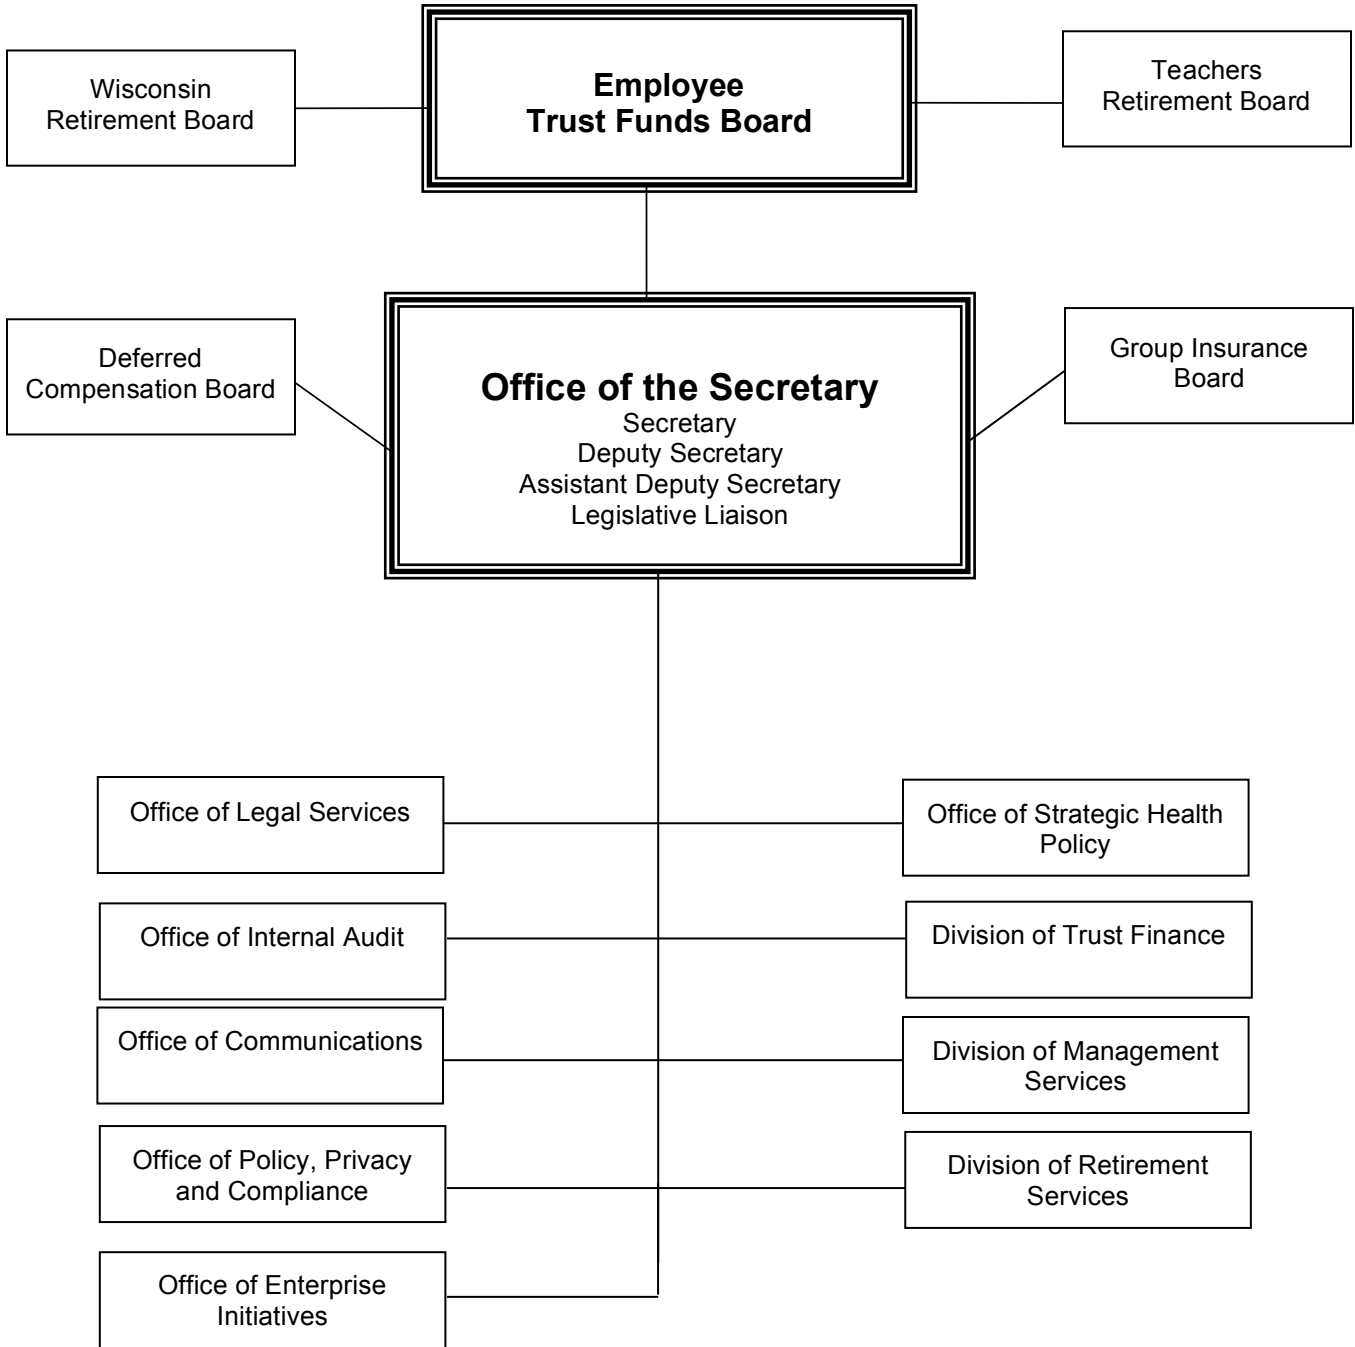

Appointed by the Governor, with Senate confirmation. § 15.165 (4)

Members of the Employee Trust Funds Board and
Mr. Robert J. Conlin, Secretary
Department of Employee Trust Funds

Report on the Financial Statements

We have audited the accompanying Statement of Fiduciary Net Position, Statement of Changes in Fiduciary Net Position, and the related notes for the following fiduciary funds administered by the State of Wisconsin Department of Employee Trust Funds (ETF) as of and for the year ended December 31, 2016: the Wisconsin Retirement System, Duty Disability Insurance, Accumulated Sick Leave Conversion Credits, State Retiree Life Insurance, Local Retiree Life Insurance, Employee Reimbursement Accounts and Commuter Benefits, Milwaukee Retirement Systems, State Retiree Health Insurance, and Local Retiree Health Insurance. In addition, we have audited the accompanying Statement of Net Position; Statement of Revenues, Expenses, and Changes in Fund Net Position; Statement of Cash Flows; and the related notes for the following proprietary funds administered by ETF as of and for the year ended December 31, 2016: Long-Term Disability Insurance, Health Insurance, Income Continuation Insurance, and Life Insurance.

Management's Responsibility for the Financial Statements

Management of ETF is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America. This includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, which is issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

FINANCIAL SECTION

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions on these financial statements.

Opinions

In our opinion, the financial statements present fairly, in all material respects, the financial position of each fiduciary fund and each proprietary fund referred to in the first paragraph as of December 31, 2016, and the respective changes in the financial position and, where applicable, cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphases of Matter

As discussed in Note 1 to the financial statements, the financial statements referred to in the first paragraph present only the fiduciary and proprietary funds administered by ETF and do not purport to, and do not, present fairly the financial position of the State of Wisconsin as of December 31, 2016, the changes in its financial position, or where applicable, its cash flows for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

As discussed in Note 2 to the financial statements, ETF implemented Governmental Accounting Standards Board (GASB) Statement Number 72, *Fair Value Measurements and Application*, which addresses accounting and reporting issues related to fair value measurements.

As discussed in Note 3 to the financial statements, the financial statements include investments that do not have readily ascertainable market prices and are valued based on a variety of third-party pricing methods. However, because of the inherent uncertainty of valuation, those estimated values may differ from the values that would have been used had a ready market for the investments existed.

Our opinions are not modified with respect to these matters.

Other Matters

Required Supplementary Information—Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 18 through 28, and the following information found on pages 80 through 90 be presented to supplement the financial statements: claims development information for public entity risk pools; the Wisconsin Retirement System's Schedules of Changes in Net Pension Liability (Asset) and

Related Ratios, Schedule of Employer Contributions, and Schedule of Investment Returns, which include the related notes; and the Other Post-Employment Benefits Schedule of Funding Progress and Schedule of Employer Contributions. Such information, although not a part of the financial statements, is required by GASB, which considers it to be essential for placing the financial statements in an appropriate operational, economic, or historical context. In accordance with auditing standards generally accepted in the United States of America, we have applied certain limited procedures to the required supplementary information that included inquiries of management about the methods of preparing the information. We further compared the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to do so.

Accompanying Information—Our audit was conducted for the purpose of forming opinions on the financial statements referred to in the first paragraph. The supplementary information included in the sections listed in the table of contents entitled Introductory Section, Statistical Section, Actuarial Section, Investment Section, and Contributions Paid and Employer Unfunded Liability Balances is presented for purposes of additional analysis and is not a required part of the financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated December 6, 2017, on our consideration of ETF's internal control over financial reporting; our tests of its compliance with certain provisions of laws, regulations, and contracts; and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be used when considering ETF's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Management of the Wisconsin Department of Employee Trust Funds (ETF) presents this discussion and analysis of the financial activities for the year ended December 31, 2016. This narrative is intended to supplement the financial statements which follow, and should be read in conjunction with the note disclosures which are an integral part of the financial statements.

ETF administers a defined benefit pension trust and other employee benefit plans for over 622,000 members, retirees, and beneficiaries.

Overview of the Financial Statements

The following discussion and analysis is intended to serve as an introduction to ETF's financial statements. The financial statements include:

1. Statement of Fiduciary Net Position
2. Statement of Changes in Fiduciary Net Position
3. Statement of Net Position – Proprietary Funds
4. Statement of Revenues, Expenses, and Changes in Fund Net Position – Proprietary Funds
5. Statement of Cash Flows – Proprietary Funds
6. Statement of Fiduciary Net Position – Agency Funds
7. Statement of Changes in Fiduciary Net Position – Agency Funds
8. Notes to Financial Statements

Funds are categorized as Fiduciary or Proprietary based on the purpose and activities of the fund.

Fiduciary Funds are used to report assets held by ETF as trustee for others and is responsible for handling the assets placed under its control. The Fiduciary Funds reported by ETF include: Wisconsin Retirement System (WRS), Duty Disability Insurance, Accumulated Sick Leave Conversion Credits, State Retiree Life Insurance,

Local Retiree Life Insurance, Employee Reimbursement Accounts/Commuter Benefits, and Milwaukee Retirement Systems.

The activities in the Proprietary Funds operate similar to a private business. Fees are charged for services provided, and the focus is on determining financial position, operating and non-operating income, cash flows, and changes in net position. The Proprietary Funds reported by ETF include: Long-Term Disability Insurance, Active Member Health Insurance, Income Continuation Insurance, and Life Insurance.

Agency Funds are Fiduciary Funds where the assets of the fund are held for distribution by the Department as an agent for which ETF has custodial responsibility and accounts for the flow of assets. The Agency Funds reported by ETF include: State Retiree Health Insurance and Local Retiree Health Insurance.

Financial Statements

The Statement of Net Position provides a snapshot of account balances at a point in time. It reports the assets available for future payments to benefit recipients, along with any liabilities that are owed as of the statement date. The difference between assets and liabilities, called "Net Position Held in Trust for Pension Benefits and Pool Participants" for Fiduciary Funds and "Net Position – Restricted (Unrestricted) for Benefits" for Proprietary Funds, represents the value of assets held in trust for future benefit payments.

The Statement of Changes in Fiduciary Net Position for Fiduciary Funds and The Statement of Revenues, Expenses, and Changes in Fund Net Position – Proprietary Funds displays the effect of financial transactions that occurred during the calendar year. For Fiduciary funds, Additions less Deductions equals the Net Increase (or Net Decrease) in Net Position. For Proprietary Funds, Revenues less Expenses equals the Change in Net Position. This Net Increase (or Decrease) reflects the change in the value of Net Position that occurred between the current and prior year.

FINANCIAL SECTION

Notes to the Financial Statements are an integral part of the financial statements and provide additional information that is essential for a comprehensive understanding of the data reported in the financial statements. The Notes describe the accounting and administrative policies under which ETF operates, significant account balances and activities, material risks, obligations, contingencies and subsequent events, if any.

The Required Supplementary Information includes:

- Public Entity Risk Pools Claims Development
- Schedule of Changes in Net Pension Liability (Asset) and Related Ratios-WRS
- Schedule of Employer Contributions-WRS
- Schedule of Investment Returns-WRS
- Schedule of Funding Progress-Other Post-Employment Benefits
- Schedule of Employer Contributions-Other Post-Employment Benefits

The financial statements and related notes are prepared in accordance with Generally Accepted Accounting Principles established by the Governmental Accounting Standards Board (GASB).

Financial Highlights

- Overall Net Position of all Funds increased by \$4.2 billion or 4.65% from \$89.8 billion in 2015 to \$94.0 billion in 2016. This was primarily a result of higher returns on investments due to more favorable market conditions in 2016. See Net Position by Program table below.
- Total Additions/Revenues for 2016 were \$11.0 billion which consisted mostly of contributions of \$3.4 billion and investment gains of \$7.6 billion.
- Total Deductions/Expenses for 2016 increased by 1.7% from \$6.7 billion in 2015 to \$6.8 billion in 2016 due to an increase in the number of benefit recipients.
- The WRS funding ratio under the funding methodology used to establish required contributions continues to be nearly 100% as of December 31, 2016. Under the GASB financial reporting method, the WRS is 99.1% funded as of December 31, 2016.
- As of December 31, 2016, the WRS had a net pension liability of \$824 million compared to \$1.625 billion as of December 31, 2015. The decrease of approximately \$801 million is primarily attributable to higher returns on investments due to stronger market conditions in 2016. Total Pension Liability increased from \$90.1 million in 2015 to \$93.4 million in 2016.

Analysis of WRS Financial Activity

The WRS is a cost-sharing, multiple-employer public employee retirement system established and administered by the State of Wisconsin to provide pension benefits for state and local government employees. The system is administered in accordance with Chapter 40 of the Wisconsin Statutes. ETF, under the direction of the ETF Board, is responsible for administration of the WRS, including collecting contributions from employers and paying retirement benefits to WRS participants, and the State of Wisconsin Investment Board (SWIB) is responsible for managing WRS investments.

Life Insurance	268	253	15	5.93%
Total	93,986,855	89,810,246	4,176,609	4.65%

Totals may not foot due to rounding

The system's funding objective is to meet its long-term benefit obligations through contributions and investment income. The tables below show the change in the Summary Statement of Fiduciary Net Position and Summary Statement of Changes in Fiduciary Net Position for 2016 as compared to 2015. Contributions and the income from investments provide the reserves needed to finance the benefits provided under the plans.

Special Districts	208	207
Total Employers	1,495	1,487

FINANCIAL SECTION

CONTRIBUTIONS AND INVESTMENT EARNINGS

The retirement benefits provided by the WRS are funded from pension trust fund revenue. The primary sources of revenue are investment income generated from the investment of plan assets and contributions for active members made by members and their employers.

Total contributions and investment earnings for the year ended December 31, 2016, was \$9.2 billion. This was an increase of \$7.9 billion compared to 2015. As the table below shows, Contributions remained relatively stable at \$1.9 billion, while Investment Income increased by \$7.9 billion due to more favorable market conditions in 2016 compared to 2015.

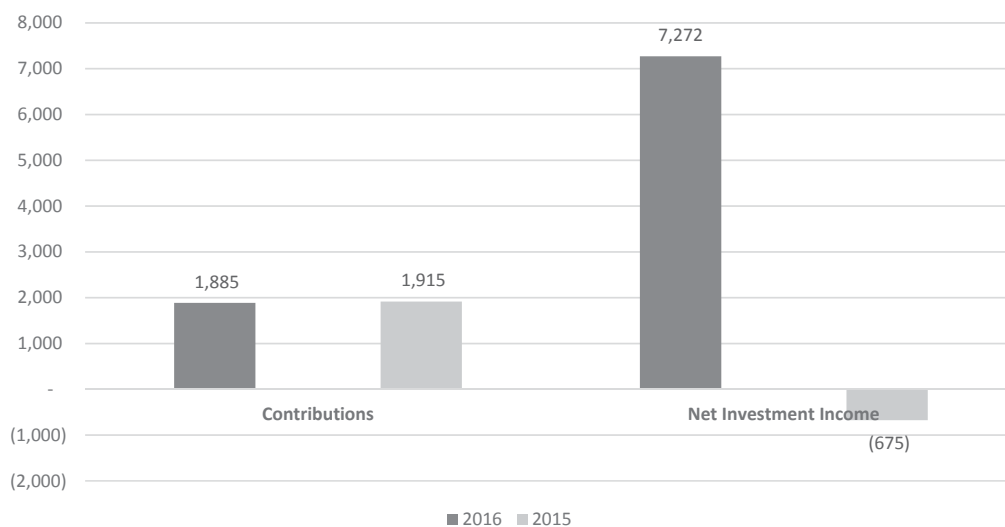

The assets of the WRS are valued at fair value and are invested in the Core Retirement Investment Trust (Core Fund) and the Variable Retirement Investment Trust (Variable Fund). All WRS members have at least half, if not all, of their pension contributions invested in the Core Fund. The Core Fund is a diversified, balanced fund

invested for the long-term needs of the WRS.

Diversification helps to stabilize the effects of market changes. The investment objective of this trust fund is to meet or exceed an average 7.2% annual nominal return over the long-term. This objective is based on market rate of return and actuarial assumptions needed to meet the obligations of the WRS. The Variable Fund allows active employees participating in the WRS to put up to half of their pension fund contributions into this global stock fund. Approximately 16% of WRS members participate in the Variable Fund. By law, the Variable fund invests in stocks and provides participants the potential for higher returns in exchange for higher risk. The investment objective of the Variable Fund is to meet or exceed broad equity market indices over a full market cycle.

SWIB is responsible for managing the assets of WRS. See Note 3 for additional information on Investments and Securities Lending Transactions.

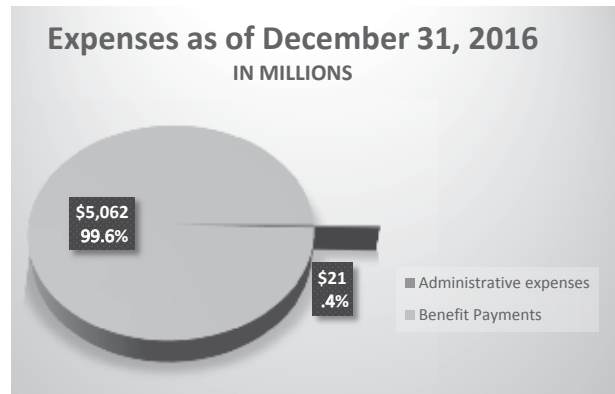

Contributions and Net Investment Income
(IN MILLIONS)

EXPENSES – DEDUCTIONS FROM PLAN NET POSITION

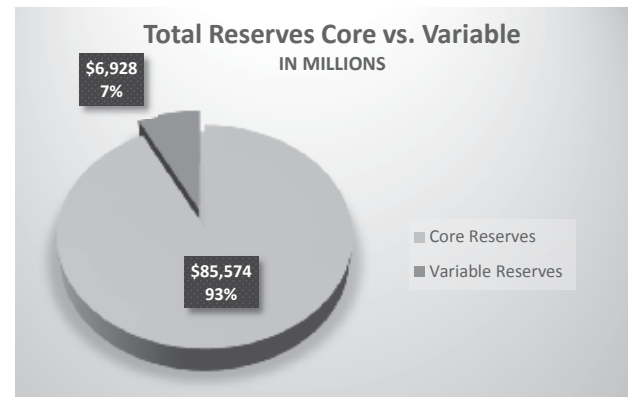

The primary expenses of the WRS include annuity benefits for retirees and beneficiaries, refunds of contributions to former members and expenses associated with the administration of the retirement plans. Benefit payments for 2016 totaled \$5,062 million, an increase of \$201 million or 4.13% over the 2015 amount of \$4,861 million. This was due to the number of retired participants increasing from 191,795 as of December 31, 2015, to 197,647 as of December 31, 2016. Administrative Expenses of approximately \$21 million accounted for less than 1% of the deductions to Net Position in 2016 and was a \$2 million decrease from \$23 million in 2015.

Investment Expenses are deducted from Investment Income and were \$391 million in 2016, an increase of 11.7% from \$350 million in 2015. Approximately \$17 million of this increase is due to a change in recording private equity management fees. See Note 2 for additional information.

RETIREMENT RESERVES

The funds accumulated by the WRS to meet current and future obligations to retirees and beneficiaries are derived from the excess of revenue over expenses. Reserves have been established to reflect legal restrictions established by Wisconsin Statutes on the use of funds. The higher level of funding a plan achieves, the larger the accumulation of assets and the greater the investment income potential. In 2016 revenue exceeded expenses, leading to an increase of \$4,098 million in the retirement reserves. The increase was related primarily to the increase in investment earnings in 2016. The reserves are invested in either the Core Fund or the Variable Fund. 93% of the reserves are invested in the Core Fund and 7% are invested in the Variable Fund.

SUMMARY OF PENSION PLAN RESERVE BALANCES

Total Reserves	\$ 92,502	4,098	\$ 88,404

FINANCIAL SECTION

ACTUARIAL VALUATIONS AND FUNDING PROGRESS – PENSION PLAN

ETF's actuarial firm performs an actuarial valuation of the WRS each year to determine funding requirements and establish contribution rates. The funding policy provides for periodic employer contributions at actuarially determined rates that will remain relatively level over time as a percentage of payroll and will accumulate sufficient assets to meet the costs of all benefits when due. The latest valuation of the pension plan was performed by Gabriel Roeder Smith & Company (GRS). Under the funding methodology, the WRS remains nearly 100% funded as of December 31, 2016. For financial reporting purposes, a funding ratio is calculated in accordance with GASB pension accounting standards. Under these standards, the WRS was 99.1% funded as of December 31, 2016.

Analysis of Financial Activities – Other Employee Benefit Plans

DUTY DISABILITY INSURANCE PROGRAM

The Duty Disability Insurance Program pays special disability benefits to protective occupation participants in the WRS. The plan is self-insured, and the risk is shared between the State of Wisconsin and Local government employers in the plan.

During 2016, the Duty Disability Insurance Program collected \$3.8 million in contributions from participating employers, a 56% decrease from \$8.6 million in 2015 due to lower contribution rates. The program paid benefits and expenses of \$34.4 million during 2016 compared to \$33 million in 2015.

The Duty Disability Insurance Program had a net position held in trust of \$592.8 million at December 31, 2016. This was an increase of \$14.6 million from a \$578.2 million net position held in trust as of December 31, 2015. The program experienced investment income of \$46.5 million in 2016 compared to an investment loss of \$4.3 million in 2015.

At December 31, 2016, approximately 22,223 active members were participating in the program and approximately 1,007 former members were receiving benefits. Additional information for the Duty Disability Insurance Program can be found in Note 9.

ACCUMULATED SICK LEAVE CONVERSION CREDITS (ASLCC) PROGRAM

The ASLCC Program allows retirees of the State of Wisconsin, the University of Wisconsin (UW) System, the UW Hospital & Clinics Authority and other state authorities, at the time of their retirement, to convert the value of their unused sick leave accumulation into an account to be used to pay for post-retirement health insurance.

During 2016, the ASLCC Program collected \$52.2 million in contributions from participating employers compared to \$65.1 million in 2015. The program incurred expenses of \$227 million in 2016, an increase of \$28 million from the \$199 million in 2015. The change in actuarially determined liabilities from year to year impacts expenses and was the primary reason for the increase.

The ASLCC Program had an unrestricted net position of -\$102 million at December 31, 2016. This was an increase of \$10 million from a -\$112 million net position held in trust as of December 31, 2015. Investment income in the amount of \$185 million for 2016 compared to the 2015 investment loss of \$17 million is the main reason for the \$10 million increase in net position compared to the prior year decrease in net position of \$152 million.

There were 100,580 ASLCC participants as of December 31, 2016, an increase of 2.7% over the previous year. Participants include 71,587 active employees; 23,256 retirees and others using ASLCC credits; and 5,737 "escrowed annuitants" – former employees who have not yet started using credits from their ASLCC accounts.

STATE RETIREE LIFE INSURANCE PLAN

The State Retiree Life Insurance Plan provides fully paid up life insurance benefits for post-age 64 retired employees of the State of Wisconsin and pre-65 retirees who pay for their coverage.

During 2016, the State Retiree Life Insurance Plan collected \$4.9 million in contributions from participating employers and employees compared to \$4.7 million collected in 2015. The plan incurred expenses of \$22 million during 2016 compared to \$20 million in 2015.

The State Retiree Life Insurance Plan had a net position held in trust of \$357.4 million at December 31, 2016. This was a decrease of \$5.1 million from a \$362.5 million net position in 2015. An increase in benefit expenses of \$2.4 million in 2016 compared to the benefit expenses paid in 2015 is the main reason for the \$5.1 million decrease in net position compared to the prior year decrease in net position of \$2.2 million.

There were 30,894 members participating in the State Retiree Life Insurance Plan in 2016 which was a 4.7% increase in participants from 2015.

LOCAL RETIREE LIFE INSURANCE PLAN

The Local Retiree Life Insurance Plan provides fully paid up life insurance benefits for post-age 64 retired employees of participating local governments in Wisconsin and pre-65 retirees who pay for their coverage.

During 2016, the Local Retiree Life Insurance Plan collected \$7.5 million in contributions from participating employers and employees compared to \$7.4 million during 2015. The plan incurred expenses of \$16 million in 2016, consistent with the expenses in 2015.

The Local Retiree Life Insurance Plan had a net position held in trust of \$243 million at December 31, 2016, which was relatively consistent with the net position as of December 31, 2015. Investment income decreased slightly in 2016, to \$8.2 million from \$8.7 million in 2015.

There were 42,498 members participating in the Local Retiree Life Insurance Plan in 2016 which was a 3.6% increase in participants from 2015.

EMPLOYEE REIMBURSEMENT ACCOUNTS/ COMMUTER BENEFITS

The Employee Reimbursement Accounts Program reimburses qualifying medical and dependent care expenses, while the Commuter Benefits Program reimburses qualifying transportation expenses, for employees of the State of Wisconsin who sign up for pre-tax payroll deductions.

During 2016, the Employee Reimbursement Accounts/Commuter Benefits programs collected \$36 million in contributions from participating employees compared

to \$31 million during 2015 due to a 19.7% increase in program participants as compared to 2015. The program paid benefits and expenses were \$36 million in 2016, which was an increase of \$5 million from the \$31 million in 2015.

The Employee Reimbursement Accounts/Commuter Benefits programs had a net position held in trust of \$1.8 million at December 31, 2016. This was an increase of approximately \$600,000 compared to 2015.

There were 17,562 members that used the medical and 3,284 that used dependent care accounts in 2016 compared to 14,496 medical and 2,964 dependent care accounts in 2015. 2,290 members used the commuter benefit program in 2016, compared to 1,869 in 2015.

MILWAUKEE RETIREMENT SYSTEM PROGRAM

The Milwaukee Retirement System Program allows other retirement systems to have their funds invested with the WRS. Since 2014, the Milwaukee Retirement System only included investments from the Milwaukee Public Schools Supplemental Retirement Program.

During 2016, the Milwaukee Retirement System deposited \$7 million as compared to \$2 million in 2015. The program distributed \$10 million in 2016, a decrease of \$6 million in distributions from 2015. The fund experienced an investment gain of \$14.4 million in 2016 compared to an investment loss of \$1.5 million in 2015.

The Milwaukee Retirement System had a fiduciary net position held in trust of \$182.7 million at December 31, 2016. This was an \$11.3 million increase in net position from \$171.4 million in 2015. Additional information on the Milwaukee Retirement System can be found in Note 10.

INCOME CONTINUATION INSURANCE (ICI) PROGRAM

The ICI Program pays disability benefits for employees of the State of Wisconsin and participating local governments in Wisconsin, who enroll in the program. Employee premiums are based on sick leave accumulation and the waiting period selected.

FINANCIAL SECTION

During 2016, the ICI Program collected \$20.4 million in contributions from participating employers, an increase from \$16.8 million collected during 2015. The program incurred expenses of \$29.4 million during 2016. This is an increase of \$3.5 million from the \$25.9 million in benefits and expenses in 2015.

The ICI Program had a net position restricted for benefits of \$2.8 million at December 31, 2016. This was a decrease of \$2.2 million from a \$5 million net position in 2015. The fund experienced an investment gain of \$6.7 million during 2016 compared to an investment loss of \$596 thousand in 2015.

At December 31, 2016, approximately 58,434 total members were participating in ICI. This includes 8,710 Local employees and 49,724 State employees. Local employees had an increase of 1.3% and State employees had a .09% decrease in members participating. More information about the ICI Program can be found in Note 8.

LONG TERM DISABILITY INSURANCE (LTDI) PROGRAM

The LTDI Program provides disability coverage to some participants in the WRS. WRS Participants prior to October 16, 1992 may choose between LTDI and traditional WRS Disability benefits. Participants beginning after that date are eligible only for LTDI benefits.

During 2016, the LTDI Program collected \$71.3 million in contributions from employers which was a 64.8% increase compared to the \$43.3 million collected during 2015. The increase was mainly due to an increase in contribution rates. Approved contribution rates for 2016 were 0.52% of covered payroll compared to 0.32% in 2015. The program incurred expenses of \$71.7 million during 2016. This is a decrease of \$8.8 million from the \$80.5 million in 2015. The change in actuarially determined liabilities from year to year impacts expense and was the primary reason for the decrease.

The LTDI Program had a net position unrestricted for benefits of -\$109 million at December 31, 2016. This was an increase of \$19 million from a -\$128 million net position in 2015. Investment gains during 2016 were \$19 million compared to an investment loss of \$1.6 million in 2015. More information about the LTDI Program can be found in Note 8.

In August of 2017, the Governor approved a change in Administrative Code to close the LTDI program. The Legislature's Joint Committee on Review of Administrative Rules review concluded in November 2017. As a result, the LTDI program will be closed to new applicants effective January 1, 2018.

LIFE INSURANCE PLAN

The Life Insurance Plan provides life insurance coverage for current active employees of the State of Wisconsin and participating local governments in Wisconsin.

During 2016, the Life Insurance Plan collected \$896 thousand in administrative reimbursement income from participating employers and paid administrative expenses of \$896 thousand. This is an increase of \$314 thousand from 2015.

The Life Insurance Plan had a net position restricted for benefits of \$268 thousand at December 31, 2016. This was an increase of \$15 thousand from a \$253 thousand net position in 2015. More information about the Life Insurance Plan can be found in Note 8.

ACTIVE MEMBER HEALTH INSURANCE PROGRAM

The Active Member Health Insurance Program is a comprehensive benefit plan providing coverage for active employees of state and participating local governments. State and local retiree health programs are discussed separately following this program. The state and local health plans each include separately managed risk pools for medical, pharmacy and dental benefits.

During 2016, ETF collected \$1,327 million in contributions from participating employers, a decrease of \$60 million from 2015, and incurred expenses of \$1,291 million, a decrease of \$109 million from 2015.

The Active Member Health Insurance Program had a net position restricted for benefits of \$237 million at December 31, 2016. This was an increase of \$54 million from a \$183 million net position in 2015. The program experienced an investment gain of \$17.8 million during 2016 compared to an investment loss of \$1.5 million in 2015.

At December 31, 2016, approximately 81,492 active members from both state and local governments were participating in the Active Member Health Insurance Program.

STATE RETIREE HEALTH INSURANCE PLAN

Through the State Retiree Health Insurance Plan, participants may choose between self-insured health plans and alternate health plans with specific provider networks (i.e. HMOs). Required premiums are collected from retired employees of the State of Wisconsin.

Pre-Medicare retirees included in this plan are subsidized by paying active member premiums. A surplus in the Active Member Health Insurance Program offsets the shortfall in the Retiree Health Insurance Plan. Due to (From) Employers reflects the accumulated deficit incurred by the plan. The accumulated deficit is \$67 million as of December 31, 2016, a decrease of \$7 million from a deficit of \$74 million in 2015. Total assets as of December 31, 2016, were \$37.9 million, an increase of \$8.6 million from 2015.

Total liabilities as of December 31, 2016, were \$37.9 million, an increase of \$8.6 million from \$29.3 million in 2015. The balance of the loan from the Active Member Health Insurance Program was \$82 million as of December 31, 2016, compared to \$91 million as of December 31, 2015. More information about the State Retiree Health Insurance Plan can be found in Note 9.

LOCAL RETIREEE HEALTH INSURANCE PLAN

Through the Local Retiree Health Insurance Plan, participants may choose between self-insured health plans and alternate health plans with specific provider networks (i.e. HMOs). Required premiums are collected from retired employees of participating local government employers in Wisconsin.

Pre-Medicare retirees included in this plan are subsidized by paying active member premiums. A surplus in the Active Member Health Insurance Program offsets the shortfall in the Retiree Health Insurance Plan. Due to (From) Employers reflects the accumulated deficit incurred by the plan. The accumulated deficit is \$20 million as of December 31,

2016, an increase of \$1 million from a deficit of \$19 million in 2015. Total assets as of December 31, 2016, were \$3.8 million, an increase of \$800 thousand as compared to 2015.

Total liabilities as of December 31, 2016, were \$3.8 million, an increase of \$800 thousand from \$3 million in 2015. The balance of the loan from the Active Member Health Insurance Program was \$19 million as of December 31, 2016, compared to \$20 million as of December 31, 2015. More information about the Local Retiree Health Insurance Plan can be found in Note 9.

Capital Asset Activity

As of December 31, 2016, the total value of capital assets was \$29 million less accumulated depreciation of \$3.2 million for a net capital asset value of \$25.8 million. Compared to 2015 at which time the total value of capital assets was \$16.8 million less accumulated depreciation of \$2.9 million, for a net capital asset value of \$13.9 million. The \$11.9 million increase from 2015 to 2016 was due to the continuing capitalization of a Benefit Administration System program, an internally generated software program that will improve how ETF provides services and benefits to employers and employees. For additional information on Capital Assets, please refer to Note 1.

Financial Contact

This financial report is designed to provide a general overview of ETF's finances and to demonstrate its accountability with the assets it holds in trust. Questions concerning any of the information provided in this report should be addressed to ETF at P.O. Box 7931, Madison, Wisconsin, 53707-7931.

NOTES TO FINANCIAL STATEMENTS

1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Presentation Basis

The financial statements of the Wisconsin Department of Employee Trust Funds (ETF) have been prepared in conformity with Generally Accepted Accounting Principles (GAAP) for government units as prescribed by the Governmental Accounting Standards Boards (GASB). ETF is not a general-purpose government and does not present government-wide statements. ETF is included in the State of Wisconsin financial reporting entity and is presented in the State's Comprehensive Annual Financial Report as a "Pension and Other Employee Benefit Trust Fund."

The assets and operations of ETF are accounted for in the following funds:

Fiduciary Funds

Pension and Other Employee Benefit Trust Funds

Wisconsin Retirement System (WRS): This fund is used to account for the collection of employee and employer contributions; investment of assets; and payment of retirement, disability, and death benefits to former employees, and their beneficiaries, of the State of Wisconsin and participating local governments in Wisconsin.

Accumulated Sick Leave Conversion Credits (ASLCC):

This fund is used to account for the collection of employer contributions, investment of assets, and purchase of post-retirement health insurance for retired employees of the State of Wisconsin and their beneficiaries. This benefit allows employees, at the time of their retirement, to convert the value of their unused sick leave accumulation into an account to be used to pay for post-retirement health insurance. The value of their account may also be increased by an employer match of part or all of their unused sick leave accumulation.

State Retiree Life Insurance: This fund is used to account for the accumulation of assets and the payment of life insurance benefits for retired employees of the State of Wisconsin.

Local Retiree Life Insurance: This fund is used to account for the accumulation of assets and the payment of life insurance benefits for retired employees of participating local governments in Wisconsin.

Employee Reimbursement Accounts/Commuter Benefits: This fund is used to account for the collection of voluntary payroll deferrals, investment of assets, and reimbursement of qualifying medical, dependent care, and transportation expenses for employees of the State of Wisconsin, in compliance with Internal Revenue Code (IRC) Section 125 and Section 132.

Duty Disability Insurance: This fund is used to account for the collection of employer contributions, investment of assets, and payment of special disability benefits to protective occupation participants in the WRS.

Investment Trust Fund

Milwaukee Retirement Systems: These funds are used to account for the receipt, investment, and disbursement of funds from other public pension funds in Wisconsin.

Agency Funds

State Retiree Health Insurance: This fund is used to account for the collection of employee and employer contributions, the investment of assets, the purchase of health insurance coverage, and the payment of health insurance claims for retired employees of the State of Wisconsin.

Local Retiree Health Insurance: This fund is used to account for the collection of employee and employer contributions, the investment of assets, the purchase of health insurance coverage, and the payment of health insurance claims for retired employees of participating local governments in Wisconsin.

Proprietary Funds

Enterprise Funds

Long-Term Disability Insurance: This fund is used to account for the collection of contributions, investment of assets, and payment of disability benefits to participants in the WRS.

Health Insurance: This fund is used to account for the collection of employee and employer contributions, the investment of assets, the purchase of health insurance coverage, and the payment of health insurance claims for current employees of both the State of Wisconsin and participating local governments in Wisconsin.

Income Continuation Insurance: This fund is used to account for the collection of employee and employer contributions, the investment of assets, and the payment of disability benefits for employees of both the State of Wisconsin and participating local governments in Wisconsin.

Life Insurance: This fund is used to account for the collection of employee and employer contributions and the purchase of life insurance coverage for current employees of both the State of Wisconsin and participating local governments in Wisconsin.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The principal ongoing operations for these proprietary funds are: collecting premiums and using the accumulated premiums and investment income to pay benefits. Revenues and expenses not directly related to the principal ongoing operations are classified as non-operating.

Department-wide administrative expenses, capital assets, and general fund activities are most closely associated with the WRS fund and have been blended with that fund for presentation. All material intrafund transactions have been eliminated from fund financial statements. Interfund transactions have not been eliminated.

Measurement Focus and Basis of Accounting

The financial statements of ETF have been prepared in accordance with GAAP. The WRS, Duty Disability Insurance, Accumulated Sick Leave Conversion Credits, Employee Reimbursement Accounts/Commuter Benefits, and Retiree Life Insurance Funds are accounted for using the flow of economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, contributions are recognized in the accounting period in which the underlying earnings on which the contributions are based are paid and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan. Security transactions and the related gains and losses are recorded on a trade date basis. Dividend income is recorded on the ex-dividend date, and interest income is accrued as earned.

The State Retiree and Local Retiree Health Insurance Funds are accounted for using the accrual basis of accounting, but have no measurement focus by virtue of their custodial nature. All other funds are accounted for using the flow of economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

Investments

The assets of the WRS and the Milwaukee Retirement System are valued at fair value and are invested in the Core Retirement Investment Trust (Core Fund) and the Variable Retirement Investment Trust (Variable Fund), which are collectively the Retirement Funds. The assets of the Income Continuation Insurance, Duty Disability Insurance, Long-Term Disability Insurance, Health Insurance, State Retiree Health Insurance, Local Retiree Health Insurance, and Accumulated Sick Leave Conversion Credit Programs are invested in the Core Fund. Earnings are allocated between the WRS and other benefit programs based on the average balance invested for each program. Earnings allocated to other benefit programs are classified as "Investment Income Distributed to Other Benefit Programs" on the Statement of Changes in Fiduciary Net Position. The total amount invested by the other benefit programs

FINANCIAL SECTION

included in the Retirement Funds is presented as “Core Investment Due Other Benefit Programs” and “Variable Investment Due Other Benefit Programs” on the Statement of Fiduciary Net Position. Investments for the Retiree Life Insurance Funds are held by the plan administrator and classified as “Investment Contracts” on the Statement of Fiduciary Net Position. All other benefit plan assets are invested in the State Investment Fund (SIF). Investments in the SIF are classified as “Equity in Pooled Cash and Cash Equivalents” on the Statement of Fiduciary Net Position and “Cash and Cash

Equivalents” on the Statement of Net Position – Proprietary Funds. The SIF is a pool of cash balances of various state and local government units with the investment objectives to provide safety, liquidity, and competitive rates of return.

The State of Wisconsin Investment Board (SWIB) manages the Retirement Funds and SIF with oversight by the SWIB Board of Trustees, as authorized in Wis. Stat. § 25.17. SWIB is not registered with the Securities and Exchange Commission as an investment company.

Funding Value of Assets

While investments are valued at fair value for financial statement presentation, a funding value of assets is used in evaluating the funded status of the benefit plans and in determining future contribution requirements. Funding value does not include deferred market gains and losses that have not yet been distributed from the Market Recognition Account (MRA) to the program reserves. See Note 7 for further explanation of the MRA. As of December 31, 2016, the funding value of reserves (In millions) was as follows:

Benefit Plan	Reserves at Funding Value	Deferred Market Gains (Losses)	Reserves at Fair Value
Wisconsin Retirement System	\$95,511.0	\$(2,930.9)	\$92,580.1
Income Continuation Insurance ⁽¹⁾	(4.0)	6.8	2.8
Duty Disability Insurance	616.1	(23.3)	592.8
Long-Term Disability Insurance ⁽¹⁾	(74.4)	(35.0)	(109.4)
Accumulated Sick Leave Conversion Credits ⁽¹⁾	(8.5)	(93.6)	(102.1)
Health Insurance ⁽¹⁾	251.8	(14.5)	237.3
State Retiree Health Insurance ⁽¹⁾	(71.6)	4.3	(67.3)
Local Retiree Health Insurance ⁽¹⁾	(20.1)	0.1	(20.0)

⁽¹⁾ The Reserves at Funding Value and the Reserves at Fair Value for Income Continuation Insurance, Long-Term Disability Insurance, Accumulated Sick Leave Conversion Credits, Health Insurance, and State and Local Retiree Health Insurances have been reduced by the estimated future claims for the benefit plan.

Administrative Expenses

The administrative costs of all ETF programs are financed by a separate appropriation and are allocated to each benefit plan administered by ETF in accordance with Wis. Stat. § 40.04. The sources of funds for this appropriation are investment earnings and third-party reimbursements received from the various programs administered by ETF. Total administrative expenses for the year were approximately \$21 million.

SWIB incurs expenses related to investing the trust funds. As authorized by Wis. Stat. § 25.187 (2), these costs are charged directly to the investment income of each trust fund.

Capital Assets

Capital assets consist of office furniture and equipment and computer software (purchased or externally acquired and internally generated software). ETF capitalizes all furniture and equipment, and purchased computer software with a purchase price in excess of \$5,000, and internally-generated software and other intangible assets in excess of \$1 million. Assets are depreciated on a composite basis over an estimated life, ranging from 5 to 20 years, using the straight-line method of depreciation.

As of December 31, 2016, the total value of capital assets was \$29 million, less accumulated depreciation of \$3.2 million for a net capital asset value of \$25.8 million. The net capital asset value includes \$25.6 million in internally-generated software, and \$82,815 in purchased software.

Long-Term Liabilities

The Accumulated Sick Leave Conversion Credit Fund reports an actuarially-determined liability for future benefits. The liability is determined using the Frozen Initial Liability actuarial cost method and actuarial assumptions that include a 7.2% long-term rate of investment return and a 3.2% annual base salary increase.

During 2016, the liability changed as follows (In Millions):

Beginning balance	\$ 2,410
Plus: New Liabilities Recognized	227
Less: Benefits Paid	<u>(168)</u>
Ending Balance	<u>\$2,469</u>

The portion estimated to be due within one year is \$181 million.

Interfund Assets / Liabilities

Interfund assets and liabilities at December 31, 2016, consist of the following (In Thousands):

Due to Other Funds	Due From Other Funds														Total
	Wisconsin Retirement System	Employee Reimbursement Account (ERA) & Commuter Benefits	Long-Term Disability Insurance	Health Insurance	State Retiree Health Insurance	Local Retiree Health Insurance	Life Insurance	State Retiree Life Insurance	Local Retiree Life Insurance	Duty Disability	Income Continuation Insurance	Sick Leave	Deferred Comp		
Wisconsin Retirement System		382	7,469	4,629	1,499	138	549	39	52	755	436	390	44	16,382

State Retiree Health Insurance	5,109			2,061		2,145								9,315	
Local Retiree Health Insurance	1,025			513										1,538	
Life Insurance	4			7										11	
Duty Disability	271													271	
Income Continuation Insurance	2			10,436										10,438	
Sick Leave	4,190													4,190	
Total	81,879	382	7,469	17,667	7,812	2,456	549	39	52	755	436	390	44	119,930	

The outstanding balances between funds result from the time lag between the dates that interfund services are provided or reimbursable expenditures occur and when payments between funds are made. The amount due from Long-Term Disability Insurance (LTDI) to the WRS are for Additional Contributions made by LTDI to WRS but not allocated to the WRS prior to year-end. The amount due to LTDI represents insurance premiums owed by the WRS to LTDI for coverage of WRS participants. The increase in interfund balances for the other programs is mostly attributable to earnings and contributions allocations calculated after year-end. All liabilities are expected to be paid within one year of the balance sheet date.

FINANCIAL SECTION

Interfund Receivables / Payables

Interfund Receivables and Payables represent short-term loans from one fund to another to cover cash overdrafts. Interfund receivables/payables at December 31, 2016, consist of the following (In Thousands):

Interfund Receivables							
Interfund Payables	Health Insurance	State Retiree Health Insurance	Local	Life Insurance	State	Local	Total
			Retiree Health Insurance		Retiree Life Insurance	Retiree Life Insurance	
State Retiree Health Insurance	81,986						81,986
Local Retiree Health Insurance	19,243						19,243
State Retiree Life Insurance				11			11
Local Retiree Life Insurance				15			15
Total	101,229			26			101,255

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates that affect amounts reported herein. Due to the inherent uncertainty involved, actual results could differ from those estimates.

2 ACCOUNTING CHANGES

During the year ended December 31, 2016, WRS adopted GASB Statement No. 72, Fair Value Measurement and Application, which addresses accounting and reporting related to fair value measurements. This Statement requires disclosures to be made about fair value measurements, the level of fair value hierarchy and valuation techniques. Although the adoption did not materially change the way in which the Retirement Funds' assets and liabilities are measured, it did result in enhanced disclosures, found in note 3.

Effective January 1, 2016, WRS instituted a change in the method of recording private equity management fees. In previous reporting periods, WRS recorded such fees net of offsets, deferrals and waivers. Beginning with calendar year 2016, private equity management fees are reported on a gross basis, to better align with industry changes and permit more consistent reporting of these fees. In calendar year 2016, the change in method results in an increase of approximately \$17 million in "Investment Income" and a corresponding increase in "Investment Expense" on the Statement of Changes in Fiduciary Net Position. This change has no impact on Retirement Funds reported beginning "Net Position."

As of December 31, 2016, we changed the classification of the State and Local Retiree Life Insurance funds' investments on the Statement of Fiduciary Net Position. Previously, the investments were shown as "Investment in External Pool" and are now shown as "Investment Contracts." In addition, we have updated Note 9. We believe the changes more accurately reflect and disclose the investment assets of the State and Local Retiree Life Insurance Funds. These changes have no effect on the net position of the State and Local Retiree Life Insurance funds.

3 DEPOSITS, INVESTMENTS AND SECURITIES LENDING TRANSACTIONS

Valuation of Securities

The investments of the Retirement Funds are reported in the Statement of Fiduciary Net Position at fair value as prescribed by GASB and per section 25.17(14) of the Wisconsin Statutes. Unrealized gains and losses are reflected in the Statement of Changes in Fiduciary Net Position as "Net Appreciation (Depreciation) in Fair Value of Investments."

The fair value of the Retirement Funds' assets is obtained or estimated in accordance with a pricing hierarchy established with SWIB's custodian, Bank of New York Mellon (BNY Mellon). As prescribed by the hierarchy, a variety of independent pricing sources are used to price assets based on type, class or issue.

When a portfolio includes securities or instruments for which the custodial bank does not receive fair value information from its vendor pricing sources, a variety of

third party pricing methods are used, including appraisals, pricing models and other methods deemed acceptable by industry standards.

The "Equity in Pooled Cash and Cash Equivalents" account reported on the Statement of Fiduciary Net Position consists of short-term investments which are used to meet the liquidity requirements of the Retirement Funds. Equity in Pooled Cash and Cash Equivalents held by the Retirement Funds can include cash on deposit, foreign currencies, cash posted as collateral to counterparties, repurchase agreements, certificates of deposit, U.S. Treasury Bills, short-term investment funds, and other US or foreign liquid financial instruments with maturities that are generally less than three months. Equity in Pooled Cash and Cash Equivalents are reported at fair value or cost, which approximates fair value.

Privately held debt, which is included in "Fixed Income Investments" on the Statement of Fiduciary Net Position, is priced using approaches that value each holding based on the best available information using the following hierarchy of pricing sources:

1. Custodian supplied prices for assets that can be priced in accordance with the pricing hierarchy established with SWIB's custodian
2. Prices provided by a third party with expertise in the bond market

For alternative investments where no readily ascertainable market value exists, including limited partnerships and real estate pooled funds, fair value is estimated based on the net asset value as reported by the general partner. The capital account balance as stated in the most recent available quarterly reporting period is adjusted for subsequent cash flows to derive fair value. The financial statements of the limited partnerships and real estate pooled funds are audited by independent auditors annually.

Real estate properties wholly owned by SWIB are valued by independent appraisers every three years. In years when appraisals are not performed, properties are informally appraised by the asset advisor. Each year, audited financial statements are prepared for each property.

SWIB employs portfolio strategies which involve investments across multiple asset classes. The "Multi Asset Investment" account on the Statement of Fiduciary Net Position consists primarily of hedge funds. SWIB values hedge funds based on monthly statements or estimated returns received from each of the hedge fund's administrators. A third-party administrator's responsibility is to independently account for the hedge fund's activity and calculate the net asset value of the fund. Generally, hedge fund administrators price financial instruments traded in active markets based on quoted market prices or binding dealer quotations. For certain over-the-counter instruments, fair value is determined based on valuation models used by the administrator. Annually, the financial statements prepared by the administrator are audited by independent auditors.

Derivative financial instruments are marked to fair value daily, with valuation changes recognized in income during the period the instruments are held and when the instrument is sold or expires. The nature and use of derivative instruments is discussed later in these notes.

A limited number of securities are carried at cost. Certain non-public or closely held stocks are not reported at fair value, but are carried at cost since no independent quotation is available to estimate fair value for these securities.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations to SWIB. Fixed income credit risk investment guidelines outline the minimum ratings required at the time of purchase by individual portfolios, or groups of portfolios, based on the portfolios' investment objectives. In addition, some fixed income portfolios are required to carry a minimum weighted average rating at all times. Information regarding SWIB's credit risk related to derivatives is discussed later in these notes.

The table entitled Credit Quality Distribution displays the lowest credit rating assigned by nationally recognized statistical rating organizations on debt securities held by the Retirement Funds as of December 31, 2016. Included in this table are fixed income securities, including certain short term securities, classified as "Equity in Pooled Cash and Cash

FINANCIAL SECTION

Equivalents" on the Statement of Fiduciary Net Position. Also included are interest rate sensitive investments held in the Retirement Funds' securities lending collateral reinvestment pools, which are managed by SWIB's custodian. Additional information regarding the securities lending program is discussed later in these notes.

The table also includes SWIB's investment in commingled fixed income funds which are not rated. Although the funds themselves are not assigned ratings, external management investment guidelines govern minimum credit quality standards for the investments within each portfolio. These standards are determined based on the investment objectives and risk parameters of each fund.

**Retirement Funds

Total	<u>\$35,340,729</u>	<u>100%</u>

Reverse Repurchase Agreements

SWIB held \$1.8 billion in reverse repurchase agreements at December 31, 2016. Investment guidelines permit certain portfolios to enter into reverse repurchase agreements, which are a sale of securities with a simultaneous agreement to repurchase the securities in the future at the same price plus a stated rate of interest. The market value of the securities underlying reverse repurchase agreements exceeds the cash received, providing the counterparty a margin against a decline in market value of the securities. If the counterparty defaults on their obligation to sell these securities back to SWIB or provide cash of equal value, SWIB could suffer an economic loss

equal to the difference between the market value of the underlying securities plus accrued interest and the agreement obligation, including accrued interest.

SWIB enters into reverse repurchase agreements with various counterparties and such transactions are governed by Master Repurchase Agreements (MRA). MRAs are negotiated contracts and contain terms in which SWIB seeks to minimize counterparty credit risk. SWIB also controls credit exposures by limiting trades with any one counterparty to stipulated amounts. The counterparty credit exposure is managed through the transfer of margin, in the form of cash or securities, between SWIB and the counterparty. The Retirement Funds' counterparty credit exposure for reverse repurchase agreements at December 31, 2016 is summarized in the table entitled Reverse Repurchase Agreements, Counterparty Credit Exposure.

**Retirement Funds
Reverse Repurchase Agreements
Counterparty Credit Exposure
As of December 31, 2016
(In Thousands)**

Fair Value of Collateral and Margin Held by Counterparty	\$1,880,936
Less:	
Cash due to Counterparty	1,831,169
Collateral and Interest due to Counterparty	<u>1,207</u>
Total due to Counterparty	<u>1,832,376</u>
Net Counterparty Credit Exposure	<u>\$48,560</u>

The cash proceeds from reverse repurchase agreements are reinvested by the Retirement Funds. The maturities of the purchases made with the proceeds of reverse repurchase agreements are not necessarily matched to the maturities of the agreements. The agreed-upon yields earned by the counterparty for the reverse repurchase agreements held were between 0.65% and 1.2% at December 31, 2016. The reverse repurchase agreements had open maturities, whereby a maturity date is not established upon entering into the agreement; however, interest rates on the agreements are negotiated daily. The agreements can be terminated at the will of either SWIB or the counterparty.

The cash due to counterparties resulting from reverse repurchase agreements is reported as "Obligation Under Reverse Repurchase Agreements" and the interest due to

counterparties is included in "Investment Payables" on the Statement of Fiduciary Net Position. The underlying assets, as well as the reinvested proceeds, are reported in the "Investments at Fair Value" section on the Statement of Fiduciary Net Position.

Custodial Credit Risk

Deposits — Custodial credit risk related to deposits is the risk that, in the event of the failure of a depository financial institution, SWIB will not be able to recover deposits that are in possession of an outside party. Cash deposits totaled \$1,119.2 million as of December 31, 2016. Of the total, \$526.2 million was collateralized by securities borrowed. Depository insurance covered another \$41.4 million of the total. The remaining deposits, totaling \$551.6 million were uninsured and uncollateralized. These uninsured deposits represented balances held in foreign currencies in SWIB's custodian's nominee name, cash posted as collateral for derivatives transactions and cash collateral posted in excess of the market value of securities borrowed by SWIB for short sales. In addition to cash deposits, the Retirement Funds also held \$72.2 million in certificates of deposit, all of which were covered by depository insurance as of December 31, 2016.

Investments — Custodial credit risk for investments is the risk that, in the event of failure of the counterparty to a transaction, SWIB will not be able to recover the value of investments that are in the possession of an outside party. The Retirement Funds held eight repurchase agreements totaling \$455.9 million as of December 31, 2016. These repurchase agreements were tri-party agreements held in a short-term cash management portfolio managed by SWIB's custodian. The underlying securities for these agreements were held by the tri-party's agent, not in SWIB's name.

SWIB's custodial credit risk policy addresses the primary risks associated with safekeeping and custody. It requires that SWIB's custodial institution be selected through a competitive bid process and that the institution be designated a "Systemically Important Financial Institution" by the U.S. Federal Reserve. The policy also requires that SWIB be reflected as beneficial owner on all securities entrusted to the custodian and that SWIB have access to safekeeping and custody accounts. The custodian is also required to be insured for errors and omissions and must provide SWIB with an annual report on internal controls, prepared in accordance with the Statement on Standards for Attestation Engagements (SSAE) No. 16. Furthermore, SWIB management has established a system of controls for the oversight of services and related processes of the custodian. SWIB's current custodial bank was selected in

accordance with these guidelines and meets all requirements stipulated in the custodial credit risk policy.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of an organization's investment in a single issuer. SWIB limits concentrations of credit risk by establishing investment guidelines for individual portfolios or groups of portfolios that generally restrict issuer concentrations in any one company or Rule 144A securities to less than 5% of the portfolio's market value. The Retirement Funds did not hold any investments with a single issuer, exclusive of investments issued or explicitly guaranteed by the U.S. government, representing 5% or more of the Retirement Funds' value at December 31, 2016.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. SWIB uses a number of different methods to manage interest rate risk. Fixed income instruments held by the Retirement Funds include investments with variable rate securities, stepped rate securities, securities with no coupon, such as discount notes, and coupons that range between 0.0% and 12.75% at December 31, 2016.

Generally, SWIB analyzes long or intermediate term portfolios' interest rate risk using various duration calculations. Modified duration, which is stated in years, is the measure of price sensitivity of a fixed income security to an interest rate change of 100 basis points. The calculation is based on the weighted average of the present values for all cash flows. Some investments are analyzed using an option adjusted duration calculation which is similar to the modified duration method. Option adjusted duration incorporates the duration shortening effect of any embedded call provisions in the securities. Duration statistics are weighted by the dollar value of the position to compute an average duration for each investment type.

Short-term portfolios' interest rate risk is analyzed using the weighted average maturity to next reset. Weighted average maturity is the maturity of each position in a portfolio weighted by the dollar value of the position to compute an average maturity for the portfolio as a whole. This measure indicates a portfolio's sensitivity to interest rate changes: a longer weighted average maturity implies greater volatility in response to interest rate changes.

SWIB's investment guidelines related to interest rate risk vary by portfolio. Some fixed income portfolios are required to be managed within a range of a targeted

FINANCIAL SECTION

duration, while others are required to maintain a weighted average maturity at or below a specified number of days or years.

The table entitled Interest Rate Sensitivity by Investment Type presents the aggregated interest rate exposure for the Retirement Funds' assets at December 31, 2016. Weighted average maturity, where reset dates are assumed to be the effective maturity date for the security, is presented for repurchase agreements and short term pooled investments. Longer term instruments held by the Retirement Funds are presented using modified duration, as this measure more accurately states the interest rate sensitivity of these investments. The duration statistic is

calculated utilizing reset dates for some floating rate instruments, such as term loans. Information about the interest rate sensitivity of derivative contracts is discussed later in these notes.

SWIB invests in securities with contractual cash flows, such as asset-backed securities and U.S. government agencies. These types of structured product investments may be highly sensitive to interest rate changes in that they can be subject to early payment in a period of declining interest rates. The resulting changes in timing, or possible reduction in expected total cash flows, affect the fair value of these securities.

Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely impact the fair value of an investment. It includes the risk that currencies in which a portfolio's investments are denominated, or currencies in which a portfolio has taken on a long/short active position, will decline in value relative to the U.S. dollar.

Foreign currency exchange rates may fluctuate significantly for a number of reasons, including the forces of supply and demand in the foreign exchange markets, actual or perceived changes in interest rates, intervention by U.S. or foreign governments or central banks, currency controls, or political developments in the U.S. or abroad.

SWIB's policies include foreign currency risk management objectives relating to each individual portfolio. These guidelines address the foreign currency management activities permitted for each portfolio based on the portfolios mandates, risk tolerances and objectives. SWIB also employs discretionary currency overlay strategies at the total fund level when currency market conditions suggest such strategies are warranted. Additional information related to the management of foreign currencies through the use of derivatives is discussed later in these notes.

The table entitled Currency Exposures by Investment Type presents the Retirement Fund investments which were exposed to foreign currency risk at December 31, 2016.

1) Commingled funds (including limited partnerships and other pooled vehicles) represent investments where the Retirement Funds own only a portion of the overall fund. While the overall fund may be denominated in U.S. dollars, the underlying investments may be exposed to foreign currency risk in various currencies. Commingled funds are shown in the denomination used by the fund for financial reporting.

2) Short Sell Obligations are reported as liabilities on the Statement of Fiduciary Net Position. They are included in the above table because they have exposure to foreign currency risk.

3) Investment types holding instruments denominated only in U. S. Dollars are not included in the above table. At calendar year-end, these include: Convertible Securities, Multi Asset Investments, Real Estate, Options Contracts, Swaps and Obligation Under Reverse Repurchase Agreements.

4) Values may not add due to rounding.

Fair Value of Investments

Fair value measurements of the investments held by the WRS are categorized by the hierarchy established by generally accepted accounting principles. The hierarchy, which has three levels, is based on the valuation inputs used to measure the fair value of the asset.

Level 1 – Investments reflect unadjusted quoted prices in active markets for identical assets.

Level 2 – Investments reflect prices that are based on inputs that are either directly or indirectly observable for an asset (including quoted prices for similar assets), which may include inputs in markets that are not considered to be active.

Level 3 – Investments reflect prices based upon valuation techniques in which significant inputs or significant value drivers are unobservable.

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3. When the inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to fair value. The categorization of investments within the hierarchy is based upon the pricing transparency of the instrument and does not represent the investment's overall risk.

FINANCIAL SECTION

Commingled investments are not categorized under the fair value hierarchy but are disclosed within this note as investments measured at net asset value (NAV).

The fair value measurements of investments as of December 31, 2016, are found in the table entitled Investments by Fair Value Level.

Retirement Funds Investments by Fair Value Level As of December 31, 2016 (In Thousands)

Total	\$ 38,733,557	\$ 22,708,985	\$ 1,900,755	\$ 63,343,297

Securities classified as Level 1 are generally valued at the official closing price (usually the last trade price) or the last bid price on the security's primary exchange. Such investments generally include common stock, preferred stock, exchange-traded derivatives and exchange-traded funds. U.S. Treasury Bills and only the most recently issued US Treasury Notes and Bonds are classified as level 1 because available pricing for these securities is similarly reliable to exchange-traded securities.

Securities classified as Level 2 are valued using observable inputs, by third-party pricing services using either a bid evaluation or a matrix-pricing technique. Bid evaluations may include market quotations that are based on yields, maturities, call features and ratings. Matrix-pricing is used to value securities based on their relationship to benchmark market prices for securities with similar interest rates, maturities, and credit ratings. Pricing in this level may also include market approaches that incorporate benchmark interest rates. Other factors such as infrequent trading, inactive market, or adjusted quoted prices may also result in level 2 measurements. Debt securities comprise the majority of the level 2 investments because they are generally traded using a dealer market, with lower trading volumes than level 1 securities. Over-the-counter derivatives, such as swaps and foreign exchange contracts are also included in level 2 because they are

priced using a market approach that considers benchmark interest rates and foreign exchange rates.

Level 3 investments are generally valued using significant inputs that are unobservable to the marketplace. This may occur if an investment is illiquid or its value is based on estimates. For the WRS, such investments primarily include directly held real estate, valued using appraisals and, as such, rely on unobservable inputs. Foreign Government/ Agency securities in level 3 are valued using proprietary valuation models. Stocks and Preferred Securities included in the level 3 hierarchy are generally privately held securities valued using valuation models such as price multiples incorporating public company comparables, discounted cash flows and milestone valuation models. In some instances of privately held preferred securities, valuation is determined based on recent financing rounds. A smaller portion of level 3 investments represent private debt securities which are priced using matrix pricing techniques that include unobservable inputs and judgement to infer a spread over publicly priced fixed income investments. Cash and Cash Equivalents included in level 3 represent securities priced at cost. Typically, due to their short term nature, cost approximates fair value for these investments.

FINANCIAL SECTION

Investments Measured at NAV

The fair value of investments in certain fixed income funds, private equity limited partnerships, stock funds, real estate limited partnerships and hedge funds are based on the investments' net asset value (NAV) per share (or its equivalent), provided by the investee. The December 31, 2016 investments valued using NAV are shown in the table entitled Investments Measured at NAV and include commingled/pooled funds, private equity and real estate limited partnerships.

Retirement Funds Investments Measured at NAV As of December 31, 2016 (In Thousands)					
Investments Measured at NAV	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period (7)	
Fixed Income (1)	\$ 11,391,233	\$ 136,614	Daily, Monthly, NA (1)	0-15 days, NA (1)	
Private Equity Limited Partnerships (2)	6,564,294	4,951,712	N/A	N/A	
Stock (3)	6,053,490	0	Daily, Monthly, Quarterly	2-45 days	
Real Estate Limited Partnerships (4)	4,721,621	1,103,455	N/A, Quarterly	N/A, 30-90 days	
Hedge Funds (5)	4,407,772	100,000	Various	Various	
Total (6)	<u>\$ 33,138,410</u>	<u>\$ 6,291,781</u>			

(1) A large portion of this category consists of short term cash funds (47%) with the investment objective of safety of principal and liquidity while earning a competitive money market rate of return. Corporate and government bond index funds are another significant portion of this category (46%) and have the investment objective of approximating as closely as practicable the return of a given segment of the markets for publicly traded investments. The short term cash funds and the Corporate and government index funds all have daily liquidity with 0-2 days' notice. An additional 5% of this category represents long-only fixed income managers, which can invest across the credit quality spectrum, in varying geographies, and can include derivatives, high yield and structured securities. These long-only managers require a redemption notice period of approximately 2 weeks and have monthly liquidity. The remaining 2% of this category includes LLCs which invest in private real estate debt. These LLC investments distribute earnings over the life of the investment and have an average remaining life of between 0-5 years.

(2) Private Equity Limited Partnerships include direct, co-investments with existing SWIB general partners, direct secondary investments and fund of funds. These investments are illiquid and are generally not resold or redeemed. Distributions from each fund will be received as the underlying investments are liquidated. The table, Limited Partnerships - Estimated Remaining Life provides an estimate of the period over which the underlying assets are expected to be liquidated.

(3) This category includes emerging markets equity index funds (56%) with an investment strategy designed to track the return of the given segment of the emerging equity markets. This investment can be redeemed daily with 2 days' notice. An additional 40% of this category represents long-only equity managers with various fundamental, quantitative and other approaches spanning various styles, geographies and market cap weights. These long-only manager investments can be redeemed monthly, with between 10 and 30 days' notice. The remaining 4% of this category includes investments structured as Real Estate Investment Trusts which can be redeemed quarterly, with 45 days' notice.

(4) This category includes funds that invest directly in real estate and real estate related assets. Approximately 67% of these investments are generally not resold or redeemed. Distributions from each fund will be received as the underlying investments are liquidated. The table, Limited Partnerships - Estimated Remaining Life provides an estimate of the period over which the underlying assets are expected to be liquidated. The remaining 33% of this category consists of open-ended funds that invest directly in real estate and real estate related assets. Such investments can be redeemed quarterly with between 30 and 90 days' notice.

(5) Hedge Fund investments are private investment funds that seek to produce absolute returns using a broad range of strategies. In certain instances, Hedge Fund investments are structured as limited partnerships, whereby participants receive distributions over the life of the fund. Estimated remaining life of funds structured as limited partnerships is estimated to be between 6-10 years. Additional information relating to Hedge Funds are discussed later in these notes.

(6) WRS had additional unfunded commitments of approximately \$22.4 million, relating to assets not valued using NAV.

(7) Redemption terms described for NAV investments reflect contractual agreements and assume withdrawals are made without adverse market impact and under normal market conditions.

Private Equity and Real Estate Limited Partnerships

In general, the Private Equity Limited Partnerships participated in the following investment strategies at December 31, 2016:

Buyout – This strategy acquires shares of a private company to gain a controlling interest.

Mezzanine – Provides mezzanine debt to finance leveraged buyouts, recapitalizations and corporate acquisitions.

Special Situations – This strategy can invest in public and private companies undergoing financial distress, a turnaround in business operations or which are believed to be undervalued because of a discrete extraordinary event.

Venture Capital – This strategy invests in companies with potential for significant growth (generally small to early stage emerging firms).

The Real Estate Limited Partnerships generally consisted of the following investment strategies at December 31, 2016:

Core – Core investments are expected to deliver a significant percentage of their return from income and should demonstrate lower volatility than Opportunistic and Value investments due to lower leverage, higher occupancy, and asset location.

Value – Value investments typically have significant near term leasing, repositioning, and/or renovation risk. This strategy is expected to have modest initial operating revenues with potential for substantial income growth, and will likely encounter greater volatility than Core strategies, but lower volatility than Opportunistic strategies.

Opportunistic – Opportunistic investments usually have significant development, lease-up, financial restructuring, and/or liquidity risk with little or no initial operating income. This strategy typically uses the highest leverage, is expected to achieve most of its return from future capital gains, and is likely to encounter greater volatility than Core and Value strategies.

Limited partnerships are generally structured to provide distributions to participants of the fund as the holdings of the partnership are liquidated over time. The table entitled Limited Partnerships - Estimated Remaining Life illustrates the distribution of estimated remaining liquidation periods for the Retirement Funds' private equity and real estate limited partnership holdings as of December 31, 2016.

**Retirement Funds
Limited Partnerships - Estimated Remaining Life
As of December 31, 2016
(In Thousands)**

<u>Limited Partnership Type</u>	<u>Estimated Remaining Life*</u>				
	<u>< 5 Years</u>	<u>5 - 10 Years</u>	<u>> 10 Years</u>	<u>N/A</u>	<u>Total</u>
Private Equity	\$ 560,745	\$ 3,178,904	\$ 2,824,645	\$ 0	\$ 6,564,294
Real Estate	140,083	2,953,883	87,990	1,539,665	4,721,621
Total	\$ <u>700,828</u>	\$ <u>6,132,787</u>	\$ <u>2,912,635</u>	\$ <u>1,539,665</u>	\$ <u>11,285,915</u>

* Estimated remaining life represents subjective estimates, assuming normal market conditions.

N/A investments represent open-ended funds that can be redeemed.

Hedge Funds

Hedge Fund investments are private investment funds that seek to produce absolute returns using a broad range of strategies. The Retirement Funds participated in the following Hedge Fund strategies at December 31, 2016:

Equity Long-Short – This strategy invests both long and short in publicly traded stocks. These managers vary in their use of short selling and leverage.

Event-Driven – The funds in this strategy seek to gain an advantage from pricing inefficiencies that may occur before or after a corporate action or related event, such as a merger, spinoff, earnings call, bankruptcy or restructuring.

Global Macro – The funds in this category invest their holdings in indexes, commodities, interest rate

instruments and currencies as a result of relative value or directional forecasts from a systematic or discretionary approach.

Market Neutral/Arbitrage – This strategy uses a range of fixed income, convertible instruments and/or statistical arbitrage strategies that seek to hedge market related risks to earn consistent returns.

Multistrategy – The funds in this category employ a wide range of strategies and instruments in managing assets.

FINANCIAL SECTION

When redeeming Hedge Fund investments, the agreements governing the investment vehicle oftentimes require advanced notice and may restrict the timing of withdrawals. The table entitled Hedge Fund Redemption Timing depicts redemption terms, irrespective of other contractual restrictions, for Retirement Funds' Hedge Fund investments at December 31, 2016.

Retirement Funds
Hedge Fund Redemption Timing
As of December 31, 2016
(In Thousands)

Redemption Frequency	Redemption Notice Period (days)	Fair Value
Weekly	3 - 7	\$ 361,691
Monthly	2 - 75	1,563,264
Quarterly	30 - 90	1,531,782
Other (1)	65 - 90, N/A	951,035
Total		<u>\$ 4,407,772</u>

(1) This category includes funds that are subject to rolling locks, whereby the fund automatically re-locks unless a withdrawal request is submitted. In addition, this category includes funds that are in a liquidating trust, with final distribution expected in 2017. This category also includes funds that are structured as limited partnerships, whereby withdrawals are not permitted but the participants receive distributions over the life of the fund.

Hedge Fund agreements can also include "lock-up" periods, which restrict investors from redeeming their investment during a specified time frame. The lock-up period helps portfolio managers avoid liquidity problems. Lock-ups can be "hard," where redemptions are not permitted for a specified time period, or "soft," where redemptions are permitted provided the investor pays a penalty. In addition, hedge fund managers can also institute a "rolling" lock-up. A fund with a rolling lock-up period requires investors to commit to an initial lock-up period, and if the investor does not submit a redemption notice within a set time prior to expiration of the lock-up, the lock-up is reset.

The table entitled Hedge Fund Lock-ups reflects the lock-up terms for the Hedge Fund investments held at December 31, 2016.

**Retirement Funds
Hedge Fund Lock-ups
As of December 31, 2016
(In Thousands)**

Hedge Fund Lock Type	Initial Duration of Lock (Years)	Year of Lock Expiration	Fair Value
Soft Lock	1 - 1.5	2017 - 2018	\$ 682,820
Hard Lock	3	2018	224,350
Rolling Lock	2 - 3	2017 - 2019	785,413
None	N/A	N/A	2,549,567
Other (1)	N/A	N/A	165,622
Total			\$ 4,407,772

(1) This category includes funds that are in a liquidating trust, with final distribution expected in 2017. This category also includes funds that are structured as limited partnerships, whereby withdrawals are not permitted but the participants receive distributions over the life of the fund.

Similar to lock-ups, hedge fund agreements also commonly incorporate "gate" restrictions. An investor-level gate limits redemptions on a particular redemption date to a specified percentage of the investor's account value, while a fund level gate may limit total investor withdrawals on a particular redemption date to a percentage of aggregated fund-level (or master fund-level) net asset value. In certain instances, funds can have both investor and fund level gates in place. Such funds are reflected in the "Investor Level" category. The table entitled Hedge Fund Gates summarizes the Hedge Fund gates in place at December 31, 2016.

**Retirement Funds
Hedge Fund Gates
As of December 31, 2016
(In Thousands)**

Hedge Fund Gate Type	Gate Range	Fair Value
Investor Level	25% - 33%	\$ 562,775
Fund Level	8.33% - 25%	1,302,483
None	N/A	2,376,892
Other (1)	N/A	165,622
Total		\$ 4,407,772

(1) This category includes funds that are in a liquidating trust, with final distribution expected in 2017. This category also includes funds that are structured as limited partnerships, whereby withdrawals are not permitted but the participants receive distributions over the life of the fund.

FINANCIAL SECTION

Derivatives

A derivative instrument, as defined by GASB Statement No. 53, is a financial instrument or other contract that has all of the following characteristics:

- **Settlement factors.** It has (1) one or more reference rates and (2) one or more notional amounts or payment provisions or both. Those terms determine the amount of the settlement or settlements and, in some cases, whether or not a settlement is required.
- **Leverage.** It requires no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.
- **Net settlement.** Its terms require or permit net settlement, it can readily be settled net by a means outside the contract, or it provides for delivery of an asset that puts the recipient in a position not substantially different from net settlement.

Derivatives may be used to implement investment strategies for the Retirement Funds. All derivative instruments are subjected to risk analysis and monitoring processes at the portfolio, asset class and fund levels. Investment guidelines define allowable derivative activity for each portfolio and are based on the investment objectives which have been approved by the Board of Trustees. Where derivatives are permitted, guidelines stipulate allowable instruments and the manner and degree to which they are to be used.

Gains and losses for all derivative instruments are reported in the Statement of Changes in Fiduciary Net Position as "Net Appreciation (Depreciation) in Fair Value of Investments." SWIB invests in derivative

investments directly, as well as indirectly through commingled or pooled investments. Information relating to investments held in commingled funds has not been separately disclosed in the financial statements or the accompanying footnotes, consistent with GASB reporting requirements.

A derivative can take the form of an individually negotiated contract between the Retirement Funds and a specific counterparty. These types of negotiated positions are known as over-the-counter (OTC) contracts. OTC contracts can be structured as either "uncleared" or "cleared".

Uncleared OTC contracts are non-standardized bilateral contracts between counterparties and do not include the use of a centralized intermediary, such as a clearinghouse. Uncleared OTC transactions are subject to regulatory requirements with respect to data reporting and recordkeeping, trading relationship documentation, business conduct standards, portfolio reconciliation, and margin collection and posting. For these transactions, master netting agreements and credit support annexes governing the credit relationship and collateral exchange between two counterparties are put in place to mitigate counterparty credit risk.

Cleared OTC contracts offer additional protections to trade participants. These types of transactions employ the use of an intermediary between counterparties. The intermediary, known as a clearinghouse, serves to facilitate trading and mitigate risks. While not completely standardized, these contracts involve a high degree of standardization. Once cleared, the clearinghouse steps in as the counterparty to all trades. Regulatory bodies govern the tools and procedures for risk mitigation such as margin requirements and daily mark-to-market.

In addition to trading OTC, derivative contracts can also be transacted on established exchanges. These types of contracts are called “exchange-traded” and are completely standardized. Like cleared OTC contracts, the clearinghouse is an intermediary to the trade, reducing risks and standardizing the exchange of margin. The table entitled Derivative Contract Types summarizes the differences between OTC and exchange-traded contracts

Retirement Funds Derivative Contract Types		
Uncleared (OTC)	Cleared (OTC)	Exchange-traded
Trades negotiated over-the-counter	Trades negotiated over-the-counter	Trades executed on organized exchanges
Customized trade terms are agreed upon by counterparties	Trades limited to standardized terms	Trades limited to standardized terms
Traded bilaterally between counterparties	Trades are submitted through a clearinghouse, which is counterparty	Trades are booked with exchange’s clearinghouse, which is counterparty
Margin (collateral) often exchanged but subject to negotiation between counterparties	Mandatory margin requirements	Mandatory margin requirements
Common example: Forward Contracts	Common example: Credit Default Swaps	Common example: Futures Contracts

Uncleared OTC Derivatives

Inherent in the use of uncleared OTC derivatives, the Retirement Funds may be exposed to counterparty credit risk. Counterparty credit risk is the risk that a derivative counterparty may fail to meet its payment obligations under the terms of the derivative contract. SWIB seeks to mitigate this risk through counterparty credit evaluations and approvals, counterparty credit limits, and exposure monitoring procedures. Additionally, policies have been established which seek to implement master netting arrangements with counterparties that permit the closeout and netting of transactions with the same counterparty upon the occurrence of certain events, such as payment default, rating downgrade, bankruptcy, illegality or force majeure. Agreements may also require

daily collateral postings to further mitigate credit risk. Cash collateral posted by SWIB for uncleared OTC positions was \$3.1 million at December 31, 2016. In addition, no securities were pledged as collateral relating to uncleared OTC positions.

The Retirement Funds uncleared OTC positions included foreign currency contracts and total return swaps. The table entitled OTC Derivative Investments Subject to Counterparty Credit Risk, summarizes, by credit rating, the Retirement Funds’ exposure to OTC derivative instruments’ counterparty credit risk as of December 31, 2016, without respect to any collateral or netting arrangement.

Retirement Funds OTC Derivative Investments Subject to Counterparty Credit Risk As of December 31, 2016 (In Thousands)			
Counterparty Credit Rating	Payable	Receivable	Fair Value
AA	\$ (198)	\$ 198	\$ 0
A	(4,569,626)	4,638,156	68,530
BBB	(443,733)	464,848	21,115
Total	<u>\$ (5,013,557)</u>	<u>\$ 5,103,202</u>	<u>\$ 89,645</u>

FINANCIAL SECTION

The aggregate fair value of receivables relating to uncleared OTC derivative contracts was \$5.1 billion at December 31, 2016. These amounts represent the maximum loss that would be recognized at the reporting date if all counterparties failed to perform as contracted. This maximum exposure is reduced to \$19.3 million at December 31, 2016 when counterparty collateral and master netting arrangements are taken into account. The number of uncleared OTC counterparties with credit exposure at year-end was nine.

Cleared OTC and Exchange-Traded Derivatives

Counterparty credit risk is mitigated by an intermediary for cleared OTC and exchange-traded derivative contracts. For these types of derivative investments, a clearinghouse interposes itself as counterparty to all trades and extends a guarantee that trades will be settled as originally intended. To ensure performance, margin requirements are imposed. The requirements are established with the intent to cover nearly all expected price changes based on market risk. Margin payments are settled daily based upon the price movements of the contracts, thereby significantly reducing counterparty credit risk. The Retirement Funds posted \$374.3 million in cash and \$237.8 million in securities as collateral with clearing brokers as of December 31, 2016.

Foreign Currency Spot and Forward Contracts

Foreign Currency Spot and Forward contracts are uncleared OTC agreements between two counterparties to exchange designated currencies at a specific time in the future. No cash is exchanged when a foreign exchange spot or forward contract is initiated. Depending upon market movements, forward contracts may require collateral postings either to SWIB or to counterparties. Spot contracts are exempt from collateralization. For deliverable contracts, amounts due are paid or received on the contracted settle date. In other instances (most often in emerging markets), contracts are established as non-deliverable forwards (NDFs). Unlike deliverable contracts, NDFs are only settled in U.S. dollars.

Currency exposure management is permitted through the use of currency derivative instruments. Direct hedging of currency exposure back to the U.S. dollar is permitted when consistent with the strategy of the portfolio. Cross-currency exposure management to transfer out of an exposed currency and into a benchmark currency is permitted. In some portfolios, currencies of non-benchmark countries may be held through the use of forward contracts, provided that the notional value of any single non-benchmark currency does not exceed 5% of the market value of the portfolio. SWIB may employ discretionary currency overlay strategies at the total fund and asset class level when currency market conditions suggest such strategies are warranted.

Losses may arise from future changes in the value of the underlying currency, or if the counterparties do not perform under the terms of the contract. Spot and forward contracts are valued daily with the changes in fair value included in "Net Appreciation (Depreciation) in Fair Value of Investments" on the Statement of Changes in Fiduciary Net Position. The net receivable or payable for spot and forward contracts is reflected as "Foreign Currency Contracts" on the Statement of Fiduciary Net Position. The table entitled Foreign Currency Spot and Forward Contracts presents the fair value of foreign currency spot and forward contract assets and liabilities held by the Retirement Funds as of December 31, 2016.

FINANCIAL SECTION

Futures Contracts

A futures contract is an exchange-traded agreement to buy or sell a financial instrument, index or commodity at an agreed upon price and time in the future.

The fair value of futures contracts represents the unrealized gain/(loss) on the contracts, since trade inception, and is reflected as "Financial Futures Contracts" on the Statement of Fiduciary Net Position. Futures contracts are marked to market daily, based upon the closing market price of the contract at the board of trade or exchange on which they are traded. Gains and losses resulting from investments in futures contracts are included in the "Net Appreciation (Depreciation) in Fair Value of Investments" on the Statement of Changes in Fiduciary Net Position.

Futures contracts involve, to varying degrees, risk of loss in excess of the margin deposited with the clearinghouse. Losses may arise from future changes in the value of the underlying instrument.

Futures contracts may be entered into for purposes such as the following:

- To efficiently gain or adjust market exposures for trust fund rebalancing,
- To adjust sector, interest rate, or duration exposures, and
- To securitize cash or as act a substitute for cash market transactions.

The table entitled Futures Contracts presents the Retirement Funds investments in futures contracts as of December 31, 2016.

Retirement Funds Futures Contracts As of December 31, 2016 (In Thousands)				
Futures Contract Description	Position	Expiration	Notional Amount	Fair Value*
Commodity	Long	Jan 17 - Mar 17	\$ 1,906,783	\$ (34,828)
Equity	Long	Mar-17	7,297,830	(41,316)
Equity	Short	Mar-17	(6,663)	95
Fixed Income	Long	Mar-17	7,074,933	(4,983)
Fixed Income	Short	Mar-17	(562,651)	1,890
Total			<u>\$ 15,710,232</u>	<u>\$ (79,142)</u>

* Fair Value includes foreign currency gains/(losses).

The table entitled Futures Contracts with Interest Rate Sensitivity presents the interest rate sensitivity of fixed income futures contracts as of December 31, 2016. Duration, which is stated in years, is the measure of price sensitivity of a fixed income security to an interest rate change of 100 basis points. Duration statistics presented in this table are weighted by the notional value of each position to compute an average duration for the contract types held.

Retirement Funds Futures Contracts with Interest Rate Sensitivity As of December 31, 2016 (In Thousands)				
Contract Type	Position	Notional Amount	Fair Value	Weighted Average Duration (Years)
U.S. Treasury Notes	Long	\$ 5,785,933	\$ (4,647)	3.6
U.S. Treasury Notes	Short	(562,651)	1,890	5.0
U.S. Treasury Bonds	Long	1,186,696	(1,263)	16.9
Foreign Government Bonds	Long	102,304	927	7.9
Total		<u>\$ 6,512,282</u>	<u>\$ (3,093)</u>	

Options

An option contract gives the purchaser of the contract the right, but not the obligation, to buy (call) or sell (put) the security or index underlying the contract at an agreed upon price on or before the expiration of the option contract. The seller of the contract is subject to market risk, while the purchaser is subject to credit risk and market risk, to the extent of the premium paid to enter into the contract.

Trust fund rebalancing policies and certain portfolio investment guidelines permit the use of exchange-traded and uncleared OTC options. Investment Guidelines allow options to be used to improve market exposure efficiency, enhance expected returns, or provide market exposure

hedges. Exchange rules require that the seller of short exchange-traded option contracts cover these positions either by collateral deposits in the form of cash or by pledging, in escrow, the actual securities that would be transferred to the option purchaser in the event the option contract were exercised.

The fair value of option contracts is based upon the closing market price of the contract and is reflected as "Options Contracts" on the Statement of Fiduciary Net Position. Gains and losses as a result of investments in option contracts are included in the "Net Appreciation (Depreciation) in Fair Value of Investments" on the Statement of Changes in Fiduciary Net Position. The table entitled Option Contracts presents the fair value of option contracts as of December 31, 2016.

**Retirement Funds
Option Contracts

FINANCIAL SECTION

Swaps

Swaps are negotiated contractual agreements between two counterparties which can be cleared or uncleared OTC investments. Throughout the calendar year, the Retirement Funds held positions in Total Return Swaps (TRS), Interest Rate Swaps (IRS) and Credit Default Swaps (CDS).

As is specified in SWIB's investment guidelines, swaps may be used as an alternative to physical securities when it is deemed advantageous for portfolio construction. In

addition, swaps may be used to adjust asset class exposures for the Retirement Funds. Guideline limits and soft risk parameters for each portfolio are applied to the aggregate exposures which includes both physical and synthetic securities. A synthetic security is created by combining securities to mirror the properties of another security.

The table entitled Open Swap Positions lists the open swap contracts held at December 31, 2016. As noted in the table, certain swap terms are based on the 3-month London Interbank Offering Rate (LIBOR).

**Retirement Funds
Open Swap Positions
As of December 31, 2016
(In Thousands)**

Description	Date Initiated	Maturity Date	Reference Rates	Notional Amount	Fair Value
Total Return Swaps	Apr-16	Apr-17	Pay 3-month LIBOR, Receive Equity Index Return	\$ 548,203	\$ 31,437
Total Return Swaps	Sep-16	Sep-17	Pay 3-month LIBOR, Receive Equity Index Return	797,584	(7,813)
Total				\$ 1,345,787	\$ 23,624

TRS positions represent uncleared OTC contracts where fair value is determined based on the change in quoted market price of the underlying equity index. The fair value of swaps represents the unrealized gain/(loss) on the contracts, since trade inception, and is reflected as "Swaps" on the Statement of Fiduciary Net Position. Any interest owed but not yet paid relating to TRS contracts is reported within the account "Investment Payables" on the Statement of Fiduciary Net Position.

Gains and losses resulting from investments in swap contracts are included in the "Net Appreciation (Depreciation) in Fair Value of Investments" on the Statement of Changes in Fiduciary Net Position. Interest expense relating to TRS contracts is reported as "Investment Expense" on the Statement of Changes in Fiduciary Net Position.

Securities Lending Transactions

State statutes and Board policies permit SWIB to use investments of the Retirement Funds to enter into securities lending transactions. These transactions involve the lending of securities to broker-dealers and other entities in exchange for collateral, in the form of cash or securities, with the simultaneous agreement to return the collateral for identical securities in the future. SWIB's custodian is an agent in lending the Retirement Funds' directly held domestic and international securities. When the Retirement Funds' securities are delivered to a borrower as part of a securities lending agreement, the borrower is required to place collateral with the lending agent equal to at least 102% of the loaned securities' fair value, including interest accrued, as of the delivery date, so long as the securities and the collateral are denominated in the same currency. In the event that securities are loaned against collateral denominated in a different currency, the borrower is required to place collateral with the lending agent totaling at least 105% of the loaned securities' fair value, including interest accrued, as of the delivery date. Collateral is marked to market daily and adjusted as needed to maintain the required minimum level. Pledging or selling non-cash collateral securities cannot be done without a borrower default. On

December 31, 2016, the fair value of the securities on loan was approximately \$12.0 billion.

Cash collateral is reinvested by the lending agent in two separate pools, a U.S. dollar cash collateral pool and a pool denominated in Euros. These pools are administered in accordance with contractual investment guidelines which are designed to minimize the risk of principal loss and provide a modest rate of return. Investment guidelines limit credit and liquidity risk by restricting new investments to overnight repurchase agreements collateralized with high quality U.S. government, U.S. government agencies, and sovereign debt securities. To further reduce credit risk, SWIB's custodian provides indemnification to SWIB against counterparty default. The earnings generated from the collateral investments, plus or minus the rebates received from or paid to the dealers and less fees paid to agents, results in the net earnings from lending activities, which are then split on a percentage basis with the lending agent. Cash from the U.S. dollar pool may be posted as collateral relating to short sale transactions and earns the Overnight Bank Funding rate plus 10 basis points. Additional information relating to short sales is discussed later in these notes.

At December 31, 2016, the Retirement Funds had minimal credit risk exposure to borrowers because the amounts owed to the borrowers exceeded the amounts the borrowers owed the Retirement Funds. In addition to the cash collateral reinvestment indemnification, the contract with the lending agent requires it to indemnify the Retirement Funds if the borrowers fail to return the loaned securities and the collateral is inadequate to replace the securities lent. The Retirement Funds are also indemnified against losses resulting from violations of investment guidelines.

The majority of security loans are open-ended and can be terminated on demand by the Retirement Funds or the borrower. Maturities of investments made with cash collateral are not necessarily matched to the maturities of the securities loaned because most loans do not have a fixed maturity date. The risk that SWIB would be unable to return collateral to securities borrowers upon termination of the loan is low because all the investments made with cash collateral mature within seven business days. The average maturities of the loans and the average maturities of the assets held in the collateral reinvestment pools did not materially differ at December 31, 2016.

Securities lending is allowed in certain commingled fund investments. As an investor in such funds, SWIB does not own the underlying securities and does not separately

report on securities lending activity. All earnings of these funds are reported in the Statement of Changes in Fiduciary Net Position as "Net Appreciation (Depreciation) in Fair Value of Investments".

Short Sell Obligations

The Retirement Funds may sell a security it does not own in anticipation of purchasing the security later at a lower price. This is known as a short sale transaction. For the duration of the short sale transaction, a liability is recorded under "Short Sell Obligations" on the Statement of Fiduciary Net Position. The liability presented on the Statement of Fiduciary Net Position represents the fair value of the shorted securities necessary for delivery to the purchaser and is marked-to-market daily. Realized and unrealized gains and losses associated with short sales are recorded on the Statement of Changes in Fiduciary Net Position, within in the "Net Appreciation (Depreciation) in Fair Value of Investments" account. Prior to executing a short sale, SWIB will borrow the security from a party currently holding it. While the transaction is open, the Retirement Funds incur expenses for securities borrowing costs. In addition, as a security borrower, the Retirement Funds may incur dividend and interest expense as such payments must be remitted to the security lender during the course of the loan. During the duration of the borrow, there may be corporate action elections requiring the borrower to deliver items such as cash or securities to the lender. Expenses resulting from short sales are included in "Investment Expense" on the Statement of Changes in Fiduciary Net Position.

Risks arise from short sales due to the possible illiquidity of the securities markets and from potential adverse movements in security values. The cost to acquire the securities sold short may exceed the amount of proceeds initially received, as well as the amount of the liability recorded as "Short Sell Obligations" in the Statement of Fiduciary Net Positions. Short sales expose the short seller to potentially unlimited liability because there is no upward limit on the price a shorted security could attain. Certain portfolio guidelines permit short sales and mitigate risks in various ways, such as: limiting the total value of short sales as a percentage of portfolio value, establishing portfolio vs. benchmark tracking error limits and monitoring other statistical and economic risk measures of the portfolio. Investment performance and risk associated with each portfolio is measured against benchmarks and monitored by management.

When a short sale occurs, the shorting portfolio must borrow the security and deliver it to the buyer. If the

FINANCIAL SECTION

shorted security is owned by another Retirement Fund portfolio, investment policies allow the borrowing of the shorted securities from other Retirement Fund portfolios, including inter-fund borrowings. In addition to borrowing securities from existing Retirement Fund portfolios, SWIB may borrow securities from external sources. These borrowings are facilitated by SWIB's custodian.

Except in the case of borrowings within the same trust fund, the Retirement Funds are required to post collateral to the lender, at the required rate of 102% for in-currency loans and 105% for cross-currency loans. The Retirement Funds posted \$551.3 million in cash collateral to security lenders representing \$26.2 million in excess of the fair market value of the securities borrowed as of December 31, 2016. If the security lender recalled the security and SWIB was not able to supply the lender with the security, the lender would be permitted to use SWIB's collateral to fund the purchase of the security.

Investment Policy and Asset Allocation

SWIB is required by section 25.15(2)(b) of the Wisconsin Statutes "To diversify investments in order to minimize the risk of large losses, unless under the circumstances it is clearly prudent not to do so, considering each trust's or fund's portfolio as a whole at any point in time."

SWIB's Board of Trustees has established investment guidelines pursuant to a comprehensive and ongoing evaluation of the appropriate risk and return standards for each fund under management. Trustees have a fiduciary responsibility, with respect to the Core Fund and the Variable Fund, to act solely in the interest of the WRS. The Board of Trustees consists of nine members meeting specific requirements as follows:

- Six Governor-appointed and State Senate-approved members including:
 - Four with at least ten years investment experience
 - One with at least ten years financial experience and who works for a local government participant in the Local Government Investment Pool
 - One additional member
- Educator participant in the WRS appointed by the Teachers Retirement Board
- Non-educator participant in the WRS appointed by the Wisconsin Retirement Board
- Secretary of the Department of Administration or designee

The Board of Trustees-approved guidelines are intended to assist in development of a diversified portfolio of investments, tailored to accomplish the purpose of each fund within acceptable risk parameters. They represent a delegation of standing authority to the SWIB's Executive Director and investment managers within the organization to make prudent investments within the investment guidelines, pursuant to sections 15.02(4) and 25.16(1) of the Wisconsin Statutes and section IB 2.02 of the Wisconsin Administrative Code.

Additionally, the Investment Committee (IC) was created to provide oversight of SWIB investments within the parameters established by the Board of Trustees. Oversight includes analysis of risk and return of the portfolio, asset class, and Core and Variable Funds. The IC is responsible for proposing to the Board of Trustees changes to investment guidelines for internally managed portfolios, for approving investment guidelines or strategies for externally managed portfolios, approving the general strategies for each asset class, and for approving individual strategies within the Multi Asset portfolios.

The Board of Trustees adopts the Retirement Funds' asset allocation policy, based on recommendations by the IC and asset allocation consultant. SWIB undertakes a review of its strategic asset allocation plan every other year, including asset/liability modeling, to determine a suitable target allocation for each asset class included in the Core and Variable Funds. The strategic nature of these reviews contemplates a long-term time horizon over which potential results are evaluated. This exercise is not an attempt to predict short-term market movements, but an effort to understand the long-term impacts of poor, normal and above average market results. In the "off year" of the two-year cycle, structural asset allocation adjustments and other funding initiatives are considered.

In addition to potential future market impact, SWIB also contemplates the objectives of the funds, the impact of actuarial analysis and the soundness of investment return and risk expectations. SWIB's asset allocation policies reflect the Board of Trustees program of risk allocation that involves reduced equity exposure coupled with leveraged low-volatility assets, such as "fixed income" securities. This investment strategy results in Core Fund strategic targets which exceed 100% of invested assets. Currently the Core Fund has adopted an asset allocation target of 10% leverage, however over time it is anticipated that SWIB will move toward an asset allocation that includes 20% leveraging of low volatility assets. As SWIB increases the degree of leverage and moves toward the destination target asset allocation, the Board of Trustees will be informed of the nature and method used for each

incremental step. Before implementing leverage beyond 10%, the Board of Trustees, SWIB’s asset allocation consultant and staff will engage in additional focused asset allocation discussion.

SWIB’s asset allocation review process also includes assumptions regarding expected rates of return. Long-term (e.g. 30-year) expected real rates of return on pension plan investments are determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan

investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The table entitled Asset Allocation Targets and Expected Returns presents the policy asset allocation targets most recently approved by the Board of Trustees in December, 2016, the destination asset allocation targets and the best estimates of expected geometric rates of return for each major asset class as of December 31, 2016.

**Retirement Funds
Asset Allocation Targets and Expected Returns
As of December 31, 2016**

<u>Core Fund Asset Class</u>	<u>Asset Allocation %</u>	<u>Destination Target Asset Allocation %</u>	<u>Long-Term Expected Nominal Rate of Return %</u>	<u>Long-Term Expected Real Rate of Return %</u>
Global Equities	50 %	45 %	8.3 %	5.4 %
Fixed Income	24.5	37	4.2	1.4
Inflation Sensitive Assets	15.5	20	4.3	1.5
Real Estate	8	7	6.5	3.6
Private Equity/Debt	8	7	9.4	6.5
Multi-Asset	4	4	6.6	3.7
Total Core Fund	110 %	120 %	7.4 %	4.5 %
Variable Fund Asset Class				
U.S. Equities	70	70	7.6	4.7
International Equities	30	30	8.5	5.6
Total Variable Fund	100 %	100 %	7.9 %	5.0 %

New England Pension Consultants Long Term US CPI (Inflation) Forecast: 2.75%

Asset Allocations are managed within established ranges, target percentages may differ from actual monthly allocations

For purposes of determining asset allocation targets, investments may be categorized differently than they are within the financial statements. For example, SWIB’s management considers inflation sensitive assets separately from other “fixed income” investments for asset allocation purposes.

Annual Money-Weighted Rate of Return

Money-weighted rate of return expresses investment performance, net of pension plan investment expense, adjusted for the changing amounts actually invested. For the year ended December 31, 2016, the money-weighted rate of return for the Core Fund was 8.29% and 10.49% for the Variable Fund.

4 DESCRIPTION OF THE WISCONSIN RETIREMENT SYSTEM

The WRS is a cost-sharing, multiple-employer public employee retirement system established and administered by the State of Wisconsin to provide pension benefits for state and local government employees. WRS benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. Benefit terms may only be modified by the legislature. ETF, under the direction of the ETF Board, is responsible for the administration of the WRS.

FINANCIAL SECTION

Employee Trust Funds Board

The ETF Board has general oversight of ETF, appoints the ETF Secretary and oversees administration of the benefit programs, other than group insurance and deferred compensation. The ETF Board is comprised of 13 members, including:

- the Governor or the Governor’s designee on the Group Insurance Board
- the Administrator of the Department of Administration’s Division of Personnel Management or the Administrator’ designee
- 4 members appointed by the Teachers Retirement Board (an advisory board to the ETF Board)
- 4 members appointed by the Wisconsin Retirement Board (an advisory board to the ETF Board)
- a public member who is not a participant in or beneficiary of the WRS, with at least 5 years of experience in actuarial analysis, administration of an employee benefit plan or significant administrative responsibility in a major insurer
- a WRS annuitant
- a participant in the WRS who is a technical college or public school district educational support personnel employee

WRS Employers

The WRS is open to all public employers in Wisconsin. Participation is optional, except that participation is mandatory for school districts with respect to teachers, some municipalities with respect to police and firefighters, and all counties except Milwaukee County. As of December 31, 2016, the number of participating employers was:

State Agencies, UW & Public Authorities	58
Cities	152
Counties	71
4th Class Cities	36
Villages	266
Towns	254
School Districts	422
Cooperative Educational Service Agencies	12
Wisconsin Technical College System Districts	16
Special Districts	208
Total Employers	<u><u>1,495</u></u>

WRS Membership

All eligible employees of a participating employer who are expected to work at least 1,200 hours per year (880 hours per year for teachers and school district educational support employees) must be covered by the WRS. As of December 31, 2016, the WRS membership consisted of:

Current Employees:

General	133,843
Teachers	99,850
Elected / Executive / Judges	1,369
Protective with Social Security	19,468
Protective without Social Security	2,755
Total Current Employees	<u><u>257,285</u></u>

Inactive Participants:

Terminated Participants	163,145
Alternate Payees	4,046
Total Inactive Participants	<u><u>167,191</u></u>

Retirees and Beneficiaries

Currently Receiving Benefits:

Retirement Annuities	190,111
Disability Annuities	6,198
Death Beneficiary Annuities	1,338
Total Annuitants	<u><u>197,647</u></u>

Total Participants	<u><u>622,123</u></u>
---------------------------	-----------------------

WRS Benefits

The WRS provides retirement benefits as well as death and disability benefits. Vesting requirements have changed over time, as follows:

- Participants in the system prior to January 1, 1990, were fully vested at the time they met participation requirements;
- For participants entering the system from January 1, 1990, to April 23, 1998, creditable service in each of five years was required for vesting;
- All active participants in the system at any time from April 24, 1998 to June 30, 2011 are fully vested;
- 2011 Wisconsin Act 32 generally required participants hired on or after July 1, 2011 to have five years of creditable service to be vested.

Employees who retire at or after age 65 (54 for protective occupations and 62 for elected officials and executive service retirement plan participants) are entitled to a retirement benefit based on a formula factor, their final average earnings, and creditable service. Formula factors are shown in the table below:

Employment Category	Service Before 1/1/2000	Service Between 2000 & 2011	Service After 2011
General and Teachers	1.765%	1.6%	1.6%
Executive and Elected	2.165	2.0*	1.6*
Protective with Social Security	2.165	2.0	2.0
Protective without Social Security	2.665	2.5	2.5

* 2011 Wisconsin Act 10 changed the Executive and Elected formula factor from 2.0% to 1.6%. The effective date of the change varies among different employee categories, and generally applies to the services earned after Act 10 effective date (i.e., June 29, 2011).

Final average earnings is the average of the participant's three highest annual earnings periods. Creditable service includes current service and prior service for which a participant received earnings and made contributions as required. Creditable service also includes creditable military service. The retirement benefit will be calculated as a money purchase benefit based on the employee's contributions plus matching employer's contributions, with interest, if that benefit is higher than the formula benefit.

Vested participants may retire at or after age 55 (50 for protective occupations) and receive an actuarially-reduced benefit. Participants terminating covered employment prior to eligibility for an annuity may either receive employee-required contributions plus interest as a separation benefit or leave contributions on deposit and defer application until eligible to receive a retirement benefit

Post-Retirement Adjustments

The Employee Trust Funds Board may periodically adjust annuity payments from the retirement system based on annual investment performance in accordance with s. 40.27, Wis. Stat. An increase (or decrease) in annuity payments may result when investment gains (losses), together with other actuarial experience factors, create a surplus (shortfall) in the reserves, as determined by the system's consulting actuary. Annuity increases are not based on cost of living or other similar factors. For Core annuities, decreases may be applied only to previously granted increases. By law, Core annuities cannot be reduced to an amount below the original, guaranteed amount (the "floor") set at retirement.

The Core and Variable Fund annuity adjustments granted during the past 10 years are as follows:

Year	Core Adjustment	Variable Adjustment
2007	3.0%	10.0%
2008	6.6	0.0
2009	(2.1)	(42.0)
2010	(1.3)	22.0
2011	(1.2)	11.0
2012	(7.0)	(7.0)
2013	(9.6)	9.0
2014	4.7	25.0
2015	2.9	2.0
2016	0.5	(5.0)

The negative Core annuity adjustments from 2009 to 2013 were primarily due to the Fund's \$21.0 billion investment decline in 2008, caused by the global economic crisis. Core Fund gains and losses are recognized over a five-year period.

Long-term Receivables

The "Prior Service Contributions Receivable" on the Statement of Fiduciary Net Position represents the WRS unfunded actuarial accrued liability (UAAL), determined under the plan's Frozen Initial Liability funding methodology. This liability is being amortized as a level percentage of payroll over a 40-year period beginning January 1, 1990, for employers in the WRS prior to 2009. The remaining balance is expected to be fully amortized by December 31, 2029. Liabilities for employers joining the WRS beginning in 2009 are amortized over 30 years. Interest is assessed on the outstanding liability at year-end at the assumed earnings rate. The level-percentage-

FINANCIAL SECTION

of-payroll amortization method results in a relatively lower dollar contribution in earlier years than in later years, when payrolls have increased. During the early years of the amortization period, payments made are less than annual interest assessments, resulting in an increase in the liability. As payrolls increase annually, prior service payments increase proportionally until they exceed annual interest and ultimately fully liquidate the liability at the end of the amortization period. State law requires the accrued retirement cost to be funded. As of December 31, 2016, the receivable balance was \$18.0 million.

Variable Retirement Option

Prior to 1980, WRS participants could opt to have one-half of their required contributions and matching employer contributions invested in the Variable Fund. Retirement benefits were adjusted for the difference between the investment experience of the Core Fund and the Variable Fund. Provisions for allowing members to withdraw from the Variable Fund were added with the passage of Chapter 221, Laws of 1979. The Variable Fund was closed to new membership after April 30, 1980. 1999 Wisconsin Act 11 reopened the Variable Fund for existing and future participants, effective January 1, 2001. As of December 31, 2016, there were 58,306 active and inactive members and 40,647 annuitants participating in the Variable Fund.

Municipal Police and Firefighters Pension Group

As of March 31, 1978, administration of certain local funds for police officers and firefighters was assumed by the Wisconsin Retirement Fund. This included approximately 2,000 members. As of December 31, 2016, approximately 80 annuitants or their beneficiaries remained in the system. This group was closed to new members after January 1, 1948.

The liability for retirement benefits for these annuitants is funded by the employers, as benefit payments are made. Annuity reserves for these police and firefighter annuities are established by a transfer from the employer accumulation reserve at the time the annuity is approved. Earnings on these reserves are used to fund annuity adjustments on the same basis as for WRS annuitants. The unfunded liability for these annuitants as of December 31, 2016, was \$2.3 million.

Annuity Supplement - General Fund

As authorized under 1985 Wis. Stats. § 40.27 (1), the State's General Fund provides certain supplemental annuity benefits to annuitants receiving a continuing annuity on or before September 1974. The benefit is subject to continuation of the appropriation by the Legislature. ETF serves as a clearing agent for its payment. Total supplemental annuity benefits paid were approximately \$158,000 in 2016.

5 CONTRIBUTIONS REQUIRED AND MADE

Required Contributions

Contribution rates are determined by the "entry age normal with a frozen initial liability" actuarial method. This is a "level contribution" actuarial method intended to keep employer and employee contribution rates at a level percentage of payroll over the years. This method determines the amount of contributions necessary to fund: 1) the current service cost, which represents the estimated amount necessary to pay for benefits earned by the employees during the current service year plus actuarial gains or losses arising from the difference between actual and assumed experience; and 2) the prior service cost, which represents the estimated amount necessary to pay for unfunded benefits earned prior to the employer becoming a participating employer in WRS and the past service cost of benefit improvements.

The 2016 contribution requirements were determined by the December 31, 2014, actuarial valuation.

Employee contributions are deducted from the employee's salary and remitted to ETF by the participating employer. Employers generally may not pay the employee required contribution. The employee required contribution is one-half of the actuarially-determined contribution rate for General category employees, which includes teachers and employees in the Executive and Elected Official category. Employee required contributions for Protective occupation category employees are the same rate as General category employees. Employers are required to contribute the remainder of the actuarially-determined contribution rate.

Contribution rates in effect during 2016 by employment category were:

	Employer Current	Employer Prior*	Employee	Total
General, Teachers, Executive & Elected Officials	6.6%	0.0%	6.6%	13.2%
Protective Occupation with Social Security	9.4	0.0	6.6	16.0
Protective Occupation without Social Security	13.2	0.2	6.6	19.8

* The employer prior service contribution rate is a weighted average of individual employer rates.

Contributions required and made during 2016 were:

	Contributions (In Millions)	Percentage of Payroll
Employer Current Service	\$954.2	6.96%
Employer Prior Service*	1.2	0.01
Employee Required	905.7	6.61

* Employer Prior Service contributions are recorded on the Statement of Fiduciary Net Position as a reduction in the Prior Service Contribution Receivable. Contributions Made includes both mandatory and voluntary payments received from participating employers. Some Prior Service contributions received after year end are included in Contributions Made, but are not in the determination of Prior Service Contributions Receivable. This is due to a difference in how these payments are treated for actuarial and financial reporting purposes.

Employers also contributed \$665,000 in reimbursement for benefits paid under the s. 62.13, Wis. Stat, Police and Firefighters Pension Program.

Employee and Employer Additional Contributions

Contributions in addition to those required contributions by employees and/or employers may be made to the retirement system. These contributions are held in separate reserve accounts and are subject to certain restrictions as to amount, form of benefit payments, tax status, etc.

6 NET PENSION LIABILITY (ASSET) OF PARTICIPATING EMPLOYERS - WRS

The components of the net pension liability (asset) of the participating employers at December 31, 2016, were as follows (In Millions):

Total Pension Liability	\$93,404.34*
Plan Fiduciary Net Pension	\$92,580.10**
Participating Employers' Net Pension Liability (Asset)	\$824.24
Plan Fiduciary Net Position as a Percentage of the Total Pension Liability	99.12%

* Includes the impact of known Market Recognition Account deferred gain/losses on the liability for dividend payments.

** Immaterial differences may exist between the Plan Fiduciary Net Position used in the actuarial valuation and that reported in the Statement of Fiduciary Net Position, due to the timing of the actuarial valuation.

Additional information as of the latest actuarial valuations follows:

Actuarial Valuation Date:	December 31, 2015
Measurement Date of Net Pension Liability:	December 31, 2016
Actuarial Cost Method:	Entry Age
Asset Valuation Method:	Fair Value
Long-Term Expected Rate of Return:	7.2%
Discount Rate:	7.2%
Salary increases:	
Inflation	3.2%
Seniority/Merit	0.2% - 5.6%
Mortality:	Wisconsin 2012 Mortality Table
Post-retirement Adjustments:	2.1%*

* No Post-retirement adjustment is guaranteed. Actual adjustments are based on recognized investment return, actuarial experience and other factors. 2.1% is the assumed annual adjustment based on the investment return assumption and the post-retirement discount rate. Includes the impact of known Market Recognition account deferred gains/losses on the liability for dividend payments.

FINANCIAL SECTION

Actuarial assumptions are based upon an experience study conducted in 2015 using experience from 2012 – 2014. The total pension liability for December 31, 2016, is based upon a roll-forward of the liability calculated from the December 31, 2015, actuarial valuation.

A single discount rate of 7.20% was used to measure the total pension liability (asset), which was based on the expected rate of return on pension plan investments. Because of the unique structure of WRS, the 7.20% expected rate of return implies that a dividend of approximately 2.1% will always be paid after reflecting known changes in the Market Recognition Account. For purposes of the single discount rate, it was assumed that the dividend would always be paid.

The projection of cash flows used to determine the single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments (including expected dividends) of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability (Asset) to Changes in the Discount Rate

The following presents the plan's net pension liability (asset), calculated using a single discount rate of 7.20%, as well as what the plan's net pension liability (asset) would be if it were calculated using a single discount rate that one percentage point lower or one percentage point higher:

	1% Decrease (6.2%)	Current Discount Rate (7.2%)	1% Increase (8.2%)
Total Pension Liability	\$ 103,423.5	\$ 93,404.3	\$ 85,689.1
Plan Fiduciary Net Position	\$ 92,580.1	\$ 92,580.1	\$ 92,580.1
Net Pension Liability/(Asset)	<u>\$ 10,843.4</u>	<u>\$ 824.2</u>	<u>(\$ 6,891.0)</u>

Amounts may not foot due to rounding

For the WRS, the determination of liabilities also depends on the assumed dividend which is linked to the interest rate used in the liability calculation. Therefore, we have also shown an alternative set of Sensitivity Analysis which varies the assumed dividend in conjunction with the change in the discount rate. For the liabilities shown below, the assumed dividend was 1.1% for the 6.2% discount rate, 2.1% for the 7.2% discount rate, and 3.0% for the 8.2% discount rate. (In Millions):

	1% Decrease (6.2%)	Current Discount Rate (7.2%)	1% Increase (8.2%)
Total Pension Liability	\$ 96,874.4	\$ 93,404.3	\$ 89,738.9
Plan Fiduciary Net Position	\$ 92,580.1	\$ 92,580.1	\$ 92,580.1
Net Pension Liability/(Asset)	<u>\$ 4,294.3</u>	<u>\$ 824.2</u>	<u>(\$ 2,841.2)</u>

Amounts may not foot due to rounding

7 STATUTORY RESERVES

The following reserves have been established to reflect legal restrictions on the use of pension trust funds.

Employee Accumulation Reserve

As authorized by Wis. Stats. § 40.04 (4), this reserve includes all required and voluntary employee contributions, including contributions made by the employer on behalf of the employee. This reserve may only be used to pay lump sum benefits or transfers to the Annuity Reserve to fund annuities. All legal restrictions on use of this reserve were met during the year. The Employee Accumulation Reserve is fully funded.

Employee Accumulation Reserve balances (In Millions) as of December 31, 2016, were:

	Core	Variable	Total
Employee Required	\$ 15,615.8	\$ 1,562.5	\$ 17,178.3
Employee Additional	<u>169.7</u>	<u>14.2</u>	<u>183.9</u>
Total	<u>\$ 15,785.5</u>	<u>\$ 1,576.7</u>	<u>\$ 17,362.2</u>

Employer Accumulation Reserve

As authorized by Wis. Stat. § 40.04 (5), this reserve includes all required employer contributions, including contributions for amortization of the unfunded accrued actuarial liability. This reserve may only be used to pay lump sum benefits or transfers to the Annuity Reserve to fund annuities. All legal restrictions on use of this reserve were met during the year. The Employer Accumulation Reserve is 99.9% funded.

Employer Accumulation Reserve balances (In Millions) as of December 31, 2016, were:

	Core	Variable	Police & Firefighters	Total
Employer Accumulation	\$20,748.3	\$1,562.5	\$0.0	\$22,310.8
Less: Unfunded Actuarial Accrued Liability	<u>0.0</u>	<u>0.0</u>	<u>(2.3)</u>	<u>(2.3)</u>
Net Employer Accumulation	<u>\$ 20,748.3</u>	<u>\$ 1,562.5</u>	<u>\$ (2.3)</u>	<u>\$ 22,308.5</u>

Annuity Reserve

As authorized by Wis. Stat. § 40.04 (6), this reserve includes the present value of all annuities. The present value of new annuities is transferred from the Employee Accumulation Reserve and the Employer Accumulation Reserve to the Annuity Reserve. This reserve may only be used for the payment of annuities and death benefits to annuitants. All legal restrictions on use of this reserve were met during the year. The Annuity Reserve is fully funded.

Annuity Reserve balances (in Millions) as of December 31, 2016, were:

	Core	Variable	Police & Firefighters	Total
Annuity Reserve	\$51,965.7	\$3,790.1	\$6.0	\$55,761.8

FINANCIAL SECTION

Market Recognition Account

As authorized by Wis. Stat. § 40.04 (3), this reserve is used to smooth the flow of investment income into the Employee, Employer, and Annuity Reserves and other benefit plans invested in the Core Fund. Under the Market Recognition Account (MRA), all investment income, including realized and unrealized market gains and losses, is deposited into the MRA. At year-end, income equal to the assumed earnings rate is recognized. Any surplus or shortfall in earnings is recognized equally over five years.

Year-end balances in the MRA (In Millions) for the last five years after annual distributions were as follows:

As of:	MRA
December 31, 2012	2,451
December 31, 2013	4,721
December 31, 2014	2,540
December 31, 2015	(3,404)
December 31, 2016	(3,086)

8 PUBLIC ENTITY RISK POOLS

ETF operates four public entity risk pools: Health Insurance, Income Continuation Insurance (ICI), Long-Term Disability Insurance (LTDI), and Life Insurance. In accordance with GASB Statement No. 10, *Accounting and Financial Reporting for Risk Financing and Related Insurance Issues*, these funds are accounted for as enterprise funds

Health Insurance Fund

The Health Insurance Fund offers group health insurance for current employees of the State of Wisconsin and of participating local public employers. All public employers in the state are eligible to participate. The State of Wisconsin and 354 local employers participated during the year. The fund includes both a self-insured fee-for-service plan as well as various prepaid plans, primarily Health Maintenance Organizations (HMOs).

The Health Insurance Fund includes four separate risk pools. The first pool includes those members who have chosen health insurance coverage from an HMO. All liabilities for medical claims for these participants are the responsibility of the HMO and are not included in the

unpaid claims analysis or in the Required Supplementary Information.

The second pool includes medical coverage for those members selecting this self-insured indemnity plan offered by ETF. Liabilities for this pool are presented in the unpaid claims analysis and in the Required Supplementary Information.

The third pool includes self-insured pharmacy benefits for all members regardless of whether they receive medical coverage from an HMO or through the medical coverage indemnity plan. Liabilities for this pool are presented in the unpaid claims analysis and in the Required Supplementary Information.

The fourth pool includes self-insured dental benefits for members selecting this self-insured indemnity plan offered by ETF. Prior to 2016, dental benefits were included as part of the HMO coverage. Liabilities for this pool are presented in the unpaid claims analysis and in the Required Supplementary Information.

Income Continuation Insurance Fund

The Income Continuation Insurance (ICI) Fund offers both long-term and short-term disability benefits (up to 75% of gross salary) for current employees of the State of Wisconsin and participating local public employers. All public employers in Wisconsin are eligible to participate. The State of Wisconsin and 219 local employers currently participate in the plan, and it is self-insured. Since March 2012, premiums have been suspended for the local employers as a result of the increase in funded status of the program.

Long-Term Disability Insurance Fund

Effective October 15, 1992, the Group Insurance Board (GIB) established the Long-Term Disability Insurance (LTDI) program as an alternative to the long-term disability coverage provided through the WRS. The ETF Board purchases disability insurance coverage from the GIB for WRS participants.

Participants who were covered by the WRS prior to October 15, 1992, have the option to select either disability benefits from LTDI or WRS at the time of disability. New WRS participants on or after October 15, 1992, are eligible only for LTDI disability benefits.

An LTDI benefit replaces 40% of the disabled participant's final average earnings until normal retirement age or for a minimum of five years. It also provides for additional annual contributions to the participant's WRS account equal to 7% of the participant's final average earnings. At normal retirement age or after a minimum of five years of LTDI benefits, the LTDI benefit terminates and the participant is eligible for a WRS retirement benefit.

Since January 2014, WRS collects actuarially required premiums from employers and remits them to the GIB for LTDI coverage.

Life Insurance Fund

The Life Insurance Fund offers group life insurance coverage for current State of Wisconsin employees and employees of participating local public employers. All public employers in the state are eligible to participate. The State of Wisconsin and 738 local employers currently participate in the program. Employers and active employees make premium contributions, which ETF passes on to the insurance carrier. Participants have the option to select multiple coverage levels, each of which requires different premium contributions. Assets and liabilities are recorded in this program for contributions not yet received and payments not yet remitted to the insurance carrier, respectively.

Public Entity Risk Pool Accounting Policies

Basis of Accounting: All public entity risk pools are accounted for in enterprise funds using the full accrual basis of accounting and the flow of economic resources measurement focus.

Valuation of Investments: Assets of the Health Insurance, ICI, and LTDI funds are invested in the Core Retirement Investment Trust and are valued at fair value.

Unpaid Claims Liabilities: The fund establishes claims liabilities based on estimates of the ultimate cost of claims that have been reported but not settled and of claims that have been incurred but not reported. The estimate includes the effects of inflation and other societal and economic factors. Adjustments to claims liabilities are charged or credited to expense in the periods in which they are made. Unpaid claims liability is presented at face value and is not discounted for Health Insurance. These liabilities are discounted using an interest rate of 7.2% for the ICI and LTDI programs. The liabilities of the ICI, Health Insurance, and LTDI programs were determined by actuarial methods. Face value of the liability for these programs is not available.

Administrative Expenses: All maintenance expenses are expensed in the period they are incurred. Acquisition costs are immaterial and are treated as maintenance expenses.

Reinsurance: Health insurance plans provided by Health Maintenance Organizations (HMOs) are fully insured by outside insurers. All remaining risk is self-insured with no reinsurance coverage.

Risk Transfer: Participating employers are not subject to supplemental assessments in the event of deficiencies. If the assets of a fund were exhausted, participating employers would not be responsible for the fund's liabilities.

Premium Setting: Premiums are established by the GIB (Health Insurance, ICI, and LTDI) in consultation with actuaries.

Statutory Authority: All programs are operated under the authority of Chapter 40, Wisconsin Statutes.

FINANCIAL SECTION

Unpaid Claims Liabilities

Each fund establishes a liability for both reported and unreported insured events, which is an estimate of future payments of losses. The following represents changes in those aggregate liabilities (in millions) for each fund during the past year. The amounts for Health Insurance Programs include only the portion of the program that is self-insured.

	Income Continuation		Long-Term Disability		Health Insurance		Pharmacy Benefits		Dental	
	2016	2015	2016	2015	2016	2015	2016	2015	2016	2015**
Unpaid claims and claim adjustment expenses at beginning of the calendar year	\$ 87.1	\$ 82.9	\$ 323.5	\$ 292.5	\$ 1.9	\$ 2.3	\$ (19.5)	\$ (9.9)	\$ 0.0	\$ 0.0
Incurred claims and claim adjustment expenses:										
Provision for insured events of the current calendar year	20.7	22.8	50.0	44.4	15.1	14.7	156.0	176.9	44.1	0.0
Changes in provision for insured events of prior calendar years	<u>6.8</u>	<u>5.2</u>	<u>18.7</u>	<u>44.8</u>	<u>(0.6)</u>	<u>(1.0)</u>	<u>14.4</u>	<u>0.0</u>	<u>0.0</u>	<u>0.0</u>
Total incurred claims and claim adjustment expenses	<u>27.5</u>	<u>27.9</u>	<u>68.7</u>	<u>89.2</u>	<u>14.5</u>	<u>13.7</u>	<u>170.4</u>	<u>176.9</u>	<u>44.1</u>	<u>0.0</u>
Payments:										
Claims and claim adjustment expenses attributable to insured events of the current calendar year	5.6	6.6	2.2	2.1	13.1	12.8	171.0	196.4	42.2	0.0
Claims and claim adjustment expenses attributable to insured events of prior calendar years	<u>15.6</u>	<u>17.1</u>	<u>46.8</u>	<u>56.1</u>	<u>1.3</u>	<u>1.3</u>	<u>(5.1)</u>	<u>(9.9)</u>	<u>0.0</u>	<u>0.0</u>
Total payments	<u>21.2</u>	<u>23.7</u>	<u>49.0</u>	<u>58.2</u>	<u>14.4</u>	<u>14.1</u>	<u>165.9</u>	<u>186.5</u>	<u>42.2</u>	<u>0.0</u>
Total unpaid claims and claim adjustment expenses at end of the calendar year	\$ 93.5	\$ 87.1	\$ 343.2	\$ 323.5	\$ 2.0	\$ 1.9	\$ (15.0)*	\$ (19.5)*	\$ 1.9	\$ 0.0

*Total unpaid claims at the end of 2016 is the net of \$4.5 million in unpaid claims and \$19.5 million in rebates due from pharmaceutical companies; unpaid claims at the end of 2015 is the net of \$5.1 million in unpaid claims and \$24.6 million in rebates due from pharmaceutical companies.

** Prior to 2016 Dental Benefits were included as part of fully insured HMO Coverage

Amounts may not foot due to rounding

9 OTHER POST-EMPLOYMENT BENEFIT (OPEB) PLANS ADMINISTERED BY ETF

ETF administers five OPEB plans: the Duty Disability Insurance Fund, the State Retiree Life Insurance Fund, the Local Government Retiree Life Insurance Fund, the State Retiree Health Insurance Fund and the Local Government Retiree Health Insurance Fund. The Retiree Health Insurance Funds contain certain non-OPEB components relating to post-Medicare pharmacy and health insurance benefits.

Plan Descriptions

Duty Disability Insurance Fund

The Duty Disability Insurance Fund is a cost-sharing multiple-employer defined benefit OPEB plan. The plan offers special disability insurance for State of Wisconsin and local WRS participants in protective occupations. The plan is self-insured, and risk is shared between the State of Wisconsin and local government employers in the plan. The plan is administered under Wis. Stat. § 40.65. The plan is reported as an "other employee benefit trust fund."

Membership

Participation in the program is mandatory for all WRS employers with protective occupation employees. The State of Wisconsin and 496 local government employers participate. Membership as of December 31, 2016, consisted of:

Disabled members and beneficiaries receiving benefits	1,007
Active plan members	<u>22,223</u>
Total plan members	<u>23,230</u>

Contributions

Contributions are actuarially determined in accordance with Wis. Stats. § 40.05(2)(ar). All contributions are employer-paid based on a graduated, experience-rated formula. During 2016, contribution rates ranged from 0.09% to 2.31% of covered payroll based on employer experience.

Description of Benefits

Eligibility: Duty-related injury or disease that is likely to be permanent, which causes a protective occupation participant to retire, accept reduced pay or light duty assignment, or in some cases, that impairs promotional opportunities.

Amount: 80% of salary (75% if not a State of Wisconsin employee), less the following offsets:

- Social Security
- Unemployment Compensation
- Worker's Compensation
- Any other WRS benefit
- All earnings from the employer under which the disability occurred
- A percent of other earnings as follows:
 - 1/3 of earnings less than 40% of monthly salary
 - 1/2 of earnings between 40% and 80% of monthly salary
 - 2/3 of earnings over 80% of monthly salary

Survivor Benefit: All survivor benefits are offset by any Worker's Compensation death benefits.

- For applications filed **prior** to May 3, 1988, benefits are based on the following:
 - 1/3 of the participant's monthly salary at time of death to surviving spouse, plus
 - \$15/month to each unmarried child under the age of 18

- Not to exceed 65% of participant's monthly salary at time of death

- For applications filed on or **after** May 3, 1988, benefits are based on the following:

Local employees:

- 1/2 of the participant's monthly salary at time of death to surviving spouse or domestic partner, less other income sources that are based on the participant's earnings record
- 1/10 of the participant's monthly salary at time of death to each unmarried child under the age of 18
- Not to exceed 70% of participant's monthly salary at time of death

State employees:

- 1/3 of the participant's monthly salary at time of death to surviving spouse or domestic partner, plus
- \$15/month to each unmarried child under the age of 18
- Not to exceed 65% of participant's monthly salary at time of death

- For applications received on or after May 12, 1998, in which the protective occupation participant dies as a result of a disease covered under the Cancer Presumptive Law, benefits are based on the following:

- 70% of the participant's monthly salary at time of death to surviving spouse or domestic partner, less other income sources that are based on the participant's earnings record
- 1/10 of the participant's monthly salary at time of death to the guardian of any minor child, as long as there is no surviving spouse
- There is no maximum

Annual Increases:

- To age 60: In accordance with WRS salary index.
- After age 60: In accordance with WRS dividend increases (so long as the claimant is not also receiving a disability retirement benefit).

Retiree Life Insurance Funds

The State Retiree Life Insurance Fund and the Local Government Retiree Life Insurance Fund are cost-sharing multiple-employer defined benefit OPEB plans. The State of Wisconsin and 738 local government employers currently participate. The plans provide post-employment life insurance coverage to all eligible employees of participating employers. The plans are administered under Wis. Stats. § 40.70. The plans are reported as other employee benefit trust funds.

FINANCIAL SECTION

Membership

Eligibility: Generally, members may enroll during a 30-day enrollment period once they satisfy a six-month waiting period. Members may also enroll after the initial 30-day enrollment period with evidence of insurability. Members under evidence of insurability enrollment must enroll in group life insurance coverage before age 55 to be eligible for Basic or Supplemental coverage.

Membership as of December 31, 2016, included:

	State	Local	Total
Active*	50,946	75,681	126,627
Pre-Age 65 Annuitants	7,127	10,571	17,698
Post-Age 64 Annuitants	23,767	31,927	55,694
Totals	<u>81,840</u>	<u>118,179</u>	<u>200,019</u>

*Active members include disabled.

Contributions

Employers are required to pay the following contributions for active members to provide them with Basic Coverage after age 65. There are no employer contributions for pre-65 annuitant coverage. All contributions are actuarially determined.

	State	Local
50% Post Retirement Coverage	28% of employee premium	40% of employee premium
25% Post Retirement Coverage	N/A	20% of employee premium

Reserves

Active member and retiree plan reserves are commingled for investment and administrative purposes. Effective January 1, 2008, assets were permanently split between the active member and OPEB plans.

Description of Benefits

Eligibility: At retirement, the member must have active group life insurance coverage and satisfy one of the following:

- WRS coverage prior to January 1, 1989, or
- At least one month of group life insurance coverage in each of five calendar years after 1989 and one of the following:
 - Eligible for an immediate WRS benefit, or

- At least 20 years from their WRS creditable service as of January 1, 1990, plus their years of group life insurance coverage after 1989, or
- At least 20 years on the payroll of their last employer.

In addition, terminating members and retirees must continue to pay the employee premiums until age 65 (age 70 if active).

Basic Coverage Benefits: After retirement, basic coverage is continued for life in these amounts of the insurance in force before retirement:

	% of Basic Coverage Continuing	
Age	State	Local
Before age 65	100%	100%
While age 65	75%	75%
While age 66	50%	50%
After age 66	50%	50% / 25% employer election

Supplemental Coverage Benefits: After retirement, Supplemental coverage may be continued until age 65 at 100% of the amount of the insurance in force before retirement at the employee's expense.

Additional Coverage Benefits: After retirement, additional coverage may be continued until age 65 at 100% of the amount of the insurance in force before retirement at the employee's expense.

Spouse and Dependent Coverage Benefits:

After retirement, the coverage is terminated.

Investment Contract with Insurance Carrier

Investments for the Retiree Life Insurance Funds are held with the insurance carrier. Interest is calculated and credited to the Retiree Life Insurance Funds based on the rate of return for a segment of the insurance carrier's general fund, specifically 10 Year A- Bonds (as a proxy and not tied to any specific investments). The funds invested during the year earn interest based on that year's rate of return for 10 Year A- Bonds. The overall aggregate interest rate is calculated using a tiered approach based on the year the funds were invested and the rate of return for that year. Investment interest is credited based on the aggregate rate of return and assets are not adjusted to fair market value.

Furthermore, the insurance carrier guarantees the principal amounts of the reserves, including all interest previously credited thereto.

Retiree Health Insurance Funds

The State Retiree Health Insurance Fund and the Local Government Retiree Health Insurance Fund are agent multiple-employer defined benefit OPEB plans offering group health insurance to retired State of Wisconsin and local government employees. ETF and the Group Insurance Board (GIB) have statutory authority for program administration and oversight [Wis. Stats. §§ 15.165 (2) and 40.03 (6)]. The State of Wisconsin and 354 local government employers currently participate in the plans. The plans are reported as agency funds.

Beginning in 2007, some employers must make additional disclosures related to their Retiree Health Insurance Plans, including the funding policy, the employer’s annual OPEB cost and contributions made, the funded status and funding progress of the plan, and the actuarial methods and assumptions used. This information is available from the employer.

Membership: State of Wisconsin and local government employees participating in the State Health Insurance Plan or the Wisconsin Public Employers Insurance Plan (local government plans) are eligible to continue their health insurance coverage after leaving covered employment. Membership as of December 31, 2016,

included 26,571 former state employees or their beneficiaries and 2,208 former local government employees and beneficiaries.

Description of Benefits: Employees may choose between self-insured health plans and alternate health plans with specific provider networks (i.e., HMOs). The HMOs follow GIB guidelines for eligibility and program requirements. All HMOs offer a prescribed benefit package called Uniform Benefits and participate in a yearly competitive premium rate bid process. The Standard Plan and State Maintenance Plan are self-insured by the GIB and administered by WPS Health Insurance. The Standard Plan is a preferred provider plan.

The pharmacy benefit is self-insured by the GIB and administered by Navitus Health Solutions.

Effective January 1, 2012, prescription drug coverage for Medicare eligible retirees enrolled in the State group health insurance program is provided by a self-funded Medicare Part D Employer Group Waiver Plan (EGWP). A Medicare “Wrap” product is also included to provide full coverage to members, as required by uniform benefits, when they reach the Medicare coverage gap, also known as the “donut hole”.

Contributions: Health Insurance premiums are actuarially determined or set by contract with the insurer.

Funded Status and Funding Progress – OPEB Plans

The funded status of each plan as of the most recent actuarial valuation date is as follows (In Thousands):

Actuarial Valuation Date	(a) Actuarial Value of Assets	(b) Actuarial Accrued Liability (AAL)	(c) Unfunded Actuarial Accrued Liability (UAAL) (b) – (a)	(d) Funded Ratio (a) / (b)	(e) Covered Payroll	(f) UAAL as Percentage of Covered Payroll (c) / (e)
Duty Disability Insurance January 1, 2016	\$603,768	\$523,238	(\$80,530)	115.4%	\$1,358,934	(5.9%)
State Life Insurance January 1, 2016	363,025	694,407	331,382	52.3%	3,037,726	10.9%
Local Life Insurance January 1, 2016	243,469	446,960	203,491	54.5%	4,024,781	5.1%

FINANCIAL SECTION

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Actuarially-determined amounts are subject to continual revision, as actual results are compared with past expectations and new estimates are made about the future. The schedules of funding progress, presented as required supplementary information following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

The accompanying schedules of employer contributions, included in the required supplementary information at the end of the notes, present trend information about the amounts contributed to the plan by employers in comparison to the Annual Required

Contribution (ARC), an amount that is actuarially-determined in accordance with the parameters of GASB Statement 43. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost for each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. Additional information as of the latest actuarial valuations follows:

	Duty Disability Insurance	State Life Insurance	Local Life Insurance
Valuation Date	1/1/16	1/1/16	1/1/16
Actuarial Cost Method	Projected Unit Credit	Entry Age Normal	Entry Age Normal
Amortization Method	Closed level percentage of pay if underfunded, open level percentage of pay if overfunded	Closed level percentage of pay	Closed level percentage of pay
Remaining Amortization Period	UAAL – 30 years Future gains & losses – 15 years	UAAL – 30 years Future gains & losses – 15 years	UAAL – 30 years Future gains & losses – 15 years
Asset valuation method	5 year Smoothed Market	Market Value	Market Value
Actuarial Assumptions:			
Investment Return	7.20%	4.20%	4.20%
Payroll Growth	3.20%	3.20%	3.20%

10 MILWAUKEE RETIREMENT SYSTEM

The Milwaukee Retirement System (MRS), consisting of two funds within the Milwaukee Public Schools Retirement System, is reported as an Investment Trust Fund. MRS provides assets to ETF for investing in the Core and Variable Funds, described in the Investments section of Note 1. The Core and Variable Funds are managed by SWIB with oversight by a board of trustees as authorized in Wis. Stat. § 25.17. SWIB is not registered with the Securities and Exchange Commission as an investment company. Participation of the MRS in the Core and Variable Funds is described in the Wisconsin Administrative Code, § ETF 10.12. Monthly, ETF distributes pro-rata shares of total Core Fund and total Variable Fund earnings, less administrative expenses to the MRS accounts. The MRS accounts are adjusted to fair value and gains/losses are recorded directly in the

accounts per Wisconsin Administrative Code, § ETF 10.12 (2).

No state statute, legal provision, or legally-binding guarantee exists to support the value of shares. At December 31, 2016, the Core and Variable Funds held \$96.4 billion in investment related accounts, of which \$6.9 billion is classified as cash equivalents. In addition, the Core and Variable Funds held \$1,005 million of securities lending collateral.

Summary information by investment classification in accordance with GASB Statement No. 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools, for the Core and Variable Funds at December 31, 2016, is presented in Note 3. Condensed financial data for the Core and Variable Funds for the year ended December 31, 2016, is presented below (in thousands):

Core and Variable Retirement Investment Trusts Condensed Statements of Net Position As of December 31, 2016

Assets:	Core	Variable	Short Sales Adjustments*	Combined
Cash & Cash Equivalents	\$6,817,787	\$102,587	\$ 0	\$6,920,374
Securities Lending Collateral	959,261	45,679	0	1,004,940
Prepaid Items	6,363	5	0	6,368
Investment Receivables	1,143,657	13,818	0	1,157,475
Investments, at fair value	83,840,488	6,912,810	(19,649)	90,733,649
Total Assets	92,767,556	7,074,899	(19,649)	99,822,806
Liabilities:				
Securities Lending Collateral Liability	959,261	45,679	0	1,004,940
Due to Other Funds	0	0	0	0
Obligations Under Reverse Repurchase Agreement	1,831,169	0	0	1,831,169
Short Sell Obligations	327,878	6,697	(19,649)	314,926
Collateral Due to Counterparty	74,340	0	0	74,340
Investment Payables	155,304	6,224	0	161,528
Total Liabilities	3,347,952	58,600	(19,649)	3,386,903
Net Position Held in Trust for:				
Internal Investment Pool Participants	89,258,725	6,994,459	0	96,253,184
Milwaukee Retirement Systems	160,879	21,840	0	182,719
Total	\$89,419,604	\$7,016,299	\$0	\$96,435,903

*This adjustment removes the impact of inter-fund short sales where the shorted position is held in the other Retirement Investment Trust Fund (i.e. SWIB is short a security in the Core Fund but long the same position in the Variable Fund, or vice-versa).

11 CONTINGENCIES, UNUSUAL EVENTS, & SUBSEQUENT EVENTS

Loss Contingency

On September 5, 2008, the Internal Revenue Service (IRS) provided SWIB with a "Notice of Transferee Liability". This claim seeks taxes, penalties and interest relating to the sale of Shockley Communications Corporation (SCC) stock in 2001.

SWIB is classified as a tax exempt entity by the IRS. However, the IRS asserts that the shareholders' sale of SCC stock in 2001 should have been characterized as a sale of assets by SCC, on which SCC should have paid income taxes. Based on the theory of transferee liability, the IRS asserts that the former SCC shareholders, including SWIB, are liable for SCC's unpaid taxes, penalties and interest.

SWIB has filed a petition in the United States Tax Court contesting the proposed IRS assessment. In April 2014, SWIB and the IRS agreed to stay the Tax Court proceeding pending the resolution of the tax case initiated by the principal shareholders of SCC challenging the IRS' characterization of the SCC sale. In 2015, the Tax Court found that the principal shareholders of SCC were liable as putative transferees

for the tax, penalties and interest owed by SCC related to its sale. The 2015 Tax Court opinion is currently on appeal with the 11th Circuit Court of Appeals. Although SWIB plans to continue to aggressively contest the IRS' assertions of SWIB's tax liability, and SWIB has separate and distinct arguments from the principal shareholders of SCC, at the end of 2015, SWIB determined it was prudent to accrue a potential loss from the SCC transaction based on the Tax Court's adverse opinion. SWIB's potential liability, as a putative transferee of SCC assets, is reasonably estimated to be between \$16.6 million and \$51.7 million as of December 31, 2016. Although results may differ, this estimated range of loss is based on a possible settlement strategy with the IRS and the maximum potential liability to the IRS for the taxes, interest and potential penalties of SCC based on the Tax Court's decision against the principal shareholders. Accordingly, in calendar year 2015, SWIB accrued a loss of \$16.6 million, which represents the estimated minimum amount of the possible loss to which SWIB believes it may be exposed.

REQUIRED SUPPLEMENTARY INFORMATION

PUBLIC ENTITY RISK POOLS Claims Development Information

The tables on the following pages illustrate how the funds' earned revenues and investment income compare to related costs of loss and other expenses assumed by the funds as of the end of each of the last ten years. The rows of the tables are defined as follows:

1. Net Earned Required Contribution and Investment Revenues. Shows the total of each calendar year's earned contribution revenues and investment revenues.
2. Unallocated Expenses. Shows each calendar year's other operating costs of the fund, including overhead and claims expenses not allocable to individual claims.
3. Estimated Incurred Claims as of the End of the Policy Year. Shows the fund's incurred claims and allocated claim adjustment expense (both paid and accrued) as originally reported as the end of the first year in which the event that triggered coverage under the contract occurred (called policy year).
4. Paid Cumulative as of Year-End. Shows the cumulative amounts paid as of the end of successive years for each policy year.
5. Re-estimated Incurred Claims. Shows how each policy year incurred claims increased or decreased as of the end of successive policy years. This annual re-estimation results from new information received on known claims, reevaluation of existing information on known claims, as well as emergence of new claims not previously known.
6. Increase (Decrease) in Estimated Incurred Claims from End of Policy Year. Compares the latest re-estimated incurred claims amount to the amount originally established (line 3) and shows whether this latest estimate of claims cost is greater or less than originally thought.

As data for individual policy years mature, the correlation between original estimates and re-estimated amounts is commonly used to evaluate the accuracy of incurred claims currently recognized in less mature policy years. The columns of the tables show data for successive policy years.

Net Pension Liability/(Asset) - Ending (a) - (b)	\$ 824.2	\$ 1,625.0	\$ (2,455.6)	\$ (3,942.5)
Plan Fiduciary Net Position as a Percentage of Total Pension Liability	99.12%	98.20%	102.74%	104.59%
Covered Employee Payroll	\$ 13,706.0	\$ 13,530.5	\$ 13,219.5	\$ 12,884.8
Net Pension Liability/(Asset) as a Percentage of Covered Employee Payroll	6.01%	12.01%	(18.58%)	(30.60%)

Immaterial differences may exist between the amounts in this schedule and those reported in the Statement of Fiduciary Net Position and the Statement of Changes in Fiduciary Net Position due to the timing of the actuarial valuation.

Amounts may not foot due to rounding.

* Starting with 2015, this item includes the impact of known Market Recognition account deferred gains/losses on the liability for dividend payments.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

Significant methods and assumptions used in calculating the Actuarially Determined Contribution:

Valuation Date:	December 31, 2014
Actuarial Cost Method:	Frozen Entry Age
Amortization Method:	Level Percent-Closed Amortization Period
Amortization Period:	30 Year closed from date of participation in WRS
Asset Valuation Method:	Five Year Smoothed Market (Closed)
Actuarial Assumptions	
Net Investment Rate of Return:	5.5%
Weighted based on assumed rate for:	
Pre-retirement:	7.2%
Post-retirement:	5.0%
Salary Increases	
Inflation:	3.2%
Seniority/Merit:	0.2% - 5.6%
Post-retirement Benefit Adjustments:	2.1%*

*No post-retirement adjustment is guaranteed. Actual adjustments are based on recognized investment return, actuarial experience and other factors. 2.1% is the assumed annual adjustment based on the investment return assumption and the post-retirement discount rate.

Employee Trust Funds Board
801 West Badger Road
Madison, Wisconsin 53713-2526

**Re: Wisconsin Retirement System (WRS)
Actuarial Valuation as of December 31, 2016**

Ladies and Gentlemen:

The basic financial objective of the WRS is to establish and receive contributions which:

- When expressed in terms of percents of active member payroll, will remain approximately level from generation-to-generation; and
- When combined with present assets and future investment return, will be sufficient to meet the financial obligations of WRS to present and future retirees and beneficiaries.

The purpose of the valuation was to determine contribution rates for the 2018 fiscal year. The valuation should not be relied upon for any other purpose. The valuation process develops contribution rates that are sufficient to fund the plan's normal cost (i.e., the costs assigned by the valuation method to the year of service about to be rendered), as well as to fund unfunded actuarial accrued liabilities as a level percent of active member payroll over a finite period. The valuations were completed based upon population data, asset data, and plan provisions in effect on December 31, 2016.

The valuation was based upon information, furnished by the plan's administrative staff, concerning Retirement System benefits, financial transactions, and individual members, terminated members, retirees and beneficiaries. We checked the data for internal and year-to-year consistency, but did not audit the data. As a result, we do not assume responsibility for the accuracy or completeness of the data provided.

The actuary prepared the following supporting schedules for the Comprehensive Annual Financial Report:

Percent Increase in Salaries
Single Life Retirement Values
Rates of Retirement for Those Eligible to Retire
Early Retirement Pattern
Percentage of Active Members Withdrawing (Select and Ultimate)
Percentage of Active Members becoming Disabled
Solvency Test
Summary of Accrued and Unfunded Accrued Liabilities

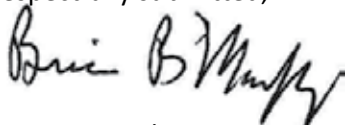

Assets are valued on a statutory market related basis that recognizes assumed return fully each year and spreads each year's gain or loss above or below assumed return over a closed five-year period.

Actuarial valuations are based upon assumptions regarding future activity in specific risk areas including the rates of investment return and payroll growth, eligibility for the various classes of benefits, and longevity among retired lives. The Board adopts these assumptions after considering the advice of the actuary and other professionals. The assumptions and the methods are in conformity with generally accepted actuarial principles and practices, and with the Actuarial Standards of Practice issued by the Actuarial Standards Board. Each actuarial valuation takes into account all prior differences between actual and assumed experience in each risk area and adjusts the contribution rates as needed. The December 31, 2016 valuations were based upon assumptions that were recommended in connection with a study of experience covering the 2012-2014 period. Future actuarial measurements may differ significantly from those presented in the valuations due to such factors as experience differing from that anticipated by actuarial assumptions, changes in plan provision, actuarial assumptions/methods or applicable law. Due to the limited scope of the assignment, we did not perform an analysis of the potential range of future measurements. Readers desiring a more complete understanding of the actuarial condition of the WRS are encouraged to obtain and read the complete valuation reports. The material in the Actuarial Section and Financial Section of this CAFR contains some, but not all, of the information in the valuation reports.

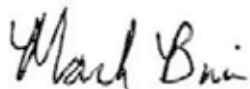

Based upon the results of the December 31, 2016 valuations, we are pleased to report to the Board that the Wisconsin Retirement System is meeting its basic financial objective and continues to operate in accordance with actuarial principles of level percent of payroll financing.

Brian B. Murphy, Mark Buis, and James D. Anderson are Members of the American Academy of Actuaries (MAAA), and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinions contained herein.

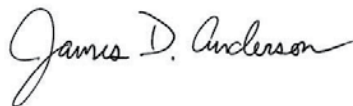

Respectfully submitted,

Brian B. Murphy, FSA, EA, FCA, MAAA

Mark Buis, FSA, EA, FCA, MAAA

James D. Anderson, FSA, EA, MAAA

ACTUARIAL SECTION

SUMMARY OF BENEFIT PROVISIONS

Normal Retirement Eligibility

The age a participant becomes eligible for an unreduced age and service annuity is:

General		Protective Occupation		Executive & Elected	
Age	Service	Age	Service	Age	Service
65	Any *	54	Any*	62	Any*
57	30	53	25	57	30

*Participants first employed after 1989 and terminated before April 24, 1998, must have creditable service in five calendar years. Participants first employed after June 30, 2011 must have five years of creditable service.

Normal Retirement Annuity

The age and service annuity payable at Normal Retirement Age is based on Final Average Earnings (FAE) and creditable service as follows:

Multiplier for Service Rendered

Before 2000	Between 2000 and 2011	After 2011	Group
2.165%	2.0%	1.6%	Executive group and elected officials
2.165%	2.0%	2.0%	Protective occupation participants covered by Social Security
2.665%	2.5%	2.5%	Protective occupation participants not covered by Social Security
1.765%	1.6%	1.6%	All other participants

FAE is generally the average of the three highest years of earnings preceding retirement (July 1 - June 30 for teachers, educational support staff, and judges; calendar year for others). These years do not have to be consecutive. For legislators and state constitutional officers who are ineligible to receive pay increases during their term, FAE is the statutory rate of earnings at termination.

Maximum formula annuity is 85% of FAE for protective occupation participants not covered by Social Security, 65% of FAE for protectives covered by Social Security,

and 70% for all other participants. If greater than the formula amount, an annuity equal to the actuarial equivalent of two times the required accumulated contributions is paid in lieu of the formula amount.

Early Retirement: Any participant who has attained age 55 and any protective occupation participant who has attained age 50 may apply for an early retirement annuity. The benefit is reduced 0.4% for each month that the annuity effective date precedes the Normal Retirement Age. For non-protective participants terminating after June 30, 1990, the 0.4% is reduced for months after the attainment of age 57 and before the annuity effective date by .001111% for each month of creditable service.

Voluntary Termination Before Immediate Benefit Eligibility: A participant who terminates service before being eligible for a retirement annuity may either (1) receive a refund of accumulated contributions, or (2) leave contributions on deposit and apply for a retirement annuity on or after the minimum retirement age based upon age and accrued service at time of termination.

Post-Retirement Adjustments: Annuities are increased annually if the investment income credited to retired life funds is in excess of the assumed rate (presently 5%), other plan experiences are within projected ranges, and the resulting adjustment would be at least 0.5%. Previously granted adjustments can be revoked if the investment income is insufficient to support these previously granted increases. However, a Core Fund annuity cannot be reduced below the amount granted upon inception. Slightly different provisions apply to variable annuities.

Disability Annuity: Eligibility for disability under the Wisconsin Retirement System means, generally, total and permanent incapacity to engage in gainful employment. The participant must have completed at least six months of creditable service in each of at least five out of the last seven calendar years preceding application for disability. The service requirement is waived if the disability is from service-related causes.

Disability Amounts: Amounts payable in case of disability depend upon the plan from which payment is made. Plans are described below.

	Pre-10/16/92 WRS Plan	Post-10/15/92 Long-Term Disability Insurance (LTDI) Plan
Participants Covered	Participants hired before 10/16/92 who do not elect LTDI coverage.	Participants entering after 10/15/92 and participants on 10/15/92 who elect LTDI coverage.
Benefit to age 65*	WRS formula benefit based on service projected to normal retirement age.	40% of FAE for participants covered by Social Security; 50% of FAE for non-covered participants who cannot qualify for Social Security disability benefits.
Benefit at age 65*	Continuation of pre-65 amount.	WRS benefit accrued to date of disability plus 7% of FAE money purchase benefit during disability period, both of which are adjusted in accordance with the dividend rate.

*Conversion age is later for participants becoming disabled after age 61.

Death In Service: Prior to age 50 for protective participants and age 55 for others, the benefit is the equivalent of twice the accumulated employee required and all additional contributions and employer amounts contributed prior to 1974 for teachers or 1966 for others. After age 50 for protective occupation participants, and age 55 for others, the benefit is the amount that would have been paid if participant had retired and elected the 100% survivor option. The benefit is payable to a spouse, child, or other dependent.

Interest credits: Interest is credited on member Core Fund accounts based on the prior year ending account balance and the interest rates shown below.

Date of Participation	Rate Credited For Purpose of	
	Money Purchase Minimum	Refunds
Prior to 1982	Core Effective Rate	Core Effective Rate
January 1, 1982 and later and terminated prior to January 1, 2000	5%	3%
January 1, 1982 and later and not terminated prior to January 1, 2000	Core Effective Rate	Core Effective Rate

Interest is credited on member Variable Fund accounts based on the prior year ending account balance and the Variable effective rate.

Interest on both Core and Variable member additional deposit accounts is based on the prior year ending account balance and the appropriate effective rate.

Contribution Rates: The financial objective of the WRS is to establish and receive contributions that will remain level from year to year and decade to decade.

Effective June 28, 2011, the employee contribution for general category employees, teachers and executives and elected officials is equal to one-half the actuarially required contribution. The employee contribution for protective occupations is the same percentage as general employees. The employer is responsible for the remainder of the actuarially determined contribution. The employer may not pay any portion of the employee contribution unless provided for by a pre-existing collective bargaining agreement.

ACTUARIAL METHOD AND ASSUMPTIONS USED IN VALUATIONS

The principal areas of risk assumption are:

1. Long-term rates of investment income likely to be generated by the assets of the retirement fund. This includes both realized and unrealized appreciation and depreciation.
2. Rates of mortality among participants, retirees and beneficiaries.
3. Rates of withdrawal of active participants.
4. Rates of disability among participants.
5. Patterns of salary increases to be experienced by participants.
6. The age and service distribution of actual retirements.

In making a valuation, the actuary must project the monetary value of each risk assumption for each distinct experience group for the next year and for each year over the next half-century or longer.

Once actual risk experience has occurred and been observed, it will not coincide exactly with assumed risk experience regardless of the skill of the actuary, the completeness of the data, and the precision of the calculations. Each valuation provides a completed recalculation of assumed future risk experience and takes into account all past differences between assumed and actual risk experience. The result is a continual series of small adjustments to the computed contribution rate. From time to time it becomes necessary to adjust the package of risk measurements to reflect basic experience trends but not random year-to-year fluctuations.

The actuarial valuation method used in the valuation was the Frozen Initial Liability Actuarial Valuation Method. Under this method, the amount of remaining unfunded accrued actuarial liabilities at any valuation date are affected only by the monthly amortization payments, compound interest, the added liability created by new employer units, and any added liabilities caused by changes in benefit provisions.

Economic Assumptions

The **Investment Return Assumption** for plan assets is 7.2%.

For determining plan liabilities, the **Discount Rate** is 5.0% for retired participants, 5.0% for active and inactive participants following retirement, and 7.2% for active participants prior to their retirement. A valuation performed assuming 5.5% discount rate for all participants at all stages of life, reproduces the results of an actuarial valuation using the 5% post-retirement and 7.2% pre-retirement assumptions. Thus, it can be said that the net discount rate assumed in the valuations was 5.5% per year, compounded annually (net after administrative expenses).

The **Wage Inflation Rate** assumed in this valuation was 3.20% per year. The wage inflation rate is defined to be the portion of total pay increases for an individual that are due to macroeconomic forces, including productivity, price inflation, and labor market conditions. The wage inflation rate does not include pay changes related to individual merit and seniority effects.

No specific **Price Inflation** assumption is required to perform this valuation because there are no benefits that are linked to price increases. The price inflation assumption used to evaluate the investment return assumption is 2.7%

The assumed **Real Rate of Return** over wage inflation is defined to be the portion of total investment return that is more than the assumed total wage growth rate. Considering other economic assumptions, the 7.2% pre-retirement investment return rate translates to an assumed real rate of return over wage inflation of 4.0%. The assumed real rate of return over price inflation is 4.5% considering an inflation assumption of 2.7%.

Pay increase assumptions for individual active participants are shown for sample services below. Part of the assumption for each age is for merit and/or seniority increase, and the other 3.2% recognizes wage inflation, including price inflation, productivity increases, and other macroeconomic forces.

% Increases in Salaries Next Year (Merit and Longevity)

Service	General	University Teachers	Public School Teachers	Protective Occupation with SS	Protective Occupation without SS	Executive/Elected
1	3.5%	3.0%	5.6%	4.8%	5.5%	2.5%
2	3.5%	3.0%	5.6%	4.8%	5.5%	2.5%
3	3.1%	2.9%	5.2%	4.1%	4.7%	2.0%
4	2.8%	2.8%	4.7%	3.5%	3.8%	1.6%
5	2.5%	2.7%	4.3%	2.8%	3.0%	1.1%
10	1.5%	2.2%	2.6%	1.1%	0.9%	0.2%
15	1.1%	1.7%	1.4%	0.8%	0.5%	0.2%
20	0.9%	1.2%	0.6%	0.7%	0.4%	0.2%
25	0.6%	0.9%	0.3%	0.6%	0.3%	0.2%
30	0.4%	0.7%	0.2%	0.5%	0.2%	0.2%

In addition to the merit and longevity increase, each person is assumed to get an economic increase of 3.2% each year.

The active population is assumed to remain constant. The active payroll is assumed to grow 3.2% per year. This increasing payroll was recognized in amortizing unfunded actuarial accrued liabilities.

Decrement Probabilities

The mortality table used to measure mortality for participants was the Wisconsin Projected Experience Table for men and women. Sample retirement values from this table are shown at right. This assumption is used to measure the probabilities of participants dying before retirement and the probabilities of each benefit payment being made after retirement.

Single Life Retirement Values (Retired Participants)

Wisconsin Projected Experience Table With 5% Interest

Sample Attained (Years)	Present Value of \$1 Monthly for Life		Future Life Expectancy	
	Male	Female	Male	Female

The assumed rates of separation from employment prior to service retirement due to disability and other causes are shown below for sample ages. For other terminations, it was assumed that a percentage depending on age of participants terminating after age 35 with five or more years of service will leave their contributions on deposit and be paid a benefit at normal retirement age and that the remaining participants would take a separation benefit. The percentage taking a separation benefit is 25% at age 35, grading downward to 0% at retirement eligibility. All participants terminating prior to normal retirement age with less than five years of service were assumed to take a separation benefit.

Wisconsin Retirement System Contribution Rates

Notes To Contribution Rate Schedule

1. Prior to June 28, 2011 the employee contribution rate was set by Wis Stats. 40.05 (1) and part or all the required employee contributions could be paid by the employer on behalf of the employee. Effective June 28, 2011 the employee contribution rate for general and executive/elected category employees is equal to the general category rate. Employers may not pay the employee contribution on their behalf unless provided for by an existing collective bargaining agreement.

2. The unfunded liability was recalculated in 1990 to reflect benefit improvements and is being amortized on a level percentage of salary basis over a period of 40 years beginning January 1, 1990, for the employers in the WRS prior to 2009, or on the effective date of the employer's participation, whichever is later. Liabilities for employers joining the WRS beginning in 2009 are amortized over 30 years. Prior service rates vary by employers. The percentage reported represents a weighted average.

INVESTMENT SECTION

State of Wisconsin
Department of Employee Trust Funds

INVESTMENTS

The State of Wisconsin Investment Board (SWIB) is the state agency that invests the assets of the Wisconsin Retirement System (WRS) and other trust funds established by the State of Wisconsin. The WRS Trust Funds make up about 93% of the assets managed by SWIB. The effect of investment returns on WRS participants, determined by the Department of Employee Trust Funds, is based on the rate of return as of December 31, 2016.

SWIB publishes an annual report and a schedule of investments that includes all investment holdings as of the end of the calendar year. To view these publications online, go to <http://www.swib.state.wi.us> or call (608) 266-3281 to request paper copies.

Board of Trustees

SWIB is directed by an independent Board of Trustees and staffed with professional money managers and support personnel. The SWIB Board of Trustees consists of nine members meeting specific membership requirements, as directed by Wis. Stat. § 15.76. The Board of Trustees appoints the SWIB executive director. The executive director oversees the staff, develops and recommends agency and investment policies for board adoption, and ensures adherence to state and federal law and policies. Trustee responsibilities include establishing asset allocation, investment guidelines, and performance benchmarks.

Membership on the Board of Trustees as of December 31, 2016, is as follows:

1. Six public members appointed by the governor, four of whom must have at least 10 years investment experience and one of whom must have at least 10 years of financial experience and be employed by a local government active in the Local Government Investment Pool, a fund managed by SWIB.

Chair: David Stein (Public Member)
Executive Vice President and Head of Consumer & Business Banking, Associated Banc-Corp, Madison

Vice Chair: Norman Cummings

(Local Government Member) Waukesha County Director of Administration, Waukesha

Mark Doll, Retired Executive Vice President and Chief Investment Officer, Northwestern Mutual Life Insurance Co., Milwaukee

Barbara Nick, President and Chief Executive Officer, Dairyland Power Cooperative, La Crosse

Tim Sheehy, President and Chief Executive Officer, Dairyland Power Cooperative, La Crosse

Paul Stewart, Co-Founder, PS Capital Partners, Milwaukee

2. Two participants in the WRS, one must be a teacher member appointed by the Teachers Retirement Board; the other must be a non-teacher participant appointed by the Wisconsin Retirement Board.

Sandra Clafin-Chalton (WRS participant, Teachers Retirement Board appointee)
Senior Lecturer-Economics, University of Wisconsin-Stout, Department of Social Science

Robert J. Conlin (WRS participant, Wisconsin Retirement Board appointee)
Secretary, Department of Employee Trust Funds

3. The Secretary of the Wisconsin Department of Administration (DOA) or designee.

Scott Neitzel, Secretary, DOA
