Computer Standards

- The Computer Equipment and Related Services Contract has always had standard computer configurations.

- The Standard Configurations are discounted at 60%, and other models are only required to be discounted around 20-40% depending on Manufacturer.

- After reviewing contract spend, we realized no one was buying the computer standard models, and that many were outdated.

- A new standards committee was formed to review what is currently being purchased, and how to revise our current standards

- The Standards Committee included IT professionals from DET, DOT, DNR, DOR, DVA, DATCP, DWD and Elections

Wisconsin State Procurement Conference

Computer Configuration Requirements

- Ram options increased to 16Gb for desktops and laptops and 32 Gb as standard for workstations

- M.2 256 SSD hard drives are now required, to increase speed and security data encryption features

- Warranties are now required to be a minimum of 4 years

- In addition, we added tablet/2-in-1 laptops

Wisconsin State Procurement Conference

Computer Upgrades

- For our new standards, we have also added specific monitors and docking stations as upgrades so that we can get better pricing.

- In addition, there is extended warranty options, as well as USB DVD drives for Laptops and updated graphic cards.
