

Routes to Recovery Grants provide \$200 million in flexible grants for local government's unbudgeted expenditures incurred this year due to the COVID-19 pandemic, that have not already been covered through existing State of Wisconsin virus response efforts. Grants will cover reimbursements for:

- Emergency operation activities, including those related to public health, emergency services, and public safety response
- Medical and protective services and equipment, including PPE
- Cleaning, sanitizing, and other costs of COVID-19 mitigation in public areas and facilities, including those related to elections administration
- Temporary isolation housing for infected or at-risk individuals
- Testing and contact tracing costs above those covered by existing State programs
- Paid leave for public health and safety employees to take COVID-19 precautions
- Meeting local match requirements for expenses submitted for reimbursement by FEMA, to the full extent permitted by federal law
- Increased workers compensation costs due to COVID-19
- Purchases of services or equipment to facilitate telework by public employees

The determination of a local government's **Routes to Recovery Grant** amount is a formula based on the jurisdiction's population, as well as the priority of providing Wisconsin's units of local government no less than \$5,000, regardless of size of the population.

\$10million of **Routes to Recovery Grants** have also been set aside for Wisconsin's Tribal Partners.

Routes to Recovery Grant Allocation Amounts for Wisconsin Counties

Reminder: The **Routes to Recovery Grants** are on-top of the \$1 Billion in resources Governor Evers has already allocated for the state-wide response to COVID-19. These resources include the distribution of testing supplies, PPE, contact tracing, and other valuable resources to communities across the state.

County Name	Estimated population	Routes to Recovery Grant Allocation
Adams	20,630	\$335,393
Ashland	15,946	\$259,243.00
Barron	46,472	\$755,520.00
