## **AGENCY DESCRIPTION**

The board is comprised of six members, each of whom must have formerly been elected to and served as a judge of a court of record in Wisconsin. Members are appointed to six-year terms by the Governor from nominations submitted by a nominating committee called the Government Accountability Candidate Committee consisting of four current Court of Appeals judges selected randomly by the Supreme Court Chief Justice. Members are required to be nonpartisan. The new agency is unique to the United States.

The director and general counsel serves as the agency head and the chief election officer of the state. The board staff also is nonpartisan. The agency is organized into two divisions: Elections, and Ethics and Accountability. The board is responsible for the administration and enforcement of campaign finance, elections, ethics and lobbying laws.

#### **MISSION**

The mission of the board is to enhance representative democracy by ensuring the integrity of the electoral process and further Wisconsin's tradition of clean and open government through its administration of Wisconsin's elections and ethics codes, campaign finance and lobbying laws, and dissemination of information to the public.

## PROGRAMS, GOALS, OBJECTIVES AND ACTIVITIES

Note: Goals, objectives and activities have been modified.

# Program 1: Administration of Elections, Ethics and Lobbying Laws

Goal: Ensure open, fair and transparent elections, by cultivating public confidence in the integrity of the electoral process.

Objective/Activity: Provide educational, training and informational resources to elections officials and to Wisconsin electorate, the general public.

Goal: Make readily available to voters complete information as to who is supporting or opposing a candidate or cause and to what extent, whether directly or indirectly. The board makes the following information available on the Internet and in its office: list of reports filed, summary of data reports, information about late campaign activity and detailed campaign finance report information.

Objective/Activity: Provide educational, training and informational resources to candidates, committees and treasurers on the requirements of campaign finance laws and on using the board's electronic filing system (CFIS). Enter campaign finance report data received on paper on the day of receipt, and prepare and post reports on Web site within 24 hours of receipt.

Goal: Identify interests influencing government and identify conflicting interests.

Objective/Activity: Identify for the public the businesses, organizations and individuals attempting to influence governmental decisions, the issues in which they have an interest, and other pertinent information; and provide information about governmental officials' financial interests to confirm for the public the absence of conflicting interests or to identify conflicts meriting attention. Provide for the regular update and enhancement of an interactive Web site, which permits anyone with Internet access capabilities to search for and view data relating to lobbyists, the organizations that employ them, the issues on which they are lobbying, lobbying activity, and expenditures for current and past sessions.

Goal: Enforce statutory requirements. This goal fosters the continued high standards of ethical conduct by state government officials, lobbyists and lobbying organizations through independent investigation, and reassures the public that the State of Wisconsin is equipped to redress conduct that falls short of statutorily established standards.

Objective/Activity: Investigate possible violations of the ethics code, lobbying law and campaign finance law, and seek appropriate remedies or exoneration as circumstances warrant.

<sup>&</sup>lt;sup>2</sup>The number includes the mailings to voters as part of the Retroactive HAVA Check process, responses from voters, returned letters, as well as regular contact to and from the public.

<sup>3</sup>The Government Accountability Board Surveys of Clerk's Assessment of Customer Service Provided.

In early 2010, board staff conducted an on-line survey on when the board should extend operation hours before, during and after elections. Of the board's 1,923 clerk customers and local official partners, 185 did not have E-mail accounts at that time (currently 175 clerks do not have E-mail accounts). Of the 1,738 who inherited the survey on-line, 790 or 45.5% responded, and favorably.

The board has conducted yet another on-line survey regarding the board's communication protocol, clerks' satisfaction with the board's services during the February 16, 2010, Spring Primary and April 6, 2010, Spring Election, and suggestions on how the board could improve services to clerks as we approach the 2010 Fall Election Cycle. The 175 clerks who do not have E-mail accounts were sent paper copies of the survey. The deadline for returning the survey was Monday, August 23, 2010, and 717 surveys (or 37%) were returned. The results are being analyzed, and a preliminary review indicates the responses are favorable.

<sup>4</sup>The University of Wisconsin-Madison's Political Science Department's Study (*Wisconsin Voter Experience in the November 2008 General Election*), April 2009.

Respondents in Wisconsin and in other states were polled immediately following the November 4, 2008, General and Presidential Election and were asked about their means of voting, problems they faced and other evaluation of their experience. Compared to voters in other Big Ten states and the rest of the nation, no matter what form in which Wisconsin's electors cast their votes, i.e. in person on Election Day, in person before Election Day or the casting of their ballot by mail, their voting experience and level of satisfaction was "the most satisfied."

According to the University of Wisconsin-Madison study, compared to other states, Wisconsin residents were:

- Able to vote quickly and without incident.
- More satisfied, experienced fewer problems and expressed more confidence that their votes were counted fairly.
- More likely to cast their ballots early in person and much less likely to vote absentee by mail.
- More likely to register at the polls.
- Quite confident that their ballots were counted as they intended.
- Extremely satisfied with their voting experience.

#### Additionally,

- Very few Wisconsin voters encountered problems with their registration.
- Voting in Wisconsin took less time than in other states, with three-quarters of Wisconsin voters who cast their ballots at the polls took less than ten minutes to vote.

<sup>5</sup>The University of Wisconsin-Madison's Political Science Department's Study of the Agency's New Election Data Collection and Voter Participation Management System.

As part of a 2009 independent study of the board's election data collection system supported with a competitively-awarded grant made to the board by the U. S. Election Assistance Commission to improve election data collection and voter participation statistics, the University of Wisconsin, Department of Political Science professors surveyed Wisconsin's 1,923 county and municipal clerks on a variety of topics and 1,388 surveys were completed, a response rate of 72%. The results were presented to the board in 2010. Respondents gave the agency high marks for services provided by the board.

<sup>6</sup>7,050 local election officials received classroom training.

<sup>&</sup>lt;sup>7</sup>6,150 local election officials received classroom training.

The Governor recommends increasing state employee contributions towards pension and health insurance costs. Employees will generally pay 50 percent of the total required retirement contribution, which for calendar year 2011 equals 5.8 percent of salary. The Governor further recommends increasing employee contributions for health insurance from approximately 6 percent of the premium to 12.6 percent of the premium. These modifications are necessary to bring state employee compensation in line with private sector employment and reduce compensation costs.
