AGENCY DESCRIPTION

The program was created in 1997 Wisconsin Act 27 to expand lending activities related to the water quality of our state. The program operates three lending programs for the purposes of construction and expansion of wastewater facilities, construction and expansion of public drinking water facilities, and remediation of municipally-owned contaminated lands. The Department of Natural Resources has lead responsibility for the environmental and project management aspects of the program. The Department of Administration is responsible for the financial management of the program.

PROGRAMS, GOALS, OBJECTIVES AND ACTIVITIES

Program 1: Clean Water Fund Program Operations

Goal: Protect the water quality of our surface water and ground waters by funding the repair, rehabilitation, expansion, and construction of municipal wastewater collection and treatment facilities.

Goal: Encourage communities to undertake needed surface water and ground water construction projects in a timeframe that is in the best interests of the community and the environment.

Goal: Provide the most cost effective means of capital to communities.

Goal: Reduce the amount of GPR support needed.

Program 2: Safe Drinking Water Loan Program Operations

Goal: Protect public health by providing the financial resources necessary for communities to maintain safe and adequate public drinking water systems.

Goal: Encourage communities to undertake needed drinking water supply construction projects in a time frame that is in the best interests of the community and the environment.

Goal: Provide the most cost effective means of capital to communities.
